Dear Shareholder

Syngenta today announced that ChemChina has agreed to submit an offer to acquire the company at USD 465 per share plus a special dividend of CHF 5 to be paid conditional upon and prior to closing. It is planned to make a facility available for the conversion of US dollar proceeds into Swiss francs on closing. More details will follow in the

coming weeks.

I am convinced that this is an excellent offer which recognizes the value of Syngenta's leading portfolio and market positions. The transaction will ensure strategic continuity and long term investment in innovation, while minimizing operational disruption. Syngenta will remain Syngenta and will continue to be a global company headquartered in Switzerland.

There is committed financing for the deal, which is subject to regulatory clearances. A tender offer will commence in the coming weeks and the transaction is expected to conclude by the end of the year.

The Board of Directors of Syngenta considers that the proposed transaction respects the interests of all stakeholders and unanimously recommends that you accept the offer. This offer represents a premium of nearly 50% over our "undisturbed" price of April 2015 and represents a very attractive multiple to EBITDA and Earnings per Share.

Syngenta is the world leader in crop protection having significantly increased its global market share over the last ten years. This deal will enable us to maintain and expand this position, while at the same time significantly increasing the potential for our seeds business. It will ensure continuing choice for growers and ongoing R&D investment across technology platforms and across crops. Our commitment to cost and capital efficiency will remain unchanged.

The transaction will also enable further expansion of Syngenta's presence in emerging markets and notably in China, where the company already has long experience, currently employing around 2000 people. In addition to its array of modern chemistry, Syngenta will contribute its experience and know-how in promoting the highest environmental standards and in nurturing thriving rural communities. These objectives are reflected in the commitments contained in The Good Growth Plan, which have been explicitly endorsed by ChemChina and which will continue to form an integral part of the company's strategy.

Syngenta's existing management will continue to run the company with John Ramsay as CEO *ad interim*. The Board of Directors will be chaired by Ren Jianxin and Michel Demaré will be Vice Chairman. Three of the existing Board members will also join the Board. ChemChina is committed to maintaining the highest governance standards with a view to an IPO of the business in the years to come.

With this transaction we are able to create significant shareholder value and preserve Syngenta's identity, culture and values while ensuring that we continue to innovate at scale and provide choice for growers worldwide.

I hope that you will accept the offer which is unanimously supported by our Board of Directors. I remain at your disposal in case you have any questions.

Michel Demaré

Chairman of the Board
