**Selected Risk Considerations**

- The securities do not pay interest.
- Your potential return on the securities is limited. Your potential total return on the securities at maturity is limited to the digital return amount at maturity, even if the underlying appreciates by significantly more than the digital return amount.
- You will not receive dividends or have any other rights with respect to the underlying.
- Your payment at maturity depends on the closing value of the underlying on a single day.
- The securities are subject to the credit risk of Citigroup Global Markets Holdings Inc. and Citigroup Inc. If Citigroup Global Markets Holdings Inc. defaults on its obligations under the securities and Citigroup Inc. defaults on its guarantee obligations, you may not receive anything owed to you under the securities.
- The securities will not be listed on any securities exchange and you may not be able to sell them prior to maturity.
- The estimated value of the securities on the pricing date will be less than the issue price. For more information about the estimated value of the securities, see the accompanying preliminary pricing supplement.
- The value of the securities prior to maturity will fluctuate based on many unpredictable factors.
- Risks associated with real estate companies will affect the value of the underlying.
- Risks associated with REITs will affect the value of the underlying.
- The value of the securities and the value of the underlying will not directly correlate to residential housing prices.
- The value and performance of the underlying shares may not completely track the performance of the underlying index that the underlying seeks to track or the net asset value per share of the underlying.
- The issuer and its affiliates may have conflicts of interest with you.

- The U.S. federal tax consequences of an investment in the securities are unclear.
