Report of Independent Registered Public Accounting Firm

To the Participants and Administrator of
the Profit Participation Plan of Moody's Corporation

In our opinion, the accompanying statements of net assets available for benefits and the related statement of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of the Profit Participation Plan of Moody's Corporation (the Plan) at December 31, 2004 and 2003, and the changes in net assets available for benefits for the year ended December 31, 2004 in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Profit Participation Plan of Moody's Corporation

Notes to Financial Statements

1. Background and Plan Description

The Profit Participation Plan of Moody's Corporation (the Plan) is a defined contribution plan established to provide a convenient way for eligible employees to save on a regular and long-term basis. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Prior to September 30, 2000, Moody's Corporation (Moody's or the Company) operated as a subsidiary of The Dun & Bradstreet Corporation (Old D&B). On September 30, 2000 (the Distribution Date), the Company separated from Old D&B and has since operated as an independent public company. On the Distribution Date, the Company established the Profit Participation Plan of Moody's Corporation for the benefit of its eligible employees. Moody's participants balances were transferred from the Old D&B Profit Participation Plan to the Moody's Plan in October 2000. The following summary provides an overview of major Plan provisions and is provided for general information purposes. Employees who participate in the Plan or former employees who have assets in the Plan should refer to the Plan document for more complete information and a full description of the Plan provisions and qualifications.

Eligibility

Full time employees of the Company are immediately eligible to participate in the Plan on their date of hire. Part time employees are eligible to participate in the Plan when they work at least one thousand hours either during the consecutive twelve-month period following employment, or in any calendar year following employment.

Contributions

Participants contribute to the Plan by authorizing payroll deductions between 1% and 16% of their compensation as defined in the Plan. The Company makes matching contributions (the Company Matching Contribution) equal to 50% of the first 6% of annual compensation that is contributed to the Plan. Participants' contributions under the Plan may be made from after-tax earnings and/or from before-tax earnings, the latter form of contribution having the effect of reducing the participant's current taxable earnings for federal income tax purposes. A participant's aggregate contributions may not exceed 16% of the participant's compensation subject to an overall limit on before-tax contributions imposed by the Internal Revenue Code (the IRC). Year-end payroll deductions for participant contributions and the corresponding Company Matching Contribution not remitted to the Plan until after year-end are recorded as receivables in the Plan financial statements. At December 31, 2004, the employee contribution receivable was approximately \$390,000 and the Company Matching Contribution receivable was approximately \$120,000.

The Plan provides for additional Company matching contributions based on the Company's earnings per share (EPS) (the EPS Match). In 2004 and 2003, an EPS Match was accrued when the Company's growth in EPS versus the prior year was greater than 7%. The aggregate EPS Match for all eligible Plan participants was \$6.3 million for 2004 and \$8.5 million for 2003. These amounts were reflected in the financial statements as employer contributions receivable at December 31, 2004 and 2003 and paid to the Plan in March 2005 and March 2004, respectively. For participants who are younger than age 50, the EPS Match is invested and held in the Moody's Corporation Stock Fund and may not be transferred to another Plan fund prior to the participant reaching age 50. For participants age 50 and over, the EPS Match is invested consistent with the participant's normal investment elections. See Note 6 for further information.

Participant Accounts

A separate account is established and maintained for each Plan participant. Contributions are invested in one or more of the Plan's investment funds as designated by the participant. Participants are not permitted to invest more than 50% of their account balance in the Moody's Common Stock Fund. Income earned and net appreciation or depreciation on Plan investments for a given fund is allocated on a daily basis in proportion to the participant's account balance in that fund. See Note 6 for further information.

Table of Contents

Distributions

Upon retirement or other termination of service with the Company, participants become eligible for a lump sum distribution of the vested portion of their account balance. In the case of account balances in excess of \$5,000, participants may select a deferred distribution method from various options available under the Plan. Participants' vested benefits that are less than \$5,000 will receive an automatic distribution of their balance.

Participant Loans

Participants may obtain loans from the Plan, which are collateralized by the participant's account balance. The Plan limits the total number of loans outstanding at any time for each participant to two general-purpose loans and a principal residence loan. The minimum loan permitted by the Plan is \$500 and the maximum permissible amount of all loans outstanding at any time is the lower of 50% of a participant's vested account balance or \$50,000. Interest rates applicable to Plan loans are based on the prime rate as reported in The Wall Street Journal on the last business day of the month before the loan is processed plus 200 basis points. At December 31, 2004 and 2003, interest rates on participant loans ranged from 6.00% to 11.50%.

Vested Benefits and Forfeitures

Participants immediately vest in their own contributions to the Plan, as well as any earnings thereon. The Plan provides for vesting in the value of Company contributions to a participant's Plan account after three years of service beginning on the participant's initial employment date with the Company. In addition, a participant becomes 100% vested in the value of Company contributions immediately upon attainment of age 65, upon death, or if they become totally and permanently disabled. When Moody's separated from Old D&B, all Company contributions through the Distribution Date became fully vested. Subsequent Company contributions are subject to the aforementioned vesting provisions.

Amounts forfeited by nonvested participants who terminated employment during the year ended December 31, 2004 were approximately \$220,000. Forfeited amounts are used to reduce future Company contributions.

Administration of the Plan

The Plan is administered by the Governance and Compensation Committee of the Board of Directors of Moody's Corporation, which has delegated certain authority related to the Plan to the Management Benefits and Compensation Committee. Fidelity Management Trust Company (the Trustee) is Trustee of the Plan and has custody of the Plan's assets.

Related Party Transactions

Certain Plan investments are managed by the Trustee, and therefore qualify as party-in-interest transactions. Plan investments in the common stock of the Company also qualify as party-in-interest transactions. The expenses of administering the Plan are paid by the Company except for investment management fees, which are charged to the Plan and totaled approximately \$17,000 for the year ended December 31, 2004.

Plan Termination

While the Company has not expressed any intent to discontinue its contributions or to terminate the Plan, it is free to do so at any time subject to the provisions of ERISA and the IRC which state that, in such event, all participants of the Plan shall be fully vested in the amounts credited to their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual method of accounting. For financial statement purposes, participant withdrawals and distributions (benefit payments) are recorded when paid. At December 31, 2004, all benefit payments processed and approved for payment had been paid by the Plan.

Table of Contents

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts in the Statements of Net Assets Available for Benefits and disclosures at the date of the financial statements and the reported amounts of additions and deductions in the Statement of Changes in Net Assets Available for Benefits. The most significant estimate relates to the valuation of investments. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options consisting of stocks, bonds, fixed income securities, mutual funds, and other investment securities. Certain investment securities are exposed to various risks, such as interest rate fluctuations, market conditions and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in valuations in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Investment Valuation

Moody's Corporation common stock and The Dun & Bradstreet Corporation common stock are valued at the closing market price on the last business day of the year. The common trust funds and mutual funds are recorded at fair value based on the closing market prices of the underlying investments held by the fund on the last business day of the year. Participant loans are valued at cost which approximates fair value.

Investment Transactions and Investment Income

Purchases and sales of securities are reflected on a trade-date basis. Dividend income is recorded on the ex-dividend date. Other investment income is recorded as earned on an accrual basis.

Net Appreciation/(Depreciation) of Investments

The net appreciation (depreciation) in the fair value of plan investments presented in the Statement of Changes in Net Assets Available for Benefits consists of realized gains or losses and unrealized appreciation (depreciation) on those investments.

3. Investments

The Plan currently consists of the following fifteen funds:

1. The Special Fixed Income Fund is a combination of Fidelity's Managed Income Portfolio II (MIP II) and investment contracts previously purchased by the Plan. The investment contracts matured as of December 31, 2003 and the proceeds from the investment contracts were invested in MIP II. MIP II invests in investment contracts offered by major insurance companies and other approved financial institutions and in certain types of fixed income securities. Investment contracts provide for the payment of a specified rate of interest to MIP II and for the repayment of principal when the contract matures.
2. The Fidelity U.S. Bond Index Fund is mainly invested in bonds included in the Lehman Brothers Aggregate Bond Index, which is comprised of fixed-rate debt issues including government, corporate, asset-backed and mortgage-backed securities.

3. The Fidelity PIMCO Total Return Fund is invested in all types of bonds, including U.S. government, corporate, mortgage-backed and foreign bonds.
4. The Fidelity Equity-Income Fund is mainly invested in income-producing equity securities, which tends to lead to investments in large-capitalization stocks. The fund may also invest in other types of equity and debt securities, including lower-quality debt securities.

Table of Contents

5. The Fidelity U.S. Equity Index Commingled Pool is primarily invested in common stocks included in the S&P 500 Index, which contains 500 large U.S. based companies.
6. The Fidelity Aggressive Growth Fund is primarily invested in common stocks of foreign and domestic issuers. The fund invests in companies that the fund believes offer the potential for accelerated earnings or revenue growth.
7. The Fidelity Blue Chip Growth Fund is mostly invested in common stocks of well-known and established companies considered blue chip by the fund's investment manager. The fund may also invest in companies with strong earnings and future growth potential that the fund's investment manager believes are positioned to become the blue chips of the future.
8. The Fidelity Low-Priced Stock Fund is mostly invested in low-priced common stocks, which are priced at or below \$35 per share at the time of investment. The fund may potentially invest in stocks not considered low-priced. The fund closed to new investors on July 30, 2004.
9. The Fidelity Mid-Cap Stock Fund is mostly invested in common stocks of companies with market capitalizations that are similar to those of companies in the S&P MidCap 400 Index. The fund may also consider investing in companies with smaller or larger market capitalizations.
10. The Fidelity Diversified International Fund invests the majority of its assets in foreign securities. Normally assets are invested primarily in common stock.
11. The Spartan Extended Market Index Fund is mostly invested in common stocks included in the Wilshire 4500, which represents the performance of stock of mid- to small- capitalization U.S. companies.
12. The Spartan International Index Fund is mostly invested in common stocks included in the Morgan Stanley Capital International Europe, Australasia, and Far East Index, which represents the performance of foreign stock markets. The fund may lend securities to earn income.
13. Fidelity Asset Manager allocates the fund's assets among stocks, bonds, and short-term and money market instruments, with the long-term objective of maintaining the asset allocation at 50%, 40% and 10%, respectively. At any point in time, the fund's asset allocation can be within the following ranges: stock class 30% to 70%; bond class 20% to 60%; and short-term/money market class 0% to 50%.
14. The Moody's Corporation Stock Fund is invested in the common stock of Moody's Corporation. Ownership is measured in units of the fund instead of shares of stock.
15. The Dun & Bradstreet Legacy Fund is primarily invested in the common stock of The Dun & Bradstreet Corporation. Ownership is measured in units of the fund instead of shares of stock. This fund consists only of amounts transferred from the Old D&B Plan, and as of the Plan inception date was not open to new investments.

Table of Contents

At December 31, 2004 and 2003, the Plan's assets were invested as described below. Individual investment balances that represent 5% or more of net assets at December 31, 2004 and 2003 are listed separately as of the applicable date.

	December 31, 2004 2003 (in thousands)	
Common Trust Funds:		
Fidelity Managed Income Portfolio (34,584,788 and 33,603,948 shares, respectively)	\$ 34,585	\$ 33,537
Fidelity U.S. Equity Index Commingled Pool (1,093,042 and 1,005,961 shares, respectively)	40,902	33,971
Total Common Trust Funds	75,487	67,508
Common Stock Funds:		
Moody's Corporation Stock Fund* (1,343,442 and 1,105,164 units, respectively)	43,326	25,015
Common stock funds individually less than 5% of net assets	2,646	2,290
Total Common Stock Funds	45,972	27,305
Mutual Funds:		
Fidelity U.S. Bond Index Fund (795,272 shares)	***	8,899
Fidelity Low-Priced Stock Fund (279,249 shares)	11,240	**
Mutual funds individually less than 5% of net assets	65,555	46,211
Total Mutual Funds	\$ 76,795	\$ 55,110
Total Investments	\$ 198,254	\$ 149,923

* Includes nonparticipant-directed investments.

** Included in mutual funds individually less than 5% for 2003, since it represents less than 5% of net assets at December 31, 2003.

*** Included in mutual funds individually less than 5% for 2004, since it represents less than 5% of net assets at December 31, 2004.

During the year ended December 31, 2004, the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, appreciated in value as follows:

	December 31, 2004 (in thousands)
Mutual Funds	\$ 7,783
Common Trust Funds - Fidelity Managed Income Portfolio and the Fidelity U.S. Equity Index Commingled Pool	4,803
Moody's Corporation Stock Fund	12,049

The Dun & Bradstreet Legacy Fund		388
Net Appreciation	\$	25,023

4. Nonparticipant-Directed Investments

Participants at their discretion may invest their contributions in any or all of the investment fund options offered under the Plan, including the Moody’s Corporation Stock Fund but excluding the Dun & Bradstreet Legacy Fund and the Fidelity Low-Priced Stock Fund, which are not open to new investments. However, for participants under the age of 50, the Company’s EPS Match contribution is invested and held in the Moody’s Corporation Stock Fund and may not be transferred to another Plan fund prior to the participant reaching age 50. This Plan provision was effective beginning with the EPS Match contribution deposited into the Moody’s Corporation Stock Fund in March 2002. The components of the market value of the Moody’s Corporation Stock Fund are as follows:

Table of Contents

	December 31,	
	2004	2003
	(in thousands)	
Participant Directed	\$ 15,875	\$ 10,828
Nonparticipant-Directed	27,451	14,187
Total market value	\$ 43,326	\$ 25,015

The components of the changes in the market value of the nonparticipant-directed investments are as follows:

	Year Ended December 31, 2004 (in thousands)
Changes in Net Assets:	
Net appreciation in fair value of investments	\$ 7,364
Dividends	89
Contributions	7,245
Benefits paid to participants	(985)
Administrative expenses	(4)
Net loan activity	(15)
Forfeitures	(107)
Transfers to participant-directed investments	(323)
Change in Net Assets	13,264
Balance, beginning of the year	14,187
Balance, end of the year	\$27,451

5. Tax Status

The Internal Revenue Service has determined and informed the Company, by a letter dated July 23, 2002, that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

6. Subsequent Event

As discussed in Note 1 and Note 4, for participants who are younger than age 50, the EPS Match is invested and held in the Moody's Corporation Stock Fund and may not be transferred to another Plan fund prior to the participant reaching age 50. Effective January 1, 2005, this restriction for participants who are younger than age 50 was eliminated. Any EPS match contributed by the Company after January 1, 2005 would be invested in the participants normal contribution elections under the Plan. Also beginning January 1, 2005, the maximum amount of contributions that can be invested in the Moody's Stock Fund will be reduced from 50% to 25%.

As discussed in Note 1, upon retirement or other termination of service with the Company, participants' vested benefits that are less than \$5,000 will receive an automatic distribution of their balance. Effective March 28, 2005, the cash-out distribution threshold has been reduced from \$5,000 to \$1,000.
