- (1) The appraised base value of each Aircraft set forth above is the lesser of the average and median values of such Aircraft as appraised by three independent appraisal and consulting firms, projected as of the scheduled delivery month of each Aircraft. These appraisals are based upon varying assumptions and methodologies. An appraisal is only an estimate of value and should not be relied upon as a measure of realizable value. See Risk Factors Risk Factors Relating to the Certificates and the Offering The Appraisals Are Only Estimates of Aircraft Value in the Supplement. The appraised value of each of the other Boeing 737-824 and 737-924ER aircraft that Continental may

choose to
finance pursuant
to this offering
is equal to or
higher than the
appraised value
of each of the
Aircraft of the
same model
listed above.

Loan to Aircraft Value Ratios

The following table sets forth loan to Aircraft value ratios (LTVs) for each Class of Certificates as of April 19, 2009 (the first Regular Distribution Date that occurs after all Aircraft assumed to be financed in this Offering are scheduled to have been delivered) and each Regular Distribution Date thereafter. The LTVs for any Class of Certificates for the period prior to April 19, 2009 are not meaningful, since during such period all of the Equipment Notes expected to be acquired by the Trusts and the related Aircraft will not be included in the calculation. The table should not be considered a forecast or prediction of expected or likely LTVs but simply a mathematical calculation based on one set of assumptions. See Risk Factors Risk Factors Relating to the Certificates and the Offering Appraisals and Realizable Value of Aircraft in the Supplement.

(1) We have assumed that the initial appraised value of each Aircraft, determined as

described under

Equipment
Notes and the
Aircraft above,
declines by
approximately
3% per year
after the
delivery of such
Aircraft. Other
rates or methods
of depreciation
may result in
materially
different LTVs.
We cannot
assure you that
the depreciation
rate and method
used for
purposes of the
table will occur
or predict the
actual future
value of any
Aircraft. See

Supplement.

- (2) In calculating
the outstanding
balances of each
Class of
Certificates, we
have assumed
that the Trusts
will acquire the
Equipment
Notes for all
Aircraft.
Outstanding
balances as of

each
Distribution
Date are shown
after giving
effect to
distributions
expected to be
made on such
distribution
date.

- (3) The LTVs for each Class of Certificates were obtained for each Regular Distribution Date by dividing (i) the expected outstanding balance of such Class together with the expected outstanding balance of each other Class senior in right of payment to such Class after giving effect to the distributions expected to be made on such date, by (ii) the assumed value of all of the Aircraft on such date based on the assumptions described above. For the purposes of these calculations it has been assumed that the first 12 Boeing 737-824 aircraft of the 15 Boeing

737-824 aircraft
and the first 18
Boeing
737-924ER
aircraft of the 24
Boeing

aircraft from
which
Continental may
choose are
financed
hereunder. The
outstanding
balances and
LTVs of each
Class of
Certificates will
change if the
Trusts do not
acquire
Equipment
Notes with
respect to all the
Aircraft. The
LTVs will
change if the
Trusts acquire
Equipment
Notes with
respect to the
other aircraft
from which
Continental may
choose.

Assumed Amortization Schedule and resulting Pool Factors:

The following table sets forth the expected aggregate principal amortization schedule for the Equipment Notes held in each Trust (the Assumed Amortization Schedule) and resulting Pool Factors with respect to such Trust. The scheduled distribution of principal payments for any Trust would be affected if Equipment Notes with respect to any Aircraft are not acquired by such Trust, if any Equipment Notes held in such Trust are redeemed or purchased or if a default in payment on such Equipment Notes occurs. Accordingly, the aggregate principal amortization schedule applicable to a Trust and the resulting Pool Factors may differ from those set forth in the following table.
