FORWARD-LOOKING STATEMENTS

Statements contained in this filing and certain other written or oral statements made from time to time by the company and its representatives that are not historical facts are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements relate to current expectations regarding our future financial condition and results of operations and are often identified by the use of words and phrases such as anticipate, believe, continue, could, estimate, expect, intend, may, plan, predict, project, shou to, is expected to or will continue, or the negative of these terms or other comparable terminology. These forward-looking statements are based upon assumptions we believe are reasonable.

Forward-looking statements are based on current information and are subject to risks and uncertainties that could cause our actual results to differ materially from those projected. Certain factors that may cause actual results, performance, and achievements to differ materially from those projected are discussed in this report and may include, but are not limited to:

- unexpected changes in any of the following: (i) general economic and business conditions; (ii) the competitive setting in which we operate, including changes in pricing, advertising or promotional strategies by us or our competitors, as well as changes in consumer demand; (iii) interest rates and other terms available to us on our borrowings; (iv) energy and raw materials costs and availability and hedging counter-party risks; (v) relationships with our employees, independent distributors and third party service providers; and (vi) laws and regulations (including environmental and health-related issues), accounting standards or tax rates in the markets in which we operate;

- the loss or financial instability of any significant customer(s);

- our ability to execute our business strategy, which may involve integration of recent acquisitions or the acquisition or disposition of assets at presently targeted values;

- our ability to operate existing, and any new, manufacturing lines according to schedule;

- the level of success we achieve in developing and introducing new products and entering new markets;

- changes in consumer behavior, trends and preferences, including health and whole grain trends, and the movement toward more inexpensive store-branded products;

- our ability to implement new technology as required;

- the credit and business risks associated with our independent distributors and customers which operate in the highly competitive retail food and foodservice industries, including the amount of consolidation in these industries;

- customer and consumer reaction to pricing actions; and

- any business disruptions due to political instability, armed hostilities, incidents of terrorism, natural disasters or the responses to or repercussions from any of these or similar events or conditions and our ability to insure against such events.

The foregoing list of important factors does not include all such factors, nor necessarily present them in order of importance. In addition, you should consult other disclosures made by the company (such as in our other filings with the Securities and Exchange Commission (SEC) or in company press releases) for other factors that may cause actual results to differ materially from those projected by the company. Please refer to Part I, Item 1A., *Risk Factors*, of the company s Form 10-K filed on March 4, 2009 for additional information regarding factors that could affect the company s results of operations, financial condition and liquidity.

We caution you not to place undue reliance on forward-looking statements, as they speak only as of the date made and are inherently uncertain. The company undertakes no obligation to publicly revise or update such statements, except as required by law. You are advised, however, to consult any further public disclosures by the company (such as in our filings with the SEC or in company press releases) on related subjects.

FLOWERS FOODS, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. BASIS OF PRESENTATION

INTERIM FINANCIAL STATEMENTS The accompanying unaudited condensed consolidated financial statements of Flowers Foods, Inc. (the company) have been prepared by the company s management in accordance with generally accepted accounting principles for interim financial information and applicable rules and regulations of the Securities Exchange Act of 1934, as amended. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for annual financial statements. In the opinion of management, the unaudited condensed consolidated financial statements included herein contain all adjustments (consisting of only normal recurring accruals) necessary to present fairly the company s financial position, the results of its operations and its cash flows. The results of operations for the sixteen week periods ended April 25, 2009 and April 19, 2008 are not necessarily indicative of the results to be expected for a full year. The balance sheet at January 3, 2009 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. These financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the company s Annual Report on Form 10-K for the fiscal year ended January 3, 2009.

ESTIMATES The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The company believes the following critical accounting estimates affect its more significant judgments and estimates used in the preparation of its consolidated financial statements: revenue recognition, derivative instruments, valuation of long-lived assets, goodwill and other intangibles, self-insurance reserves, income tax expense and accruals and pension obligations. These estimates are summarized in the company s Annual Report on Form 10-K for the fiscal year ended January 3, 2009.

REPORTING PERIODS The company operates on a 52-53 week fiscal year ending the Saturday nearest December 31. Fiscal 2009 consists of 52 weeks, with the company s quarterly reporting periods as follows: first quarter ended April 25, 2009 (sixteen weeks), second quarter ending July 18, 2009 (twelve weeks), third quarter ending October 10, 2009 (twelve weeks) and fourth quarter ending January 2, 2010 (twelve weeks).

SEGMENTS The company consists of two business segments: direct-store-delivery (DSD) and warehouse delivery. The DSD segment focuses on the production and marketing of bakery products to U.S. customers in the Southeast, Mid-Atlantic, and Southwest as well as select markets in California and Nevada primarily through its direct-store-delivery system. The warehouse delivery segment produces snack cakes for sale to retail, vending and co-pack customers as well as frozen bread, rolls and buns for sale to retail and foodservice customers primarily through warehouse distribution.

SIGNIFICANT CUSTOMER Following is the effect our largest customer, Wal-Mart/Sam s Club, had on the company s sales for the sixteen weeks ended April 25, 2009 and April 19, 2008. No other customer accounted for 10% or more of the company s sales.

	FOR THE SIXTEEN WEEKS ENDED	
	APRIL 25, 2009	APRIL 19, 2008
	(Percent of Sales)	
DSD	17.8%	17.9%
Warehouse delivery	3.0	2.4
Total	20.8%	20.3%

SIGNIFICANT ACCOUNTING POLICIES The following discussion provides the significant changes to our critical accounting policies from those disclosed in our Form 10-K filed for the year ended January 3, 2009.

Earnings Per Share. In June 2008, the FASB issued FSP EITF No. 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities* (FSP 03-6-1). FSP 03-6-1 addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and therefore need to be included in the earnings allocation in calculating earnings per share under the two-class method described in SFAS No. 128, *Earnings Per Share*. The FSP 03-6-1 requires companies to treat unvested share-based payment awards that have non-forfeitable rights to dividend or dividend

Table of Contents

equivalents as a separate class of securities in calculating earnings per share. The FSP 03-6-1 is effective for fiscal years beginning after December 15, 2008; earlier application is not permitted. The company adopted this standard as of January 4, 2009. See Note 10 for the required disclosures and the impact upon adoption of this standard.

Derivatives and other Financial Instruments. In February 2008, the FASB issued Staff Position No. FAS 157-2, *Effective Date of FASB Statement No. 157* (FSP 157-2) which delayed the effective date of SFAS 157 to fiscal years beginning after November 15, 2008 for all nonfinancial assets and liabilities that are recognized or disclosed in the financial statements at fair value on a nonrecurring basis only. These include nonfinancial assets and liabilities not measured at fair value on an ongoing basis but subject to fair value adjustments in certain circumstances, for example, assets that have been deemed to be impaired. The company adopted this standard as of January 4, 2009 and it had no impact upon adoption.

2. COMPREHENSIVE INCOME

Other comprehensive income results from derivative financial instruments and amortization of prior service costs related to the company s defined benefit and postretirement plans pursuant to Statement of Financial Accounting Standard (SFAS) No. 158, *Employers Accounting for Defined Benefit Pension and other Postretirement Plans, an amendment of FASB Statements No. 87, 88, 106 and 132R* (SFAS 158). Total comprehensive income attributable to Flowers Foods, Inc., determined as net income adjusted by other comprehensive income and net income attributable to noncontrolling interest, was $44.6 million and $53.4 million for the sixteen weeks ended April 25, 2009 and April 19, 2008, respectively.

During the sixteen weeks ended April 25, 2009, changes to accumulated other comprehensive loss, net of income tax, were as follows (amounts in thousands):

	2009
Accumulated other comprehensive loss, January 3, 2009	$ (102,279)
Derivative transactions:	
Net deferred (loss) on closed contracts, net of income tax of $(1,655)	(2,647)
Reclassified to earnings, net of income tax of $4,489	7,171
Effective portion of change in fair value of hedging instruments, net of income tax of $1,692	2,703
Amortization of prior service costs, net of income tax of $39	63
Amortization of actuarial loss, net of income tax of $327	523
Accumulated other comprehensive loss, April 25, 2009	$ (94,466)

3. GOODWILL AND OTHER INTANGIBLES

There were no changes in the carrying amount of goodwill for the sixteen weeks ended April 25, 2009. The balance as of April 25, 2009 is as follows (amounts in thousands):

DSD	$ 195,558
Warehouse delivery	4,477
Total	$ 200,035

As of April 25, 2009 and January 3, 2009, the company had the following amounts related to amortizable intangible assets (amounts in thousands):

	April 25, 2009			January 3, 2009		
Asset	Cost	Accumulated Amortization	Net Value	Cost	Accumulated Amortization	Net Value
Trademarks	$ 33,608	$ 2,082	$ 31,526	$ 33,608	$ 1,633	$ 31,975

Customer relationships	75,434	6,974	68,460	75,434	5,784	69,650
Non-compete agreements	1,874	1,261	613	1,874	1,239	635
Distributor relationships	2,600	120	2,480	2,600	67	2,533
Total	$ 113,516	$ 10,437	$ 103,079	$ 113,516	$ 8,723	$ 104,793

There is an additional $1.5 million in indefinite life intangible assets from the ButterKrust Bakery (ButterKrust) acquisition separately identified from goodwill, as discussed in Note 5.

Table of Contents

Aggregate amortization expense for the sixteen weeks ending April 25, 2009 and April 19, 2008 was as follows (amounts in thousands):

	2009	2008
Amortizable intangible assets expense	$ 1,714	$ 481
Amortizable intangible liabilities (income)	(14)	(199)
Total	$ 1,700	$ 282

Estimated amortization of intangibles for each of the next five years is as follows (amounts in thousands):

	Amortization of Intangibles
Remainder of 2009	$ 3,912
2010	$ 5,570
2011	$ 5,515
2012	$ 5,460
2013	$ 5,405

4. RECENT ACCOUNTING PRONOUNCEMENTS

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 establishes a common definition for fair value to be applied to U.S. GAAP requiring use of fair value, establishes a framework for measuring fair value, and expands disclosure about such fair value measurements. SFAS No. 157 is effective for financial assets and financial liabilities for fiscal years beginning after November 15, 2007. The implementation of SFAS No. 157 for financial assets and financial liabilities, effective December 30, 2007, did not have a material impact on our consolidated financial position and results of operations. Please refer to Note 6 Derivative Financial Instruments for a detailed discussion.

In December 2007, the FASB issued SFAS No. 141R, *Business Combinations* (SFAS No. 141R), which changed the accounting for business acquisitions. SFAS No. 141R, as amended by FSP No. 141-1 issued in April 2009, requires the acquiring entity in a business combination to recognize all (and only) the assets acquired and liabilities assumed in the transaction and establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed in a business combination. Certain provisions of this standard impact the determination of acquisition-date fair value of consideration paid in a business combination (including contingent consideration); exclude transaction costs from acquisition accounting; and change accounting practices for acquisition-related restructuring costs, in-process research and development, indemnification assets, and tax benefits. SFAS No. 141R, as amended, was effective to the company for business combinations and adjustments to an acquired entity s deferred tax asset and liability balances occurring after January 3, 2009. This standard had no immediate impact upon adoption.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements* (SFAS No. 160). SFAS No. 160 establishes requirements for ownership interests in subsidiaries held by parties other than the company (sometimes called minority interests) be clearly identified, presented, and disclosed in the consolidated statement of financial position within equity, but separate from the parent s equity. All changes in the parent s ownership interests are required to be accounted for consistently as equity transactions and any noncontrolling equity investments in unconsolidated subsidiaries must be measured initially at fair value. SFAS No. 160 is effective, on a prospective basis, for fiscal years beginning after December 15, 2008. However, presentation and disclosure requirements must be retrospectively applied to comparative financial statements. The company adopted SFAS No. 160 as of January 4, 2009. As a result, upon adoption, the company has classified the Minority Interest in Variable Interest Entity balance to a new component of equity with respect to noncontrolling interests. The adoption also impacted certain captions previously used on the consolidated statement of income by separately identifying net

income, net income attributable to noncontrolling interests and net income attributable to Flowers Foods, Inc. Prior period information presented in this form 10-Q has been reclassified where required.

In March 2008, the FASB issued SFAS No. 161, *Disclosures About Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133* (SFAS No. 161). SFAS No. 161 expands quarterly disclosure requirements in SFAS No. 133 about an entity s derivative instruments and hedging activities. SFAS No. 161 was effective for the company as of January 4, 2009. The additional disclosures required by this standard are included in Note 6.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS 162). SFAS 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles. SFAS 162 is effective 60 days following the Securities and Exchange Commission s approval of the Public Company Accounting Oversight Board amendments to AU Section 411, The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles. We do not anticipate that the adoption of SFAS 162 will materially impact the company.

In December 2008, the FASB issued FSP No. FAS 132(R)-1, *Employers Disclosures about Postretirement Benefit Plan Assets*. This FSP requires additional disclosures about plan assets for sponsors of defined benefit pension and postretirement plans including expanded information regarding investment strategies, major categories of plan assets, and concentrations of risk within plan assets. Additionally, this FSP requires disclosures similar to those required under SFAS No. 157 with respect to the fair value of plan assets such as the inputs and valuation techniques used to measure fair value and information with respect to classification of plan assets in terms of the hierarchy of the source of information used to determine their value. The disclosures under this FSP are required for annual periods ending after December 15, 2009. The company is currently evaluating the requirements of these additional disclosures.

In April 2009, the FASB issued FSP No. FAS 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments*. This FSP essentially expands the disclosure about fair value of financial instruments that were previously required only annually to also be required for interim period reporting. In addition, the FSP requires certain additional disclosures regarding the methods and significant assumptions used to estimate the fair value of financial instruments. These additional disclosures will be required beginning with the quarter ending July 18, 2009. The company is currently evaluating the requirements of these additional disclosures.

5. ACQUISITIONS

On August 4, 2008, the company acquired 100% of the outstanding shares of capital stock of the parent company of ButterKrust. ButterKrust manufactures fresh breads and rolls in Lakeland, Florida and its products are available throughout Florida under the *Country Hearth*, *Rich Harvest*, and *Sunbeam* brands, as well as store brands. The results of ButterKrust s operations have been included in the consolidated financial statements since August 4, 2008 and are included in the company s DSD operating segment. As a result of the acquisition, the company has added additional production capacity in the Florida market.

The aggregate purchase price was $91.3 million in cash, including the payoff of certain indebtedness and other payments and acquisition costs. The following table presents the allocation of the acquisition cost, including professional fees and other related costs, to the assets acquired and liabilities assumed, based on their fair values (amounts in thousands):

	At August 4, 2008	
Purchase price:		
Cash, including acquisition costs	$ 91,258	
Total consideration		$ 91,258
Allocation of purchase price:		
Current assets, including cash of $1.2 million and a current deferred tax asset of $1.0 million	$ 8,039	
Property, plant, and equipment	36,920	
Other assets	1,323	
Intangible assets	22,600	
Goodwill	57,566	
Total assets acquired		$ 126,448
Current liabilities	$ 10,542	

Long-term debt and other	5,161	
Long-term pension and postretirement liabilities	9,081	
Deferred tax liabilities	10,406	
Total liabilities assumed		$ 35,190
Net assets acquired		$ 91,258

The following table presents the allocation of the intangible assets subject to amortization (amounts in thousands, except for amortization periods):

	Amount	Weighted Average Amortization Years
Trademarks	$ 2,200	22.0
Customer relationships	18,900	25.0
Total intangible assets subject to amortization	$ 21,100	24.7

Acquired intangible assets not subject to amortization include trademarks of $1.5 million. Goodwill of $57.6 million is allocated to the DSD operating segment. None of the intangible assets, including goodwill, are deductible for tax purposes.

On August 11, 2008, a wholly owned subsidiary of the company merged with Holsum Holdings, LLC (Holsum). Holsum operates two bakeries in the Phoenix, Arizona area and serves customers in Arizona, New Mexico, southern Nevada and southern California with fresh breads and rolls under the *Holsum*, *Aunt Hattie s*, and *Roman Meal* brands. The results of Holsum s operations are included in the company s consolidated financial statements as of August 11, 2008 and are included in the company s DSD operating segment. As a result of the merger, the company has expanded into new geographic markets.

The aggregate purchase price was $143.9 million, consisting of $80.0 million in cash, including the payoff of certain indebtedness, 1,998,656 shares of company common stock, contingent consideration, a working capital adjustment and acquisition costs. The value of the shares issued was determined based on application of Emerging Issues Task Force Issue 97-15, *Accounting for Contingency Arrangements Based on Security Prices in a Purchase Business Combination* (Issue). The contingent consideration payment of up to $5.0 million is payable to the sellers in cash should the company s common stock not trade over a target price for ten consecutive trading days during the two year period beginning February 11, 2009. Any future contingent payment made will affect the company s equity and not goodwill.

The following table presents the allocation of the acquisition cost, including professional fees and other related costs, to the assets acquired and liabilities assumed, based on their fair values (amounts in thousands):

	At August 11, 2008	
Purchase price:		
Cash, including acquisition costs	$ 80,026	
Common stock	64,377	
Working capital adjustment	(476)	
Total consideration		$ 143,927
Allocation of purchase price:		
Current assets, including a current deferred tax asset of $0.3 million	$ 18,626	
Property, plant, and equipment	54,019	
Other assets	330	
Intangible assets	64,900	
Goodwill	66,131	
Total assets acquired		$ 204,006
Current liabilities	$ 17,972	

Deferred taxes	33,623	
Long-term liabilities	8,484	
Total liabilities assumed		$ 60,079
Net assets acquired		$ 143,927

Table of Contents

The following table presents the allocation of the intangible assets subject to amortization (amounts in thousands, except for amortization periods):

	Amount	Weighted Average Amortization Years
Trademarks	$ 19,200	20.0
Customer relationships	43,100	20.0
Distributor relationships	2,600	15.0
Total intangible assets subject to amortization	$ 64,900	19.8

Goodwill of $66.1 million is allocated to the DSD operating segment. None of the intangible assets, including goodwill, are deductible for tax purposes.

The following unaudited pro forma consolidated results of operations have been prepared as if the acquisitions of ButterKrust and Holsum occurred at the beginning of the first quarter of fiscal 2008 (amounts in thousands, except per share data):

	For the quarter ended April 19, 2008
Sales	$ 747,797
Net income	$ 36,354
Net income per share Basic	$ 0.39
Net income per share Diluted	$ 0.38

These amounts have been calculated after adjusting the results of ButterKrust and Holsum to reflect additional depreciation and amortization that would have been charged assuming the fair value adjustments to property, plant, and equipment, and amortizable intangible assets had been applied from the beginning of the period presented. In addition, pro forma adjustments have been made for the common shares issued for Holsum and the interest incurred for financing the acquisitions. Taxes have also been adjusted for the effect of the items discussed.

6. DERIVATIVE FINANCIAL INSTRUMENTS

Beginning with the first fiscal quarter of fiscal 2008, the company began measuring the fair value of the derivative portfolio using common definitions under SFAS No. 157, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in the principal market for that asset or liability. Under SFAS No. 157, measurements are classified into a hierarchy by the inputs used to perform the fair value calculation as follows:

Level 1: Fair value based on unadjusted quoted prices for identical assets or liabilities in active markets
Level 2: Modeled fair value with model inputs that are all observable market values
Level 3: Modeled fair value with at least one model input that is not an observable market value

This change in measurement technique had no material impact on the reported value of our derivative portfolio.

COMMODITY PRICE RISK

The company enters into commodity derivatives, designated as cash-flow hedges of existing or future exposure to changes in commodity prices. The company s primary raw materials are flour, sweeteners and shortening, along with pulp, paper and petroleum-based packaging products. Natural gas, which is used as oven fuel, is also an important commodity input to production.

Table of Contents

As of April 25, 2009, the company s hedge portfolio contained commodity derivatives with a fair value of $(17.7) million, which is recorded in the following accounts with fair values measured as indicated (amounts in millions):

	Level 1	Level 2	Level 3	Total
Assets:				
Other current	$	$	$	$
Other long-term	1.0			1.0
Total	1.0			1.0
Liabilities:				
Other current	(10.3)	(7.3)		(17.6)
Other long-term		(1.1)		(1.1)
Total	(10.3)	(8.4)		(18.7)
Net Fair Value	$ (9.3)	$ (8.4)	$	$ (17.7)

The positions held in the portfolio are used to hedge economic exposure to changes in various raw material prices and effectively fix the price, or limit increases in prices, for a period of time extending into fiscal 2010. Under SFAS 133, these instruments are designated as cash-flow hedges. The effective portion of changes in fair value for these derivatives is recorded each period in other comprehensive income (loss), and any ineffective portion of the change in fair value is recorded to current period earnings in selling, marketing and administrative expenses. The company held no commodity derivatives at April 25, 2009 or January 3, 2009 that did not qualify for hedge accounting under SFAS 133.

As of April 25, 2009, the balance in accumulated other comprehensive loss related to commodity derivative transactions was $28.4 million. Of this total, approximately $10.7 million and $0.2 million were related to instruments expiring in 2009 and 2010, respectively, and $17.5 million was related to deferred losses on cash flow hedge positions.

INTEREST RATE RISK

On July 9, 2008 and August 13, 2008, the company entered interest rate swaps with notional amounts of $85.0 million, and $65.0 million, respectively, to fix the interest rate on the $150.0 million term loan secured on August 1, 2008 to fund the acquisitions of ButterKrust Bakery and Holsum Bakery, Inc. On October 27, 2008, the company entered an interest rate swap with a notional amount of $50.0 million to fix the interest rate on borrowings outstanding under the company s unsecured credit facility

The interest rate swap agreements results in the company paying or receiving the difference between the fixed and floating rates at specified intervals calculated based on the notional amount. The interest rate differential to be paid or received will be recorded as interest expense. Under SFAS 133, these swap transactions are designated as cash-flow hedges. Accordingly, the effective portion of changes in the fair value of the swaps is recorded each period in other comprehensive income. Any ineffective portions of changes in fair value are recorded to current period earnings in selling, marketing and administrative expenses.

As of April 25, 2009, the fair value of the interest rate swaps was $(8.4) million, which is recorded in the following accounts with fair values measured as indicated (amounts in millions):

	Level 1	Level 2	Level 3	Total
Assets:				
Other current	$	$	$	$
Other long-term				

Total				
Liabilities:				
Other current		(4.3)		(4.3)
Other long-term		(4.1)		(4.1)
Total		(8.4)		(8.4)
Net Fair Value	$	$ (8.4)	$	$ (8.4)

During the sixteen weeks ended April 25, 2009, interest expense of $1.5 million was recognized due to periodic settlements of the swaps.

As of April 25, 2009, the balance in accumulated other comprehensive loss related to interest rate derivative transactions was $5.2 million. Of this total, approximately $1.9 million, $1.8 million, $1.0 million, $0.4 million and $0.1 million was related to instruments expiring in 2009, 2010, 2011, 2012 and 2013, respectively.

Table of Contents

The company has the following derivative instruments located on the consolidated balance sheet, utilized for risk management purposes detailed above (amounts in thousands):

	Derivative Assets				Derivative Liabilities			
	April 25, 2009		January 3, 2009		April 25, 2009		January 3, 2009	
Derivatives designated as hedging instruments under Statement 133	**Balance Sheet location**	**Fair Value**	**Balance Sheet location**	**Fair Value**	**Balance Sheet location**	**Fair Value**	**Balance Sheet location**	**Fair Value**
Interest rate contracts		$		$	Other current liabilities	$ 4,227	Other current liabilities	$ 4,311
Interest rate contracts					Other long term liabilities	4,138	Other long term liabilities	5,137
Commodity contracts	Other long term assets	1,043	Other long term assets	249	Other current liabilities	17,650	Other current liabilities	20,668
Commodity contracts					Other long term liabilities	1,117	Other long term liabilities	618
Total		$ 1,043		$ 249		$ 27,132		$ 30,734

The company has the following derivative instruments located on the consolidated statement of income, utilized for risk management purposes detailed above:

Derivatives in Statement 133 Cash Flow Hedge Relationships	**Amount of Gain or (Loss) Recognized in OCI on Derivative (Effective Portion) For the sixteen weeks ended**		**Location of Gain or (Loss) Reclassified from AOCI into Income (Effective Portion)**	**Amount of Gain or (Loss) Reclassified from Accumulated OCI into Income (Effective Portion) For the sixteen weeks ended**	
	April 25, 2009	**April 19, 2008**		**April 25, 2009**	**April 19, 2008**
Interest rate contracts	$ 666	$	Interest expense (income)	$	$
Commodity contracts			Selling, marketing and administrative	(522)	
Commodity contracts	2,037	14,447	Production costs[1]	(6,649)	(215)
Total	$ 2,703	$ 14,447		$ (7,171)	$ (215)

1. Included in Materials, supplies, labor and other production costs (exclusive of depreciation and

amortization
shown
separately).

Derivatives in Statement 133 Cash Flow Hedge Relationships	Location of Gain or (Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing)	Amount of Gain or (Loss) Recognized in Income on Derivative (Ineffective Portion and Amount Excluded from Effectiveness Testing) For the sixteen weeks ended	
		April 25, 2009	April 19, 2008
Interest rate contracts	Selling, marketing and administrative expenses	$	$
Commodity contracts	Selling, marketing and administrative expenses	(617)	
Total		$ (617)	$

As of April 25, 2009, the company had the following outstanding financial contracts that were entered to hedge commodity and interest rate risk:

Derivative in Statement 133 Cash Flow Hedge Relationship	Notional amount (millions)
Interest rate contracts	$ 77.3
Wheat contracts	77.6
Soybean Oil contracts	28.0
Natural gas contracts	16.4
Diesel contracts	3.0
Total	$ 202.3

Table of Contents

The company s derivative instruments contain no credit-risk-related contingent features at April 25, 2009.

7. DEBT AND OTHER OBLIGATIONS

Long-term debt and capital leases consisted of the following at April 25, 2009 and January 3, 2009 (amounts in thousands):

	APRIL 25, 2009	JANUARY 3, 2009
Unsecured credit facility	$ 100,500	$ 110,000
Unsecured term loan	142,500	146,250
Capital lease obligations	24,590	24,978
Other notes payable	4,650	5,189
	272,240	286,417
Less current maturities	21,481	22,538
Total long-term debt and capital leases	$ 250,759	$ 263,879

On August 1, 2008, the company entered into a Credit Agreement (term loan) with various lending parties for the purpose of completing acquisitions. The term loan provides for amortizing $150.0 million of borrowings through the maturity date of August 4, 2013. The term loan includes certain customary restrictions, which, among other things, require maintenance of financial covenants and limit encumbrance of assets and creation of indebtedness. Restrictive financial covenants include such ratios as a minimum interest coverage ratio and a maximum leverage ratio. The company believes that, given its current cash position, its cash flow from operating activities and its available credit capacity, it can comply with the current terms of the term loan and can meet presently foreseeable financial requirements. As of April 25, 2009 and January 3, 2009, the company was in compliance with all restrictive financial covenants under the term loan. As of April 25, 2009 and January 3, 2009, the amounts outstanding under the term loan were $142.5 million and $146.3 million, respectively.

Interest is due quarterly in arrears on outstanding borrowings at a customary Eurodollar rate or the base rate plus the applicable margin. The underlying rate is defined as the rate offered in the interbank Eurodollar market or the higher of the prime lending rate or federal funds rate plus 0.5%. The applicable margin ranges from 0.0% to 1.375% for base rate loans and from 0.875% to 2.375% for Eurodollar loans and is based on the company s leverage ratio. Principal payments are due quarterly under the term loan beginning on December 31, 2008 at an annual amortization of 10% of the principal balance for the first two years, 15% during the third year, 20% during the fourth year, and 45% during the fifth year. The company paid financing costs of $0.8 million in connection with the term loan, which is being amortized over the life of the term loan.

The company has a five-year, $250.0 million unsecured revolving loan facility (the credit facility) expiring October 5, 2012. The company may request to increase its borrowings under the credit facility up to an aggregate of $350.0 million upon the satisfaction of certain conditions. Proceeds from the credit facility may be used for working capital and general corporate purposes, including acquisition financing, refinancing of indebtedness and share repurchases. The credit facility includes certain customary restrictions, which, among other things, require maintenance of financial covenants and limit encumbrance of assets and creation of indebtedness. Restrictive financial covenants include such ratios as a minimum interest coverage ratio and a maximum leverage ratio. The company believes that, given its current cash position, its cash flow from operating activities and its available credit capacity, it can comply with the current terms of the credit facility and can meet presently foreseeable financial requirements. As of April 25, 2009 and January 3, 2009, the company was in compliance with all restrictive financial covenants under its credit facility.

Interest is due quarterly in arrears on any outstanding borrowings at a customary Eurodollar rate or the base rate plus the applicable margin. The underlying rate is defined as rates offered in the interbank Eurodollar market or the higher of the prime lending rate or federal funds rate plus 0.5%. The applicable margin ranges from 0.0% to 0.30% for

base rate loans and from 0.40% to 1.275% for Eurodollar loans. In addition, a facility fee ranging from 0.10% to 0.35% is due quarterly on all commitments under the credit facility. Both the interest margin and the facility fee are based on the company s leverage ratio. Financing costs of $0.9 million were deferred and are being amortized over the term of the credit facility. There were $100.5 million and $110.0 million in outstanding borrowings under the credit facility at April 25, 2009 and January 3, 2009, respectively.

8. VARIABLE INTEREST ENTITY

The company maintains a transportation agreement with a thinly capitalized entity. This entity transports a significant portion of the company s fresh bakery products from the company s production facilities to outlying distribution centers. The company represents a significant portion of the entity s revenue. This entity qualifies as a Variable Interest Entity (VIE), but not a Special Purpose Entity and under FASB Interpretation No. 46 (FIN 46), *Consolidation of Variable Interest Entities*, the company is the primary beneficiary. In accordance with FIN 46, the company consolidates this entity. The VIE has collateral that is sufficient to meet

its capital lease and other debt obligations, and the owner of the VIE personally guarantees the obligations of the VIE. The VIE s creditors have no recourse against the general credit of the company.

Following is the effect of the VIE during the sixteen weeks ended April 25, 2009 and April 19, 2008:

	SIXTEEN WEEKS ENDED APRIL 25, 2009		SIXTEEN WEEKS ENDED APRIL 19, 2008	
	VIE	% OF TOTAL	VIE	% OF TOTAL
	(Dollars in thousands)			
Assets as of respective quarter ends	$33,268	2.5%	$34,432	3.2%
Sales	$ 1,528	0.2%	$ 2,800	0.4%
Income before income taxes	$ 452	0.8%	$ 1,301	2.3%

The assets consist primarily of $22.9 million and $23.6 million as of April 25, 2009 and April 19, 2008, respectively, of transportation equipment recorded as capital lease obligations.

9. LITIGATION

The company and its subsidiaries from time to time are parties to, or targets of, lawsuits, claims, investigations and proceedings, including personal injury, commercial, contract, environmental, antitrust, product liability, health and safety and employment matters, which are being handled and defended in the ordinary course of business. While the company is unable to predict the outcome of these matters, it believes, based upon currently available facts, that it is remote that the ultimate resolution of any such pending matters will have a material adverse effect on its overall financial condition, results of operations or cash flows in the future. However, adverse developments could negatively impact earnings in future fiscal periods.

On July 23, 2008, a wholly-owned subsidiary of the company filed a lawsuit against Interstate Bakeries Corporation (IBC) in the United States District Court for the Northern District of Georgia. The complaint alleges that IBC is infringing upon Flowers *Nature s Own* trademarks by using the Nature s Pride trademark. The company asserts that IBC s sale of baked goods under the Nature s Pride trademark is likely to cause confusion with, and likely to dilute the distinctiveness of, the *Nature s Own* mark. The company is seeking actual damages, an accounting of IBC s profits, and injunctive relief. IBC has asserted a counterclaim for the cancellation of two of the four federal trademark registrations of *Nature s Own* asserted by the company. However, we deny allegations and believes that the claims are without factual or legal bases.

10. EARNINGS PER SHARE

As discussed in Note 4, effective January 4, 2009, the company adopted FSP No. EITF 03-6-1. We have retrospectively adjusted earnings per common share for all prior periods presented. We now use the two-class method of computing earnings per share. The two-class method is an earnings allocation formula that determines earnings per share for each class of common stock and participating security as if all earnings for the period had been distributed. As concluded in FSP No. EITF 03-6-1, unvested restricted share awards that earn non-forfeitable dividend rights qualify as participating securities under SFAS No. 128, *Earnings Per Share*, and accordingly, are now included in the basic computation as such. The company s unvested restricted shares participate on an equal basis with common shares; therefore, there is no difference in undistributed earnings allocated to each participating security. Accordingly, the presentation below is prepared on a combined basis and is presented as earnings per common share. Previously, such unvested restricted shares were not included as outstanding within basic earnings per common share and were included in diluted earnings per common share pursuant to the treasury stock method. The following is a reconciliation of net income attributable to Flowers Foods, Inc. and weighted average shares for calculating basic and diluted earnings per common share for the sixteen weeks ended April 25, 2009 and April 19, 2008 (amounts in thousands, except per share data):

FOR THE SIXTEEN WEEKS ENDED

		APRIL 25, 2009		APRIL 19, 2008
Net income attributable to Flowers Foods, Inc.	$	37,381	$	35,783
Dividends on restricted shares not expected to vest*				
Net income attributable to common and participating shareholders	$	37,381	$	35,783
Basic Earnings Per Common Share:				
Weighted average shares outstanding for common stock		92,311		91,700
Weighted average shares outstanding for participating securities		412		379
Basic weighted average shares outstanding		92,723		92,079
Basic earnings per common share attributable to Flowers Foods, Inc. common shareholders	$	0.40	$	0.39

	FOR THE SIXTEEN WEEKS ENDED	
	APRIL 25, 2009	APRIL 19, 2008
Diluted Earnings Per Common Share:		
Basic weighted average shares outstanding per common share	92,723	92,079
Add: Shares of common stock assumed upon vesting and exercise of stock awards	515	463
Diluted weighted average shares outstanding per common share	93,238	92,542
Diluted earnings per common share attributable to Flowers Foods, Inc. common shareholders	$ 0.40	$ 0.39

* The company expects all restricted share awards outstanding at April 25, 2009 and April 19, 2008 to vest.

Stock options to purchase 1,841,417 shares and 850,200 shares of common stock were not included in the computation of diluted earnings per share for the sixteen weeks ended April 25, 2009 and April 19, 2008, respectively, because their effect would have been anti-dilutive.

We have retrospectively adjusted the prior period to reflect the results that would have been reported had we applied the provisions of FSP No. EITF 03-6-1 for computing earnings per common share for all periods presented. The adoption of this FSP did not change basic or diluted EPS for the sixteen weeks ended April 19, 2008.

11. STOCK BASED COMPENSATION

The company accounts for its stock-based compensation in accordance with SFAS 123R, *Share-Based Payment* (SFAS 123R).

Flowers Foods 2001 Equity and Performance Incentive Plan as amended and restated as of February 11, 2005 (EPIP) authorizes the compensation committee of the Board of Directors to make awards of options to purchase our common stock, restricted stock, performance stock and performance units and deferred stock. Our officers, key employees and non-employee directors (whose grants are generally approved by the full board of directors) are eligible to receive awards under the EPIP. The aggregate number of shares that may be issued or transferred under the EPIP is 14,625,000 shares. Over the life of the EPIP, the company has only issued options, restricted stock and deferred stock. Options granted prior to January 1, 2006 may not be exercised later than ten years after the date of grant and become exercisable four years from the date of grant and generally vest at that time or upon death, disability or retirement of the optionee or upon change in control of Flowers Foods. Options granted on January 3, 2006 and thereafter may not be exercised later than seven years after the date of grant and become exercisable three years from the date of grant and generally vest at that time or upon death, disability or retirement of the optionee or upon change in control of Flowers Foods. In order to exercise these options the optionees are required to pay the market value calculated as the average high/low trading value at date of grant for pre-2007 awards and the closing market price on the date of grant for post-2006 awards. Non-employee director options generally become exercisable one year from the date of grant and vest at that time. The following is a summary of stock options, restricted stock, and deferred stock outstanding under the EPIP. Information relating to the company s stock appreciation rights which are not issued

under the EPIP is also disclosed below.

Stock Options

The following non-qualified stock options (NQSOs) have been granted under the EPIP with service period remaining. The Black-Scholes option-pricing model was used to estimate the grant date fair value (amounts in thousands, except price data and as indicated):

Grant date	**2/9/2009**	**2/4/2008**	**2/5/2007**
Shares granted	993	850	831
Exercise price($)	23.84	24.75	19.57
Vesting date	2/9/2012	2/4/2011	2/5/2010
Fair value per share($)	5.87	5.80	6.30
Dividend yield(%)(1)	2.20	1.90	1.70
Expected volatility(%)(2)	31.80	27.30	33.90
Risk-free interest rate(%)(3)	2.00	2.79	4.74
Expected option life (years)(4)	5.00	5.00	5.00
Outstanding at April 25, 2009	993	848	824

1. Dividend yield estimated yield based on the historical dividend payment for the four most recent dividend payments prior to the grant date.

2. Expected volatility based on historical volatility over the expected term using daily stock prices.

3. Risk-free interest rate United States Treasury Constant Maturity rates as of the grant date over the expected term.

4. Expected option life for the 2006 and 2007 grants the assumption is based on the simplified formula determined in accordance with Staff Accounting Bulletin No. 107. The 2008 and 2009 grant assumptions are based on the simplified formula determined in accordance with Staff Accounting Bulletin No. 110. The company does not have sufficient historical exercise behavior data to reasonably estimate the expected option life and the terms of the awards issued in 2008 and 2009 are different from the awards that have fully vested.

The stock option activity for the sixteen weeks ended April 25, 2009 pursuant to the EPIP is set forth below (amounts in thousands, except price data):

	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at January 3, 2009	2,975	$ 18.46		
Granted	993	$ 23.84		
Exercised	(187)	$ 9.47		
Forfeited	(2)	$ 18.68		
Outstanding at April 25, 2009	3,779	$ 20.31	5.23	$ 13,588
Exercisable at April 25, 2009	1,114	$ 14.35	3.76	$ 10,651

As of April 25, 2009, all options outstanding under the EPIP had an average exercise price of $20.31 and a weighted average remaining contractual life of 5.2 years.

During the sixteen weeks ended April 25, 2009 and April 19, 2008, the company recorded stock-based compensation expense of $1.5 million and $1.3 million, respectively, relating to NQSOs using the *Black-Scholes* option-pricing model.

As of April 25, 2009, there was $9.5 million of total unrecognized compensation expense related to nonvested stock options. This cost is expected to be recognized on a straight-line basis over a weighted-average period of 2.2 years.

The cash received, the windfall tax benefits, and intrinsic value from stock option exercises for the sixteen weeks ended April 25, 2009 and April 19, 2008 were as follows (amounts in thousands):

	April 25, 2009	April 19, 2008
Cash received from option exercises	$1,397	$2,405
Cash tax windfall benefit	$ 921	$1,239
Intrinsic value of stock options exercised	$2,700	$3,650

Generally, if the employee dies, becomes disabled or retires, the nonqualified stock options immediately vest and must be exercised within two years. In addition, nonqualified stock options will vest if the company undergoes a change in control.

Performance-Contingent Restricted Stock

Certain key employees have been granted performance-contingent restricted stock. The 2008 and 2009 awards generally vest two years from the date of grant and require the return on invested capital to exceed the weighted average cost of capital by 2.5% (the ROI Target) over the two fiscal years immediately preceding the vesting date. If the ROI Target is not met, the awards are forfeited. Furthermore, each grant of performance-contingent restricted stock will be adjusted as set forth below:

if the ROI Target is satisfied, then the performance-contingent restricted stock grant may be adjusted based on the company s total return to shareholders (Company TSR) percent rank as compared to the total return to shareholders of the S&P Packaged Food & Meat Index (S&P TSR) in the manner set forth below:

If the Company TSR rank is equal to the 50th percentile of the S&P TSR, then no adjustment;

If the Company TSR rank is less than the 50th percentile of the S&P TSR, the grant shall be reduced by 1.3% for each percentile below the 50th percentile that the Company TSR is less than the 50th percentile of S&P TSR, but in no event shall the reduction exceed 20%; or

Table of Contents

If the Company TSR rank is greater than the 50th percentile of the S&P TSR, the grant shall be increased by 1.3% for each percentile above the 50th percentile that Company TSR is greater than the 50th percentile of S&P TSR, but in no event shall such increase exceed 20%.

In connection with the vesting of 222,525 shares of restricted stock granted in February 2007, during the sixteen weeks ended April 25, 2009, an additional 44,505 common shares were issued in the aggregate to these certain key employees because the company exceeded the S&P TSR by the maximum amount.

For grants prior to 2009, if the grantee dies, becomes disabled or retires, the performance-contingent restricted stock generally vests immediately. For the 2009 grant, if the grantee dies or becomes disabled the performance-contingent restricted stock generally vests immediately. However, at retirement grantees under the 2009 grant will receive a pro-rata number of shares through the grantee s retirement date at the normal vesting date. In addition, the performance-contingent restricted stock will immediately vest at the grant date award level without adjustment if the company undergoes a change in control. During the vesting period, the grantee is treated as a normal shareholder with respect to dividend and voting rights on the restricted shares. The fair value estimate was determined using a *Monte Carlo* simulation model, which utilizes multiple input variables to determine the probability of the company achieving the market condition discussed above. Inputs into the model included the following for the company and comparator companies: (i) total stockholder return from the beginning of the performance cycle through the measurement date; (ii) volatility; (iii) risk-free interest rates; and (iv) the correlation of the comparator companies total stockholder return. The inputs are based on historical capital market data.

The following restricted stock awards have been granted under the EPIP since fiscal 2007 (amounts in thousands, except price data):

Grant date	**2/5/2007**	**2/4/2008**	**2/9/2009**
Shares granted	224	210	204
Vesting date	2/5/2009	2/4/2010	2/9/2011
Fair value per share	$ 20.98	$ 27.03	$ 24.96
Expense during the sixteen weeks ended April 19, 2008	$ 679	$ 655	$
Expense during the sixteen weeks ended April 25, 2009	$ 170	$ 873	$ 588

A summary of the status of the company s nonvested shares as of April 25, 2009, and changes during the quarter ended April 25, 2009, is presented below (amounts in thousands, except price data):

	Shares	**Weighted Average Grant Date Fair Value**
Nonvested at January 3, 2009	432	$ 23.92
Granted	204	$ 24.96
Vested	(222)	$ 20.98
Forfeited		$
Nonvested at April 25, 2009	414	$ 26.01

As of April 25, 2009, there was $6.7 million of total unrecognized compensation cost related to nonvested restricted stock granted by the EPIP. That cost is expected to be recognized over a weighted-average period of 1.3 years. The total fair value of shares vested during the period ended April 25, 2009 was $5.3 million.

Stock Appreciation Rights

Prior to 2007, the company allowed non-employee directors to convert their retainers and committee chairman fees into rights. These rights vest after one year and can be exercised over nine years. The company records compensation expense for these rights at a measurement date based on changes between the grant price and an estimated fair value of the rights using the *Black-Scholes* option-pricing model.

The fair value of the rights at April 25, 2009 ranged from $10.25 to $20.66. The following assumptions were used to determine fair value of the rights discussed above using the *Black-Scholes* option-pricing model at April 25, 2009: dividend yield 2.3%; expected volatility 32.0%; risk-free interest rate 1.97% and expected life of 1.20 years to 3.55 years. During the sixteen weeks ended April 25, 2009 and April 19, 2008 the company recorded expense of $0.01 million and $0.4 million, respectively, related to these rights.

Table of Contents

The rights activity for the sixteen weeks ended April 25, 2009 is set forth below (amounts in thousands except price data):

	Rights	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at January 3, 2009	231	$ 11.14		
Rights exercised				
Rights forfeited				
Outstanding at April 25, 2009	231	$ 11.14	4.61	$ 2,967

Deferred Stock

Pursuant to the EPIP, the company allows non-employee directors to convert their retainers into deferred stock. The deferred stock has a minimum two year vesting period and will be distributed to the individual after that time at a designated time selected by the individual at the date of conversion. During the first quarter of fiscal 2008 an aggregate of 22,160 were converted. During the fourth quarter of fiscal 2008 an additional 12,630 shares were converted. The company records compensation expense for this deferred stock over the two-year minimum vesting period based on the closing price of the company s common stock on the date of conversion.

Pursuant to the EPIP, during the second quarter of fiscal 2008, non-employee directors were granted an aggregate of 35,800 shares of deferred stock with a one year vesting period. The deferred stock will be distributed to the grantee at a designated time selected by the grantee at the date of grant. Compensation expense is recorded on this deferred stock over the one year minimum vesting period. During the second quarter of fiscal 2008 a total of 24,025 shares were exercised.

The deferred stock activity for the sixteen weeks ended April 25, 2009 is set forth below (amounts in thousands, except price data):

	Shares	Weighted Average Grant Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Outstanding at January 3, 2009	101	$ 23.30		
Deferred stock issued				
Deferred stock exercised	(5)	$ 19.57		
Outstanding at April 25, 2009	96	$ 23.49	0.93	$ 135

The following table summarizes the company s stock based compensation expense for the sixteen weeks ended April 25, 2009 and April 19, 2008 (amounts in thousands):

	April 25, 2009	April 19, 2008
Stock options	$ 1,457	$ 1,270
Restricted stock	1,631	1,334
Stock appreciation rights	10	421
Deferred stock	429	374

Total stock based compensation	$ 3,527	$ 3,399

12. POST-RETIREMENT PLANS

The following summarizes the company s balance sheet related pension and other postretirement benefit plan accounts at April 25, 2009 as compared to accounts at January 3, 2009 (amounts in thousands):

	AS OF	
	APRIL 25, 2009	JANUARY 3, 2009
Noncurrent benefit asset	$	$
Current benefit liability	$ 922	$ 922
Noncurrent benefit liability	$79,000	$78,897
Accumulated other comprehensive loss	$60,889	$61,475

Defined Benefit Plans

The company has trusteed, noncontributory defined benefit pension plans covering certain employees. The benefits are based on years of service and the employees career earnings. The plans are funded at amounts deductible for income tax purposes but not less than the minimum funding required by the Employee Retirement Income Security Act of 1974 (ERISA). As of April 25, 2009, the assets of the plans included certificates of deposit, marketable equity securities, mutual funds, corporate and government debt securities, private and public real estate partnerships, other diversifying strategies and annuity contracts. Effective January 1, 2006, the company curtailed the defined benefit plan that covers the majority of its workforce. Benefits under this plan were frozen, and no future benefits will accrue under this plan. The company continues to maintain a plan that covers a small number of certain union employees. During the sixteen weeks ended April 25, 2009 the company contributed $0.2 million to company pension plans.

The net periodic pension cost for the company s plans include the following components (amounts in thousands):

	FOR THE SIXTEEN WEEKS ENDED	
	APRIL 25, 2009	APRIL 19, 2008
Service cost	$ 96	$ 90
Interest cost	5,744	5,226
Expected return on plan assets	(5,826)	(7,531)
Amortization of net loss	839	
Total net periodic benefit cost (income)	$ 853	$ (2,215)

Post-retirement Benefit Plan

The company provides certain medical and life insurance benefits for eligible retired employees. The medical plan covers eligible retirees under the active medical plans. The plan incorporates an up-front deductible, coinsurance payments and retiree contributions at various premium levels. Eligibility and maximum period of coverage is based on age and length of service.

The net periodic postretirement benefit cost for the company includes the following components (amounts in thousands):

	FOR THE SIXTEEN WEEKS ENDED	
	APRIL 25, 2009	APRIL 19, 2008
Service cost	$ 265	$ 118
Interest cost	342	132
Amortization of net loss	11	
Amortization of prior service cost	102	102
Total net periodic benefit cost	$ 720	$ 352

401(k) Retirement Savings Plan

The Flowers Foods 401(k) Retirement Savings Plan (the Plan) covers substantially all of the company s employees who have completed certain service requirements. The cost and contributions for those employees who also participate in the defined benefit pension plan is 25% of the first $400 contributed by the employee. Prior to January 1, 2006, the costs and contributions for employees who do not participate in the defined benefit pension plan was 2% of compensation and 50% of the employees contributions, up to 6% of compensation. Effective January 1, 2006, the costs and contributions for employees who do not participate in the defined benefit pension plan increased to

3% of compensation and 50% of the employees contributions, up to 6% of compensation. During the sixteen weeks ended April 25, 2009 and April 19, 2008, the total cost and contributions were $5.2 million and $4.9 million, respectively.

The company also has several smaller 401(k) Plans associated with recent acquisitions that will be merged into the Flowers Foods 401(k) Retirement Savings Plan after receipt of final determination letters.

13. INCOME TAXES

The company s effective tax rate for the first quarter of fiscal 2009 was 36.6%. This rate is higher than the 2008 annual effective tax rate of 35.6%, due to favorable discrete items recognized during the prior year and the decreased earnings of the variable interest entity during the quarter ended April 25, 2009. The difference in the effective rate and the statutory rate is primarily due to state

income taxes, the non-taxable earnings of the consolidated variable interest entity and the Section 199 qualifying production activities deduction.

During the first quarter of fiscal 2009, the company s activity with respect to its FIN 48 reserve and related interest expense accrual was immaterial. At this time, we do not anticipate significant changes to the amount of gross unrecognized tax benefits over the next twelve months.

14. SEGMENT REPORTING

The DSD segment produces fresh and frozen packaged bread and rolls and the warehouse delivery segment produces frozen bread and rolls and fresh and frozen snack products. The company evaluates each segment s performance based on income or loss before interest and income taxes, excluding unallocated expenses and charges which the company s management deems to be an overall corporate cost or a cost not reflective of the segments core operating businesses. During the second quarter of fiscal 2008, the company s Tucker, Georgia operation was transferred from the DSD segment to the warehouse delivery segment. Prior period information has been reclassified to reflect this change. Information regarding the operations in these reportable segments is as follows (amounts in thousands):

	FOR THE SIXTEEN WEEKS ENDED	
	APRIL 25, 2009	APRIL 19, 2008
SALES:		
DSD	$ 672,993	$ 558,074
Warehouse delivery	174,631	153,798
Eliminations:		
Sales from warehouse delivery to DSD	(35,899)	(30,972)
Sales from DSD to warehouse delivery	(4,718)	(4,193)
	$ 807,007	$ 676,707
DEPRECIATION AND AMORTIZATION:		
DSD	$ 19,537	$ 15,957
Warehouse delivery	4,646	4,722
Other	94	233
	$ 24,277	$ 20,912
INCOME (LOSS) FROM OPERATIONS:		
DSD	$ 56,930	$ 53,392
Warehouse delivery	14,224	8,259
Other	(11,908)	(7,502)
	$ 59,246	$ 54,149
NET INTEREST INCOME:	$ 459	$ 3,497
INCOME BEFORE INCOME TAXES:	$ 59,705	$ 57,646

Sales by product category in each reportable segment are as follows (amounts in thousands):

	For the 16 Weeks Ended April 25, 2009			For the 16 Weeks Ended April 19, 2008		
	DSD	Warehouse Delivery	Total	DSD	Warehouse Delivery	Total
Branded Retail	$ 373,619	$ 40,614	$ 414,233	$ 329,773	$ 31,150	$ 360,923
Store Branded Retail	109,404	18,523	127,927	72,767	14,499	87,266
Foodservice and Other	185,252	79,595	264,847	151,341	77,177	228,518
Total	$ 668,275	$ 138,732	$ 807,007	$ 553,881	$ 122,826	$ 676,707

15. SUBSEQUENT EVENTS

On May 29, 2009, the Board of Directors declared a dividend of $0.175 per share on the company s common stock to be paid on July 2, 2009 to shareholders of record on June 19, 2009.

ITEM 2. MANAGEMENT S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion of the financial condition and results of operations of the company as of and for the sixteen week period ended April 25, 2009 should be read in conjunction with the company s Annual Report on Form 10-K for the fiscal year ended January 3, 2009.

The company consists of two business segments: direct-store-delivery (DSD) and warehouse delivery. The DSD segment focuses on the production and marketing of bakery products to U.S. customers in the Southeast, Southwest and Mid-Atlantic as well

as select markets in California and Nevada through its direct store delivery system. The warehouse delivery segment produces snack cakes for sale to retail, vending and co-pack customers as well as frozen bread, rolls and buns for sale to retail and foodservice customers primarily through warehouse distribution.

OVERVIEW:

Flowers Foods, Inc. is one of the nation s leading producers and marketers of packaged bakery foods for retail and foodservice customers. The company produces breads, buns, rolls, snack cakes and pastries that are distributed fresh in the Southeast, Mid-Atlantic, and Southwest as well as select markets in California and Nevada and frozen to customers nationwide. Our businesses are organized into two reportable segments. The DSD segment focuses on the production and marketing of bakery products to U.S. customers in the Southeast, Mid-Atlantic, and Southwest, as well as select markets in California and Nevada primarily through its direct-store-delivery system. The warehouse delivery segment produces snack cakes for sale to retail vending and co-pack customers nationwide as well as frozen bread, rolls and buns for sale to retail and foodservice customers nationwide primarily through warehouse distribution. This organizational structure is the basis of the operating segment data presented in this report.

We aim to achieve consistent and sustainable growth in sales and earnings by focusing on improvement in the operating results of our existing businesses and, after detailed analysis, acquiring businesses and properties that add value to the company. We believe this consistent and sustainable growth will build value for our shareholders. In August 2008, the company acquired ButterKrust Bakery (ButterKrust) in Lakeland, Florida, adding additional production capacity in the Florida market. Also in August 2008, the company acquired Holsum Holdings, LLC (Holsum) which operates two bakeries in the Phoenix, Arizona area and expands the company into new geographic markets. In November 2007, the company purchased property in Bardstown, Kentucky. In January 2008, the company began construction of a bakery facility on this property that will produce fresh breads and buns for markets in Tennessee, Kentucky, Ohio, and Indiana. The facility began bread production on May 11, 2009.

Sales are principally affected by pricing, quality, brand recognition, new product introductions and product line extensions, marketing and service. The company manages these factors to achieve a sales mix favoring its higher-margin branded products, while using private label products to absorb overhead costs and maximize use of production capacity. Sales for the sixteen weeks ended April 25, 2009 increased 19.3% as compared to the sixteen weeks ended April 19, 2008. Contributing to this increase were favorable pricing/mix, volume, and the ButterKrust and Holsum acquisitions.

For the first quarter of fiscal 2009, diluted net income per share was $0.40 as compared to $0.39 per share for the first quarter of fiscal 2008, a 2.6% increase. For the first quarter of fiscal 2009, net income attributable to Flowers Foods, Inc. was $37.4 million, a 4.5% increase over $35.8 million reported for the first quarter of fiscal 2008.

CRITICAL ACCOUNTING POLICIES:

Our financial statements are prepared in accordance with generally accepted accounting principles (GAAP). These principles are numerous and complex. Our significant accounting policies are summarized in the company s Annual Report on Form 10-K for the fiscal year ended January 3, 2009. In many instances, the application of GAAP requires management to make estimates or to apply subjective principles to particular facts and circumstances. A variance in the estimates used or a variance in the application or interpretation of GAAP could yield a materially different accounting result. In our Form 10-K for the fiscal year ended January 3, 2009, we discuss the areas where we believe that the estimates, judgments or interpretations that we have made, if different, would have yielded the most significant differences in our financial statements and we urge you to review that discussion. The following discussion provides the significant changes to our critical accounting policies from those disclosed in our Form 10-K filed for the year ended January 3, 2009.

Earnings Per Share. In June 2008, the FASB issued FSP EITF No. 03-6-1, *Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities* (FSP 03-6-1). FSP 03-6-1 addresses whether instruments granted in share-based payment transactions are participating securities prior to vesting and therefore need to be included in the earnings allocation in calculating earnings per share under the two-class method described in SFAS No. 128, *Earnings per Share*. The FSP 03-6-1 requires companies to treat unvested share-based payment awards that have non-forfeitable rights to dividend or dividend equivalents as a separate class of securities in calculating earnings per share. The FSP 03-6-1 is effective for fiscal years beginning after December 15, 2008; earlier

application is not permitted. The company adopted this standard as of January 4, 2009. See Note 10 of Notes to Condensed Consolidated Financial Statements of this Form 10-Q for the required disclosures and the impact upon adoption of this standard.

Table of Contents

Derivatives and other Financial Instruments. In February 2008, the FASB issued Staff Position No. FAS 157-2, *Effective Date of FASB Statement No. 157* (FSP 157-2) which delayed the effective date of SFAS 157 to fiscal years beginning after November 15, 2008 for all nonfinancial assets and liabilities that are recognized or disclosed in the financial statements at fair value on a nonrecurring basis only. These include nonfinancial assets and liabilities not measured at fair value on an ongoing basis but subject to fair value adjustments in certain circumstances, for example, assets that have been deemed to be impaired. The company adopted this standard as of January 4, 2009 and it had no impact upon adoption.

RESULTS OF OPERATIONS:

Results of operations, expressed as a percentage of sales and the dollar and percentage change from period to period, for the sixteen week periods ended April 25, 2009 and April 19, 2008, are set forth below (Dollars in thousands):

	For the sixteen weeks ended					
			Percentage of Sales		Increase (Decrease)	
	April 25, 2009	April 19, 2008	April 25, 2009	April 19, 2008	Dollars	%
Sales						
DSD	$ 668,275	$ 553,881	82.8	81.8	$ 114,394	20.7
Warehouse delivery	138,732	122,826	17.2	18.2	15,906	13.0

Total	$ 807,007	100.0%	$ 676,707	100.0%	19.3%

The 19.3% increase in sales was attributable to the following:

Percentage Point Change in Sales Attributed to:	Favorable (Unfavorable)
Pricing/Mix	6.8%
Volume	0.5%
Acquisitions	12.0%
Total Percentage Change in Sales	19.3%

The increase in branded retail sales was due primarily to increased sales of branded soft variety and branded multi-pack cake, as well as the contribution from acquisitions. The company s *Nature s Own* products and its branded white bread labels were the key components of these sales. The increase in store branded retail sales was primarily due to the acquisitions and, to a lesser extent, store brand cake and buns and rolls increases. The increase in foodservice and other sales was due primarily to the acquisitions and foodservice, partially offset by decreased contract manufacturing.

Direct-Store-Delivery Sales.

	For the 16 Weeks Ended April 25, 2009		For the 16 Weeks Ended April 19, 2008		
	$ (Amounts in thousands)	%	$ (Amounts in thousands)	%	% Increase
Branded Retail	$ 373,619	55.9%	$ 329,773	59.5%	13.3%
Store Branded Retail	109,404	16.4	72,767	13.1	50.3%
Foodservice and Other	185,252	27.7	151,341	27.4	22.4%
Total	$ 668,275	100.0%	$ 553,881	100.0%	20.7%

The 20.7% increase in sales was attributable to the following:

Percentage Point Change in Sales Attributed to:	**Favorable (Unfavorable)**
Pricing/Mix	4.6%
Volume	1.5%
Acquisitions	14.6%
Total Percentage Change in Sales	20.7%

The increase in branded retail sales was due primarily to the acquisitions and growth in branded soft variety. *Nature s Own* products and branded white bread labels were the key components of these sales. The increase in store branded retail sales was primarily due to the acquisitions. The increase in foodservice and other sales was primarily due to the acquisitions and increases in fast food.

Warehouse Delivery Sales.

	For the 16 Weeks Ended April 25, 2009		For the 16 Weeks Ended April 19, 2008		% Increase (Decrease)
	$ (Amounts in thousands)	%	$ (Amounts in thousands)	%	
Branded Retail	$ 40,614	29.3%	$ 31,150	25.4%	30.4%
Store Branded Retail	18,523	13.4	14,499	11.8	27.8%
Foodservice and Other	79,595	57.3	77,177	62.8	3.1%
Total	$ 138,732	100.0%	$ 122,826	100.0%	13.0%

The 13.0% increase in sales was attributable to the following:

Percentage Point Change in Sales Attributed to:	Favorable (Unfavorable)
Pricing/Mix	14.9%
Volume	(1.9)%
Total Percentage Change in Sales	13.0%

The increase in branded retail sales was primarily the result of favorable multi-pak cake volume. The increase in store branded retail sales was primarily due to favorable pricing/mix and, to a lesser extent, volume increases. The increase in foodservice and other sales, which include contract production and vending, was due to a positive mix shift from lower margin contract to higher margin foodservice volume.

Gross Margin (defined as sales less materials, supplies, labor and other production costs, excluding depreciation, amortization and distributor discounts). The decrease as a percent of sales was primarily due to significant increases in ingredient costs, as well as lower margins for the Holsum and ButterKrust acquisitions, partially offset by sales gains, improved manufacturing efficiency, and lower labor costs as a percent of sales. The Bardstown, Kentucky plant incurred start-up costs of $1.0 million, of which $0.8 million was included in cost of sales.

The DSD segment gross margin decreased as a percent of sales primarily as a result of significant increases in ingredient costs and lower margins for the Holsum and ButterKrust acquisitions. These were offset by sales gains, improved manufacturing efficiency, and reduced waste. The Bardstown, Kentucky plant incurred start-up costs of $1.0 million, of which $0.8 million was included in cost of sales.

The warehouse delivery segment s gross margin increased as a percent of sales primarily a result of lower labor and freezer storage and rent costs, offset by higher ingredient costs.

Selling, Marketing and Administrative Expenses. The decrease as a percent of sales was due to sales gains and lower labor and distribution costs as a percent of sales, partially offset by higher distributor discounts and significantly higher pension costs. Sales gains and the Holsum acquisition resulted in the increase in distributor discounts.

The DSD segment s selling, marketing and administrative expenses decreased as a percent of sales primarily due to sales gains, lower labor and distribution costs as a percent of sales, partially offset by higher distributor discounts and marketing expense as a percent of sales.

The warehouse delivery segment s selling, marketing and administrative expenses decreased as a percent of sales primarily due to sales gains and lower labor costs as a percent of sales, partially offset by higher freezer costs as a percent of sales.

Depreciation and Amortization. Depreciation and amortization increased primarily due to increased depreciation expense related to capital expenditures subsequent to the first quarter of fiscal 2008 and the Holsum and ButterKrust acquisitions.

The DSD segment s depreciation and amortization expense increased primarily due to the acquisitions. The warehouse delivery segment s depreciation and amortization expense increased primarily as a result of increased depreciation expense due to capital expenditures subsequent to the first quarter of fiscal 2008.

Income from operations. The increase in the DSD segment income from operations was primarily attributable to higher sales and improved manufacturing efficiencies. The increase in the warehouse delivery segment income from operations was primarily a result of higher branded retail and foodservice sales, partially offset by lower sales volume in contract manufacturing. The increase in unallocated corporate expenses was primarily due to significantly higher pension and postretirement plan costs.

Net Interest Income. The decrease was related to higher interest expense on the credit facility and term loans used for the Holsum and ButterKrust acquisitions.

Income Taxes. The effective tax rate for the first quarter of fiscal 2009 was 36.6% compared to 35.7% in the first quarter of the prior year. The increase in the rate is due mainly to the favorable discrete items that were recognized during the prior year quarter and the decreased earnings of the variable interest entity in the current quarter compared to the prior year quarter. The difference in the effective rate and the statutory rate is primarily due to state income taxes, the non-taxable earnings of the consolidated variable interest entity and the Section 199 qualifying production activities deduction.

Net Income Attributable to Noncontrolling Interest. Noncontrolling interest represents all the earnings of the company s variable interest entity (VIE) under the consolidation provisions of Financial Accounting Standards Board Interpretation No. 46 (FIN 46), *Consolidation of Variable Interest Entities.* All the earnings of the VIE are eliminated through noncontrolling interest due to the company not having any equity ownership in the VIE. The company is required to consolidate this VIE due to the VIE being capitalized with a less than substantive amount of legal form capital investment and the company accounting for a significant portion of the VIE s revenues. See Note 8 of Notes to Condensed Consolidated Financial Statements of this Form 10-Q for further information regarding the company s VIE.

LIQUIDITY AND CAPITAL RESOURCES:

Liquidity represents our ability to generate sufficient cash flows from operating activities to meet our obligations and commitments as well as our ability to obtain appropriate financing and convert into cash those assets that are no longer required to meet existing strategic and financing objectives. Therefore, liquidity cannot be considered separately from capital resources that consist primarily of current and potentially available funds for use in achieving long-range business objectives. Currently, the company s liquidity needs arise primarily from working capital requirements, capital expenditures and stock repurchases. The company s strategy for use of its cash flow includes paying dividends to shareholders, making acquisitions, growing internally and repurchasing shares of its common stock when appropriate.

Cash Flows

Flowers Foods cash and cash equivalents decreased to $18.5 million at April 25, 2009 from $20.0 million at January 3, 2009. The decrease resulted from $58.3 million provided by operating activities, offset by $14.2 million and $45.6 million disbursed for investing activities and financing activities, respectively.

Included in cash and cash equivalents at April 25, 2009 and January 3, 2009 was $6.2 million and $5.6 million, respectively, related to the company s VIE, which is not available for use by the company.

Cash Flows Provided by Operating Activities. Net cash of $58.3 million provided by operating activities during the sixteen weeks ended April 25, 2009 consisted primarily of $37.8 million in net income, adjusted for the following non-cash items (amounts in thousands):

Depreciation and amortization	$ 24,277
Non cash effect of derivative activity	9,144
Stock-based compensation	3,527
Deferred income taxes	(1,723)
Provision for inventory obsolescence	325
Allowances for accounts receivable	1,614
Pension and postretirement plans expense	1,573
Other	76
Total	$ 38,813

Cash disbursed for working capital and other activities was $18.3 million. As of April 25, 2009, the company had $17.9 million recorded in other current assets representing collateral for hedged positions. As of April 19, 2008, the company had $17.5 million recorded in other current assets representing collateral for hedged positions.

Cash Flows Disbursed for Investing Activities. Net cash disbursed for investing activities during the sixteen weeks ended April 25, 2009 of $14.2 million consisted primarily of capital expenditures of $14.9 million. Capital expenditures in the DSD segment and the warehouse delivery segment were $12.8 million and $1.5 million, respectively. The company estimates capital expenditures of

approximately $75.0 million during fiscal 2009. The company also leases certain production machinery and equipment through various operating leases.

Cash Flows Disbursed for Financing Activities. Net cash disbursed for financing activities of $45.6 million during the sixteen weeks ended April 25, 2009 consisted primarily of dividends paid of $14.0 million, stock repurchases of $21.6 million, and net debt repayments of $14.3 million, partially offset by proceeds of $1.4 million from the exercise of stock options and the related share-based payments income tax benefit of $1.4 million.

Credit Facility and Term Loan

Credit Facility. The company has a five-year, $250.0 million unsecured revolving loan facility (the credit facility) that expires October 5, 2012. The company may request to increase its borrowings under the credit facility up to an aggregate of $350.0 million upon the satisfaction of certain conditions. Proceeds from the credit facility may be used for working capital and general corporate purposes, including acquisition financing, refinancing of indebtedness and share repurchases. The credit facility includes certain customary restrictions, which, among other things, require maintenance of financial covenants and limit encumbrance of assets and creation of indebtedness. Restrictive financial covenants include such ratios as a minimum interest coverage ratio and a maximum leverage ratio. The company believes that, given its current cash position, its cash flow from operating activities and its available credit capacity, it can comply with the current terms of the credit facility and can meet presently foreseeable financial requirements. As of April 25, 2009 and January 3, 2009, the company was in compliance with all restrictive financial covenants under its credit facility.

Interest is due quarterly in arrears on any outstanding borrowings at a customary Eurodollar rate or the base rate plus the applicable margin. The underlying rate is defined as the rate offered in the interbank Eurodollar market or the higher of the prime lending rate or federal funds rate plus 0.5%. The applicable margin ranges from 0.00% to 0.30% for base rate loans and from 0.40% to 1.275% for Eurodollar loans. In addition, a facility fee ranging from 0.10% to 0.35% is due quarterly on all commitments under the credit facility. Both the interest margin and the facility fee are based on the company s leverage ratio. There were $100.5 million and $110.0 million in outstanding borrowings under the credit facility at April 25, 2009 and January 3, 2009, respectively.

Term Loan. On August 1, 2008, the company entered into a credit agreement (term loan) with various lending parties for the purpose of completing acquisitions. The term loan provides for borrowings through the maturity date of August 4, 2013. The maximum amount permitted to be outstanding under the term loan is $150.0 million. The term loan includes certain customary restrictions, which, among other things, require maintenance of financial covenants and limit encumbrance of assets and creation of indebtedness. Restrictive financial covenants include such ratios as a minimum interest coverage ratio and a maximum leverage ratio. The company believes that, given its current cash position, its cash flow from operating activities and its available credit capacity, it can comply with the current terms of the term loan and can meet presently foreseeable financial requirements. As of April 25, 2009 and January 3, 2009, the company was in compliance with all restrictive financial covenants under the term loan. As of April 25, 2009 and January 3, 2009, the amounts outstanding under the term loan were $142.5 million and $146.3 million.

Interest is due quarterly in arrears on outstanding borrowings at a customary Eurodollar rate or the base rate plus the applicable margin. The underlying rate is defined as the rate offered in the interbank Eurodollar market or the higher of the prime lending rate or federal funds rate plus 0.5%. The applicable margin ranges from 0.0% to 1.375% for base rate loans and from 0.875% to 2.375% for Eurodollar loans and is based on the company s leverage ratio. Principal payments are due quarterly under the term loan beginning on December 31, 2008 at an annual amortization of 10% of the principal balance for each of the first two years, 15% during the third year, 20% during the fourth year, and 45% during the fifth year. The company paid financing costs of $0.8 million in connection with the term loan, which is being amortized over the life of the term loan.

Currently, the company s credit ratings by Fitch Ratings, Moody s, and Standard & Poor s are BBB, Baa2, and BBB-, respectively. Changes in the company s credit ratings do not trigger a change in the company s available borrowings or costs under the credit facility or term loan, but could affect future credit availability.

Uses of Cash

On February 20, 2009, the Board of Directors declared a dividend of $0.15 per share on the company s common stock that was paid on March 20, 2009 to shareholders of record on March 6, 2009. This dividend payment was

$14.0 million. On May 29, 2009, the Board of Directors declared a dividend of $0.175 per share on the company s common stock that will be paid on July 2, 2009 to shareholders of record on June 19, 2009.

On December 19, 2002, the board of directors approved a plan that authorized stock repurchases of up to 16.9 million shares of the company s common stock. On November 18, 2005, the board of directors further increased the number of authorized shares to 22.9 million shares. On February 8, 2008, the board of directors increased the number of authorized shares to 30.0 million shares. Under

the plan, the company may repurchase its common stock in open market or privately negotiated transactions at such times and at such prices as determined to be in the company s best interest. These purchases may be commenced or suspended without prior notice depending on then-existing business or market conditions and other factors. During the first quarter of fiscal 2009, 944,591 shares, at a cost of $21.6 million of the company s common stock were purchased under the plan. From the inception of the plan through April 25, 2009, 21.8 million shares, at a cost of $346.1 million, have been purchased.

During the first quarter of fiscal 2009, the company paid $26.3 million in performance-based cash awards under the company s bonus plan.

NEW ACCOUNTING PRONOUNCEMENTS:

In September 2006, the Financial Accounting Standards Board (FASB) issued SFAS No. 157, *Fair Value Measurements* (SFAS No. 157). SFAS No. 157 establishes a common definition for fair value to be applied to U.S. GAAP requiring use of fair value, establishes a framework for measuring fair value, and expands disclosure about such fair value measurements. SFAS No. 157 is effective for financial assets and financial liabilities for fiscal years beginning after November 15, 2007. The implementation of SFAS No. 157 for financial assets and financial liabilities, effective December 30, 2007, did not have a material impact on our consolidated financial position and results of operations. Please refer to Note 6 of Notes to Condensed Consolidated Financial Statements of this Form 10-Q for a detailed discussion.

In December 2007, the FASB issued SFAS No. 141R, *Business Combinations* (SFAS No. 141R), which changed the accounting for business acquisitions. SFAS No. 141R, as amended by FSP No. 141-1 issued in April 2009, requires the acquiring entity in a business combination to recognize all (and only) the assets acquired and liabilities assumed in the transaction and establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed in a business combination. Certain provisions of this standard impact the determination of acquisition-date fair value of consideration paid in a business combination (including contingent consideration); exclude transaction costs from acquisition accounting; and change accounting practices for acquisition-related restructuring costs, in-process research and development, indemnification assets, and tax benefits. SFAS No. 141R, as amended, was effective to the company for business combinations and adjustments to an acquired entity s deferred tax asset and liability balances occurring after January 3, 2009. This standard had no immediate impact upon adoption.

In December 2007, the FASB issued SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements* (SFAS No. 160). SFAS No. 160 establishes requirements for ownership interests in subsidiaries held by parties other than the company (sometimes called minority interests) be clearly identified, presented, and disclosed in the consolidated statement of financial position within equity, but separate from the parent s equity. All changes in the parent s ownership interests are required to be accounted for consistently as equity transactions and any noncontrolling equity investments in unconsolidated subsidiaries must be measured initially at fair value. SFAS No. 160 is effective, on a prospective basis, for fiscal years beginning after December 15, 2008. However, presentation and disclosure requirements must be retrospectively applied to comparative financial statements. The company adopted SFAS No. 160 as of January 4, 2009. As a result, upon adoption, the company has classified the Minority Interest in Variable Interest Entity balance to a new component of equity with respect to noncontrolling interests. The adoption also impacted certain captions previously used on the consolidated statement of income by separately identifying net income, net income attributable to noncontrolling interests and net income attributable to Flowers Foods, Inc. Prior period information presented in this Form 10-Q has been reclassified where required.

In March 2008, the FASB issued SFAS No. 161, *Disclosures About Derivative Instruments and Hedging Activities an amendment of FASB Statement No. 133* (SFAS No. 161). SFAS No. 161 expands quarterly disclosure requirements in SFAS No. 133 about an entity s derivative instruments and hedging activities. SFAS No. 161 was effective for the company as of January 4, 2009. The additional disclosures required by this standard are included in Note 6 of Notes to Condensed Consolidated Financial Statements of this Form 10-Q.

In May 2008, the FASB issued SFAS No. 162, *The Hierarchy of Generally Accepted Accounting Principles* (SFAS 162). SFAS 162 identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with

generally accepted accounting principles. SFAS 162 is effective 60 days following the Securities and Exchange Commission s approval of the Public Company Accounting Oversight Board amendments to AU Section 411, The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles. We do not anticipate that the adoption of SFAS 162 will materially impact the company.

In December 2008, the FASB issued FSP No. FAS 132(R)-1, *Employers Disclosures about Postretirement Benefit Plan Assets*. This FSP requires additional disclosures about plan assets for sponsors of defined benefit pension and postretirement plans including expanded information regarding investment strategies, major categories of plan assets, and concentrations of risk within plan assets.

Additionally, this FSP requires disclosures similar to those required under SFAS No. 157 with respect to the fair value of plan assets such as the inputs and valuation techniques used to measure fair value and information with respect to classification of plan assets in terms of the hierarchy of the source of information used to determine their value. The disclosures under this FSP are required for annual periods ending after December 15, 2009. The company is currently evaluating the requirements of these additional disclosures.

In April 2009, the FASB issued FSP No. FAS 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments*. This FSP essentially expands the disclosure about fair value of financial instruments that were previously required only annually to also be required for interim period reporting. In addition, the FSP requires certain additional disclosures regarding the methods and significant assumptions used to estimate the fair value of financial instruments. These additional disclosures will be required beginning with the quarter ending July 18, 2009. The company is currently evaluating the requirements of these additional disclosures.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The company uses derivative financial instruments as part of an overall strategy to manage market risk. The company uses forward, futures, swap and option contracts to hedge existing or future exposure to changes in interest rates and commodity prices. The company does not enter into these derivative financial instruments for trading or speculative purposes. If actual market conditions are less favorable than those anticipated, raw material prices could increase significantly, adversely affecting the margins from the sale of our products.

COMMODITY PRICE RISK

The company enters into commodity forward, futures and option contracts and swap agreements for wheat and, to a lesser extent, other commodities in an effort to provide a predictable and consistent commodity price and thereby reduce the impact of market volatility in its raw material and packaging prices. As of April 25, 2009, the company s hedge portfolio contained commodity derivatives with a fair value of $(17.7) million. Of this fair value, $(9.3) million is based on quoted market prices and $(8.4) million is based on models and other valuation methods. Approximately $(17.4) million and $(0.3) million of this fair value relates to instruments that will be utilized in fiscal 2009 and fiscal 2010, respectively.

A sensitivity analysis has been prepared to quantify the company s potential exposure to commodity price risk with respect to the derivative portfolio. Based on the company s derivative portfolio as of April 25, 2009, a hypothetical ten percent increase (decrease) in commodity prices would increase (decrease) the fair value of the derivative portfolio by $10.7 million. The analysis disregards changes in the exposures inherent in the underlying hedged items; however, the company expects that any increase (decrease) in fair value of the portfolio would be substantially offset by increases (decreases) in raw material and packaging prices.

INTEREST RATE RISK

On July 9, 2008 and August 13, 2008, the company entered interest rate swaps with notional amounts of $85.0 million, and $65.0 million, respectively, to fix the interest rate on the $150.0 million term loan secured on August 1, 2008 to fund the acquisitions of ButterKrust Bakery and Holsum Bakery, Inc. On October 27, 2008, the company entered an interest rate swap with a notional amount of $50.0 million to fix the interest rate on borrowings outstanding under the company s unsecured credit facility. As of April 25, 2009, the fair value of these interest rate swaps was $(8.4) million. All of this fair value is based on valuation models and $(3.2) million, $(3.0) million, $(1.5) million, $(0.6) million and $(0.1) million of this fair value is related to instruments expiring in 2009 through 2013, respectively.

A sensitivity analysis has been prepared to quantify the company s potential exposure to interest rate risk with respect to the interest rate swaps. As of April 25, 2009, a hypothetical ten percent increase (decrease) in interest rates would increase (decrease) the fair value of the interest rate swap by $0.9 million. The analysis disregards changes in the exposures inherent in the underlying debt; however, the company expects that any increase (decrease) in payments under the interest rate swap would be substantially offset by increases (decreases) in interest expense.

Table of Contents

ITEM 4. CONTROLS AND PROCEDURES

Management s Evaluation of Disclosure Controls and Procedures

We have established and maintain a system of disclosure controls and procedures that are designed to ensure that material information relating to the company, which is required to be timely disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934, as amended (the Exchange Act), is accumulated and communicated to management in a timely fashion and is recorded, processed, summarized and reported within the time periods specified by the SEC s rules and forms. An evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) was performed as of the end of the period covered by this quarterly report. This evaluation was performed under the supervision and with the participation of management, including our Chief Executive Officer (CEO), Chief Financial Officer (CFO) and Chief Accounting Officer (CAO). Based upon that evaluation, our CEO, CFO and CAO have concluded that these disclosure controls and procedures were effective as of the end of the period covered by this quarterly report.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting that occurred during our last fiscal quarter ended April 25, 2009 that have materially affected or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The company and its subsidiaries from time to time are parties to, or targets of, lawsuits, claims, investigations and proceedings, including personal injury, commercial, contract, environmental, antitrust, product liability, health and safety and employment matters, which are being handled and defended in the ordinary course of business. While the company is unable to predict the outcome of these matters, it believes, based upon currently available facts, that it is remote that the ultimate resolution of any such pending matters will have a material adverse effect on its overall financial condition, results of operations or cash flows in the future. However, adverse developments could negatively impact earnings in a future fiscal periods.

On July 23, 2008, a wholly-owned subsidiary of the company filed a lawsuit against Interstate Bakeries Corporation (IBC) in the United States District Court for the Northern District of Georgia. The complaint alleges that IBC is infringing upon Flowers *Nature s Own* trademarks by using the Nature s Pride trademark. The company asserts that IBC s sale of baked goods under the Nature s Pride trademark is likely to cause confusion with, and likely to dilute the distinctiveness of, the *Nature s Own* mark. The company is seeking actual damages, an accounting of IBC s profits, and injunctive relief. IBC has asserted a counterclaim for the cancellation of two of the four federal trademark registrations of *Nature s Own* asserted by the company. However, we deny these allegations and believes that the claims are without factual or legal bases.

The company s facilities are subject to various federal, state and local laws and regulations regarding the discharge of material into the environment and the protection of the environment in other ways. The company is not a party to any material proceedings arising under these regulations. The company believes that compliance with existing environmental laws and regulations will not materially affect the consolidated financial condition or the competitive position of the company. The company is currently in substantial compliance with all material environmental regulations affecting the company and its properties.

ITEM 1A. RISK FACTORS

Please refer to Part I, Item 1A., *Risk Factors*, in the company s Form 10-K for the year ended January 3, 2009 for information regarding factors that could affect the company s results of operations, financial condition and liquidity. There have been no changes to our risk factors during the first quarter of fiscal 2009.

Table of Contents

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On December 19, 2002 our board of directors approved a plan that authorized stock repurchases of up to 16.9 million shares of the company s common stock. On November 18, 2005, the board of directors increased the number of authorized shares to 22.9 million shares. On February 8, 2008, the board of directors further increased the number of authorized shares to 30.0 million shares. Under the plan, the company may repurchase its common stock in open market or privately negotiated transactions at such times and at such prices as determined to be in the company s best interest. These purchases may be commenced or suspended without prior notice depending on then-existing business or market conditions and other factors. The following chart sets forth the amounts of our common stock purchased by the company during the first quarter of fiscal 2009 under the stock repurchase plan.

Period	Total Number of Shares Purchased	Weighted Average Price Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plan or Programs
	(Amounts in thousands, except price data)			
January 4, 2009 January 31, 2009				9,143
February 1, 2009 February 28, 2009	92	$ 23.71	92	9,051
March 1, 2009 March 28, 2009	673	$ 22.49	673	8,378
March 29, 2009 April 25, 2009	180	$ 23.93	180	8,198
Total	945	$ 22.88	945
