QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 28, 2010

or

Transition report pursuant to section 13 or 15(d) of the Securities Exchange Act of 1934 for the transition period from _____ to _____

Commission file number 0-20852

ULTRALIFE CORPORATION

(Exact name of registrant as specified in its charter)

Delaware

16-1387013

(State or other jurisdiction
of incorporation or organization)

(I.R.S. Employer Identification No.)

2000 Technology Parkway, Newark, New York

14513

(Address of principal executive offices)

(Zip Code)

(315) 332-7100

(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date. Common stock, \$.10 par value 17,021,256 shares of common stock outstanding, net of 1,358,507 treasury shares, as of April 15, 2010.

Table of Contents

ULTRALIFE CORPORATION
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Dollar Amounts in Thousands Except Share and Per Share Amounts)
(unaudited)

1. BASIS OF PRESENTATION

The accompanying unaudited Condensed Consolidated Financial Statements of Ultralife Corporation and our subsidiaries have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals and adjustments) considered necessary for a fair presentation of the Condensed Consolidated Financial Statements have been included. Results for interim periods should not be considered indicative of results to be expected for a full year. Reference should be made to the Consolidated Financial Statements contained in our Form 10-K for the twelve-month period ended December 31, 2009.

The year-end condensed consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by accounting principles generally accepted in the United States of America. Certain items previously reported in specific financial statement captions have been reclassified to conform to the current presentation.

Our monthly closing schedule is a 5/4/4 weekly-based cycle for each fiscal quarter, as opposed to a calendar month-based cycle for each fiscal quarter. While the actual dates for the quarter-ends will change slightly each year, we believe that there are not any material differences when making quarterly comparisons.

2. ACQUISITIONS AND JOINT VENTURES

2009 Activity

We accounted for the following acquisitions in accordance with the purchase method of accounting provisions of the revised Financial Accounting Standards Board (FASB) guidance for business combinations, whereby the purchase price paid to effect an acquisition is allocated to the acquired tangible and intangible assets and liabilities at fair value.

AMTI™ Brand

On March 20, 2009, we acquired substantially all of the assets and assumed substantially all of the liabilities of the tactical communications products business of Science Applications International Corporation. The tactical communications products business (AMTI), located in Virginia Beach, Virginia, designs, develops and manufactures tactical communications products including amplifiers, man-portable systems, cables, power solutions and ancillary communications equipment that are sold by Ultralife Corporation under the brand name of AMTI.

Under the terms of the asset purchase agreement for AMTI, the purchase price consisted of \$5,717 in cash.

Table of Contents

The results of operations of AMTI and the estimated fair value of assets acquired and liabilities assumed are included in our Condensed Consolidated Financial Statements beginning on the acquisition date. For the three-month period ended March 28, 2010, AMTI contributed net sales of \$2,839 and net income of \$595. From the date of acquisition through March 29, 2009, AMTI contributed net sales of \$88 and a net loss of \$49. Pro forma information has not been presented, as it would not be materially different from amounts reported. The estimated excess of the purchase price over the net tangible and intangible assets acquired of \$4,684 was recorded as goodwill in the amount of \$1,033. The acquired goodwill has been assigned to the Communications Systems segment and is expected to be fully deductible for income tax purposes.

As a result of revisions to the final asset valuations during the first quarter of 2010, values assigned to the tangible and intangible assets have been revised. The adjustments to the values for tangible and intangible assets from those reported for the fourth quarter of 2009 were as follows: property, plant and equipment increased by \$133 and customer relationships increased by \$50. These adjustments resulted in a decrease to goodwill of \$183.

The following table represents the final allocation of the purchase price to assets acquired and liabilities assumed at the acquisition date:

ASSETS

Current assets:

Cash	\$	
Trade accounts receivable, net		693
Inventories		2,534
Total current assets		3,227
Property, plant and equipment, net		339
Goodwill		1,033
Intangible Assets:		
Trademarks		450
Patents and Technology		800
Customer Relationships		970
Total assets acquired		6,819

LIABILITIES

Current liabilities:

Accounts payable		801
Other current liabilities		301
Total current liabilities		1,102
Long-term liabilities:		
Other long-term liabilities		
Total liabilities assumed		1,102

Total Purchase Price	\$	5,717
-----------------------------	-----------	--------------

Trademarks have an indefinite life and are not being amortized. The intangible assets related to patents and technology and customer relationships are being amortized as the economic benefits of the intangible assets are being utilized over their weighted-average estimated useful life of thirteen years.

Table of Contents**3. INVENTORIES**

Inventories are stated at the lower of cost or market with cost determined under the first-in, first-out (FIFO) method. The composition of inventories was:

	March 28, 2010	December 31, 2009
Raw materials	\$ 19,482	\$ 19,743
Work in process	5,733	6,044
Finished goods	8,794	9,716
	\$ 34,009	\$ 35,503

4. PROPERTY, PLANT AND EQUIPMENT

Major classes of property, plant and equipment consisted of the following:

	March 28, 2010	December 31, 2009
Land	\$ 123	\$ 123
Buildings and leasehold improvements	6,200	6,127
Machinery and equipment	43,888	43,996
Furniture and fixtures	1,843	1,829
Computer hardware and software	3,389	3,397
Construction in progress	1,148	1,324
	56,591	56,796
Less: Accumulated depreciation	40,712	40,148
	\$ 15,879	\$ 16,648

Depreciation expense for property, plant and equipment was \$965 and \$921 for the three-month periods ended March 28, 2010 and March 29, 2009, respectively.

Table of Contents

5. GOODWILL AND INTANGIBLE ASSETS

a. Goodwill

The following table summarizes the goodwill activity by segment for the three-month periods ended March 28, 2010 and March 29, 2009:

	Battery & Energy Products	Communications Systems	Energy Services	Total
Balance at December 31, 2008	\$ 2,072	\$ 14,262	\$ 6,609	\$ 22,943
Adjustments to purchase price allocation		838	277	1,115
Acquisition of AMTI		2,119		2,119
Effect of foreign currency translations	(1)			(1)
Balance at March 29, 2009	2,071	17,219	6,886	26,176
Adjustments to purchase price allocation		(903)	162	(741)
Effect of foreign currency translations	1			1
Balance at December 31, 2009	2,072	16,316	7,048	25,436
Adjustments to purchase price allocation		(183)	27	(156)
Balance at March 28, 2010	\$ 2,072	\$ 16,133	\$ 7,075	\$ 25,280

Through March 28, 2010, we have accrued \$27 for the 2010 portion of the contingent cash consideration in connection with the purchase price for RPS Power Systems, Inc., which is included in the other current liabilities line on our Condensed Consolidated Balance Sheet. This accrual resulted in an increase to goodwill of \$27 in the Energy Services segment.

On April 27, 2010, we entered into an agreement (the "Amendment Agreement") with Ken Cotton, Shawn O'Connell, Simon Baitler and Tim Jacobs (together, the "Share Recipients"). The Amendment Agreement amends the terms of the asset purchase agreement dated October 31, 2008 whereby we acquired substantially all of the assets of U.S. Energy Systems, Inc. (the "Asset Purchase Agreement").

Under the terms of the Asset Purchase Agreement, on the achievement of certain annual post-acquisition financial milestones during the period ending December 31, 2012, we were to issue up to an aggregate of 200,000 unregistered shares of our common stock to Ken Cotton, Shawn O'Connell and Simon Baitler (together, the "Selling Shareholders"). At the time the Amendment Agreement was entered into, we had not issued any shares of our common stock to the Selling Shareholders because none of the financial milestones had been achieved.

Under the terms of the Amendment Agreement, we agreed to issue the Share Recipients an aggregate of 200,000 shares of our unregistered common stock, valued at approximately \$857, in full satisfaction of our outstanding obligations to the Selling Shareholders under the Asset Purchase Agreement. Under the terms of the Amendment Agreement, the Selling Shareholders agreed to release us from any past or present claims relating to the purchase price provisions of the Asset Purchase Agreement.

Table of Contents

We elected to enter into the Amendment Agreement because our consolidation plan and the reorganization of our reporting units involved reorganizing the operations of the business purchased in the Asset Purchase Agreement. The post-acquisition financial milestones in the Asset Purchase Agreement did not support our current consolidation and reorganization plans and it was determined that it would be in our best interests to satisfy our obligations under the Asset Purchase Agreement.

See Note 12 for additional information relating to the revised reporting of our operating segments.

b. Intangible Assets

The composition of intangible assets was:

	Gross Assets	March 28, 2010 Accumulated Amortization	Net
Trademarks	\$ 4,856	\$	\$ 4,856
Patents and technology	5,119	2,995	2,124
Customer relationships	9,822	4,292	5,530
Distributor relationships	352	242	110
Non-compete agreements	393	393	
Total intangible assets	\$ 20,542	\$ 7,922	\$ 12,620

	Gross Assets	December 31, 2009 Accumulated Amortization	Net
Trademarks	\$ 4,856	\$	\$ 4,856
Patents and technology	5,119	2,852	2,267
Customer relationships	9,772	3,972	5,800
Distributor relationships	352	215	137
Non-compete agreements	393	389	4
Total intangible assets	\$ 20,492	\$ 7,428	\$ 13,064

Amortization expense for intangible assets was \$495 and \$341 for the three-month periods ended March 28, 2010 and March 29, 2009, respectively.

The change in the cost value of total intangible assets from December 31, 2009 to March 28, 2010 is a result of changes in the valuation of tangible and intangible assets in connection with the 2009 acquisition.

6. DEBT

On February 17, 2010, we entered into a new senior secured asset based revolving credit facility (Credit Facility) of up to \$35,000 with RBS Business Capital, a division of RBS Asset Finance, Inc. (RBS). The proceeds from the Credit Facility can be used for general working capital purposes, general corporate purposes, letter of credit foreign exchange support and to repay existing indebtedness under the Amended and Restated Credit Agreement (Previous Credit Facility) with JP Morgan Chase Bank, N.A. and Manufacturers and Traders Trust Company (together, the Lenders),

Edgar Filing: ULTRALIFE CORP - Form 10-Q

with JP Morgan Chase Bank acting as the administrative agent (Agent). The Credit Facility has a maturity date of February 17, 2013 (Maturity Date). The Credit Facility is secured by substantially all of our assets. We paid RBS a facility fee of \$263.

Table of Contents

On February 18, 2010, we drew down \$9,870 from the Credit Facility to repay all outstanding amounts due under the Previous Credit Facility with the Lenders. Our available borrowing under the Credit Facility fluctuates from time to time based upon amounts of eligible accounts receivable and eligible inventory. Available borrowings under the Credit Facility equals the lesser of (1) \$35,000 or (2) 85% of eligible accounts receivable plus the lesser of (a) up to 70% of the book value of our eligible inventory or (b) 85% of the appraised net orderly liquidation value of our eligible inventory. The borrowing base under the Credit Facility is further reduced by (1) the face amount of any letters of credit outstanding, (2) any liabilities of ours under hedging contracts with RBS and (3) the value of any reserves as deemed appropriate by RBS. We are required to have at least \$3,000 available under the Credit Facility at all times.

Interest currently accrues on outstanding indebtedness under the Credit Facility at LIBOR plus 4.50%. We have the ability, in certain circumstances, to fix the interest rate for up to 90 days from the date of borrowing. Upon delivery of our audited financial statements for the fiscal year ended December 31, 2010 to RBS, and assuming no events of default exist at such time, the rate of interest under the Credit Facility can fluctuate based on the available borrowings remaining under the Credit Facility as set forth in the following table:

Excess Availability	LIBOR Rate Plus
Greater than \$10,000	4.00%
Greater than \$7,500 but less than or equal to \$10,000	4.25%
Greater than \$5,000 but less than or equal to \$7,500	4.50%
Greater than \$3,000 but less than or equal to \$5,000	4.75%

In addition to paying interest on the outstanding principal under the Credit Facility, we are required to pay an unused line fee of 0.50% on the unused portion of the \$35,000 Credit Facility. We must also pay customary letter of credit fees equal to the LIBOR rate and the applicable margin and any other customary fees or expenses of the issuing bank. Interest that accrues under the Credit Facility is to be paid monthly with all outstanding principal, interest and applicable fees due on the Maturity Date.

We are required to maintain a fixed charge coverage ratio of 1.20 to 1.00 or greater at all times as of and after March 28, 2010. As of March 28, 2010, our fixed coverage ratio was 2.20 to 1.00. Accordingly, we were in compliance with the financial covenants of the Credit Facility. All borrowings under the Credit Facility are subject to the satisfaction of customary conditions, including the absence of an event of default and accuracy of our representations and warranties. The Credit Facility also includes customary representations and warranties, affirmative covenants and events of default. If an event default occurs, RBS would be entitled to take various actions, including accelerating the amount due under the Credit Facility, and all actions permitted to be taken by a secured creditor.

As of March 28, 2010, we had \$8,049 outstanding under the Credit Facility. At March 28, 2010, the interest rate on the asset based revolver component was 4.73%. As of March 28, 2010, the revolver arrangement provided for up to \$35,000 of borrowing capacity, including outstanding letters of credit. At March 28, 2010, we had \$-0- of outstanding letters of credit related to this facility, leaving up to \$26,951 of additional borrowing capacity.

Table of Contents

There were several amendments to our Previous Credit Facility with the Lenders and Agent during the past few years, including amendments to authorize acquisitions and modify financial covenants.

On January 27, 2009, we entered into the Previous Credit Facility with the Lenders and Agent. The Previous Credit Facility reflected the previous ten amendments to the original Credit Agreement dated June 30, 2004 between us and the Lenders and Agent and modified certain of those provisions. The Previous Credit Facility among other things (i) increased the revolver loan commitment from \$22,500 to \$35,000, (ii) extended the maturity date of the revolving credit component from January 31, 2009 to June 30, 2010, (iii) modified the interest rate, and (iv) modified certain covenants. The rate of interest was based, in general, upon either a LIBOR rate plus a Eurodollar spread or an Alternate Base Rate plus an ABR spread, as that term was defined in the Previous Credit Facility, within a predetermined grid, which was dependent upon whether Earnings Before Interest and Taxes for the most recently completed fiscal quarter was greater than or less than zero. Generally, borrowings under the Previous Credit Facility bore interest based primarily on the Prime Rate plus 50 to 200 basis points or LIBOR plus 300 to 500 basis points. Additionally, among other covenant modifications, the Previous Credit Facility modified the financial covenants by (i) revising the debt to earnings ratio and fixed charge coverage ratio and (ii) deleting the current assets to liabilities ratio.

Effective June 28, 2009, we entered into Waiver and Amendment Number One to Amended and Restated Credit Agreement (Waiver and Amendment) with the Lenders and Agent. The Waiver and Amendment provided that the Lenders and Agent would waive their right to exercise their respective rights and remedies under the credit facility arising from our failure to comply with the financial covenants in the credit facility with respect to the fiscal quarter ended June 28, 2009. In addition to a number of revisions to non-financial covenants, the Waiver and Amendment revised the applicable revolver rate under the Previous Credit Facility to an interest rate structure based on the Prime Rate plus 200 basis points or LIBOR plus 500 basis points.

On January 15, 2010, we received a demand letter from the Agent in connection with the Previous Credit Facility (Demand Letter). In the Demand Letter, the Agent claimed that we had (i) failed to satisfy and comply with the financial covenants set forth in Section 6.09 of the Previous Credit Facility, and (ii) failed to pay interest and expenses when due as set forth in Section 7(b) of the Previous Credit Facility. The Agent declared the outstanding principal, unpaid interest and unpaid fees in the aggregate amount of \$15,914 immediately due and payable in full. The Agent demanded payment of such amount by January 22, 2010. The Agent also terminated the Lender s commitment to lend additional funds to us under the Previous Credit Facility and increased the interest rate on the outstanding principal to the default rate set under Section 2.13(c) of the Previous Credit Facility.

On January 22, 2010, we entered into a Forbearance and Amendment Number Two to the Previous Credit Facility with the Lenders (Forbearance Agreement). Under the Forbearance Agreement, the Lenders agreed to forbear until February 18, 2010 from exercising their respective rights and remedies under the Previous Credit Facility and delayed the date by which we were to pay the Lenders the amount declared due and payable under the Demand Letter. Under the Forbearance Agreement, we were required to make payments on the outstanding principal owed under the Previous Credit Facility pursuant to the following schedule: (i) \$1,500 on January 22, 2010; (ii) \$3,500 on or before January 29, 2010; and (iii) \$500 commencing February 5, 2010 and continuing on each Friday through the term of the Forbearance Agreement. We were also required to pay a forbearance fee of \$63 and all of the fees and expenses incurred by the Lenders. The Forbearance Agreement also reaffirmed the Lenders termination of their commitment to lend additional funds to us under the Previous Credit Facility and the increased interest rate on the outstanding principal to the default rate set under Section 2.13(c) of the Previous Credit Facility. We made all payments required by and complied with all provisions of the Forbearance Agreement.

Table of Contents

7. SHAREHOLDERS EQUITY

a. Common Stock

In February 2010, we issued 19,346 shares of common stock to our non-employee directors, valued at \$76.

b. Treasury Stock

At March 28, 2010 and December 31, 2009, we had 1,358,507 shares of treasury stock outstanding, valued at \$7,558.

c. Stock Options

We have various stock-based employee compensation plans, for which we follow the provisions of FASB's guidance on share-based payments, which requires that compensation cost relating to share-based payment transactions be recognized in the financial statements. The cost is measured at the grant date, based on the fair value of the award, and is recognized as an expense over the employee's requisite service period (generally the vesting period of the equity award).

Our shareholders have approved various equity-based plans that permit the grant of options, restricted stock and other equity-based awards. In addition, our shareholders have approved the grant of options outside of these plans.

In December 2000, our shareholders approved a stock option plan for grants to key employees, directors and consultants. The shareholders approved reservation of 500,000 shares of common stock for grants under the plan. In December 2002, the shareholders approved an amendment to the plan increasing the number of shares of common stock reserved by 500,000, to a total of 1,000,000 shares.

In June 2004, our shareholders adopted the 2004 Long-Term Incentive Plan (LTIP) pursuant to which we were authorized to issue up to 750,000 shares of common stock and grant stock options, restricted stock awards, stock appreciation rights and other stock-based awards. In June 2006, the shareholders approved an amendment to the LTIP, increasing the number of shares of common stock by an additional 750,000, bringing the total shares authorized under the LTIP to 1,500,000. In June 2008, the shareholders approved another amendment to the LTIP, increasing the number of shares of common stock by an additional 500,000, bringing the total shares authorized under the LTIP to 2,000,000 shares.

Stock options granted under the amended stock option plan and the LTIP are either Incentive Stock Options (ISOs) or Non-Qualified Stock Options (NQSOs). Key employees are eligible to receive ISOs and NQSOs; however, directors and consultants are eligible to receive only NQSOs. Most ISOs vest over a three- or five-year period and expire on the sixth or seventh anniversary of the grant date. All NQSOs issued to non-employee directors vest immediately and expire on either the sixth or seventh anniversary of the grant date. Some NQSOs issued to non-employees vest immediately and expire within three years; others have the same vesting characteristics as options given to employees. As of March 28, 2010, there were 1,792,857 stock options outstanding under the amended stock option plan and the LTIP.

On December 19, 2005, we granted our President and Chief Executive Officer, John D. Kavazanjian, an option to purchase 48,000 shares of common stock at \$12.96 per share outside of any of our equity-based compensation plans, subject to shareholder approval. Shareholder approval was obtained on June 8, 2006. The option is fully vested and expires on June 8, 2013.

Table of Contents

On March 7, 2008, in connection with his becoming employed by us, we granted our Chief Financial Officer and Treasurer, Philip A. Fain, an option to purchase 50,000 shares of common stock at \$12.74 per share outside of any of our equity-based compensation plans. The option vests in annual increments of 16,667 shares over a three-year period which commenced March 7, 2009. The option expires on March 7, 2015.

In conjunction with FASB's guidance for share-based payments, we recorded compensation cost related to stock options of \$236 and \$421 for the three-month periods ended March 28, 2010 and March 29, 2009, respectively. As of March 28, 2010, there was \$1,042 of total unrecognized compensation costs related to outstanding stock options, which is expected to be recognized over a weighted average period of 1.54 years.

We use the Black-Scholes option-pricing model to estimate the fair value of stock-based awards. The following weighted average assumptions were used to value options granted during the three-month periods ended March 28, 2010 and March 29, 2009:

	Three-Month Periods Ended	
	March 28, 2010	March 29, 2009
Risk-free interest rate	2.11%	1.24%
Volatility factor	79.75%	67.65%
Dividends	0.00%	0.00%
Weighted average expected life (years)	3.51	3.57

We calculate expected volatility for stock options by taking an average of historical volatility over the past five years and a computation of implied volatility. The computation of expected term was determined based on historical experience of similar awards, giving consideration to the contractual terms of the stock-based awards and vesting schedules. The interest rate for periods within the contractual life of the award is based on the U.S. Treasury yield in effect at the time of grant.

Stock option activity for the first three months of 2010 is summarized as:

	Number of Shares	Weighted Average Exercise Price Per Share	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value
Shares under option at January 1, 2010	1,805,107	\$ 10.99		
Options granted	248,500	4.45		
Options exercised				
Options forfeited	(32,165)	6.06		
Options expired	(130,585)	12.79		
Shares under option at March 28, 2010	1,890,857	\$ 10.09	3.85 years	\$ 84
Vested and expected to vest as of March 28, 2010	1,752,218	\$ 10.38	3.72 years	\$ 70
Options exercisable at March 28, 2010	1,120,710	\$ 12.96	2.48 years	\$

Table of Contents

The total intrinsic value of options (which is the amount by which the stock price exceeded the exercise price of the options on the date of exercise) exercised during the three-month period ended March 28, 2010 was \$-0-.

FASB's guidance for share-based payments requires cash flows from excess tax benefits to be classified as a part of cash flows from financing activities. Excess tax benefits are realized tax benefits from tax deductions for exercised options in excess of the deferred tax asset attributable to stock compensation costs for such options. We did not record any excess tax benefits in the first three months of 2010 and 2009. Cash received from option exercises under our stock-based compensation plans for the three-month periods ended March 28, 2010 and March 29, 2009 was \$-0- and \$119, respectively.

d. Warrants

On May 19, 2006, in connection with our acquisition of ABLE New Energy Co., Ltd., we granted warrants to acquire 100,000 shares of common stock. The exercise price of the warrants is \$12.30 per share and the warrants have a five-year term. In January 2008, 82,000 warrants were exercised, for total proceeds received of \$1,009. In January 2009, 10,000 warrants were exercised, for total proceeds received of \$123. At March 28, 2010, there were 8,000 warrants outstanding.

e. Restricted Stock Awards

There were no restricted stock grants awarded during the three-month period ended March 28, 2010.

Restricted stock grants awarded during the three-month period ended March 29, 2009 had the following values:

	Three-Month Period Ended March 29, 2009
Number of shares awarded	16,286
Weighted average fair value per share	\$ 11.33
Aggregate total value	\$ 185

The activity of restricted stock awards of common stock for the first three months of 2010 is summarized as follows:

	Number of Shares	Weighted Average Grant Date Fair Value
Unvested at December 31, 2009	46,527	\$ 11.42
Granted		
Vested	(9,944)	12.69
Forfeited	(26,500)	10.74
Unvested at March 28, 2010	10,083	\$ 11.96

We recorded compensation cost related to restricted stock grants of \$9 and \$87 for the three-month periods ended March 28, 2010 and March 29, 2009, respectively. As of March 28, 2010, we had \$151 of total unrecognized compensation expense related to restricted stock grants, which is expected to be recognized over the remaining weighted average period of approximately 1.52 years. The total fair value of these grants that vested during the three-month period ended March 28, 2010 was \$44.

Table of Contents**8. INCOME TAXES**

The asset and liability method, prescribed by FASB's guidance on the Accounting for Income Taxes, is used in accounting for income taxes. Under this method, deferred tax assets and liabilities are determined based on differences between financial reporting and tax basis of assets and liabilities and are measured using the enacted tax rates and laws that are expected to be in effect when the differences are expected to reverse.

For the three-month periods ended March 28, 2010 and March 29, 2009, we recorded \$105 and \$91, respectively, in income tax expense. The expense is primarily due to the recognition of deferred tax liabilities generated from goodwill and certain intangible assets that cannot be predicted to reverse for book purposes during our loss carryforward periods. The remaining expense in 2010 was primarily due to the income reported for U.S. operations during the period.

The effective tax rate for the total consolidated company for the three-month periods ended March 28, 2010 and March 29, 2009 was:

	Three-Month Periods Ended	
	March 28, 2010	March 29, 2009
Income (Loss) before Incomes Taxes (a)	\$ 401	\$ (2,425)
Total Income Tax Provision (b)	\$ 105	\$ 91
Effective Tax Rate (b/a)	26.2%	3.8%

The overall effective rate is the result of the combination of income and losses in each of our tax jurisdictions, which is particularly influenced by the fact that we have not recognized a deferred tax asset pertaining to cumulative historical losses for our U.S. operations and our U.K. and China subsidiaries, as management does not believe, at this time, it is more likely than not that we will realize the benefit of these losses. We have substantial net operating loss carryforwards which offset taxable income in the United States. However, we remain subject to the alternative minimum tax in the United States. The alternative minimum tax limits the amount of net operating loss available to offset taxable income to 90% of the current year income. We incurred \$23 in alternative minimum tax for the three-month period ended March 28, 2010. However, the alternative minimum tax did not have an impact on income taxes determined for 2009. The payment of the alternative minimum tax normally results in the establishment of a deferred tax asset; however, we have established a valuation allowance for our net U.S. deferred tax asset. Therefore, the expected payment of the alternative minimum tax does not result in a net deferred tax asset. The tax provision for 2010 also includes a provision for state income taxes, for states in which we do not have the ability to utilize net operating loss carryforwards.

As of December 31, 2009, we have foreign and domestic net operating loss carryforwards totaling approximately \$61,257 available to reduce future taxable income. Foreign loss carryforwards of approximately \$10,624 can be carried forward indefinitely. The domestic net operating loss carryforwards of \$50,633 expire from 2019 through 2029. The domestic net operating loss carryforwards include approximately \$2,867 of the net operating loss carryforwards for which a benefit will be recorded in capital in excess of par value when realized.

We have adopted the provisions of FASB's guidance for the Accounting for Uncertainty in Income Taxes. We have recorded no liability for income taxes associated with unrecognized tax benefits during 2009 and 2010, and as such, have not recorded any interest or penalty in regard to any unrecognized benefit. Our policy regarding interest and/or penalties related to income tax matters is to recognize such items as a component of income tax expense (benefit).

Table of Contents

We file a consolidated income tax return in the U.S. federal jurisdiction and consolidated and separate income tax returns in various state and foreign jurisdictions. Our U.S. tax matters for the years 2005 through 2009 remain subject to examination by the Internal Revenue Service (IRS). Our tax matters for the years 2004 through 2009 remain subject to examination by various state and local U.S. tax jurisdictions and by the respective foreign tax jurisdiction authorities.

We have determined that a change in ownership, as defined under Internal Revenue Code Section 382, occurred during 2005 and 2006. As such, the domestic NOL carryforward will be subject to an annual limitation estimated to be in the range of approximately \$12,000 and \$14,500. The unused portion of the annual limitation can be carried forward to subsequent periods. We believe such limitation will not impact our ability to realize the deferred tax asset. The use of our U.K. NOL carryforwards may be limited due to the change in the U.K. operation during 2008 from a manufacturing and assembly center to primarily a distribution and service center.

9. EARNINGS PER SHARE

On January 1, 2009, we adopted the provisions of FASB's guidance for determining whether instruments granted in share-based payment transactions are participating securities. The guidance requires that all outstanding unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (such as restricted stock awards granted by us) be considered participating securities. Because the restricted stock awards are participating securities, we are required to apply the two-class method of computing basic and diluted earnings per share (the Two-Class Method).

Basic EPS is determined using the Two-Class Method and is computed by dividing earnings attributable to Ultralife common shareholders by the weighted-average shares outstanding during the period. The Two-Class Method is an earnings allocation formula that determines earnings per share for each class of common stock and participating security according to dividends declared and participation rights in undistributed earnings. Diluted EPS includes the dilutive effect of securities, if any, and reflects the more dilutive EPS amount calculated using the treasury stock method or the Two-Class Method. For the three-month periods ended March 28, 2010 and March 29, 2009, both the Two-Class Method and the treasury stock method calculations for diluted EPS yielded the same result.

The computation of basic and diluted earnings per share is summarized as follows:

	Three-Month Periods Ended	
	March 28, 2010	March 29, 2009
Net Income (Loss) attributable to Ultralife	\$ 287	\$ (2,512)
Net Income (Loss) attributable to participating securities (unvested restricted stock awards) (36,000 and -0- shares, respectively)	1	
Net Income (Loss) attributable to Ultralife common shareholders (a)	286	(2,512)
Effect of Dilutive Securities:		
Convertible Notes Payable		
Net Income (Loss) attributable to Ultralife common shareholders Adjusted (b)	\$ 286	\$ (2,512)
Average Common Shares Outstanding Basic (c)	16,995,000	17,115,000
Effect of Dilutive Securities:		
Stock Options / Warrants	4,000	
Convertible Notes Payable		
Average Common Shares Outstanding Diluted (d)	16,999,000	17,115,000
EPS Basic (a/c)	\$ 0.02	\$ (0.15)

EPS	Diluted (b/d)	\$	0.02	\$	(0.15)
-----	---------------	----	------	----	--------

Table of Contents

There were 1,861,440 and 1,717,073 outstanding stock options, warrants and restricted stock awards for the three-month periods ended March 28, 2010 and March 29, 2009, respectively, that were not included in EPS as the effect would be anti-dilutive. We also had 223,697 and 253,776 shares of common stock for the three-month periods ended March 28, 2010 and March 29, 2009, respectively, reserved under convertible notes payable, which were not included in EPS as the effect would be anti-dilutive. The dilutive effect of 47,500 and -0- outstanding stock options, warrants and restricted stock awards were included in the dilution computation for the three-month periods ended March 28, 2010 and March 29, 2009, respectively.

10. COMPREHENSIVE INCOME

The components of our total comprehensive income (loss) were:

	Three-Month Periods Ended	
	March 28, 2010	March 29, 2009
Net income (loss) attributable to Ultralife	\$ 287	\$ (2,512)
Foreign currency translation adjustments	(334)	(54)
Change in fair value of derivatives		7
Total comprehensive income (loss)	\$ (47)	\$ (2,559)

11. COMMITMENTS AND CONTINGENCIES**a. Purchase Commitments**

As of March 28, 2010, we have made commitments to purchase approximately \$202 of production machinery and equipment.

b. Product Warranties

We estimate future costs associated with expected product failure rates, material usage and service costs in the development of our warranty obligations. Warranty reserves are based on historical experience of warranty claims and generally will be estimated as a percentage of sales over the warranty period. In the event the actual results of these items differ from the estimates, an adjustment to the warranty obligation would be recorded. Changes in our product warranty liability during the first three months of 2010 were as follows:

Balance at December 31, 2009	\$ 1,182
Accruals for warranties issued	(118)
Settlements made	(16)
Balance at March 28, 2010	\$ 1,048

Table of Contents

c. Contingencies and Legal Matters

We are subject to legal proceedings and claims that arise in the normal course of business. We believe that the final disposition of such matters will not have a material adverse effect on our financial position, results of operations or cash flows.

In conjunction with our purchase/lease of our Newark, New York facility in 1998, we entered into a payment-in-lieu of tax agreement, which provided us with real estate tax concessions upon meeting certain conditions. In connection with this agreement, a consulting firm performed a Phase I and II Environmental Site Assessment, which revealed the existence of contaminated soil and ground water around one of the buildings. We retained an engineering firm, which estimated that the cost of remediation should be in the range of \$230. In February 1998, we entered into an agreement with a third party which provides that we and this third party will retain an environmental consulting firm to conduct a supplemental Phase II investigation to verify the existence of the contaminants and further delineate the nature of the environmental concern. The third party agreed to reimburse us for fifty percent (50%) of the cost of correcting the environmental concern on the Newark property. We have fully reserved for our portion of the estimated liability. Test sampling was completed in the spring of 2001, and the engineering report was submitted to the New York State Department of Environmental Conservation (NYSDEC) for review. The NYSDEC reviewed the report and, in January 2002, recommended additional testing. We responded by submitting a work plan to the NYSDEC, which was approved in April 2002. We sought proposals from engineering firms to complete the remedial work contained in the work plan. A firm was selected to undertake the remediation and in December 2003 the remediation was completed, and was overseen by the NYSDEC. The report detailing the remediation project, which included the test results, was forwarded to the NYSDEC and to the New York State Department of Health (NYSDOH). The NYSDEC, with input from the NYSDOH, requested that we perform additional sampling. A work plan for this portion of the project was written and delivered to the NYSDEC and approved. In November 2005, additional soil, sediment and surface water samples were taken from the area outlined in the work plan, as well as groundwater samples from the monitoring wells. We received the laboratory analysis and met with the NYSDEC in March 2006 to discuss the results. On June 30, 2006, the Final Investigation Report was delivered to the NYSDEC by our outside environmental consulting firm. In November 2006, the NYSDEC completed its review of the Final Investigation Report and requested additional groundwater, soil and sediment sampling. A work plan to address the additional investigation was submitted to the NYSDEC in January 2007 and was approved in April 2007. Additional investigation work was performed in May 2007. A preliminary report of results was prepared by our outside environmental consulting firm in August 2007 and a meeting with the NYSDEC and NYSDOH took place in September 2007. As a result of this meeting, NYSDEC and NYSDOH requested additional investigation work. A work plan to address this additional investigation was submitted to and approved by the NYSDEC in November 2007. Additional investigation work was performed in December 2007. Our environmental consulting firm prepared and submitted a Final Investigation Report in January 2009 to the NYSDEC for review. The NYSDEC reviewed and approved the Final Investigation Report in June 2009 and requested the development of a Remedial Action Plan. Our environmental consulting firm developed and submitted the requested plan for review and approval by the NYSDEC. In October 2009, we received comments back from the NYSDEC regarding the content of the remediation work plan. Our environmental consulting firm has incorporated the requested changes and submitted a revised work plan to the NYSDEC in January 2010 for review and approval. The final Remedial Action Plan selected may increase the estimated remediation costs modestly. Through March 28, 2010, total costs incurred have amounted to approximately \$260, none of which has been capitalized. At March 28, 2010 and December 31, 2009, we had \$49 and \$49, respectively, reserved for this matter.

Table of Contents

From August 2002 through August 2006, we participated in a self-insured trust to manage our workers' compensation activity for our employees in New York State. All members of this trust have, by design, joint and several liability during the time they participate in the trust. In August 2006, we left the self-insured trust and have obtained alternative coverage for our workers' compensation program through a third-party insurer. In the third quarter of 2006, we confirmed that the trust was in an underfunded position (i.e. the assets of the trust were insufficient to cover the actuarially projected liabilities associated with the members in the trust). In the third quarter of 2006, we recorded a liability and an associated expense of \$350 as an estimate of our potential future cost related to the trust's underfunded status based on our estimated level of participation. On April 28, 2008, we, along with all other members of the trust, were served by the State of New York Workers' Compensation Board ("Compensation Board") with a Summons with Notice that was filed in Albany County Supreme Court, wherein the Compensation Board put all members of the trust on notice that it would be seeking approximately \$1,000 in previously billed and unpaid assessments and further assessments estimated to be not less than \$25,000 arising from the accumulated estimated under-funding of the trust. The Summons with Notice did not contain a complaint or a specified demand. We timely filed a Notice of Appearance in response to the Summons with Notice. On June 16, 2008, we were served with a Verified Complaint. Subject to the results of a deficit reconstruction that was pending, the Verified Complaint estimated that the trust was underfunded by \$9,700 during the period of December 1, 1997 – November 30, 2003 and an additional \$19,400 for the period December 1, 2003 – August 31, 2006. The Verified Complaint estimates our pro-rata share of the liability for the period of December 1, 1997 – November 30, 2003 to be \$195. The Verified Complaint did not contain a pro-rata share liability estimate for the period of December 1, 2003-August 31, 2006. Further, the Verified Complaint stated that all estimates of the underfunded status of the trust and the pro-rata share liability for the period of December 1, 1997-November 30, 2003 are subject to adjustment based on a forensic audit of the trust that is currently being conducted on behalf of the Compensation Board by a third-party audit firm. We timely filed our Verified Answer with Affirmative Defenses on July 24, 2008. In November 2009, the New York Attorney General's office presented the results of the deficit reconstruction of the trust. As a result of the deficit reconstruction, the State of New York has determined that the trust was underfunded by \$19,100 instead of \$29,100. Our pro-rata share of the liability was determined to be \$452. The Attorney General's office proposed a settlement by which we may avoid joint and several liability in exchange for a settlement payment of \$520. Under the terms of the settlement agreement, we can satisfy our obligations by either paying (i) a lump sum of \$468, representing a 10% discount, (ii) paying the entire amount in twelve monthly installments of \$43 commencing the month following execution of the settlement agreement, or (iii) paying the entire amount in monthly installments over a period of up to five years, with interest of 6.0, 6.5, 7.0, and 7.5% for the two, three, four and five year periods, respectively. On May 3, 2010, we received written notice from the Attorney General's office that the Compensation Board has decided to proceed with the settlement, as proposed, and that payments will commence in June 2010. As of March 28, 2010, our reserve is \$520 to account for the twelve monthly installments settlement amount.

d. Post-Audits of Government Contracts

We had certain exigent, non-bid contracts with the U.S. government, which were subject to audit and final price adjustment, which have resulted in decreased margins compared with the original terms of the contracts. As of March 28, 2010, there were no outstanding exigent contracts with the government. As part of its due diligence, the government has conducted post-audits of the completed exigent contracts to ensure that information used in supporting the pricing of exigent contracts did not differ materially from actual results. In September 2005, the Defense Contracting Audit Agency ("DCAA") presented its findings related to the audits of three of the exigent contracts, suggesting a potential pricing

Table of Contents

adjustment of approximately \$1,400 related to reductions in the cost of materials that occurred prior to the final negotiation of these contracts. We have reviewed these audit reports, have submitted our response to these audits and believe, taken as a whole, the proposed audit adjustments can be offset with the consideration of other compensating cost increases that occurred prior to the final negotiation of the contracts. While we believe that potential exposure exists relating to any final negotiation of these proposed adjustments, we cannot reasonably estimate what, if any, adjustment may result when finalized. In addition, in June 2007, we received a request from the Office of Inspector General of the Department of Defense (DoD IG) seeking certain information and documents relating to our business with the Department of Defense. We continue to cooperate with the DCAA audit and DoD IG inquiry by making available to government auditors and investigators our personnel and furnishing the requested information and documents. At this time we have no basis for assessing whether we might face any penalties or liabilities on account of the DoD IG inquiry. The aforementioned DCAA-related adjustments could reduce margins and, along with the aforementioned DoD IG inquiry, could have an adverse effect on our business, financial condition and results of operations.

e. Government Grants/Loans

In conjunction with the City of West Point, Mississippi, we applied for a Community Development Block Grant (CDBG) from the State of Mississippi for infrastructure improvements to our leased facility that is owned by the City of West Point, Mississippi. The CDBG was awarded and as of March 28, 2010, approximately \$480 has been distributed under the grant. Under an agreement with the City of West Point, we have agreed to employ at least 30 full-time employees at the facility, of which 51% of the jobs must be filled or made available to low or moderate income families, within three years of completion of the CDBG improvement activities. In addition, we have agreed to invest at least \$1,000 in equipment and working capital into the facility within the first three years of operation of the facility. In the event we fail to honor these commitments, we are obligated to reimburse all amounts received under the CDBG to the City of West Point, Mississippi.

In conjunction with Clay County, Mississippi, we applied for a Mississippi Rural Impact Fund Grant (RIFG) from the State of Mississippi for infrastructure improvements to our leased facility that is owned by the City of West Point, Mississippi. The RIFG was awarded and as of March 28, 2010, approximately \$150 has been distributed under the grant. Under an agreement with Clay County, we have agreed to employ at least 30 full-time employees at the facility, of which 51% of the jobs must be filled or made available to low or moderate income families, within two years of completion of the RIFG improvement activities. In addition, we have agreed to invest at least \$1,000 in equipment and working capital into the facility within the first three years of operation of the facility. In the event we fail to honor these commitments, we are obligated to reimburse all amounts received under the RIFG to Clay County, Mississippi.

12. BUSINESS SEGMENT INFORMATION

Beginning January 1, 2010, we now report our results in three operating segments instead of four: Battery & Energy Products; Communications Systems; and Energy Services. This change in segment reporting is more consistent with how we now manage our business operations. The Non-rechargeable Products and Rechargeable Products segments have been combined into a single segment called Battery & Energy Products. The Communications Systems segment now includes our RedBlack Communications business, which was previously included in the Design & Installation Services segment. The Design & Installation Services segment has been renamed Energy Services and will continue to encompass our standby power business. Research, design and development contract revenues and expenses, which were previously included in the Design & Installation Services segment, have been captured under the respective operating segment in which the work is performed.

Table of Contents

The Battery & Energy Products segment includes: lithium 9-volt, cylindrical and various other non-rechargeable batteries, in addition to rechargeable batteries, uninterruptable power supplies and accessories, such as cables. The Communications Systems segment includes: power supplies, cable and connector assemblies, RF amplifiers, amplified speakers, equipment mounts, case equipment, integrated communication system kits, charging systems and communications and electronics systems design. The Energy Services segment includes: standby power and systems design, installation and maintenance activities. We look at our segment performance at the gross margin level, and we do not allocate research and development, except for research, design and development contracts as noted above, or selling, general and administrative costs against the segments. All other items that do not specifically relate to these three segments and are not considered in the performance of the segments are considered to be Corporate charges.

Three-Month Period Ended March 28, 2010

	Battery & Energy Products	Communications Systems	Energy Services	Corporate	Total
Revenues	\$ 23,403	\$ 13,066	\$ 2,038	\$	\$ 38,507

13. FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair value of cash, accounts receivable, trade accounts payable, accrued liabilities, our revolving credit facility, and our convertible note payable approximates carrying value due to the short-term nature of these instruments. The estimated fair value of other long-term debt and capital lease obligations approximates carrying value due to the variable nature of the interest rates or the stated interest rates approximating current interest rates that are available for debt with similar terms.

14. RECENT ACCOUNTING PRONOUNCEMENTS AND DEVELOPMENTS

In April 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-17, Revenue Recognition Milestone Method (Topic 605): Milestone Method of Revenue Recognition a consensus of the FASB Emerging Issues Task

Force (EITF) . ASU No. 2010-17 limits the scope of this ASU to research or development arrangements and requires that guidance in this ASU be met for an entity to apply the milestone method (record the milestone payment in its entirety in the period received). However, the FASB clarified that, even if the requirements in this ASU are met, entities would not be precluded from making an accounting policy election to apply another appropriate policy that results in the deferral of some portion of the arrangement consideration. The guidance in this ASU will apply to milestones in both single-deliverable and multiple-deliverable arrangements involving research or development transactions. ASU No. 2010-17 will be effective prospectively for milestones achieved in fiscal years, and interim periods within those years, beginning on or after June 15, 2010. Early adoption is permitted. We are currently evaluating the impact that ASU No. 2010-17 will have on our financial statements.

Table of Contents

In January 2010, the FASB issued ASU No. 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements, which provides additional guidance to improve disclosures regarding fair value measurements. ASU No. 2010-06 amends Accounting Standards Codification (ASC) 820-10 to add two new disclosures: (1) transfers in and out of Level 1 and 2 measurements and the reasons for the transfers, and (2) a gross presentation of activity within the Level 3 roll forward. ASU 2010-06 also includes clarifications to existing disclosure requirements on the level of disaggregation and disclosures regarding inputs and valuation techniques. ASU 2010-06 applies to all entities required to make disclosures about recurring and nonrecurring fair value measurements. ASU No. 2010-06 will be effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements, which is effective for fiscal years beginning after December 15, 2010. The partial adoption of ASU 2010-06 did not have a material impact on our financial statements. We are currently evaluating the impact of the deferred portions of ASU No. 2010-06 will have on our financial statements; however we do not expect the adoption of the deferred portions of ASU 2010-06 to have a material impact on the financial statements, except for the additional disclosures that will be required.

In January 2010, the FASB issued ASU No. 2010-02, Consolidation (Topic 810): Accounting and Reporting for Decreases in Ownership of a Subsidiary – a Scope Clarification, to address implementation issues related to the changes in ownership provisions in ASC 810-10. ASU No. 2010-02 amends ASC 810-10 and related guidance to clarify that the scope of the decrease in ownership provisions applies to the following: a subsidiary or group of assets that is a business or nonprofit activity; a subsidiary that is a business or nonprofit activity that is transferred to an equity method investee or joint venture; or an exchange of a group of assets that constitutes a business or nonprofit activity for a noncontrolling interest in an entity, including an equity method investee or joint venture. The amendments also clarify that the decrease in ownership provisions do not apply to the following transactions even if they involve businesses: sales of in substance real estate; and conveyances of oil and gas mineral rights. If a decrease in ownership occurs in a subsidiary that is not a business or nonprofit activity, entities first need to consider whether the substance of the transaction is addressed in other U.S. GAAP, such as transfers of financial assets, revenue recognition, etc., and apply that guidance. If no other guidance exists, an entity should apply ASC 810-10. Lastly, ASU No. 2010-02 expands existing disclosure requirements for transactions within the scope of ASC 810-10, and adds several new ones that address fair value measurements and related techniques, the nature of any continuing involvement after the transaction, and whether related parties are involved. ASU No. 2010-02 is effective beginning in the period that an entity adopts ASC 810-10. If an entity had previously adopted ASC 810-10, the amendments are effective beginning in the first interim or annual reporting period ending on or after December 15, 2009. The amendments must be applied retrospectively to the date ASC 810-10 was adopted. The adoption of ASU No. 2010-02, with retrospective application to January 1, 2009, did not have a significant impact on our financial statements.

Table of Contents

In October 2009, the FASB issued ASU No. 2009-13, Revenue Recognition (Topic 605): Multiple-Deliverable Revenue Arrangements a consensus of the FASB EITF . ASU No. 2009-13 eliminates the residual method of accounting for revenue on undelivered products and instead, requires companies to allocate revenue to each of the deliverable products based on their relative selling price. In addition, this ASU expands the disclosure requirements surrounding multiple-deliverable arrangements. ASU No. 2009-13 will be effective for revenue arrangements entered into for fiscal years beginning on or after June 15, 2010. We are currently evaluating the impact that ASU No. 2009-13 will have on our financial statements.

In June 2009, the FASB issued amended guidance for the accounting for transfers of financial assets. The amended guidance removes the concept of a qualifying special-purpose entity. The amended guidance is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2009. Earlier application is prohibited. The adoption of this pronouncement did not have a significant impact on our financial statements.

In June 2009, the FASB issued amended guidance for the accounting for variable interest entities. The amendments include: (1) the elimination of the exemption for qualifying special purpose entities, (2) a new approach for determining who should consolidate a variable-interest entity, and (3) changes to when it is necessary to reassess who should consolidate a variable-interest entity. The amended guidance is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2009. Earlier adoption is prohibited. The adoption of this pronouncement did not have a significant impact on our financial statements.

Table of Contents**Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for forward-looking statements. This report contains certain forward-looking statements and information that are based on the beliefs of management as well as assumptions made by and information currently available to management. The statements contained in this report relating to matters that are not historical facts are forward-looking statements that involve risks and uncertainties, including, but not limited to, future demand for our products and services, addressing the process of U.S. military procurement, the successful commercialization of our products, the successful integration of our acquired businesses, general domestic and global economic conditions, including the recent distress in the financial markets that has had an adverse impact on the availability of credit and liquidity resources generally, government and environmental regulation, finalization of non-bid government contracts, competition and customer strategies, technological innovations in the non-rechargeable and rechargeable battery industries, changes in our business strategy or development plans, capital deployment, business disruptions, including those caused by fires, raw material supplies, environmental regulations, and other risks and uncertainties, certain of which are beyond our control. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may differ materially from those forward-looking statements described herein. When used in this report, the words "anticipate", "believe", "estimate" or "expect" or words of similar import are intended to identify forward-looking statements. For further discussion of certain of the matters described above, see Item 1A, "Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2009.

Undue reliance should not be placed on our forward-looking statements. Except as required by law, we disclaim any obligation to update any factors or to publicly announce the results of any revisions to any of the forward-looking statements contained in this Quarterly Report on Form 10-Q to reflect new information, future events or other developments.

The following discussion and analysis should be read in conjunction with the accompanying Condensed Consolidated Financial Statements and Notes thereto appearing elsewhere in this Form 10-Q and our Consolidated Financial Statements and Notes thereto contained in our Form 10-K for the year ended December 31, 2009.

The financial information in this Management's Discussion and Analysis of Financial Condition and Results of Operations is presented in thousands of dollars, except for share and per share amounts.

General

We offer products and services ranging from portable and standby power solutions to communications and electronics systems. Through our engineering and collaborative approach to problem solving, we serve government, defense and commercial customers across the globe. We design, manufacture, install and maintain power and communications systems including: rechargeable and non-rechargeable batteries, standby power systems, communications and electronics systems and accessories, and custom engineered systems, solutions and services. We sell our products worldwide through a variety of trade channels, including original equipment manufacturers (OEMs), industrial and retail distributors, national retailers and directly to U.S. and international defense departments.

Beginning January 1, 2010, we now report our results in three operating segments instead of four: Battery & Energy Products; Communications Systems; and Energy Services. This change in segment reporting is more consistent with how we now manage our business operations. The Non-rechargeable Products and Rechargeable Products segments have been combined into a single segment called Battery & Energy Products. The Communications Systems segment now includes our RedBlack Communications business, which was previously included in the Design & Installation Services segment. The Design & Installation Services segment has been renamed Energy Services and will continue to encompass our standby power business. Research, design and development contract revenues and expenses, which were previously included in the Design & Installation Services segment, have been captured under the respective operating segment in which the work is performed.

Table of Contents

The Battery & Energy Products segment includes: lithium 9-volt, cylindrical and various other non-rechargeable batteries, in addition to rechargeable batteries, uninterruptable power supplies and accessories, such as cables. The Communications Systems segment includes: power supplies, cable and connector assemblies, RF amplifiers, amplified speakers, equipment mounts, case equipment, integrated communication system kits, charging systems and communications and electronics systems design. The Energy Services segment includes: standby power and systems design, installation and maintenance activities. We look at our segment performance at the gross margin level, and we do not allocate research and development, except for research, design and development contracts as noted above, or selling, general and administrative costs against the segments. All other items that do not specifically relate to these three segments and are not considered in the performance of the segments are considered to be Corporate charges. We continually evaluate ways to grow, including opportunities to expand through mergers, acquisitions and joint ventures, which can broaden the scope of our products and services, expand operating and market opportunities and provide the ability to enter new lines of business synergistic with our portfolio of offerings.

On March 20, 2009, we acquired substantially all of the assets and assumed substantially all of the liabilities of the tactical communications products business of Science Applications International Corporation. The tactical communications products business (AMTI), located in Virginia Beach, Virginia, designs, develops and manufactures tactical communications products including amplifiers, man-portable systems, cables, power solutions and ancillary communications equipment. Under the terms of the asset purchase agreement for AMTI, the purchase price consisted of \$5,717 in cash. (See Note 2 in the Notes to Condensed Consolidated Financial Statements for additional information.)

Overview

Consolidated revenues for the first quarter totaled \$38,500 versus \$39,800 in the same period last year and \$50,400 for the fourth quarter of 2009. The year-over-year variance reflects revenue increases for Battery & Energy Products and Communications Systems of \$400 and \$1,800, respectively. This increase was offset by a \$3,500 decline in Energy Services revenue.

Despite lower consolidated revenues, gross margin was significantly higher in the first quarter of 2010, \$9,800 compared to \$7,800 for the first quarter of 2009. As a percentage of total revenues, consolidated gross margin was 25.3% in the first quarter of 2010 versus 19.5% for last year's first quarter. Gross margin for our Battery & Energy Products segment rose 4.6% from 16.5% to 21.1%, primarily reflecting manufacturing efficiencies and higher selling prices realized for some of our products. Gross margin also increased in our Communications Systems segment by 5.4%, going from 32.1% to 37.5%, benefitting from the addition of the AMTI amplifier business which was acquired on March 20, 2009. Project delays and ongoing pricing pressures in our Energy Services segment pushed the gross margin into a loss of \$81 for the first quarter of 2010.

The decrease in revenues of \$11,900 from the fourth quarter of 2009 was primarily a result of the higher level of SATCOM-on-the-Move systems shipped during the fourth quarter in our Communications Systems segment under the \$20,000 order we received last October. Compared to the fourth quarter of 2009, the consolidated first quarter gross margin grew by 1.6%, reflecting higher gross margins for our Battery & Energy Products and Communications Systems segments.

Table of Contents

Operating expenses totaled \$8,900 for the first quarter of 2010 compared to \$10,000 in the first quarter of 2009 and \$10,300 in the fourth quarter of 2009. The across the board cost reduction and consolidation actions we commenced in the latter half of 2009 have now been realized. These actions more than offset the increased expenses we have incurred from our acquisitions of US Energy in November 2008 and AMTI in March 2009.

First quarter non-cash operating expenses including depreciation, intangible asset amortization and stock compensation expenses, amounted to \$1,800, the same amount as a year ago.

Operating earnings were \$900 in the first quarter of 2010 versus an operating loss of \$2,300 reported for the first quarter of 2009. This \$3,200 year-over-year improvement reflects the higher gross margins for Battery & Energy Products and Communications Systems coupled with our lower operating cost base and improved operational efficiencies.

Net interest expense for the first quarter of 2010 was \$494 compared to \$179 for the same quarter last year. Included in the 2010 first quarter net interest expense was a total of \$278 in expenses related to the termination of our credit facility with JP Morgan Chase Bank, N.A. and Manufacturers and Traders Trust Company earlier this year.

Our first quarter tax provision amounted to \$105 reflecting the alternative minimum tax on U.S. taxable income and book/tax differences related to the amortization of intangible assets.

Net income attributable to Ultralife was \$287, or \$0.02 per share, compared to a net loss of \$2,500, or \$0.15 per share, for the same period last year. Adjusted EBITDA, defined as net income (loss) attributable to Ultralife before net interest expense, provision (benefit) for income taxes, depreciation and amortization, plus/minus expenses/income that we do not consider reflective of our ongoing operations, amounted to \$2,700 in the first quarter versus a loss of \$400 for the first quarter of 2009. See Adjusted EBITDA on page 28 for a reconciliation of Adjusted EBITDA to net income (loss) attributable to Ultralife.

With strong cash flow generated from our operations and continued favorable improvements made to our balance sheet, including the reduction of our trade accounts receivable to \$26,000, the reduction of our inventory to \$34,000 and the outstanding balance on our new credit facility was \$8,000 at the end of the first quarter of 2010. By comparison, at December 31, 2009, the outstanding revolver balance under our previous credit facility was \$15,500.

Results of Operations***Three-month periods ended March 28, 2010 and March 29, 2009***

Revenues. Consolidated revenues for the three-month period ended March 28, 2010 amounted to \$38,507, a decrease of \$1,296, or 3.3%, from the \$39,803 reported in the same quarter in the prior year.

Energy & Battery Products sales increased \$411, or 1.8%, from \$22,992 last year to \$23,403 this year. The increase in Energy & Battery Products revenues was primarily attributable to higher demand for our automotive telematics batteries resulting from more favorable economic conditions.

Communications Systems revenues increased \$1,801, or 16.0%, from \$11,265 last year to \$13,066 this year, mainly due to the inclusion of amplifier sales resulting from our acquisition of AMTI on March 20, 2009.

Energy Services revenues decreased \$3,508, or 63.3%, from \$5,546 last year to \$2,038 this year, reflecting continued customer delays in capital expenditures for backup stationary power. These delays were a result of the recent recessionary economic conditions, and primarily attributable to larger capital projects requiring flooded batteries.

Table of Contents

Cost of Products Sold. Cost of products sold totaled \$28,749 for the quarter ended March 28, 2010, a decrease of \$3,273, or 10.2%, from the \$32,022 reported for the same three-month period a year ago. Consolidated cost of products sold as a percentage of total revenue decreased from 80.5% for the three-month period ended March 29, 2009 to 74.7% for the three-month period ended March 28, 2010. Correspondingly, consolidated gross margin was 25.3% for the three-month period ended March 28, 2010, compared with 19.5% for the three-month period ended March 29, 2009, generally attributable to the margin improvements in the Energy & Battery Products and Communications Systems segments.

In our Energy & Battery Products segment, the cost of products sold decreased \$725, from \$19,192 in the three-month period ended March 29, 2009 to \$18,467 in the three-month period ended March 28, 2010. Energy & Battery Products gross margin for the first quarter of 2010 was \$4,936, or 21.1% of revenues, an increase of \$1,136 from 2009's gross margin of \$3,800, or 16.5% of revenues. Energy & Battery Products gross margin and gross margin as a percentage of revenues both increased for the three-month period ended March 28, 2010, primarily as a result of manufacturing efficiencies and higher selling prices realized for some of our products, in comparison to the three-month period ended March 29, 2009.

In our Communications Systems segment, the cost of products sold increased \$514, from \$7,649 in the three-month period ended March 29, 2009 to \$8,163 in the first quarter of 2010. Communications Systems gross margin for the first quarter of 2010 was \$4,903, or 37.5% of revenues, an increase of \$1,287 from 2009's gross margin of \$3,616, or 32.1% of revenues. The increase in the gross margin percentage for Communications Systems resulted from our acquisition of the AMTI amplifier business and its higher margin products.

In our Energy Services segment, the cost of sales decreased \$3,062, from \$5,181 in the three-month period ended March 29, 2009 to \$2,119 in the three-month period ended March 28, 2010. Energy Services gross margin for 2010 was \$(81), or (4.0)% of revenues, a decrease of \$446 from 2009's gross margin of \$365, or 6.6% of revenues. Gross margin in this particular segment decreased mainly due to lower sales caused by project delays and ongoing pricing pressures in this industry.

Operating Expenses. Total operating expenses for the three-month period ended March 28, 2010 totaled \$8,904, a decrease of \$1,134 from the prior year's amount of \$10,038. Overall, operating expenses as a percentage of sales decreased to 23.1% in the first quarter of 2010 from 25.2% reported in the prior year, due to the across the board cost reduction and consolidation actions we commenced in the latter half of 2009 which have now been realized. These actions more than offset the increased expenses we have incurred from our acquisitions of US Energy in November 2008 and AMTI in March 2009. Amortization expense associated with intangible assets related to our acquisitions was \$495 for 2010 (\$350 in selling, general and administrative expenses and \$145 in research and development costs), compared with \$341 for 2009 (\$231 in selling, general, and administrative expenses and \$110 in research and development costs). Research and development costs were \$1,728 in 2010, a decrease of \$252, or 12.7%, from the \$1,980 reported in 2009, due to the timing of development projects relating primarily to advanced battery systems. Selling, general, and administrative expenses decreased \$882, or 10.9%, to \$7,176. This decrease represents the results of our broad actions to reduce the overall spending base in non-revenue producing functions.

Other Income (Expense). Other income (expense) totaled (\$453) for the first quarter of 2010, compared to (\$168) for the first quarter of 2009. Interest expense, net of interest income, increased \$315, to \$494 for the first quarter of 2010 from \$179 for the comparable period in 2009, mainly as a result of higher average borrowings under our revolving credit facility and expenses related to the termination of our credit facility with JP Morgan Chase Bank, N.A. and Manufacturers and Traders Trust Company earlier this year. Miscellaneous income/expense amounted to income of \$41 for the first quarter of 2010 compared with income of \$11 for the same period in 2009. The income in 2010 and 2009 was primarily due to transactions impacted by changes in foreign currencies relative to the U.S. dollar.

Table of Contents

Income Taxes. We reflected a tax provision of \$105 for the first quarter of 2010 compared with \$91 in the first quarter of 2009. The effective tax rate for the total consolidated company for the three-month periods ended March 28, 2010 and March 29, 2009 was:

	Three-Month Periods Ended	
	March 28, 2010	March 29, 2009
Income (Loss) before Incomes Taxes (a)	\$ 401	\$ (2,425)
Total Income Tax Provision (b)	\$ 105	\$ 91
Effective Tax Rate (b/a)	26.2%	3.8%

See Note 8 in the Notes to Condensed Consolidated Financial Statements for additional information.

We have determined that a change in ownership, as defined under Internal Revenue Code Section 382, occurred in 2005 and 2006. As such, the domestic NOL carryforward will be subject to an annual limitation estimated to be in the range of approximately \$12,000 to \$14,500. The unused portion of the annual limitation can be carried forward to subsequent periods. Our ability to utilize NOL carryforwards due to successive ownership changes is currently limited to a minimum of approximately \$12,000 annually, plus the carryover from unused portions of the annual limitations.

We believe such limitation will not impact our ability to realize the deferred tax asset.

In addition, certain of our NOL carryforwards are subject to U.S. alternative minimum tax such that carryforwards can offset only 90% of alternative minimum taxable income. This limitation did have an impact of \$23 on income taxes determined for the first quarter of 2010. However, this limitation did not have an impact on income taxes determined for the first quarter of 2009. The use of our U.K. NOL carryforwards may be limited due to the change in the U.K. operation during 2008 from a manufacturing and assembly center to primarily a distribution and service center. For further discussion, see Item 1A, **Risk Factors** in our Annual Report on Form 10-K for the year ended December 31, 2009.

Net Income (Loss) Attributable to Ultralife. Net income attributable to Ultralife and income attributable to Ultralife common shareholders per diluted share was \$287 and \$0.02, respectively, for the three months ended March 28, 2010, compared to a net loss attributable to Ultralife and loss attributable to Ultralife common shareholders per diluted share of \$2,512 and \$0.15, respectively, for the same quarter last year, primarily as a result of the reasons described above. Average common shares outstanding used to compute diluted earnings per share decreased from 17,115,000 in the first quarter of 2009 to 16,999,000 in 2010, mainly due to the share repurchase program we initiated in the fourth quarter of 2008 and completed in the first quarter of 2009, offset by stock option and warrant exercises and restricted and unrestricted stock grants.

Adjusted EBITDA

In evaluating our business, we consider and use Adjusted EBITDA, a non-GAAP financial measure, as a supplemental measure of our operating performance. We define Adjusted EBITDA as net income (loss) attributable to Ultralife before net interest expense, provision (benefit) for income taxes, depreciation and amortization, plus/minus expenses/income that we do not consider reflective of our ongoing operations. We use Adjusted EBITDA as a supplemental measure to review and assess our operating performance and to enhance comparability between periods. We also believe the use of Adjusted EBITDA facilitates investors' use of operating performance comparisons from period to period and company to company by backing out potential differences caused by variations in such items as capital structures (affecting relative interest expense and stock-based compensation expense), the book amortization of intangible assets (affecting relative amortization expense), the age and book value of facilities and equipment (affecting relative depreciation expense) and other significant non-cash, non-operating expenses or income. We also present Adjusted EBITDA because we believe it is frequently used by securities analysts, investors and other interested parties as a measure of financial performance. We reconcile Adjusted EBITDA to net income (loss) attributable to Ultralife, the most comparable financial measure under U.S. generally accepted accounting principles (U.S. GAAP).

Table of Contents

We use Adjusted EBITDA in our decision-making processes relating to the operation of our business together with U.S. GAAP financial measures such as income (loss) from operations. We believe that Adjusted EBITDA permits a comparative assessment of our operating performance, relative to our performance based on our U.S. GAAP results, while isolating the effects of depreciation and amortization, which may vary from period to period without any correlation to underlying operating performance, and of non-cash stock-based compensation, which is a non-cash expense that varies widely among companies. We provide information relating to our Adjusted EBITDA so that securities analysts, investors and other interested parties have the same data that we employ in assessing our overall operations. We believe that trends in our Adjusted EBITDA are a valuable indicator of our operating performance on a consolidated basis and of our ability to produce operating cash flows to fund working capital needs, to service debt obligations and to fund capital expenditures.

The term Adjusted EBITDA is not defined under U.S. GAAP, and is not a measure of operating income, operating performance or liquidity presented in accordance with U.S. GAAP. Our Adjusted EBITDA has limitations as an analytical tool, and when assessing our operating performance, Adjusted EBITDA should not be considered in isolation, or as a substitute for net income (loss) attributable to Ultralife or other consolidated statement of operations data prepared in accordance with U.S. GAAP. Some of these limitations include, but are not limited to, the following:

Adjusted EBITDA (1) does not reflect our cash expenditures or future requirements for capital expenditures or contractual commitments; (2) does not reflect changes in, or cash requirements for, our working capital needs; (3) does not reflect the interest expense, or the cash requirements necessary to service interest or principal payments, on our debt; (4) does not reflect income taxes or the cash requirements for any tax payments; and (5) does not reflect all of the costs associated with operating our business;

although depreciation and amortization are non-cash charges, the assets being depreciated and amortized often will have to be replaced in the future, and Adjusted EBITDA does not reflect any cash requirements for such replacements;

while stock-based compensation is a component of cost of products sold and operating expenses, the impact on our consolidated financial statements compared to other companies can vary significantly due to such factors as assumed life of the stock-based awards and assumed volatility of our common stock; and

other companies may calculate Adjusted EBITDA differently than we do, limiting its usefulness as a comparative measure.

Table of Contents

We compensate for these limitations by relying primarily on our U.S. GAAP results and using Adjusted EBITDA only supplementally. Adjusted EBITDA is calculated as follows for the periods presented:

	Three-Month Periods Ended	
	March 28, 2010	March 29, 2009
Net income (loss) attributable to Ultralife	\$ 287	\$ (2,512)
Add: interest expense, net	494	179
Add: income tax provision	105	91
Add: depreciation expense	1,004	942
Add: amortization expense	495	341
Add: stock-based compensation expense	321	536
Adjusted EBITDA	\$ 2,706	\$ (423)

Liquidity and Capital Resources

As of March 28, 2010, cash and cash equivalents totaled \$3,700, a decrease of \$2,394 from the beginning of the year. During the three-month period ended March 28, 2010, we generated \$6,096 of cash from operating activities as compared to the use of \$6,715 for the three-month period ended March 29, 2009. The generation of cash from operating activities in 2010 resulted mainly from decreased working capital requirements, including lower balances of accounts receivables and inventory and lower balances in accounts payable, as well as our favorable operating results. We used \$733 in cash for investing activities during the first three months of 2010 compared with \$7,156 in cash used for investing activities in the same period in 2009. In 2010, we spent \$164 to purchase plant, property and equipment, \$447 was used to establish a restricted cash fund in connection with our U.K. operations, and \$137 was used in connection with the contingent purchase price payout related to RPS Power Systems, Inc. (RPS). In 2009, we spent \$393 to purchase plant, property and equipment, and \$6,763 was used in connection with the acquisition of AMTI, as well as contingent purchase price payouts related to RedBlack and RPS.

During the three-month period ended March 28, 2010, we used \$7,622 in funds from financing activities compared to the generation of \$12,904 in funds in the same period of 2009. The financing activities in 2010 included a \$7,451 outflow from repayments on the revolver portion of our primary credit facilities, and an outflow of \$171 for principal payments on debt and capital lease obligations. The financing activities in 2009 included a \$16,600 inflow from drawdowns on the revolver portion of our primary credit facility, and an inflow of cash from stock option and warrant exercises of \$242, offset by an outflow of \$612 for principal payments on term debt under our primary credit facility and capital lease obligations, and an outflow of \$3,326 for the purchase of treasury shares related to our share repurchase program.

Inventory turnover for the first three months of 2010 was an annualized rate of approximately 2.8 turns per year, an increase from the 2.7 turns for the full year of 2009. The increase in this metric is mainly due to our conscious efforts to more closely align our inventory purchases with our orders. Our Days Sales Outstanding (DSOs) as of March 28, 2010, was 67 days, a decrease from the 69 days at year-end December 31, 2009, mainly due to our greater overall focus on asset management.

As of March 28, 2010, we had made commitments to purchase approximately \$202 of production machinery and equipment, which we expect to fund through operating cash flows or the use of debt.

Table of Contents*Debt Commitments*

On February 17, 2010, we entered into a new senior secured asset based revolving credit facility (Credit Facility) of up to \$35,000 with RBS Business Capital, a division of RBS Asset Finance, Inc. (RBS). The proceeds from the Credit Facility can be used for general working capital purposes, general corporate purposes, letter of credit foreign exchange support and to repay existing indebtedness under the Amended and Restated Credit Agreement (Previous Credit Facility) with JP Morgan Chase Bank, N.A. and Manufacturers and Traders Trust Company (together, the Lenders), with JP Morgan Chase Bank acting as the administrative agent (Agent). The Credit Facility has a maturity date of February 17, 2013 (Maturity Date). The Credit Facility is secured by substantially all of our assets. We paid RBS a facility fee of \$263.

On February 18, 2010, we drew down \$9,870 from the Credit Facility to repay all outstanding amounts due under the Previous Credit Facility with the Lenders. Our available borrowing under the Credit Facility fluctuates from time to time based upon amounts of eligible accounts receivable and eligible inventory. Available borrowings under the Credit Facility equals the lesser of (1) \$35,000 or (2) 85% of eligible accounts receivable plus the lesser of (a) up to 70% of the book value of our eligible inventory or (b) 85% of the appraised net orderly liquidation value of our eligible inventory. The borrowing base under the Credit Facility is further reduced by (1) the face amount of any letters of credit outstanding, (2) any liabilities of ours under hedging contracts with RBS and (3) the value of any reserves as deemed appropriate by RBS. We are required to have at least \$3,000 available under the Credit Facility at all times.

Interest currently accrues on outstanding indebtedness under the Credit Facility at LIBOR plus 4.50%. We have the ability, in certain circumstances, to fix the interest rate for up to 90 days from the date of borrowing. Upon delivery of our audited financial statements for the fiscal year ended December 31, 2010 to RBS, and assuming no events of default exist at such time, the rate of interest under the Credit Facility can fluctuate based on the available borrowings remaining under the Credit Facility as set forth in the following table:

Excess Availability	LIBOR Rate Plus
Greater than \$10,000	4.00%
Greater than \$7,500 but less than or equal to \$10,000	4.25%
Greater than \$5,000 but less than or equal to \$7,500	4.50%
Greater than \$3,000 but less than or equal to \$5,000	4.75%

In addition to paying interest on the outstanding principal under the Credit Facility, we are required to pay an unused line fee of 0.50% on the unused portion of the \$35,000 Credit Facility. We must also pay customary letter of credit fees equal to the LIBOR rate and the applicable margin and any other customary fees or expenses of the issuing bank. Interest that accrues under the Credit Facility is to be paid monthly with all outstanding principal, interest and applicable fees due on the Maturity Date.

We are required to maintain a fixed charge coverage ratio of 1.20 to 1.00 or greater at all times as of and after March 28, 2010. As of March 28, 2010, our fixed coverage ratio was 2.20 to 1.00. Accordingly, we were in compliance with the financial covenants of the Credit Facility. All borrowings under the Credit Facility are subject to the satisfaction of customary conditions, including the absence of an event of default and accuracy of our representations and warranties. The Credit Facility also includes customary representations and warranties, affirmative covenants and events of default. If an event default occurs, RBS would be entitled to take various actions, including accelerating the amount due under the Credit Facility, and all actions permitted to be taken by a secured creditor.

As of March 28, 2010, we had \$8,049 outstanding under the Credit Facility. At March 28, 2010, the interest rate on the asset based revolver component was 4.73%. As of March 28, 2010, the revolver arrangement provided for up to \$35,000 of borrowing capacity, including outstanding letters of credit. At March 28, 2010, we had \$-0- of outstanding letters of credit related to this facility, leaving up to \$26,951 of additional borrowing capacity.

Table of Contents

There were several amendments to our Previous Credit Facility with the Lenders and Agent during the past few years, including amendments to authorize acquisitions and modify financial covenants.

On January 27, 2009, we entered into the Previous Credit Facility with the Lenders and Agent. The Previous Credit Facility reflected the previous ten amendments to the original Credit Agreement dated June 30, 2004 between us and the Lenders and Agent and modified certain of those provisions. The Previous Credit Facility among other things (i) increased the revolver loan commitment from \$22,500 to \$35,000, (ii) extended the maturity date of the revolving credit component from January 31, 2009 to June 30, 2010, (iii) modified the interest rate, and (iv) modified certain covenants. The rate of interest was based, in general, upon either a LIBOR rate plus a Eurodollar spread or an Alternate Base Rate plus an ABR spread, as that term was defined in the Previous Credit Facility, within a predetermined grid, which was dependent upon whether Earnings Before Interest and Taxes for the most recently completed fiscal quarter was greater than or less than zero. Generally, borrowings under the Previous Credit Facility bore interest based primarily on the Prime Rate plus 50 to 200 basis points or LIBOR plus 300 to 500 basis points. Additionally, among other covenant modifications, the Previous Credit Facility modified the financial covenants by (i) revising the debt to earnings ratio and fixed charge coverage ratio and (ii) deleting the current assets to liabilities ratio.

Effective June 28, 2009, we entered into Waiver and Amendment Number One to Amended and Restated Credit Agreement (Waiver and Amendment) with the Lenders and Agent. The Waiver and Amendment provided that the Lenders and Agent would waive their right to exercise their respective rights and remedies under the credit facility arising from our failure to comply with the financial covenants in the credit facility with respect to the fiscal quarter ended June 28, 2009. In addition to a number of revisions to non-financial covenants, the Waiver and Amendment revised the applicable revolver rate under the Previous Credit Facility to an interest rate structure based on the Prime Rate plus 200 basis points or LIBOR plus 500 basis points.

On January 15, 2010, we received a demand letter from the Agent in connection with the Previous Credit Facility (Demand Letter). In the Demand Letter, the Agent claimed that we had (i) failed to satisfy and comply with the financial covenants set forth in Section 6.09 of the Previous Credit Facility, and (ii) failed to pay interest and expenses when due as set forth in Section 7(b) of the Previous Credit Facility. The Agent declared the outstanding principal, unpaid interest and unpaid fees in the aggregate amount of \$15,914 immediately due and payable in full. The Agent demanded payment of such amount by January 22, 2010. The Agent also terminated the Lender s commitment to lend additional funds to us under the Previous Credit Facility and increased the interest rate on the outstanding principal to the default rate set under Section 2.13(c) of the Previous Credit Facility.

On January 22, 2010, we entered into a Forbearance and Amendment Number Two to the Previous Credit Facility with the Lenders (Forbearance Agreement). Under the Forbearance Agreement, the Lenders agreed to forbear until February 18, 2010 from exercising their respective rights and remedies under the Previous Credit Facility and delayed the date by which we were to pay the Lenders the amount declared due and payable under the Demand Letter. Under the Forbearance Agreement, we were required to make payments on the outstanding principal owed under the Previous Credit Facility pursuant to the following schedule: (i) \$1,500 on January 22, 2010; (ii) \$3,500 on or before January 29, 2010; and (iii) \$500 commencing February 5, 2010 and continuing on each Friday through the term of the Forbearance Agreement. We were also required to pay a forbearance fee of \$63 and all of the fees and expenses incurred by the Lenders. The Forbearance Agreement also reaffirmed the Lenders termination of their commitment to lend additional funds to us under the Previous Credit Facility and the increased interest rate on the outstanding principal to the default rate set under Section 2.13(c) of the Previous Credit Facility. We made all payments required by and complied with all provisions of the Forbearance Agreement.

Table of Contents

Equity Transactions

In October 2008, the Board of Directors authorized a share repurchase program of up to \$10,000 to be implemented over the course of a six-month period. Repurchases were made from time to time at management's discretion, either in the open market or through privately negotiated transactions. The repurchases were made in compliance with Securities and Exchange Commission guidelines and were subject to market conditions, applicable legal requirements, and other factors. We had no obligation under the program to repurchase shares and the program could have been suspended or discontinued at any time without prior notice. We funded the purchase price for shares acquired primarily with current cash on hand and cash generated from operations, in addition to borrowing from our credit facility, as necessary. We spent \$5,141 to repurchase 628,413 shares of common stock, at an average price of approximately \$8.15 per share, under this share repurchase program. During the first quarter of 2009, we repurchased 416,305 shares of common stock at an average price of approximately \$7.99 per share under this share repurchase program. All other share repurchases were made in the fourth quarter of 2008. In April 2009, this share repurchase program expired.

See Note 7 in the Notes to Condensed Consolidated Financial Statements for additional information.

Other Matters

We continually explore various sources of liquidity to ensure financing flexibility, including leasing alternatives, issuing new or refinancing existing debt, and raising equity through private or public offerings. Although we stay abreast of such financing alternatives, we believe we have the ability during the next 12 months to finance our operations primarily through internally generated funds or through the use of additional financing that currently is available to us. In the event that we are unable to finance our operations with the internally generated funds or through the use of additional financing that currently is available to us, we may need to seek additional credit or access capital markets for additional funds. We can provide no assurance, given the current state of credit markets, that we would be successful in this regard, especially in light of our recent operating performance.

If we are unable to achieve our plans or unforeseen events occur, we may need to implement alternative plans, in addition to plans that we have already initiated. While we believe we can complete our original plans or alternative plans, if necessary, there can be no assurance that such alternatives would be available on acceptable terms and conditions or that we would be successful in our implementation of such plans.

As described in Part II, Item 1, Legal Proceedings of this report, we are involved in certain environmental matters with respect to our facility in Newark, New York. Although we have reserved for expenses related to this potential exposure, there can be no assurance that such reserve will be adequate. The ultimate resolution of this matter may have a significant adverse impact on the results of operations in the period in which it is resolved.

With respect to our battery products, we typically offer warranties against any defects due to product malfunction or workmanship for a period up to one year from the date of purchase. With respect to our communications accessory products, we typically offer a four-year warranty. We also offer a 10-year warranty on our 9-volt batteries that are used in ionization-type smoke detector applications. We provide for a reserve for these potential warranty expenses, which is based on an analysis of historical warranty issues. There is no assurance that future warranty claims will be consistent with past history, and in the event we experience a significant increase in warranty claims, there is no assurance that our reserves will be sufficient. This could have a material adverse effect on our business, financial condition and results of operations.

Table of Contents

Outlook

Our 2010 operating plan calls for us to generate revenue of \$177,000 and operating income of approximately \$4,600 on the base business. Management cautions that the timing of orders and shipments may cause some variability in quarterly results.

See Overview section for additional information.

Recent Accounting Pronouncements and Developments

In April 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-17, Revenue Recognition Milestone Method (Topic 605): Milestone Method of Revenue Recognition a consensus of the FASB Emerging Issues Task Force (EITF) . ASU No. 2010-17 limits the scope of this ASU to research or development arrangements and requires that guidance in this ASU be met for an entity to apply the milestone method (record the milestone payment in its entirety in the period received). However, the FASB clarified that, even if the requirements in this ASU are met, entities would not be precluded from making an accounting policy election to apply another appropriate policy that results in the deferral of some portion of the arrangement consideration. The guidance in this ASU will apply to milestones in both single-deliverable and multiple-deliverable arrangements involving research or development transactions. ASU No. 2010-17 will be effective prospectively for milestones achieved in fiscal years, and interim periods within those years, beginning on or after June 15, 2010. Early adoption is permitted. We are currently evaluating the impact that ASU No. 2010-17 will have on our financial statements.

In January 2010, the FASB issued ASU No. 2010-06, Fair Value Measurements and Disclosures (Topic 820): Improving Disclosures about Fair Value Measurements , which provides additional guidance to improve disclosures regarding fair value measurements. ASU No. 2010-06 amends Accounting Standards Codification (ASC) 820-10 to add two new disclosures: (1) transfers in and out of Level 1 and 2 measurements and the reasons for the transfers, and (2) a gross presentation of activity within the Level 3 roll forward. ASU 2010-06 also includes clarifications to existing disclosure requirements on the level of disaggregation and disclosures regarding inputs and valuation techniques. ASU 2010-06 applies to all entities required to make disclosures about recurring and nonrecurring fair value measurements. ASU No. 2010-06 will be effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the roll forward of activity in Level 3 fair value measurements, which is effective for fiscal years beginning after December 15, 2010. The partial adoption of ASU 2010-06 did not have a material impact on our financial statements. We are currently evaluating the impact of the deferred portions of ASU No. 2010-06 will have on our financial statements; however we do not expect the adoption of the deferred portions of ASU 2010-06 to have a material impact on the financial statements, except for the additional disclosures that will be required.

In January 2010, the FASB issued ASU No. 2010-02, Consolidation (Topic 810): Accounting and Reporting for Decreases in Ownership of a Subsidiary a Scope Clarification , to address implementation issues related to the changes in ownership provisions in ASC 810-10. ASU No. 2010-02 amends ASC 810-10 and related guidance to clarify that the scope of the decrease in ownership provisions applies to the following: a subsidiary or group of assets that is a business or nonprofit activity; a subsidiary that is a business or nonprofit activity that is transferred to an equity method investee or joint venture; or an exchange of a group of assets that constitutes a business or nonprofit activity for a noncontrolling interest in an entity, including an equity method investee or joint venture. The amendments also clarify that the decrease in ownership provisions do not apply to the following transactions even if they involve businesses: sales of in substance real estate; and conveyances of oil and

Table of Contents

gas mineral rights. If a decrease in ownership occurs in a subsidiary that is not a business or nonprofit activity, entities first need to consider whether the substance of the transaction is addressed in other U.S. GAAP, such as transfers of financial assets, revenue recognition, etc., and apply that guidance. If no other guidance exists, an entity should apply ASC 810-10. Lastly, ASU No. 2010-02 expands existing disclosure requirements for transactions within the scope of ASC 810-10, and adds several new ones that address fair value measurements and related techniques, the nature of any continuing involvement after the transaction, and whether related parties are involved. ASU No. 2010-02 is effective beginning in the period that an entity adopts ASC 810-10. If an entity had previously adopted ASC 810-10, the amendments are effective beginning in the first interim or annual reporting period ending on or after December 15, 2009. The amendments must be applied retrospectively to the date ASC 810-10 was adopted. The adoption of ASU No. 2010-02, with retrospective application to January 1, 2009, did not have a significant impact on our financial statements.

In October 2009, the FASB issued ASU No. 2009-13, Revenue Recognition (Topic 605): Multiple-Deliverable Revenue Arrangements a consensus of the FASB EITF. ASU No. 2009-13 eliminates the residual method of accounting for revenue on undelivered products and instead, requires companies to allocate revenue to each of the deliverable products based on their relative selling price. In addition, this ASU expands the disclosure requirements surrounding multiple-deliverable arrangements. ASU No. 2009-13 will be effective for revenue arrangements entered into for fiscal years beginning on or after June 15, 2010. We are currently evaluating the impact that ASU No. 2009-13 will have on our financial statements.

In June 2009, the FASB issued amended guidance for the accounting for transfers of financial assets. The amended guidance removes the concept of a qualifying special-purpose entity. The amended guidance is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2009. Earlier application is prohibited. The adoption of this pronouncement did not have a significant impact on our financial statements.

In June 2009, the FASB issued amended guidance for the accounting for variable interest entities. The amendments include: (1) the elimination of the exemption for qualifying special purpose entities, (2) a new approach for determining who should consolidate a variable-interest entity, and (3) changes to when it is necessary to reassess who should consolidate a variable-interest entity. The amended guidance is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2009. Earlier adoption is prohibited. The adoption of this pronouncement did not have a significant impact on our financial statements.

Critical Accounting Policies

Management exercises judgment in making important decisions pertaining to choosing and applying accounting policies and methodologies in many areas. Not only are these decisions necessary to comply with U.S. generally accepted accounting principles, but they also reflect management's view of the most appropriate manner in which to record and report our overall financial performance. All accounting policies are important, and all policies described in Note 1 (Summary of Operations and Significant Accounting Policies) in our Annual Report on Form 10-K should be reviewed for a greater understanding of how our financial performance is recorded and reported.

During the first nine months of 2009, there were no significant changes in the manner in which our significant accounting policies were applied or in which related assumptions and estimates were developed.

Table of Contents

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to various market risks in the normal course of business, primarily interest rate risk and foreign currency risk. Our primary interest rate risk is derived from our outstanding variable-rate debt obligations. We are subject to foreign currency risk, due to fluctuations in currencies relative to the U.S. dollar. We monitor the relationship between the U.S. dollar and other currencies on a continuous basis and adjust sales prices for products and services sold in these foreign currencies as appropriate to safeguard against the fluctuations in the currency effects relative to the U.S. dollar.

We maintain manufacturing operations in North America, Europe and Asia, and export products internationally. We purchase materials and sell our products in foreign currencies, and therefore currency fluctuations may impact our pricing of products sold and materials purchased. In addition, our foreign subsidiaries maintain their books in local currency, which is translated into U.S. dollars for our Condensed Consolidated Financial Statements.

Item 4. CONTROLS AND PROCEDURES

Evaluation Of Disclosure Controls And Procedures Our president and chief executive officer (principal executive officer) and our chief financial officer and treasurer (principal financial officer) have evaluated our disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15(e)) as of the end of the period covered by this quarterly report. Based on this evaluation, our president and chief executive officer and chief financial officer and treasurer concluded that our disclosure controls and procedures were effective as of such date.

Changes In Internal Control Over Financial Reporting There has been no change in our internal control over financial reporting (as defined in Securities Exchange Act Rules 13a-15(f)) that occurred during the fiscal quarter covered by this quarterly report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II OTHER INFORMATION****Item 1. Legal Proceedings**

We are subject to legal proceedings and claims that arise in the normal course of business. We believe that the final disposition of such matters will not have a material adverse effect on our financial position, results of operations or cash flows.

In conjunction with our purchase/lease of our Newark, New York facility in 1998, we entered into a payment-in-lieu of tax agreement, which provided us with real estate tax concessions upon meeting certain conditions. In connection with this agreement, a consulting firm performed a Phase I and II Environmental Site Assessment, which revealed the existence of contaminated soil and ground water around one of the buildings. We retained an engineering firm, which estimated that the cost of remediation should be in the range of \$230. In February 1998, we entered into an agreement with a third party which provides that we and this third party will retain an environmental consulting firm to conduct a supplemental Phase II investigation to verify the existence of the contaminants and further delineate the nature of the environmental concern. The third party agreed to reimburse us for fifty percent (50%) of the cost of correcting the environmental concern on the Newark property. We have fully reserved for our portion of the estimated liability. Test sampling was completed in the spring of 2001, and the engineering report was submitted to the New York State Department of Environmental Conservation (NYSDEC) for review. The NYSDEC reviewed the report and, in January 2002, recommended additional testing. We responded by submitting a work plan to the NYSDEC, which was approved in April 2002. We sought proposals from engineering firms to complete the remedial work contained in the work plan. A firm was selected to undertake the remediation and in December 2003 the remediation was completed, and was overseen by the NYSDEC. The report detailing the remediation project, which included the test results, was forwarded to the NYSDEC and to the New York State Department of Health (NYSDOH). The NYSDEC, with input from the NYSDOH, requested that we perform additional sampling. A work plan for this portion of the project was written and delivered to the NYSDEC and approved. In November 2005, additional soil, sediment and surface water samples were taken from the area outlined in the work plan, as well as groundwater samples from the monitoring wells. We received the laboratory analysis and met with the NYSDEC in March 2006 to discuss the results. On June 30, 2006, the Final Investigation Report was delivered to the NYSDEC by our outside environmental consulting firm. In November 2006, the NYSDEC completed its review of the Final Investigation Report and requested additional groundwater, soil and sediment sampling. A work plan to address the additional investigation was submitted to the NYSDEC in January 2007 and was approved in April 2007. Additional investigation work was performed in May 2007. A preliminary report of results was prepared by our outside environmental consulting firm in August 2007 and a meeting with the NYSDEC and NYSDOH took place in September 2007. As a result of this meeting, NYSDEC and NYSDOH requested additional investigation work. A work plan to address this additional investigation was submitted to and approved by the NYSDEC in November 2007. Additional investigation work was performed in December 2007. Our environmental consulting firm prepared and submitted a Final Investigation Report in January 2009 to the NYSDEC for review. The NYSDEC reviewed and approved the Final Investigation Report in June 2009 and requested the development of a Remedial Action Plan. Our environmental consulting firm developed and submitted the requested plan for review and approval by the NYSDEC. In October 2009, we received comments back from the NYSDEC regarding the content of the remediation work plan. Our environmental consulting firm has incorporated the requested changes and submitted a revised work plan to the NYSDEC in January 2010 for review and approval. The final Remedial Action Plan selected may increase the estimated remediation costs modestly. Through March 28, 2010, total costs incurred have amounted to approximately \$260, none of which has been capitalized. At March 28, 2010 and December 31, 2009, we had \$49 and \$49, respectively, reserved for this matter.
