Notes to Consolidated Financial Statements (Unaudited)

Note 1. Basis of Presentation

U.S. Global Investors, Inc. (the Company or U.S. Global) has prepared the consolidated financial statements pursuant to accounting principles generally accepted in the United States of America (U.S. GAAP) and the rules and regulations of the United States Securities and Exchange Commission (SEC) that permit reduced disclosure for interim periods. The financial information included herein reflects all adjustments (consisting solely of normal recurring adjustments), which are, in management s opinion, necessary for a fair presentation of results for the interim periods presented. The Company has consistently followed the accounting policies set forth in the notes to the consolidated financial statements in the Company s Form 10-K for the fiscal year ended June 30, 2011.

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, United Shareholder Services, Inc. (USSI), U.S. Global Investors (Guernsey) Limited, U.S. Global Brokerage, Inc., and U.S. Global Investors (Bermuda) Limited.

All significant intercompany balances and transactions have been eliminated in consolidation. Certain amounts have been reclassified for comparative purposes. The results of operations for the three months ended September 30, 2011, are not necessarily indicative of the results to be expected for the entire year.

The unaudited interim financial information in these condensed financial statements should be read in conjunction with the consolidated financial statements contained in the Company s annual report.

Recent Accounting Pronouncements

In January 2010, the FASB issued Accounting Standards Update (ASU) No. 2010-06, *Improving Disclosures about Fair Value Measurements*. This ASU added new requirements for disclosures into and out of Levels 1 and 2 fair-value measurements and information on purchases, sales, issuances and settlements on a gross basis in the reconciliation of Level 3 fair-value measurements. It also clarified existing fair value disclosures about the level of disaggregation, inputs and valuation techniques. Except for the detailed Level 3 reconciliation disclosures, the guidance in the ASU was effective for annual and interim reporting periods in fiscal years beginning after December 15, 2009. The new disclosures for Level 3 activity are effective for annual and interim reporting periods in fiscal years beginning after December 15, 2010. The adoption of ASU 2010-06 by the Company did not have a material effect on its consolidated financial statements except for enhanced disclosure in the notes to its consolidated financial statements.

In May 2011, the FASB issued ASU No. 2011-04, *Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs*. The ASU expands existing disclosure requirements and amends some fair value measurement principles. The ASU is effective for interim periods beginning on or after December 15, 2011, with early adoption prohibited and prospective application required. Management is evaluating the ASU and its potential impact on the financial statements.

In June 2011, the FASB issued ASU No. 2011-05, *Presentation of Comprehensive Income*. This standard eliminates the current option to report other comprehensive income and its components in the statement of changes in equity. Under this guidance, an entity can elect to present items of net income and other comprehensive income in one continuous statement or in two separate, but consecutive, statements. This guidance is effective for publicly traded companies for fiscal years beginning after December 15, 2011 and interim and annual periods thereafter. Early adoption is permitted, but full retrospective application is required. As the Company reports comprehensive income within its consolidated statement of operations, the adoption of this guidance will not result in a change in the presentation of comprehensive income in the Company s consolidated financial statements.

Note 2. Dividend

Payment of cash dividends is within the discretion of the Company's board of directors and is dependent on earnings, operations, capital requirements, general financial condition of the Company, and general business conditions. A monthly dividend of \$0.02 per share is authorized through December 2011 and will be reviewed by the board quarterly.

Note 3. Investments

As of September 30, 2011, the Company held investments with a market value of approximately \$9.1 million and a cost basis of approximately \$9.0 million. The market value of these investments is approximately 20.2 percent of the Company's total assets.

Investments in securities classified as trading are reflected as current assets on the consolidated balance sheet at their fair market value. Unrealized holding gains and losses on trading securities are included in earnings in the consolidated statements of operations and comprehensive income.

Investments in securities classified as available-for-sale, which may not be readily marketable, are reflected as non-current assets on the consolidated balance sheet at their fair value. Unrealized holding gains and losses on available-for-sale securities are excluded from earnings and reported in other comprehensive income as a separate component of shareholders' equity until realized.

The Company records security transactions on trade date. Realized gains (losses) from security transactions are calculated on the first-in/first-out cost basis, unless otherwise identifiable, and are recorded in earnings on the date of sale.

The following summarizes the market value, cost, and unrealized gain or loss on investments as of September 30, 2011, and June 30, 2011.

Securities	Market Value	Cost	Unrealized Gain (Loss)	Unrealized holding gains on available-for-sale securities, net of tax

Investment income can be volatile and varies depending on market fluctuations, the Company's ability to participate in investment opportunities, and timing of transactions. A significant portion of the unrealized gains and losses for the three months ended September 30, 2011, is concentrated in a small number of issuers. The Company expects that gains and losses will continue to fluctuate in the future.

Investment income (loss) from the Company's investments includes:

realized gains and losses on sales of securities;

unrealized gains and losses on trading securities;

realized foreign currency gains and losses;

other-than-temporary impairments on available-for-sale securities; and

dividend and interest income.

The following summarizes investment income reflected in earnings for the periods discussed:

Investment Income	Three Months Ended	
	September 30,	
	2011	2010
Realized gains on sales of available-for-sale securities	\$ -	\$ 1,303
Realized losses on sales of trading securities	(2,638)	-
Unrealized gains (losses) on trading securities	(591,562)	455,146
Realized foreign currency losses	(36)	(1,431)

Note 4. Fair Value Disclosures

Accounting Standards Codification (ASC) 820, *Fair Value Measurement and Disclosures* (formerly SFAS 157), defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 establishes a hierarchy that prioritizes inputs to valuation techniques used to measure fair value and requires companies to disclose the fair value of their financial instruments according to a fair value hierarchy (i.e., Levels 1, 2, and 3 inputs, as defined below). The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs. Additionally, companies are required to provide enhanced disclosures regarding instruments in the Level 3 category (which have inputs to the valuation techniques that are unobservable and require significant management judgment), including a reconciliation of the beginning and ending values separately for each major category of assets or liabilities.

Financial instruments measured and reported at fair value are classified and disclosed in one of the following categories:

Level 1 Valuations based on quoted prices in active markets for identical assets or liabilities at the reporting date. Since valuations are based on quoted prices that are readily and regularly available in an active market, value of these products does not entail a significant degree of judgment.

Level 2 Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, directly or indirectly.

Level 3 Valuations based on inputs that are unobservable and significant to the fair value measurement.

The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the financial instrument.

For actively traded securities, the Company values investments using the closing price of the securities on the exchange or market on which the securities principally trade. If the security is not actively traded, it is valued based on the last bid

and/or ask quotation. Securities that are not traded on an exchange or market are generally valued at cost, monitored by management and fair value adjusted as considered necessary. The Company values the mutual funds, offshore funds and a venture capital investment at net asset value.

The following table presents fair value measurements, as of September 30, 2011, for the three major categories of U.S. Global's investments measured at fair value on a recurring basis:

	Fair Value Measurement using (in thousands)			
	Quoted Prices (Level 1)	Significant Other Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Trading securities				
Common stock	\$ 192	\$ 5	\$ -	\$ 197
Mutual funds	3,914	-	-	3,914
Offshore fund	-	999	-	999
Total trading securities	4,106	1,004	-	5,110
Available-for-sale securities				
Common stock	1,323	-	-	1,323
Venture capital investments	-	-	260	260
Mutual funds	2,413	-	-	2,413
Total available-for-sale securities	3,736	-	260	3,996
Total Investments	\$ 7,842	\$ 1,004	\$ 260	\$ 9,106

Approximately 86 percent of the Company's financial assets measured at fair value are derived from Level 1 inputs including SEC-registered mutual funds and equity securities traded on an active market, 11 percent of the Company's financial assets measured at fair value are derived from Level 2 inputs, including an investment in an offshore fund, and the remaining three percent are Level 3 inputs. The Company recognizes transfers between levels at the end of each quarter. The Company did not transfer any securities between Level 1 and Level 2 during the three months ended September 30, 2011.

In Level 2, the Company has an investment in an offshore fund with a fair value of \$999,010 that invests in companies in the energy and natural resources sectors. The Company may redeem this investment on the first business day of each month after providing a redemption notice at least forty-five days prior to the proposed redemption date.

The Company held investments in three securities with a value of zero and two venture capital investments that were measured at fair value using significant unobservable inputs (Level 3) at September 30, 2011.

The Company has a venture capital investment with a fair value of \$148,688 that primarily invests in companies in the energy and precious metals sectors. The Company may redeem this investment at the end of a calendar quarter after providing a written redemption notice at least thirty days prior, and the redemption prices are subject to a discount from the net value of the dealer bid prices or estimated liquidation value at the time of redemption. It is estimated that the underlying assets would be liquidated within the next three years. The Company also has a venture capital investment with a fair value of \$111,528 that primarily invests in companies in the medical and medical technology

sectors. The Company may redeem this investment with general partner approval. As of September 30, 2011, the Company has an unfunded commitment of \$125,000 related to this investment.

Note 5. Investment Management, Transfer Agent and Other Fees

The Company serves as investment adviser to U.S. Global Investors Funds (USGIF) and receives a fee based on a specified percentage of net assets under management.

USSI also serves as transfer agent to USGIF and receives fees based on the number of shareholder accounts as well as transaction and activity-based fees. Additionally, the Company receives certain miscellaneous fees directly from USGIF shareholders. Fees for providing investment management, administrative, distribution and transfer agent services to USGIF continue to be the Company's primary revenue source.

The advisory agreement for the nine equity funds provides for a base advisory fee that is adjusted upwards or downwards by 0.25 percent when there is a performance difference of 5 percent or more between a fund's performance and that of its designated benchmark index over the prior rolling 12 months. For the three months ended September 30, 2011, the Company adjusted its base advisory fees upwards by \$265,133. For the corresponding period in fiscal 2011, base advisory fees were increased by \$199,689.

The Company has voluntarily waived or reduced its fees and/or agreed to pay expenses on all thirteen funds. These caps will continue on a voluntary basis at the Company's discretion. Effective with the March 1, 2010, offering of institutional class shares in three USGIF funds, the Company voluntarily agreed to waive all institutional class-specific expenses. The aggregate fees waived and expenses borne by the Company for the three months ended September 30, 2011, were \$803,229 compared with \$800,545 for the corresponding period in fiscal 2011.

The above waived fees include amounts waived under an agreement whereby the Company has voluntarily agreed to waive fees and/or reimburse the U.S. Treasury Securities Cash Fund and the U.S. Government Securities Savings Fund to the extent necessary to maintain the respective fund's yield at a certain level as determined by the Company (Minimum Yield). Yields on such products have declined to record lows as a result of the decline in the federal funds rate pursuant to the Federal Reserve's economic policy to spur economic growth through low interest rates and quantitative easing. For the three months ended September 30, 2011, total fees waived and/or expenses reimbursed as a result of this agreement were \$405,150. For the corresponding period in fiscal year 2011, the total fees waived and/or expenses reimbursed were \$374,701.

The Company may recapture any fees waived and/or expenses reimbursed within three years after the end of the funds' fiscal year of such waiver and/or reimbursement to the extent that such recapture would not cause the funds' yield to

fall below the Minimum Yield. Thus, \$170,642 of these waivers is recoverable by the Company through December 31, 2011, \$1,047,980 through December 31, 2012, \$1,562,956 through December 31, 2013, and \$1,209,857 through December 31, 2014. Management believes these waivers could increase in the future. Such increases in fee waivers could be significant and will negatively impact the Company's revenues and net income. Management cannot predict the impact of the waivers and/or reimbursements due to the number of variables and the range of potential outcomes.

The Company provides advisory services for two offshore clients and receives monthly advisory fees based on the net asset values of the clients and quarterly performance fees, if any, based on the overall increase in net asset values. The Company recorded advisory and performance fees from these clients totaling \$94,697 for the three months ended September 30, 2011, and \$166,834 for the corresponding period in fiscal 2011. The performance fees for these clients are calculated and recorded quarterly in accordance with the terms of the advisory agreements. These fees may fluctuate significantly from year to year based on factors that may be out of the Company's control. Frank Holmes, CEO, serves as a director of the offshore clients.

The Company receives additional revenue from several sources including custodial fee revenues, mailroom operations, and investment income.

Substantially all of the cash and cash equivalents included in the balance sheet at September 30, 2011, and June 30, 2011, is invested in USGIF money market funds.

Note 6. Borrowings

As of September 30, 2011, the Company has no long-term liabilities.

The Company has access to a \$1 million credit facility with a one-year maturity for working capital purposes. The credit agreement requires the Company to maintain certain quarterly financial covenants to access the line of credit.

As of September 30, 2011, this credit facility remained unutilized by the Company.

Note 7. Stock-Based Compensation

The Company accounts for stock-based compensation in accordance with ASC 718 *Compensation - Stock Compensation* (formerly SFAS No. 123 (revised 2004) *Share-Based Payment*). Stock-based compensation expense is recorded for the cost of stock options. Stock-based compensation expense for the three months ended September 30, 2011, was \$9,660, compared to \$9,457 in the corresponding period in fiscal 2011. As of September 30, 2011, and 2010, respectively, there was approximately \$41,083 and \$66,913 of total unrecognized share-based compensation cost related to share-based compensation granted under the plans that will be recognized over the remainder of their respective vesting periods.

Stock compensation plans

The Company's stock option plans provide for the granting of class A shares as either incentive or nonqualified stock options to employees and non-employee directors. Options are subject to terms and conditions determined by the Compensation Committee of the Board of Directors. The following table summarizes information about the Company's stock option plans for the three months ended September 30, 2011.

	Number of Options	Weighted Average Exercise Price
Options outstanding, beginning of year	25,300	\$ 19.40
Granted	5,000	6.54
Exercised	-	-
Forfeited	-	-
Options outstanding, end of period	30,300	\$ 17.27

Note 8. Earnings Per Share

The basic earnings per share (EPS) calculation excludes dilution and is computed by dividing net income by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution of EPS that could occur if options to issue common stock were exercised.

The following table sets forth the computation for basic and diluted EPS:

	Three Months Ended September	
	30,	
	2011	2010
Net income	\$ 749,518	\$ 1,265,693
Weighted average number of outstanding shares		
Basic	15,425,705	15,364,500
Effect of dilutive securities		
Employee stock options	516	-
Diluted	15,426,221	15,364,500
Earnings per share		
Basic	\$ 0.05	\$ 0.08
Diluted	\$ 0.05	\$ 0.08

The diluted EPS calculation excludes the effect of stock options when their exercise prices exceed the average market price for the period. For the three months ended September 30, 2011, 25,300 options were excluded from diluted EPS, and 35,300 were excluded in the corresponding period in fiscal 2011.

The Company may repurchase stock from employees. The Company made no repurchases of shares of its class A, class B, or class C common stock during the three months ended September 30, 2011. Upon repurchase, these shares are classified as treasury shares and are deducted from outstanding shares in the earnings per share calculation.

Note 9. Income Taxes

The Company and its subsidiaries file a consolidated federal income tax return. Provisions for income taxes include deferred taxes for temporary differences in the bases of assets and liabilities for financial and tax purposes, resulting from the use of the liability method of accounting for income taxes. The current deferred tax asset primarily consists of unrealized losses on trading securities as well as temporary differences in the deductibility of accrued liabilities. The long-term deferred tax asset is composed primarily of unrealized losses on available-for-sale securities and the difference in tax treatment of stock options.

A valuation allowance is provided when it is more likely than not that some portion of the deferred tax amount will not be realized. No valuation allowance was included or deemed necessary at September 30, 2011, or June 30, 2011.

Note 10. Financial Information by Business Segment

The Company operates principally in two business segments: providing investment management services to the funds it manages and investing for its own account in an effort to add growth and value to its cash position. The following schedule details total revenues and income by business segment:

	Investment Management Services	Corporate Investments	Consolidated
Three months ended September 30, 2011			
Net revenues	\$ 8,358,229	\$ (566,321)	\$ 7,791,908
Net income (loss) before income taxes	1,729,416	(567,330)	1,162,086
Depreciation	71,458		71,458
Capital expenditures			
Gross identifiable assets at September 30, 2011	35,070,740	9,124,214	44,194,954
Deferred tax asset			917,800
Consolidated total assets at September 30, 2011			\$ 45,112,754
Three months ended September 30, 2010			
Net revenues	\$ 8,440,946	\$ 479,795	\$ 8,920,741
Net income before income taxes	1,480,426	478,804	1,959,230
Depreciation	75,052		75,052
Capital expenditures	24,616		24,616

Note 11. Contingencies and Commitments

The Company continuously reviews all investor, employee and vendor complaints, and pending or threatened litigation. The likelihood that a loss contingency exists is evaluated through consultation with legal counsel, and a loss contingency is recorded if probable and reasonably estimable.

During the normal course of business, the Company may be subject to claims, legal proceedings, and other contingencies. These matters are subject to various uncertainties, and it is possible that some of these matters may be resolved unfavorably. The Company establishes accruals for matters for which the outcome is probable and can be reasonably estimated. Management believes that any liability in excess of these accruals upon the ultimate resolution of these matters will not have a material adverse effect on the consolidated financial statements of the Company.

The Board has authorized a monthly dividend of \$0.02 per share through December 2011, at which time it will be considered for continuation by the Board. Payment of cash dividends is within the discretion of the Company's Board of Directors and is dependent on earnings, operations, capital requirements, general financial condition of the Company, and general business conditions. The total amount of cash dividends to be paid to class A and class C shareholders from October to December 2011 will be approximately \$926,121.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

U.S. Global has made forward-looking statements concerning the Company's performance, financial condition, and operations in this report. The Company from time to time may also make forward-looking statements in its public filings and press releases. Such forward-looking statements are subject to various known and unknown risks and uncertainties and do not guarantee future performance. Actual results could differ materially from those anticipated in such forward-looking statements due to a number of factors, some of which are beyond the Company's control, including: (i) the volatile and competitive nature of the investment management industry, (ii) changes in domestic and foreign economic conditions, (iii) the effect of government regulation on the Company's business, and (iv) market, credit, and liquidity risks associated with the Company's investment management activities. Due to such risks, uncertainties, and other factors, the Company cautions each person receiving such forward-looking information not to place undue reliance on such statements. All such forward-looking statements are current only as of the date on which such statements were made.

BUSINESS SEGMENTS

The Company, with principal operations located in San Antonio, Texas, manages two business segments: (1) the Company offers a broad range of investment management products and services to meet the needs of individual and institutional investors; and (2) the Company invests for its own account in an effort to add growth and value to its cash position. Although the Company generates the majority of its revenues from its investment advisory segment, the Company holds a significant amount of its total assets in investments. The following is a brief discussion of the Company's two business segments.

Investment Management Products and Services

The Company generates substantially all of its operating revenues from managing and servicing USGIF and other advisory clients. These revenues are largely dependent on the total value and composition of assets under its management. Fluctuations in the markets and investor sentiment directly impact the funds' asset levels, thereby affecting income and results of operations.

Detailed information regarding the SEC-registered funds managed by the Company can be found on the Company's website, www.usfunds.com, including performance information for each fund for various time periods, assets under management as of the most recent month end and inception date of each fund.

SEC-registered mutual fund shareholders are not required to give advance notice prior to redemption of shares in the funds; however, the equity funds charge a redemption fee if the fund shares have been held for less than the applicable periods of time set forth in the funds' prospectuses. The fixed income and money market funds charge no redemption fee. Detailed information about redemption fees can be found in the funds' prospectus, which is available on the Company's website, www.usfunds.com.

The Company provides advisory services for two offshore clients and receives monthly advisory fees based on the net asset values of the clients and quarterly performance fees, if any, based on the overall increase in net asset values. The Company recorded advisory and performance fees from these clients totaling \$94,697 and \$0, respectively, for the three months ended September 30, 2011, and \$166,834 and \$102,566 for the corresponding period in fiscal 2011. The performance fees for these clients are calculated and recorded quarterly in accordance with the terms of the advisory agreements. These fees may fluctuate significantly from year to year based on factors that may be out of the Company's control. Frank Holmes, CEO, serves as a director of the offshore clients.

At September 30, 2011, total assets under management as of period-end, including both SEC-registered funds and offshore clients, were \$2.050 billion versus \$2.625 billion at September 30, 2010, a decrease of 22 percent. During the three months ended September 30, 2011, average assets under management were \$2.453 billion versus \$2.450 billion during the three months ended September 30, 2010. Total assets under management as of period-end at September 30, 2011, were \$2.050 billion versus \$2.603 billion at June 30, 2011, the Company's prior fiscal year end.

Average net assets	\$ 2,079,705	\$ 335,278	\$ 2,414,983	\$ 2,035,267	\$ 378,405	\$ 2,413,672

As shown above, average assets under management were consistent for the three months ended September 30, 2011, compared to the same time period for fiscal year 2011, although assets under management at period end were approximately 22% lower than the same period end last year. The decrease in assets under management during the three months ended September 30, 2011, was driven by both shareholder redemptions and market depreciation in the equity funds, primarily in the natural resources category. Fixed income funds experienced a net decrease as shareholders sought alternatives to low yields.

The average annualized investment management fee rate (total mutual fund advisory fees, excluding performance fees, as a percentage of average assets under management) was 85 basis points in the first quarter of fiscal 2012 and 2011. The average investment management fee for the fixed income funds is nil or close to nil for the periods. This is due to voluntary fee waivers on these funds as discussed in Note 5 to the financial statements, including a voluntary agreement to support the yields for the money market funds.

Investment Activities

Management believes it can more effectively manage the Company's cash position by broadening the types of investments used in cash management and continues to believe that such activities are in the best interest of the Company. The Company's investment activities are reviewed and monitored by Company compliance personnel, and various reports are provided to certain investment advisory clients. Written procedures are in place to manage compliance with the code of ethics and other policies affecting the Company's investment practices. This source of revenue does not remain consistent and is dependent on market fluctuations, the Company's ability to participate in investment opportunities, and timing of transactions.

As of September 30, 2011, the Company held investments with a market value of approximately \$9.1 million and a cost basis of approximately \$9.0 million. The market value of these investments is approximately 20.2 percent of the Company's total assets. See Note 3 (Investments) and Note 4 (Fair Value Disclosures) for additional detail regarding

investment activities.

RESULTS OF OPERATIONS THREE MONTHS ENDED SEPTEMBER 30, 2011 AND 2010

The Company posted net income of \$749,518 (\$0.05 per share) for the three months ended September 30, 2011, compared with net income of \$1,265,693 (\$0.08 per share) for the three months ended September 30, 2010, a decrease of \$516,175, or 40.8 percent.

Revenues

Total consolidated revenues for the three months ended September 30, 2011, decreased \$1,128,833, or 12.7 percent, compared with the three months ended September 30, 2010. This decrease was primarily attributable to the following:

Investment income decreased \$1,031,726, or 215.0 percent, primarily due to unrealized losses on trading securities for the three months ended September 30, 2011, compared to unrealized gains on trading securities for the three months ended September 30, 2010.

Expenses

Total consolidated expenses for the three months ended September 30, 2011, decreased \$331,689, or 4.8 percent, compared with the three months ended September 30, 2010. This was largely attributable to the following:

General and administrative expense decreased by \$342,840, or 15.5 percent, primarily due to prior period implementation of new investment management and trading software.

LIQUIDITY AND CAPITAL RESOURCES

At September 30, 2011, the Company had net working capital (current assets minus current liabilities) of approximately \$32.5 million and a current ratio (current assets divided by current liabilities) of 8.3 to 1. With approximately \$28.1 million in cash and cash equivalents and approximately \$9.1 million in marketable securities, the Company has adequate liquidity to meet its current obligations. Total shareholders' equity was approximately \$40.6 million, with cash, cash equivalents, and marketable securities comprising 82.5 percent of total assets.

As of September 30, 2011, the Company has no long-term liabilities. The Company has access to a \$1 million credit facility with a one-year maturity for working capital purposes. The credit agreement requires the Company to maintain certain quarterly financial covenants to access the line of credit. As of September 30, 2011, this credit facility remained unutilized by the Company.

Management believes current cash reserves, financing available, and potential cash flow from operations will be sufficient to meet foreseeable cash needs or capital necessary for the above-mentioned activities and allow the Company to take advantage of opportunities for growth whenever available.

Market volatility may cause the price of the Company's publicly traded class A shares to fluctuate, which in turn may allow the Company an opportunity to buy back stock at favorable prices.

The investment advisory and related contracts between the Company and USGIF were renewed effective October 1, 2011. The Company provides advisory services to two offshore clients for which the Company receives a monthly advisory fee and a quarterly performance fee, if any, based on agreed-upon performance measurements. The contracts between the Company and these offshore clients expire periodically, and management anticipates that its offshore clients will renew the contracts.

The Company receives additional revenue from several sources including custodial fee revenues, mailroom operations, and investment income.

CRITICAL ACCOUNTING ESTIMATES

For a discussion of critical accounting policies that the Company follows, please refer to the notes to the consolidated financial statements included in the Annual Report on Form 10-K for the year ended June 30, 2011. As discussed in

Note 1 of the Notes to Consolidated Financial Statements, the Company has adopted certain recently issued financial accounting pronouncements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company's balance sheet includes assets whose fair value is subject to market risks. Due to the Company's investments in equity securities, equity price fluctuations represent a market risk factor affecting the Company's consolidated financial position. The carrying values of investments subject to equity price risks are based on quoted market prices or, if not actively traded, management's estimate of fair value as of the balance sheet date. Market prices fluctuate, and the amount realized in the subsequent sale of an investment may differ significantly from the reported market value.

The Company's investment activities are reviewed and monitored by Company compliance personnel, and various reports are provided to certain investment advisory clients. Written procedures are in place to manage compliance with the code of ethics and other policies affecting the Company's investment practices.

The table below summarizes the Company's equity price risks as of September 30, 2011, and shows the effects of a hypothetical 25 percent increase and a 25 percent decrease in market prices.

	Fair Value at September 30, 2011	Hypothetical Percentage Change	Estimated Fair	Increase
			Value After Hypothetical Price Change	(Decrease) in Shareholders Equity, Net of Tax
Trading securities ¹	\$5,109,717	25% increase	\$6,387,146	\$843,103
		25% decrease	\$3,832,288	(\$843,103)
		25%		
Available-for-sale ²	\$3,996,444	25% increase	\$4,995,555	\$659,413
		25% decrease	\$2,997,333	(\$659,413)
		25%		

¹ Unrealized and realized gains and losses on trading securities are included in earnings in the statement of operations.

² Unrealized and realized gains and losses on available-for-sale securities are excluded from earnings and recorded in other comprehensive income as a component of shareholders' equity until realized.

The selected hypothetical changes do not reflect what could be considered best- or worst-case scenarios. Results could be significantly different due to both the nature of equity markets and the concentration of the Company's investment portfolio.

ITEM 4. CONTROLS AND PROCEDURES

An evaluation of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of September 30, 2011, was conducted under the supervision and with the participation of management, including our Chief Executive Officer and Chief Financial Officer. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer concluded that the disclosure controls and procedures were effective as of September 30, 2011.

There has been no change in the Company's internal control over financial reporting that occurred during the three months ended September 30, 2011, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.
