AMREIT AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE MONTHS ENDED MARCH 31, 2004 AND 2003  
(UNAUDITED)

1. DESCRIPTION OF BUSINESS AND NATURE OF OPERATIONS

AmREIT is a Texas real estate investment trust ("REIT") that has elected to be taxed as a REIT for federal income tax purposes. AmREIT is a self-managed, self-advised REIT with, along with its predecessor, a 19-year history and a record of investing in quality income producing retail real estate. AmREIT's class A common shares are traded on the American Stock Exchange under the symbol "AMY". AmREIT's business structure consists of the publicly traded REIT and three synergistic businesses that support the Company's platform of growth: a real estate operation and development business, a securities business and a retail partnership business. This unique combination provides AmREIT the ability to access capital through both Wall Street and the independent financial

## Edgar Filing: AMREIT - Form 10QSB

planning marketplace and strategically invest that capital in high quality properties for flexibility and more dependable growth.

AmREIT's initial predecessor, American Asset Advisers Trust, Inc. was formed as a Maryland Corporation in 1993. Following the merger of our external adviser into the Company in June 1998, we changed our name to AmREIT, Inc., which was a Maryland corporation. In December 2002, we reorganized as a Texas real estate investment trust.

Our business organization consists of a portfolio of high-end single and multi-tenant retail centers, a full service real estate operating and development subsidiary, an NASD registered broker-dealer subsidiary, and a retail partnership business. This unique combination provides AmREIT the opportunity to access capital through both Wall Street and the independent financial planning marketplace for flexibility and dependable growth. We finance our growth and working capital needs with a combination of equity offerings and a conservative debt philosophy. Currently, the Company is raising capital through its class C common share offering, being offered exclusively through the independent financial planning community. As of March 31, 2004, the Company had raised approximately \$30.1 million through its class C offering. Through its by-laws, the Company's debt is limited to 55% recourse debt as compared to its gross assets. As of March 31, 2004, the Company's debt to asset ratio was approximately 41%.

Our operating strategy and investment criteria discussed herein are reviewed by our Board of Trust Managers on a regular basis and may be modified or changed without a vote of our shareholders.

### Portfolio

We focus on acquiring "irreplaceable corners" - premier retail frontage properties in high-traffic, highly populated areas - which create dependable income and long-lasting value. These premium properties provide high leasing income and high occupancy rates for a strong income stream. As of March 31, 2004, the occupancy rate at our properties was 94.8%. Our properties attract a wide array of established commercial tenants, and offer attractive opportunities for dependable monthly income and potential capital appreciation. These properties are typically located in high traffic areas within a three-mile radius of a population of 100,000 with an average household income of \$70 thousand or more. On average, more than 30,000 cars per day pass by these properties. In addition, management believes that the location and design of its properties provide flexibility in use and tenant selection and an increased likelihood of advantageous re-lease terms.

Our revenues are substantially generated by corporate retail tenants such as Starbucks, Landry's, CVS Pharmacy, International House of Pancakes ("IHOP"), Eckerd, Nextel, Washington Mutual, TGI Friday's, and others. We own, and may purchase in the future, fee simple retail properties (we own the land and the building), ground lease

4

properties (we own the land, but not the building and receive rental income from the owner of the building) or leasehold estate properties (we own the building, but not the land, and therefore are obligated to make a ground lease payment to the owner of the land). AmREIT may also develop properties for its portfolio or enter into joint ventures, partnerships or co-ownership for the development of retail properties.

AmREIT owns a real estate portfolio consisting of 51 properties located in 18 states at March 31, 2004. Our multi-tenant shopping center properties are

## Edgar Filing: AMREIT - Form 10QSB

primarily located throughout Texas and are leased to national, regional and local tenants. Our single tenant properties are located throughout the United States and are generally leased to corporate tenants where the lease is the direct obligation of the parent company, not just the local operator, and in most other cases, our leases are guaranteed by the parent company. In so doing, the dependability of the lease payments is based on the strength and viability of the entire company, not just the leased location. Properties that we acquire are generally newly constructed or recently constructed at the time of acquisition.

As of March 31, 2004, no single property accounted for more than 10% of the Company's total assets. As of March 31, 2004, IHOP accounted for 14.5% of the Company's total revenue and no other tenant accounted for more than 10% of the Company's total revenue.

### Real Estate Operating and Development Business

AmREIT's real estate operating and development subsidiary, AmREIT Realty Investment Corporation ("ARIC") is a fully integrated group of brokers and real estate professionals that provide brokerage, leasing, construction management, development and property management services to our tenants as well as third parties. This operating subsidiary, which is a taxable REIT subsidiary, compliments our portfolio of retail properties by providing a high level of service to our tenants, as well as maintaining our portfolio of properties to meet our standards.

Having an internal real estate group also helps secure strong tenant relationships for both us and our retail partnerships. Our growing roster of leases with well-known national and regional tenants includes IHOP, Washington Mutual, Starbucks, TGI Friday's, CVS Pharmacy, and others. Equally important, we have affiliations with these parent company tenants that extend across multiple sites.

Not only does our real estate operating and development company create value through relationships, but it also provides an additional source of fee income and profits. Through the development, construction, management, leasing and brokerage services provided to our affiliated actively managed retail partnerships, as well as for third parties, our real estate team continues to generate fees and profits for us. Through ARIC, we are able to generate additional profits through the selective acquisitions and dispositions of properties within twelve to eighteen months. These assets are listed as real estate held for sale on our consolidated balance sheet, and, at March 31, 2004, these assets represented approximately \$3.0 million of the \$7.2 million reported as real estate held for sale.

### Securities Business

The part of our business structure and operating strategy that really separates us from other publicly traded REITs is AmREIT Securities Company (ASC), a wholly owned subsidiary of ARIC. Through ASC, we are able to raise capital through the National Association of Securities Dealers (NASD) independent financial planning community. Traditionally, we have raised capital in two ways: first for our actively managed retail partnerships, and second, directly for AmREIT through non-traded classes of common shares.

During 2003, ASC raised approximately \$15 million for AmREIT Monthly Income & Growth Fund, Ltd., an affiliated retail partnership sponsored by a subsidiary of AmREIT. Additionally, as of March 31, 2004, ASC has raised approximately \$30.1 million directly for us through a class C common share offering. During 2004, through a combination of our actively managed retail partnerships, as well as direct equity for AmREIT, ASC projects to raise approximately \$60 million directly through the NASD independent financial planning community. Since

capital is the lifeblood of any real estate company, having the unique opportunity to raise capital through both Wall Street and the independent financial planning community adds additional financial flexibility and dependability to our income stream.

#### Retail Partnership Business

AmREIT has retail partnership subsidiaries that sell limited partnership interests to retail investors, in which AmREIT indirectly invests through both the general partner and as a limited partner. We wanted to create a structure that aligns the interest of our shareholders with that of our unit holders. Through our subsidiary general partners of the retail partnerships value is created for AmREIT through managing money from the sponsored funds, and in return, receiving management fees and profit participation interests.

AmREIT's retail partnerships are structured so that an affiliate, as the general partner, receives a significant profit only after the limited partners in the retail partnerships have received their targeted return, again, linking AmREIT's success to that of its unit holders.

As of March 31, 2004, AmREIT directly managed, through its four actively managed and previously sponsored retail partnerships, over \$30 million in equity. These four partnerships have entered or will enter their liquidation phases in 2003, 2009, 2010, and 2011 respectively. As these partnerships enter into liquidation, we expect to receive economic benefit from our profit participation, after certain preferred returns have been paid to the partnership's limited partners. In accordance with generally accepted accounting principles, any unrealized gains associated with this potential profit participation has not been reflected on our balance sheet or statement of operations.

In August 2003 the Company began selling class C common shares. The offering is a \$44 million offering, issued on a best efforts basis through the independent financial broker dealer community. The Company will primarily use the proceeds for the acquisition of new properties and to pay down existing debt. As of March 31, 2004, the Company had issued approximately 3.0 million shares, representing approximately \$30.1 million in proceeds from selling class C shares.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-QSB and include all of the disclosures required by accounting principles generally accepted in the United States of America. The condensed consolidated financial statements reflect all normal and recurring adjustments, which are, in the opinion of management, necessary to present a fair statement of results for the three month periods ended March 31, 2004 and 2003.

The condensed consolidated financial statements of AmREIT contained herein should be read in conjunction with the consolidated financial statements included in the Company's annual report on Form 10-KSB for the year ended December 31, 2003.

#### REAL ESTATE HELD FOR SALE

Properties are classified as real estate held for sale if the properties were purchased with intent to sell the properties within twelve to eighteen months or if the properties are listed for sale. Additionally, if management has made the determination to dispose of an operating property, the associated property is

## Edgar Filing: AMREIT - Form 10QSB

reclassified to real estate held for sale and depreciation is ceased. An evaluation for impairment is also performed. At March 31, 2004, AmREIT owned four properties that are classified as real estate held for sale. The four properties have a combined carrying value of \$7.2 million. One of the properties has a separate note payable, which has a one-year term and a balance of \$1.7 million at March 31, 2004.

6

### BASIS OF CONSOLIDATION

The consolidated financial statements include the accounts of AmREIT and its wholly or majority owned subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

### NEW ACCOUNTING STANDARDS

In January 2003, the FASB issued Interpretation No. 46, Consolidation of Variable Interest Entities, an interpretation of ARB No. 51 ("FIN 46"), which was amended in December 2003. This Interpretation, as amended requires a variable interest entity to be consolidated by a company if that company is subject to a majority of the risk of loss from the variable interest entity's activities or entitled to receive a majority of the entity's residual return or both. As amended the interpretation requires disclosures about variable interest entities that a company is not required to consolidate, but in which it has a significant variable interest. The adoption of FIN 46 for small business filers is effective no later than December 31, 2004.

In May 2003, the Financial Accounting Standards Board issued Statement No. 150 ("Statement 150") "Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity". Statement 150 requires certain financial instruments that have characteristics of both liabilities and equity to be classified as a liability on the balance sheet. Statement 150 is effective for financial instruments entered into or modified after May 31, 2003 and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. Statement 150 will be effected by reporting the cumulative effect of a change in accounting principle for contracts created before the issuance date and still existing at the beginning of that interim period. The adoption of Statement 150 did not have an impact on our consolidated financial position, results of operations, or cash flows.

### RECLASSIFICATION

Certain amounts in the interim unaudited 2003 condensed consolidated financial statements have been reclassified to conform to the presentation used in the interim unaudited 2004 condensed consolidated financial statements. Such reclassifications had no effect on previously reported net income or loss or shareholders' equity.

### 3. NOTES PAYABLE

In September 2003, the Company renewed its unsecured credit facility (the "Credit Facility"), which is being used to provide funds for the acquisition of properties and working capital. Under the Credit Facility, which has a term of one year, the Company may borrow up to \$30 million subject to the value of unencumbered assets. The Credit Facility contains covenants which, among other restrictions, require the Company to maintain a minimum net worth, a maximum leverage ratio, specified interest coverage and fixed charge coverage ratios and allow the lender to approve all distributions. Furthermore, the Credit Facility contains concentration covenants and limitations, limiting property level net operating income for any one tenant to no more than 15% (35% for IHOP) of total

## Edgar Filing: AMREIT - Form 10QSB

property net operating income. At March 31, 2004, IHOP net operating income represented approximately 32% of total property net operating income. At March 31, 2004, the Company was in compliance with all financial covenants. The Credit Facility's annual interest rate varies depending upon the Company's debt to asset ratio, from LIBOR plus a spread of 1.40% to LIBOR plus 2.35%. As of March 31, 2004, the interest rate was LIBOR plus 2.0%. As of March 31, 2004, \$12.8 million was outstanding under the Credit Facility. Thus the Company has approximately \$17.2 million available under its line of credit, subject to Lender approval on the use of the proceeds.

#### 4. MAJOR TENANTS

7

As of March 31, 2004, there have been no significant changes in the tenant make-up from year end December 31, 2003.

#### 5. EARNINGS PER SHARE

Basic earnings per share has been computed by dividing net income (loss) available to class A shareholders by the weighted average number of class A common shares outstanding. Diluted earnings per share has been computed by dividing net income (as adjusted) by the weighted average number of common shares outstanding plus the weighted average number of potentially dilutive common shares. Diluted earnings per share information is not applicable due to the anti-dilutive nature of the common class B and class C shares.

The following table presents information necessary to calculate basic and diluted earnings per share for the periods indicated:

	Three months ended March 31, 2004	2003
	-----	-----
BASIC EARNINGS PER SHARE		
Weighted average class A common shares outstanding (in thousands)	2,953	2,768
Basic and diluted (loss) earnings per share *	(\$ 0.40)	\$ 0.002
	=====	=====
EARNINGS (LOSS) FOR BASIC AND DILUTIVE COMPUTATION		
(Loss) earnings to class A common shareholders (in thousands)	(\$ 1,178)	\$ 5
	=====	=====

\* The operating results for the three months ended March 31, 2004 include a charge to earnings of \$1.3 million, which was the market value of the class A common shares issued to H. Kerr Taylor, President and CEO, related to the sale of his advisory company to AmREIT in 1998. The charge was for the deferred merger cost due from this sale that was triggered by the issuance of additional class C common shares.

#### 6. DISCONTINUED OPERATIONS

The operations of six properties were reported as discontinued operations. Two of the properties were listed as held for sale at March 31, 2004, one of the properties was sold in the second quarter of 2003, two of the properties were

## Edgar Filing: AMREIT - Form 10QSB

sold in the fourth quarter of 2003 and one of the properties was sold in the first quarter of 2004. The following is a summary of our discontinued operations (in thousands, except for per share data):

	Three months ended March 31,	
	2004	2003
	-----	-----
Rental revenue	\$ 172	\$ 238
Gain on sale of real estate held for sale	608	-
Depreciation and amortization	-	(15)
Bad debt expense	(67)	-
Interest expense	(39)	(28)
Property expense	(18)	(4)
	-----	-----
Income from discontinued operations	\$ 656	\$ 191
Basic and diluted income from discontinued operations per common share	\$ 0.22	\$ 0.07
	=====	=====

Gain on real estate held for sale is a result of selling one property acquired during 2003 with the intent to resell after a short holding period. Through a taxable REIT subsidiary, AmREIT actively seeks properties where there is an opportunity to purchase undervalued assets, and after a short holding period and value creation, dispose of the asset and capture the value created.

8

### 7. COMMITMENTS

The Company has signed a 63 month lease for office space. The lease commences on the occupancy date which is expected to be May 14, 2004. The annual rent will be \$210 thousand. Rental expense for the three months ended March 31, 2004 and 2003 was \$18 thousand and \$22 thousand respectively.

As of March 31, 2004, the Company has contracted to purchase approximately \$8.5 million of multi-tenant real estate projects that are anticipated to close during the second quarter of 2004.

### 8. SEGMENT REPORTING

The operating segments presented are the segments of AmREIT for which separate financial information is available, and revenue and operating performance is evaluated regularly by senior management in deciding how to allocate resources and in assessing performance.

AmREIT evaluates the performance of its operating segments primarily on revenue. Because the real estate development and operating segment and securities and retail partnership segment are both revenue and fee intensive, management considers revenue the primary indicator in allocating resources and evaluating performance.

The portfolio segment consists of our portfolio of single and multi-tenant shopping center projects. This segment consists of 51 properties located in 18 states. Expenses for this segment include depreciation, interest, minority interest, legal cost directly related to the portfolio of properties and the property level expenses. The consolidated assets of AmREIT are substantially all in this segment. Included in Corporate and Other are those costs and expenses

## Edgar Filing: AMREIT - Form 10QSB

related to general overhead and personnel that are not solely responsible for one of the reporting segments.

### 9. PROPERTY ACQUISITIONS AND DISPOSITIONS

The following selected unaudited pro forma consolidated statement of operations for AmREIT and subsidiaries gives effect to the acquisition of Uptown Plaza, which assumes that the acquisition occurred on January 1, 2003. Uptown Plaza, acquired in December 2003, is a 28,000 square foot retail complex located in Houston, Texas, including a free-standing CVS drugstore and a retail shopping center anchored by Grotto, a new concept of Landry's Restaurant, Inc.

### 10. SUBSEQUENT EVENTS

On April 13, 2004, the Company filed a Form S-11 registration statement with the SEC. The registration statement registered approximately 17 million shares of the Company's class D common shares with the SEC. The class D common shares are expected to be sold at \$10 per share, will have dividends on par with those of the class A common shares at a fixed rate of 6.5% per annum paid monthly, will have the ability to convert into the class A common shares on the seventh anniversary of the issuance of the class D common shares at a ratio of 1.077% of initial capital invested, and are callable after one year. On April 22, 2004, the Company received a comment letter

10

from the SEC, identifying one comment. The Company has responded to the SEC's comment, and anticipates the registration statement being declared effective during the second quarter 2004. The primary use of proceeds will be property acquisitions, the pay down of debt and credit facilities and general working capital.

The Company has contracted for a property located in Houston, Texas, which includes a free standing Walgreens pharmacy and a 20,000 square foot shopping center. The property is anticipated to close on or before June 30, 2004 for a total purchase price of approximately \$8.5 million. The acquisition is anticipated to be funded with \$3.9 million in cash and the assumption of mortgage financing of \$4.6 million.

The Company expects a charge to the second quarter operating results of approximately \$355 to \$375 thousand, depending on the market value of the class A common shares. The charge is for class A shares to be issued to H. Kerr Taylor, President and CEO, related to the sale of his advisory company to AmREIT in 1998. The charge for the deferred merger cost due from this sale was triggered by the issuance of additional class C common shares.

11

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

FORWARD-LOOKING STATEMENTS

## Edgar Filing: AMREIT - Form 10QSB

Certain information presented in this Form 10-QSB constitutes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Although the Company believes that the expectations reflected in these forward-looking statements are based upon reasonable assumptions, the Company's actual results could differ materially from those set forth in the forward-looking statements. Certain factors that might cause such a difference include the following: changes in general economic conditions, changes in real estate market conditions, continued availability of proceeds from the Company's debt or equity capital, the ability of the Company to locate suitable tenants for its properties and the ability of tenants to make payments under their respective leases.

The condensed consolidated financial statements of AmREIT, and the following discussion contained herein should be read in conjunction with the consolidated financial statements and discussion included in the Company's annual report on Form 10-KSB for the year ended December 31, 2003. Historical results and trends which might appear should not be taken as indicative of future operations.

The following discussion should be read in conjunction with the consolidated financial statements and notes thereto and the comparative summary of selective financial data appearing elsewhere in this report. Historical results and trends which might appear should not be taken as indicative of future operations.

### EXECUTIVE OVERVIEW

AmREIT (AMEX: AMY) is a rapidly growing, self-managed and self-advised REIT with a 19-year history of delivering results to its investors. Its business model consists of a portfolio of retail properties, including "irreplaceable corners", single tenant properties and multi-tenant properties, a full service real estate operating and development business, NASD-registered broker dealer securities business and a retail partnership business - a unique combination that provides AmREIT the opportunity to access multiple sources of capital and generate fees and profits from multiple sources, resulting in added financial flexibility and the opportunity for dependable growth and income.

AmREIT's goal is to deliver increasing, dependable, monthly income for its shareholders. In so doing, AmREIT strives to increase and maximize Funds from Operations by issuing long term capital through both the NASD independent financial planning marketplace as well as through Wall Street, and investing the capital in accretive real estate properties, acquired or developed, on irreplaceable corners. Additionally, we strive to maintain a conservative balance sheet. To that regard, we strive to maintain a debt to total asset ratio of less than 55%. As of March 31, 2004, our debt to total asset ratio was 41%.

At March 31, 2004, AmREIT owned a portfolio of 51 properties located in 18 states, subject to long term leases with retail tenants, either directly or through its interests in joint ventures or partnerships. Forty six of the properties are single tenant properties, and represent approximately 75% of the rental income as of March 31, 2004. Five of the properties are multi-tenant and represent approximately 25% of the rental income as of March 31, 2004. In assessing the performance of the Company's properties, management evaluates the occupancy of the Company's portfolio. Occupancy for the total portfolio was 94.8% based on leaseable square footage as of March 31, 2004. Additionally, the Company anticipates that the majority of its rental income will consist of rental income generated from multi-tenant shopping centers by the end of 2004. We have been developing and acquiring multi-tenant shopping centers for over ten years in our retail partnership business. During that time, we believe we have developed the ability to recognize the high-end multi-tenant properties that can create long-term value, and with the downward pressure on single tenant cap rates, resulting in higher priced real estate, management anticipates strategically increasing its holdings of multi-tenant shopping centers. Management intends to increase total assets

from \$101 million as of December 31, 2003 to approximately \$200 million at the end of 2004. Through its class C common share offering, the Company raised approximately \$30.1 million in capital through March 31, 2004.

Management intends to fund future acquisitions and development projects through a combination of equity offerings and debt financing. During 2004, the Company anticipates raising approximately \$60 million of equity from various sources including Wall Street and the independent financial planning community. We have already raised an additional \$16 million through our class C common share offering for the three months ended March 31, 2004.

Management expects that single tenant, credit leased properties, will continue to experience cap rate pressure during 2004 due to the low interest rate environment and increased buyer demand. Therefore, as it has been, our continued strategy will be to divest of properties which no longer meet our core criteria, and replace them with multi-tenant projects or the development of single tenant properties located on irreplaceable corners. With respect to additional growth opportunities, we have over \$50 million of projects in our pipeline at various stages of evaluation. Each potential acquisition is subjected to a rigorous due diligence process that includes site inspections, financial underwriting, credit analysis and market and demographic studies. Therefore, there can be no assurance that any or all of these projects will ultimately be purchased by AmREIT. Management anticipates, and has budgeted for, an increase in interest rates during 2004. As of March 31, 2004, approximately 60% of our outstanding debt had a long term fixed interest rate with an average term of seven years. Our philosophy continues to be matching long term leases with long term debt structures while keeping our debt to total assets ratio less than 55%.

#### SUMMARY OF CRITICAL ACCOUNTING POLICIES

The results of operations and financial condition of the Company, as reflected in the accompanying financial statements and related footnotes, are subject to management's evaluation and interpretation of business conditions, retailer performance, changing capital market conditions and other factors, which could affect the ongoing viability of the Company's tenants. Management believes the most critical accounting policies in this regard are the accounting for lease revenues (including the straight line rent), the regular evaluation of whether the value of a real estate asset has been impaired and the allowance for doubtful accounts. We evaluate our assumptions and estimates on an on-going basis. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable based on the circumstances.

**Rental Income Recognition** - In accordance with accounting principles generally accepted in the United States of America, the Company accounts for rental income under the straight line method, whereby we record rental income based on the average of the total rent obligation due under the primary term of the lease. The Company prepares a straight line rent schedule for each lease entered into. Certain leases contain a provision for percentage rent. Percentage rent is recorded in the period when the Company can reasonably calculate the amount of percentage rent owed, if any. Generally, the Company records percentage rent in the period in which the percentage rent payment is made, and can thereby be calculated and verified. For the three months ended March 31, 2004, the Company collected and recorded percentage rent from tenants of \$65 thousand.

**Real Estate Valuation** - Real estate assets are stated at cost less accumulated depreciation, which, in the opinion of management, is not in excess of the individual property's estimated undiscounted future cash flows, including estimated proceeds from disposition. Depreciation is computed using the

## Edgar Filing: AMREIT - Form 10QSB

straight-line method, generally over estimated useful lives of 39 years for buildings and over the primary term of the lease for tenant improvements. Major replacements that extend the life of the property, or enhance the value of the property are capitalized and the replaced asset and corresponding accumulated depreciation are removed. All other maintenance items are charged to expense as incurred.

Upon the acquisition of real estate projects, the Company assesses the fair value of the acquired assets (including

13

land, building, acquired, out-of-market and in-place leases, as if vacant property value and tenant relationships) and acquired liabilities, and allocates the purchase price based on these assessments. The Company assesses fair value based on estimated cash flow projections that utilize appropriate discount and capitalization rates and available market information. Estimates of future cash flows are based on a number of factors including the historical operating results, known trends, and specific market and economic conditions that may affect the property. Factors considered by management in our analysis of determining the as if vacant property value include an estimate of carrying costs during the expected lease-up periods considering current market conditions, and costs to execute similar leases. In estimating carrying costs, management includes real estate taxes, insurance and other operating expenses and estimates of lost rentals at market rates during the expected lease-up periods, up to 12 months depending on the property location, tenant demand and other economic conditions. Management also estimates costs to execute similar leases including leasing commissions, tenant improvements, legal and other related expenses.

Costs incurred in the development of new operating properties, including preacquisition costs directly identifiable with the specific project, development and construction costs, interest and real estate taxes are capitalized into the basis of the project. The capitalization of such costs ceases when the property, or any completed portion, becomes available for occupancy.

AmREIT's properties are reviewed for impairment if events or changes in circumstances indicate that the carrying amount of the property may not be recoverable. In such an event, a comparison is made of the current and projected operating cash flows of each such property on an undiscounted basis, plus the residual value of the property upon disposition, to the carrying value of such property. The carrying value would then be adjusted, if needed, to estimate the fair value to reflect an impairment in the value of the asset. As of March 31, 2004, no impairment was identified for any of the Company's properties.

Valuation of Receivables - An allowance for the uncollectible portion of accrued rents, property receivables and accounts receivable is determined based upon an analysis of balances outstanding, historical payment history, tenant credit worthiness, additional guarantees and other economic trends. Balances outstanding include base rents, tenant reimbursements and receivables attributed to the accrual of straight line rents. Additionally, estimates of the expected recovery of pre-petition and post-petition claims with respect to tenants in bankruptcy is considered in assessing the collectibility of the related receivables. During the three months ended March 31, 2004, the Company wrote off receivables totaling approximately \$67 thousand. The receivable is attributable to the GAAP required accrual of straight line rents associated with Just for Feet. The write off of the receivable from Just for Feet is included in income from discontinued operations. The Company maintains a receivable related to Warehouse Entertainment of approximately \$126 thousand. Based on discussions with Warehouse Entertainment, Blockbuster Entertainment Corporation, the

## Edgar Filing: AMREIT - Form 10QSB

guarantor of the lease, and legal proceedings involving Wherehouse Entertainment and Blockbuster Entertainment Corporation, the Company believes that these receivables are collectable, and should be collected during 2004.

### LIQUIDITY AND CAPITAL RESOURCES

Cash flow from operating activities and financing activities have been the principal sources of capital to fund the Company's ongoing operations and dividends. As AmREIT deploys the capital raised, and expected to be raised from its equity offerings, into income producing real estate, we anticipate that cash flow from operations will provide adequate resources for future ongoing operations and dividends. AmREIT's cash on hand, internally-generated cash flow, borrowings under our existing credit facilities, issuance of equity securities, as well as the placement of secured debt and other equity alternatives, is expected to provide the necessary capital to maintain and operate our properties as well as execute and achieve our growth strategies. Cash provided by operating activities as reported in the Consolidated Statements of Cash Flows increased \$53 thousand in 2004 when compared to 2003. Proceeds from sales of real estate acquired for sale increased by \$2.4 million. This increase in

14

cash was offset somewhat by an increase in accounts receivable related party of \$1.5 million.

During the first quarter 2004, AmREIT contracted to purchase approximately \$8.5 million of retail real estate, representing a multi-tenant shopping center located in Houston, Texas. The shopping center is anticipated to close during the second quarter and will be funded with approximately \$3.9 million in cash and the assumption of a \$4.6 million mortgage payable. Additionally, AmREIT sold an IHOP located in Bridgeton, Missouri during the first quarter 2004, which was previously classified as real estate held for sale. The Company realized a gain on the sale of approximately \$608 thousand. As part of its investment strategy, AmREIT constantly evaluates its property portfolio, systematically selling off any non-core or underperforming assets, and replacing them with "irreplaceable corners" and other core assets. For the remainder of 2004, the Company anticipates continuing the strategy of divesting its non-core properties, which is estimated will generate between \$10 and \$15 million in sales proceeds. On January 11, 2003, Wherehouse Entertainment filed for voluntary petition of relief under Chapter 11 of the federal bankruptcy code. The Company owns two Wherehouse Entertainment locations. The lease on one location has been amended and assigned to Record Town. The Company is evaluating the alternatives on the second location. On March 2, 2004, Footstar, the parent company of Just for Feet filed for a voluntary petition of relief under Chapter 11 of the federal bankruptcy code and has announced it intends to close all their Just for Feet stores after an orderly liquidation of the remaining inventory. The Company anticipates the closure of both of their Just for Feet locations this summer and is evaluating the alternatives.

Cash flows used in investing activities has been primarily related to the acquisition or development of retail properties. During the first quarter of 2004, AmREIT through one its taxable REIT subsidiaries, acquired a 25% equity interest in a 45 acre retail redevelopment in Houston, Texas. The other partners are affiliated partnerships. The investment was funded through a combination of the \$14.3 million of capital (net of \$1.8 million in issuance costs) raised through the class C common share offering and debt financing.

In addition, capitalized expenditures for improvements and additions to our existing properties were approximately \$300 thousand, which were funded through excess cash flow and through the Company's revolving credit facility. Cash flows used in investing activities as reported in the Consolidated Statements of Cash Flows decreased from \$3.1 million in the first three months of 2003 to \$1.7

## Edgar Filing: AMREIT - Form 10QSB

million in the first three months of 2004.

Cash flows provided by financing activities increased from \$1.1 million through March 31, 2003 to \$1.6 million through March 31, 2004. Cash flows provided by financing activities were primarily generated from our class C common share offering. Through its class C common share offering, the Company is averaging new capital raised of between \$4 and \$6 million per month. One advantage of raising capital through the independent financial planning marketplace is the capital is received on a monthly basis, allowing for a scaleable matching of real estate projects. Our first priority is to deploy the capital raised, and then to moderately leverage the capital, while maintaining our philosophy of a conservative balance sheet. The Company was able to reduce debt by almost \$11.5 million with the proceeds from its class C common share offering.

AmREIT has a \$30 million unsecured revolving credit facility. The facility will mature on September 4, 2004. The facility bears interest at a rate of LIBOR plus a range of 1.40% to 2.35%, depending on the Company's debt to asset ratio. The Credit Facility contains covenants which, among other restrictions, require the Company to maintain a minimum net worth, a maximum leverage ratio, specified interest coverage and fixed charge coverage ratios and allow the lender to approve all distributions. Furthermore, the Credit Facility contains concentration covenants and limitations, limiting property level net operating income from any one tenant to no more than 15% (35% for IHOP) of total property net operating income. At March 31, 2004, IHOP net operating income represented approximately 32% of total property net operating income. As of March 31, 2004, the spread over LIBOR was 2.00. At March 31, 2004, approximately \$12.8 million was outstanding under the credit facility. In addition to the credit facility, AmREIT utilizes various permanent mortgage financing and other debt instruments. As of March 31, 2004, the Company had the following contractual obligations:

15

	2004	2005	2006	2007	2008	Thereafter
Unsecured debt:						
Revolving credit facility	\$12,777	\$ -	\$ -	\$ -	\$ -	\$ -
5.46% dissenter notes	-	-	-	-	-	760
Secured debt	2,073	490	530	573	620	19,163
Total contractual obligations	\$14,850	\$ 490	\$ 530	\$ 573	\$ 620	\$19,923

In order to continue to expand and develop its portfolio of properties and other investments, the Company intends to finance future acquisitions and growth through the most advantageous sources of capital available at the time. Such capital sources may include proceeds from public or private offerings of the Company's debt or equity securities, secured or unsecured borrowings from banks or other lenders, acquisitions of the Company's affiliated entities or other unrelated companies, or the disposition of assets, as well as undistributed funds from operations.

In August 2003, the Company commenced the class C common share offering. This offering is being exclusively made through the NASD independent financial

## Edgar Filing: AMREIT - Form 10QSB

planning community. It is a \$44 million offering, of which \$4 million has been reserved for the dividend reinvestment plan. As of March 31, 2004, 3.0 million shares had been issued, resulting in approximately \$30.1 million in gross proceeds. The proceeds are being and will be used to finance the acquisition and development of retail real estate projects, pay down the revolving credit facility and provide working capital for the on going operation of the company and its properties.

For the quarters ended March 31, 2004 and 2003, the Company paid dividends to its shareholders of \$1.158 million, and \$760 thousand respectively. The class A and class C shareholders receive monthly dividends and the class B shareholders receive quarterly dividends. All dividends are declared on a quarterly basis. The dividends by class follow (in thousands):

		Class A	Class B	Class C
2004				
	First quarter	\$345	\$434	\$379
2003				
	Fourth quarter	\$320	\$437	\$156
	Third quarter	\$308	\$443	\$15
	Second quarter	\$310	\$439	N/A
	First quarter	\$307	\$453	N/A

Until properties are acquired by the Company, the Company's funds are held in short-term, highly liquid investments which the Company believes to have appropriate safety of principal. This investment strategy has allowed, and continues to allow, high liquidity to facilitate the Company's use of these funds to acquire properties at such time as properties suitable for acquisition are located. At March 31, 2004, the Company's cash and cash equivalents totaled \$2.2 million.

16

Cash flows from operating activities, investing activities, and financing activities for the three months ended March 31, are presented below in thousands:

	2004	2003
	-----	-----
Operating activities	\$ 305	\$ 252
Investing activities	(1,728)	(3,056)
Financing activities	1,570	1,123

### INFLATION

Inflation has had very little effect on income from operations. Management expects that increases in store sales volumes due to inflation as well as increases in the Consumer Price Index (C.P.I.), may contribute to capital appreciation of the Company properties. These factors, however, also may have an

## Edgar Filing: AMREIT - Form 10QSB

adverse impact on the operating margins of the tenants of the properties.

### FUNDS FROM OPERATIONS

AmREIT considers FFO to be an appropriate measure of the operating performance of an equity REIT. The National Association of Real Estate Investment Trusts (NAREIT) defines funds from operations (FFO) as net income or loss computed in accordance with generally accepted accounting principles (GAAP), excluding gains from sales of property, plus real estate related depreciation and amortization, and after adjustments for unconsolidated partnerships and joint ventures. In addition, NAREIT recommends that extraordinary items not be considered in arriving at FFO. AmREIT calculates its FFO in accordance with this definition. Most industry analysts and equity REITs, including AmREIT, consider FFO to be an appropriate supplemental measure of operating performance because, by excluding gains or losses on dispositions and excluding depreciation, FFO is a helpful tool that can assist in the comparison of the operating performance of a company's real estate between periods, or as compared to different companies. There can be no assurance that FFO presented by AmREIT is comparable to similarly titled measures of other REITs. FFO should not be considered as an alternative to net income or other measurements under GAAP as an indicator of our operating performance or to cash flows from operating, investing or financing activities as a measure of liquidity.

Below is the calculation of FFO and the reconciliation to net income, which the Company believes is the most comparable GAAP financial measure to FFO, in thousands for the three months ended March 31:

	2004 -----	2003 -----
(Loss) income before discontinued operations	\$ (1,021)	\$ 267
Income from discontinued operations	656	191
Plus depreciation of real estate assets - from operations	244	181
Plus depreciation of real estate assets - from discontinued operations	-	38
Less class B and class C distributions	(813)	(453)
	-----	-----
Total Funds From Operations available to class A shareholders *	\$ (934)	\$ 224
Cash dividends paid to class A shareholders	\$ 345	\$ 307
Dividends in excess of FFO *	\$ (1,279)	\$ (83)

\* Based on the adherence to the NAREIT definition of FFO, we have not added back the \$1.3 million charge to earnings during 2004 resulting from shares issued to Mr. Taylor. Adding these charges back to earnings would result in \$386 thousand adjusted funds from operations available to class A shareholders, and class A dividends paid less than adjusted FFO available to class A shareholders of \$41 thousand.

### RESULTS OF OPERATIONS

#### COMPARISON OF THE THREE MONTHS ENDED MARCH 31, 2004 TO MARCH 31, 2003:

Rental revenue and earned income from direct financing leases increased by 38%, or \$600 thousand, from \$1.6

## Edgar Filing: AMREIT - Form 10QSB

million in 2003 to \$2.2 million in 2004. Of this increase, \$640 thousand is related to acquisitions made after the first quarter of 2003. This is somewhat offset by the loss of rental income of \$100 thousand due to property dispositions.

On January 21, 2003, Wherehouse Entertainment filed for a voluntary petition of relief under Chapter 11 of the federal bankruptcy code. AmREIT owns two Wherehouse Entertainment properties, one located in Independence, Missouri, and the other located in Wichita, Kansas. Through court proceedings, the lease at the Missouri location has been modified and assigned to Record Town. Wherehouse Entertainment has vacated the Kansas location. On March 2, 2004, Footstar, the parent company of Just for Feet filed for a voluntary petition of relief under Chapter 11 of the federal bankruptcy code. Footstar has announced it intends to close all their Just for Feet stores after an orderly liquidation of the remaining inventory. AmREIT owns two Just for Feet locations, one in Tucson, Arizona and the other is located in Baton Rouge, Louisiana.

Securities commission income increased by \$1.8 million, from \$86 thousand in 2003 to \$1.9 million in 2004. This increase in securities commission income is due to increased capital being raised through our broker dealer company, AmREIT Securities Company (ASC). As ASC raises capital for either AmREIT or its affiliated retail partnerships, ASC earns a securities commission of between 8% and 10.5% of the money raised. During the first quarter of 2004, AmREIT and its affiliated retail partnerships raised approximately \$18.0 million, as compared to approximately \$834 thousand during the first quarter of 2003. This increase in commission income is somewhat mitigated by a corresponding increase in commission expense paid to other third party broker dealer firms. Commission expense increased by \$1.4 million, from \$65 thousand in 2003 to \$1.4 million in 2004.

General and operating expense increased \$665 thousand, from \$770 thousand in 2003 to \$1.4 million in 2004. The increase in general and operating expense is primarily due to additional personnel and the associated salary and benefits costs related to these individuals. Since the first quarter of 2003, the Company added members to each of the operating teams, five on the real estate team (property management, legal, acquisitions and leasing), one on the securities team and two clerical and administrative support positions. By building our various teams, we have not only been able to grow revenue and Funds from Operations, but believe that we will be able to sustain and further enhance our growth. Compensation expense increased \$462 thousand in 2004 as compared to 2003. In addition, property expense increased \$131 thousand.

Deferred merger costs increased from \$0 in the first quarter of 2003 to \$1.3 million in the first quarter of 2004. The deferred merger cost is related to deferred consideration payable to Mr. Taylor as a result of the acquisition of our advisor, which was owned by Mr. Taylor in 1998. In connection with the acquisition, Mr. Taylor agreed to payment for this advisory company in the form of common shares, paid as the Company increases its outstanding equity. To date, Mr. Taylor has received approximately 847 thousand class A common shares, and is eligible to receive an additional 53 thousand shares as additional equity is raised by the Company.
