NOVAMED EYECARE, INC. AND SUBSIDIARIES
NOTES TO THE INTERIM
CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
March 31, 2001
(Amounts in thousands, except per share data)
(Unaudited)

1. BASIS OF PRESENTATION

The information contained in the interim consolidated financial statements and notes is condensed from that which would appear in the annual consolidated financial statements. Accordingly, the interim condensed consolidated financial statements included herein should be read in conjunction with the consolidated financial statements as of and for the year ended December 31, 2000, filed by NovaMed Eyecare, Inc. (the "Company") with the Securities and Exchange Commission on Form 10-K. The unaudited interim condensed consolidated financial statements as of March 31, 2001 include all normal recurring adjustments which management considers necessary for a fair presentation. The results of operations for the interim periods are not necessarily indicative of the results that may be expected for the entire fiscal year.

Certain prior year amounts have been reclassified to conform to current year presentation.

2. EARNINGS PER COMMON SHARE

Diluted EPS is calculated by dividing net income by the weighted average number of common shares, including the dilutive effect of potential common shares outstanding during the period. Potential common shares consist of outstanding options whose dilutive effect is calculated using the treasury stock method.

Earnings per common share is calculated as follows (in thousands, except per share):

Three months ended	
March 31,	

2001	2000

Edgar Filing: NOVAMED EYECARE INC - Form 10-Q

Income available to common stockholders-basic	\$ 1,178	\$ 1,478
Income available to common stockholders-diluted	\$ 1,178	\$ 1,478
Basic weighted average number of common shares outstanding	24,693	24,234
Effect of dilutive securities--stock options	472	2,105
Diluted weighted average number of shares outstanding	25,165	26,339
Earnings per common share:		
Basic	\$.05	\$.06
Diluted	\$.05	\$.06

Item 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The discussion below contains forward-looking statements (as such term is defined in Section 21E of the Securities Exchange Act of 1934) that are based on the beliefs of our management, as well as assumptions made by, and information currently available to, our management. Our results, performance and achievements in 2001 and beyond could differ materially from those expressed in, or implied by, any such forward looking statements. See "Cautionary note regarding forward-looking statements" on page 10.

Outlook

NovaMed Eyecare provides a comprehensive range of eye care services, focused primarily around its surgical facilities, including its ownership and operation of 15 ambulatory surgery centers (ASCs), and its operation of 15 laser vision correction centers. Eye care professionals perform laser vision correction, cataracts and other eye-related surgical procedures in the facilities owned and/or operated by the Company. The revenue and earnings results in the first quarter of 2001 were achieved despite an uncertain economic environment in the US. We expect this environment to continue for the foreseeable future.

The discussion set forth below analyzes certain factors and trends related to the financial results for each of the three months ended March 31, 2001 and 2000. This discussion should be read in conjunction with the condensed consolidated financial statements and notes to the condensed consolidated financial statements above.

Results of Operations

Three Months Ended March 31, 2001 Compared to the Three Months Ended March 31, 2000

Net Revenue. Net revenue for first quarter 2001 increased 16.6% to \$36.9 million from \$31.6 million in the prior year period. Surgical facilities net revenue increased 6.4% from \$10.0 million to \$10.7 million, primarily as a result of a 34% increase in laser vision correction procedures, compared to the first quarter of 2000. The increase in laser vision correction procedures mainly resulted from our new fixed-site laser services agreements. We also experienced a 10% increase in the number of cataract surgery procedures performed in our facilities, compared to the three months ended March 31, 2000. Management services net revenue increased 16.5% from \$16.6 million to \$19.4 million. The increase in management services revenue was primarily a result of overall increases in laser vision correction, cataract and other ophthalmic procedures performed by our affiliated eye care professionals as well as new affiliations with eye care professionals. Product sales revenue increased 37.9% from \$5.0 million to \$6.9 million, reflecting strong product demand and revenue contributed by our eye care marketing products and services group that we acquired in May, 2000.

Salaries, Wages and Benefits. Salaries, wages and benefits expense increased 19% from \$11.8 million to \$14.0 million. As a percentage of revenue, salaries, wages and benefits expense increased from 37.3% to 38.0%. The absolute increase in salaries, wages and benefits expense primarily reflects costs associated with increased staffing levels to accommodate organic procedure volume growth, along with increased costs as a result of new acquisitions and affiliations.

Edgar Filing: NOVAMED EYECARE INC - Form 10-Q

Cost of Sales and Medical Supplies. Cost of sales and medical supplies expense increased 20.0% from \$8.2 million to \$9.8 million. As a percentage of revenue, cost of sales and medical supplies expense increased to 26.7% from 25.9%, the result of increased sales in our low margin Optical Product Sales business. The absolute increase in cost of sales and medical supplies expense is primarily attributable to the higher volumes at our Optical Product Sales business, along with costs incurred at new acquisitions and affiliations. Supply costs associated with the increase in laser vision correction and cataract procedures also contributed to the absolute increase during the period.

8

Selling, General and Administrative. Selling, general and administrative ("SG&A") expense increased 11.4% from \$7.2 million to \$8.0 million. As a percentage of revenue, SG&A expense decreased from 22.8% to 21.8%. The absolute increase in SG&A expense related primarily to costs incurred at new acquisitions and affiliations, specifically increased rent and insurance expense. Selling and marketing expenses decreased 12.5% from the first quarter of 2000.

Depreciation and Amortization. Depreciation and amortization expense increased 31.7% from \$1.7 million to \$2.2 million. Acquisitions, affiliations and increased capital expenditures have increased overall depreciation and amortization expense.

Other Expense. Other expense increased from \$175,000 to \$715,000. The increase in other expense was primarily related to an increase in interest expense as a result of higher average outstanding indebtedness during the first quarter of 2001 as compared to the 2000 period. We also recognized \$130,000 as our share of losses incurred at a laser vision correction center that we operate through a joint venture.

Provision for Income Taxes. Our effective tax rate reflects the impact of nondeductible goodwill amortization expense. Our effective tax rate increased slightly to 42.5% from 42.3%.

Liquidity and Capital Resources

Net cash provided by operating activities during the first quarter, 2001 increased \$185,000 over the comparable 2000 period to \$1.92 million. The Company used \$631,000 of cash for investing activities during the first three months of 2001, primarily for the purchase of equipment. During the first three months of 2001, the Company's net borrowings under its revolving credit line decreased slightly from the December 31, 2000 level. At March 31, 2001, the Company had working capital of \$25.6 million.

On June 28, 2000, the Company entered into a three-year, \$50 million revolving credit agreement, replacing its previously existing agreement. Interest on borrowings under the credit agreement is payable at an annual rate equal to our lender's published base rate plus the applicable borrowing margin ranging from 0 to 0.75% or LIBOR plus a range from 1.5% to 2.25%, varying upon our ability to meet financial covenants. The weighted average interest rate on credit line borrowings for the three months ended March 31, 2001 was approximately 7.9%. The credit agreement contains covenants that include limitations on indebtedness, liens, capital expenditures, acquisitions and affiliations and ratios that define borrowing availability and restrictions on the payment of dividends. As of March 31, 2001, we were in compliance with all of our credit agreement covenants. We had \$24 million available on our line of credit as of March 31, 2001. We also had \$2 million of cash available at that date.

We expect that our funds from operations, our cash and our access to bank

Edgar Filing: NOVAMED EYECARE INC - Form 10-Q

credit lines will be sufficient to fund our operations and capital expenditures for at least the next 12 months. Our future capital requirements and the adequacy of available funds will depend on many factors, including the timing of our acquisition activities, new affiliations with eye care professionals, capital requirements associated with our surgical facilities, expansions and the future cost of surgical equipment.

On June 15, 2000, we entered into an agreement to acquire two ASCs, contingent upon the resolution of certain requirements associated with the seller (the "Contingencies"). Certain of these Contingencies were satisfied in 2000 with respect to one of the ambulatory surgery centers, which we acquired in December 2000. Upon the resolution of the Contingencies affecting the other ambulatory surgery center and other conditions to closing, which could occur by May 31, 2001, we will be required to purchase the other ambulatory surgery center for approximately \$9.3 million in cash consideration. We may elect to fund up to approximately \$2.3 million of this purchase price in the form of common stock. This transaction is excluded from the acquisition limitations of the new Credit Agreement discussed above.

One of our affiliated eye care professionals has the option, exercisable through November 1, 2002, to acquire up to a 25% interest in one of our ASCs.

Effective March 1, 2001, we entered into a new five-year supply agreement with Alcon Laboratories, Inc. setting forth the terms upon which we can procure and utilize excimer lasers manufactured by Alcon. This agreement amended and superseded our previous agreement originally entered into with Summit Technology, Inc., which was acquired by Alcon in 2000. During the five-year term, we will pay Alcon monthly based on the number of procedures performed on

9

each of our APEX/Infinity lasers and LADARVision Systems. We are required to pay for a minimum number of annual procedures on each LADARVision System during the five-year term, whether or not these procedures are performed. As of March 31, 2001, we have entered into commitments to pay Alcon up to approximately \$1.4 million annually during the five-year term. The minimum commitment will increase as additional laser systems are deployed.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS. This Form 10-Q contains certain forward-looking statements that reflect our current expectations about our future results of operations, performance and achievements. When used in the Form 10-Q, the words "anticipates," "believes," "estimates," "plans," "intends," and similar expressions, as they relate to us or our management, are intended to identify such forward-looking statements. These forward-looking statements reflect our current beliefs and are based on information currently available to us. Accordingly, these statements are subject to certain risks, and uncertainties which could cause our actual results, performance or achievements in 2001 and beyond to differ materially from those expressed in, or implied by, such statements. These risks and uncertainties include: our ability to acquire, develop and manage profitable surgical facilities; the acceptance of laser vision correction and other refractive surgical procedures by eye care professionals and the general public; our ability to establish and maintain profitable affiliations with eye care professionals; the adoption of competing new technologies for eye surgical procedures, including vision correction surgery; reductions in prices and reimbursement rates for surgical procedures, including prices for laser vision correction procedures; the application of existing or proposed government regulations; and our failure to grow or manage our growth. See "Management's Discussion and Analysis of Financial Conditions and Results of Operations - Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2000 for further discussion. We undertake no

Edgar Filing: NOVAMED EYECARE INC - Form 10-Q

obligation to update or revise any such forward-looking statements that may be made to reflect events or circumstances after the date of this Form 10-Q or to reflect the occurrence of unanticipated events.
