Item 2.02. Results of Operations and Financial Condition.

Edgar Filing: ANTHRACITE CAPITAL INC - Form 8-K

On August 8, 2007, Anthracite Capital, Inc. (the “Company”) issued a press release announcing its earnings for the quarterly period ended June 30, 2007, a copy of which it is furnishing under this Item 2.02 as Exhibit 99.1.

Item 8.01. Other Events.

The Company reported the following results on August 8, 2007:

The Company today reported net income available to common stockholders for the second quarter of 2007 of \$0.34 per share compared to \$0.29 per share for the same three-month period in 2006. For the six months ended June 30, 2007, net income available to common stockholders was \$0.76 per share, compared to net income available to common stockholders of \$0.62 per share for the six months ended June 30, 2006. (All currency amounts discussed herein are in thousands, except share and per share amounts. All per share information is presented on a diluted basis.)

Based on the \$0.30 per share dividend paid on July 31, 2007, and the August 7, 2007 closing price of \$7.17, Anthracite’s annualized dividend yield is 16.7%.

Chris Milner, Chief Executive Officer of the Company, stated, “The recent turmoil in the credit markets is causing extreme volatility in the financial sector led by significant deterioration in the subprime residential mortgage market. As previously stated, Anthracite has not invested any of its capital in the subprime or Alt-A segments of the residential mortgage market. Given our focus on the commercial real estate sector and the substantial capital raised during the second quarter, our portfolio continues to be well positioned. In addition, the Company redeemed \$25,000 of its investment in BlackRock Diamond creating further liquidity and monetizing its profits from that investment”

Mr. Milner continued, “To date, credit performance of the Company’s investments remains consistent both with our expectations and with the broader commercial real estate finance industry experience; nevertheless, during the third quarter the capital markets are marking down the value of all credit sensitive securities regardless of performance. As a result, the Company has taken further steps to bolster its cash position. We have sold a portion of the high credit quality, liquid securities owned as part of our long-held strategy of supporting adequate cash balances. Additionally, the Company has requested the redemption of its remaining investment in BlackRock Diamond at its September 30, 2007 net asset value. We expect the proceeds of this redemption will be approximately \$100 million and would be received in October 2007. We have earned much higher than expected returns from the Diamond investment and now believe that opportunities have become more attractive in commercial real estate debt. While the additional cash is not needed for liquidity purposes at this time, we believe having more cash on hand will provide an additional measure of balance sheet strength while also allowing Anthracite to make opportunistic investments in the commercial real estate markets.”

Commercial Real Estate Investment Activity

During the second quarter of 2007, the Company purchased a total of \$536,224 of commercial real estate assets, which included \$401,850 of non-U.S. dollar denominated assets. Commercial real estate assets purchased consisted of \$160,150 of commercial mortgage-backed securities (“CMBS”) and \$376,074 of commercial real estate loans. The Company redeemed \$25,000 of its \$125,915 investment in BlackRock Diamond Property Fund, Inc. (“BlackRock Diamond”) based on the June 30, 2007 net asset value. The proceeds from this redemption were received in July 2007.

As previously mentioned, the Company sold a portion of its high credit quality, liquid securities subsequent to June 30, 2007. Due to higher Treasury rates since the time of purchase, these sales generated a loss, which for accounting purposes, will be reported in the statement of operations for the third quarter of 2007. In connection with the sale of the assets, the Company also closed out several interest rate swaps at a gain. The swaps were hedging portions of the Company’s floating-rate liabilities incurred to hold these assets. As such, gains may be recognized in the third quarter of 2007 or over the remaining life of the swap.

Capital Markets Activity

Short and Long-Term Liabilities:

During the second quarter of 2007, the Company issued €50,000 junior subordinated notes due in 2022. The notes bear interest at a rate equal to 3-month Euribor plus 2.6%. The notes can be redeemed in whole by the Company subject to certain provisions. The net proceeds from this issuance were used to provide currency-matched capital to fund the Company's growing investment activity in the European markets.

During the second quarter of 2007, the Company issued \$87,500 of senior unsecured notes due in 2017. The notes bear interest at a weighted average fixed rate of 7.925% until July 2012 and thereafter at a rate equal to 3-month Libor plus 2.55%. The senior unsecured notes can be redeemed in whole by the Company subject to certain provisions, which could include the payment of fees. The net proceeds of this transaction were used by the Company to finance its commercial real estate strategies.

During the second quarter of 2007, the Company issued an additional collateralized debt obligation bond, which had previously been retained, for \$12,399, at a cost of funds equal to 7.89%.

On July 20, 2007, the Company entered into a \$200,000 committed U.S. dollar facility with Bank of America, N.A. which matures in January 2009. Outstanding borrowings under this credit facility bear interest at a LIBOR based variable rate.

On July 20, 2007, the Company amended its \$200,000 committed non-U.S. dollar credit facility with Morgan Stanley Mortgage Servicing, Inc. which matures in February 2008. The amendment increases the committed facility to \$300,000. The amendment also allows for borrowings in Japanese Yen to fund the Company's Yen asset acquisitions. Outstanding borrowings under this credit facility bear interest at a LIBOR based variable rate.

Equity Issuances:

On June 12, 2007, the Company completed a follow-on offering of 5,750,000 shares of its common stock, par value \$0.001 per share, at a price of \$11.75, which included a 15% option to purchase additional shares exercised by the underwriter. Net proceeds (after deducting underwriting fees and expenses) were approximately \$64,033.

During the second quarter of 2007, the Company issued 53,689 shares of common stock under a sales agency agreement and its Dividend Reinvestment and Stock Purchase Plan. Net proceeds to the Company were approximately \$631.

Richard Shea, President and Chief Operating Officer of the Company, stated, "During the second quarter, the Company issued over \$165,000 of long-term debt and \$65,000 of common equity. These transactions provided the Company with the liquidity needed to address the dislocation in the market and potentially to take advantage of opportunities. In addition, the majority of the Company's assets are financed in match-funded collateralized debt obligations which are not subject to mark to market risk. Therefore, market repricing of these bonds cannot lead to margin calls and does not affect the Company's cash position. As of June 30, 2007, less than 10% of the Company's assets are CMBS that are not match-funded. This structure provides a significant amount of stability in a volatile market."

Second Quarter Financial Summary

- Income from commercial real estate assets increased by \$17,929, or 24.3%, from the quarter ended June 30, 2006 primarily due to continued portfolio growth.
- Income from the Company's investment in BlackRock Diamond was \$8,430, consisting of \$69 of current income and \$8,361 of unrealized gains on the underlying portfolio assets. For the six months ended June 30, 2007, the Company recorded \$14,400 of income, consisting of \$282 of current income and \$14,118 of unrealized gains on the underlying portfolio assets.

2

- Book value per share decreased from \$10.35 at December 31, 2006 to \$10.14 at June 30, 2007.
- The Company's recourse debt-to-capital ratio increased to 1.8:1 at June 30, 2007 from 1.7:1 at December 31, 2006 due to additional borrowings under the Company's committed facilities and the issuance of junior and senior unsecured notes. The Company's overall debt-to-capital ratio decreased to 5.6:1 at June 30, 2007 from 6.4:1 at December 31, 2006. The decrease was primarily attributable to the issuance of the common and Series D preferred stock.
- Weighted average cost of funds of 6.1% at June 30, 2007 is consistent with the same period in 2006.
- Exposure to a 50 basis point move in short-term interest rates remains at less than \$0.01 per share at June 30, 2007.

Commercial Real Estate Securities

During the second quarter of 2007, the Company purchased \$160,150 of commercial real estate securities, including \$151,694 of non-U.S. dollar denominated securities.

Commercial Real Estate Loans

During the second quarter of 2007, the Company purchased \$376,074 of commercial real estate loans. These purchases were comprised of two U.S. dollar denominated commercial real estate loans with a total cost of \$125,918 and a principal balance of \$125,906, seven Euro denominated commercial real estate loans with a total cost of €149,214 (\$200,917) and a principal balance totaling €151,200, and one British Pound Sterling denominated loan with a cost of £24,822 (\$49,239) and a principal balance of £25,000. During the quarter ended June 30, 2007, the Company received repayments of commercial real estate loans in the aggregate amount of \$146,657.

Also included in commercial real estate loans are the Company's investments in Carbon Capital, Inc. ("Carbon I") and Carbon Capital, II, Inc. ("Carbon II", and collectively with Carbon I, the "Carbon Capital Funds"). For the quarters ended June 30, 2007 and 2006, the Company recorded income from the Carbon Capital Funds of \$3,983 and \$3,519, respectively. Carbon II increased its investment in U.S. commercial real estate loans by originating seven loans for a total investment of \$139,200 and a commercial real estate security for \$25,000 during the second quarter of 2007. Paydowns in the Carbon Capital Funds during the quarter totaled \$198,432. As loans are repaid or sold, Carbon II has redeployed capital into acquisitions of additional loans for the portfolio. The Carbon I investment period has expired and no new portfolio additions will occur.

The Company's investments in the Carbon Capital Funds were as follows:

Edgar Filing: ANTHRACITE CAPITAL INC - Form 8-K

	June 30, 2007	December 31, 2006
Carbon I	\$ 4,002	\$ 3,144
Carbon II	84,880	69,259
	\$ 88,882	\$ 72,403

Commercial Real Estate Credit Risk

At June 30, 2007, all commercial real estate loans owned directly by the Company and through its investments in the Carbon Capital Funds were performing in line with expectations.

The Company considers CMBS where it maintains the right to control the foreclosure/workout process on the underlying loans as controlling class CMBS (“Controlling Class CMBS”). The Company did not acquire any U.S. dollar denominated Controlling Class CMBS during the quarter but did acquire one Canadian dollar denominated Controlling Class CMBS transaction during the second quarter of 2007. The Company owned 34 Controlling Class CMBS transactions at June 30, 2007 with an aggregate underlying principal balance of \$47,165,332. Delinquencies of 30 days or more on these loans as a percent of current loan balances were 0.34% at June 30, 2007, compared with 0.39% at December 31, 2006.

3

At June 30, 2007, due to changes in timing of assumed credit losses and prepayments, three CMBS required an impairment charge totaling \$1,579. The Company increased its underlying loss expectations for one below investment grade European CMBS, resulting in an impairment charge of \$1,321. During the quarter ended June 30, 2007, 45 of the Company’s Controlling Class CMBS with an aggregate adjusted purchase price of \$159,637 experienced a weighted average yield increase of 68 basis points and 22 Controlling Class CMBS with an aggregate adjusted purchase price of \$176,960 experienced a weighted average yield decrease of nine basis points.

During the three months ended June 30, 2007, seven securities in two of the Company’s Controlling Class CMBS transactions were upgraded by at least one rating agency and one was downgraded. Additionally, at least one rating agency upgraded 21 of the Company’s non-Controlling Class commercial real estate securities and three were downgraded during the three months ended June 30, 2007.

Commercial Real Estate

For the quarter ended June 30, 2007, the Company recorded \$8,430 of income, consisting of \$69 of current income and \$8,361 of unrealized gains on the underlying portfolio assets for its investment in BlackRock Diamond. This represented a yield of 19.5% for the twelve months ended June 30, 2007.

At June 30, 2007, BlackRock Diamond’s portfolio consisted of 57 assets with a total estimated market value of approximately \$978,039. BlackRock Diamond is managed by a subsidiary of Anthracite’s Manager and all financial information utilized herein with respect to BlackRock Diamond was reported to the Company by BlackRock Diamond.

Summary of Commercial Real Estate Assets

A summary of the Company’s commercial real estate assets with estimated fair values in local currencies and U.S. dollars at June 30, 2007 is as follows:

	Commercial Real Estate Securities	Commercial Real Estate Loans	Commercial Real Estate Equity	Commercial Mortgage Loan Pools	Total Commercial Real Estate Assets	Total Commercial Real Estate Assets (USD)

The Company has an investment in a commercial real estate development fund investing in India. At June 30, 2007, total capital committed was \$11,000, of which \$6,050 had been drawn. The entity conducts its operations in the local currency, Indian Rupees.

The Company has foreign currency exposure related to its non-U.S. dollar denominated assets. The Company's primary currency exposures are to the Euro, British Pound Sterling and Canadian Dollars. Changes in currency rates can adversely impact the estimated fair value and earnings of the Company's non-U.S. holdings. The Company mitigates this impact by utilizing local currency-denominated financing for its foreign investments and foreign currency forward commitments and currency swaps to hedge its net foreign currency exposure. For the three and six months ended June 30, 2007, the Company recorded net foreign currency gains of \$1,371 and \$2,855, respectively. For the three and six months ended June 30, 2006, the Company recorded net foreign currency gains of \$271 and \$315, respectively.

Book Value

Net book value per share at June 30, 2007 was \$10.14. This was a decrease of 2.0% from \$10.35 at December 31, 2006, and an increase of 2.8% from \$9.86 at June 30, 2006. This represented a total

4

return, including dividends paid, of 2.9% and 12.9%, respectively, for the six and twelve months ended June 30, 2007. While the Company's recent vintage CMBS did experience spread widening in the current market environment, the effect was partially offset by the performance of the Company's seasoned vintages. Therefore, the effect of higher Treasury rates was the main reason for the reduction in book value.

The Company calculates book value per share based on a liquidation value calculation. Below is a calculation of book value per share at June 30, 2007 and 2006, as well as at December 31, 2006 and March 31, 2007.

As previously announced, if you are a participant in the Company's Dividend Reinvestment and Stock Purchase Plan (the "Plan"), please note that the dividend reinvestment portion of the Plan has been reinstated for all dividend payments made after September 8, 2006, and for all future dividend payment dates, with a discount of 2%. The optional cash purchase portion of the Plan also has been reinstated for all investment periods commencing after October 1, 2006, with a discount of 1%.

During the three months ended June 30, 2007, the Company issued 17,689 shares under the Plan at a collective weighted average issuance price of \$11.73 per share. The optional cash portion of the Plan allowed participants to invest up to \$20,000 per month at a 1% discount. The optional cash portion of the Plan represents 6,455 of the shares that were issued during the quarter under the Plan. The remaining 11,234 shares issued under the Plan during the quarter are attributable to the dividend reinvestment portion of the Plan.
