PART I

ITEM 1. BUSINESS

THE COMPANY

GENERAL

First Industrial Realty Trust, Inc. is a Maryland corporation organized on August 10, 1993, and is a real estate investment trust ("REIT") under Sections 856 through 860 of the Internal Revenue Code of 1986, as amended (the "Code"). First Industrial Realty Trust, Inc. and its consolidated partnerships and limited liability companies (the "Company") is a self-administered and fully integrated real estate company which owns, manages, acquires, sells and develops industrial real estate. The Company completed its initial public offering in

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

June 1994 (the "Initial Offering"). Upon consummation of the Initial Offering, the Company owned 226 industrial properties which contained an aggregate of 17.4 million square feet of gross leasable area ("GLA"). As of December 31, 2000, the Company's portfolio consisted of 516 light industrial properties, 162 bulk warehouse properties, 164 R&D/flex properties, 85 regional warehouse properties and 42 manufacturing properties containing approximately 68.2 million square feet of GLA located in 25 states.

The Company's interests in its properties and land parcels are held through partnerships controlled by the Company, including First Industrial, L.P. (the "Operating Partnership"), of which the Company is the sole general partner, as well as, among others, First Industrial Financing Partnership, L.P., First Industrial Securities, L.P. (the "Securities Partnership"), First Industrial Mortgage Partnership, L.P., First Industrial Pennsylvania, L.P., First Industrial Harrisburg, L.P., First Industrial Indianapolis, L.P., First Industrial Development Services, L.P. and TK-SV, LTD., of which the sole general partner of each is a wholly-owned subsidiary of the Company, and the sole limited partner of each is the Operating Partnership, as well as limited liability companies of which the Operating Partnership is the sole member. The Company is also the majority economic stockholder of FR Development Services, Inc. The Company, through separate wholly-owned limited liability companies of which the Operating Partnership is the sole member, also owns 10% equity interests in, and provides asset and property management services to, two joint ventures which invest in industrial properties.

The Company utilizes an operating approach which combines the effectiveness of decentralized, locally based property management, acquisition, sales and development functions with the cost efficiencies of centralized acquisition, sales and development support, capital markets expertise, asset management and fiscal control systems. At March 2, 2001, the Company had 283 employees.

The Company has grown and will seek to continue to grow through the development of industrial properties and acquisition of additional industrial properties.

BUSINESS OBJECTIVES AND GROWTH PLANS

The Company's fundamental business objective is to maximize the total return to its stockholders through increases in per share distributions and increases in the value of the Company's properties and operations. The Company's growth plan includes the following elements:

- Internal Growth. The Company seeks to grow internally by (i) increasing revenues by renewing or re-leasing spaces subject to expiring leases at higher rental levels; (ii) increasing occupancy levels at properties where vacancies exist and maintaining occupancy elsewhere; (iii) controlling and minimizing property operating and general and administrative expenses; (iv) renovating existing properties; and (v) increasing ancillary revenues from non-real estate sources.
- External Growth. The Company seeks to grow externally through (i) the development of industrial properties; (ii) the acquisition of portfolios of industrial properties, industrial property businesses or individual properties which meet the Company's investment parameters and geographic target markets; and (iii) the expansion of its properties.

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

BUSINESS STRATEGIES

The Company utilizes the following six strategies in connection with the operation of its business:

- Organization Strategy. The Company implements its decentralized property operations strategy through the use of experienced regional management teams and local property managers. Each operating region is headed by a managing director, who is a senior executive officer of, and has an equity interest in, the Company. The Company provides acquisition, development and financing assistance, asset management oversight and financial reporting functions from its headquarters in Chicago, Illinois to support its regional operations. The Company believes the size of its portfolio enables it to realize operating efficiencies by spreading overhead over many properties and by negotiating quantity purchasing discounts.
- Market Strategy. The Company's market strategy is to concentrate on the top 25 industrial real estate markets in the United States. These 25 markets were selected based upon (i) the strength of their industrial real estate fundamentals, including increased industrial demand expectations from e-commerce and supply chain management; (ii) their history and future outlook for continued economic growth and diversity; and (iii) a minimum market size of 100 million square feet of industrial space. Due to this market strategy, the Company plans on exiting the markets of Cleveland, Columbus, Dayton, Des Moines, Grand Rapids, Long Island and New Orleans/Baton Rouge. The net proceeds from the sales of properties in these markets will be used to bolster the Company's holdings in Atlanta, Baltimore/Washington, Chicago, Cincinnati/Louisville, Dallas/Fort Worth, Denver, Detroit, Harrisburg/Central Pennsylvania, Houston, Indianapolis, Los Angeles, Milwaukee, Minneapolis, Nashville, Northern New Jersey, Philadelphia, Phoenix, Portland, Salt Lake City, St. Louis and Tampa and to potentially enter new markets which fit its market strategy. The Company plans on exiting these markets in the next one to three years and is projected to incur closing costs between the range of 3% to 5% of gross sales proceeds. There can be no assurance that these properties will be sold in this time frame or that the Company will incur closing costs within the range stated above.
- Disposition Strategy. As mentioned in the Market Strategy section above, the Company is planning to exit the markets of Cleveland, Columbus, Dayton, Des Moines, Grand Rapids, Long Island and New Orleans/Baton Rouge. The Company also continues to evaluate local market conditions and property-related factors in its other markets and will consider disposition of select assets.
- Acquisition/Development Strategy. The Company's acquisition/development strategy is to concentrate on the top 25 markets mentioned in the Market Strategy section above. The Company will use its Integrated Industrial Solutions TM capabilities to target these markets. Of the 969 properties in the Company's portfolio at December 31, 2000, 233 properties have been developed by either the Company or its former management. The Company will continue to leverage the development capabilities of its management, many of whom are leading developers in their respective markets.
- Financing Strategy. The Company plans on utilizing net sales proceeds from property sales as well as borrowings under its \$300 million unsecured line of credit to finance future acquisitions and developments. As of March 2, 2001, the Company had approximately \$28.9 million available in additional borrowings under its \$300 million unsecured line of credit.
- Leasing and Marketing Strategy. The Company has an operational management

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

strategy designed to enhance tenant satisfaction and portfolio performance. The Company pursues an active leasing strategy, which includes aggressively marketing available space, renewing existing leases at higher rents per square foot and seeking leases which provide for the pass-through of property-related expenses to the tenant. The Company also has local and national marketing programs which focus on the business and brokerage communities and national tenants.

RECENT DEVELOPMENTS

In 2000, the Company acquired or completed development of 110 properties, redeveloped two properties and acquired several parcels of land for a total investment of approximately \$471.5 million. The Company also sold 108 in-service properties, one property that was out of service and several parcels of land for a gross sales price of approximately \$433.7 million. At December 31, 2000, the Company owned 969 in-service properties containing approximately 68.2 million square feet of GLA.

FUTURE PROPERTY ACQUISITIONS, DEVELOPMENTS AND PROPERTY SALES

The Company has an active acquisition and development program through which it is continually engaged in identifying, negotiating and consummating portfolio and individual industrial property acquisitions and developments. As a result, the Company is currently engaged in negotiations relating to the possible acquisition and development of certain industrial properties located in certain of the Company's top 25 markets.

The Company also has an active sales program. As a result, the Company is currently engaged in negotiations relating to the possible sales of certain industrial properties in the Company's current portfolio.

When evaluating potential industrial property acquisitions and developments, as well as potential industrial property sales, the Company will consider such factors as: (i) the geographic area and type of property; (ii) the location, construction quality, condition and design of the property; (iii) the potential for capital appreciation of the property; (iv) the ability of the

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

Company to improve the property's performance through renovation; (v) the terms of tenant leases, including the potential for rent increases; (vi) the potential for economic growth and the tax and regulatory environment of the area in which the property is located; (vii) the potential for expansion of the physical layout of the property and/or the number of sites; (viii) the occupancy and demand by tenants for properties of a similar type in the vicinity; and (ix) competition from existing properties and the potential for the construction of new properties in the area.

INDUSTRY

Industrial properties are typically used for the design, assembly, packaging, storage and distribution of goods and/or the provision of services. As a result, the demand for industrial space in the United States is related to the level of economic output. Historically, occupancy rates for industrial property in the United States have been higher than those for other types of commercial property. The Company believes that the higher occupancy rate in the industrial property sector is a result of the construction-on-demand nature of, and the comparatively short development time required for, industrial property. For the five years ended December 31, 2000, the occupancy rates for industrial properties in the United States have ranged from 91.2%* to 93.3%*, with an occupancy rate of 93.3%* at December 31, 2000.

ITEM 2. THE PROPERTIES

GENERAL

At December 31, 2000, First Industrial owned 969 in-service properties containing approximately 68.2 million square feet of GLA in 25 states, with a diverse base of more than 2,800 tenants engaged in a wide variety of businesses, including manufacturing, retailing, wholesale trade, distribution and professional services. The properties are generally located in business parks which have convenient access to interstate highways and rail and air transportation. The weighted average age of the properties as of December 31, 2000 was approximately 14.7 years. The Company maintains insurance on its properties that the Company believes is adequate.

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

Light industrial, bulk warehouse, R&D/flex, regional warehouse and manufacturing. While some properties may have characteristics which fall under more than one property type, the Company uses what it feels is the most dominating characteristic to categorize the property. The following describes the different industrial categories:

- Light industrial properties generally are of less than 100,000 square feet, have a ceiling height of 16 to 21 feet, are comprised of 5% - 50% of office space, contain less than 50% of manufacturing space and have a land use ratio of 4:1. The land use ratio is the ratio of the total property area to that not occupied by the building.
- Bulk warehouse buildings generally are of more than 100,000 square feet, have a ceiling height of at least 22 feet, are comprised of 5% - 15% of office space, contain less than 25% of manufacturing space and have a land use ratio of 2:1.
- R&D/flex buildings generally are of less than 100,000 square feet, have a ceiling height of less than 16 feet, are comprised of 50% or more of office space, contain less than 25% of manufacturing space and have a land use ratio of 4:1.
- Regional warehouses generally are of less than 100,000 square feet, have a ceiling height of at least 22 feet, are comprised of 5% - 15% of office space, contain less than 25% of manufacturing space and have a land use ratio of 2:1.
- Manufacturing properties are a diverse category of buildings that generally have a ceiling height of 10 - 18 feet, are comprised of 5% - 15% of office space, contain less than 50% of manufacturing space and have a land use ratio of 4:1.

TENANT AND LEASE INFORMATION

The Company has a diverse base of more than 2,800 tenants engaged in a wide variety of businesses including manufacturing, retail, wholesale trade, distribution and professional services. Most leases have an initial term of between three and five years and provide for periodic rental increases that are either fixed or based on changes in the Consumer Price Index. Industrial tenants typically have net or semi-net leases and pay as additional rent their percentage of the property's operating costs, including the costs of common area maintenance, property taxes and insurance. As of December 31, 2000, approximately 95% of the GLA of the properties was leased, and no single tenant or group of related tenants accounted for more than .9% of the Company's rent revenues, nor did any single tenant or group of related tenants occupy more than 1.3% of the Company's total GLA as of December 31, 2000.

The following table shows scheduled lease expirations for all leases for the Company's properties as of December 31, 2000.

- (c) On May 16, 1997, the Company sold interest rate protection agreements relating to its \$300.0 million mortgage loan resulting in a gain of approximately \$1.4 million. The \$8.5 million loss on disposition of interest rate protection agreements for the year ended December 31, 1998 represents the Company's settlement, through the Operating Partnership, of an interest rate protection agreement that was scheduled to expire on January 4, 1999. This agreement was entered into in December 1997 in anticipation of 1998 senior unsecured debt offerings. Due to the changing market conditions and the Company's expectation that it would not issue debt securities associated with the interest rate protection agreement, the Company settled its position in the interest rate protection agreement.
- (d) In 1996, the Company terminated certain revolving credit facilities. The Company recorded an extraordinary loss of \$2.3 million which is comprised

of a prepayment fee, the write-off of unamortized deferred financing fees, legal costs and other expenses. In 1997, the Company terminated certain mortgage loans, an unsecured loan and a revolving credit facility and obtained a commitment to pay off and retire another mortgage loan. The Company recorded an extraordinary loss of \$14.1 million which is comprised of prepayment fees, the write-off of unamortized deferred financing fees, legal costs and other expenses.

Consistent with SOP 98-5, the Company reported a cumulative effect of a change in accounting principle in the amount of approximately \$2.0 million to reflect the write-off of the unamortized balance of organizational costs on the Company's balance sheet.

RESULTS OF OPERATIONS

COMPARISON OF YEAR ENDED DECEMBER 31, 2000 TO YEAR ENDED DECEMBER 31, 1999

At December 31, 2000, the Company owned 969 in-service properties with

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

approximately 68.2 million square feet of gross leasable area ("GLA"), compared to 967 in-service properties with approximately 67.0 million square feet of GLA at December 31, 1999. During 2000, the Company acquired 83 in-service properties containing approximately 5.8 million square feet of GLA and one property under redevelopment, completed development of 26 properties and redevelopment of two properties totaling approximately 4.1 million square feet of GLA and sold 108 in-service properties totaling approximately 9.2 million square feet of GLA, one out of service property and several land parcels. The Company also took three properties out of service that are under redevelopment, comprising approximately .1 million square feet of GLA and placed in service two properties comprising approximately .6 million square feet of GLA.

Rental income and tenant recoveries and other income increased \$11.9 million or 3.2%. The increase in rental income is primarily due to same store growth in rental income as well as an increase in the average GLA for the twelve months ended December 31, 2000 compared to December 31, 1999. The increase in tenant recoveries and other income is primarily due to an increase in property expenses as discussed below. Rental income and tenant recoveries and other income from properties owned prior to January 1, 1999 increased by approximately \$11.4 million or 4.1% due primarily to general rent increases and an increase in recoverable income due to an increase in property expenses as discussed below.

Property expenses, which include real estate taxes, repairs and maintenance, property management, utilities, insurance and other expenses increased by approximately \$10.0 million or 10.1% due primarily to increases in all property expense categories other than utilities. The increase in real estate tax expense is due primarily to an increase in average GLA for the year ended December 31, 2000 compared to the year ended December 31, 1999, as well as general increase in real estate taxes in many of the Company's markets. The increase in repairs and maintenance expense is due primarily to an increase in landscaping and maintenance expenses. The increase in property management expense is primarily due to the opening of a regional office in California in the third quarter of 1999 as well as general pay increases. Insurance expense increased due primarily to an increase in average GLA in 2000 compared to 1999 as well as rate increases. Other expense increased due primarily to an increase in master lease payments associated with certain properties during the year ended December 31, 2000 compared to the year ended December 31, 1999. Property expenses from properties owned prior to January 1, 1999 increased \$5.5 million or 7.2% due primarily to the explanations above.

General and administrative expense increased by approximately \$3.9 million due primarily to general pay increases and additional employees.

30

32

Interest expense increased by approximately \$4.1 million for the year ended December 31, 2000 compared to the year ended December 31, 1999. The increase is primarily due to an increase in the weighted average interest rate for the year ended December 31, 2000 (7.32%) compared to the year ended December 31, 1999 (7.16%) and an increase in the average debt balance outstanding. The average debt balance outstanding for the year ended December 31, 2000 and 1999 was approximately \$1,226.6 million and \$1,201.8 million, respectively.

Amortization of deferred financing costs increased by approximately \$.4 million due primarily to amortization of additional deferred financing costs relating to the Company's \$300.0 million unsecured line of credit (the "1997 Unsecured Acquisition Facility") and the Company's 2000 Unsecured Acquisition Facility (defined below), which amended and restated the 1997 Unsecured Acquisition Facility.

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

Depreciation and other amortization decreased by approximately \$1.4 million due primarily to the Company ceasing depreciation and amortization on properties it considers held for sale as well as due to properties sold subsequent to December 31, 1998. This decrease is offset by depreciation and amortization related to properties acquired or developed subsequent to December 31, 1998.

The valuation provision on real estate held for sale of \$2.9 million for the year ended December 31, 2000 represents a valuation provision on the Company's exit market portfolio in Grand Rapids, Michigan.

The \$29.3 million gain on sale of real estate for the year ended December 31, 2000 resulted from the sale of 109 industrial properties and several land parcels. Gross proceeds from these sales were approximately \$433.7 million.

The \$29.8 million gain on sale of real estate for the year ended December 31, 1999 resulted from the sale of 56 industrial properties and several land parcels. Gross proceeds from these sales were approximately \$245.8 million.

COMPARISON OF YEAR ENDED DECEMBER 31, 1999 TO YEAR ENDED DECEMBER 31, 1998

At December 31, 1999, the Company owned 967 in-service properties with approximately 67.0 million square feet of GLA, compared to 988 in-service properties with approximately 69.4 million square feet of GLA at December 31, 1998. During 1999, the Company acquired 19 in-service properties containing approximately 1.4 million square feet of GLA and two properties under redevelopment, completed development of 19 properties and expansion of one property totaling approximately 3.1 million square feet of GLA and sold 56 properties totaling approximately 6.2 million square feet of GLA and several land parcels. The Company also took three properties out of service that are under redevelopment, comprising approximately .7 million square feet of GLA.

Rental income and tenant recoveries and other income increased by approximately \$24.5 million or 7.0% due primarily to an increase in average GLA for the year ended December 31, 1999 as compared to the year ended December 31, 1998 and an increase in same store revenue. Also, approximately \$1.5 million of this increase is due to additional acquisition, asset management and property management fees received from two industrial real estate joint ventures in fiscal year 1999. Rental income and tenant recoveries and other income from properties owned prior to January 1, 1998, increased by approximately \$7.7 million or 3.1% due primarily to rental rate increases and an increase in tenant recovery income charges related to the increase in operating expenses as discussed below.

Property expenses, which include real estate taxes, repairs and maintenance, property management, utilities, insurance and other expenses, decreased by approximately \$.5 million or .5% due primarily to a decrease in property management expense and a decrease in other expenses, offset by an increase in real estate taxes, repairs and maintenance and utilities expense due to an increase in average GLA for the year ended December 31, 1999 as compared to the year ended December 31, 1998. The majority of the decrease in property management expense is due to a decrease in the operational costs of the regional offices that manage the Company's properties primarily due to a reduced employee headcount. The majority of the decrease in other expense is due to a decrease in the provision for bad debts. Expenses from properties owned prior to January 1, 1998, increased by approximately \$.6 million or .9% due primarily to an increase in snow removal and related expenses incurred during the year ended December 31, 1999 as compared to the year ended December 31, 1998 for properties located in certain of the Company's metropolitan areas.

General and administrative expense increased by approximately \$.3 million due primarily to the adoption of Emerging Issues Task Force Issue No. 97-11,

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

"Accounting for Internal Costs Relating to Real Estate Acquisitions"

31

33

("EITF 97-11"). EITF 97-11, effective March 19, 1998, required that internal costs of preacquisition activities incurred in connection with the acquisition of an operating property be expensed as incurred. Prior to March 19, 1998, the Company capitalized internal costs of preacquisition activities incurred in connection with the acquisition of operating properties.

Interest expense increased by approximately \$8.0 million for the year ended December 31, 1999 compared to the year ended December 31, 1998 due primarily to a higher average debt balance outstanding resulting from the issuance of unsecured debt to fund the acquisition and development of additional properties, slightly offset by an increase in capitalized interest for the year ended December 31, 1999 due to an increase in development activities. The average debt balances outstanding for the years ended December 31, 1999 and 1998 were approximately \$1,201.8 million and \$1,058.4 million, respectively.

Amortization of deferred financing costs increased by approximately \$.5 million due primarily to amortization of deferred financing costs relating to the issuance of additional senior unsecured debt to fund the acquisition and development of additional properties.

Depreciation and other amortization increased by approximately \$4.6 million due primarily to the additional depreciation and amortization related to the properties acquired or developed after December 31, 1997.

The \$11.9 million restructuring and abandoned pursuit costs charge for the year ended December 31, 1998 represents a charge in connection with the Company's restructuring, including approximately \$6.9 million in severance costs (of which approximately \$1.2 million is non-cash relating to immediate vesting of restricted stock) and approximately \$5.0 million in costs related to abandoned acquisitions.

Equity in income of joint ventures increased by approximately \$.3 million for the year ended December 31, 1999 compared to the year ended December 31, 1998. This increase is due to a full year of operations of one of the Company's two industrial real estate joint ventures as opposed to a partial year of operations in 1998 and the start-up of the other one of the Company's industrial real estate joint ventures.

The \$8.5 million loss on disposition of interest rate protection agreements for the year ended December 31, 1998 represents the Company's settlement, through the Operating Partnership, of an interest rate protection agreement which was scheduled to expire on January 4, 1999. This agreement was entered into in December 1997 in anticipation of 1998 senior unsecured debt offerings. Due to the changing market conditions and the Company's expectation that it would not issue debt securities associated with the interest rate protection agreement, the Company settled its position in the interest rate protection agreement.

The \$29.8 million gain on sale of real estate for the year ended December 31, 1999 resulted from the sale of 56 industrial properties and several land parcels. Gross proceeds from these sales were approximately \$245.8 million.

The \$5.3 million gain on sale of real estate for the year ended December 31, 1998 resulted from the sale of 41 industrial properties and several land

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

parcels. Gross proceeds from these sales were approximately \$99.9 million.

The \$2.0 million cumulative effect of change in accounting principle for the year ended December 31, 1998 is the result of the write-off of the unamortized balance of organizational costs on the Company's balance sheet due to the early adoption of Statement of Position 98-5, "Reporting on the Costs of Start-Up Activities" (SOP 98-5). SOP 98-5 requires that the net unamortized balance of all start-up costs and organizational costs be written off as a cumulative effect of a change in accounting principle and all future start-up costs and organizational costs be expensed.

LIQUIDITY AND CAPITAL RESOURCES

At December 31, 2000, the Company's cash and cash equivalents were approximately \$7.7 million and restricted cash was approximately \$24.2 million. Included in restricted cash are approximately \$1.2 million of cash reserves required to be set aside under the Company's \$40.0 million mortgage loan (the "1995 Mortgage Loan") for payments of security deposit refunds, tenant improvements, capital expenditures, interest, real estate taxes and insurance. The portion of the cash reserve relating to payments for capital expenditures, interest, real estate taxes and insurance for properties collateralizing the 1995 Mortgage Loan is established monthly, distributed to the Company as such

32

34

expenditures are made and is replenished to a level adequate to make the next periodic payment of such expenditures. The portion of the cash reserve relating to security deposit refunds for the tenants occupying the properties collateralizing the 1995 Mortgage Loan is adjusted as tenants turn over. Also included in restricted cash is approximately \$23.0 million of gross proceeds from the sales of certain properties. These sales proceeds will be disbursed as the Company exchanges into properties under Section 1031 of the Internal Revenue Code.

YEAR ENDED DECEMBER 31, 2000

Net cash provided by operating activities of approximately \$160.2 million for the year ended December 31, 2000 was comprised primarily of net income before minority interest of approximately \$134.3 million, adjustments for non-cash items of approximately \$44.5 million offset by the net change in operating assets and liabilities of approximately \$18.6 million. The adjustments for the non-cash items of approximately \$44.5 million are primarily comprised of depreciation and amortization of approximately \$72.3 million, a valuation provision on real estate held for sale on a portfolio of properties located in Grand Rapids, Michigan of approximately \$2.9 million and a provision for bad debts of approximately \$1.1 million, offset by the gain on sale of real estate of approximately \$29.3 million and the effect of the straight-lining of rental income of approximately \$1.5 million.

Net cash used in investing activities of approximately \$87.3 million for the year ended December 31, 2000 was comprised primarily of the acquisition of real estate, development of real estate, capital expenditures related to the expansion and improvement of existing real estate and an increase in restricted cash from sales proceeds deposited with an intermediary for Section 1031 exchange purposes, offset by the net proceeds from the sale of real estate, distributions from the Company's two industrial real estate joint ventures and

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

the repayment of mortgage loans receivable.

Net cash used in financing activities of approximately \$67.8 million for the year ended December 31, 2000 was comprised primarily of repayments on mortgage loans payable, the purchase of treasury shares and restricted stock, the purchase of U.S. Government securities used as substitute collateral to execute a legal defeasance of a portion of the 1995 Mortgage Loan, common and preferred stock dividends and unit distributions and debt issuance costs incurred in conjunction with the 2000 Unsecured Acquisition Facility (defined below), offset by the net borrowings under the Company's lines of credit and net proceeds from the exercise of employee stock options.

YEAR ENDED DECEMBER 31, 1999

Net cash provided by operating activities of approximately \$176.9 million for the year ended December 31, 1999 was comprised primarily of net income before minority interest of approximately \$142.4 million and adjustments for non-cash items of approximately \$36.0 million, offset by the net change in operating assets and liabilities of approximately \$1.5 million. The adjustments for the non-cash items of approximately \$36.0 million are primarily comprised of depreciation and amortization of \$69.8 million, offset by the gain on sale of real estate of \$29.8 million and the effect of the straight-lining of rental income of \$4.0 million.

Net cash used in investing activities of approximately \$10.0 million for the year ended December 31, 1999 was comprised primarily of the acquisition of real estate, development of real estate, capital expenditures related to the expansion and improvement of existing real estate, investment in the Company's two industrial real estate joint ventures and the funding of mortgage loans receivable, offset by the net proceeds from the sale of real estate, distributions from one of the Company's industrial real estate joint ventures, a decrease in restricted cash due to a reimbursement from one of the Company's escrows with a lender established for deferred maintenance, a decrease in restricted cash due to the use of restricted cash to purchase properties to affect Section 1031 exchanges and the repayment of mortgage loans receivable.

Net cash used in financing activities of approximately \$186.1 million for the year ended December 31, 1999 was comprised primarily of repayments on mortgage loans payable, common and preferred stock dividends and unit distributions and the net repayments under the 1997 Unsecured Acquisition Facility, offset by proceeds from the exercise of employee stock options.

33

35

YEAR ENDED DECEMBER 31, 1998

Net cash provided by operating activities of approximately \$149.1 million for the year ended December 31, 1998 was comprised primarily of net income before minority interest of approximately \$83.7 million and adjustments for non-cash items of approximately \$59.0 million and the net change in operating assets and liabilities of approximately \$6.4 million. The adjustments for the non-cash items of approximately \$59.0 million are primarily comprised of depreciation and amortization of \$66.5 million, a provision for bad debts of \$.6 million and the cumulative effect of a change in accounting principle of \$2.0 million due to the adoption of SOP 98-5, offset by the gain on sales of properties of \$5.4 million and the effect of the straight-lining of rental income of \$4.7 million.

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

Net cash used in investing activities of approximately \$535.6 million for the year ended December 31, 1998 was comprised primarily of the acquisition of real estate, development of real estate, capital expenditures related to the expansion and improvement of existing real estate, investment in one of the Company's industrial real estate joint ventures and an increase in restricted cash from sales proceeds deposited with an intermediary for Section 1031 exchange purposes, offset by the net proceeds from the sales of real estate and the repayment of mortgage loans receivable.

Net cash provided by financing activities of approximately \$395.1 million for the year ended December 31, 1998 was comprised primarily of the net proceeds from the issuance of common stock, preferred stock and senior unsecured debt, proceeds from the exercise of employee stock options, net borrowings under the 1997 Unsecured Acquisition Facility and a decrease in restricted cash which was used to pay down and retire the Company's \$300.0 million mortgage loan, offset by repayments of mortgage loans and common and preferred stock dividends and unit distributions.

RATIO OF EARNINGS TO FIXED CHARGES AND PREFERRED STOCK DIVIDENDS

The ratio of earnings to fixed charges and preferred stock dividends was 1.54, 1.62 and 1.43 for the years ended December 31, 2000, 1999 and 1998, respectively. The increase in earnings to fixed charges and preferred stock dividends between fiscal years 1999 and 1998 is primarily due to an increase in income from operations in fiscal year 1999 as compared to fiscal year 1998 due to a restructuring and abandoned pursuit costs charge and a loss from disposition of interest rate protection agreements incurred in 1998 as discussed in "Results of Operations" above. The decrease in earnings to fixed charges and preferred stock dividends between fiscal years 2000 and 1999 is primarily due to a decrease in income from operations in fiscal year 2000 as compared to fiscal year 1999 due to a valuation provision on real estate held for sale incurred in fiscal year 2000 as well as an increase in fixed charges resulting from an increase in interest expense due to an increase in the weighted average interest rate for the year ended December 31, 2000 compared to the year ended December 31, 1999 and an increase in the weighted average debt balance outstanding as discussed in "Results of Operations" above.

During the year ended December 31, 2000, the Company, through wholly-owned limited liability companies in which the Operating Partnership is the sole member, received, in the aggregate, approximately \$2.8 million in asset management and property management fees from two industrial real estate joint ventures. The Company, through wholly-owned limited liability companies in which the Operating Partnership is the sole member, received distributions of approximately \$.9 million from the two industrial real estate joint ventures. As of December 31, 2000, the two industrial real estate joint ventures owned 177 industrial properties comprising approximately 8.3 million square feet of GLA. On or after October 2000, under certain circumstances, the Company has the option of purchasing all of the properties owned by one of the joint ventures at a price to be determined in the future. The Company has not exercised this option.

MORTGAGE LOANS PAYABLE

In June 2000, the Company purchased approximately \$1.2 million of U.S. Government securities as substitute collateral to execute a legal defeasance of approximately \$1.2 million of the 1995 Mortgage Loan. The terms of the legal defeasance require the Company to use the gross proceeds from the maturities of the U.S. Government securities to paydown and subsequently retire the defeased portion of the 1995 Mortgage Loan in January 2003. The Company is carrying the defeased portion of the 1995 Mortgage Loan on its balance sheet until it pays down and subsequently retires the defeased portion of the 1995 Mortgage Loan in January 2003. Upon the execution of the legal defeasance, one of the 23 properties collateralizing the 1995 Mortgage Loan was released and subsequently sold.

ACQUISITION FACILITY PAYABLE

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

In June 2000, the Company amended and restated its 1997 Unsecured Acquisition Facility which gives the Company the right, subject to certain conditions, to increase the aggregate commitment up to \$400.0 million as well as extended the maturity of the 1997 Unsecured Acquisition Facility to June 30, 2003 (the "2000 Unsecured Acquisition Facility").

MARKET RISK

The following discussion about the Company's risk-management activities includes "forward-looking statements" that involve risk and uncertainties. Actual results could differ materially from those projected in the forward-looking statements.

This analysis presents the hypothetical gain or loss in earnings, cash flows or fair value of the financial instruments and derivative instruments which are held by the Company at December 31, 2000 that are sensitive to changes in the interest rates. While this analysis may have some use as a benchmark, it should not be viewed as a forecast.

35

37

In the normal course of business, the Company also faces risks that are either non-financial or non-quantifiable. Such risks principally include credit risk and legal risk and are not represented in the following analysis.

At December 31, 2000, \$170.0 million (approximately 14% of total debt at December 31, 2000) of the Company's debt was variable rate debt (all of the variable rate debt relates to the Company's 2000 Unsecured Acquisition Facility) and \$1,051.4 million (approximately 86% of total debt at December 31, 2000) was fixed rate debt. The Company also had outstanding a written put and a written call option (collectively, the "Written Options") which were issued in conjunction with the initial offering of two tranches of senior unsecured debt. Currently, the Company does not enter into financial instruments for trading or other speculative purposes.

For fixed rate debt, changes in interest rates generally affect the fair value of the debt, but not earnings or cash flows of the Company. Conversely, for variable rate debt, changes in the interest rate generally do not impact the fair value of the debt, but would affect the Company's future earnings and cash flows. The interest rate risk and changes in fair market value of fixed rate debt generally do not have a significant impact on the Company until the Company is required to refinance such debt. See Note 5 to the consolidated financial statements for a discussion of the maturity dates of the Company's various fixed rate debt.

Based upon the amount of variable rate debt outstanding at December 31, 2000, a 10% increase or decrease in the interest rate on the Company's variable rate debt would decrease or increase, respectively, future net income and cash flows by approximately \$1.3 million per year. A 10% increase in interest rates would decrease the fair value of the fixed rate debt at December 31, 2000 by approximately \$45.9 million to \$977.0 million. A 10% decrease in interest rates would increase the fair value of the fixed rate debt at December 31, 2000 by approximately \$51.0 million to \$1,073.9 million. A 10% increase in interest rates would decrease the fair value of the Written Options at December 31, 2000 by approximately \$4.1 million to \$8.0 million. A 10% decrease in interest rates would increase the fair value of the Written Options at December 31, 2000 by approximately \$5.5 million to \$17.6 million.

ISSUANCE OF RESTRICTED STOCK AND EMPLOYEE STOCK OPTIONS

During the year ended December 31, 2000, the Company awarded 355,139 shares of restricted common stock to certain employees and 3,663 shares of restricted common stock to certain Directors. During the year ended December 31, 2000, the Company repurchased 394,300 shares of its common stock at a weighted average price per share of approximately \$29.67.

COMMON STOCK

For the year ended December 31, 2000, certain employees of the Company exercised 518,550 non-qualified employee stock options. Gross proceeds to the Company were \$12.5 million.

Partnership paid a first quarter 2000 distribution of \$.62 per common share/unit, totaling approximately \$28.5 million. On July 17, 2000, the Company and the Operating Partnership paid a second quarter 2000 distribution of \$.62 per common share/unit, totaling approximately \$28.6 million. On October 23, 2000, the Company and the Operating Partnership paid a third quarter 2000 distribution of \$.62 per common share/unit, totaling approximately \$28.4 million. Stock (the "Series C Preferred Stock"), \$49.687 per share (equivalent to \$.49687 per Depositary Share) on its 7.95%, \$.01 par value, Series D Cumulative Preferred Stock (the "Series D Preferred Stock") and \$49.375 per share (equivalent to \$.49375 per Depositary Share) on its 7.90%, \$.01 par value, Series E Cumulative Preferred Stock (the "Series E Preferred Stock"). The preferred stock dividends paid on March 31, 2000, June 30, 2000, September 30, 2000 and December 31, 2000 totaled, in the aggregate, approximately \$8.2 million per quarter.

On March 9, 2001, the Company declared a first quarter dividend of \$.6575 per common share/unit on its common stock/units which is payable on April 23, 2001. The Company also declared a first quarter dividend of \$.59375 per share, \$54.688 per share (\$.54688 per Depositary share), \$53.906 per share (\$.53906 per Depositary share), \$49.687 per share (\$.49687 per Depositary share) and \$49.375 per share (\$.49375 per Depositary share) on its Series A Preferred Stock, Series B Preferred Stock, Series C Preferred Stock, Series D Preferred Stock and Series E Preferred Stock, respectively, which is payable on April 2, 2001.

PREFERRED STOCK

On March 9, 2001, the Company called for the redemption of all of its outstanding Series A Preferred Stock at the price of \$25.00 per share, plus accrued and unpaid dividends. The redemption date will be April 9, 2001.

SHORT-TERM AND LONG-TERM LIQUIDITY NEEDS

The Company has considered its short-term (one year or less) liquidity needs and the adequacy of its estimated cash flow from operations and other expected liquidity sources to meet these needs. The Company believes that its principal short-term liquidity needs are to fund normal recurring expenses, debt service requirements and the minimum distribution required to maintain the Company's REIT qualification under the Internal Revenue Code. The Company anticipates that these needs will be met with cash flows provided by operating activities.

The Company expects to meet long-term (greater than one year) liquidity requirements such as property acquisitions, developments, scheduled debt maturities, major renovations, expansions and other nonrecurring capital improvements through the disposition of select assets, long-term secured and unsecured indebtedness and the issuance of additional equity securities. As of December 31, 2000 and March 2, 2001, \$589.2 million of common stock, preferred stock and depositary shares and \$100.0 million of debt securities were registered and unissued under the Securities Act of 1933, as amended. The Company also may finance the development or acquisition of additional properties through borrowings under the 2000 Unsecured Acquisition Facility. At December 31, 2000, borrowings under the 2000 Unsecured Acquisition Facility bore interest at a weighted average interest rate of 7.26%. As of March 2, 2001, the Company had approximately \$28.9 million available in additional borrowings under the 2000 Unsecured Acquisition Facility. The 2000 Unsecured Acquisition Facility bears interest at a floating rate of LIBOR plus .80% or the Prime Rate, at the Company's option.

RELATED PARTY TRANSACTIONS

The Company periodically engages in transactions for which CB Richard Ellis, Inc. acts as a broker. A relative of Michael W. Brennan, the President and Chief Executive Officer and a director of the Company, is an employee of CB Richard Ellis, Inc. For the year ended December 31, 2000, this relative received approximately \$.06 million in brokerage commissions paid by the Company.

The Company periodically utilizes consulting services from the private consulting firm of Robert J. Slater, a director of the Company. For the year ended December 31, 2000, the Company has paid approximately \$.01 million of fees to this entity.

On November 19, 1998, the Company sold two industrial properties to two limited partnerships, Roosevelt Glen Corporate Center ("Roosevelt") and Hartford Center Investment Company ("Hartford"), for a total consideration of approximately \$8.3 million. An entity in which one of the shareholders is Jay Shidler, Chairman of the Board of Directors ("TSIC") has a 11.638% general partner interest in Roosevelt. TSIC has a 12.39% general partnership interest in Hartford. On December 4, 1998, the Company sold one industrial property to Eastgate Shopping Center Investment Co. ("Eastgate"), a limited partnership, for a total consideration of approximately \$2.5 million. TSIC has a 12.972% general partner interest in Eastgate. In each case, the purchaser had the option of selling the properties back to the Company and the Company had the option of buying the properties back from the purchaser for a stipulated period of time. In January 2000, the purchasers exercised their options to sell the properties back to the Company. The gain on sale was deferred due to the existence of these options.

In January and February 2001, FR Development Services, Inc. ("FRDS") purchased all of the voting and non-voting shares (a total of 25,790 shares) of FRDS held by Michael W. Brennan, President and Chief Executive Officer and a director of the Company, Michael J. Havalala, Chief Financial Officer of the Company, Johansson L. Yap, Chief Investment Officer of the Company and Gary H. Heigl, former Chief Operating Officer of the Company, for approximately \$1.3 million, in connection with FRDS' election to become a wholly owned taxable REIT subsidiary of the Company. At the time of the transaction, these executive officers had equity interests in FRDS totaling 2.76%.

ENVIRONMENTAL

The Company incurred environmental costs of \$.2 million and \$.6 million in 2000 and 1999, respectively. The Company estimates 2001 costs of approximately \$.4 million. The Company estimates that the aggregate cost which needs to be expended in 2001 and beyond with regard to currently identified environmental issues will not exceed approximately \$.9 million, a substantial amount of which will be the primary responsibility of the tenant, the seller to the Company or another responsible party. This estimate was determined by a third party evaluation.

INFLATION

For the last several years, inflation has not had a significant impact on the Company because of the relatively low inflation rates in the Company's markets of operation. Most of the Company's leases require the tenants to pay their share of operating expenses, including common area maintenance, real estate taxes and insurance, thereby reducing the Company's exposure to increases in costs and operating expenses resulting from inflation. In addition, many of the outstanding leases expire within five years which may enable the Company to replace existing leases with new leases at higher base rentals if rents of existing leases are below the then-existing market rate.

The Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 133 "Accounting for Derivative Instruments and Hedging Activities" ("FAS 133") on June 1, 1998. Statement of Financial Accounting Standards No.138 "Accounting for Derivative Instruments and Hedging Activities - An Amendment of FAS Statement 133" was issued in June 2000. FAS 133, as amended, is effective for fiscal years beginning after June 15, 2000 as provided by Statement of Financial Accounting Standards No. 137 issued in July 1999. FAS 133, as amended, requires fair value accounting for all derivatives including recognizing all such instruments on the balance sheet with an offsetting amount recorded in the income statement or as part of comprehensive income. FAS 133, as amended, becomes effective for the Company for the year ending December 31, 2001. FAS 133 did not have an impact on the Company's consolidated financial position, consolidated results of operations or consolidated cash flows.

In March 2000, the FASB issued Statement of Accounting Standards Interpretation 44, Accounting for Certain Transactions Involving Stock Compensation ("Interpretation 44"). Interpretation 44 is generally effective for new stock option grants beginning July 1, 2000. However, the interpretive definition of an employee and certain effective repricing provisions apply to new awards granted after December 15, 1998. Further, the FASB determined that any modifications to current accounting as a result of this guidance are to be recorded prospectively, effective as of July 1, 2000. The Company has applied the accounting mandated by Interpretation 44 as of July 1, 2000 and there has not

38

40

been a material impact on the Company's consolidated financial position, consolidated results of operations or consolidated cash flows.

The REIT Modernization Act, which was passed in 1999 and will take effect on January 1, 2001, modifies certain provisions of the Internal Revenue Code of 1986, as amended, with respect to the taxation of REITs. Two key provisions of this tax law change will impact future Company operations: the availability of a taxable REIT subsidiary which may be wholly-owned directly by a REIT and a reduction in the required level of distributions by a REIT to 90% of ordinary taxable income. The Company converted its preferred stock subsidiary to a wholly-owned taxable REIT subsidiary in January 2001.

In December 1999, the Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin No. 101 ("SAB 101"), Revenue Recognition, which provides guidance on the recognition, presentation and disclosure of revenue in financial statements. SAB 101 was required to be implemented in the fourth fiscal quarter of 2000. The adoption of SAB 101 did not have an effect on the Company's results of operations or its financial position as the Company's revenue recognition practices were compliant with the pronouncement.

3. Summary of Significant Accounting Policies, continued

Cash and Cash Equivalents

Cash and cash equivalents include all cash and liquid investments with an initial maturity of three months or less. The carrying amount approximates fair value due to the short maturity of these investments.

Investment in Real Estate and Depreciation

Purchase accounting has been applied when ownership interests in properties were acquired for cash. The historical cost basis of properties has been carried over when certain ownership interests were exchanged for Operating Partnership units on July 1, 1994 and purchase accounting has been used for all other properties that were subsequently acquired in exchange for Operating Partnership units.

Real estate assets are carried at cost. The Company reviews its properties on a quarterly basis for impairment and provides a provision if impairments are determined. First, to determine if impairment may exist, the Company reviews its properties and identifies those which have had either an event of change or event of circumstances warranting further assessment of recoverability. Then, the Company estimates the fair value of those properties on an individual basis by capitalizing the expected net operating income. Such amounts are then compared to the property's depreciated cost to determine whether an impairment exists. For properties management considers held for sale, the Company ceases depreciating the properties and values the properties at the lower of depreciated cost or fair value less cost to sell.

Interest expense, real estate taxes and other directly related expenses incurred during construction periods are capitalized and depreciated commencing with the date placed in service, on the same basis as the related assets. Depreciation expense is computed using the straight-line method based on the following useful lives:

	Years

Buildings and Improvements.....	31.5 to 40
Land Improvements.....	15
Furniture, Fixtures and Equipment.....	5 to 10

Construction expenditures for tenant improvements, leasehold improvements and leasing commissions are capitalized and amortized over the terms of each specific lease. Repairs and maintenance are charged to expense when incurred. Expenditures for improvements are capitalized.

Deferred Financing Costs

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

Deferred financing costs include fees and costs incurred to obtain long-term financing. These fees and costs are being amortized over the terms of the respective loans. Accumulated amortization of deferred financing costs was \$4,358 and \$2,608 at December 31, 2000 and 1999, respectively. Unamortized deferred financing fees are written-off when debt is retired before the maturity date.

Investments in Joint Ventures

Investments in Joint Ventures represents the Company's 10% equity interests in the September 1998 Joint Venture (hereinafter defined) and the September 1999 Joint Venture (hereinafter defined). The Company accounts for its Investments in Joint Ventures under the equity method of accounting. Under the equity method of accounting, the Company's share of earnings or losses of the September 1998 Joint Venture (hereinafter defined) and the September 1999 Joint Venture (hereinafter defined) is reflected in income as earned and contributions or distributions increase or decrease, respectively, the Company's Investments in Joint Ventures as paid or received, respectively.

Revenue Recognition

Rental income is recognized on a straight-line method under which contractual rent increases are recognized evenly over the lease term. Tenant recovery income includes payments from tenants for taxes, insurance and other property operating expenses and is recognized as revenue in the same period the related expenses are incurred by the Company.

The Company provides an allowance for doubtful accounts against the portion of tenant accounts receivable which is estimated to be uncollectible. Accounts receivable in the consolidated balance sheets are shown net of an allowance for doubtful accounts of \$2,050, and \$2,000 as of December 31, 2000 and December 31, 1999, respectively.

Gain on Sale of Real Estate

Gain on sale of real estate is recognized using the full accrual method. Gains relating to transactions which do not meet the full accrual method of accounting are deferred and recognized when the full accrual accounting criteria are met or by using the installment or deposit methods of profit recognition, as appropriate in the circumstances. As the assets are sold, their costs and related accumulated depreciation are removed from the accounts with resulting gains or losses reflected in net income or loss. Estimated future costs to be incurred by the Company after completion of each sale are included in the determination of the gains on sales.

Income Taxes

The Company has elected to be taxed as a REIT under Sections 856 through 860 of the Code. As a result, the Company generally is not subject to federal income taxation at the corporate level to the extent it distributes annually at least 95% (90% beginning with January 1, 2001) of its REIT taxable income, as

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

defined in the Code, to its stockholders and satisfies certain other requirements. Accordingly, no provision has been made for federal income taxes in the accompanying consolidated financial statements.

The Company and certain of its subsidiaries are subject to certain state and local income, excise and franchise taxes. The provision for such state and local taxes has been reflected in general and administrative expense in the consolidated statements of operations and has not been separately stated due to its insignificance.

For federal income tax purposes, the cash distributions paid to stockholders may be characterized as ordinary income, return of capital (generally non-taxable) or capital gains. Distributions paid for the year ended December 31, 2000, totaling \$97,531, are characterized 91.1% (\$2.29 per share) as ordinary income and 8.9% (\$.22 per share) as return of capital. Distributions paid for the year ended December 31, 1999, totaling \$92,150, are characterized 88.3% (\$2.14 per share) as ordinary income and 11.7% (\$.28 per share) as return of capital. Distributions paid for the year ended December 31, 1998 totaling \$82,320 are characterized 63.9% (\$1.40 per share) as ordinary income, 34.6% (\$.76 per share) as return of capital and 1.5% (\$.03 per share) as long-term capital gain.

Earnings Per Common Share

Net income per weighted average share - basic is based on the weighted average common shares outstanding. Net income per weighted average share - diluted is based on the weighted average common shares outstanding plus the effect of in-the-money employee stock options. See Note 12 for further disclosures.

Fair Value of Financial Instruments

The Company's financial instruments include short-term investments, tenant accounts receivable, net, mortgage notes receivable, accounts payable, other accrued expenses, mortgage loans payable, acquisition facility payable, senior unsecured debt and certain put and call options issued in conjunction with two offerings of unsecured debt.

The fair values of the short-term investments, tenant accounts receivable, net, mortgage notes receivable, accounts payable and other accrued expenses was not materially different from their carrying or contract values due to the short term nature of these financial instruments. See Note 5 for the fair values of the mortgage loans payable, acquisition facility payable, senior unsecured debt and certain put and call options issued in conjunction with initial offerings of unsecured debt.

Derivative Financial Instruments

Historically, the Company has used interest rate protection agreements (the "Agreements") to fix the interest rate on anticipated offerings of senior unsecured debt, limit the interest rate on existing debt or convert floating rate debt to fixed rate debt. Receipts or payments that result from the

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

settlement of Agreements used to fix the interest rate on anticipated offerings of senior unsecured debt are amortized over the life of the senior unsecured debt. Receipts or payments resulting from the Agreements that were used to limit the interest rate on existing debt are recognized as a component of interest expense. The cost basis of this type of instrument is amortized over the life of the instrument and is recognized in net income as well. Receipts or payments resulting from Agreements used to convert floating rate debt to fixed rate debt are recognized as a component of interest expense. Any Agreements which no longer qualify for hedge accounting are marked to market and any gain or loss is recognized in net income immediately. The credit risks associated with the Agreements are controlled through the evaluation and monitoring of the creditworthiness of the counterparty. In the event that the counterparty fails to meet the terms of the Agreements, the Company's exposure is limited to the current value of the interest rate differential, not the notional amount, and the Company's carrying value of the Agreements on the balance sheet.

Segment Reporting

Management views the Company as a single segment.

Recent Accounting Pronouncements

The Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards No. 133 "Accounting for Derivative Instruments and Hedging Activities" ("FAS 133") on June 1, 1998. Statement of Financial Accounting Standards No.138 "Accounting for Derivative Instruments and Hedging Activities - An Amendment of FAS Statement 133" was issued in June 2000. FAS 133, as amended, is effective for fiscal years beginning after June 15, 2000 as provided by Statement of Financial Accounting Standards No. 137 issued in July 1999. FAS 133, as amended, requires fair value accounting for all derivatives including recognizing all such instruments on the balance sheet with an offsetting amount recorded in the income statement or as part of comprehensive income. FAS 133, as amended, becomes effective for the Company for the year ending December 31, 2001. FAS 133 did not have an impact on the Company's consolidated financial position, consolidated results of operations or consolidated cash flows.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, CONTINUED

In March 2000, the FASB issued Statement of Accounting Standards Interpretation 44, Accounting for Certain Transactions Involving Stock Compensation ("Interpretation 44"). Interpretation 44 is generally effective for new stock option grants beginning July 1, 2000. However, the interpretive definition of an employee and certain effective repricing provisions apply to new awards granted after December 15, 1998. Further, the FASB determined that any modifications to current accounting as a result of this guidance are to be recorded prospectively, effective as of July 1, 2000. The Company has applied the accounting mandated by Interpretation 44 as of July 1, 2000 and there has not been a material impact on the Company's consolidated financial position, consolidated results of operations or consolidated cash flows.

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

The REIT Modernization Act, which was passed in 1999 and will take effect on January 1, 2001, modifies certain provisions of the Internal Revenue Code of 1986, as amended, with respect to the taxation of REITs. Two key provisions of this tax law change will impact future Company operations: the availability of a taxable REIT subsidiary which may be wholly-owned directly by a REIT and a reduction in the required level of distributions by a REIT to 90% of ordinary taxable income. The Company converted its preferred stock subsidiary to a wholly-owned taxable REIT subsidiary in January 2001.

In December 1999, the Securities and Exchange Commission ("SEC") issued Staff Accounting Bulletin No. 101 ("SAB 101"), Revenue Recognition, which provides guidance on the recognition, presentation and disclosure of revenue in financial statements. SAB 101 was required to be implemented in the fourth fiscal quarter of 2000. The adoption of SAB 101 did not have an effect on the Company's results of operations or its financial position as the Company's revenue recognition practices were compliant with the pronouncement.

Mortgage Loans Payable, Net

On June 30, 1994, the Company, through the Financing Partnership, entered into a \$300,000 mortgage loan. On April 4, 1997, the Company purchased U.S. Government securities as substitute collateral to execute a legal defeasance of the \$300,000 mortgage loan (the "1994 Defeased Mortgage Loan"). On January 2, 1998, the Company used the gross proceeds from the maturity of the U.S. Government securities to pay off and retire the 1994 Defeased Mortgage Loan.

On December 29, 1995 the Mortgage Partnership borrowed \$40,200 under a mortgage loan (the "1995 Mortgage Loan"). In June 2000, the Mortgage Partnership purchased approximately \$1.2 million of U.S. Government securities as substitute collateral to execute a legal defeasance of approximately \$1.2 million of the 1995 Mortgage Loan. The terms of the legal defeasance require the Mortgage Partnership to use the gross proceeds from the maturities of the U.S. Government securities to paydown and subsequently retire the defeased portion of the 1995 Mortgage Loan in January 2003. The Company is carrying the defeased portion of the 1995 Mortgage Loan on its balance sheet until it pays down and subsequently retires the defeased portion of the 1995 Mortgage Loan in January 2003. The remaining portion of the 1995 Mortgage Loan matures on January 11, 2026. Upon the execution of the legal defeasance, one of the 23 properties collateralizing the 1995 Mortgage Loan was released and subsequently sold. The 1995 Mortgage Loan provides for monthly principal and interest payments based on a 28-year amortization schedule. The interest rate under the 1995 Mortgage Loan is fixed at 7.22% per annum through January 11, 2003. After January 11, 2003, the interest rate adjusts through a predetermined formula based on the applicable Treasury rate. The 1995 Mortgage Loan is collateralized by 22 properties held by the Mortgage Partnership. The 1995 Mortgage Loan may be prepaid on or after January 2003.

Under the terms of the 1995 Mortgage Loan, certain cash reserves are required to be and have been set aside for tenants security deposits and payments of capital expenditures, interest, real estate taxes and insurance. The amount of cash reserves segregated for security deposits is adjusted as tenants turn over. The amounts included in the cash reserves relating to payments of capital expenditures, interest, real estate taxes and insurance were determined by the lender and approximate the next periodic payment of such items. At December 31, 2000 and 1999, these reserves totaled \$1,186 and \$1,425, respectively, and are included in Restricted Cash. Such cash reserves were invested in a money market fund at December 31, 2000. The maturity of these investments is one day; accordingly, cost approximates fair value.

The Company also settled an interest rate protection agreement, in the notional amount of \$100,000, which was used to fix the interest rate on the 2011 Drs. prior to issuance. The debt issue discount and the settlement amount of the interest rate protection agreement are being amortized over the life of the 2011 Drs. as an adjustment to interest expense. The 2011 Drs. contain certain covenants including limitations on incurrence of debt and debt service coverage.

	December 31, 2000		Decem

	=====	=====	=====

The fair value of the Company's mortgage loans payable and Put and Call Option were determined by discounting the future cash flows using the current rates at which similar loans would be made to borrowers with similar credit ratings and for the same remaining maturities. The fair value of the acquisition facility payable was not materially different than its carrying value due to the variable interest rate nature of the loan. The fair value of the senior unsecured debt was determined by quoted market prices.

The following is a schedule of the stated maturities and scheduled principal payments of the mortgage loans, senior unsecured debt and acquisition facility payable for the next five years ending December 31, and thereafter:

In March 2000, the Company's Board of Directors approved the repurchase of up to \$100,000 of the Company's common stock. The Company may make purchases from time to time, if price levels warrant, in the open market or in privately negotiated transactions. During the year ended December 31, 2000, the Company repurchased 394,300 shares of its common stock at a weighted average price per share of approximately \$29.67.

Shareholders' Rights Plan

On September 4, 1997, the Board of Directors of the Company declared a dividend distribution of one Preferred Share Purchase Right ("Right") for each outstanding share of Common Stock. The dividend distribution was made on October 20, 1997 to stockholders of record as of the close of business on October 19, 1997. In addition, a Right will attach to each share of Common Stock issued in the future. Each Right entitles the registered holder to purchase from the Company one one-hundredth of a share of Junior Participating Preferred Stock (the "Junior Preferred Stock"), at a price of \$125 per one one-hundredth of a share (the "Purchase Price"), subject to adjustment. The Rights become exercisable only if a person or group of affiliated or associated persons (an "Acquiring Person") acquires, or obtains the right to acquire, beneficial ownership of Common Stock or other voting securities ("Voting Stock") that have 15% or more of the voting power of the outstanding shares of Voting Stock, or if an Acquiring Person commences or makes an announcement of an intention to commence a tender offer or exchange offer to acquire beneficial ownership of Voting Stock that have 15% or more of the voting power of the outstanding shares of Voting Stock. The Rights will expire on October 19, 2007, unless redeemed earlier by the Company at \$.001 per Right, or exchanged by the Company at an exchange ratio of one share of Common Stock per Right.

In the event that a person becomes an Acquiring Person, each holder of a Right, other than the Acquiring Person, is entitled to receive, upon exercise, (1) Common Stock having a value equal to two times the Purchase Price of the Right or (2) common stock of the acquiring company having a value equal to two times the Purchase Price of the Right.

The Junior Preferred Stock ranks junior to all other series of the Company's preferred stock with respect to payment of dividends and as to distributions of assets in liquidation. Each share of Junior Preferred Stock has a quarterly dividend rate per share equal to the greater of \$1.00 or 100 times the per share amount of any dividend (other than a dividend payable in shares of Common Stock or a subdivision of the Common Stock) declared on the Common Stock,

Edgar Filing: FIRST INDUSTRIAL REALTY TRUST INC - Form 10-K/A

subject to certain adjustments. In the event of liquidation, the holder of the Junior Preferred Stock is entitled to receive a preferred liquidation payment per share of \$1.00 (plus accrued and unpaid dividends) or, if greater, an amount equal to 100 times the payment to be made per share of Common Stock, subject to certain adjustments.

14. EMPLOYEE BENEFIT PLANS

The Company maintains two stock incentive plans (the "Stock Incentive Plans") which are administered by the Compensation Committee of the Board of Directors. There are approximately 7.7 million shares reserved under the Stock Incentive Plans. Only officers and other employees of the Company and its affiliates generally are eligible to participate in the Stock Incentive Plans. However, Independent Directors of the Company receive automatic annual grants of options to purchase 10,000 shares at a per share exercise price equal to the fair market value of a share on the date of grant.

The Stock Incentive Plans authorize (i) the grant of stock options that qualify as incentive stock options under Section 422 of the Code, (ii) the grant of stock options that do not so qualify, (iii) restricted stock awards, (iv) performance share awards and (v) dividend equivalent rights. The exercise price of the stock options is determined by the Compensation Committee. Special provisions apply to awards granted under the Stock Incentive Plans in the event of a change in control in the Company. As of December 31, 2000, stock options covering 3.0 million shares were outstanding and stock options covering 3.5 million shares were available under the Stock Incentive Plans. The outstanding stock options generally vest over one to three year periods and have lives of ten years. Stock option transactions are summarized as follows:

The following table summarizes currently outstanding and exercisable options as of December 31, 2000:

\$26.44-\$31.13	2,111,567	8.2	\$29.17	1,195,411

The Company applies Accounting Principles Board Opinion No. 25, "Accounting for Stock Issued to Employees" ("APB 25"), in accounting for its Stock Incentive Plans. Under APB 25, compensation expense is not recognized for options issued in which the strike price is equal to the fair value of the Company's stock on the date of grant. Certain options issued in 2000 were issued with a strike price less than the fair value of the Company's stock on the date of grant. Compensation expense is being recognized for the intrinsic value of these options determined at the date of grant over the vesting period.

Had compensation expense for the Company's Stock Incentive Plans been determined based upon the fair value at the grant date for awards under the Stock Incentive Plans consistent with the methodology prescribed under Statement of Financial Accounting Standards No. 123, "Accounting for Stock-Based Compensation", net income and earnings per share would have been the pro forma amounts indicated in the table below:

	For 2000

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted average assumptions:

Expected dividend yield.....		8.33%
Expected stock price volatility.....		20.30%
Risk-free interest rate.....		6.18%
Expected life of options.....		3.05

The weighted average fair value of options granted during 2000, 1999 and 1998 is \$ 2.91, \$1.79 and \$2.95 per option, respectively.

In September 1994, the Board of Directors approved and the Company adopted a 401(k)/Profit Sharing Plan. Under the Company's 401(k)/Profit Sharing Plan, all eligible employees may participate by making voluntary contributions. The Company may make, but is not required to make, matching contributions. For the years ended December 31, 2000, 1999 and 1998, the Company made matching contributions of approximately \$211, \$208 and \$198, respectively. In March 1996, the Board of Directors approved and the Company adopted a Deferred Income Plan (the "Plan"). At December 31, 2000, 765,159 units were outstanding. The expense related to these deferred income benefits is included in general and administrative and property management expense in the consolidated statements of operations.

16. COMMITMENTS AND CONTINGENCIES

In the normal course of business, the Company is involved in legal actions arising from the ownership of its properties. In management's opinion, the liabilities, if any, that may ultimately result from such legal actions are not expected to have a materially adverse effect on the consolidated financial position, operations or liquidity of the Company.

Such options are exercisable at various times at appraised fair market value or at a fixed purchase price generally in excess of the Company's depreciated cost of the asset.
