Item 2.02. Results of Operations and Financial Condition.

On July 20, 2005 the Registrant issued a press release announcing earnings for the quarter ended June 30, 2005. A copy of the press release announcing the second quarter 2005 earnings is attached as Exhibit 99.1.

The attached press release includes a presentation of earnings from continuing operations and diluted earnings (loss) per share from continuing operations, excluding certain unusual items, for the second quarter and six months ended June 30, 2004. Such measures are not measures of financial performance under GAAP and should not be considered as alternatives to earnings from continuing operations and diluted earnings (loss) per share from continuing operations, as computed under GAAP for the applicable periods. The Company considers earnings from continuing operations and diluted earnings (loss) per share from continuing operations, to be the most comparable GAAP measures and the Company has presented reconciling information in the press release.

The non-GAAP measures described above exclude the costs associated with repurchasing \$120 million in aggregate principal amount of the Company's 11% Series B Senior Notes due 2008 and the gain from the sale of substantially all of the assets of the Company's Pharmacy and Supplies Business. Management uses earnings measures adjusted to exclude such items as part of its evaluation of the performance of the Company. The Company believes that these measures provide useful information to investors because the items that are excluded relate to unusual events that resulted in a significant impact and are not likely to recur regularly or in predictable amounts and, consequently, presenting net earnings and earnings per share, excluding such unusual items, is meaningful supplemental information for investors.
