BY ORDER OF THE BOARD OF

Clarke H. Bailey
Chairman and Chief Executive Officer

April 12, 2006

GLENAYRE TECHNOLOGIES, INC.
PROXY STATEMENT
2006 ANNUAL MEETING

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of Glenayre Technologies, Inc. (the **Company** or **Glenayre**) of proxies for use at the 2006 Annual Meeting of Stockholders to be held at the Hilton Garden Inn, 11695 Medlock Bridge Road, Duluth, Georgia 30097 on May 23, 2006 at 4:00 p.m., local time, and any adjournment(s) thereof.

This Proxy Statement, the Notice of the 2006 Annual Meeting and the form of proxy were first mailed to stockholders on or about April 12, 2006. The Company's principal executive offices are located at 825 8th Avenue, 23rd floor, New York, New York.

Voting and Record Date

As of April 7, 2006, the record date for the determination of stockholders of the Company entitled to notice of and to vote at the 2006 Annual Meeting, the Company had 68,650,470 shares of common stock, \$.02 par value (**Common Stock**), outstanding and entitled to vote. Each holder of Common Stock at the close of business on April 7, 2006 will be entitled to one vote for each share held of record.

The three director nominees receiving the most affirmative votes of the shares of Common Stock present or represented and entitled to vote at the meeting will be elected as directors. The affirmative vote of a majority of the votes cast is required to approve an amendment to the Company's 1996 Incentive Stock Plan to increase the number of shares of Common Stock reserved for grants of awards from 9,650,000 to 12,650,000 and to ratify the selection of Ernst & Young LLP as the independent registered public accounting firm to audit the financial statements of the Company.

One-third of the total outstanding shares of Common Stock will constitute a quorum at the meeting. Abstentions and broker non-votes will be counted for purposes of determining the presence or absence of a quorum for the transaction of business. An abstaining vote in the election of directors is not counted and therefore has no effect on the election; however, an abstaining vote on all other proposals will have the same effect as a negative vote on the proposal. A broker non-vote on any proposal, including the election of directors, will not be included in the tabulation of the voting results and therefore does not affect the outcome of the vote. A broker non-vote occurs when a nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee has not received instructions from the beneficial owner and does not have discretionary voting power for that particular item.

Solicitation of Proxies

Any stockholder giving a proxy for the 2006 Annual Meeting may revoke it at any time prior to the voting thereof by giving written notice to the Chairman or the Secretary of the Company by filing a later-dated proxy with either of them prior to the commencement of the 2006 Annual Meeting, or by voting in person at the 2006 Annual Meeting. Proxies and notices of revocation should be mailed or delivered to American Stock Transfer & Trust Company, 59 Maiden Lane, New York, New York 10038 for receipt by American Stock Transfer & Trust Company no later than two business days prior to the 2006 Annual Meeting, or should be deposited with the Chairman or the Secretary of the Company immediately prior to the commencement of the 2006 Annual Meeting.

All shares of Common Stock represented by proxies will be voted at the 2006 Annual Meeting, and any adjournment(s) thereof, as specified therein by the persons giving the proxies. If no direction is given, the proxy will be voted:

to elect the nominees listed under **ELECTION OF DIRECTORS,**

to approve an amendment to the Company's 1996 Incentive Stock Plan to increase the number of shares of Common Stock reserved for grants of awards from 9,650,000 to 12,650,000,

to ratify the selection of Ernst & Young LLP as the independent registered public accounting firm, and

in the discretion of the holders of the proxies, on all other matters properly brought before the 2006 Annual Meeting and any adjournment(s) thereof.

Solicitation of proxies is being made primarily by mail; however, there may also be further solicitation in person and by telephone at nominal cost by directors, officers, employees and agents of the Company, who will receive no additional compensation therefor. The Company will bear all costs of soliciting proxies including charges made by brokers and other persons holding stock in their names or in the names of nominees for reasonable expenses incurred in sending proxy material to beneficial owners and obtaining their proxies.

Executive Committee

Ramon D. Ardizzone, Clarke H. Bailey, Donald S. Bates and Howard W. Speaks currently serve on the Executive Committee. The Executive Committee met six times during 2005. The Executive Committee exercises the full powers of the Board of Directors to the extent permitted by law between Board of Directors meetings.

Audit Committee

Cliff O. Bickell, John J. Hurley and Horace H. Sibley currently serve on the Audit Committee. The Audit Committee met ten times during 2005. All of the members of the Audit Committee are independent directors within the meaning of applicable Nasdaq listing standards. The Board of Directors has determined that Mr. Hurley is an audit committee financial expert within the meaning of the regulations of the Securities and Exchange Commission.

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. The Audit Committee's role includes a particular focus on the qualitative aspects of financial reporting to stockholders and on the Company's processes and procedures for the management of business and financial risks. The function of the Audit Committee is to provide assistance to the Board of Directors in fulfilling its responsibility to stockholders, potential stockholders and the investment community in monitoring:

the accounting and reporting practices of the Company,

the Company's compliance with legal and regulatory requirements related to financial reporting,

the qualifications and independence of the Company's independent registered public accounting firm,

the performance of the Company's internal audit function and independent registered public accounting firm, and

the quality and integrity of the financial reports of the Company.

A full description of the Audit Committee's primary responsibilities, operating principles, and relationship with the internal auditor and the independent registered public accounting firm is contained in the Audit Committee Charter, a copy of which is available on the Company's website at www.glenayre.com and is attached as Appendix A to this Proxy Statement.

Governance and Nominating Committee

Peter W. Gilson, John J. Hurley and Horace H. Sibley currently serve on the Governance and Nominating Committee. All of the members of the Governance and Nominating Committee are independent directors within the meaning of applicable Nasdaq listing standards. The Governance and Nominating Committee met five times during 2005. The Governance and Nominating Committee's functions include assisting the Board of Directors in ensuring that it is appropriately constituted to meet its fiduciary obligations to the stockholders and the Company by developing and implementing policies and processes regarding corporate governance matters, by assessing Board of Directors membership needs, and by proposing director candidates to the Board of Directors. The Governance and Nominating Committee is also responsible for reviewing and recommending action to the Board of Directors concerning related party transactions or relationships involving a possible conflict of interest between the Company and either a director or a senior executive officer.

In identifying potential director candidates, the Governance and Nominating Committee seeks input from other members of the Board of Directors and executive officers and also considers recommendations by employees, community leaders, business contacts, third-party search firms and any other sources deemed appropriate by the Governance and Nominating Committee. The Governance and Nominating Committee will also consider director candidates recommended by stockholders to stand for election at the Annual Meeting of Stockholders, so long as such recommendations are submitted in accordance with the procedures described below.

The Governance and Nominating Committee has not set specific, minimum qualifications that must be met by a director candidate. Rather, in evaluating candidates for recommendation to the Board of Directors, the Governance and Nominating Committee considers the following factors, in addition to any other factors that it deems appropriate:

whether the candidate is of the highest ethical character and shares the values of the Company,

whether the candidate's reputation, both personal and professional, is consistent with the image and reputation of the Company,

whether the candidate's characteristics, experiences, perspectives and skills would benefit the Board of Directors given the current composition of the Board of Directors,

whether the candidate is independent as defined by Nasdaq listing standards and other applicable laws, rules or regulations regarding independence,

whether the candidate qualifies as someone who is financially sophisticated or as an audit committee financial expert as described in Nasdaq listing standards or any other applicable laws, rules or regulations,

whether the candidate is free from material conflicts of interest that would interfere with the candidate's ability to perform the duties of a director or violate any applicable Nasdaq listing standard or other applicable law, rule or regulation,

whether the candidate's service as an executive officer of another company or on the boards of directors of other public companies would interfere with the candidate's ability to devote sufficient time to discharge his or her duties as a director, and

if the candidate is an incumbent director, the director's overall service to the Company during the director's term, including the number of meetings attended, the level of participation and the overall quality of performance of the director.

Qualified candidates are selected for recommendation to the Board by a majority of the Governance and Nominating Committee. The Board of Directors, taking into consideration the recommendations of the Governance and Nominating Committee, is responsible for filling vacancies and selecting nominees for election as directors at the Annual Meeting of Stockholders, with the primary emphasis on the guidelines set forth above.

Stockholders who wish to recommend director candidates for consideration by the Governance and Nominating Committee may do so by mailing a written recommendation to Chairman, Governance and Nominating Committee, c/o Secretary, Glenayre Technologies, Inc., 11360 Lakefield Drive, Duluth, Georgia 30097. Such recommendation must include the following information:

the class and number of shares of stock of the Company that are owned beneficially and of record by the stockholder and, if applicable, the beneficial owner, including the holding period for such shares as of the date of the recommendation,

full biographical information concerning the director candidate, including a statement about the director's qualifications,

all other information regarding each director candidate proposed by such stockholder as would be required to be included in a proxy statement filed pursuant to the proxy rules of the Securities and Exchange Commission,

description of all arrangements or understandings among the stockholder and the candidate and any other person or persons pursuant to which the recommendation is being made, and

a written consent of the candidate (1) to be named in the Company's proxy statement and stand for election if nominated by the Board of Directors and (2) to serve if elected by the stockholders.

Recommendations by stockholders for director candidates to be considered by the Governance and Nominating Committee must be submitted not later than the 120th calendar day before the date the Company's proxy statement was released to stockholders in connection with the previous year's annual meeting. The submission of a recommendation by a stockholder in compliance with these procedures will not guarantee the selection of the stockholder's candidate or the inclusion of the candidate in the Company's proxy statement.

The By-Laws of the Company also provide that nominations of persons for election to the Board of Directors may be made at any Annual Meeting of Stockholders by any stockholder entitled to vote on such election. Such nominations must be submitted to the Secretary of the Company in accordance with the procedures specified in Section IX of Article II of the Company's By-Laws as described under "PROPOSALS OF STOCKHOLDERS" below. The Company's By-Laws require the presiding officer of the Annual Meeting of Stockholders to refuse to acknowledge the nomination of any person that is not submitted in compliance with such procedures.

an annual fee of \$4,000 for service as the lead independent director,

automatic formula-based awards of options to purchase 30,000 shares of Common Stock upon initial appointment to the Board of Directors and on each third anniversary thereafter, and

in connection with each Annual Meeting of Stockholders, a number of restricted stock units equal to \$18,000 divided by the fair market value of the Common Stock on the last trading day immediately preceding such Annual Meeting.

No fees were paid to employee directors in 2005 in addition to their regular compensation. Annual fees are paid ratably on a quarterly basis. All directors are reimbursed for their reasonable travel and accommodation expenses incurred with respect to their duties as directors.

(**GEI**) is party to an employment agreement with Mr. Caparro (the **Caparro Agreement**), dated May 9, 2005 that specifies the terms under which Mr. Caparro serves as President and Chief Executive Officer of EDC. Under the terms of the employment agreement, Mr. Caparro will serve as a member of the Board of Directors of EDC so long as he is employed by GEI to provide services to EDC in the same or a higher executive position and will serve as a member of EDC's Executive Committee.

Mr. Caparro's annual base salary is \$750,000. Under the Caparro Agreement, Mr. Caparro received Profits Interests, allocated among Tier One, Tier Two and Tier Three, as more fully described in EDC's Limited Liability Company Agreement, that represent one-third of EDC's total Profits Interests. These Profits Interests vest as follows: one-third vested on May 9, 2005, one-third will vest on May 9, 2006 and the final one-third will vest on May 9, 2007; provided that the Profits Interests vest in full upon (1) a Change of Control of EDC (as defined in the Caparro Agreement), (2) Mr. Caparro's death or disability or (3) termination by GEI without Cause or by Mr. Caparro for Good Reason (as such terms are defined in the Caparro Agreement).

The Caparro Agreement specifies an initial four-year term of employment. If prior to the end of the term, Mr. Caparro's employment is terminated by GEI without Cause or by Mr. Caparro for Good Reason (as such terms are defined in the Caparro Agreement), Mr. Caparro is entitled to: (1) a severance amount

Mr. Costabile's annual base salary is \$450,000. He is also eligible to participate in the Executive Bonus Plan for EDC pursuant to which Mr. Costabile may earn a bonus of up to 100% of his base salary if EDC performs at 100% of the target established by EDC's Board. Pursuant to the Costabile Employment Agreement Mr. Costabile was paid a \$200,000 signing bonus, the after-tax proceeds of which he used to purchase Class B Units of EDC. In addition, under the Costabile Agreement Mr. Costabile was required to invest an additional \$200,000 to purchase Class B Units of EDC.

Under the Costabile Agreement, Mr. Costabile received Profits Interests, allocated among Tier One, Tier Two and Tier Three, as more fully described in EDC's Limited Liability Company Agreement, that represent one-sixth of EDC's total Profits Interests. These Profits Interests vest as follows: one-third vested on May 31, 2005, one-third will vest on May 31, 2006 and the final one-third will vest on May 31, 2007; provided that the Profits Interests vest in full upon (1) a Change of Control of EDC (as defined in the Costabile Agreement), (2) Mr. Costabile's death or disability or (3) termination by GEI without Cause or by Mr. Costabile for Good Reason (as such terms are defined in the Costabile Agreement).

The Costabile Agreement also contains non-competition and non-solicitation provisions which prohibit him for a period of two years from the termination of his employment from engaging in the CD and DVD manufacturing and physical distribution businesses, soliciting or accepting any EDC customer for purposes of marketing, selling or providing the kinds of products and services provided to customers by EDC, or inducing or attempting to induce any employee of EDC or its affiliates to terminate his or her employment with EDC or its affiliates, among other related prohibitions.

The Costabile Agreement specifies an initial four-year term of employment. If prior to the end of the term, Mr. Costabile's employment is terminated by GEI without Cause or by Mr. Costabile for Good Reason (as such terms are defined in the Costabile Agreement), Mr. Costabile is entitled to: (1) a severance amount equal to twice his base salary at the time of termination plus the amount of his bonus under the Executive Bonus Plan for the prior fiscal year, payable in 24 equal monthly installments, and (2) continued medical benefits for a period of 12 months following termination.

Executive Severance Benefit Agreements. The Company is party to an agreement with Ms. Ziola (the **Ziola Agreement**), dated August 1, 2001 that entitles Ms. Ziola to certain benefits if a Change in Control occurs and if Ms. Ziola's employment is terminated within three years after the Change in Control for any reason other than for Ms. Ziola's (1) death, (2) disability, (3) retirement, (4) termination for Cause as defined in the Ziola Agreement or (5) voluntary termination other than for Good Reason as defined in the Ziola Agreement.

In the event of such termination, the Company is required to pay Ms. Ziola a lump sum equal to (1) 250% of the greater of the base salary in effect on such termination date or in effect on the date immediately preceding the Change in Control date and (2) a pro rata share of any bonus in which Ms. Ziola participates for the fiscal year in which such termination occurs. Additionally, if Ms. Ziola's employment is terminated for any reason other than Cause following a Change in Control as defined in the Ziola Agreement (1) all options held by Ms. Ziola to purchase the Company's Common Stock at the termination date shall become

fully vested and (2) all options shall become immediately exercisable and shall remain exercisable for a period of 12 months following the termination of employment.

The Company is also party to an Executive Severance Benefit Agreement with Mr. Bales dated April 28, 2004 which is identical in all material respects to the Ziola Agreement.

Additionally, under the terms of his employment offer letter from the Company dated April 27, 2004, Mr. Bales is entitled to be reimbursed for relocation costs in connection with moving back to Livermore, California if within 24 months of his hire date the terms of his employment are changed significantly as a result of circumstances outside his direct control but he is not entitled to severance benefits under his Executive Severance Benefit Agreement.

Compensation Committee Interlocks and Insider Participation

Mr. Bates, Mr. Gilson, and Mr. Speaks currently serve on the Compensation and Plan Administration Committee. None of such persons has ever been an officer or employee of the Company. During 2005, no executive officer of the Company served as a director or member of the compensation committee (or other committee performing similar functions) of any other entity of which a member of the Board of Directors of the Company was an executive officer. During 2005, no director or member of the compensation committee served as an executive officer of any other entity of which an executive officer of the Company served as a member the board of directors or compensation committee.

Report of the Compensation and Plan Administration Committees on Executive Compensation

The Compensation and Plan Administration Committee is responsible for developing and reviewing all compensation philosophies and practices to ensure that the programs are sufficient to attract and retain a talented senior management team and Board of Directors. The Compensation and Plan Administration Committee reviews and approves all bonus and incentive programs, as well as all compensation and benefits for executive officers and reviews, oversees and makes recommendations to the Board of Directors on the Company's 1996 Incentive Stock Plan (the **1996 Plan**), Employee Stock Purchase Plan, 401(k) Profit Sharing Plan, and any other compensation, bonus, stock equity, or other plans assigned to it by the Board of Directors. The Company's compensation philosophy and executive compensation programs are discussed in this report.

Executive Compensation Philosophy. In general, executive officers who are in a position to make a substantial contribution to the success and growth of the Company should have interests similar to those of the stockholders. Executive officers should be motivated by and benefit from increased stockholder value. Therefore, the Company believes that executive officers should hold a meaningful equity position in the Company through the purchase of Common Stock, the award of options to purchase Common Stock or, in the case of executive officers of EDC, the purchase of EDC membership interests or the award of EDC profits interests.

The Company's Board of Directors believes that the executive compensation program must be competitive with those of other companies of comparable size, industry type and complexity in order to attract, retain and motivate talented individuals.

Executive Compensation Program. The Company's compensation program consists of base salary, annual incentive bonus, retention bonus or signing bonus (paid in cash), and long-term incentives, generally in the form of options to purchase Common Stock or profits interests in EDC.

Base Salary. The Compensation and Plan Administration Committee generally reviews and determines the relative levels of base salary for executive officers on an annual basis. In determining the levels of base salary for an executive officer, the Compensation and Plan Administration Committee

considers relative levels of responsibility, individual, Company and division performance and data available with respect to compensation paid by other companies of comparable size, industry type and complexity.

Annual Incentive Compensation. During 2005, executive officers participated in cash bonus programs. The goal of these programs is to motivate and provide incentive to the key employees of the Company to maximize profits. The principal cash bonus programs for 2005 provided for funding based on division earnings meeting certain levels and cash awards to executive officers based on the individual's performance. All executive officers participated in cash bonus programs in 2005, other than Mr. Behrent, and received cash bonuses.

Long-Term Incentives. In May 1996, the Company established the 1996 Plan to provide for various types of equity-related awards to (1) promote the success and enhance the value of the Company by linking the personal interests of participants to those of the Company's stockholders, and by providing participants with an incentive for outstanding performance, and (2) provide flexibility to the Company in its ability to motivate, attract and retain the services of participants upon whose judgment, interest and special effort the successful conduct of its operation is largely dependent.

Under the 1996 Plan, the Compensation and Plan Administration Committee has the discretion to determine who will be given awards in any year, the types of awards to be made (such as stock options, stock appreciation rights, restricted stock or other awards) and the number of shares of Common Stock to be covered by a particular award. In determining whether to make an award to a particular executive officer and the size of such award, the Compensation and Plan Administration Committee considers the executive officer's level of responsibility within the Company, prior awards made to the executive officer, individual and Company performance and the amount of the executive officer's other compensation components. During 2005 executive officers received option grants under the 1996 Plan.

In connection with the formation of EDC in May 2005 and pursuant to their employment agreements, James Caparro and Thomas Costabile were granted profits interests in EDC that will entitle them, subject to vesting requirements, to up to 10% and 5%, respectively, of EDC's profits, after the Company has received a return of its equity capital contribution and certain internal rate of return hurdles and other conditions have been met. See

EMPLOYMENT AGREEMENTS above. Additionally, in connection with the formation of EDC, profits interests that will entitle grantees to up to 5% of EDC's profits were set aside for future grants.

Section 162 (m). Section 162(m) of the Internal Revenue Code of 1986 provides that compensation paid to a company's chief executive officer or any of the four other highest paid executive officers employed by the company at year-end will not be deductible by the company for federal income tax purposes to the extent such compensation exceeds \$1.0 million. Section 162(m) exempts from this limitation certain performance-based compensation. Base salary and bonuses paid to the named Executive Officers have historically been under \$1.0 million and compensation from the exercise of stock options under the Company's stock option plans qualified as exempt performance-based compensation.

Chief Executive Officer Compensation. Mr. Bailey is being paid a salary at the annual rate of \$650,000 for serving as Chairman and Chief Executive Officer and earned a 2005 cash bonus of \$425,567. Mr. Bailey did not receive any option grants in 2005. However, in May 2005, the Board of Directors approved the grant of future options to Mr. Bailey as follows: upon the closing of one or more future acquisitions, Mr. Bailey would receive 10,000 options per each \$10 million of transaction value capped at a maximum of 225,000 options. In determining Mr. Bailey's 2005 compensation the Compensation and Plan Administration Committee considered Mr. Bailey's value and contributions to the Company and compensation levels for chief executive officers of other companies of comparable size and complexity in the Company's industries. Mr. Bailey's 2005 bonus was based on the performance of both of the Company's divisions. Since EDC was not formed until May 31, 2005, 100% of his bonus was attributed to the performance of Messaging through that time period. Beginning on June 1 and through the end of the year,

80% of his bonus was based on the performance of EDC and 20% was based on the performance of Messaging.

The returns are calculated assuming the reinvestment of dividends. The Company has not paid any cash dividends during the period covered by the graph below. The stock price performance shown on the graph below is not necessarily indicative of future stock price performance.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Company was not party to any reportable related party transactions in 2005.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires that directors and officers of the Company and persons who beneficially own more than 10% of the Common Stock file with the Securities and Exchange Commission initial reports of beneficial ownership and reports of changes in beneficial ownership of the Common Stock of the Company. Directors, officers and greater than 10% beneficial owners are required by Securities and Exchange Commission regulations to furnish the Company with copies of all Section 16(a) forms they file.

To the Company's knowledge, based solely on review of the copies of such reports, and amendments thereto, furnished to the Company and written representations that no other reports were required, during 2005 all reports required by Section 16(a) to be filed by its directors, officers and greater than 10% beneficial

owners were filed on a timely basis, except that Mr. Sibley and Mr. Speaks each filed one late Form 4 reporting one transaction and Mr. Madison filed a late Form 3.

AMENDMENT TO 1996 INCENTIVE STOCK PLAN

The Company maintains the Glenayre 1996 Incentive Stock Plan. The 1996 Incentive Stock Plan is designed to promote the Company's long-term growth and profitability by providing long-term, stock-based incentive compensation to the key people who contribute to this growth and profitability. The 1996 Incentive Stock Plan is also intended to enable the Company to attract, retain and reward persons who hold or will hold positions of substantial authority with the Company.

Under the 1996 Incentive Stock Plan, 9,650,000 shares of Common Stock are currently reserved for grants of awards in connection with the grant of stock options, stock appreciation rights (SARs), restricted stock, restricted stock units and performance shares to eligible participants. Participation under the 1996 Incentive Stock Plan is limited to key employees, other key persons and non-officer directors of the Company.

In March 2006, the Board of Directors adopted an amendment to the 1996 Incentive Stock Plan (the **Amendment**) that would increase the number of shares of Common Stock available under the 1996 Incentive Stock Plan for the grant of stock options, SARs, restricted stock, restricted stock units and performance shares by 3,000,000 (approximately 4.4% of the outstanding Common Stock) from 9,650,000 to 12,650,000. The Amendment makes no changes to the 1996 Incentive Stock Plan other than the increase in the number of shares available for grants of awards. The following is a summary of the material terms of the 1996 Incentive Stock Plan as amended by the Amendment (the **1996 Plan**).

Under the 1996 Plan, shares covered by awards will again be available for awards if and to the extent the award is cancelled, terminated, expires or lapses unless the termination is for a tandem SAR upon the exercise of the related option or a related option upon the exercise of the corresponding tandem SAR.

The Amendment will be effective upon approval by the stockholders. If the Amendment is not approved by stockholders, the 1996 Plan will continue in effect without the additional number of available shares and under its current terms.

The Board of Directors believes that the proposed increase in the number of shares available for issuance under the 1996 Plan is necessary in order for the Company to attract, motivate and retain key employees, other key persons and non-officer directors with the desired experience and ability and to further enhance their identity of interest with the interest of the Company's stockholders. The Board of Directors also believes the availability of awards under the 1996 Plan is essential for the Company to compete with other companies offering similar plans in attracting and retaining experienced and qualified key employees in both management and non-management positions, other key persons and non-officer directors. The Company anticipates that the proposed increase in the number of shares available for issuance under the 1996 Plan will be awarded ratably over the next two to three years.

The 1996 Plan is administered by the Compensation and Plan Administration Committee of the Board of Directors (the **Compensation Committee**). In addition to the general administration of the 1996 Plan, the Compensation Committee selects the key employees and other key persons to receive awards from time to time in such form and amounts as it determines and with such limitations, restrictions or conditions as it deems appropriate. Key employees and other key persons providing services to the Company or a subsidiary eligible to participate in the 1996 Plan are those employees who occupy managerial or other important positions who have or are expected to make important contributions to the business of the Company or a subsidiary, as determined by the Compensation Committee. Approximately 280 employees are expected to be eligible to participate in the 1996 Plan in 2006. Non-officer directors, who are currently only eligible to receive formula grants of nonqualified stock options and Restricted Stock Units, are those directors who are not employees of

the Company or any subsidiary on the date of grant of an award. There are currently eight non-officer directors who are eligible to participate in the 1996 Plan.

Awards of Stock Options and SARs. The 1996 Plan provides for the grant of options to purchase shares of Common Stock at option prices determined by the Compensation Committee as of the date of grant. For stock option awards intended to qualify as performance-based compensation under Section 162(m) of the Code or as incentive stock options (described below), the option price must not be less than the fair market value of shares of Common Stock at the close of business on the date of grant. The fair market value of the Common Stock on March 31, 2006, was \$5.25 per share. The 1996 Plan also provides for the grant of SARs (either in tandem with stock options or freestanding), which entitle holders upon exercise to receive either cash or shares of Common Stock or a combination thereof, as the Compensation Committee in its discretion shall determine, with a value equal to the difference between (1) the fair market value on the exercise date of the shares with respect to which an SAR is exercised and (2) the fair market value of such shares on the date of grant (or, if different, the exercise price of the related option in the case of a tandem SAR).

Awards to key employees and key persons of options under the 1996 Plan, which may be either incentive stock options, which qualify for special tax treatment, or nonqualified stock options, are determined by the Compensation Committee. However, the 1996 Plan does not permit the grant of any incentive stock options after May 21, 2006. The terms and conditions of each such option and of any SAR are determined by the Compensation Committee at the time of grant. Options and SARs granted under the 1996 Plan must expire not more than 10 years from the date of grant, and the option agreements entered into with the optionees specify the extent to which options and SARs may be exercised during their respective terms, including in the event of the optionee's death, disability or termination of employment.

Awards of Restricted Stock and Performance Shares. The 1996 Plan provides for the issuance of shares of restricted stock and performance shares on such terms and conditions as determined from time to time by the Compensation Committee. The Compensation Committee may not grant awards of restricted stock or restricted stock units covering in the aggregate more than 550,000 shares of Common Stock. The award agreement with the participant set forth the terms of any such award, including the applicable restrictions, specified performance goals or any other conditions deemed appropriate by the Compensation Committee. The value of a performance share equals the fair market value of a share of Common Stock. Earned performance shares may be paid in cash, shares of Common Stock or a combination thereof having an aggregate fair market value equal to the value of the earned performance shares as of the payment date. Common Stock used to pay earned performance shares may have additional restrictions as determined by the Compensation Committee. In addition, the Compensation Committee may cancel any earned performance shares and replace them with stock options determined by the Compensation Committee to be of equivalent value based on a conversion formula specified in the participant's performance share award agreement. Earned but unpaid performance shares may have dividend equivalents rights as determined by the Compensation Committee and evidenced in the award agreement, but would not have voting rights.

Award of Stock Options and Restricted Stock Units to Non-officer Directors. The 1996 Plan provides for the automatic grant of a nonqualified option to purchase 30,000 shares of Common Stock to each non-officer director upon becoming a non-officer director and on each third anniversary thereafter if he or she is then a non-officer director. The option price is equal to the fair market value of the Common Stock on the date of the grant. Options granted to a non-officer director are subject to a two-year vesting schedule with one-third vesting upon grant and the remainder vesting equally on each anniversary date of grant. Upon the termination of a non-officer director's service on the Company's board of directors for any reason, any unvested portion of an option is forfeited by the director. The options expire ten years from the date of grant. Upon the exercise of an option, or any portion thereof, the exercise price must be paid either in cash or by tendering shares of Common Stock with a fair market value at the date of the exercise equal to the portion of the exercise price, which is not paid in cash. In addition, non-officer directors are entitled to receive a number of restricted stock units equal to \$18,000 (or such greater dollar amount as the Compensation Committee shall determine from time to time) divided by the fair market value of the Common Stock on the last trading day immediately

preceding the Annual Meeting of the Stockholders. Such restricted stock units vest in equal amounts on each of the first, second and third anniversaries of the grant date. A non-officer director is entitled to receive one share of Common Stock for each restricted stock unit that becomes vested.

Equity Compensation Plan Information

Because awards under the 1996 Plan are discretionary, awards are generally not determinable at this time. The following table presents information on the Corporation's equity compensation plans at December 31, 2005:

December 31, 2005	(a)	(b)	(c)
Plan	Number of securities to be issued upon exercise of outstanding options, warrants and rights	Weighted-average exercise price of outstanding options, warrants and rights	Number of securities remaining available for future issuance under equity compensation plans (excluding securities reflected in column (a))
Equity compensation plans approved by security holders:			
Incentive Stock Plans	6,103,428	\$ 3.28	1,118,373
Employee Stock Purchase Plan	Not Applicable ⁽¹⁾	Not Applicable ⁽¹⁾	719,914
Total:	6,103,428	\$ 3.28	1,838,287
Equity compensation plans not approved by security holders:			
None			
Total:	6,103,428	\$ 3.28	1,838,287

(1) The Company maintains an Employee Stock Purchase Plan that permits full-time employees to have payroll deductions made to

purchase shares of Common Stock during specified purchase periods. The purchase price is the lower of 85% of (1) the fair market value per share of Common Stock on the first business day of the purchase period or (2) the fair market value per share of Common Stock on the last business day of the purchase period. Consequently, the price at which shares will be purchased for the purchase period currently in effect and future purchase periods is not known.

Code Section 162(m). Section 162(m) of the Code precludes a publicly held Company from claiming a compensation deduction for compensation in excess of \$1.0 million paid to the chief executive officer or any of the four most highly compensated officers other than the chief executive officer. This limitation does not apply, however, to qualified performance-based compensation. Stock options and SARs granted under the 1996 Plan that have an exercise price equal at least to fair market value at the date of grant should qualify as performance-based compensation under Section 162(m).

In addition, the 1996 Plan authorizes the Compensation Committee to make awards of restricted stock or performance shares that are conditioned on the satisfaction of certain performance criteria. For such awards intended to result in qualified performance-based compensation, the Compensation Committee

would establish the applicable performance conditions prior to or within 90 days after the start of the applicable performance period. The Compensation Committee may select from the following performance measures for this purpose: (1) earnings per common share (as determined in accordance with generally accepted accounting principles), (2) net income, (3) net sales, or (4) total stockholder return (measured by the percentage change in the value of an initial investment in shares of Common stock over a specified period assuming reinvestment of all dividends during the period). The performance conditions would be stated in the form of an objective, nondiscretionary formula, and the Compensation Committee would certify in writing the attainment of such performance conditions prior to any payout with respect to such awards. The Compensation Committee in its discretion may adjust downward any such award. A participant may not receive an award covering in the aggregate more than 500,000 shares of Common Stock in a given calendar year.

Change in Capitalization. The 1996 Plan provides that in the event of any change in corporate capitalization, such as a stock split, or a corporate transaction such as any merger, consolidation, separation, spin-off, or other distribution of stock or property of the Company, any reorganization of the Company or any partial or complete liquidation of the Company, the Compensation Committee may adjust:

the number and class of shares which may be delivered under awards granted under the 1996 Plan,

the number, class or price of shares subject to outstanding awards granted under the 1996 Plan, and

the limitation on awards to a participant during a calendar year.

The Compensation Committee may make such determinations in its discretion to prevent the dilution or enlargement of rights under the 1996 Plan.

Change in Control. The 1996 Plan provides that in the event of a change in control of the Company, all options and SARs would become fully exercisable as of the date of the change in control and remain exercisable through their full term. Additionally, outstanding awards of restricted stock and performance shares would become immediately vested, and any applicable performance conditions would be deemed satisfied (at the target performance condition, if applicable) as of the date of the change in control.

Amendment and Termination of the 1996 Plan. The Board of Directors has the power to amend, modify or terminate the 1996 Plan on a prospective basis. Stockholder approval of certain amendments may be required by Section 162(m) or 422 of the Code or the Nasdaq rules.

Federal Income Tax Treatment, Incentive Stock Options. Incentive stock options (**ISOs**) granted under the 1996 Plan will be subject to the applicable provisions of the Code, including Code Section 422. If shares of Common Stock of the Company are issued to an optionee upon the exercise an ISO, and if no disqualifying disposition of such shares is made by such optionee within one year after the exercise of the ISO or within two years after the date the ISO was granted, then (1) no income will be recognized by the optionee at the time of the grant of the ISO, (2) no income, for regular income tax purposes, will be realized by the optionee at the date of exercise, (3) upon sale of the shares acquired by exercise of the ISO, any amount realized in excess of the option price will be taxed to the optionee, for regular income tax purposes, as a long-term capital gain and any loss sustained will be a long-term capital loss and (4) no deduction will be allowed to the Company for federal income tax purposes. If a disqualifying disposition of such shares is made, the optionee will realize taxable ordinary income at the time of such sale in an amount equal to the excess of the fair market value of the shares purchased at the time of exercise over the option price (the bargain purchase element) and the Company will be entitled to a federal income tax deduction equal to such amount. The amount of any gain in excess of the bargain purchase element realized upon a disqualifying disposition

will be taxable as capital gain to the holder (for which the Company will not be entitled to a federal income tax deduction). Upon exercise of an ISO, the optionee may be subject to alternative minimum tax.

Federal Income Tax Treatment, Nonqualified Stock Options. With respect to nonqualified stock options (**NQSOs**) granted to optionees under the 1996 Plan, (1) no income is realized by the optionee at the time the NQSO is granted, (2) at exercise, ordinary income is realized by the optionee in an amount equal to the difference between the option price and the fair market value of the shares on the date of exercise, and the Company receives a tax deduction for the same amount and (3) on disposition, appreciation or depreciation after the date of exercise is treated as either short-term or long-term capital gain or loss depending on whether the shares have been held for more than one year.

Federal Income Tax Treatment, Restricted Stock. Upon becoming entitled to receive shares of restricted stock at the end of the applicable restricted period without a forfeiture, the recipient has ordinary income in an amount equal to the fair market value of the shares at that time. However, a recipient who elects under Code Section 83(b) within 30 days of the date of the grant will have ordinary income on the date of the grant equal to the fair market value of the shares of restricted stock as if the shares were unrestricted and could be sold immediately. If the shares subject to such election are forfeited, the recipient will not be entitled to any deduction, refund or loss for tax purposes. Upon the sale of the shares after the forfeiture period has expired, the holding period to determine whether the recipient has long-term or short-term capital gain or loss begins when the restriction period expires, and the tax basis will be equal to the fair market value of the shares when the restricted period expires. However, if the recipient timely elects to be taxed as of the date of grant, the holding period commences on the date of the grant and the tax basis will be equal to the fair market value of the shares on date of the grant as if the shares were then unrestricted and could be sold immediately. The Company generally will be entitled to a deduction equal to the amount that is taxable as ordinary compensation income to the recipient.

Federal Income Tax Treatment, Performance Shares and Restricted Stock Units. A participant who is awarded performance shares or a director who receives restricted stock units will not recognize income and the Company will not be allowed a deduction at the time the award is made. When a participant receives payment for performance shares or restricted stock units in shares of Common Stock or cash, the fair market value of the shares or the amount of the cash received will be ordinary income to the participant and will be allowed as a deduction for federal income tax purposes to the Company. However, if there is a substantial risk that any shares of Common Stock used to pay out earned performance shares will be forfeited (for example, because the Compensation Committee conditions such shares on the performance of future services), the taxable event is deferred until the risk of forfeiture lapses. In this case, the participant can elect to make a Code Section 83(b) election as previously described. The Company can take the deduction at the time the income is recognized by the participant.

Stockholder Approval. The Amendment is being submitted to the Company's stockholders for approval so that: options and SARs granted under the 1996 Plan qualify for the exclusion for performance-based compensation under Section 162(m) of the Code,

the Compensation Committee may grant other awards under the 1996 Plan that are intended to qualify for the exclusion, and

the Nasdaq rules will be satisfied.

A vote in favor of approving the Amendment will be a vote approving all the material terms and conditions of the 1996 Plan for purposes of the performance-based exemption under Section 162(m) of the Code, including the performance measures, eligibility requirements and limits on various stock awards, in each case as described above.

The Board of Directors recommends a vote **FOR** approval of the Amendment.

INDEPENDENT PUBLIC ACCOUNTANTS

The Audit Committee of the Board of Directors has selected Ernst & Young LLP as the Company's independent registered public accounting firm to audit the financial statements of the Company and its subsidiaries for the year ending December 31, 2006. This selection is being presented to the stockholders for their ratification at the 2006 Annual Meeting. Representatives of Ernst & Young LLP are expected to be present at the 2006 Annual Meeting with an opportunity to make a statement if they desire to do so, and the representatives are expected to be available to respond to appropriate questions.

Audit and Non-Audit Fees

The following table presents fees for professional audit services rendered by Ernst & Young LLP for the audit of the Company's annual financial statements for the years ended December 31, 2005 and December 31, 2004 and fees billed for other services rendered by Ernst & Young LLP during those periods.

	2005	2004
Audit Fees ⁽¹⁾	\$1,654,767	\$1,292,411

Tax Fees ⁽³⁾	30,459	84,807
All Other Fees

also include professional services rendered for the attestation of management's report on internal control over financial reporting and the audit of the Company's internal control over financial reporting.

- (2) Audit Related Fees consist of the aggregate fees billed for assurance and related services that are reasonably related to the performance of the audit or review of the Company's consolidated financial statements and are not reported under Audit Fees. These fees principally included fees for services rendered in connection with statutory audit of subsidiaries, mergers and acquisition services, and other accounting advisory services.

- (3) Tax services provided by

Ernst & Young
LLP principally
included review

consultation
regarding the
Company's
federal, state
and foreign tax
returns and tax
planning.

The Audit Committee's current practice is to pre-approve all audit services and all non-audit services to be provided to the Company by its independent registered public accounting firm.

The Board of Directors recommends a vote **FOR** the ratification of the selection of Ernst & Young LLP as the Company's independent registered public accounting firm to audit the financial statements of the Company and its subsidiaries for the year ending December 31, 2006. Stockholder ratification of the selection of Ernst & Young LLP as the Company's independent public accountants is not required by the Company's By-Laws or otherwise. The Company is submitting the selection of Ernst & Young LLP to the stockholders for ratification as a matter of good corporate practice. If the stockholders do not ratify the selection of Ernst & Young LLP, the selection of the Company's independent registered public accounting firm will be reconsidered by the Audit Committee.

Examples of stockholder communications that would be considered improper for submission include, without limitation, communications that:

The Company's By-Laws further provide that the presiding officer of an annual meeting shall refuse to acknowledge any untimely proposal or nomination.
