Information Concerning the Board of Directors and Committees

The business of the Company is under the general management of the Board of Directors as provided by the laws of North Carolina and our Bylaws. During the year ended December 31, 2000, the Board of Directors held seven formal meetings, excluding actions that were taken by unanimous written consent during the year. Of the members serving on the board for the entire year, each attended at least 75% of the 2000 meetings of the Board of Directors and Board committees of which they were a member.

The Board of Directors has established an Audit Committee and a Compensation Committee. The Board has no Nominating Committee. The Audit Committee currently consists of Messrs. Pirotte, Tracy and Farinholt. The Audit Committee held two formal meetings during 2000, as well as telephonic meetings to discuss quarterly results with our auditors. The Audit Committee makes recommendations to the Board of Directors concerning its review of our internal controls, accounting system and the annual audit, and regarding the selection of independent auditors. The Compensation Committee currently consists of Messrs. Pirotte, Puckett and Farinholt. The Compensation Committee recommends employee salaries and incentive compensation to the Board of Directors and administers our stock option plans. During 2000, the Compensation Committee

Edgar Filing: PHARMANETICS INC - Form DEF 14A

Vote Required

The seven nominees receiving the highest number of affirmative votes of the shares present or represented and entitled to be voted at the Meeting shall be elected as directors of the Company.

The Board of Directors has unanimously approved and recommends that shareholders vote "FOR" the election of the management nominees listed above.

PROPOSAL NO. 2 -- RATIFICATION OF SELECTION OF INDEPENDENT AUDITORS

The Board of Directors has appointed the firm PricewaterhouseCoopers LLP ("PwC"), Raleigh, North Carolina, to serve as our independent auditors for the year ending December 31, 2001, and recommends that the shareholders ratify such action. If the appointment of PwC is not ratified by the shareholders, the Board of Directors will reconsider its selection. PwC has audited our accounts since 1994 and has advised us that it does not have, and has not had, any direct or indirect financial interest in the Company or its subsidiaries in any capacity other than that of serving as independent auditors. Representatives of PwC are expected to attend the Meeting. They will have an opportunity to make a statement, if they desire to do so, and will also be available to respond to appropriate questions.

Audit Fees

PwC billed the Company aggregate fees of \$55,500 for professional services rendered for the audit of our annual financial statements for fiscal year 2000 and for reviews of the financial statements included in our quarterly reports on Form 10-Q for the first three quarters of fiscal 2000.

All Other Fees

PwC billed the Company aggregate fees of \$36,660 for professional services rendered in fiscal 2000 other than audit services and review of quarterly reports. These fees resulted primarily from services rendered for the review of our fiscal 1999 tax returns and review of our registration statements and reports filed with the SEC during fiscal 2000 as part of our reporting requirements. The Audit Committee of the Board of Directors considered these activities to be compatible with the maintenance of PwC independence. We did not engage PwC in fiscal 2000 to perform any services for financial information systems design or implementation.

The affirmative vote of the holders of a majority of the shares of our Common Stock present or represented and voting on this proposal at the Meeting shall constitute ratification of the appointment of PwC.

Edgar Filing: PHARMANETICS INC - Form DEF 14A

The Board of Directors has unanimously approved and recommends a vote "FOR" the ratification of the appointment of PwC as our independent auditors for the year ending December 31, 2001.

Option Grants, Exercises and Holdings and Fiscal Year-End Option Values.

The following table summarizes all option grants during the year ended December 31, 2000 to the Named Executive Officers.

OPTION GRANTS DURING YEAR ENDED DECEMBER 31, 2000

Name	Number of Shares Underlying Options Granted	% of Total Options Granted to Employees in Fiscal Year 2000	Exercise or Base Price Per Share (1)	Expiration Date	Potential Value Annual Rate Price Appreciation Options 5%
James A. McGowan	100,000 (3)	46%	\$ 14.56	5/8/10	\$ 915,671

- (2) The compounding assumes a 10-year exercise period for all option grants. These amounts represent certain assumed rates of appreciation only. Actual gains, if any, on stock option exercises are dependent on the future performance of the Common Stock, and overall stock market conditions. The amounts reflected in this table may not necessarily be achieved.
- (3) This grant was made in May 2000 and becomes exercisable over four years from the date of grant, based on continued employment with us. To the extent not already exercisable, the options become fully vested

by their terms upon the consummation of a merger in which we are not the surviving corporation, a transfer of all our stock, a sale of substantially all of our assets or a dissolution or liquidation of the Company, unless the successor corporation assumes the outstanding options or substitutes substantially equivalent options.

Edgar Filing: PHARMANETICS INC - Form DEF 14A

The following table sets forth information concerning option exercises during 2000 and option holdings as of December 31, 2000 by the Named Executive Officers.

Change of Control Arrangements

In the interest of promoting organizational stability in the context of a potential acquisition or change of control, we entered into a change of control agreement with Mr. Funkhouser in October 1997. Under this agreement, if Mr. Funkhouser resigns or his employment by the Company is terminated for any reason within two years following a change of control of the Company, he is entitled to receive a severance payment from the Company, payable in full and in cash within 30 days, equal to two times the total compensation paid by the Company to Mr. Funkhouser, including all wages, salary, bonuses and incentive compensation, during the twelve months preceding the year in which the severance obligation becomes payable.

Supplemental Executive Retirement Plan

Effective February 21, 2001, we implemented a non-qualified Supplemental Executive Retirement Plan, or SERP. All of our executive officers are eligible for the plan. We have entered into SERP Agreements with each of John P. Funkhouser, Michael D. Riddle and James A. McGowan. The SERP is a non-qualified, unfunded, deferred compensation plan in which each participant's account is a promise to pay future benefits. Provided the participant continues

Edgar Filing: PHARMANETICS INC - Form DEF 14A

to be a full-time employee, we will provide credits annually to each participant's account in an amount to be determined by the Board of Directors in its sole discretion. Each annual allocation vests ratably on a quarterly basis over a four-year period. The account balance is the aggregate of all allocations adjusted for investment gain or loss (as determined by the return of the investments suggested by the participant), less any distributions made to a participant or his beneficiaries. Each participant may make investment suggestions for his account, but the investment decision for each account is in the sole discretion of the Company. Each participant, or his beneficiaries, is entitled to receive an amount equal to his vested account balance if: (1) the participant suffers a disability while a full-time employee of the Company or (2) the participant terminates employment. Each participant, or his beneficiaries, is entitled to receive an amount equal to his total balance if: (1) the participant dies while a full-time employee of the Company, (2) the participant is a full-time employee at his normal retirement date, defined as

8

the first day of the calendar month following the month in which the participant retires from service on or after he reaches age 65 or (3) a change in control of the Company occurs. Upon a change in control, the participant would also receive a minimum of 150% of the participant's base salary for the most recent calendar year. For the year ending December 31, 2001, the Board of Directors allocated to each participant's account an amount equal to 15% of his base salary.

Compensation of Directors

Each of the Company's non-employee directors receives a retainer of \$5,000 per year, \$2,000 per Board meeting, \$1,000 per committee meeting and \$500 per telephonic meeting that he or she attends. In 2000, each non-employee and non-affiliated director received a non-qualified option grant of 5,000 shares of Common Stock upon re-election to the Board. All directors are reimbursed by the Company for expenses incurred to attend Board meetings.

Report of the Compensation Committee on Executive Compensation

The Compensation Committee of the Board of Directors (the "Committee"), consisting entirely of non-employee directors, approves all policies under which compensation is paid or awarded to the Company's executive officers. The Committee is currently composed of Messrs. Pirotte, Puckett and Farinholt. The Committee also administers the Company's stock plans.

Neither the material in this report nor the performance graph included in this proxy statement under the heading " -- Performance Graph" (the "Performance Graph") is soliciting material, is or will be deemed filed with the SEC or is or will be incorporated by reference in any filing of the Company under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, whether made before or after the date of this Proxy Statement and irrespective of any general incorporation language in such filing.

Compensation Philosophy. The Company's executive compensation program has three objectives: (1) to align the interests of the executive officers with the interests of the Company's shareholders by basing a significant portion of an

Edgar Filing: PHARMANETICS INC - Form DEF 14A

executive's compensation on the Company's performance; (2) to attract and retain highly talented and productive executives; and (3) to provide incentives for superior performance by the Company's executives. To achieve these objectives, the Committee has crafted a program that consists of base salary, short-term incentive compensation in the form of cash bonuses and long-term incentive compensation in the form of stock and stock options. These compensation elements are in addition to the general benefits programs which are offered to all of the Company's employees.

Each year, the Committee reviews the Company's executive compensation program. In its review, the Committee uses compensation survey data prepared by outside consultants to study the compensation packages for executives of companies at a comparable stage of development and in the Company's geographic area. The Committee assesses the competitiveness of the Company's executive compensation program and reviews the Company's financial and operational performance for the previous fiscal year. The Committee also gauges the success of the compensation program in achieving its objectives in the previous year and considers the Company's overall performance objectives. For compensation paid to the Chief Executive Officer and other Named Executive Officers in 2000, no reference was made to the data for comparable companies included in the Performance Graph.

Each element of the Company's executive compensation program is discussed below.

Base Salaries. The Committee annually reviews the base salaries of the Company's executive officers. The base salaries for the Company's executive officers for fiscal 2000 were established by the Committee at the beginning of that fiscal year. In addition to considering the factors listed in the foregoing section that support the Company's executive compensation program generally, the Committee reviews the responsibilities of the specific executive position and the experience and knowledge of the individual in that position. The

9

Committee also measures individual performance based upon a number of factors, including a measurement of the Company's historic and recent financial and operational performance and the individual's contribution to that performance, the individual's performance on non-financial goals and other contributions of the individual to the Company's success, and gives each of these factors relatively equal weight without confining its analysis to a rigorous formula. As is typical of most corporations, the actual payment of base salary is not conditioned upon the achievement of any predetermined performance targets.

Incentive Compensation. Cash bonuses established for executive officers are intended to motivate the individual to work hard to achieve the Company's financial and operational performance goals or to otherwise incent the individual to aim for a high level of achievement on behalf of the Company in the coming year. In 2000, the Company paid cash bonuses to its executive officers based on the achievement of Company objectives established in the beginning of 2000.

Long-Term Incentive Compensation. The Company's long-term incentive compensation plan for its executive officers is based upon the Company's stock

Edgar Filing: PHARMANETICS INC - Form DEF 14A

plans. The Company believes that placing a portion of its executives' total compensation in the form of stock or stock options achieves three objectives. It aligns the interest of the Company's executives directly with those of the Company's shareholders, gives executives a significant long-term interest in the Company's success and helps the Company retain key executives. Options generally vest over four years based on continued employment. In determining the number of options to grant an executive, the Board primarily considered the executive's past performance and the degree to which an incentive for long-term performance would benefit the Company, as well as the number of shares and options already held by the executive officer. It is the Committee's policy to grant options at fair market value unless particular circumstances warrant otherwise.

Benefits. The Company believes that it must offer a competitive benefits program to attract and retain key executives. During fiscal 2000, the Company provided the same medical and other benefits to its executive officers that are generally available to its other employees.

Compensation of the Chief Executive Officer. The Chief Executive Officer's compensation is based on the same elements and measures of performance as is the compensation for the Company's other executive officers. The Committee approved a base salary for Mr. Funkhouser for fiscal 2000 of \$234,000 based on the same factors as were considered in determining the base salaries of the other executive officers.

Section 162(m) of the Code. It is the responsibility of the Committee to address the issues raised by Section 162(m) of the Code. This Section makes certain non-performance based compensation in excess of \$1,000,000 to executives of public companies non-deductible to the companies. The Committee has reviewed these issues and has determined that it is not necessary for the Company to take any action at this time with regard to these issues.

In August 1998, the Company entered into a Common Stock Purchase Agreement with Chiron Diagnostics Corporation ("Chiron Diagnostics"), pursuant to which the Company issued and sold to Chiron Diagnostics an aggregate of 600,000 shares of its Common Stock in exchange for \$6,000,000 cash, or \$10.00 per share. In November 1998, Bayer acquired Chiron Diagnostics and made it a part of Bayer Diagnostics. Bayer Diagnostics currently owns approximately 8.0% of the Company's outstanding Common Stock. The Common Stock Purchase Agreement provides, among other things, that Bayer Diagnostics will not acquire more than 20% of the Company's voting securities, except where a third party accumulates or attempts to buy specified percentages of the Company's voting stock. Except under limited circumstances, Bayer Diagnostics cannot transfer its shares to an unaffiliated person unless the Company is first offered the right to purchase such shares. Except with respect to certain significant events (including a sale or dissolution of the Company), Bayer Diagnostics also agreed to vote its shares in accordance with the recommendation of the Company's Board or in not less than the proportion as the votes cast by other shareholders. In addition, the Company agreed to include in the slate of nominees recommended by the Company for election as directors of the Company at the 1999 annual meeting one person designated by Bayer Diagnostics and reasonably acceptable to the Company. Last year's Board nominee designated by Bayer Diagnostics and approved by the Company

was Frances L. Tuttle. Ms. Tuttle has been nominated by the Company again this year. The Company also granted to Bayer Diagnostics registration rights with respect to the purchased shares and the right to receive notification of and to make a competing bid with respect to certain change of control transactions. In the event of a change in control transaction at less than \$10.00 per share, the Company must pay Bayer Diagnostics the difference between \$10.00 and the price per share in the transaction, unless Bayer Diagnostics has failed to meet its minimum purchase requirements under the Distribution Agreement between them.

Insiders are required by SEC regulations to furnish the Company with copies of all Section 16(a) forms they file.
