A: You are not being asked to approve anything. This Information Statement is being provided to you solely for your information. Shareholders holding a majority of the outstanding voting Common Stock of the Company have already agreed to approve:

- . a one-for-three reverse stock split of the Company's outstanding Common Stock;
- . a change in the name of the Company to "Town House Holdings, Inc.," or such similar name as determined by the Board of Directors, and an increase in capitalization from 20,000,000 shares to 50,000,000 shares of Common Stock;
- . the Company's 2004 Stock Incentive Plan, described in this Information Statement;
- . the election of a new Board of Directors consisting of six persons, who are designees of Town House: Mr. Fang Zhong, Ms. Hu Min, Mr. Luo Yun Fang, Mr. Fang Wei Feng, Mr. Fang Wei Jun, and Ms. Fang Hui; and
- . the approval of the appointment of Murrell, Hall, McIntosh & Co., PLLP, the auditors of Town House, as the independent auditors of the Company for the fiscal year ending December 31, 2004.

Q: Why have the Board of Directors and a majority of the shareholders agreed to approve these actions?

A: All of these actions are necessary to accomplish the terms of the Stock Exchange Agreement (the "Exchange Agreement") dated as of January 19, 2004, as amended, between the Company, Town House and the shareholders of Town House.

Q: What are the basic terms of the transaction with Town House?

A: The shareholders of Town House will acquire control of the Company (approximately 92% of the outstanding Common Stock at the closing of the transaction) in exchange for all of the outstanding stock of Town House. After the transaction is completed, Town House will be a wholly-owned subsidiary of the Company and the Company will be controlled by the former shareholders of Town House. You will retain all of your present stockholdings in the Company.

Q: Are there any conditions to the transaction with Town House?

A: Yes. There are several conditions, including the following:

- . Approval of a one-for-three reverse stock split of the Company's outstanding Common Stock;
- . Approval of the Company's name change and increase in capitalization;
- . Approval of the Company's new independent auditors; and

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

. Approval of the Company's 2004 Stock Incentive Plan.

Q: What business is conducted by Town House?

1

A: The principal business operations of Town House are conducted by and through its subsidiary, Wuhan Pacific Real Estate Development Company Limited ("Wuhan Pacific"). Wuhan Pacific is one of the first privately owned property developers in Wuhan City and is one of the largest property developers in Wuhan City, in the People's Republic of China ("PRC") based on a list of top 100 property development enterprises in Wuhan City in terms of Gross Floor Area ("GFA") sold in 2002 published by the Wuhan Statistics Bureau. It engages principally in the development and sale of high quality commercial and private residential properties catering to the mass residential property market in Wuhan City.

Q: Are there risks involved in the transaction with Town House?

A: Yes. After the transaction is completed, the Company's success will be totally dependent upon the success of Town House, and its enterprises in the PRC. The success of Town House will depend on a number of factors, including the growth in demand for developed properties in China; Town House's ability to compete; the influence of the PRC on the Town House's business; the ability to raise capital; and other factors. There are no assurances that Town House's operations will be profitable after the closing of the transaction.

Q: When do you expect to complete the transaction with Town House?

A: Immediately following twenty days after the date of the mailing of this Information Statement. As mentioned, there are a number of conditions to closing the transaction.

GENERAL INFORMATION

General Information Concerning the Company

Comet Technologies, Inc. (the "Company") is a "blank check" company which has been seeking to locate a business enterprise which it may acquire, merge or reorganize with, or become engaged in. The Company has been unable to find a suitable acquisition or merger candidate until January, 2004, when it entered into an agreement with Town House Land Limited, discussed below. Since its organization in 1986, the Company has not located any specific business enterprise for its involvement, nor had it entered into any arrangement or agreements with respect thereto. Since the completion of the Company's public offering in August 1986, the Company has reviewed and evaluated numerous business ventures for possible acquisition or participation by the Company. To date, the Company has not acquired any business venture or engaged in any active operations.

The Company was not engaged in business operations until January, 2004, when the Company entered into a Stock Exchange Agreement (the "Exchange Agreement") with Town House Land Limited ("Town House"), a company organized in the Hong Kong Special Administrative Region in The People's Republic of China, and the shareholders of Town House, providing for the acquisition of Town House in a reverse acquisition. Comet is a public company whose securities are quoted on the NASD Electronic Bulletin Board under the symbol "CMEK." Following the completion of the acquisition, the operations of Town House will become the principal operations of the Company.

Proposed Acquisition of Town House

The Company has entered into an Exchange Agreement with Town House and the shareholders of Town House, providing for the acquisition of all of the shares of Town House, in exchange for the issuance of a total of 18,390,000 post-split shares of Common Stock of the Company to the Town House shareholders. If the transaction is consummated, Town House will become a wholly-owned subsidiary of the Company, and the former shareholders of Town House will then hold approximately 92% of the outstanding shares of the Company, after issuance of all shares in connection with the transaction and the issuance of shares to consultants. For a description of the business of Town House, see "Information Concerning Town House," page 10.

Outstanding Shares and Voting Rights

At May 3, 2004, the Company had 3,598,000 pre-split shares of Common Stock, par value \$0.001, outstanding. In connection with the Town House transaction (the "Acquisition"), the Company and holders of approximately 55.6% of the outstanding stock, have agreed to (a) amend the Articles of Incorporation of the Company to (i) change the Company's name to "Town House Holdings, Inc.," or such similar name as determined by the new Board of Directors; and (ii) increase the authorized capitalization from 20,000,000 shares to 50,000,000 shares of Common Stock, par value \$0.001; (b) effect a one-for-three reverse stock split (the "Reverse Split") of the presently issued and outstanding shares of the Company's Common Stock; (c) approve the Company's 2004 Stock Incentive Plan; and (d) approve the appointment of Murrell, Hall, McIntosh & Co., PLLP, as the independent auditors of the Company for the fiscal year ending December 31, 2004.

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

Upon filing of the Amendment to the Articles of Incorporation with the Nevada Secretary of State, the name change will be effective. On such date, the Reverse Split is also expected to be effective, and each certificate representing shares of Common Stock outstanding immediately prior to the Reverse Split (the "Old Shares") will be deemed reversed automatically without any action on the part of the shareholders on a one-for-three basis, and will represent one-third the number of outstanding shares of Common Stock after the Reverse Split (the "New Shares"); provided, however that no fractional New Shares will be issued as a result of the Reverse Split. All fractional shares will be rounded to the next highest whole number.

The Reverse Split alone will reduce the number of outstanding shares of Common Stock to approximately 1,199,333 shares. After the issuance of a total of 18,390,000 shares to the Town House shareholders in the Acquisition, and the issuance of up to a total of 400,000 shares to an affiliate under a Consulting Agreement, there will be a total of 19,989,333 shares of Common Stock outstanding.

The Common Stock issued pursuant to the Reverse Split will be fully paid and nonassessable. The voting and other rights that presently characterize the Common Stock will not be altered by the Reverse Split.

Approval of the Name Change and Capitalization

The proposed change of the Company's name to "Town House Holdings, Inc.," or such similar name as determined by the Board of Directors, is intended to convey more clearly a sense of the Company's business after the acquisition of Town House. The proposed increase in capitalization of the Company from 20,000,000 to 50,000,000 shares of Common Stock, par value \$0.001 is intended to provide the Company with additional authorized capital to seek future equity funding, and to enable the Company to make acquisitions using its Common Stock. Approval of the name change and increase in authorized capitalization requires the affirmative consent of at least a majority of the outstanding shares of Common Stock of the Company. Shareholders including officers and directors, holding a total of approximately 2,000,130 pre-split shares of Common Stock, representing approximately 55.6% of the outstanding shares of Common Stock, have already given such written consent.

At or shortly following the closing of the Acquisition (the "Closing"), it is anticipated that the designees of Town House will have been elected as members of the Board of Directors. Following such election, the current board members will have been replaced. It is also anticipated that the officers of Town House will be appointed as the new officers of the Company (see "MANAGEMENT").

Approval of the Reverse Split

Approval of the Reverse Split requires the affirmative consent of at least a majority of the outstanding shares of Common Stock. Shareholders holding a total of 2,000,130 pre-split shares of Common Stock, representing approximately 55.6% of the outstanding shares of Common Stock, have already given such consent.

Approval of the Company's 2004 Stock Incentive Plan

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

Approval of the Company's 2004 Stock Incentive Plan requires the affirmative consent of at least a majority of the outstanding shares of Common Stock. Shareholders holding a total of 2,000,130 pre-split shares of Common Stock, representing approximately 55.6% of the outstanding shares of Common Stock, have already given such consent.

Approval of Appointment of New Independent Auditors

Approval of the Company's appointment of Murrell, Hall, McIntosh & Co., PLLP, as the new independent auditors requires the affirmative consent of at least a majority of the outstanding shares of our Common Stock. Shareholders holding a total of 2,000,130 pre-split shares of Common Stock, representing approximately 55.6% of the outstanding shares of Common Stock, have already given such consent.

Record Date

The close of business May 3, 2004, has been fixed as the record date for the determination of shareholders entitled to receive this Information Statement.

Nevada Law does not provide any dissenters' rights with respect to the matters contemplated in this Information Statement. Therefore, no dissenter's rights of appraisal will be available in connection with these actions.

Expenses of Information Statement

The expenses of mailing this Information Statement will be borne by the Company, including expenses in connection with the preparation and mailing of this Information Statement and all documents that now accompany or may hereafter supplement it. It is contemplated that brokerage houses, custodians, nominees, and fiduciaries will be requested to forward the Information Statement to the beneficial owners of the Common Stock held of record by such persons and that the Company will reimburse them for their reasonable expenses incurred in connection therewith.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS

The following table sets forth information concerning the ownership of Common Stock of the Company, after giving effect to the Reverse Split, and immediately before and after consummation of the Acquisition of Town House, with respect to: (a) shareholders who were known to the Company to be beneficial owners of more than 5% of the Common Stock as of May 3, 2004; (b) current officers and directors as a group; (c) shareholders who will own beneficially more than 5% of the Common Stock immediately after the Acquisition; and (d) the individuals who it is anticipated will be the officers and directors after the Acquisition.

Unless otherwise indicated, each beneficial owner has sole voting and investment power with respect to such shares of Common Stock.

SUMMARY OF TRANSACTIONS CONTEMPLATED BY THE EXCHANGE AGREEMENT

The Board of Directors of the Company has unanimously approved the Stock Exchange Agreement ("Exchange Agreement") dated January 19, 2004, and amended on April 9, 2004, and May 13, 2004, among the Company, Town House and the shareholders of Town House, which provides for or requires completion of the following series of transactions as conditions to consummation of the Acquisition:

- . the issuance of a total of 18,390,000 post-split shares to the shareholders of Town House;

7

- . the change of the Company's name to "Town House Holdings, Inc.," or such similar name as determined by the new Board of Directors;
- . the increase in authorized capitalization from 20,000,000 shares to 50,000,000 shares of Common Stock, par value \$0.001;
- . the Reverse Split of the Common Stock of the Company on a

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

- one-for-three basis;
- . the election of six new directors of the Company;
- . the approval of the Company's 2004 Stock Incentive Plan;
- . the approval of the appointment of Murrell, Hall, McIntosh & Co., PLLP, as the independent auditors of the Company for the fiscal year ending December 31, 2004; and
- . the issuance of a total of 400,000 post-split shares of Common Stock to an affiliate of two principal shareholders under a Consulting Agreement.

A majority of the Company's shareholders have agreed by way of a majority consent of shareholders to the actions described above.

Reasons for Approval by Majority of Shareholders and Board of Directors

The Board of Directors has given careful consideration to the Acquisition, the existing business operations of Town House, the future business potential and plans of Town House, the current book value of the Common Stock of the Company, the interest of shareholders of the Company, and the risks of the Acquisition to the existing shareholders. Based on the foregoing considerations, the Board of Directors together with holders of a majority of outstanding shares believe that the transactions contemplated by the Exchange Agreement, including the Reverse Split and the name change, are fair and in the best interests of the Company. The holders of a majority of shares believe that the Company will benefit from the Acquisition, with an immediate impact being the significant new operations and revenues, assets, and shareholders' equity.

Accounting Treatment of the Acquisition

Upon Closing of the Acquisition, based upon management's consultation with the auditors for the Company, it appears that the proper accounting treatment is a so-called "reverse acquisition," whereby Town House will account for the transaction as a purchase of the Company. Town House is deemed to be the "acquirer" due to the shareholders of Town House ultimately controlling the reorganized company.

Summary of the Exchange Agreement

The following contains, among other things, a summary of the material features of the Exchange Agreement. This Summary does not purport to be complete and is subject in all respects to the provisions of, and is qualified in its entirety by reference to, the executed Exchange Agreement, as amended, which is attached hereto as Exhibit "A."

General Terms. The Company, Town House and certain shareholders of Town House have entered into an Exchange Agreement which provides that subject to meeting of certain conditions, including the Reverse Split on a one-for-three basis of the Common Stock of the Company, the Company will issue to the Town House shareholders a total of 18,390,000 shares of Common Stock with restrictive legend for all of the shares of Town House's capital stock. After the Closing of the Acquisition, Town House will be a wholly-owned subsidiary of the

Company and the ownership of the Company will be controlled by the former shareholders of Town House.

The Company has entered into a Consulting Agreement with Belair

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

Consulting, L.L.C. ("Belair"), an affiliate of Richard B. Stuart, President, director, and shareholder of the Company, and Jack Gertino, Secretary/Treasurer, director, and shareholder of the Company, under the terms of which it has agreed to issue a total of 400,000 post-split shares of restricted Common Stock, and pay up to \$130,000 in cash for consulting services to be provided, over a period of two (2) years. (See "CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS").

Upon completion of the Acquisition, the ownership of the Common Stock by (i) the current shareholders of Town House, as a group, and (ii) the current Company shareholders, as a group, is estimated to be as follows:

Groups of Shareholders	Common Stock	% Owned
Town House Shareholders	18,390,000	92.00%
Company Shareholders	1,199,333	6.00%
Belair	400,000	2.00%
Total of All Shareholders	19,989,333	100.00%

Closing. Closing is scheduled to take place at such time as agreed by the parties but in any event may not occur earlier than 20 days following notice to shareholders under this Information Statement as prescribed by Section 14(c) of the Securities Exchange Act of 1934 (the "Act").

Conditions for Closing. The obligation of each of the parties to consummate the Acquisition is subject to the following conditions, among others:

- . The change of the Company's name to "Town House Holdings, Inc.," or such similar name as determined by the new Board of Directors;
- . The increase in the authorized capitalization from 20,000,000 shares to 50,000,000 shares of Common Stock, par value \$0.001;
- . The designees of Town House are elected as directors;
- . The 2004 Stock Incentive Plan is approved;
- . The Reverse Split is completed; and
- . The new independent auditors are approved.

Termination; Waivers. The Acquisition may be terminated at any time prior to the Closing by mutual consent of the parties, or by either party if the conditions to the obligations of such party to consummate the Acquisition have not been satisfied, or waived. Each party may, by a written instrument, waive or extend the time for Closing or performance of any of the obligations of the other party pursuant to the Exchange Agreement.

Regulatory Approvals. No approvals by any governmental authority are required in order to complete the Acquisition. Within no less than fifteen (15) days after the date of Closing the Acquisition, the Company must file a Current Report on Form 8-K announcing the Closing of this transaction. Within no less than sixty (60) days of the final day to file the Current Report on Form 8-K, the Company must file an amendment to that report, providing financial statements for Town House, and pro forma consolidated financial statements.

Certain Federal Income Tax Consequences

The Company has not sought an opinion as to the tax consequences of the Acquisition because the Acquisition will be treated for tax purposes as an

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

acquisition of all of the stock of Town House in an exchange for shares of Common Stock of the Company. The Company believes that the Acquisition will constitute a tax-free reorganization under Section 368(a)(1)(B) of the Internal Revenue Code of 1986, as amended (the "Code"), and accordingly, the Company will not recognize any gain or loss on such exchange.

IRC sections 354 and 368 state that no gain or loss shall be recognized (by the corporations) if the acquiring corporation acquires the target's stock solely in exchange for its own voting stock and the acquiring corporation is in control of the target immediately after the acquisition. IRC section 368(c) defines control to represent 80% of the total combined voting power of all classes of stock. The acquisition of Town House as a wholly-owned subsidiary is considered to be a reverse acquisition in which the Company will acquire control of Town House. The shares issued by the Company to be distributed to Town House will be equivalent voting shares. The Exchange Agreement appears to satisfy these IRC sections.

In addition to the formal requirements of the IRC, the transaction must meet certain substantive non-statutory requirements developed through case law and IRS regulations. These non-statutory rules may change what is in form a reorganization into a taxable transaction. These two requirements are "Continuity of Interest" and "Continuity of Business Enterprise." Continuity of Interest requires that a substantial part of the value of the proprietary interest in the target must be preserved. Again the Exchange Agreement appears to satisfy this requirement. Continuity of Business Enterprise requires the acquiring corporation to continue to use the target's historic business or a significant portion of the target's historic business assets in the business. The Company will preserve Town House's business and continue to use Town House's assets in the wholly-owned Company subsidiary.

In addition to these considerations, the Company expects that its ability to utilize on an annual basis its net operating loss carry-forward ("NOL") will be eliminated entirely by the Acquisition. This is due to the fact that the Company will not be considered during the two-year periods following the Acquisition, to have continued the Company's historic business or to have used a significant portion of the Company's assets.

12

Market

The principal market of Town House for its real estate development activities has been in the City of Wuhan in the PRC.

The City of Wuhan is an ancient city and is the capital of Hubei Province in central China. Wuhan is the sixth largest city in the PRC with a population of approximately 8,000,000. Wuhan is an important transportation center on the Jianhan Plain, sitting at the confluence of the Yangtze River,

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

the Hanjiang River, and its longest branch - the Hansui River. The City of Wuhan is comprised of three cities: Hanyang, Wuchang and Hankou.

Because of the significant economic growth and development of central China, the City of Wuhan has experienced increasing demand for luxury residential properties and for retail and commercial space. The concept of mixed use buildings with retail and commercial space on the street level and the lowest floors with luxury apartment units on the higher floors has become increasingly popular in the PRC. As a result, recent building activity of Town House has been designed with the mixed use concept as principal objective.

Town House is in competition with other real estate development companies in the City of Wuhan, some of which are larger and have greater financial resources than Town House.

Project Financing

The real estate projects of Wuhan Pacific have been financed primarily by secured bank loans and by loans from Mr. Fang Zhong, the largest stockholder, a director, Chief Executive Officer and President of Town House.

To facilitate the sale of its apartments, Town House has entered into corporate guarantees to secure mortgage loans to its property buyers.

Ownership of Land

There is no private ownership of land in the PRC, and all land ownership is held by the government of the PRC, its agencies and collectives.

However, land use rights can be obtained from the government for periods ranging from 40 to 70 years, and are typically renewable. Land use rights can be transferred and these transfers account for most of the business activity in the primary real estate market in the PRC upon approval by the land administrative authorities of the PRC (State Land Administration Bureau) upon payment of the required land transfer fees.

Properties may under certain circumstances be sold in advance of the completion of the actual full development of a property. Apartments can be purchased by customers by payment-in-full, payment by installment, or payment by mortgaged property loans.

Government Regulation

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

Wuhan Pacific's projects are subject to various laws and governmental regulations, such as zoning regulations, relating to its business operations and project developments. It must obtain and keep current various licenses, permits and regulatory approvals for its development projects. Wuhan Pacific believes that its is in compliance with all laws, rules and regulations applicable to its projects and that such laws, rules and regulations do not currently have a material impact on its operations. Due to the increasing levels of development in the areas of China where it currently operates, it is possible that new laws, rules and/or regulations may be adopted that could affect Wuhan Pacific's projects or proposed projects. The enactment of such laws, rules or regulations in the future could have a negative impact on its projected growth or profitability, which could decrease its projected revenues or increase its costs of doing business.

Employees

As of December 31, 2003, Town House and Wuhan Pacific had approximately 150 employees. No employee group is covered under a collective bargaining agreement. Town House and Wuhan Pacific believes its relationship with its employees is good.

Legal Proceedings

Town House and its subsidiaries are not a party to, nor are any of our respective properties the subject of, any material pending legal or arbitration proceedings.

Risk Factors

The business of Town House is subject to a number of risk factors, described below.

Change in Political and Economic Conditions

Since Town House's main country of business operations is the PRC, Town House's business operations and financial position are subject, to a significant degree, to the economic, political and legal developments in the PRC.

The PRC government started implementing its economic reform policy in 1978, which has enabled the PRC economy to gradually transform from a "planned economy" to a "socialist market economy." In 1993, the concept of the socialist market economy was introduced into the Constitution of the PRC, and the country has since accelerated development of a market economy. A noteworthy phenomenon in the recent development of the PRC economy is that non-state owned enterprises such as private enterprises play an increasingly important role in the PRC economy and the degree of direct control by the PRC government over the economy is gradually declining.

The PRC government has been taking macro-economic austerity measures to suppress inflation and curb the pace of economic growth since July 1993. These measures include raising interest rates, tightening credit supply, delaying implementation of certain reform policies on pricing, enhancing financial supervision as well as tightening control on the granting of approval for property and infrastructure projects. However, since 1998, there

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

has been deflation in the PRC economy and the current economic policies of the PRC mainly focus on stimulating consumption and expansion of domestic demand.

While the PRC government has not stopped its economic reform policy since 1978, any significant adverse changes in the social, political and economic conditions of the PRC, may have fundamental changes in the PRC economic reform policies and thus Town House's operations and profits may be adversely affected.

Change in Tax Laws and Regulations in the PRC

Various tax reform policies have been implemented in the PRC in recent years. Interpretation of certain tax policies is still awaiting guidance from the PRC government. Moreover, there can be no assurance that the existing tax laws and regulations will not be revised or amended in the future.

Change in PRC Legal System

The PRC legal system is based on statutory law. Unlike the common law system, statutory law is based on written statutes. Prior court decisions may be cited as persuasive authority but do not have binding effect. Since 1979, the PRC government has been promulgating and amending the laws and regulations regarding economic matters, such as corporate organization and governance, foreign investment, commerce, taxation and trade. However, the PRC legal system is still not as fully developed as those western countries with a common law legal system.

Changes in Currency Conversion Policies in the PRC

Renminbi (Yuan) is not a freely exchangeable currency. Since 1998, the State Administration of Foreign Exchange of China has promulgated a series of circulars and rules in order to further enhance the verification of the truthfulness of foreign exchange payments under the current account items of a PRC enterprise and has imposed strict requirements in respect of borrowings and repayments of foreign exchange debts from and to foreign creditors under the capital account items and creation of foreign security in favor of foreign creditors.

This may cause complicated procedures in foreign exchange payments to foreign creditors under the current account items and thus will affect the restrictions on borrowing of international commercial loans, creation of foreign security and borrowing of Renminbi loans under guarantees in foreign currencies. (The majority of the income from the Town House entities is in Renminbi). Furthermore, the value of Renminbi (Yuan) may become subject to supply and demand, which could be largely affected by the international economic and political environment and any fluctuations in the exchange rate of Renminbi could have an adverse effect on the operational and financial condition of Town House entities.

Critical Accounting Estimates and Accounting Policies

We must make estimates of the collectability of accounts receivable. We analyze historical write-offs, changes in our internal credit policies and customer concentrations when evaluating the adequacy of our allowance for doubtful accounts. Differences may result in the amount and timing of expenses for any period if we make different judgments or use difference estimates.

Inventories are valued at the lower of cost or net realizable value. We must periodically evaluate the carrying value of our inventories to determine whether market conditions have impaired the carrying value of our inventories.

Property and equipment are evaluated for impairment whenever indicators of impairment exist. Accounting standards require that if an impairment indicator is present, Town House must assess whether the carrying amount of the asset is unrecoverable by estimating the sum of the future cash flows expected to result from the asset, undiscounted and without interest charges. If the carrying amount is less than the recoverable amount, an impairment charge must be recognized based on the fair value of the asset. Management assumed Town House was a going concern for purposes of evaluating the possible impairment of its property and equipment. Should Town House not be able to continue as a going concern, there may be significant impairment in the value of Town House's property and equipment.

As part of the process of preparing our consolidated financial statements, we are required to estimate our income taxes. This process involves estimating our current tax exposure together with assessing temporary differences resulting from differing treatment of items for tax and accounting purposes. These differences result in deferred tax assets and liabilities. We must then assess the likelihood that our deferred tax assets will be recovered from future taxable income, and, to the extent we believe that recovery is not likely, we must establish a valuation allowance. To the extent that we establish a valuation allowance or increase this allowance in a period, we must include a tax provision or reduce our tax benefit in the statements of operations. We use our judgment to determine our provision or benefit for income taxes, deferred tax assets and liabilities and any valuation allowance recorded against our net deferred tax assets.

We cannot predict what future laws and regulations might be passed that could have a material effect on our results of operations. We assess the impact of significant changes in laws and regulations on a regular basis and update the assumptions and estimates used to prepare our financial statements when we deem it necessary.

We have determined the significant principles by considering accounting policies that involve the most complex or subjective decisions or assessments.

Results from Operations - Comparison of Years Ended December 31, 2003 and 2002

Revenues increased 42% in 2003 to \$9,080,701 from \$6,375,071 in 2002, resulting in net income of \$2,577,838 for 2003 compared to net income of \$1,068,914 in 2002. This was mainly attributable to sales associated with the Window of the World Shopping Mall (Diamond Mansion Phase 1 - commercial properties) in addition to the normal residential projects.

Cost of sales increased by 21% to \$5,120,435 in 2003 as compared to \$4,232,929 for 2002. This increase was primarily due to a 42% increase in sales. This increase in cost of sales is offset in part by a 10% increase in gross profit margins from 33% in 2002 to 43% in 2003.

Selling, general and administrative expenses increased by 178% from \$290,901 in 2002 to \$809,521 in 2003. This increase was primarily due to an increase of approximately \$400,000 in selling expenses, most of which was the result of increased expenditures for advertising.

Interest expense increased by 7% to \$326,849 in 2003 from \$304,580 in 2002 was primarily due to increased activities in short-term borrowings.

Income Taxes

Provision for the People's Republic of China enterprise income tax ("EIT") is calculated at the prevailing rate based on the estimated assessable profits less available tax relief for losses carried forward. For the year ended December 31, 2003 and the year ending December 31, 2004, the Company has been granted the privilege of computing EIT based on 6% of sales revenues at the prevailing tax rate of 33%. EIT is provided on the basis of the statutory profit for financial reporting purposes, adjusted for income and expense items, which are not assessable or deductible for income tax purposes.

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

19

A reconciliation of EIT tax at the statutory rate to the Company's effective rate is as follows:

	2003 ----	2002 ----
Computed at the Statutory Rate	\$ 936,527	\$ 519,077
Tax effect of special tax rate granted during 2003	(756,729)	-
Tax effect tax of minor timing differences and credits	-	(48,079)
	-----	-----
Tax at effective rate	\$ 179,798 =====	\$ 470,998 =====

Liquidity and Capital Resources

Cash provided by operations totaled \$3,802,017 for 2003 compared to cash used in operations of \$640,752 in 2002. The Company experienced positive cash flows from operations during 2003 due primarily to an increase in sales revenues for 2003. Sales revenues were \$9,080,701 in 2003 compared to 6,375,071 in 2002.

The Company anticipates that it will have adequate working capital in the foreseeable future. However, the Company may wish to borrow additional amounts in order to expand and grow its operations.

Contractual Obligations

The following table is a summary of the Company's contractual obligations as of December 31, 2003.

AMENDMENT TO ARTICLES OF INCORPORATION

The proposed amendment to the Company's Articles of Incorporation will cause the Company to change the name of the Company to "Town House Holdings, Inc.," or such similar name as determined by the new Board of Directors, and will increase its authorized capitalization from 20,000,000 shares, to 50,000,000 shares of Common Stock. Upon filing of the Amendment to the Articles with the Nevada Secretary of State, the name change will be effective.

20

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

Following the Closing of the Acquisition, the operations of Town House will become the principal operations of the Company. Due to the Company's new business direction following the Acquisition, management wishes to more properly reflect its business activities, by changing the Company's name to "Town House Holdings, Inc.," or such similar name as decided by the Board of Directors. Management does not believe that the name change will have any material effect on the Company's operations.

The Company currently has only 20,000,000 shares authorized, and will have a total of 19,989,333 shares outstanding following the transaction. Therefore, the Company will not have sufficient authorized but unissued shares to raise any equity capital, to make any acquisitions, or to engage in any other financing involving the shares of Common Stock of the Company. Accordingly, the parties to the Exchange Agreement have determined it is in the best interest of the Company to increase its authorized capitalization to 50,000,000 shares to provide the Company with sufficient authorized but unissued shares for future equity financings, possible acquisitions, and other transactions requiring the issuance of Common Stock.

The Nevada Revised Statutes (the "Nevada Law") requires the approval of shareholders who hold at least a majority of the voting power present at a meeting at which a quorum is present to amend the Company's Articles of Incorporation to change its name and to increase its authorized capitalization of shares of Common Stock. Nevada Law also permits actions that would otherwise require a vote at a meeting of shareholders to be taken by written consent of the holders of at least the number of shares that would be necessary to authorize such actions at a meeting.

Shareholders who own approximately 55.6% of the issued and outstanding voting securities of the Company, including officers and directors, have consented to amend the Company's Articles of Incorporation to change its name to "Town House Holdings, Inc.," or such similar name as decided by the Board of Directors and to increase its authorized capitalization of Common Stock.

PROPOSED REVERSE STOCK SPLIT

As a result of the Reverse Split, each three shares of Common Stock outstanding at the effective time of the Reverse Split, will, without any action on the part of the holder thereof, become one share of Common Stock. For purposes of this description, the Common Stock, as presently constituted, is referred to as the "Old Common Stock" and the Common Stock resulting from the Reverse Split is referred to as the "New Common Stock." The closing bid price of the Company's Old Common Stock on May 14, 2004, was \$0.25.

Principal Effects of the Reverse Split

The principal effects of the Reverse Split will be as follows:

Based upon the 3,598,000 shares of Old Common Stock outstanding on the Record Date, the Reverse Split would decrease the outstanding shares of Old Common Stock to 1,199,333 shares. The Reverse Split will not decrease the authorized number of shares of Common Stock, or change the par value per share (\$0.001) of Common Stock. Upon the effectiveness of the Reverse Split, and the completion of the Acquisition, approximately 19,989,333 shares of New Common Stock would be outstanding, including the 18,390,000 shares issued to the Town House shareholders.

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

The Company will obtain a new CUSIP number for the New Common Stock at the time of the Reverse Split. Following the effectiveness of the Reverse Split, each three shares of Old Common Stock, without any action on the part of the holder, will represent one share of New Common Stock.

Subject to minor differences resulting from the rounding up of fractional shares, as described below, consummation of the Reverse Split will not result in a material change in the relative equity position or voting power of the holders of Old Common Stock.

The Amendment of the Company's Articles of Incorporation will be filed with the Nevada Secretary of State, twenty days after the mailing of this Information Statement. The Reverse Split is also expected to become effective at approximately the date of such filing (the "Effective Date").

Purposes of the Reverse Stock Split

The Reverse Split was a negotiated provision of the Exchange Agreement. The Reverse Split will decrease the number of shares of Old Common Stock outstanding and presumably increase the per share market price for the New Common Stock. Theoretically, the number of shares outstanding should not, by itself, affect the marketability of the stock, the type of investor who acquires it, or the Company's reputation in the financial community.

Many leading brokerage firms are reluctant to recommend lower-priced securities to their clients and a variety of brokerage house policies and practices currently tend to discourage individual brokers within firms from dealing in lower-priced stocks. Some of those policies and practices pertain to the payment of brokers' commissions and to time-consuming procedures that make the handling of lower priced stocks unattractive to brokers from an economic standpoint. In addition, the structure of trading commissions also tends to have an adverse impact upon holders of lower priced stocks because the brokerage commission on a sale of a lower priced stock generally represents a higher percentage of the sales price than the commission on a relatively higher priced issue.

In addition, in the absence of the Reverse Split, there are not a sufficient number of authorized but unissued shares of Common Stock to consummate the Acquisition. The Board of Directors believes that the Reverse Split and Acquisition is in the best interest of the Company and its shareholders because the Acquisition will provide shareholders with an operating business with the potential for growth. The Reverse Split is required to consummate the Acquisition and, if the Reverse Split is not consummated, the Acquisition will not take place, and the Company will remain an inactive "blank check" company with no significant assets or business. Additionally, the Reverse Split would reduce the number of shares of its Common Stock outstanding to amounts that the Board of Directors believes are more reasonable in light of its size and market capitalization. Finally, the resulting company may require additional capital for its operations and may not be able to raise the necessary capital unless the price of the Common Stock is higher than the current Common Stock price levels. However, no assurance can be given that the Reverse Split will result in any increase in the Common Stock price or that the Company will be able to complete any financing following the Reverse Split.

When the trading price of the Company's Common Stock is below \$5.00 per share, the Common Stock is considered to be "penny stocks" that are subject to rules promulgated by the United States Securities and Exchange Commission (the "Commission") (Rule 15-1 through 15g-9) under the Securities Exchange Act of 1934. These rules impose significant requirements

on brokers under these circumstances, including: (a) delivering to customers the Commission's standardized risk disclosure document; (b) providing to customers current bid and offers; (c) disclosing to customers the broker-dealer and sales representatives compensation; and (d) providing to customers monthly account statements.

The possibility exists that the reduced number of outstanding shares will adversely affect the market for the Common Stock by reducing the relative level of liquidity. In addition, the Reverse Split will increase the number of shareholders who own odd lots, or less than 100 shares. Shareholders who own odd lots typically find it difficult to sell their shares and frequently find odd lot sales more expensive than round lot sales of 100 shares or more.

After the Reverse Split, and the completion of the Acquisition, the Company will have issued and outstanding approximately 19,989,333 shares of its Common Stock, and the Company will have the corporate authority to issue approximately 30,010,667 additional shares of authorized but unissued Common Stock. These authorized and unissued shares may be issued without shareholder approval at any time, in the sole discretion of the Board of Directors. The authorized and unissued shares may be issued for cash, to acquire property or for any other purpose that is deemed in the best interests of the Company. Any decision to issue additional shares will reduce the percentage of the Company's shareholders' equity held by the current shareholders and could dilute the Company's net tangible book value.

No Exchange of Certificates and Elimination of Fractional Share Interests

On the Effective Date, three shares of Old Common Stock will automatically be combined and changed into one share of New Common Stock. No additional action on the part of the Company or any shareholder will be required in order to effect the Reverse Split. Shareholders will not be requested to exchange their certificates representing shares of Old Common Stock held prior to the Reverse Split for new certificates representing shares of New Common Stock. However, shareholders will be furnished the necessary materials and instructions to effect such exchange upon request.

No fractional shares of New Common Stock will be issued to any shareholder, and all fractional shares will be rounded up to the next whole number.

Federal Income Tax Consequences of the Reverse Split

The combination of three shares of the Old Common Stock into one share of New Common Stock should be a tax-free transaction under the Internal Revenue Code of 1986, as amended, and the holding period and tax basis of the Old Common Stock will be transferred to the New Common Stock received in exchange therefor.

This discussion should not be considered as tax or investment advice, and the tax consequences of the Reverse Split may not be the same for all shareholders. Shareholders should consult their own tax advisors to know their individual Federal, state, local and foreign tax consequences.

The Company's Board of Directors has adopted a 2004 Stock Incentive Plan (the "Plan"). Shareholders who hold approximately 55.6% of the outstanding stock of the Company have approved the Plan. The Plan designates a Stock Option Committee appointed by the Board of Directors and authorizes the Stock Option committee to grant or award to eligible participants of the Company and its subsidiaries and affiliates, stock options, stock appreciation rights, restricted stock performance stock awards and Bonus Stock awards for up to 1,500,000 post-split shares of the New Common Stock of the Company. The initial members of the Stock Option Committee have not yet been appointed. There are no awards outstanding under the Plan. A complete copy of the Plan is attached hereto as Exhibit "B."

The following is a general description of certain features of the Plan:

1. Eligibility. Officers, other key employees and consultants of the Company, its subsidiaries and its affiliates who are responsible for the management, growth and profitability of the business of the Company, its subsidiaries and its affiliates, are eligible to be granted stock options, stock appreciation rights, and restricted or deferred stock awards under the Plan. Directors are eligible to receive Stock Options.

2. Administration. The Plan is administered by the Stock Option Committee (the "Committee") of the Company. The Committee has full power to select, from among the persons eligible for awards, the individuals to whom awards will be granted, to make any combination of awards to any participants and to determine the specific terms of each grant, subject to the provisions of the Plan.

3. Stock Options. The Plan permits the granting of non-transferable stock options that are intended to qualify as incentive stock options ("ISO's") under section 422 of the Internal Revenue Code of 1986, and stock options that do not so qualify ("Non-Qualified Stock Options"). The option exercise price for each share covered by an option shall be determined by the Committee but shall not be less than 100% of the fair market value of a share on the date of grant for ISO's, and not less than 85% of the fair market value of a share on the date of grant for Non-qualified Stock Options. The term of each option will be fixed by the Committee, but may not exceed 10 years from the date of the grant in the case of an ISO or 10 years and two days from the date of the grant in the case of a Non-Qualified Stock Option. In the case of 10% stockholders, no ISO shall be exercisable after the expiration of five (5) years from the date the ISO is granted.

4. Stock Appreciation Rights. Non-transferable stock appreciation rights ("SAR's") may be granted in conjunction with options, entitling the holder upon exercise to receive an amount in any combination of cash or unrestricted Common Stock of the Company (as determined by the Committee), not greater in value than the increase since the date of grant in the value of the shares covered by such right. Each SAR will terminate upon the termination of the related option.

5. Restricted Stock. Restricted shares of the Common Stock may be awarded by the Committee subject to such conditions and restrictions as they may determine. The Committee shall also determine whether a recipient of restricted shares will pay a purchase price per share or will receive such restricted shares without, any payment in cash or property. No Restricted Stock Award may provide for restrictions beyond ten (10) years from the date of grant.

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

6. Performance Stock. Performance shares of Common Stock may be awarded without any payment for such shares by the Committee if specified performance goals established by the Committee are satisfied. The designation of an employee eligible for a specific Performance Stock Award shall be made by the Committee in writing prior to the beginning of the period for which the performance is based. The Committee shall establish the maximum number of shares to stock to be issued to a designated Employee if the performance goal or goals are met. The Committee reserves the right to make downward adjustments in the maximum amount of an Award if, in its discretion unforeseen events make such adjustment appropriate. The Committee must certify in writing that a performance goal has been attained prior to issuance of any certificate for a Performance Stock Award to any Employee.

7. Bonus Stock. The Committee may award shares of Common Stock to eligible persons, without any payment for such shares and without any specified performance goals. The Employees eligible for bonus Stock Awards are senior officers and consultants of the Company and such other employees designated by the Committee.

8. Transfer Restrictions. Grants under the Plan are not transferable except, in the event of death, by will or by the laws of descent and distribution.

9. Termination of Benefits. In certain circumstances such as death, disability, and termination without cause, beneficiaries in the Plan may exercise Options, SAR's and receive the benefits of restricted stock grants following their termination or their employment or tenure as a director as the case may be.

10. Change of Control. The Plan provides that (a) in the event of a "Change of Control" (as defined in the Plan), unless otherwise determined by the Committee prior to such Change of Control, or (b) to the extent expressly provided by the Committee at or after the time of grant, in the event of a "Potential Change of Control" (as defined in the Plan), (i) all stock options and related SAR's (to the extent outstanding for at least six months) will become immediately exercisable: (ii) the restrictions and deferral limitations applicable to outstanding restricted stock awards and deferred stock awards will lapse and the shares in question will be fully vested: and (iii) the value of such options and awards, to the extent determined by the Committee, will be cashed out on the basis of the highest price paid (or offered) during the preceding 60-day period, as determined by the Committee. The Change of Control and Potential Change of Control provisions may serve as a disincentive or impediment to a prospective acquirer of the Company and, therefore, may adversely affect the market price of the Common Stock of the Company.

11. Amendment of the Plan. The Plan may be amended from time to time by majority vote of the Board of Directors provided as such amendment may affect outstanding options without the consent of an option holder nor may the plan be amended to increase the number of shares of Common Stock subject to the Plan without stockholder approval.

Shareholders should note that certain disadvantages may result from the adoption of the Plan. Pursuant to the plan the Company is reserving the right to issue up to 1,500,000 shares of New Common Stock. Such issuances may be in the form of stock options, stock appreciation rights, restrictive stock awards, performance stock or bonus stock. Each of these issuances may be made at prices below the then current market price of the Company's Common Stock, or at the time of exercise the exercise price may be below current market prices of the Company's Common Stock. Accordingly, the sale of these shares may adversely affect the

market price of our Common Stock. The issuance of shares upon the exercise of stock options may also result in substantial dilution to the interests of other stockholders. Additionally, the issuance of shares under the plan will result in the reduction of shareholder's interest of the Company with respect to earnings per share, voting, liquidation and book value per share.

Federal Income Tax Consequences

The following discussion summarizes U.S. federal tax treatment of options granted under the Plan under federal tax laws currently in effect. The rules governing the tax treatment of options are quite technical and the following discussion is necessarily general in nature and does not purport to be complete. The statutory provisions and interpretations described below are, of course, subject to change, and their application may vary in individual circumstances. Optionees are encouraged to seek professional tax advice when exercising Awards under the Plan.

Non-Qualified Stock Options. If an optionee is granted options under the Plan that constitute non-qualified stock options, the optionee will not have taxable income on the grant of the option, nor will the Company be entitled to any deduction. Generally, on exercise of non-qualified stock options, an optionee will recognize ordinary income, and the Company will be entitled to a deduction, in an amount equal to the difference between the exercise price and the fair market value of the Common Stock on the date of exercise. The holder's basis for the Common Stock for purposes of determining gain or loss on subsequent disposition of such shares generally will be the fair market value of the Common Stock on the date the optionee exercises the stock option. Any subsequent gain or loss will be generally taxable as capital gains or losses.

Incentive Stock Options. There is no taxable income to an optionee when he is granted an option under the Plan that constitutes an ISO or when that option is exercised. However, the amount by which the fair market value of the Common Stock at the time of exercise exceeds the exercise price will be an "item of tax preference" for the optionee. Gain realized by the optionee on the sale of an ISO is taxable at capital gains rates, and no tax deduction is available to the Company, unless the optionee disposes of the Common Stock within (a) two years after the date of grant of the ISO or (b) within one year of the date the Common Stock was transferred to the optionee. If the shares of Common Stock are sold or otherwise disposed of before the end of the one-year and two-year periods specified above, the difference between the exercise price and the fair market value of the Common Stock on the date of the option's exercise will be taxed at ordinary income rates, and the Company will be entitled to a deduction to the extent the optionee must recognize ordinary income. An ISO exercised more than three months after an optionee retires, other than by reason of death or disability, will be taxed as a non-qualified stock option, and the optionee will have been deemed to have received income on the exercise taxable at ordinary income rates. The Company will be entitled to a tax deduction equal to the ordinary income, if any, realized by the optionee.

SARs. No taxable income is realized on the receipt of an SAR, but on exercise of the SAR the fair market value of the Common Stock (or cash in lieu of Common Stock) received must be treated as compensation taxable as ordinary income to the optionee in the year of the exercise. The Company will be entitled to a deduction for compensation paid in the same amount which the optionee realized as ordinary income.

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

Stock Awards. The taxation of stock awards will depend in part on the type of stock award that is granted. However, if an employee has been granted a restricted stock unit, he will generally not realize taxable income at the time of grant, and the Company will not be entitled to a deduction at that time. Instead, the employee will generally recognize ordinary income at the time a restricted stock unit becomes vested (that is, when the Committee approves the release of the restricted stock unit) in an amount equal to the fair market value of the Common Stock that becomes vested pursuant to such restricted stock unit (plus the amount of any dividend equivalents awarded with respect to the restricted stock unit and interest thereon), and the Company will be entitled to a corresponding deduction.

The foregoing is only a summary of certain federal income tax consequences under the Plan. It does not purport to be complete and does not discuss the tax consequences arising in the context of a participant's death or the income tax laws of any municipality, state or foreign country in which the participant's income or gain may be taxable.

The foregoing is only a summary of the Plan and is qualified in its entirety by reference to its full text, a copy of which is attached hereto as Exhibit "B."

MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

Although quotations for the Company's Common Stock appear on the NASD Electronic Bulletin Board, there is no established trading market for the Common Stock. For the past two calendar years to the present, transactions in the Common Stock can only be described as sporadic. Consequently, the Company is of the opinion that any published prices cannot be attributed to a liquid and active trading market and, therefore, are not indicative of any meaningful market value.

The following table sets forth for the respective periods indicated the prices of the Company's Common Stock in the over-the-counter market, as reported and summarized by the NASD Electronic Bulletin Board. Such prices are based on inter-dealer bid and asked prices, without markup, markdown, commissions, or adjustments and may not represent actual transactions.

March 31, 2002	0.5300	0.1600
June 30, 2002	0.2300	0.1000
September 30, 2002	0.1200	0.1000

December 31, 2003	0.1500	0.0800
March 31, 2004	0.3000	0.1500

As of May 14, 2004, the closing bid price for the Company's Common Stock was \$0.25. There are outstanding options to purchase 600,000 pre-split shares of Common Stock at an exercise price of \$0.1875, which expire in March 2009. Of such amount, Jack M. Gertino and Richard B. Stuart each hold options to purchase 200,000 shares. In connection with the Town House Acquisition, Jack M. Gertino and Richard B. Stuart have agreed that options to purchase all but 75,000 pre-split shares may be cancelled at Closing. There is an outstanding warrant to purchase 50,000 pre-split shares of the Company's Common Stock at an exercise price of \$0.1875, which expires in March 2009. All shares of Common Stock outstanding may be sold without restriction under Rule 144(k) promulgated under the Securities Act of 1933, except 403,360 pre-split shares, which are held by officers and directors ("Control Shares"). Control Shares may be sold subject to complying with all of the terms and conditions of Rule 144, except the one-year holding period, which has been satisfied.

The individuals who shall be eligible to receive Awards shall be those Eligible Persons of the Company or any of its Affiliates as the Committee shall determine from time to time.

ARTICLE IV - GENERAL PROVISIONS RELATING TO AWARDS

4.1 AUTHORITY TO GRANT AWARDS. The Committee may grant to those Eligible Persons of the Company or any of its Affiliates as it shall from time to time determine, Awards under the terms and conditions of this Plan. Subject only to any applicable limitations set out in this Plan, the number of shares of Stock to be covered by any Award to be granted to an Eligible Person shall be determined by the Committee.

4.2 SHARES SUBJECT TO PLAN. The total number of shares of Stock set aside for Awards may be granted under the Plan shall be 4,500,000 shares. The shares may be treasury shares or authorized but unissued shares. The maximum number of shares subject to options or stock appreciation rights which may be issued to any eligible person under the plan during each plan year shall be determined by the Committee. The maximum number of shares subject to restricted stock awards which may be granted to any eligible person under the plan during each plan year shall be determined by the Committee. The maximum number of shares subject to performance stock awards which may be granted to any eligible person during each plan year shall be determined by the Committee. The number of shares stated in this Section 4.2 shall be subject to adjustment in accordance with the provisions of Section 4.5. In the event that any outstanding Award shall expire or terminate for any reason or any Award is surrendered, the shares of Stock allocable to the unexercised portion of that Award may again be subject to an Award under the Plan.

4.3 NON-TRANSFERABILITY. Awards shall not be transferable by the Eligible Person otherwise than by will or under the laws of descent and distribution, and shall be exercisable, during the Eligible Person's lifetime, only by him. Restricted Stock shall be purchased by and/or become vested under a Restricted Stock Agreement during the Eligible Person's lifetime, only by him. Any attempt to transfer an Award other than under the terms of the Plan and the Agreement shall terminate the Award and all rights of the Eligible Person to that Award.

4.4 REQUIREMENTS OF LAW. The Company shall not be required to sell or issue any Stock under any Award if issuing that Stock would constitute or result in a violation by the Eligible Person or the Company of any provision of any law, statute, or regulation of any governmental authority. Specifically, in connection with any applicable statute or regulation relating to the registration of securities, upon exercise of any Option or pursuant to any Award, the Company shall not be required to issue any Stock unless the Committee has received evidence satisfactory to it to the effect that the holder of that Option or Award will not transfer the Stock except in accordance with applicable law, including receipt of an opinion of counsel satisfactory to the Company to the effect that any proposed transfer complies with applicable law. The determination by the Committee on this matter shall be final, binding and conclusive. The Company may, but shall in no event be obligated to, register any Stock covered by this Plan pursuant to applicable securities laws of any country or any political subdivision. In the event the Stock issuable on exercise of an Option or pursuant to an Award is not registered, the Company may imprint on the certificate evidencing the Stock any legend that counsel for the Company considers necessary or advisable to comply with applicable law. The Company shall not be obligated to take any other affirmative action in order to cause the exercise of an Option or vesting under an Award, or the issuance of shares pursuant thereto, to comply with any law or regulation of any governmental authority.

4.5 CHANGES IN THE COMPANY'S CAPITAL STRUCTURE.

(a) The existence of outstanding Options or Awards shall not affect in any way the right or power of the Company or its stockholders to make or authorize any or all adjustments, recapitalizations, reorganizations or other changes in the Company's capital structure or its business, or any merger or consolidation of the Company, or any issue of bonds, debentures, preferred or prior preference stock ahead of or affecting the Stock or its rights, or the dissolution or liquidation of the Company, or any sale or transfer of all or any part of its assets or business, or any other corporate act or proceeding, whether of a similar character or otherwise. If the Company shall effect a subdivision or consolidation of shares or other capital readjustment, the payment of a Stock dividend, or other increase or reduction of the number of shares of the Stock outstanding, without receiving compensation for it in money, services or property, then (a) the number, class, and per share price of shares of Stock subject to outstanding Options under this Plan shall be appropriately adjusted in such a manner as to entitle an Eligible Person to receive upon exercise of an Option, for the same aggregate cash consideration, the equivalent total number and class of shares he would have received had he exercised his Option in full immediately prior to the event requiring the adjustment; and (b) the number and class of shares of Stock then reserved to be issued under the Plan shall be adjusted by substituting for the total number and class of shares of Stock then reserved, that number and class of shares of Stock that would have been received by the owner of an equal number of outstanding shares of each class of Stock as the result of the event requiring the adjustment.

(b) If the Company is merged or consolidated with another corporation and the Company is not the surviving corporation, or if the Company is liquidated or sells or otherwise disposes of substantially all its assets while unexercised Options remain outstanding under this Plan:

(i) subject to the provisions of clause (c) below, after the effective date of the merger, consolidation, liquidation, sale or other disposition, as the case may be, each holder of an outstanding Option shall be entitled, upon exercise of the Option, to receive, in lieu of shares of Stock, the number and class or classes of shares of stock or other securities or property to which the holder would have been entitled if, immediately prior to the merger, consolidation, liquidation, sale or other disposition, the holder had been the holder of record of a number of shares of Stock equal to the number of shares as to which the Option shall be so exercised;

(ii) the Board of Directors may waive any limitations set out in or imposed under this Plan so that all Options, from and after a date prior to the effective date of the merger, consolidation, liquidation, sale or other disposition, as the case may be, specified by the Board of Directors, shall be exercisable in full; and

(iii) all outstanding Options may be canceled by the Board of Directors as of the effective date of any merger, consolidation, liquidation, sale or other disposition, if (i) notice of cancellation shall be given to each holder of an Option and (ii) each holder of an Option shall have the right to exercise that Option in full (without regard to any limitations set out in or imposed under this Plan or the Option Agreement granting that Option) during a period set by the Board of Directors preceding the effective date of the merger, consolidation, liquidation, sale or other disposition and, if in the event all outstanding Options may not be exercised in full under applicable securities laws without

registration of the shares of Stock issuable on exercise of the Options, the Board of Directors may limit the exercise of the Options to the number of shares of Stock, if any, as may be issued without registration. The method of choosing which Options may be exercised, and the number of shares of Stock for which Options may be exercised, shall be solely within the discretion of the Board of Directors.

(c) After a merger of one or more corporations into the Company or after a consolidation of the Company and one or more corporations in which the Company shall be the surviving corporation, each Eligible Person shall be entitled to have his Restricted Stock and shares earned under a Performance Stock Award appropriately adjusted based on the manner the Stock was adjusted under the terms of the agreement of merger or consolidation.

(d) In each situation described in this Section 4.5, the Committee will make similar adjustments, as appropriate, in outstanding Stock Appreciation Rights.

(e) The issuance by the Company of shares of stock of any class, or securities convertible into shares of stock of any class, for cash or property, or for labor or services either upon direct sale or upon the exercise of rights or warrants to subscribe for them, or upon conversion of shares or obligations of the Company convertible into shares or other securities, shall not affect, and no adjustment by reason of such issuance shall be made with respect to, the number, class, or price of shares of Stock then subject to outstanding Awards.

4.6 ELECTION UNDER SECTION 83(B) OF THE CODE. No Employee shall exercise the election permitted under Section 83(b) of the Code without written approval of the Committee. Any Employee doing so shall forfeit all Awards issued to him under this Plan.

ARTICLE V - OPTIONS AND STOCK APPRECIATION RIGHTS

5.1 TYPE OF OPTION. The Committee shall specify at the time of grant whether a given Option shall constitute an Incentive Option or a Nonqualified Option. Incentive Stock Options may only be granted to Employees.

5.2 OPTION PRICE. The price at which Stock may be purchased under an Incentive Option shall not be less than the greater of: (a) 100% of the Fair Market Value of the shares of Stock on the date the Option is granted or (b) the aggregate par value of the shares of Stock on the date the Option is granted. The Committee in its discretion may provide that the price at which shares of Stock may be purchased under an Incentive Option shall be more than 100% of Fair Market Value. In the case of any 10% Stockholder, the price at which shares of Stock may be purchased under an Incentive Option shall not be less than 110% of the Fair Market Value of the Stock on the date the Incentive Option is granted. The price at which shares of Stock may be purchased under a Nonqualified Option shall be such price as shall be determined by the Committee in its sole discretion but in no event lower than the greater of (1) 85% of the Fair Market Value of the shares of Stock on the date the option is granted, or (b) the par value of the shares of Stock on the date the Option is granted.

5.3 DURATION OF OPTIONS AND SARS. No Option or SAR shall be exercisable after the expiration of ten (10) years from the date the Option or SAR is granted. In the case of a 10% Stockholder, no Incentive Option shall be exercisable after the expiration of five years from the date the Incentive

Option is granted.

B-7

5.4 AMOUNT EXERCISABLE -- INCENTIVE OPTIONS. Each Option may be exercised from time to time, in whole or in part, in the manner and subject to the conditions the Committee, in its sole discretion, may provide in the Option Agreement, as long as the Option is valid and outstanding, and further provided that no Option may be exercisable within six (6) months of the date of grant, unless otherwise stated in the Option Agreement. To the extent that the aggregate Fair Market Value (determined as of the time an Incentive Option is granted) of the Stock with respect to which Incentive Options first become exercisable by the optionee during any calendar year (under this Plan and any other incentive stock option plan(s) of the Company or any Affiliate) exceeds \$100,000, the portion in excess of \$100,000 of the Incentive Option shall be treated as a Nonqualified Option. In making this determination, Incentive Options shall be taken into account in the order in which they were granted.

5.5 EXERCISE OF OPTIONS. Each Option shall be exercised by the delivery of written notice to the Committee setting forth the number of shares of Stock with respect to which the Option is to be exercised, together with:

(a) cash, certified check, bank draft, or postal or express money order payable to the order of the Company for an amount equal to the option price of the shares,

(b) Stock at its Fair Market Value on the date of exercise, (if approved in advance by the Committee),

(c) an election to make a cashless exercise through a registered broker-dealer (if approved in advance by the Committee),

(d) an election to have shares of Stock, which otherwise would be issued on exercise, withheld in payment of the exercise price (if approved in advance by the Committee), and/or

(e) any other form of payment which is acceptable to the Committee, including without limitation, payment in the form of a promissory note, and specifying the address to which the certificates for the shares are to be mailed.

As promptly as practicable after receipt of written notification and payment, the Company shall deliver to the Eligible Person certificates for the number of shares with respect to which the Option has been exercised, issued in the Eligible Person's name. If shares of Stock are used in payment, the aggregate Fair Market Value of the shares of Stock tendered must be equal to or less than the aggregate exercise price of the shares being purchased upon exercise of the Option, and any difference must be paid by cash, certified check, bank draft, or postal or express money order payable to the order of the Company. Delivery of the shares shall be deemed effected for all purposes when a stock transfer agent of the Company shall have deposited the certificates in the United States mail, addressed to the Eligible Person, at the address specified by the Eligible Person.

Whenever an Option is exercised by exchanging shares of Stock owned by the Eligible Person, the Eligible Person shall deliver to the Company certificates registered in the name of the Eligible Person representing a number of shares of Stock legally and beneficially owned by the Eligible Person, free of all liens, claims, and encumbrances of every kind, accompanied by stock powers duly endorsed in blank by the record holder of the shares represented by the

certificates (with signature guaranteed by a commercial bank or trust company or by a brokerage firm having a membership on a registered national stock exchange). The delivery of certificates upon the exercise of Options is subject to the condition that the person exercising the Option provide the Company with the information the Company might reasonably request pertaining to exercise, sale or other disposition.

5.6 STOCK APPRECIATION RIGHTS. All Eligible Persons shall be eligible to receive Stock Appreciation Rights. The Committee shall determine the SAR to be awarded from time to time to any Eligible Person. The grant of an SAR to be awarded from time to time shall neither entitle such person to, nor disqualify such person, from participation in any other grant of awards by the Company, whether under this Plan or any other plan of the Company. If granted as a stand-alone SAR Award, the terms of the Award shall be provided in a Stock Appreciation Rights Agreement.

5.7 STOCK APPRECIATION RIGHTS IN TANDEM WITH OPTIONS. Stock Appreciation Rights may, at the discretion of the Committee, be included in each Option granted under the Plan to permit the holder of an Option to surrender that Option, or a portion of the part which is then exercisable, and receive in exchange, upon the conditions and limitations set by the Committee, an amount equal to the excess of the Fair Market Value of the Stock covered by the Option, or the portion of it that was surrendered, determined as of the date of surrender, over the aggregate exercise price of the Stock. The payment may be made in shares of Stock valued at Fair Market Value, in cash, or partly in cash and partly in shares of Stock, as the Committee shall decide in its sole discretion. Stock Appreciation Rights may be exercised only when the Fair Market Value of the Stock covered by the Option surrendered exceeds the exercise price of the Stock. In the event of the surrender of an Option, or a portion of it, to exercise the Stock Appreciation Rights, the shares represented by the Option or that part of it which is surrendered, shall not be available for reissuance under the Plan. Each Stock Appreciation Right issued in tandem with an Option (a) will expire not later than the expiration of the underlying Option, (b) may be for no more than 100% of the difference between the exercise price of the underlying Option and the Fair Market Value of a share of Stock at the time the Stock Appreciation Right is exercised, (c) is transferable only when the underlying Option is transferable, and under the same conditions, and (d) may be exercised only when the underlying Option is eligible to be exercised.

5.8 CONDITIONS OF STOCK APPRECIATION RIGHTS. All Stock Appreciation Rights shall be subject to such terms, conditions, restrictions or limitations as the Committee deems appropriate, including by way of illustration but not by way of limitation, restrictions on transferability, requirement of continued employment, individual performance, financial performance of the Company or payment of any applicable employment or withholding taxes.

5.9 PAYMENT OF STOCK APPRECIATION RIGHTS. The amount of payment to which the Eligible Person who reserves an SAR shall be entitled upon the exercise of each SAR shall be equal to the amount, if any by which the Fair Market Value of the specified shares of Stock on the exercise date exceeds the Fair Market Value of the specified shares of Stock on the date of grant of the SAR. The SAR shall be paid in either cash or Stock, as determined in the discretion of the Committee as set forth in the SAR agreement. If the payment is in Stock, the number of shares to be paid shall be determined by dividing the amount of such payment by the Fair Market Value of Stock on the exercise date of such SAR.

5.10 EXERCISE ON TERMINATION OF EMPLOYMENT. Unless it is expressly provided otherwise in the Option or SAR agreement, Options and SAR granted to Employees shall terminate one day less than three months after severance of employment of the Employee from the Company and all Affiliates for any reason, with or without cause, other than death, retirement under the then established rules of the Company, or severance for disability. Whether authorized leave of absence or absence on military or government service shall constitute severance of the employment of the Employee shall be determined by the Committee at that time.

5.11 DEATH. If, before the expiration of an Option or SAR, the Eligible Person, whether in the employ of the Company or after he has retired or was severed for disability, or otherwise dies, the Option or SAR shall continue until the earlier of the Option's or SAR's expiration date or one year following the date of his death, unless it is expressly provided otherwise in the Option or SAR agreement. After the death of the Eligible Person, his executors, administrators or any persons to whom his Option or SAR may be transferred by will or by the laws of descent and distribution shall have the right, at any time prior to the Option's or SAR's expiration or termination, whichever is earlier, to exercise it, to the extent to which he was entitled to exercise it immediately prior to his death, unless it is expressly provided otherwise in the Option or SAR's agreement.

5.12 RETIREMENT. Unless it is expressly provided otherwise in the Option Agreement, before the expiration of an Incentive Option, the Employee shall be retired in good standing from the employ of the Company under the then established rules of the Company, the Incentive Option shall terminate on the earlier of the Option's expiration date or one day less than one year after his retirement; provided, if an Incentive Option is not exercised within specified time limits prescribed by the Code, it will become a Nonqualified Option by operation of law. Unless it is expressly provided otherwise in the Option Agreement, if before the expiration of a Nonqualified Option, the Employee shall be retired in good standing from the employ of the Company under the then established rules of the Company, the Nonqualified Option shall terminate on the earlier of the Nonqualified Option's expiration date or one day less than one year after his retirement. In the event of retirement, the Employee shall have the right prior to the termination of the Nonqualified Option to exercise the Nonqualified Option, to the extent to which he was entitled to exercise it immediately prior to his retirement, unless it is expressly provided otherwise in the Option Agreement. Upon retirement, an SAR shall continue to be exercisable for the remainder of the term of the SAR agreement.

5.13 DISABILITY. If, before the expiration of an Option or SAR, the Employee shall be severed from the employ of the Company for disability, the Option or SAR shall terminate on the earlier of the Option's or SAR's expiration date or one day less than one year after the date he was severed because of disability, unless it is expressly provided otherwise in the Option or SAR agreement. In the event that the Employee shall be severed from the employ of the Company for disability, the Employee shall have the right prior to the termination of the Option or SAR to exercise the Option, to the extent to which he was entitled to exercise it immediately prior to his retirement or severance of employment for disability, unless it is expressly provided otherwise in the Option Agreement.

5.14 SUBSTITUTION OPTIONS. Options may be granted under this Plan from time to time in substitution for stock options held by employees of other corporations who are about to become employees of or affiliated with the

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

Company or any Affiliate as the result of a merger or consolidation of the employing corporation with the Company or any Affiliate, or the acquisition

B-10

by the Company or any Affiliate of the assets of the employing corporation, or the acquisition by the Company or any Affiliate of stock of the employing corporation as the result of which it becomes an Affiliate of the Company. The terms and conditions of the substitute Options granted may vary from the terms and conditions set out in this Plan to the extent the Committee, at the time of grant, may deem appropriate to conform, in whole or in part, to the provisions of the stock options in substitution for which they are granted.

5.15 RELOAD OPTIONS. Without in any way limiting the authority of the Board of Directors or Committee to make or not to make grants of Options hereunder, the Board of Directors or Committee shall have the authority (but not an obligation) to include as part of any Option Agreement a provision entitling the Eligible Person to a further Option (a "Reload Option") in the event the Eligible Person exercises the Option evidenced by the Option Agreement, in whole or in part, by surrendering other shares of Stock in accordance with this Plan and the terms and conditions of the Option Agreement. Any such Reload Option (a) shall be for a number of shares equal to the number of shares surrendered as part or all of the exercise price of such Option; (b) shall have an expiration date which is the greater of (i) the same expiration date of the Option the exercise of which gave rise to such Reload Option or (ii) one year from the date of grant of the Reload Option; and (c) shall have an exercise price which is equal to one hundred percent (100%) of the Fair Market Value of the Stock subject to the Reload Option on the date of exercise of the original Option. Notwithstanding the foregoing, a Reload Option which is an Incentive Option and which is granted to a 10% Stockholder, shall have an exercise price which is equal to one hundred ten percent (110%) of the Fair Market Value of the Stock subject to the Reload Option on the date of exercise of the original Option and shall have a term which is no longer than five (5) years.

Any such Reload Option may be an Incentive Option or a Nonqualified Option, as the Board of Directors or Committee may designate at the time of the grant of the original Option; provided, however, that the designation of any Reload Option as an Incentive Option shall be subject to the one hundred thousand dollar (\$100,000) annual limitation on exercisability of Incentive Stock Options described in the Plan and in Section 422(d) of the Code. There shall be no Reload Options on a Reload Option. Any such Reload Option shall be subject to the availability of sufficient shares under Section 4.2 herein and shall be subject to such other terms and conditions as the Board of Directors or Committee may determine which are not inconsistent with the express provisions of the Plan regarding the terms of Options.

5.16 NO RIGHTS AS STOCKHOLDER. No Eligible Person shall have any rights as a stockholder with respect to Stock covered by his Option until the date a stock certificate is issued for the Stock.

ARTICLE VI - RESTRICTED STOCK AWARDS

6.1 RESTRICTED STOCK AWARDS. The Committee may issue shares of Stock to an Eligible Person subject to the terms of a Restricted Stock Agreement. The Restricted Stock may be issued for no payment by the Eligible Person or for a payment below the Fair Market Value on the date of grant. Restricted Stock shall be subject to restrictions as to sale, transfer, alienation, pledge or other encumbrance and generally will be subject to vesting over a

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

B-11

6.2 RESTRICTIONS. Restricted Stock shall be subject to the terms and conditions as determined by the Committee, including without limitation, any or all of the following:

(a) a prohibition against the sale, transfer, alienation, pledge or other encumbrance of the shares of Restricted Stock, such prohibition to lapse (i) at such time or times as the Committee shall determine (whether in annual or more frequent installments, at the time of the death, disability or retirement of the holder of such shares, or otherwise);

(b) a requirement that the holder of shares of Restricted Stock forfeit, or in the case of shares sold to an Eligible Person, resell back to the Company at his cost, all or a part of such shares in the event of termination of the Eligible Person's employment during any period in which the shares remain subject to restrictions;

(c) a prohibition against employment of the holder of Restricted Stock by any competitor of the Company or its Affiliates, or against such holder's dissemination of any secret or confidential information belonging to the Company or an Affiliate;

(d) unless stated otherwise in the Restricted Stock Agreement, (i) if restrictions remain at the time of severance of employment with the Company and all Affiliates, other than for reason of disability or death, the Restricted Stock shall be forfeited; and (ii) if severance of employment is by reason of disability or death, the restrictions on the shares shall lapse and the Eligible Person or his heirs or estate shall be 100% vested in the shares subject to the Restricted Stock Agreement.

6.3 STOCK CERTIFICATE. Shares of Restricted Stock shall be registered in the name of the Eligible Person receiving the Restricted Stock Award and deposited, together with a stock power endorsed in blank, with the Company. Each such certificate shall bear a legend in substantially the following form:

A copy of the Plan and agreement is on file in the office of the Secretary of the Company."

6.4 RIGHTS AS STOCKHOLDER. Subject to the terms and conditions of the Plan, each Eligible Person receiving a certificate for Restricted Stock shall have all the rights of a stockholder with respect to the shares of Stock included in the Restricted Stock Award during any period in which such shares are subject to forfeiture and restrictions on transfer, including without limitation, the right to vote such shares. Dividends paid in Stock in the Company or rights to acquire Stock in the Company shall be added to and become a part of the Restricted Stock.

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

6.5 LAPSE OF RESTRICTIONS. At the end of the time period during which any shares of Restricted Stock are subject to forfeiture and restrictions on sale, transfer, alienation, pledge, or other encumbrance, such shares shall vest and will be delivered in a certificate, free

B-12

of all restrictions, to the Eligible Person or to the Eligible Person's legal representative, beneficiary or heir; provided the certificate shall bear such legend, if any, as the Committee determines is reasonably required by applicable law. By accepting a Stock Award and executing a Restricted Stock Agreement, the Eligible Person agrees to remit when due any federal and state income and employment taxes required to be withheld.

6.6 RESTRICTION PERIOD. No Restricted Stock Award may provide for restrictions continuing beyond ten (10) years from the date of grant.

ARTICLE VII - PERFORMANCE STOCK AWARDS

7.1 AWARD OF PERFORMANCE STOCK. The Committee may award shares of Stock, without any payment for such shares, to designated Eligible Persons if specified performance goals established by the Committee are satisfied. Repairs and maintenance costs are normally charged to the statement of operations in the year in which they are incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of the asset, the expenditure is capitalized as an additional cost of the asset.

Property and equipment are evaluated annually for any impairment in value. Where the recoverable amount of any property and equipment is determined to have declined below its carrying amount, the carrying amount is reduced to reflect the decline in value. There were no property and equipment

Construction-In-Progress - Properties currently under development are accounted for as construction-in-progress. Construction-in-progress is recorded at acquisition cost, including land rights cost, development expenditure, professional fees and the interest expenses capitalized during the course of construction for the purpose of financing the project. Upon completion and readiness for use of the project, the cost of construction-in-progress is to be transferred to properties held for sale. As of December 31, 2003 and 2002, one construction project is reflected as long-term as further development has ceased until such time as new access roads are completed by the Wuhan City Government. Management anticipates these roads will be completed in 2004 at which time construction should resume on this project.

Interest income is recognized when earned, taking into account the average principal amounts outstanding and the interest rates applicable.

Cost of Goods Sold - The cost of goods sold includes the carrying amount of the properties being sold and the business taxes paid by the Company in connection with the sales. Business taxes included in cost of sales were \$300,689 and \$178,731 for the years ended December 31, 2003 and 2002, respectively.

Foreign Currencies - These financial statements have been prepared in U.S. dollars. Nonmonetary assets and liabilities are translated at historical rates, monetary assets and liabilities are translated at the exchange rates in effect at the end of the year, and income statement accounts are translated at average exchange rates. enterprise income tax at 33% on only 6% of sales.

Enterprise income tax ("EIT") is provided on the basis of the statutory profit for financial reporting purposes, adjusted for income and expense items, which are not assessable or deductible for income tax purposes.

Retirement Benefit Costs - According to The People's Republic of China regulations on pension, the Company contributes to a defined contribution retirement plan organized by municipal government in the province in which the Company was registered and all qualified employees are eligible to participate in the plan. Contributions to the plan are calculated at 20% or 26% of the employees' salaries above a fixed threshold amount and the employees contribute 6% while the Company contributes the balance contribution of 14% or 20%. The Company has no other material obligation for the payment of retirement benefits beyond the annual contributions under this plan.

For the years ended December 31, 2003 and 2002, the Company's pension cost charged to the statements of operations under the plan amounted to \$1,814 and \$1,018, respectively.

Fair Value of Financial Instruments - The carrying amounts of certain financial instruments, including cash, accounts receivable, commercial notes receivable, other receivables, accounts payable, commercial notes payable, accrued expenses, and other payables approximate their fair values as of December 31, 2003 and 2002 because of the relatively short-term maturity of these instruments.

Use of Estimates - The preparation of financial statements in accordance with generally accepted accounting principles require management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Recent accounting pronouncements - In May 2003, the Financial Accounting Standards Board issued SFAS No. 150 Accounting for Certain Financial Instruments with Characteristics of both Liability and Equity. This standard establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity.

In April 2003, the Financial Accounting Standards Board issued SFAS No. 149, Amendment of Statement 133 on Derivative Instruments and Hedging Activities.

Edgar Filing: COMET TECHNOLOGIES INC - Form PREM14C

This statement amends and clarifies financial accounting and reporting for derivative instruments and for hedging activities under FASB No. 133, Accounting for Derivative Instruments and Hedging Activities.

In December 2002, the Financial Accounting Standards Board issued SFAS No. 148, Accounting for Stock-Based Compensation- Transition and Disclosure. This statement amends SFAS No. 123, Accounting for Stock Based Compensation, to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock-based employee compensation.

In October 2002, the Financial Accounting Standards Board issued SFAS No. 147, Acquisition of Certain Financial Institutions.

In June 2002, the Financial Accounting Standards Board ("FASB") issued SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities. SFAS No. 146 addresses significant issues regarding the recognition, measurement and reporting of costs associated with exit and disposal activities, including

C-12

restructuring activities. SFAS No. 146 also addresses recognition of certain costs related to terminating a contract that is not a capital lease, costs to consolidate facilities, relocate employees and termination benefits provided to employees that are involuntary terminated under the terms of a one-time benefit arrangement that is not an ongoing benefit arrangement or an individual deferred-compensation contract. SFAS No. 146 was issued in June 2002.

In April 2002, the FASB issued Statement of Financial Accounting Standard No. 145, Rescission of FASB Statements No. 44, and No. 64, Amendment of FASB Statement No. 13, and Technical Corrections, which updates, clarifies and simplifies existing accounting pronouncements. SFAS No. 4, which required all gains and losses from the extinguishment of debt to be aggregated and, if material, classified as an extraordinary item, net of related tax effect was rescinded, as a result, SFAS 64, which amended SFAS No. 4, was rescinded as it was no longer necessary. SFAS No. 145 amended SFAS No. 13 to eliminate an inconsistency between the required accounting for sale-leaseback transactions and the required accounting for certain lease modifications that have economic effects that are similar to sale-leaseback transactions.

In August 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, which supersedes SFAS Statement No. 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of. This new statement also supersedes certain aspects of the Accounting Principles Board Opinion (APB) No. 30, Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions, with regard to reporting the effects of a disposal of a segment of a business and will require expected future operating losses from discontinued operations to be reported in discontinued operations in the period incurred (rather than estimated as of the measurement date as was required by APB No. 30). The Company adopted the provisions of FASB No. 144 during the fiscal year ended December 31, 2001.

Management believes adoption of these new statements will not have any significant effect on the Company's financial condition or results of
