BITSTREAM INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2002

(1) Significant Accounting Policies

Bitstream Inc. (Bitstream) and subsidiaries (together the Company), headquartered in Cambridge, Massachusetts, is composed of three separate and distinct businesses: (1) type and technology (Type) in which Bitstream develops and licenses font technology and custom font designs to manufacturers of Internet appliances, wireless devices, set-top boxes, embedded systems, printers, and personal digital assistants; (2) MyFonts.com (MyFonts), a showcase of the world's fonts in one easy-to-use e-commerce web site operated by Bitstream's wholly-owned subsidiary, MyFonts.com, Inc. which Bitstream established in December 1999; and (3) Pageflex, in which the Company's wholly-owned subsidiary Pageflex, Inc., develops, markets and supports on-demand document composition solutions which automatically produce customized one-to-one marketing collateral such as datasheets and brochures directly from XML text and graphics data stored in Web servers and/or databases.

(a) Basis of Presentation

The consolidated financial statements of the Company presented herein, without audit, have been prepared pursuant to the rules of the Securities and Exchange Commission (the SEC) for quarterly reports on Form 10-Q and do not include all of the information and footnote disclosures required by generally accepted accounting principles. The balance sheet information at December 31, 2001 has been derived from the Company's audited consolidated financial statements. These statements should be read in conjunction with the consolidated financial statements and notes thereto for the period ended December 31, 2001 included in the Company's Annual Report on Form 10-K, which was filed by the Company with the SEC on March 29, 2002.

The balance sheet as of June 30, 2002, the statements of operations for the three and six months ended June 30, 2002 and 2001, the statements of cash flows for the six months ended June 30, 2002 and 2001, and the notes to each are unaudited, but in the opinion of management include all adjustments necessary for a fair presentation of the consolidated financial position, results of operations, and cash flows of the Company and its subsidiaries for these interim periods.

The results of operations for the three and six months ended June 30, 2002 may not necessarily be indicative of the results to be expected for the year ending December 31, 2002.

(b) Property and Equipment

Property and equipment are stated at cost, less accumulated depreciation and amortization. Property and equipment consists of the following (in thousands):

Edgar Filing: BITSTREAM INC - Form 10-Q

	June 30, 2002	December 31, 2001
Equipment and computer software	\$ 2,475	\$ 2,413
Purchased software	351	351
Furniture and fixtures	372	372
Leasehold improvements	659	659
	3,857	3,795
Less Accumulated depreciation and amortization	3,490	3,322
Property and equipment, net	\$ 367	\$ 473

(c) Off-Balance Sheet Risk and Concentration of Credit Risk

Financial instruments that potentially expose the Company to concentrations of credit risk consist primarily of cash and cash equivalents and trade accounts receivable. The Company places a majority of its cash investments in one highly-rated financial institution. The Company has not experienced significant losses related to receivables from any individual customers or groups of customers in any specific industry or by geographic area. Due to these factors, no additional credit risk beyond amounts provided for collection losses is believed by management to be inherent in the Company's accounts receivable. At June 30, 2002, two customers accounted for 20% and 16% of the Company's accounts receivable. The Company does not have any off-balance sheet risks as of June 30, 2002. At December 31, 2001, two customers accounted for 18% and 17% of the Company's accounts receivable.

For the three months and six months ended June 30, 2002 and 2001, no single customer accounted for 10% or more of the Company's consolidated revenue. Furthermore, for the three months ended June 30, 2002, two customers of the Company's Type segment accounted for 13% and 10% of the revenue for that segment, three customers of the Pageflex segment accounted for 18%, 11% and 10% of the revenue for that segment and no customers accounted for 10% or more of the MyFonts segment's revenue. For the three months ended June 30, 2001, one customer of the Company's Type segment accounted for 10% of the revenue for that segment, one customer of the Pageflex segment accounted for 19% of the revenue for that segment, and no customers accounted for 10% or more of the MyFonts segment. For the six months ended June 30, 2002, one customer of the Company's Type segment accounted for 10% of the revenue for that segment, one customer of the Pageflex segment accounted for 11% of the revenue for that segment and no customers accounted for 10% or more of the MyFonts segment's revenue. For the six months ended June 30, 2001, three customers of the Pageflex segment accounted for 11%, 11% and 10% of the revenue for that segment, and no customers accounted for 10% or more of the Type or MyFonts segments.

(d) Goodwill and other intangible assets (in thousands, except per share amounts)

Goodwill is stated at cost, less accumulated amortization, and consists of the following:

	June 30, 2002	December 31, 2001
Acquisition of Mainstream Software Solutions Ltd..	\$	\$ 450
Acquisition of Type Solutions, Inc.	595	595
Acquisition of Alaras Corporation.	1,300	1,300
	1,895	2,345
Less Accumulated amortization	1,168	1,618
Goodwill, Net	727	727
Embedded goodwill from equity investment in DiamondSoft, Inc. (Note 3)	557	557
Total Goodwill	\$ 1,284	\$ 1,284

Edgar Filing: BITSTREAM INC - Form 10-Q

In June 2001, the FASB issued SFAS No. 142, *Goodwill and Other Intangible Assets*. The Company adopted SFAS No. 142, effective January 1, 2002, which establishes new accounting and reporting requirements for goodwill and other intangible assets. Under SFAS No. 142, goodwill and indefinite-lived intangible assets are no longer amortized, but are required to be reviewed annually for impairment, or more frequently if impairment indicators arise. Separable intangible assets that have finite lives will continue to be amortized over their useful lives. In addition, under the new pronouncement, the Company is required to establish reporting units and allocate goodwill to each of these reporting units. The Company has established the following reporting units: Type, MyFonts, and Pageflex.

The Company ceased all goodwill amortization effective January 1, 2002. In addition, the Company tested recorded goodwill attributable to each reporting unit for impairment. Management completed the initial impairment testing as of January 1, 2002 and determined that the fair value of its reporting units were greater than the carrying values for those units. The Company has recorded goodwill embedded in its equity investment in DiamondSoft, Inc. of \$557 as of June 30, 2002 and December 31, 2001, which is not attributable to a reporting unit.

The carrying amounts of goodwill attributable to each reporting unit are as follows:

	June 30, 2002		December 31, 2001	
Type	\$	228	\$	228
MyFonts				
Pageflex		499		499
	\$	727	\$	727

Had the Company applied the non-amortization provisions of SFAS No. 142 as of January 1, 2001, results of operations for the three months and six months ended June 30, 2002 and 2001, would have been as follows (in thousands, except per share amounts):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2002	2001	2002	2001
Reported net loss	\$ (293)	\$ (949)	\$ (480)	\$ (2,207)
Add:				
Goodwill amortization, net of tax		145		287
Adjusted net loss	\$ (293)	\$ (804)	\$ (480)	\$ (1,920)
Basic and diluted loss per share as reported	\$ (0.04)	\$ (0.12)	\$ (0.06)	\$ (0.28)
Basic and diluted pro forma loss per share	\$ (0.04)	\$ (0.10)	\$ (0.06)	\$ (0.24)

In connection with its adoption of SFAS 142, the Company reassessed the useful lives and the classification of its identifiable intangible assets and determined that they continue to be appropriate. The components of the Company's amortized intangible assets follow:

	June 30, 2002		December 31, 2001	
	Gross Carrying Amount	Accumulated Amortization	Gross Carrying Amount	Accumulated Amortization
Marketing-related	\$ 70	\$ (34)	\$ 70	\$ (27)
Technology-based	356	(142)	289	(114)
Total	\$ 426	\$ (176)	\$ 359	\$ (141)

Amortization expense for intangible assets for the three months and six months ended June 30, 2002 was \$17 and \$34, respectively. Amortization expense for finite-lived intangibles for the year ended December 31, 2001 was \$59. Estimated amortization for the remainder of 2002 and the five succeeding years follows:

	Estimated Amortization Expense
2002 (remainder)	\$ 37
2003	71
2004	65
2005	48
2006	24
2007	5
	\$ 250

(e) Recently Issued Accounting Standards

In June 2001, the FASB issued SFAS No. 143, *Accounting for Asset Retirement Obligations*. This Statement addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. This Statement applies to legal obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development, or normal use of the asset. SFAS No. 143 is effective for fiscal years beginning after June 15, 2002. The Company does not expect SFAS No. 143 to have a material impact on its financial position or results of operations upon its adoption January 1, 2003.

In June 2002, the FASB issued SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*, which supercedes EITF 94-3, *Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)*. The provisions of this Statement are required to be adopted for exit or disposal activities that are initiated after December 31, 2002. Under this standard, a liability for a cost associated with an exit or disposal activity formerly recognized upon the entity's commitment to an exit plan are now recognized when the liability is incurred. The Company does not expect SFAS No. 146 to have a material impact on its financial position or results of operations upon its adoption January 1, 2003.

(2) **Loss Per Share (in thousands)**

Basic earnings or loss per share is determined by dividing the net loss by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share reflect the effect of the conversion of potentially dilutive securities, such as stock options, based on the treasury stock method. In computing diluted earnings per share, common stock equivalents are not considered in periods in which a net loss is reported, as the inclusion of the common stock equivalents would be antidilutive. As a result there is no difference between the Company's basic and diluted loss per share for the three and six month periods ended June 30, 2002 and 2001.

If the Company had reported a profit for these periods, the potential common shares would have increased the weighted average shares outstanding by 1,171 and 696 shares for the three months ended June 30, 2002 and 2001, respectively, and by 1,296 and 792 for the six months ended June 30, 2002 and 2001, respectively. In addition, there were warrants and options outstanding to purchase 940 and 556 shares for the three months and six months ended June 30, 2002, respectively, and 449 shares for the three months and six months ended June 30, 2001 that were not included in the potential common share computations because their exercise prices were greater than the market price of the Company's common stock. These common stock equivalents are antidilutive even when a profit is reported in the numerator.

(3) **Investment (in thousands, except percentages)**

On March 13, 1998, the Company made a \$500 or 25% equity investment, accounted for under the equity method, in DiamondSoft, Inc. (DiamondSoft), a California corporation primarily engaged in the business of developing, marketing and distributing software tools to a variety of professional markets. During the year ended December 31, 2001 the Company made additional investments totaling \$410 in DiamondSoft, Inc., resulting in an increase in Bitstream's ownership percentage to 31.7% at December 31, 2001, which remained unchanged as of June 30, 2002.

Gains (losses) for the three months and six months ended June 30, 2002, and 2001 related to the Company's investment in DiamondSoft totaled approximately \$43 and \$42, and \$(76) and \$(151), respectively, and are included in the accompanying consolidated statements of operations. The Company has recorded goodwill related to this investment equal to the difference between the amount paid for the investment and the Company's share of DiamondSoft's underlying net assets at the time of each investment. Losses for the three months and six months ended June 30, 2001 included \$28 and \$52, respectively, in amortization. This goodwill amortization ceased in accordance with the Company's adoption of SFAS No. 142 on January 1, 2002. (See Note 1(d))

On June 19, 2000, the Company deposited \$300 into a money market account at Wells Fargo Bank to secure a \$300 line of credit granted DiamondSoft by that bank. This cash, which continued to secure the line of credit, is presented on the Company's consolidated balance sheet as restricted cash.

(4) **Accrued Expenses. (in thousands)**

Accrued expenses consist of the following:

	June 30, 2002	December 31, 2001
Accrued royalties	\$ 282	\$ 226
Payroll and other compensation	584	510
Accrued professional and consulting services	120	197
Other	212	193
Total	\$ 1,198	\$ 1,126

(5) **Segment Reporting (in thousands):**

The Company has determined it has three reportable segments: (i) its Type segment; (ii) its Pageflex segment and (iii) its MyFonts segment. The Company's reportable segments are strategic business units that sell the Company's products through distinct distribution channels. They are managed separately as each business requires different marketing strategies. The Company's approach is based on the way that management organizes the segments within the enterprise for making operating decisions and assessing performance. Revenue from the MyFonts segment includes revenue from products it purchases from the Type segment. Inter-segment revenue of \$82 and \$167 for the three months and six months ended June 30, 2002, respectively, and \$55 and \$78 for the three months and six months ended June 30, 2001, respectively, have been eliminated from MyFonts' segmented revenue below, as well as from the Company's consolidated financial statements. The Company evaluates performance based on profit or loss from operations before income taxes, not including non-recurring gains and losses.

The following table sets forth the Company's revenue and income (loss) from operations by segment:

	Three months ended June 30,		Six months ended June 30,	
	2002	2001	2002	2001

(6) Geographical Reporting (in thousands):

The Company attributes revenues to different geographical areas on the basis of the location of the customer. All of the Company's product sales for the three months and six months ended June 30, 2002 and 2001 were shipped from its headquarters located in the United States or its office located in Cheltenham, England. Revenues by geographic area are as follows:

	Three Months Ended June 30,		Six Months Ended June 30,

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with the consolidated financial statements and notes thereto.

OVERVIEW

Bitstream Inc. ("Bitstream" or the "Company"), headquartered in Cambridge, Massachusetts, is composed of three separate and distinct businesses: (1) type and technology ("Type"), in which Bitstream develops and licenses font technology and custom font designs to manufacturers of Internet appliances, wireless devices, set-top boxes, embedded systems, printers, and personal digital assistants; (2) MyFonts.com ("MyFonts"), a showcase of the world's fonts in one easy-to-use e-commerce web site operated by Bitstream's wholly-owned subsidiary, MyFonts.com, Inc. which Bitstream established in December 1999; and (3) Pageflex, in which the Company's wholly-owned subsidiary Pageflex, Inc. ("Pageflex") develops, markets and supports on-demand document composition solutions which automatically produce customized one-to-one marketing collateral such as datasheets and brochures directly from XML text and graphics data stored in Web servers and/or databases. Pageflex, Inc. was established by the Company in January 1999 as a wholly-owned subsidiary for the purpose of developing on-demand marketing software.

FORWARD LOOKING STATEMENTS

Except for the historical information contained herein, this Quarterly Report on Form 10-Q may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Investors are cautioned that forward-looking statements are inherently uncertain. Actual performance and results of operations may differ materially from those projected or suggested in the forward-looking statements due to certain risks and uncertainties, including, without limitation, market acceptance of the Company's products, competition and the timely introduction of new products. Additional information concerning certain risks and uncertainties that would cause actual results to differ materially from those projected or suggested in the forward-looking statements is contained in the Company's filings with the Securities and Exchange Commission, including those risks and uncertainties discussed in the Company's final Prospectus, dated October 30, 1996, included as part of the Company's Registration Statement on Form S-1 (333-11519), in the section entitled "Risk Factors." The forward-looking statements contained herein represent the Company's judgment as of the date of this report, and the Company cautions readers not to place undue reliance on such statements. Management undertakes no obligation to publicly release any revisions to the forward-looking statements or reflect events or circumstances after the date of this document.

The increase in revenue for the three months ended June 30, 2002 as compared to the three months ended June 30, 2001 was attributable to increased revenue in the Company's Pageflex and MyFonts segments of \$169 and \$218, respectively, partially offset by a decrease in Type revenue of \$45. Revenue for the six months ended June 30, 2002 increased for all three of the Company's business segments as compared to the six months ended June 30, 2001. The increase in cost of revenue for the three months and six months ended June 30, 2002 as compared to the three months and six months ended June 30, 2001 was primarily due to increased royalty expense for the Company's MyFonts segment resulting from increased sales. Cost of revenue for the Company includes fees paid to third parties for the development or license of rights to technology and/or unique typeface designs, costs incurred in the fulfillment of custom orders, and costs associated with the duplication, packaging and shipping of product. Gross profit generated by each segment is discussed in more detail below.

The decrease in Type revenue for the three months ended June 30, 2002 versus the three months ended June 30, 2001 was the result of decreases in revenue from retail sales of \$32 and custom design services of \$13. The increase in revenue for the six months ended June 30, 2002 as compared to the six months ended June 30, 2001 was the result of an increase in OEM license revenue of \$121 partially offset by decreases in retail product sales of \$36 and custom design services of \$36. Retail sales of the Company's Type products and custom design work have decreased over the past year because of consumer concerns over the economy and decreases in spending. Cost of revenue during the second quarter of 2002 increased primarily due to an increase in royalties due to an increase in sales of products developed by third parties. This increase was partially offset by a decrease in costs attributable to custom design services.

Revenue for MyFonts has increased as consumer purchases of the Company's products has increased. MyFonts has been successfully increasing the number of fonts available on its site, the number of foundries participating, and the visibility of the site through increased marketing activities. Myfonts has attracted new purchasers while also retaining existing customers who accounted for approximately 25% of orders during the first six months of 2002. Inter-company sales, which MyFonts generated from the resale of Bitstream fonts, have been excluded. Total MyFonts revenue, before the elimination of inter-company royalties resulting from the resale of Bitstream products, for the three months ended June 30, 2002 increased \$245 or 145.8% to \$413 from \$168 for the three months ended June 30, 2001. Cost of revenue increased primarily because the sales of fonts from non-affiliated foundries increased. Royalties payable to non-affiliated foundries on sales of their fonts are approximately 80% of the revenue generated.

The increase in Pageflex license revenue for the three and six month periods ended June 30, 2002 as compared to the three and six month periods ended June 30, 2001 was primarily the result of an increase in sales of Mpower, as well as an increase in Mpower monthly subscription fees generated by an expanding customer base. The increase in service revenue is primarily due to increases in maintenance support fees attributable to the increased customer base. The decrease in cost of revenue for the three months ended June 30, 2002 as compared to the three months ended June 30, 2001 was the result of a decrease in amounts paid to third parties resulting from the payment of a one time commission of \$51 in the second quarter of 2001. This decrease was partially offset by an increase in shipping and manufacturing supply costs, as well as payroll costs resulting from the reassignment of two employees to provide support and infrastructure to the Company's increased costs customer base during the first quarter of 2002. These increased costs were greater than the one time commission discussed above, causing a total cost of revenue to increase for the six months ended June 30, 2002 as compared to the six months ended June 30, 2001.

The decrease in marketing and selling expenses in absolute dollars and as a percentage of revenue for the three month and six month periods ended June 30, 2002 as compared to the three month and six month periods ended June 30, 2001 reflects expense reductions implemented by management in the fourth quarter of 2001. Type marketing and selling expenses decreased primarily due to reductions in personnel and decreases in marketing expenditures for trade shows, and print and production costs for advertising and marketing. These reductions accounted for \$102 and \$154 of the decreases for the three months and six months ended June 30, 2002 as compared to the same periods ended June 30, 2001. Pageflex marketing and selling expenses decreased due to reductions in employee related expenses of \$49 and \$141 for the three months and six months ended June 30, 2002 as compared to the same periods ended June 30, 2001, and due to a reduction in consulting expenses of \$22 and \$36, respectively, for the three and six months ended June 30, 2002 versus the three and six months ended June 30, 2001. Also, Pageflex tradeshow and travel expenses decreased \$72 for the six months ended June 30, 2002 as compared to the six months ended June 30, 2001. Myfonts marketing and selling expenses moderately increased primarily due to increased utilization of the Company's marketing staff.

The decrease in R&D expenses in absolute dollars and as a percentage of revenue for the three and six month periods ended June 30, 2002 as compared to the same periods ended June 30, 2001 is primarily attributable to cost reductions adopted during the fourth quarter of 2001. The increase in R&D expenses for the Type segment for the three months ended June 30, 2002 as compared to the three months ended June 30, 2001 was primarily attributable to an increase in internally allocated resources and corresponding facility charges of \$45, and \$10 in engineering consulting. This increase was partially offset by a \$30 decrease in goodwill amortization of technology associated with the acquisition of Type Solutions, Inc. resulting from the Company's adoption of SFAS No. 142 effective January 1, 2002. See Note 1(d) in the Notes to the Consolidated Financial Statements included herewith. The decrease in Type R&D expenses for the six months ended June 30, 2002 as compared to the six months ended June 30, 2001 was primarily the result of a decrease in goodwill amortization of \$60, partially offset by the increases discussed above. The MyFonts decrease was primarily the result of the decreased use of outside consultants and the absorption of that work by employees. The Pageflex decrease was primarily attributable to headcount reductions completed as part of the Company's restructuring in the fourth quarter of 2001, which resulted in savings of \$129 and \$280 in salaries, benefits, travel and facility costs, as well as decreases of \$44 and \$88 resulting from the reassignment of two employees to customer support positions which are included in cost of revenue for the three month and six month periods ended June 30, 2002, respectively. Pageflex also decreased the outsourcing of engineering projects, which resulted in savings of \$22 and \$83 for the three month and six month periods ended June 30, 2002 as compared to the three month and six month periods ended June 30, 2001, respectively.

The increase in Type G&A expenses for the three months ended June 30, 2002 as compared to the three months ended June 30, 2001 was primarily the result of a change in bad debt expense of \$29, partially offset by a savings of \$22 in goodwill amortization related to the acquisition of Mainstream Software Solutions, Ltd., which was fully amortized as of December 31, 2001. The decrease in Type G&A expenses for the six months ended June 30, 2002 reflects first quarter savings in goodwill amortization of \$22 and reductions in the cost of professional services. Pageflex G&A for the three and six month periods ended June 30, 2002 versus the same periods ended June 30, 2001 reflects decreased employee insurance and administrative expense allocations, of approximately \$62 and \$123, respectively, attributable to the headcount reduction completed as part of the Company's restructuring in the fourth quarter of 2001. Pageflex also benefited from decreased goodwill amortization in connection with the Alaras acquisition of \$65 and \$130 for the three and six month periods ended June 30, 2002 as compared to the same periods ended June 30, 2001, respectively. This goodwill amortization ceased in accordance with the Company's adoption of SFAS No. 142 on January 1, 2002. See Note 1(d) in the Notes to the Consolidated Financial Statements included herewith for further information. These decreases in Pageflex G&A expenses were partially offset by increases in bad debt expense of \$111 and \$208, respectively, attributable to net recoveries of \$(111) and \$(226) for the three and six month periods ended June 30, 2001, respectively.

The Company's provision for income taxes for the three and six month periods ended June 30, 2002 were attributable primarily to foreign income taxes. Foreign taxes vary with Type OEM license royalties from customers in countries who have signed tax conventions with the United States including Japan, Korea, and Poland, and also with the results of operations from the Company's location in the United Kingdom.

LIQUIDITY AND CAPITAL RESOURCES (in thousands)

The Company has funded its operations primarily through the public sale of equity securities, cash flows from operations and cash received from the sale of the Company's MediaBank and InterSep OPI product lines to Inso Providence Corporation in August of 1998. As of June 30, 2002, the Company had net working capital of \$4,245 versus \$4,688 at December 31, 2001.

The Company used cash of approximately \$196 and \$266 to fund its operations during the six months ended June 30, 2002 and 2001, respectively. The cash was used primarily to fund the Company's net losses. The net losses after adjustment for non-cash expenses resulted in the use of \$337 and \$1,604 in cash during the six months ended June 30, 2002 and 2001, respectively. Changes in operating assets and liabilities resulted in cash savings of \$141 and \$1,338 for the six months ended June 30, 2002 and 2001, respectively. During the six months ended June 30, 2002, the primary change in operating assets and liabilities was the increase in accounts payable and accruals of approximately \$265.

During the six months ended June 30, 2001, the primary change in operating assets and liabilities was the collection of accounts receivable and the resulting \$1,112 decrease in outstanding accounts receivable.

The Company's investing activities used cash of \$129 and \$477 for the six months ended June 30, 2002 and 2001, respectively. Additions of property and equipment and intangible assets used \$129 and \$227 in cash for the six months ended June 30, 2002 and 2001, respectively. During the six months ended June 30, 2001 the Company also increased its investment in DiamondSoft, Inc. by \$250.

The Company's financing activities provided cash of \$21 and \$148 for the six months ended June 30, 2002 and 2001, respectively from the exercise of stock options.

The Company believes its current cash and cash equivalent balances will be sufficient to meet the Company's operating and capital requirements for at least the next 12 months. There can be no assurance, however, that the Company will not require additional financing in the future. If the Company were required to obtain additional financing in the future, there can be no assurance that sources of capital will be available on terms favorable to the Company, if at all.

As of June 30, 2002, the Company had no material commitments for capital expenditures. From time to time, the Company evaluates potential acquisitions of products, businesses and technologies that may complement or expand the Company's business. Any such transactions consummated may use a portion of the Company's working capital or require the issuance of equity or debt. As of June 30, 2002, the Company had future minimum annual lease payments under the Company's leased facilities of \$201 for the remainder of 2002 and \$301 for the year ended December 31, 2003.

NASDAQ LISTING REQUIREMENTS

The Company's Common Stock currently trades on the NASDAQ National Market System. Effective November 1, 2002, the NASDAQ has changed its National Market System continued listing standard from a minimum \$4,000,000 net tangible asset requirement to a minimum \$10,000,000 stockholders' equity requirement. Based on its financial position as of June 30, 2002, the Company would not meet the continued listing requirements for the National Market System that will apply to

it as of November 1, 2002. Although the Company is currently pursuing options to meet this new National Market System standard, if the Company is unable to qualify for continued listing as of November 1, 2002, the Company's Common Stock is likely to be delisted from the NASDAQ National Market System. In such event, the Company intends to apply for continued listing on the NASDAQ Small Cap Market. Delisting from the National Market System or changing to the NASDAQ Small Cap Market may materially adversely affect the ability of the Company's stockholders to sell their shares and may make it more difficult for the Company to raise additional funding through the sale of its equity securities.

PART 1, ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

RECENT ACCOUNTING PRONOUNCEMENTS

In June 2001, the FASB issued SFAS No. 143, *Accounting for Asset Retirement Obligations*. This Statement addresses financial accounting and reporting for obligations associated with the retirement of tangible long-lived assets and the associated asset retirement costs. This Statement applies to legal obligations associated with the retirement of long-lived assets that result from the acquisition, construction, development, or normal use of the asset. SFAS No. 143 is effective for fiscal years beginning after June 15, 2002. The Company does not expect SFAS No. 143 to have a material impact on its financial position or results of operations upon its adoption January 1, 2003.

In June 2002, the FASB issued SFAS No. 146, *Accounting for Costs Associated with Exit or Disposal Activities*, which supercedes EITF 94-3, *Liability Recognition for Certain Employee Termination Benefits and Other Costs to Exit an Activity (including Certain Costs Incurred in a Restructuring)*. The provisions of this Statement are required to be adopted for exit or disposal activities that are initiated after December 31, 2002. Under this standard, a liability for a cost associated with an exit or disposal activity formerly recognized upon the entity's commitment to an exit plan are now recognized when the liability is incurred. The Company does not expect SFAS No. 146 to have a material impact on its financial position or results of operations upon its adoption January 1, 2003.

Derivative Financial Instruments, Other Financial Instruments and Derivative Commodity Instruments.

As of June 30, 2002, the Company did not participate in any derivative financial instruments or other financial and commodity instruments for which fair value disclosure would be required under SFAS No. 107. All of the Company's investments are short-term, investment-grade commercial paper, and money market accounts that are carried on the Company's books at amortized cost, which approximates fair market value. Accordingly, the Company has no quantitative information concerning the market risk of participating in such investments.

Primary Market Risk Exposures

The Company's primary market risk exposures are in the areas of interest rate risk and foreign currency exchange rate risk. The Company's investment portfolio of cash equivalent and short-term investments is subject to interest rate fluctuations, but the Company believes this risk is immaterial due to the short-term nature of these investments. The Company's exposure to currency exchange rate fluctuations has been, and is expected to continue to be, modest due to the fact that the operations of its international subsidiaries are almost exclusively conducted in their respective local currencies. International subsidiary operating results are translated into U.S. dollars and consolidated for reporting purposes. The impact of currency exchange rate movements on inter-company transactions was immaterial for the six months ended June 30, 2002. Currently the Company does not engage in foreign currency hedging activities.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is not a party to any material litigation.

ITEM 2. CHANGES IN SECURITIES AND USE OF PROCEEDS

(a) Instruments defining the rights of the holders of any class of registered securities of the Company have not been materially modified during the three months ended June 30, 2002.
