**Item 8.01            Other Events**

The Company had previously announced that as of March 31, 2006 it was in default under its senior bank credit facility due to the restatement of its 2003 financial statements. As a result, \$200 million of the debt under the Company's senior bank credit facility had been classified as current on the balance sheet as of December 31, 2005. In addition, the Company needed to obtain a waiver of this default and an amendment of the representation relating to the 2003 financial statements before the Company could borrow additional funds under the revolving credit facility.

On April 5, 2006, The AES Corporation (the Company) obtained the necessary votes from a majority of its bank lenders under the senior bank facility to waive the event of default described above and the waiver and amendment has been executed. Please see a copy of the waiver and amendment attached as Exhibit 99.1. As a result of this waiver and amendment, the Company now has full access to the credit available under its senior bank facility.
