INFORMATION TO BE INCLUDED IN THE REPORT

Item 2.05. Costs Associated with Exit or Disposal Activities.

On March 31, 2009, Carlisle Companies Incorporated (the Company) decided to exit the on-highway friction and brake shoe business (the on-highway braking business) operated by its wholly-owned subsidiary, Motion Control Industries, and dispose of the assets used in the business as part of a planned dissolution. In connection with its decision to dissolve the on-highway braking business, the Company is evaluating the resulting asset impairment and severance charge and currently estimates the after-tax amount to approximate \$4.5 million. The expected charge will be recorded in the Company's results from discontinued operations for the first quarter ended March 31, 2009. Total after-tax losses associated with the disposition and dissolution of the on-highway braking business approximate \$49.8 million and include the following charges reported in the first quarter ended March 31, 2008 as a result of the Company's earlier decision to dispose of the on-highway braking business: (i) \$27.6 million after-tax impairment charge relating to goodwill and other intangible assets, (ii) \$10.6 million after-tax impairment charge relating to long-lived assets, and (iii) \$7.1 million after-tax impairment charge relating to inventory. Additional losses are possible as the Company completes the disposition and dissolution of the on-highway braking business.

Item 2.06 Material Impairments.
