ITEM 1. DESCRIPTION OF BUSINESS

General Development of Business

Founded in 1901, we are a Delaware corporation with our registered office in Wilmington, Delaware. As of December 31, 2004, we had manufacturing operations at 31 facilities in 14 countries. Our products are sold in over 200 countries and territories.

We manufacture and sell a wide variety of consumer products throughout the world. We have five business segments: Blades and Razors, Duracell, Oral Care, Braun, and Personal Care.

Agreement and Plan of Merger

On January 27, 2005, we entered into an Agreement and Plan of Merger (the Merger) with The Procter & Gamble Company (P&G), an Ohio corporation, and Aquarium Acquisition Corp., a wholly owned subsidiary of P&G. Each share of our common stock will be converted into the right to receive 0.975 shares of the P&G common stock. The consummation of the merger is subject to customary conditions. See Note 15, Subsequent Events, on pages 71 73 in our Notes to Consolidated Financial Statements, for a more complete description of the Merger and related agreements.

Blades and Razors

We are the world leader in blades and razors. We sell male shaving systems under such brands as M3Power, Mach3Turbo, Mach3, Sensor3, SensorExcel, Sensor, Atra, and Trac II, and disposable razors under the Sensor3, Custom Plus, and Good News brands. In February 2005, we introduced the M3 Power Nitro shaving system for men, which is scheduled to be available to consumers in North America in the spring 2005. Our female shaving systems are sold under the Gillette for Women Venus and Venus Divine, SensorExcel for Women, and Sensor for Women brands, and our disposable razors are sold under the Agility and Daisy brands. In December 2004, we introduced the Venus Vibrance shaving system for women and Venus disposable razors, both of which are scheduled to be available to consumers in North America in the spring 2005. We also introduced Venus Divine disposable razors in December 2004, scheduled to be available to consumers in select European markets in the spring 2005.

Duracell

Edgar Filing: GILLETTE CO - Form 10-K

We are the world leader in alkaline batteries for consumers. Our products include Duracell CopperTop and Duracell Ultra alkaline batteries and Duracell primary lithium, zinc air, and rechargeable nickel-metal hydride batteries.

Oral Care

We are the world leader in manual and power toothbrushes. In the second quarter of 2004, we acquired the Rembrandt brand of at-home and professional tooth-whitening products and also Zooth, Inc., a leader in licensed manual and power toothbrushes for children. Business Segments

Operating Segments and Related Information, which contains information on net sales, profit from operations, identifiable assets, capital expenditures, and depreciation for each of the last three years, is incorporated by reference from pages 70 and 71 of the 2004 Annual Report.

Distribution

In major geographic markets, our products are sold directly to retailers and to wholesalers for resale through retail stores. Oral Care products and Braun personal diagnostic appliances are also sold to health care professionals. In some small geographic markets, our products are distributed by local distributors and through sales agents. The Company's largest customer, Wal-Mart Stores, Inc. and its affiliates, accounted for 13% of net sales in 2004, 2003, and 2002. These sales were made primarily in the United States and were across all product segments.

Patents

Some of our patents and licenses in the Blades and Razors segment are of substantial value and importance when considered in the aggregate. Additionally, we hold significant patents in our Duracell, Oral Care, Braun, and Personal Care businesses. No single patent or license held by us is material to our total business. We have licensed many of our blade and razor patents to other manufacturers. In all of our business segments, our competitors also have significant patent positions. The patents and licenses held by us are of varying remaining durations.

Trademarks

In general, our principal trademarks have been registered in the United States and throughout the world where our products are sold. Our products are marketed outside the United States under various trademarks, many of which are the same as those used in the United States. The trademark Gillette is of principal importance to us. In addition, a number of other trademarks owned by us and our subsidiaries have significant importance within their industries. Our rights in these trademarks endure for as long as they are used or registered.

Competition

All of our markets are highly competitive. Some of our competitors are larger and have greater resources than we do. The Blades and Razors segment is highly competitive in terms of new technology, product performance, price, marketing, advertising, and promotion. Our major competitors worldwide in blades and razors include Energizer Holdings, Inc., with its Schick product line, and, in certain countries, its Wilkinson Sword product line, and Societe Bic S.A. The Duracell segment is highly competitive in terms of price, marketing, advertising, and promotion. Competition in the Oral Care segment is focused on product performance, price, and professional endorsement. Competition in the

Edgar Filing: GILLETTE CO - Form 10-K

electric shaver and epilator product lines is based primarily on product performance, innovation, and price. The Personal Care segment is highly competitive in terms of price, product performance, marketing, and advertising, with frequent introductions of new brands and marketing concepts and with product life cycles typically shorter than in our other businesses.

Employees

At year-end, we employed approximately 28,700 persons, over 75% of them outside the United States.

Research and Development

Our research and development efforts are significant to our product innovation, particularly in Blades and Razors. In 2004, research and development expenditures were \$209 million, compared with \$201 million in 2003 and \$181 million in 2002.

Raw Materials

The raw materials we use to manufacture our products are purchased from a number of suppliers, and substantially all such materials are readily available.

Management, after review and consultation with counsel, considers that any liability from all of these legal proceedings and claims would not materially affect our consolidated financial condition, results of operations, or liquidity.

CAUTIONARY STATEMENT

Certain statements that we may make from time to time, including statements contained in this report, constitute forward-looking statements under the federal securities laws. Forward-looking statements may be identified by words such as "plans," "expects," "believes," "anticipates," "estimates," "projects," "will" and other words of similar meaning used in conjunction with, among other things, discussions

of future operations, acquisitions and divestitures, financial performance, our strategy for growth, product development and new product launches, market position, and expenditures.

Forward-looking statements are based on current expectations of future events, but actual results could vary materially from our expectations and projections. Investors are cautioned not to place undue reliance on any forward-looking statements. We assume no obligation to update any forward-looking statements. We caution that historical results should not be relied upon as indications of future performance.

Other factors that could cause actual results to differ materially from those expressed in any forward-looking statement include the following, some of which are described in greater detail below:

- merger, acquisition, divestiture, and collaborative activities by us, our competitors, or customers;

- the pattern of our sales, including variations in sales volume within periods;

- consumer demands and preferences, including the acceptance by our customers and consumers of new products and line extensions;

the mix of products sold;

our ability to control and reduce our internal costs and the cost of raw materials;

competitive factors, including prices, promotional incentives, and trade terms for our products, and our response, as well as that of our customers and competitors, to changes in these factors;

product introductions and innovations by us and our competitors;

technological advances by us and our competitors;

new patents granted to us and our competitors;

changes in foreign exchange rates in one or more of our geographic markets;

changes in laws and regulations, including trade regulations, accounting standards and tax laws, governmental actions affecting the manufacturing and sale of our products, unstable governments and legal systems, and nationalization of industries;

changes in accounting policies;

failure to maintain effective internal controls; and

the impact of general political and economic conditions or hostilities in the United States and in other parts of the world.

EFFECTS OF MERGER

The proposed merger between The Gillette Company and The Procter & Gamble Company, described in the Subsequent Events caption at pages 71-73 of the 2004 Annual Report and incorporated by reference, if completed, will have material effects on the forward-looking statements contained in this report. Investors are advised that such forward-looking statements with respect to revenues, earnings, performance, strategies, prospects, and other aspects of the Company's business are discussed as a combined business in the registration statement on Form S-4 to be filed with the Securities and Exchange Commission (SEC). **INVESTORS ARE URGED TO READ THE REGISTRATION STATEMENT AND ANY OTHER RELEVANT DOCUMENTS FILED WITH THE SEC, INCLUDING THE JOINT PROXY STATEMENT/PROSPECTUS THAT WILL BE PART OF THE REGISTRATION STATEMENT, BECAUSE THEY WILL CONTAIN IMPORTANT INFORMATION ABOUT THE PROPOSED TRANSACTION.**

COMPETITIVE ENVIRONMENT

We experience intense competition for sales of our products in most markets. Our products compete with widely advertised, well-known, branded products, as well as with private label products, which typically are sold at lower prices. In most of our markets, we have major competitors, some of which are larger and more diversified than we are. In March 2003, Energizer Holdings, Inc. acquired the Schick blade and razor business and, in certain countries, the Wilkinson Sword blade and razor business. We have experienced increased competition in our Blades and Razors segment as a result of this change in business ownership. Aggressive competition within our markets to preserve, gain, or regain market share can affect our results in any given period.

CHANGES IN TECHNOLOGY AND NEW PRODUCT INTRODUCTIONS

In most product categories in which we compete, there are continuous technological changes and frequent introductions of new products and line extensions. Our ability to introduce new products and/or extend lines of established products successfully will depend on, among other things, our ability to identify changing consumer tastes and needs, develop new technologies, differentiate our products, and gain market acceptance of new products. We cannot be certain that we will achieve these goals.

INTELLECTUAL PROPERTY

We rely upon patent, copyright, trademark, and trade secret laws in the United States and in other countries to establish and maintain our proprietary rights in technology, products, and brands. Our intellectual property rights, however, could be challenged, invalidated, or circumvented. We do not believe that our products infringe the intellectual property rights of others, but any such claims, if they were successful, could result in material liabilities or loss of business.

COST-SAVINGS STRATEGY

We have implemented and approved a number of programs designed to reduce costs. Such programs will require, among other things, the consolidation and integration of facilities, functions, systems, and procedures, all of which present significant management challenges. There can be no assurance that such actions will be accomplished as rapidly as anticipated or that the full extent of expected cost reductions will be achieved.

SALES AND OPERATIONS OUTSIDE OF THE UNITED STATES

Sales outside of the United States represent a substantial portion of our business. In addition, we have a number of manufacturing facilities and suppliers located outside of the United States. Accordingly, the following factors could adversely affect operating results in any reporting period:

- changes in political or economic conditions;
- trade protection measures;
- import or export licensing requirements;
- changes in the mix of earnings taxed at varying rates;
- changes in regulatory requirements or tax laws; and
- longer payment cycles in certain countries.

We are also exposed to foreign currency exchange rate risk with respect to our sales, profits, and assets and liabilities denominated in currencies other than the U.S. dollar. Although we use instruments to hedge certain foreign currency risks (through foreign currency forward, swap, and option contracts and non-U.S. dollar denominated financings) and we are partially hedged through our foreign manufacturing operations, we are not fully protected against foreign currency fluctuations and our reported earnings will be affected by changes in foreign exchange rates.

RETAIL ENVIRONMENT

With the growing trend toward retail trade consolidation, especially in developed markets such as the United States and Europe, we are increasingly dependent upon key retailers whose bargaining strength is growing. Accordingly, we face greater pressure from significant retail trade customers to provide more favorable trade terms.

We can be negatively affected by changes in the policies of our retail trade customers, such as trade inventory levels, access to shelf space, and other conditions. Many of our customers, particularly our high-volume retail trade customers, have engaged in accelerated efforts to reduce inventory levels and shrinkage and to change inventory delivery systems. While we expect the level of trade inventory of our products to decline over time, the speed and magnitude of such reductions and/or our inability to develop satisfactory inventory delivery systems could adversely affect operating results in any reporting period.

EFFECT OF TERRORISM, MILITARY ACTION AND WAR

Edgar Filing: GILLETTE CO - Form 10-K

Terrorism, military hostilities and attendant political activity have created an atmosphere of economic uncertainty throughout the world. A disruption in our supply chain, an increase in import or export costs, and/or other macroeconomic events, could adversely affect operating results in any reporting period.

ITEM 9A. CONTROLS AND PROCEDURES

Our management, under the supervision and with the participation of our Chief Executive Officer (CEO) and Chief Financial Officer (CFO), has evaluated the effectiveness of our disclosure controls and procedures as defined in Securities and Exchange Commission (SEC) Rule 13a-15(e) as of the end of the period covered by this report. Management has concluded that our disclosure controls and procedures are effective to ensure that information we are required to disclose in reports that we file or submit under the Securities Exchange Act is accumulated and communicated to management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure and is recorded, processed, summarized, and reported within the time periods specified in the SEC s rules and forms.

The management reports on internal control over financial reporting and the attestation report of the independent registered public accounting firm required by this item are each incorporated by reference from pages 40 and 41, respectively, of the 2004 Annual Report.

During the Company's fourth quarter, there were no significant changes in internal controls over financial reporting that materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.
