January 08, 2014  
UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF  
THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended November 30, 2013

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF  
THE SECURITIES EXCHANGE ACT OF 1934

Commission File Number: 1-31420

CARMAX, INC.

(Exact name of registrant as specified in its charter)

VIRGINIA 54-1821055  
(State or other jurisdiction of (I.R.S. Employer  
incorporation or organization) Identification No.)

Edgar Filing: CARMAX INC - Form 10-Q

12800 TUCKAHOE CREEK PARKWAY, RICHMOND, VIRGINIA 23238  
(Address of principal executive offices) (Zip Code)

(804) 747-0422

(Registrant's telephone number, including area code)

N/A

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer or a smaller reporting company. See definition of "large accelerated filer", "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act).

Yes No

Edgar Filing: CARMAX INC - Form 10-Q

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class Outstanding as of December 31, 2013

Common Stock, par value \$0.50 223,223,739

CARMAX, INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements

(Unaudited)

1. Background

CarMax, Inc. (“we,” “our,” “us,” “CarMax” and “the company”), including its wholly owned subsidiaries, is the largest retailer of used vehicles in the United States. We operate in two reportable segments: CarMax Sales Operations and CarMax Auto Finance (“CAF”). Our CarMax Sales Operations segment consists of all aspects of our auto merchandising and service operations, excluding financing provided by CAF. Our CAF segment consists solely of our own finance operation that provides vehicle financing through CarMax superstores.

We were the first used vehicle retailer to offer a large selection of high quality used vehicles at low, no-haggle prices using a customer-friendly sales process in an attractive, modern sales facility. We provide customers with a full range of related products and services, including the appraisal and purchase of vehicles directly from consumers; the financing of vehicle purchases through CAF and third-party financing providers; the sale of extended service plans (“ESP”), guaranteed asset protection (“GAP”) and accessories; and vehicle repair service. Vehicles purchased through the appraisal process that do not meet our retail standards are sold to licensed dealers through on-site wholesale auctions. At select locations we also sell new vehicles under franchise agreements.

2. Accounting Policies

**Basis of Presentation and Use of Estimates.** The accompanying interim unaudited consolidated financial statements include the accounts of CarMax and our wholly owned subsidiaries. All significant intercompany balances and transactions have been eliminated in consolidation. These consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles (“GAAP”) for interim financial information. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, such interim consolidated financial statements reflect all normal recurring adjustments considered necessary to present fairly the financial position and the results of operations and cash flows for the interim periods presented. The results of operations for the interim periods are not necessarily indicative of the results to be expected for the full fiscal year. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and footnotes included in our Annual Report on Form 10-K for the fiscal year ended February 28, 2013.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates. Amounts and percentages may not

total due to rounding.

Cash and Cash Equivalents. Cash equivalents of \$647.5 million as of November 30, 2013, and \$430.3 million as of February 28, 2013, consisted of highly liquid investments with original maturities of three months or less.

Restricted Cash from Collections on Auto Loan Receivables. Cash accounts totaling \$246.8 million as of November 30, 2013, and \$224.3 million as of February 28, 2013, consisted of collections of principal and interest payments on securitized auto loan receivables that are restricted for payment to the securitization investors pursuant to the applicable securitization agreements.

Securitizations. We maintain a revolving securitization program composed of two warehouse facilities (“warehouse facilities”) that we use to fund auto loan receivables originated by CAF until they are funded through a term securitization or alternative funding arrangement. We sell the auto loan receivables to a wholly owned, bankruptcy-remote, special purpose entity that transfers an undivided percentage ownership interest in the receivables, but not the receivables themselves, to entities formed by third-party investors. These entities issue asset-backed commercial paper or utilize other funding sources supported by the transferred receivables, and the proceeds are used to finance the securitized receivables.

We typically use term securitizations to provide long-term funding for the auto loan receivables initially securitized through the warehouse facilities. In these transactions, a pool of auto loan receivables is sold to a bankruptcy-remote, special purpose entity that, in turn, transfers the receivables to a special purpose securitization trust. The securitization trust issues asset-backed securities, secured or otherwise supported by the transferred receivables, and the proceeds from the sale of the asset-backed securities are used to finance the securitized receivables.

We are required to evaluate term securitization trusts for consolidation. In our capacity as servicer, we have the power to direct the activities of the trusts that most significantly impact the economic performance of the trusts. In addition, we have the obligation to absorb losses (subject to limitations) and the rights to receive any returns of the trusts, which could be significant. Accordingly, we are the primary beneficiary of the trusts and are required to consolidate them.

We recognize transfers of auto loan receivables into the warehouse facilities and term securitizations (“securitization vehicles”) as secured borrowings, which result in recording the auto loan receivables and the related non-recourse notes payable to the investors on our consolidated balance sheets.

The securitized receivables can only be used as collateral to settle obligations of the securitization vehicles. The securitization vehicles and investors have no recourse to our assets beyond the securitized receivables, the amounts on deposit in reserve accounts and the restricted cash from collections on auto loan receivables. We have not provided financial or other support to the securitization vehicles that was not previously contractually required, and there are no additional arrangements, guarantees or other commitments that could require us to provide financial support to the securitization vehicles.

See Notes 4 and 9 for additional information on auto loan receivables and non-recourse notes payable.

**Auto Loan Receivables, Net.** Auto loan receivables include amounts due from customers related to retail vehicle sales financed through CAF. The receivables are presented net of an allowance for estimated loan losses. The allowance for loan losses represents an estimate of the amount of net losses inherent in our portfolio of managed receivables as of the applicable reporting date and anticipated to occur during the following 12 months. The allowance is primarily based on the credit quality of the underlying receivables, historical loss trends and forecasted forward loss curves. We also take into account recent trends in delinquencies and losses, recovery rates and the economic environment. The provision for loan losses is the periodic expense of maintaining an adequate allowance.

An account is considered delinquent when the related customer fails to make a substantial portion of a scheduled payment on or before the due date. In general, accounts are charged-off on the last business day of the month during which the earliest of the following occurs: the receivable is 120 days or more delinquent as of the last business day of the month, the related vehicle is repossessed and liquidated or the receivable is otherwise deemed uncollectible. For purposes of determining impairment, auto loans are evaluated collectively, as they represent a large group of smaller-balance homogeneous loans, and therefore, are not individually evaluated for impairment. See Note 4 for additional information on auto loan receivables.

Interest income and expenses related to auto loans are included in CAF income. Interest income on auto loan receivables is recognized when earned based on contractual loan terms. All loans continue to accrue interest until repayment or charge off. Direct costs associated with loan originations are not considered material, and thus, are expensed as incurred. See Note 3 for additional information on CAF income.

Property and Equipment, Net. Property and equipment is reported net of accumulated depreciation of \$707.7 million and \$649.0 million as of November 30, 2013, and February 28, 2013, respectively.

Other Assets. Other assets includes amounts classified as restricted cash on deposit in reserve accounts and restricted investments. The restricted cash on deposit in reserve accounts is for the benefit of holders of non-recourse notes payable, and these funds are not expected to be available to the company or its creditors. In the event that the cash generated by the securitized receivables in a given period was insufficient to pay the interest, principal and other required payments, the balances on deposit in the reserve accounts would be used to pay those amounts. Restricted cash on deposit in reserve accounts totaled \$34.1 million as of November 30, 2013, and \$41.3 million as of February 28, 2013.

Restricted investments includes money market securities primarily held to satisfy certain insurance program requirements, as well as mutual funds held in a rabbi trust established to fund informally our executive deferred compensation plan. Restricted investments was \$40.6 million as of November 30, 2013, and \$35.0 million as of February 28, 2013.

Derivative Instruments and Hedging Activities. We enter into derivative instruments to manage exposures that arise from business activities that result in the future known receipt or payment of uncertain cash amounts, the values of which are impacted by interest rates. We recognize the derivatives at fair value as either current assets or current liabilities on the consolidated balance sheets, and where applicable, such contracts covered by master netting agreements are reported net. Gross positive fair values are netted with gross negative fair values by counterparty. The accounting for changes in the fair value of derivatives depends on the intended use of the derivative, whether we have elected to designate a derivative in

a hedging relationship and apply hedge accounting and whether the hedging relationship has satisfied the criteria necessary to apply hedge accounting. We may enter into derivative contracts that are intended to economically hedge certain risks, even though hedge accounting may not apply or we do not elect to apply hedge accounting. See Note 5 for additional information on derivative instruments and hedging activities.

Recent Accounting Pronouncements. The Financial Accounting Standards Board did not issue any new accounting pronouncements relevant to us nor did any recent accounting pronouncements become effective for us in our fiscal 2014 third quarter.

### 3.CarMax Auto Finance Income

CAF provides financing to qualified customers purchasing vehicles at CarMax. CAF provides us the opportunity to capture additional sales, profits and cash flows while managing our reliance on third-party finance sources. Management regularly analyzes CAF's operating results by assessing profitability, the performance of the auto loan receivables including trends in credit losses and delinquencies, and CAF direct expenses. This information is used to assess CAF's performance and make operating decisions including resource allocation. In addition, except for auto loan receivables, which are disclosed in Note 4, CAF assets are not separately reported nor do we allocate assets to CAF because such allocation would not be useful to management in making operating decisions.

We typically use securitizations to fund loans originated by CAF, as discussed in Note 2. CAF income primarily reflects the interest and fee income generated by the auto loan receivables less the interest expense associated with the debt issued to fund these receivables, a provision for estimated loan losses and direct CAF expenses.

CAF income does not include any allocation of indirect costs. We present this information on a direct basis to avoid making arbitrary decisions regarding the indirect benefits or costs that could be attributed to CAF. Examples of indirect costs not allocated to CAF include retail store expenses and corporate expenses such as human resources, administrative services, marketing, information systems, accounting, legal, treasury and executive payroll.

#### 4. Auto Loan Receivables

Auto loan receivables include amounts due from customers related to retail vehicle sales financed through CAF and are presented net of an allowance for estimated loan losses. We use warehouse facilities to fund auto loan receivables originated by CAF until they are funded through a term securitization or alternative funding arrangement. The majority of the auto loan receivables serve as collateral for the related non-recourse notes payable of \$6.97 billion as of

November 30, 2013, and \$5.86 billion as of February 28, 2013. See Notes 2 and 9 for additional information on securitizations and non-recourse notes payable.

(1) Other receivables includes receivables not funded through the warehouse facilities or term securitizations.

**Credit Quality.** When customers apply for financing, CAF's proprietary scoring models rely on the customers' credit history and certain application information to evaluate and rank their risk. Credit histories are obtained from credit bureau reporting agencies and include information such as number, age, type of and payment history for prior or existing credit accounts. The application information that is used includes income, collateral value and down payment. The scoring models yield credit grades that represent the relative likelihood of repayment. Customers assigned a grade of "A" are determined to have the highest probability of repayment, and customers assigned a lower grade are determined to have a lower probability of repayment. For loans that are approved, the credit grade influences the terms of the agreement, such as the required loan-to-value ratio and interest rate.

CAF uses a combination of the initial credit grades and historical performance to monitor the credit quality of the auto loan receivables on an ongoing basis. We validate the accuracy of the scoring models periodically. Loan performance is reviewed on a recurring basis to identify whether the assigned grades adequately reflect the customers' likelihood of repayment.

#### Ending Managed Receivables by Major Credit Grade

	As of November		As of February 28	
(In millions)	30		2013 (1)	% (2)
	2013 (1)	% (2)	2013 (1)	% (2)
A	\$ 3,373.8	48.8	\$ 2,841.4	47.9

Edgar Filing: CARMAX INC - Form 10-Q

B	2,574.4	37.2	2,265.6	38.2
C and other	970.8	14.0	826.3	13.9
Total ending managed receivables	\$ 6,919.0	100.0	\$ 5,933.3	100.0

(1)Classified based on credit grade assigned when customers were initially approved for financing.

(2)Percent of total ending managed receivables.

Allowance for Loan Losses

(In millions)	Three Months Ended November 30				Nine Months Ended November 30			
	2013	% (1)	2012	% (1)	2013	% (1)	2012	% (1)
Balance as of beginning of period	\$ 65.9	1.0	\$ 49.5	0.9	\$ 57.3	1.0	\$ 43.3	0.9
Charge-offs	(36.3)		(28.2)		(94.5)		(73.1)	
Recoveries	18.6		14.9		56.1		43.9	
Provision for loan losses	19.7		18.1		49.0		40.2	
Balance as of end of period	\$ 67.9	1.0	\$ 54.3	1.0	\$ 67.9	1.0	\$ 54.3	1.0

(1)Percent of total ending managed receivables as of the corresponding reporting date.

The allowance for loan losses represents an estimate of the amount of net losses inherent in our portfolio of managed receivables as of the applicable reporting date and anticipated to occur during the following 12 months. The allowance is primarily based on the credit quality of the underlying receivables, historical loss trends and forecasted forward loss curves. We also take into account recent trends in delinquencies and losses, recovery rates and the economic environment. The provision for loan losses is the periodic expense of maintaining an adequate allowance.

#### Past Due Receivables

(In millions)	As of November		As of February 28	
	2013	% (1)	2013	% (1)
Total ending managed receivables	\$ 6,919.0	100.0	\$ 5,933.3	100.0

Total past due	\$ 201.1	2.9	\$ 154.2	2.6

(1)Percent of total ending managed receivables.

#### 5. Derivative Instruments and Hedging Activities

**Risk Management Objective of Using Derivatives.** We are exposed to certain risks arising from both our business operations and economic conditions, particularly with regard to future issuances of fixed-rate debt and existing and future issuances of floating-rate debt. Primary exposures include LIBOR and other rates used as benchmarks in our securitizations. We enter into derivative instruments to manage exposures that arise from business activities that result in the future known receipt or payment of uncertain cash amounts, the values of which are impacted by interest rates. Our derivative instruments are used to manage differences in the amount of our known or expected cash receipts and our known or expected cash payments principally related to the funding of our auto loan receivables.

We do not anticipate significant market risk from derivatives as they are predominantly used to match funding costs to the use of the funding. However, disruptions in the credit or interest rate markets could impact the effectiveness of our hedging strategies.

Credit risk is the exposure to nonperformance of another party to an agreement. We mitigate credit risk by dealing with highly rated bank counterparties.

**Designated Cash Flow Hedges.** Our objectives in using interest rate derivatives are to add stability to CAF's interest expense, to manage our exposure to interest rate movements and to better match funding costs to the interest received on the fixed-rate receivables being securitized. To accomplish these objectives, we primarily use interest rate swaps that involve the receipt of variable amounts from a counterparty in exchange for our making fixed-rate payments over the life of the agreements without exchange of the underlying notional amount. These interest rate swaps are designated as cash flow hedges of forecasted interest payments in anticipation of permanent funding in the term securitization market.

For derivatives that are designated and qualify as cash flow hedges, the effective portion of changes in the fair value is initially recorded in accumulated other comprehensive loss ("AOCL") and is subsequently reclassified into CAF income in the period that the hedged forecasted transaction affects earnings. The ineffective portion of the change in fair value of the derivatives is recognized directly in CAF income. Amounts reported in AOCL related to derivatives will be reclassified to CAF income as interest expense is incurred on our future issuances of fixed-rate debt. During the next 12 months, we estimate that an additional \$10.0 million will be reclassified as a decrease to CAF income.

As of November 30, 2013, and February 28, 2013, we had interest rate swaps outstanding with combined notional amounts of \$783.0 million and \$750.0 million, respectively, which were designated as cash flow hedges of interest rate risk.

Non-designated Hedges. Derivative instruments not designated as accounting hedges are not speculative. These instruments are used to limit risk for investors in the warehouse facilities. Changes in the fair value of derivatives not designated as accounting hedges are recorded directly in CAF income.

As of November 30, 2013, we had no derivatives that were not designated as accounting hedges. As of February 28, 2013, we had interest rate caps outstanding with offsetting (asset and liability) notional amounts of \$615.5 million that were not designated as accounting hedges.

#### Fair Values of Derivative Instruments

(In thousands)	As of November 30, 2013		As of February 28, 2013	
	Assets	Liabilities	Assets	Liabilities
Derivatives designated as accounting hedges:				
Interest rate swaps (1)		(2,889)		(517)

Derivatives not designated as accounting hedges:				
Interest rate caps (2)			26	(26)
Total derivatives not designated as accounting hedges			26	(26)
Total	\$	\$ (2,889)	\$ 26	\$ (543)

(1) Reported in accounts payable on the consolidated balance sheets.

(2) Reported in other current assets on the consolidated balance sheets.

#### Effect of Derivative Instruments on Comprehensive Income

(In thousands)	Three Months Ended November 30		Nine Months Ended November 30	
	2013	2012	2013	2012
Derivatives designated as accounting hedges:				
Loss recognized in AOCL (1)	\$ (7,421)	\$ (894)	\$ (4,069)	\$ (7,286)
Loss reclassified from AOCL into CAF income (1)	\$ (2,155)	\$ (3,327)	\$ (7,665)	\$ (9,855)
Gain recognized in CAF Income (2)	\$	\$	\$ 78	\$

Derivatives not designated as accounting hedges:

Loss recognized in CAF income (3)	\$	\$ (1)	\$	\$ (2)
-----------------------------------	----	--------	----	--------

(1) Represents the effective portion.

(2) Represents the ineffective portion.

(3) Represents the loss on interest rate swaps, the net periodic settlements and accrued interest.

## 6. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market or, if none exists, the most advantageous market, for the specific asset or liability at the measurement date (referred to as the “exit price”). The fair value should be based on assumptions that market participants would use, including a consideration of nonperformance risk.

We assess the inputs used to measure fair value using the three-tier hierarchy. The hierarchy indicates the extent to which inputs used in measuring fair value are observable in the market.

Level 1 Inputs include unadjusted quoted prices in active markets for identical assets or liabilities that we can access at the measurement date.

Level 2 Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, including quoted prices for similar assets in active markets, quoted prices from identical or similar assets in inactive markets and observable inputs such as interest rates and yield curves.

Level 3 Inputs that are significant to the measurement that are not observable in the market and include management's judgments about the assumptions market participants would use in pricing the asset or liability (including assumptions about risk).

Our fair value processes include controls that are designed to ensure that fair values are appropriate. Such controls include model validation, review of key model inputs, analysis of period-over-period fluctuations and reviews by senior management.

#### Valuation Methodologies

**Money Market Securities.** Money market securities are cash equivalents, which are included in either cash and cash equivalents or other assets, and consist of highly liquid investments with original maturities of three months or less. We use quoted market prices for identical assets to measure fair value. Therefore, all money market securities are classified as Level 1.

**Mutual Fund Investments.** Mutual fund investments consist of publicly traded mutual funds that primarily include diversified investments in large-, mid- and small-cap domestic and international companies. The investments, which are included in other assets, are held in a rabbi trust established to fund informally our executive deferred compensation plan. We use quoted active market prices for identical assets to measure fair value. Therefore, all mutual fund investments are classified as Level 1.

**Derivative Instruments.** The fair values of our derivative instruments are included in either other current assets or accounts payable. As described in Note 5, as part of our risk management strategy, we utilize derivative instruments to manage differences in the amount of our known or expected cash receipts and our known or expected cash payments principally related to the funding of our auto loan receivables. Our derivatives are not exchange-traded and are over-the-counter customized derivative instruments. All of our derivative exposures are with highly rated bank counterparties.

We measure derivative fair values assuming that the unit of account is an individual derivative instrument and that derivatives are sold or transferred on a stand-alone basis. We estimate the fair value of our derivatives using quotes determined by the derivative counterparties and third-party valuation services. Quotes from third-party valuation services and quotes received from bank counterparties project future cash flows and discount the future amounts to a present value using market-based expectations for interest rates and the contractual terms of the derivative instruments. The models do not require significant judgment and model inputs can typically be observed in the liquid market; however, because the models include inputs other than quoted prices in active markets, all derivatives are classified as Level 2.

Our derivative fair value measurements consider assumptions about counterparty and our own nonperformance risk. We monitor counterparty and our own nonperformance risk and, in the event that we determine that a party is unlikely to perform under terms of the contract, we would adjust the derivative fair value to reflect the nonperformance risk.

## Items Measured at Fair Value on a Recurring Basis

(In thousands)	As of November 30, 2013			
	Level 1	Level 2	Total	
Assets:				
Money market securities	\$ 682,266	\$	\$ 682,266

Derivative instruments	\$	\$ 517	\$ 517	
Total liabilities at fair value	\$	\$ 517	\$ 517	
Percent of total liabilities		%	%	%

## 7. Income Taxes

We had \$28.3 million of gross unrecognized tax benefits as of November 30, 2013, and \$25.1 million as of February 28, 2013. There were no significant changes to the gross unrecognized tax benefits as reported for the year ended February 28, 2013, as all activity was related to positions taken on tax returns filed or intended to be filed in the

current fiscal year.

## 8. Retirement Plans

Effective December 31, 2008, we froze both of our noncontributory defined benefit plans: our pension plan (the “pension plan”) and our unfunded, nonqualified plan (the “restoration plan”), which restores retirement benefits for certain associates who are affected by Internal Revenue Code limitations on benefits provided under the pension plan. No additional benefits have accrued under these plans since that date. In connection with benefits earned prior to December 31, 2008, we have a continuing obligation to fund the pension plan and will continue to recognize net periodic pension expense for both plans. We use a fiscal year end measurement date for both the pension plan and the restoration plan.

## Components of Net Pension Expense

(In thousands)	Three Months Ended November 30					
	Pension Plan		Restoration Plan		Total	
	2013	2012	2013	2012	2013	2012
Interest cost	\$ 1,896	\$ 1,825	\$ 128	\$ 115	\$ 2,024	\$ 1,940
Expected return on plan assets	(1,979)	(1,898)			(1,979)	(1,898)
Recognized actuarial loss	418	300			418	300
Net pension expense	\$ 335	\$ 227	\$ 128	\$ 115	\$ 463	\$ 342

(In thousands)	Nine Months Ended November 30					
	Pension Plan		Restoration Plan		Total	
	2013	2012	2013	2012	2013	2012
Interest cost	\$ 5,687	\$ 5,475	\$ 325	\$ 345	\$ 6,012	\$ 5,820
Expected return on plan assets	(5,937)	(5,694)			(5,937)	(5,694)
Recognized actuarial loss	1,255	900			1,255	900
Net pension expense	\$ 1,005	\$ 681	\$ 325	\$ 345	\$ 1,330	\$ 1,026

We made no contributions to the pension plan during the nine months ended November 30, 2013, and anticipate making no contributions during the remainder of fiscal 2014. The expected long-term rate of return on plan assets for the pension plan was 7.75% as of February 28, 2013.

## 9. Debt

(In thousands)	As of November 30 2013	As of February 28 2013
Short-term revolving credit facility	\$ 1,287	\$ 355
Current portion of finance and capital lease obligations	17,837	16,139
Current portion of non-recourse notes payable	214,535	182,915
Total current debt	233,659	199,409
Finance and capital lease obligations, excluding current portion	320,791	337,452
Non-recourse notes payable, excluding current portion	6,755,534	5,672,175
Total debt, excluding current portion	7,076,325	6,009,627

Total debt \$ 7,309,984 \$ 6,209,036

Revolving Credit Facility. Our \$700 million unsecured revolving credit facility (the “credit facility”) expires in August 2016. Borrowings under the credit facility are available for working capital and general corporate purposes. Borrowings accrue interest at variable rates based on LIBOR, the federal funds rate, or the prime rate, depending on the type of borrowing, and we pay a commitment fee on the unused portions of the available funds. As of November 30, 2013, the remaining capacity was fully available to us.

Finance and Capital Lease Obligations. Finance and capital lease obligations relate primarily to superstores subject to sale-leaseback transactions that did not qualify for sale accounting, and therefore, are accounted for as financings. The leases were structured at varying interest rates and generally have initial lease terms ranging from 15 to 20 years with payments made monthly. Payments on the leases are recognized as interest expense and a reduction of the obligations. We have not entered into any sale-leaseback transactions since fiscal 2009.

Non-Recourse Notes Payable. The non-recourse notes payable relate to auto loan receivables funded through term securitizations and our warehouse facilities. The timing of principal payments on the non-recourse notes payable is based on principal collections, net of losses, on the securitized auto loan receivables. The current portion of non-recourse notes payable represents principal payments that are due to be distributed in the following period.

As of November 30, 2013, \$6.16 billion of non-recourse notes payable was outstanding related to term securitizations. These notes payable accrue interest at fixed rates and have scheduled maturities through April 2020, but may mature earlier or later, depending upon the repayment rate of the underlying auto loan receivables.

As of November 30, 2013, \$807.0 million of non-recourse notes payable was outstanding related to our warehouse facilities. The combined warehouse facility limit was \$1.8 billion, and unused warehouse capacity totaled \$993.0 million. During the third quarter of fiscal 2014, we increased our \$900 million warehouse facility that is scheduled to expire in February 2014 to \$1.0 billion. Of the combined warehouse facility limit, \$1.0 billion will expire in February 2014 and \$800 million will expire in August 2014. The notes payable outstanding related to our warehouse facilities do not have scheduled maturities, instead the principal payments depend upon the repayment rate of underlying auto loan receivables. The return requirements of the investors could fluctuate significantly depending on market conditions. Therefore, at renewal, the cost, structure and capacity of the facilities could change. These changes could have a significant impact on our funding costs.

See Notes 2 and 4 for additional information on the related securitized auto loan receivables.

**Financial Covenants.** The credit facility agreement contains representations and warranties, conditions and covenants. We must also meet financial covenants in conjunction with certain of the sale-leaseback transactions. Our securitization agreements contain representations and warranties, financial covenants and performance triggers. As of November 30, 2013, we were in compliance with all financial covenants and our securitized receivables were in compliance with the related performance triggers.

## 10. Stock and Stock-Based Incentive Plans

### (A) Share Repurchase Program

In fiscal 2013, our board of directors authorized the repurchase of up to \$800 million of our common stock. Purchases may be made in open market or privately negotiated transactions at management's discretion and the timing and amount of repurchases are determined based on share price, market conditions, legal requirements and other factors. Shares repurchased are deemed authorized but unissued shares of common stock.

For the three months ended November 30, 2013, we repurchased 313,042 shares of common stock at an average purchase price of \$47.39 per share. For the nine months ended November 30, 2013, we repurchased 4,305,293 shares of common stock at an average purchase price of \$43.69 per share. For the three and nine months ended November 30, 2012, we repurchased 1,744,300 shares of common stock at an average purchase price of \$34.53 per share. As of November 30, 2013, \$400.0 million was available for repurchase under the authorization, which expires on December 31, 2014.

(B) Stock Incentive Plans

We maintain long-term incentive plans for management, key employees and the nonemployee members of our board of directors. The plans allow for the granting of equity-based compensation awards, including nonqualified stock options, incentive stock options, stock appreciation rights, restricted stock awards, stock- and cash-settled restricted stock units, stock grants or a combination of awards. To date, we have not awarded any incentive stock options.

The majority of associates who receive share-based compensation awards primarily receive cash-settled restricted stock units. Senior management and other key associates receive awards of nonqualified stock options and stock-settled restricted stock units. Nonemployee directors receive awards of nonqualified stock options and stock grants.

**Nonqualified Stock Options.** Nonqualified stock options are awards that allow the recipient to purchase shares of our common stock at a fixed price. Stock options are granted at an exercise price equal to the fair market value of our common stock on the grant date. The stock options generally vest annually in equal amounts over periods of one to four years. These options are subject to forfeiture and expire no later than ten years after the date of the grant.

**Cash-Settled Restricted Stock Units.** Also referred to as restricted stock units, or RSUs, these are awards that entitle the holder to a cash payment equal to the fair market value of a share of our common stock for each unit granted. Conversion generally occurs at the end of a three-year vesting period. However, the cash payment per RSU will not be greater than 200% or less than 75% of the fair market value of a share of our common stock on the grant date. RSUs are liability awards that are subject to forfeiture and do not have voting rights.

Stock-Settled Restricted Stock Units. Also referred to as market stock units, or MSUs, these are awards to eligible key associates that are converted into between zero and two shares of common stock for each unit granted. Conversion generally occurs at the end of a three-year vesting period. The conversion ratio is calculated by dividing the average closing price of our stock during the final forty trading days of the three-year vesting period by our stock price on the grant date, with the resulting quotient capped at two. This quotient is then multiplied by the number of MSUs granted to yield the number of shares awarded. MSUs are subject to forfeiture and do not have voting rights.

### (C)Share-Based Compensation

#### Composition of Share-Based Compensation Expense

(In thousands)	Three Months Ended		Nine Months Ended	
	November 30		November 30	
	2013	2012	2013	2012
Cost of sales	\$ 1,037	\$ 1,111	\$ 2,896	\$ 2,208
CarMax Auto Finance income	790	716	2,302	1,845
Selling, general and administrative expenses	15,371	14,821	50,608	43,304
Share-based compensation expense, before income taxes	\$ 17,198	\$ 16,648	\$ 55,806	\$ 47,357

#### Composition of Share-Based Compensation Expense – By Grant Type

(In thousands)	Three Months Ended		Nine Months Ended	
	November 30		November 30	
	2013	2012	2013	2012
Nonqualified stock options	\$ 5,946	\$ 4,564	\$ 18,765	\$ 18,805
Cash-settled restricted stock units	8,014	9,238	25,986	17,630
Stock-settled restricted stock units	2,986	2,589	9,697	9,612
Employee stock purchase plan	252	257	858	760
Stock grants to non-employee directors			500	550
Share-based compensation expense, before income taxes	\$ 17,198	\$ 16,648	\$ 55,806	\$ 47,357

We recognize compensation expense for stock options and MSUs on a straight-line basis (net of estimated forfeitures) over the requisite service period, which is generally the vesting period of the award. The variable expense associated with RSUs is recognized over their vesting period (net of estimated forfeitures) and is calculated based on the volume-weighted average price of our common stock on the last trading day of each reporting period. The total costs for matching contributions for our employee stock purchase plan are included in share-based compensation expense. There were no capitalized share-based compensation costs as of or for the nine months ended November 30, 2013 or 2012.

#### Stock Option Activity

	Number of Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (Years)	Aggregate Intrinsic Value
(Shares and intrinsic value in thousands)				
Outstanding as of February 28, 2013	10,771	\$ 23.00		
Options granted	1,605	42.77		
Options exercised	(1,328)	19.60		
Options forfeited or expired	(19)	26.25		
Outstanding as of November 30, 2013	11,029	\$ 26.29	3.7	\$ 272,568
Exercisable as of November 30, 2013	6,854	\$ 20.68	2.7	\$ 207,819

For the nine months ended November 30, 2013 and 2012, we granted nonqualified options to purchase 1,605,149 and 2,252,124 shares of common stock, respectively. The total cash received as a result of stock option exercises for the nine months ended November 30, 2013 and 2012, was \$26.0 million and \$37.8 million, respectively. We settle stock option exercises with authorized but unissued shares of our common stock. The total intrinsic value of options exercised for the

nine months ended November 30, 2013 and 2012, was \$34.7 million and \$37.7 million, respectively. We realized related tax benefits of \$13.9 million and \$15.1 million during the nine months ended November 30, 2013 and 2012, respectively.

### Outstanding Stock Options

	As of November 30, 2013				Options Exercisable	
	Options Outstanding		Weighted		Weighted	
	Number	Average Remaining	Weighted Average	Number	Average	
(Shares in thousands)	of	Contractual	Exercise	of	Exercise	
Range of Exercise Prices	Shares	Life (Years)	Price	Shares	Price	
\$ 11.43	1,627	2.4	\$ 11.43	1,627	\$ 11.43	
\$ 13.19 - \$ 19.82	2,268	1.3	\$ 16.35	2,268	\$ 16.35	
\$ 19.98 - \$ 25.39	1,677	3.2	\$ 25.19	1,318	\$ 25.13	
\$ 25.67 - \$ 32.05	2,147	5.2	\$ 31.60	657	\$ 31.39	
\$ 32.69 - \$ 49.25	3,310	5.3	\$ 37.50	984	\$ 32.82	
Total	11,029	3.7	\$ 26.29	6,854	\$ 20.68	

For stock options, the fair value of each award is estimated as of the date of grant using a binomial valuation model. In computing the value of the option, the binomial model considers characteristics of fair-value option pricing that are not available for consideration under a closed-form valuation model (for example, the Black-Scholes model), such as the contractual term of the option, the probability that the option will be exercised prior to the end of its contractual life and the probability of termination or retirement of the option holder. For this reason, we believe that the binomial model provides a fair value that is more representative of actual experience and future expected experience than the value calculated using a closed-form model. Estimates of fair value are not intended to predict actual future events or the value ultimately realized by the recipients of share-based awards.

The weighted average fair value per share at the date of grant for options granted during the nine months ended November 30, 2013 and 2012, was \$15.59 and \$12.67, respectively. The unrecognized compensation costs related to nonvested options totaled \$37.8 million as of November 30, 2013. These costs are expected to be recognized on a straight-line basis over a weighted average period of 2.2 years.

### Assumptions Used to Estimate Option Values

	Nine Months Ended November 30	
	2013	2012
Dividend yield	0.0 %	0.0 %
Expected volatility factor (1)	27.9 % - 46.8 %	31.1 % - 51.4 %
Weighted average expected volatility	44.7 %	49.4 %

Edgar Filing: CARMAX INC - Form 10-Q

Risk-free interest rate (2)	0.02 % - 2.6 %	0.02 % - 2.0 %
Expected term (in years) (3)	4.7	4.7

(1) Measured using historical daily price changes of our stock for a period corresponding to the term of the options and the implied volatility derived from the market prices of traded options on our stock.

(2) Based on the U.S. Treasury yield curve in effect at the time of grant.

(3) Represents the estimated number of years that options will be outstanding prior to exercise.

## Cash-Settled Restricted Stock Unit Activity

(Units in thousands)	Number of Units	Weighted Average Grant Date Fair Value
Outstanding as of February 28, 2013	1,651	\$ 29.90
Stock units granted	542	\$ 42.68
Stock units vested and converted	(564)	\$ 25.62
Stock units cancelled	(78)	\$ 34.76
Outstanding as of November 30, 2013	1,551	\$ 35.68

For the nine months ended November 30, 2013 and 2012, we granted RSUs of 541,819 units and 644,232 units, respectively. The initial weighted average fair market value per unit at the date of grant for the RSUs granted during the nine months ended November 30, 2013 and 2012, was \$42.68 and \$31.76, respectively. The RSUs are cash-settled upon vesting. For the nine months ended November 30, 2013 and 2012, we paid \$23.3 million and \$18.0 million, respectively (before payroll tax withholdings), to RSU holders upon the vesting of RSUs. We realized tax benefits of \$9.3 million and \$7.2 million during the nine months ended November 30, 2013 and 2012, respectively.

## Expected Cash Settlement Range Upon Restricted Stock Unit Vesting

(In thousands)	As of November 30, 2013	
	Minimum (1)	Maximum
Fiscal 2015	\$ 11,276	\$ 30,069
Fiscal 2016	12,422	33,126
Fiscal 2017	14,159	37,757
Total expected cash settlements	\$ 37,857	\$ 100,952

(1) Net of estimated forfeitures.

## Stock-Settled Restricted Stock Unit Activity

(Units in thousands)	Number of Units	Weighted Average Grant Date Fair Value

Edgar Filing: CARMAX INC - Form 10-Q

Outstanding as of February 28, 2013	904	\$ 40.78
Stock units granted	238	\$ 52.02
Stock units vested and converted	(282)	\$ 36.56
Stock units cancelled	(4)	\$ 46.14
Outstanding as of November 30, 2013	856	\$ 45.26

For the nine months ended November 30, 2013 and 2012, we granted MSUs of 237,660 units and 348,551 units, respectively. The weighted average fair value per unit at the date of grant for MSUs granted during the nine months ended November 30, 2013 and 2012, was \$52.02 and \$40.33, respectively. The fair values were determined using a Monte-Carlo simulation and were based on the expected market price of our common stock on the vesting date and the expected number of converted common shares. We realized related tax benefits of \$6.7 million and \$9.5 million for the nine months ended November 30, 2013 and 2012, respectively, from the vesting of market stock units. The unrecognized compensation costs related to nonvested MSUs totaled \$16.2 million as of November 30, 2013. These costs are expected to be recognized on a straight-line basis over a weighted average period of 1.3 years.

## 11. Net Earnings per Share

Basic net earnings per share is computed by dividing net earnings available for basic common shares by the weighted average common shares outstanding during the period. Diluted net earnings per share is computed by dividing net earnings available for diluted common shares by the sum of weighted average common shares outstanding and dilutive potential common shares.

## Basic and Dilutive Net Earnings Per Share Reconciliations

(In thousands except per share data)	Three Months Ended November 30		Nine Months Ended November 30	
	2013	2012	2013	2012
Net earnings	\$ 106,452	\$ 94,681	\$ 393,377	\$ 327,063
Weighted average common shares outstanding	223,259	228,904	223,831	228,346
Dilutive potential common shares:				
Stock options	3,402	3,210	3,305	3,199
Stock-settled restricted stock units	756	542	734	503
Weighted average common shares and dilutive potential common shares	227,417	232,656	227,870	232,048
Basic net earnings per share	\$ 0.48	\$ 0.41	\$ 1.76	\$ 1.43
Diluted net earnings per share	\$ 0.47	\$ 0.41	\$ 1.73	\$ 1.41

Certain weighted-average options to purchase shares of common stock were outstanding and not included in the calculation of diluted net earnings per share because their inclusion would have been antidilutive. For the three months ended November 30, 2013 and 2012, weighted-average options to purchase 1,309,282 shares and 3,794,317 shares of common stock, respectively, were not included. For the nine months ended November 30, 2013 and 2012, weighted-average options to purchase 1,175,274 shares and 3,833,199 shares, respectively, were not included.

Reclassification of hedge losses, net of tax	1,306	2,021	4,647	5,986
Net change in cash flow hedge unrecognized losses, net of tax	(3,193)	1,478	2,180	10,077
Total other comprehensive (loss) income, net of tax	\$ (3,218)	\$ 1,666	\$ 2,681	\$ 10,714

(1)As disclosed in our third quarter filing on Form 10-Q for fiscal 2013, the nine months ended November 30, 2012, included a tax benefit adjustment of \$8,518 related to prior years.

Changes in the funded status of our retirement plans and the effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges are recognized in accumulated other comprehensive loss. The cumulative balances are net of deferred taxes of \$34.2 million as of November 30, 2013, and \$35.9 million as of February 28, 2013.

### 13. Contingent Liabilities

On April 2, 2008, Mr. John Fowler filed a putative class action lawsuit against CarMax Auto Superstores California, LLC and CarMax Auto Superstores West Coast, Inc. in the Superior Court of California, County of Los Angeles. Subsequently, two other lawsuits, Leena Areso et al. v. CarMax Auto Superstores California, LLC and Justin Weaver v. CarMax Auto Superstores California, LLC, were consolidated as part of the Fowler case. The allegations in the consolidated case involved: (1) failure to provide meal and rest breaks or compensation in lieu thereof; (2) failure to pay wages of terminated or resigned employees related to meal and rest breaks and overtime; (3) failure to pay overtime; (4) failure to comply with itemized employee wage statement provisions; and (5) unfair competition/California's Labor Code Private Attorney

General Act. The putative class consisted of sales consultants, sales managers, and other hourly employees who worked for the company in California from April 2, 2004, to the present. On May 12, 2009, the court dismissed all of the class claims with respect to the sales manager putative class. On June 16, 2009, the court dismissed all claims related to the failure to comply with the itemized employee wage statement provisions. The court also granted CarMax's motion for summary adjudication with regard to CarMax's alleged failure to pay overtime to the sales consultant putative class. The plaintiffs appealed the court's ruling regarding the sales consultant overtime claim. On May 20, 2011, the California Court of Appeal affirmed the court's ruling in favor of CarMax. The plaintiffs filed a Petition of Review with the California Supreme Court, which was denied. As a result, the plaintiffs' overtime claims are no longer part of the case.

The claims currently remaining in the lawsuit regarding the sales consultant putative class are: (1) failure to provide meal and rest breaks or compensation in lieu thereof; (2) failure to pay wages of terminated or resigned employees related to meal and rest breaks; and (3) unfair competition/California's Labor Code Private Attorney General Act. On June 16, 2009, the court entered a stay of these claims pending the outcome of a California Supreme Court case involving unrelated third parties but related legal issues. Subsequently, CarMax moved to lift the stay and compel the plaintiffs' remaining claims into arbitration on an individualized basis, which the court granted on November 21, 2011. Plaintiffs filed an appeal with the California Court of Appeal. On March 26, 2013, the California Court of Appeal reversed the trial court's order granting CarMax's motion to compel arbitration. On October 8, 2013, CarMax filed a petition for a writ of certiorari seeking review in the United States Supreme Court. The Fowler lawsuit seeks compensatory and special damages, wages, interest, civil and statutory penalties, restitution, injunctive relief and the recovery of attorneys' fees. We are unable to make a reasonable estimate of the amount or range of loss that could result from an unfavorable outcome in these matters.

We are involved in various other legal proceedings in the normal course of business. Based upon our evaluation of information currently available, we believe that the ultimate resolution of any such proceedings will not have a material effect, either individually or in the aggregate, on our financial condition, results of operations or cash flows.

ITEM 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS  
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis of Financial Condition and Results of Operations ("MD&A") is provided as a supplement to, and should be read in conjunction with, our audited consolidated financial statements, the accompanying notes and the MD&A included in our Annual Report on Form 10-K for the fiscal year ended February 28, 2013 ("fiscal 2013"), as well as our consolidated financial statements and the accompanying notes included in Item 1 of this Form 10-Q. Note references are to the notes to consolidated financial statements included in Item 1. All references to net earnings per share are to diluted net earnings per share. Amounts and percentages may not total due to rounding.

In this discussion, "we," "our," "us," "CarMax," "CarMax, Inc." and "the company" refer to CarMax, Inc. and its wholly owned subsidiaries, unless the context requires otherwise.

BUSINESS OVERVIEW

General

CarMax is the nation's largest retailer of used vehicles. We operate in two reportable segments: CarMax Sales Operations and CarMax Auto Finance ("CAF"). Our CarMax Sales Operations segment consists of all aspects of our auto merchandising and service operations, excluding financing provided by CAF. Our CAF segment consists solely of our own finance operation that provides vehicle financing through CarMax superstores.

We pioneered the used car superstore concept, opening our first store in 1993. Our strategy is to revolutionize the auto retailing market by addressing the major sources of customer dissatisfaction with traditional auto retailers and to maximize operating efficiencies through the use of standardized operating procedures and store formats enhanced by sophisticated, proprietary management information systems. As of November 30, 2013, we operated 126 used car superstores in 63 markets, comprising 47 mid-sized markets, 13 large markets and 3 small markets. We define mid-sized markets as those with television viewing populations generally between 600,000 and 2.5 million people. We also operated four new car franchises. During fiscal 2013, we sold 447,728 used cars, representing 98% of the total 455,583 vehicles we sold at retail.

We believe the CarMax consumer offer is distinctive within the auto retailing marketplace. Our offer provides customers the opportunity to shop for vehicles the same way they shop for items at other big box retailers. Our consumer offer features low, no haggle prices; a broad selection of CarMax Quality Certified used vehicles; and

superior customer service. Our website, carmax.com, is a valuable tool for communicating the CarMax consumer offer, as well as a sophisticated search engine and efficient channel for customers who prefer to start their shopping online. Our financial results are driven by retailing used vehicles and associated items including vehicle financing, extended service plans (“ESPs”), guaranteed asset protection (“GAP”) and vehicle repair service. GAP is designed to cover the unpaid balance on an auto loan in the event of a total loss of the vehicle or unrecovered theft.

We seek to build customer satisfaction by offering high-quality retail vehicles. Fewer than half of the vehicles acquired from consumers through the appraisal purchase process meet our standards for reconditioning and subsequent retail sale. Those vehicles that do not meet our standards are sold through our on-site wholesale auctions. Vehicles repossessed and liquidated by CAF also are generally sold through our wholesale auctions. Wholesale auctions are generally held on a weekly or bi-weekly basis, and as of November 30, 2013, we conducted auctions at 57 used car superstores. During fiscal 2013, we sold 324,779 wholesale vehicles. On average, the vehicles we wholesale are approximately 10 years old and have more than 100,000 miles. Participation in our wholesale auctions is restricted to licensed automobile dealers, the majority of whom are independent dealers and licensed wholesalers.

We sell ESPs and GAP on behalf of unrelated third parties who are the primary obligors. We have no contractual liability to the customer under these third-party plans. ESP revenue represents commissions earned on the sale of ESPs and GAP from the unrelated third parties.

We provide financing to qualified retail customers through CAF and our arrangements with several industry-leading financial institutions. Depending on the credit profile of the customer, the third-party finance providers generally either pay us or are

paid a fixed, pre-negotiated fee per contract. The fee amount is independent of any finance term offered to the customer; it does not vary based on the amount financed, the term of the loan, the interest rate or the loan-to-value ratio. We refer to the providers who pay us a fee as prime and nonprime providers, and we refer to the providers to whom we pay a fee as subprime providers. We periodically test additional third-party providers. We have no recourse liability for credit losses on retail installment contracts arranged with third-party providers.

We offer financing through CAF to qualified customers purchasing vehicles at CarMax. CAF utilizes proprietary customized scoring models based upon the credit history of the customer, along with CAF's historical experience, to predict the likelihood of customer repayment. CAF offers customers an array of competitive rates and terms, allowing them to choose the ones that best fit their needs. In addition, customers are permitted to refinance or pay off their contract with CAF or a third-party provider within three business days of a purchase without incurring any finance or related charges. We randomly test different credit offers and closely monitor acceptance rates, 3-day payoffs and the effect on sales to assess market competitiveness. After the effect of 3 day payoffs and vehicle returns, CAF financed 41% of our retail vehicle unit sales in the first nine months of fiscal 2014. As of November 30, 2013, CAF serviced approximately 514,000 customer accounts in its \$6.92 billion portfolio of managed receivables.

Over the long term, we believe the primary driver for earnings growth will be used vehicle unit sales growth from both new stores and stores included in our comparable store base. We also believe that increased used vehicle unit sales will drive increased sales of wholesale vehicles and ancillary products and, over time, CAF income. We target a dollar range of gross profit per used unit sold. The gross profit dollar target for an individual vehicle is based on a variety of factors, including its probability of sale and its mileage relative to its age; however, it is not primarily based on the vehicle's selling price.

In December 2008, we temporarily suspended store growth due to the weak economic and sales environment. We opened 3 superstores in fiscal 2011, 5 superstores in fiscal 2012 and 10 superstores in fiscal 2013. We currently plan to open 13 superstores in fiscal 2014 and between 10 and 15 superstores in each of the following 2 fiscal years. While we currently have more than 120 superstores, we are still in the midst of the national rollout of our retail concept, and as of November 30, 2013, we had used car superstores located in markets that comprised approximately 54% of the U.S. population.

The principal challenges we face in expanding our store base include our ability to build our management bench strength to support our store growth and our ability to procure suitable real estate at favorable terms. We staff each newly opened store with associates who have extensive CarMax training. Therefore, we must recruit, train and develop managers and associates to fill the pipeline necessary to support future store openings.

Fiscal 2014 Third Quarter Highlights

- § Net sales and operating revenues increased 13% to \$2.94 billion from \$2.60 billion in the third quarter of fiscal 2013. Net earnings grew 12% to \$106.5 million from \$94.7 million in the prior year period, while net earnings per diluted share grew 15% to \$0.47, compared with \$0.41 in the prior year period.
- § Total used vehicle revenues increased 16% to \$2.40 billion from \$2.07 billion in the third quarter of fiscal 2013. Total used vehicle unit sales rose 15%, reflecting the combination of a 10% increase in comparable store used unit sales and sales from newer stores not yet included in the comparable store base.
- § Total wholesale vehicle revenues increased 2% to \$437.3 million from \$427.7 million in the third quarter of fiscal 2013. Wholesale unit sales rose 4%, reflecting the growth in our store base.
- § Total other sales and revenues declined 5% to \$57.2 million from \$60.4 million in the third quarter of fiscal 2013, primarily reflecting flat ESP revenues and a reduction in net third-party finance fees. An increase in our allowance for ESP returns of \$0.02 per diluted share offset the effect of higher ESP revenues resulting from the growth in retail vehicle sales.
- § Total gross profit increased 11% to \$381.7 million compared with \$345.2 million in the third quarter of fiscal 2013, largely reflecting the increase in used vehicle unit sales.
- § Selling, general and administrative (“SG&A”) expenses increased 11% to \$284.4 million from \$257.3 million in the third quarter of fiscal 2013. The increase reflected both the 12% increase in our store base since the beginning of last year’s third quarter (representing the addition of 13 stores) and higher variable selling costs resulting from the 10% increase in comparable store used unit sales. SG&A per retail unit declined \$98 to \$2,295 versus \$2,393 in the prior year’s quarter, as our comparable store used unit sales growth generated overhead leverage.

- § CAF income increased 16% to \$83.9 million compared with \$72.5 million in the third quarter of fiscal 2013. The improvement resulted from a 24% increase in average managed receivables, partially offset by a lower total interest margin rate, which declined to 6.8% of average managed receivables from 7.4% in the prior year quarter.
- § In the first nine months of the fiscal year, net cash used in operating activities totaled \$493.1 million in fiscal 2014, compared with \$499.2 million in fiscal 2013. These amounts include increases in auto loan receivables of \$1.05 billion and \$632.3 million, respectively. The majority of the increases in auto loan receivables are accompanied by increases in non-recourse notes payable, which are separately reflected as cash provided by financing activities. Excluding the increases in auto loan receivables, net cash provided by operating activities would be \$552.2 million in the first nine months of fiscal 2014 versus \$133.1 million in the first nine months of fiscal 2013, with the increase primarily driven by changes in inventory, accounts payable and net income.

## CRITICAL ACCOUNTING POLICIES

For information on critical accounting policies, see “Critical Accounting Policies” in MD&A included in Item 7 of the Annual Report on Form 10-K for the fiscal year ended February 28, 2013. These policies relate to financing and securitization transactions, revenue recognition and income taxes.

## RESULTS OF OPERATIONS – CARMAX SALES OPERATIONS

### Net Sales And Operating Revenues

#### Change in Used Car Superstore Base

	Three Months Ended		Nine Months Ended	
	November 30 2013	November 30 2012	November 30 2013	November 30 2012
Used car superstores, beginning of period	123	113	118	108
Superstore openings	3	3	8	8
Used car superstores, end of period	126	116	126	116

Used Vehicle Sales. The 16% increase in used vehicle revenues in the third quarter of fiscal 2014 resulted primarily from a 15% increase in used unit sales. The increase in used unit sales included a 10% increase in comparable store used unit sales and sales from newer stores not yet included in the comparable store base. The comparable store unit growth was primarily driven by improved conversion, as well as a modest increase in store traffic. We believe the strong conversion reflected continued improvements in execution in our stores and an attractive consumer credit environment.

The 20% increase in used vehicle revenues in the first nine months of fiscal 2014 resulted from a 20% increase in used unit sales. The increase in unit sales included a 14% increase in comparable store used unit sales and sales from newer stores not yet included in the comparable store base. The comparable store used unit growth was primarily driven by improved conversion, which we believe, similar to the third quarter, was driven by better in-store execution and the attractive consumer credit environment.

**Wholesale Vehicle Sales.** Our wholesale auction prices usually reflect the trends in the general wholesale market for the types of vehicles we sell, although they can also be affected by changes in vehicle mix or the average age, mileage or condition of the vehicles bought through our appraisal process and sold in our auctions.

The 2% increase in wholesale vehicle revenues in the third quarter of fiscal 2014 resulted from a 4% increase in wholesale unit sales, partially offset by lower average selling prices. The unit sales increase reflected the growth in our store base. The 5% increase in wholesale vehicle revenues in the first nine months of fiscal 2014 primarily resulted from a 7% increase in wholesale unit sales. Wholesale vehicle unit sales for the first nine months of fiscal 2014 benefited from the growth in our store base and an increase in the appraisal buy rate.

**Other Sales and Revenues.** Other sales and revenues include commissions on the sale of ESPs and GAP (reported in ESP revenues), service department sales and net third-party finance fees. The fixed, per-vehicle fees paid to us by prime and nonprime third-party finance providers may vary, reflecting the providers' differing levels of credit risk exposure. The fixed, per-vehicle fees that we pay to the subprime providers are reflected as an offset to finance fee revenues received from prime and nonprime providers.

Other sales and revenues declined 5% in the third quarter of fiscal 2014. ESP revenues were similar to the prior year's third quarter, as higher ESP revenues resulting from the growth in our retail vehicle sales were offset by an increase in our allowance for ESP returns of \$0.02 per diluted share. The rise in the allowance reflected increases in ESP cancellations prior to the end of their contract term. Net third-party finance fees declined by \$4.6 million in the third quarter of fiscal 2014 as the result of a mix shift among providers, including an increase in the percentage of our retail unit sales financed by the subprime providers to

18% in the third quarter of fiscal 2014 from 15% in the prior year period. Over the last two years the volume and share of financings originated by the third-party subprime providers increased, as these providers made more attractive offers. Late in the third quarter of fiscal 2014, however, we began to see tightening of the credit terms offered by our subprime providers. In previous years, the percentage of our retail unit sales financed by subprime providers excluded sales associated with a third-party referral program. These sales are now included in this percentage for both the current and prior periods.

Other sales and revenues increased 2% in the first nine months of fiscal 2014, as higher ESP revenues were largely offset by a decrease in net third-party finance fees resulting from a higher mix of sales financed by the subprime providers. ESP revenues climbed 17% in the first nine months of fiscal 2014, reflecting the 20% growth in used unit sales and higher ESP penetration, partially offset by the increase in the allowance for ESP returns. The percentage of retail sales financed by the subprime providers increased to 19% in the first nine months of fiscal 2014 from 15% in the corresponding period in fiscal 2013. Similar to the third quarter, this increase in mix reflected more attractive offers by subprime providers, as well as a change in credit mix of our applicant flow. In addition, we believe a delay in the 2013 tax refund season shifted the timing of some subprime sales from the fourth quarter of fiscal 2013 to the first quarter of fiscal 2014.

Seasonality. Historically, our business has been seasonal. Typically, our superstores experience their strongest traffic and sales in the spring and summer quarters. Sales are typically slowest in the fall quarter, when used vehicles generally experience proportionately more of their annual depreciation. We believe this is partly the result of a decline in customer traffic, as well as discounts on new car model year closeouts that can pressure pricing for late-model used vehicles. Customer traffic generally tends to slow in the fall as the weather changes and as customers shift their spending priorities. We typically experience an increase in subprime traffic and sales in February and March, coincident with tax refund season.

#### Gross Profit

(In millions)	Three Months Ended			Nine Months Ended November 30		
	November 30 2013	2012	Change	2013	2012	Change
Used vehicle gross profit	\$ 262.4	\$ 227.0	15.6 %	\$ 859.5	\$ 718.2	19.7 %
New vehicle gross profit	1.1	0.9	30.9 %	3.4	4.1	(15.3)%
Wholesale vehicle gross profit	73.4	73.6	(0.2) %	237.4	230.5	3.0 %
Other gross profit	44.8	43.7	2.4 %	164.3	142.3	15.4 %
Total	\$ 381.7	\$ 345.2	10.6 %	\$ 1,264.6	\$ 1,095.1	15.5 %

#### Gross Profit Per Unit

Three Months Ended November 30		Nine Months Ended November 30	
2013	2012	2013	2012

Edgar Filing: CARMAX INC - Form 10-Q

	\$ per unit(1)	%(2)	\$ per unit(1)	%(2)	\$ per unit(1)	%(2)	\$ per unit(1)	%(2)
Used vehicle gross profit	\$ 2,149	10.9	\$ 2,146	11.0	\$ 2,181	11.1	\$ 2,180	11.1
New vehicle gross profit	\$ 636	2.3	\$ 518	1.9	\$ 578	2.1	\$ 659	2.5
Wholesale vehicle gross profit	\$ 887	16.8	\$ 923	17.2	\$ 905	16.9	\$ 937	17.3
Other gross profit	\$ 361	78.3	\$ 407	72.4	\$ 411	84.4	\$ 424	74.8
Total gross profit	\$ 3,081	13.0	\$ 3,211	13.3	\$ 3,161	13.3	\$ 3,263	13.5

(1) Calculated as category gross profit divided by its respective units sold, except the other and total categories, which are divided by total retail units sold.

(2) Calculated as a percentage of its respective sales or revenue.

**Used Vehicle Gross Profit.** Used vehicle gross profit increased 16% in the third quarter and 20% in the first nine months of fiscal 2014. In both periods, the improvement was driven by increases in used unit sales. Used vehicle gross profit per unit was consistent year-over-year in both the third quarter and the first nine months of the fiscal year. We have been able to manage to a relatively consistent gross profit per used unit over the last several years.

**Wholesale Vehicle Gross Profit.** Wholesale vehicle gross profit was similar to the prior year in the third quarter, and it rose 3% in the first nine months of fiscal 2014. In both periods, the increase in wholesale vehicle unit sales was largely offset by a decrease in wholesale vehicle gross profit per unit. Wholesale gross profit per unit declined \$36, or 4%, in the third quarter of fiscal 2014, and it fell \$32, or 3% in the first nine months of the fiscal year.

Other Gross Profit. Other gross profit includes profits related to ESP and GAP revenues, net third-party finance fees and service department operations. We have no cost of sales related to ESP and GAP revenues or net third-party finance fees, as these represent commissions paid to us by certain third-party providers. Third-party finance fees are reported net of the fees we pay to third-party subprime finance providers. Accordingly, changes in the relative mix of the other gross profit components can affect the composition and amount of other gross profit.

Other gross profit increased 2% in the third quarter of fiscal 2014, reflecting the flat ESP revenues and the decrease in net third-party finance fees, as well as higher service department profits. Other gross profit increased 15% in the first nine months of fiscal 2014, as increases in ESP and service department gross profits were partially offset by the reduction in net third-party finance fees. The higher service department profits in both the third quarter and first nine months of fiscal 2014 was primarily due to the leverage of service overhead costs resulting from strong used unit sales growth.

Impact of Inflation. Historically, inflation has not had a significant impact on results. Profitability is primarily affected by our ability to achieve targeted unit sales and gross profit dollars per vehicle rather than by changes in average retail prices. However, increases in average vehicle selling prices benefit CAF income, to the extent the average amount financed also increases.

## Selling, General and Administrative Expenses

### Components of SG&A Expense

(In millions, except per unit data)	Three Months Ended November 30			Nine Months Ended November 30		
	2013	2012	Change	2013	2012	Change
Compensation and benefits (1)	\$ 161.4	\$ 144.0	12.1 %	\$ 494.4	\$ 427.1	15.8 %
Store occupancy costs	53.9	51.1	5.4 %	160.9	149.8	7.4 %
Advertising expense	23.4	22.5	3.7 %	77.0	76.7	0.3 %
Other overhead costs (2)	45.7	39.7	15.2 %	125.5	112.0	12.2 %
Total SG&A expenses	\$ 284.4	\$ 257.3	10.5 %	\$ 857.8	\$ 765.6	12.0 %
SG&A per unit	\$ 2,295	\$ 2,393	\$ (98)	\$ 2,144	\$ 2,281	\$ (137)

(1)Excludes compensation and benefits related to reconditioning and vehicle repair service, which is included in cost of sales.

(2)Includes IT expenses, insurance, non-CAF bad debt, travel, preopening and relocation costs, charitable contributions and other administrative expenses.

SG&A expenses increased 11% in the third quarter of fiscal 2014. The increase reflected both the 12% increase in our store base since the beginning of last year's third quarter (representing the addition of 13 stores) and higher variable selling costs resulting from the 10% increase in comparable store used unit sales. SG&A per retail unit declined \$98, as our comparable store used unit growth generated overhead leverage.

SG&A expenses increased 12% in the first nine months of fiscal 2014. Similar to the third quarter, the increase reflected the growth in our store base, which increased from 108 used car superstores as of the beginning of fiscal 2013 to 126 stores as of November 30, 2013, and higher variable costs associated with the 14% increase in comparable store used unit sales in the first nine months of the year and. Leverage resulting from our strong growth in comparable store used unit sales drove a \$137 decrease in SG&A per retail unit in the first nine months of fiscal 2014.

Income Taxes. The effective income tax rate was 38.5% in the third quarter and 38.3% in the first nine months of fiscal 2014 versus 37.9% and 38.2%, respectively, in the corresponding prior year periods.

#### RESULTS OF OPERATIONS – CARMAX AUTO FINANCE INCOME

CAF provides financing to qualified customers purchasing vehicles at CarMax. Because the purchase of a vehicle is generally reliant on the consumer's ability to obtain on-the-spot financing, it is important to our business that financing be available to creditworthy customers. While financing can also be obtained from third-party sources, we believe that total reliance on third parties can create unacceptable volatility and business risk. Furthermore, we believe the company's processes and systems, transparency of pricing, vehicle quality and the integrity of the information collected at the time the customer applies for credit provide a unique and ideal environment in which to procure high quality auto loans, both for CAF and for the third-party finance providers.

We believe CAF enables us to capture additional sales, profits and cash flows while managing our reliance on third-party finance sources. Management regularly analyzes CAF's operating results by assessing the competitiveness of our consumer offer, profitability, the performance of the auto loan receivables including trends in credit losses and delinquencies, and CAF direct expenses.

CAF income primarily reflects the interest and fee income generated by the auto loan receivables less the interest expense associated with the debt issued to fund these receivables, a provision for estimated loan losses and direct CAF expenses. CAF income does not include any allocation of indirect costs. We present this information on a direct basis to avoid making arbitrary decisions regarding the indirect benefits or costs that could be attributed to CAF. Examples of indirect costs not allocated to CAF include retail store expenses and corporate expenses such as human resources, administrative services, marketing, information systems, accounting, legal, treasury and executive payroll.

#### Components of CAF Income

Total average managed receivables	\$ 6,805.3		\$ 5,477.4		\$ 6,491.4		\$ 5,266.0	

(1) Annualized percent of total average managed receivables.

#### CAF Origination Information

	Three Months Ended		Nine Months Ended				
	November 30 (1)		November 30 (1)				
	2013	2012	2013	2012	2013	2012	
Net loans originated (in millions)	\$ 960.6	\$ 856.2	\$ 3,168.7	\$ 2,465.4			
Vehicle units financed	50,326	44,338	164,771	128,386			
Penetration rate (2)	40.6 %	41.2 %	41.2 %	38.3 %			
Weighted average contract rate	7.0 %	7.7 %	6.9 %	8.2 %			
Weighted average term (in months)	65.2	66.5	65.5	66.0			

(1)All information relates to loans originated net of estimated 3-day payoffs and vehicle returns.

(2)Vehicle units financed as a percentage of total retail units sold.

CAF income increased 16% in the third quarter and 14% in the first nine months of fiscal 2014. Compared with the prior year, CAF's average managed receivables increased 24% in the third quarter and 23% in the first nine months of fiscal 2014, driven by the rise in CAF loan originations in recent years. The rise in originations resulted from an increase in CAF's loan penetration rate, retail unit sales growth and higher average amounts financed.

In fiscal 2014, net loans originated increased 12% to \$960.6 million in the third quarter and 29% to \$3.17 billion in the first nine months of the year. CAF's penetration rate for the third quarter of fiscal 2014 of 40.6% was similar to the third quarter of

fiscal 2013. The penetration rate increased to 41.2% for the first nine months of fiscal 2014, compared to 38.3% in the corresponding period in fiscal 2013, as a result of an increase in the mix of higher credit quality applicants and favorable responses to our credit offers. Starting in mid-fiscal 2013, we began providing more competitive offers in select customer segments.

The effect of the increase in managed receivables on CAF income was partially offset by a lower total interest margin rate, which declined to 6.8% of average managed receivables in the third quarter and 7.0% in the first nine months of fiscal 2014, from 7.4% and 7.5%, respectively, in the prior year periods. The interest margin reflects the spread between interest and fees charged to consumers and our funding costs. Providing more competitive offers in select customer segments contributed to a decline in the weighted average contract rate on originations to 7.0% in the third quarter and 6.9% in the first nine months of fiscal 2014 from 7.7% and 8.2%, respectively, in the corresponding prior year periods. Changes in the interest margin on new originations will affect CAF income over time as these loans become a larger percentage of managed receivables. Rising interest rates or further competitive pressure on consumer rates could result in further compression in the interest margin on new originations.

For the third quarter, the provision for loan losses decreased slightly to 1.2% of average managed receivables in fiscal 2014, compared with 1.3% in fiscal 2013. The provision for loan losses was consistent at 1.0% of average managed receivables in the first nine months of both fiscal 2014 and fiscal 2013. The provision for loan losses is the periodic expense of maintaining an adequate allowance for loan losses.

#### Allowance for Loan Losses

(In millions)	Three Months Ended November 30				Nine Months Ended November 30			
	2013	% (1)	2012	% (1)	2013	% (1)	2012	% (1)
Balance as of beginning of period	\$ 65.9	1.0	\$ 49.5	0.9	\$ 57.3	1.0	\$ 43.3	0.9
Charge-offs	(36.3)		(28.2)		(94.5)		(73.1)	
Recoveries	18.6		14.9		56.1		43.9	
Provision for loan losses	19.7		18.1		49.0		40.2	
Balance as of end of period	\$ 67.9	1.0	\$ 54.3	1.0	\$ 67.9	1.0	\$ 54.3	1.0

(1)Percent of total ending managed receivables as of the corresponding reporting date.

The allowance for loan losses represents an estimate of the amount of net losses inherent in our portfolio of managed receivables as of the applicable reporting date and anticipated to occur during the following 12 months. The allowance is primarily based on the credit quality of the underlying receivables, historical loss trends and forecasted forward loss curves. We consider recent trends in delinquencies and losses, recovery rates and the economic environment. The increase in the dollar amount of the allowance largely reflected the growth in managed receivables. The allowance for loan losses as a percentage of managed receivables was flat at 1.0% as of November

30, 2013 and 2012, respectively.

#### Past Due Account Information

(In millions)	As of November 30		As of February 28 or 29	
	2013	2012	2013	2012
Accounts 31+ days past due	\$ 201.1	\$ 164.9	\$ 154.2	\$ 116.5
Ending managed receivables	\$ 6,919.0	\$ 5,583.4	\$ 5,933.3	\$ 4,981.8
Past due accounts as a percentage of ending managed receivables	2.91	% 2.95	% 2.60	% 2.34

#### Credit Loss Information

(In millions)	Three Months Ended		Nine Months Ended	
	November 30		November 30	
	2013	2012	2013	2012
Net credit losses on managed receivables	\$ 17.7	\$ 13.3	\$ 38.4	\$ 29.2
Total average managed receivables	\$ 6,805.3	\$ 5,477.4	\$ 6,491.4	\$ 5,266.0
Annualized net credit losses as a percentage of total average managed receivables	1.04	% 0.97	% 0.79	% 0.74
Average recovery rate	53.4	% 56.5	% 56.0	% 58.9

As of November 30, 2013, past due accounts were 2.91% of ending managed receivables, similar to the delinquency rate as of November 30, 2012. For the third quarter, net credit losses were slightly higher at 1.04% of average managed receivables in fiscal 2014 compared with 0.97% in fiscal 2013. For the first nine months of the year, net credit losses were 0.79% of average managed receivables in fiscal 2014 compared with 0.74% in fiscal 2013.

The average recovery rate represents the average percentage of the outstanding principal balance we receive when a vehicle is repossessed and liquidated, generally at our wholesale auctions. The annual recovery rate has ranged from a low of 42% to a high of 60%, and it is primarily affected by changes in the wholesale market pricing environment.

#### PLANNED FUTURE ACTIVITIES

Planned Superstore Openings. We plan to open a total of 13 superstores in fiscal 2014 and between 10 and 15 superstores in each of the following 2 fiscal years. We currently estimate capital expenditures will total approximately \$300 million in fiscal 2014.

We currently plan to open the following superstores within 12 months from November 30, 2013:

Location	Television Market	Market Status	Planned Opening Date
St. Peters, Missouri (1)	St. Louis	Existing	Q4 Fiscal 2014
Newark, Delaware (1)	Philadelphia	New	Q4 Fiscal 2014
King of Prussia, Pennsylvania (1)	Philadelphia	New	Q4 Fiscal 2014
Frederick, Maryland	Washington/Baltimore	Existing	Q4 Fiscal 2014
Elk Grove, California	Sacramento	Existing	Q4 Fiscal 2014
Rochester, New York	Rochester	New	Q1 Fiscal 2015
Dothan, Alabama	Dothan	New	Q1 Fiscal 2015
Mechanicsburg, Pennsylvania	Harrisburg/Lancaster	Existing	Q1 Fiscal 2015
Spokane, Washington	Spokane	New	Q1 Fiscal 2015
Madison, Wisconsin	Madison	New	Q2 Fiscal 2015
Fort Worth, Texas	Dallas	Existing	Q2 Fiscal 2015
Lynchburg, Virginia	Roanoke/Lynchburg	New	Q2 Fiscal 2015
Milwaukie, Oregon	Portland	New	Q2 Fiscal 2015
Beaverton, Oregon	Portland	New	Q3 Fiscal 2015
Tupelo, Mississippi	Tupelo	New	Q3 Fiscal 2015
Reno, Nevada	Reno	New	Q3 Fiscal 2015
Raleigh, North Carolina	Raleigh	Existing	Q3 Fiscal 2015

(1)Opened in December 2013.

Normal construction, permitting or other scheduling delays could shift the opening dates into a later period.

CarMax Auto Finance. In the fourth quarter of fiscal 2014, CAF plans to launch a test originating loans for customers who typically would be financed by our subprime providers. Given the relevance of subprime to our business and the overall market, we believe it is prudent to gain further insight into underwriting and servicing accounts within this credit profile. Over the next 12 months, we plan to originate approximately \$70 million of loans in this test. We expect the loans originated in this test will have higher loss and delinquency rates than the aggregate of the current CAF portfolio. The test will be funded separately from our current portfolio and not included in our current public securitization program.

## FINANCIAL CONDITION

### Liquidity and Capital Resources.

Our primary ongoing cash requirements are to fund our existing operations, new superstore expansion (including capital expenditures and inventory purchases) and CAF. Our primary ongoing sources of liquidity include existing cash balances, funds provided by operations, proceeds from securitization transactions or other funding arrangements, and borrowings under our revolving credit facility.

**Operating Activities.** During the first nine months of the fiscal year, net cash used in operating activities totaled \$493.1 million in fiscal 2014 versus \$499.2 million in fiscal 2013. These amounts include increases in auto loan receivables of \$1.05 billion and \$632.3 million, respectively. The majority of the increases in auto loan receivables are accompanied by increases in non-recourse notes payable, which are separately reflected as cash provided by financing activities. Excluding the increases in auto loan receivables, net cash provided by operating activities would be \$552.2 million in the first nine months of fiscal 2014 versus \$133.1 million in the first nine months of fiscal 2013, with the increase primarily driven by changes in inventory, accounts payable and net income.

As of November 30, 2013, total inventory was \$1.56 billion, representing an increase of \$38.5 million, or 3%, compared with the balance at the start of fiscal 2014. We had 4% more used vehicles in inventory as of November 30, 2013, compared with the start of the fiscal year, reflecting the addition of inventory associated with new stores opened during fiscal 2014. Compared with November 30, 2012, inventories increased \$217.2 million, or 16%, reflecting the inventories added to support the 10 new stores opened since that date and our strong comparable store used unit sales growth.

As of November 30, 2013, accounts payable totaled \$367.5 million, which was \$30.8 million, or 9%, higher than the balance as of the start of fiscal 2014, largely due to the growth in our store base. As of November 30, 2012, accounts payable totaled \$272.8 million, which was \$52.0 million, or 16%, lower than the balance as of the start of fiscal 2013. The reduction in payables in fiscal 2013 was primarily attributable to the effect of our cash management strategies.

**Investing Activities.** During the first nine months of the fiscal year, net cash used in investing activities totaled \$228.7 million in fiscal 2014 compared with \$179.2 million in fiscal 2013. Capital expenditures increased to \$212.9 million in fiscal 2014 versus \$184.9 million in the prior year period. We opened eight used car superstores during the first nine months of fiscal 2014, including five stores in new markets (Harrisonburg, Virginia; Columbus, Georgia; Savannah, Georgia; Jackson, Tennessee; and St. Louis, Missouri) and three stores in existing markets (Houston, Texas; Sacramento, California; and Baltimore/Washington, D.C.). Capital expenditures primarily include real estate acquisitions for planned future superstore openings and store construction costs. We maintain a multi-year pipeline of sites to support our superstore growth, so portions of capital spending in any one year may relate to superstores that we plan to open in subsequent fiscal years. After ramping superstore growth in recent years, our superstore opening pace has become more consistent, with 10 superstores opened in fiscal 2013, 13 superstores planned for fiscal 2014, and 10 to 15 superstores planned for each of the following 2 fiscal years.

Historically, capital expenditures have been funded with internally generated funds, debt and sale-leaseback transactions. No sale-leasebacks have been completed since fiscal 2009.

As of November 30, 2013, we owned 69 and leased 57 of our 126 used car superstores.

During the first nine months of the fiscal year, restricted cash from collections on auto loan receivables increased \$22.5 million in fiscal 2014 versus no material change in fiscal 2013. These collections vary depending on the timing of the receipt of principal and interest payments on securitized auto loan receivables, the change in average managed receivables and the funding vehicle utilized.

Financing Activities. During the first nine months of the fiscal year, net cash provided by financing activities totaled \$937.2 million in fiscal 2014 compared with \$680.9 million in fiscal 2013. Included in these amounts were net increases in total non-recourse notes payable of \$1.11 billion and \$696.4 million, respectively, which were used to provide the financing for the majority of the increases of \$1.05 billion and \$632.3 million, respectively, in auto loan receivables. During the first nine months of the fiscal year, cash provided by financing activities was reduced by \$196.7 million of stock repurchases in fiscal 2014, versus \$51.1 million in fiscal 2013. We began making repurchases under our share repurchase program in the third quarter of fiscal 2013.

#### Total Debt and Cash and Cash Equivalents

	As of November 30 2013	As of February 28 2013
(In thousands)		
Borrowings under revolving credit facility	\$ 1,287	\$ 355
Finance and capital lease obligations	338,628	353,591
Non-recourse notes payable	6,970,069	5,855,090
Total debt	\$ 7,309,984	\$ 6,209,036
Cash and cash equivalents	\$ 664,758	\$ 449,364

We have a \$700 million unsecured revolving credit facility, which expires in August 2016. Borrowings under this credit facility are available for working capital and general corporate purposes, and the unused portion is fully available to us. See Note 9 for additional information on the revolving credit facility agreement.

The credit facility agreement contains representations and warranties, conditions and covenants. If these requirements were not met, all amounts outstanding or otherwise owed could become due and payable immediately and other limitations could be placed on our ability to use any available borrowing capacity.

CAF auto loan receivables are primarily funded through securitization transactions. Our securitizations are structured to legally isolate the auto loan receivables, and we would not expect to be able to access the assets of our securitization vehicles, even in insolvency, receivership or conservatorship proceedings. Similarly, the investors in the non-recourse notes payable have no recourse to our assets beyond the securitized receivables, the amounts on deposit in reserve accounts and the restricted cash from collections on auto loan receivables. We do, however, continue to have the rights associated with the interest we retain in these securitizations vehicles.

The timing of principal payments on the non-recourse notes payable is based on principal collections, net of losses, on the securitized auto loan receivables. The current portion of the non-recourse notes payable represents principal payments that are due to be distributed in the following period.

As of November 30, 2013, \$6.16 billion of non-recourse notes payable was outstanding related to term securitizations. These notes payable accrue interest at fixed rates and have scheduled maturities through April 2020, but may mature earlier or later, depending on the repayment rate of the underlying auto loan receivables. During the first nine months of fiscal 2014, we completed three term securitizations, funding a total of \$2.92 billion of auto loan receivables.

Our term securitizations typically contain an option to repurchase the securitized receivables when the outstanding balance in the pool of auto loan receivables falls below 10% of the original pool balance. During the first quarter of fiscal 2014, we exercised this option on a term securitization that had originally been issued in 2009, and for which CarMax had provided \$140.0 million of capital, or 14% of the transaction, in the form of subordinated bonds. Upon the exercise of this option, we funded substantially all of the remaining receivables through our warehouse facilities.

As of November 30, 2013, \$807.0 million of non-recourse notes payable was outstanding related to our warehouse facilities. At that date, the combined warehouse facility limit was \$1.8 billion (including \$100 million of warehouse capacity added during the third quarter) and the unused warehouse capacity totaled \$993.0 million. Of the combined warehouse facility limit, \$1.0 billion will expire in February 2014 and \$800 million will expire in August 2014. The

return requirements of the warehouse facility investors could fluctuate significantly depending on market conditions. At renewal, the cost, structure and capacity of the facilities could change. These changes could have a significant effect on our funding costs. See Notes 2 and 9 for additional information on the warehouse facilities.

The securitization agreements related to the warehouse facilities include various representations and warranties, covenants and performance triggers. If these requirements are not met, we could be unable to continue to securitize receivables through the warehouse facilities. In addition, the warehouse facility investors could charge us a higher rate of interest and could have us replaced as servicer. Further, we could be required to deposit collections on the securitized receivables with the warehouse facility agents on a daily basis and deliver executed lockbox agreements to the warehouse facility agents.

We expect that cash generated by operations and proceeds from securitization transactions or other funding arrangements, sale-leaseback transactions and borrowings under existing, new or expanded credit facilities will be sufficient to fund CAF, capital expenditures and working capital for the foreseeable future. We anticipate that we will be able to enter into new, or renew or expand existing, funding arrangements to meet our future funding needs. However, based on conditions in the credit markets, the cost for these arrangements could be materially higher than historical levels and the timing and capacity of these transactions could be dictated by market availability rather than our requirements.

In fiscal 2013, our board of directors authorized the repurchase of up to \$800 million of our common stock. Purchases may be made in open market or privately negotiated transactions at management's discretion and the timing and amount of repurchases are determined based on share price, market conditions, legal requirements and other factors. Shares repurchased are deemed authorized but unissued shares of common stock.

During the nine months ended November 30, 2013, we repurchased 4.3 million shares of common stock at an average purchase price of \$43.69 per share. As of November 30, 2013, \$400.0 million was available for repurchase under the authorization,

expiring on December 31, 2014. Amounts reported as the repurchase and retirement of common stock on our statement of cash flows may reflect timing differences in trade and settlement dates on stock repurchase transactions occurring at the end of a reporting period.

**Fair Value Measurements.** We report money market securities, mutual fund investments and derivative instruments at fair value. See Note 6 for more information on fair value measurements.

## FORWARD-LOOKING STATEMENTS

We caution readers that the statements contained in this report about our future business plans, operations, opportunities, or prospects, including without limitation any statements or factors regarding expected sales, margins, expenditures, CAF income, or earnings, are forward-looking statements made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based upon management's current knowledge and assumptions about future events and involve risks and uncertainties that could cause actual results to differ materially from anticipated results. We disclaim any intent or obligation to update these statements. Among the factors that could cause actual results and outcomes to differ materially from those contained in the forward-looking statements are the following:

- § Changes in general or regional U.S. economic conditions.
- § Changes in the competitive landscape within our industry.
- § Changes in the availability or cost of capital and working capital financing, including changes related to the asset-backed securitization market.
- § Changes in the attractiveness or availability of consumer credit related to our third-party financing providers.
- § Significant changes in retail prices for used and new vehicles.
- § A reduction in the availability of or access to sources of inventory.
- § Factors related to the regulatory and legislative environment in which we operate.
- § Events that damage our reputation or harm the perception of the quality of our brand.
- § Security breaches or other events that result in the misappropriation, loss or other unauthorized disclosure of confidential customer or associate information.
- § Factors related to geographic growth, including the inability to acquire or lease suitable real estate at favorable terms or to effectively manage our growth.
- § The loss of key employees from our store, regional or corporate management teams or a significant increase in labor costs.
- § The failure of key information systems.
- § The effect of various litigation matters.
- § Adverse conditions affecting one or more automotive manufacturers or manufacturer recalls.
- § The occurrence of severe weather events.
- § Factors related to the seasonal fluctuations in our business.
- § Factors related to the geographic concentration of our superstores.
- § The effect of new accounting requirements or changes to U.S. generally accepted accounting principles.
- § Acts of terrorism, the outbreak of war or other significant national or international events.

For more details on factors that could affect expectations, see Part II, Item 1A, "Risk Factors" on Page 38 of this report, our Annual Report on Form 10-K for the fiscal year ended February 28, 2013, and our quarterly or current reports as filed with or furnished to the Securities and Exchange Commission ("SEC"). Our filings are publicly available on our investor information home page at [investor.carmax.com](http://investor.carmax.com). Requests for information may also be made to our Investor Relations Department by email to [investor\\_relations@carmax.com](mailto:investor_relations@carmax.com) or by calling 1-804-747-0422, ext. 4391.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There have been no material changes to our market risk since February 28, 2013. For information on our exposure to market risk, refer to Part II, Item 7A, “Quantitative and Qualitative Disclosures about Market Risk,” contained in our Annual Report on Form 10-K for the year ended February 28, 2013.

Item 4. Controls and Procedures

Disclosure. We maintain disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (“Exchange Act”)) that are designed to ensure that information required to be disclosed in our reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. Our disclosure controls and procedures are also designed to ensure that this information is accumulated and communicated to management, including the chief executive officer (“CEO”) and the chief financial officer (“CFO”), as appropriate to allow timely decisions regarding required disclosure.

As of the end of the period covered by this report, with the participation of the CEO and CFO, we evaluated the effectiveness of our disclosure controls and procedures. Based upon that evaluation, the CEO and CFO concluded that our disclosure controls and procedures were effective as of the end of the period.

Internal Control over Financial Reporting. There was no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act) that occurred during the quarter ended November 30, 2013, that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

## PART II. OTHER INFORMATION

### Item 1. Legal Proceedings

On April 2, 2008, Mr. John Fowler filed a putative class action lawsuit against CarMax Auto Superstores California, LLC and CarMax Auto Superstores West Coast, Inc. in the Superior Court of California, County of Los Angeles. Subsequently, two other lawsuits, Leena Areso et al. v. CarMax Auto Superstores California, LLC and Justin Weaver v. CarMax Auto Superstores California, LLC, were consolidated as part of the Fowler case. The allegations in the consolidated case involved: (1) failure to provide meal and rest breaks or compensation in lieu thereof; (2) failure to pay wages of terminated or resigned employees related to meal and rest breaks and overtime; (3) failure to pay overtime; (4) failure to comply with itemized employee wage statement provisions; (5) unfair competition; and (6) California's Labor Code Private Attorney General Act. The putative class consisted of sales consultants, sales managers, and other hourly employees who worked for the company in California from April 2, 2004, to the present. On May 12, 2009, the court dismissed all of the class claims with respect to the sales manager putative class. On June 16, 2009, the court dismissed all claims related to the failure to comply with the itemized employee wage statement provisions. The court also granted CarMax's motion for summary adjudication with regard to CarMax's alleged failure to pay overtime to the sales consultant putative class. The plaintiffs appealed the court's ruling regarding the sales consultant overtime claim. On May 20, 2011, the California Court of Appeal affirmed the ruling in favor of CarMax. The plaintiffs filed a Petition of Review with the California Supreme Court, which was denied. As a result, the plaintiffs' overtime claims are no longer a part of the lawsuit.

The claims currently remaining in the lawsuit regarding the sales consultant putative class are: (1) failure to provide meal and rest breaks or compensation in lieu thereof; (2) failure to pay wages of terminated or resigned employees related to meal and rest breaks; (3) unfair competition; and (4) California's Labor Code Private Attorney General Act. On June 16, 2009, the court entered a stay of these claims pending the outcome of a California Supreme Court case involving unrelated third parties but related legal issues. Subsequently, CarMax moved to lift the stay and compel the plaintiffs' remaining claims into arbitration on an individual basis, which the court granted on November 21, 2011. The plaintiffs appealed the court's ruling to the California Court of Appeal. On March 26, 2013, the California Court of Appeal reversed the trial court's order granting CarMax's motion to compel arbitration. On October 8, 2013, CarMax filed a petition for a writ of certiorari seeking review in the United States Supreme Court. The Fowler lawsuit seeks compensatory and special damages, wages, interest, civil and statutory penalties, restitution, injunctive relief and the recovery of attorneys' fees. We are unable to make a reasonable estimate of the amount or range of loss that could result from an unfavorable outcome in these matters.

We are involved in various other legal proceedings in the normal course of business. Based upon our evaluation of information currently available, we believe that the ultimate resolution of any such proceedings will not have a material effect, either individually or in the aggregate, on our financial condition, results of operations or cash flows.

## Item 1A.Risk Factors

In connection with information set forth in this Form 10-Q, the factors discussed under “Risk Factors” in our Form 10-K for fiscal year ended February 28, 2013, should be considered. These risks could materially and adversely affect our business, financial condition, and results of operations. There have been no material changes to the factors discussed in our Form 10 K.

## Item 2.Unregistered Sales of Equity Securities and Use of Proceeds

On October 17, 2012, our board of directors authorized the repurchase of up to \$300 million of our common stock. The authorization expired on December 31, 2013. In January 2013, our board of directors authorized an additional \$500 million for the repurchase of our common stock. This \$500 million authorization expires on December 31, 2014. Purchases may be made in open market or privately negotiated transactions at management’s discretion and the timing and amount of repurchases are determined based on share price, market conditions, legal requirements and other factors. Shares repurchased are deemed authorized but unissued shares of common stock.

The following table provides information relating to the company’s repurchase of common stock for the third quarter of fiscal 2014. The table does not include transactions related to employee equity awards or the exercises of employee stock options.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Program	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Program
September 1 - 30, 2013	18,123	\$ 47.85	18,123	\$ 413,968,396
October 1 - 31, 2013	294,919	\$ 47.37	294,919	\$ 399,999,340
November 1 - 30, 2013	-	\$ -	-	\$ 399,999,340
Total	313,042		313,042	

Item 4.Mine Safety Disclosures

None.
