PROXY STATEMENT
FOR THE ANNUAL MEETING OF STOCKHOLDERS
TO BE HELD ON MAY 30, 2003

The accompanying proxy is solicited on behalf of the Board of Directors (the "Board") of Mercator Software, Inc., a Delaware corporation (the "Company" or "Mercator"), for use at the Annual Meeting of Stockholders of the Company to be held at the office complex located at 20 Westport Road, South Building, Wilton, Connecticut, on Friday, May 30, 2003, at 9:00 a.m. Eastern Time and any adjournments or postponements thereof (the "2003 Annual Meeting"). This Proxy Statement and the accompanying form of proxy are being mailed to stockholders on or about May 5, 2003. The Company's Annual Report on Form 10-K for the year ended December 31, 2002, which is not part of the proxy soliciting materials, is enclosed. Only holders of record of the Company's common stock at the close of business on the record date for the Meeting, which is April 7, 2003, will be entitled to vote at the Meeting. A majority of the shares of common stock outstanding on the record date will constitute a quorum for the transaction of business at the Meeting. At the close of business on the record date, the Company had 35,168,315 shares of common stock outstanding and entitled to vote.

As you may know, on March 14, 2003 a group called Strategic Software Holdings, LLC/Broken Arrow I, L.P. ("SSH/Broken Arrow") commenced a proxy contest by nominating a slate of directors to replace the current members of the Board.

Thereafter, representatives of the Company and representatives of SSH/Broken Arrow commenced discussions about the possibility of avoiding a proxy contest at the 2003 Annual Meeting. Such discussions continued through April 17, 2003. On April 17, 2003, the Company and SSH/Broken Arrow entered into a settlement agreement, pursuant to which, among other things, SSH/Broken Arrow agreed to support (and the members of the SSH/Broken Arrow group agreed to vote all of their shares of common stock in favor of) the Company's slate of seven nominees standing for election as directors at the 2003 Annual Meeting. Under the settlement agreement, SSH/Broken Arrow agreed to certain "standstill" restrictions until January 15, 2004. These restrictions prevent the members of the SSH/Broken Arrow group from, among other things:

- o attempting to gain control of the Board;

Edgar Filing: MERCATOR SOFTWARE INC - Form DEF 14A

- o making any "hostile" proposals to acquire the Company; and
- o selling common stock (other than sales on the open market that do not exceed 1% of the outstanding common stock during any 30-day period, any sale through broker-dealers directly to principals who will not own more than 5% of our stock after giving effect thereto and certain other specified transactions).

The settlement agreement also provides that Rodney Bienvenu will be engaged as a special advisor to the Board regarding the Company's strategic affairs, and that he will make a presentation to the Board regarding the Company's strategic affairs at the meeting of the Board to be held following the 2003 Annual Meeting and at such other meetings of the Board prior to the termination of the "standstill" period as the Company and Mr. Bienvenu may from time to time thereafter mutually agree. The Company will reimburse Mr. Bienvenu for the reasonable expenses incurred by him in traveling to such meetings plus \$1,500 for each such meeting attended by him. In connection with Mr. Bienvenu's engagement as a strategic advisor to the Board, he agreed to enter into a non-disclosure agreement with the Company.

Pursuant to the settlement agreement, the Company has agreed to reimburse the SSH/Broken Arrow group for actual expenses in the amount of \$300,000.

Given the substantial costs Mercator and its stockholders would incur as a result of continuing the proxy contest through the 2003 Annual Meeting date, and taking into consideration the adverse impact of this matter we have seen on our customers and partners to date, we strongly believe that this settlement is in the best interest of all of our stockholders, as well as our customers, partners and employees. The settlement limits the amount of money and other resources that would otherwise be spent in waging the contest to its conclusion and it eliminates a significant distraction to employees, customers and partners alike. Because of the settlement, the Company can now focus exclusively on the execution of our strategic plan to deliver value to all Mercator stakeholders.

QUESTIONS AND ANSWERS ABOUT THE 2003 ANNUAL MEETING

HOW DO I VOTE IN PERSON?

If you owned shares of the Company's common stock on the record date, April 7, 2003, you may attend the 2003 Annual Meeting and vote in person. If you are not the record holder of your shares, please refer to the discussion following the question "What if I am not the record holder of my shares?" If you hold your shares in the name of a bank or broker, you will not be able to vote in person at the 2003 Annual Meeting, unless you have previously specially requested and obtained a "legal proxy" from your bank or broker and present it at the Annual Meeting.

HOW DO I VOTE BY PROXY?

To vote by proxy, you should complete, sign and date the enclosed proxy card and return it promptly in the enclosed postage-paid envelope. To be able to vote your shares in accordance with your instructions at the 2003 Annual Meeting, we must receive your proxy as soon as possible but in any event prior to the Annual Meeting.

WHAT IF I AM NOT THE RECORD HOLDER OF MY SHARES?

If your shares are held in the name of a brokerage firm, bank nominee or other institution ("Custodian"), only it can give a proxy with respect to your shares. You may have received either a blank, executed proxy card from your Custodian (which you can complete and send directly to the Company) or an instruction card (which you can complete and return to the Custodian to direct

Edgar Filing: MERCATOR SOFTWARE INC - Form DEF 14A

its voting of your shares). If your Custodian has not sent you either a blank, executed proxy card or an instruction card, you may contact the Custodian directly to provide it with instructions. If you need assistance, please contact our solicitor, D.F. King & Co., Inc., toll-free at (800) 859-8509 (in the United States) or (212) 269-5550 (collect, for international calls).

If your shares are held in the name of a Custodian, and you want to vote in person at the 2003 Annual Meeting, you may request a document called a "legal proxy" from the Custodian and bring it to the 2003 Annual Meeting. If you need assistance, please contact our solicitor, D.F. King & Co., Inc., toll-free at (800) 859-8509 (in the United States) or (212) 269-5550 (collect, for international calls).

WHAT IF I WANT TO REVOKE MY PROXY?

If you give a proxy, you may revoke it at any time before it is voted on your behalf. You may do so in three ways:

- By delivering a later-dated proxy to either our proxy solicitor, D.F. King & Co., Inc., or our secretary; or
- By delivering a written notice of revocation to either our proxy solicitor or our secretary; or
- By voting in person at the 2003 Annual Meeting.

IF I PLAN TO ATTEND THE 2003 ANNUAL MEETING, SHOULD I STILL SUBMIT A PROXY?

Whether you plan to attend the 2003 Annual Meeting or not, we urge you to submit a proxy card. Returning the enclosed proxy card will not affect your right to attend the 2003 Annual Meeting and vote.

2

WHO CAN VOTE?

You are eligible to vote or to execute a proxy only if you owned shares of the Company's common stock on the record date for the 2003 Annual Meeting, April 7, 2003. Even if you sell your shares after the record date, you will retain the right to execute a proxy in connection with the 2003 Annual Meeting. It is important that you grant a proxy regarding shares you held on the record date, or vote those shares in person, even if you no longer own those shares. At the close of business on April 7, 2003, 35,168,315 shares of the Company's common stock were entitled to vote.

HOW MANY VOTES DO I HAVE?

With respect to each matter to be considered at the 2003 Annual Meeting, each stockholder will have one vote for each share of the Company's common stock held by it on the record date. The Company has no outstanding voting securities other than its common stock.

HOW WILL MY SHARES BE VOTED?

If you give a proxy on the accompanying proxy card, your shares will be voted as you direct. If you submit a proxy to us without instructions, our representatives will vote your shares in favor of our nominees. Submitting a proxy card will entitle our representatives to vote your shares in accordance with their discretion on matters not described in this proxy statement that may arise at the 2003 Annual Meeting.

Edgar Filing: MERCATOR SOFTWARE INC - Form DEF 14A

Unless a proxy specifies otherwise, it will be presumed to relate to all shares held of record on the record date by the person who submitted it.

WHAT IS A QUORUM AND WHY IS IT NECESSARY?

Conducting business at the 2003 Annual Meeting requires a quorum. For a quorum to exist, stockholders representing a majority of the votes eligible to be cast must be present in person or represented by proxy. Under the Delaware General Corporation Law, the Company's certificate of incorporation and By-laws, abstentions and broker non-votes are treated as present for purposes of determining whether a quorum exists.

WHAT VOTE IS REQUIRED TO APPROVE EACH PROPOSAL AND HOW WILL VOTES BE COUNTED?

If a quorum is present, directors will be elected by a plurality of the votes cast. This means that the seven nominees receiving the highest number of votes will be elected as directors.

Broker-dealers will have discretionary authority for beneficial owners in the election of directors. Accordingly, broker non-votes will be counted for purposes of determining whether a quorum is present and will have the effect of a vote for the election of each of the nominees. Stockholders do not have the right to cumulate their votes.

Each proposal other than the election of directors will be adopted if a majority of the shares represented at the 2003 Annual Meeting and entitled to vote on the proposal are voted in its favor. Accordingly, abstentions on each such proposal will have the same effect as a vote against the proposal. Broker non-votes will not have any effect on any such proposal.

HOW CAN I RECEIVE MORE INFORMATION?

If you have any questions about giving your proxy or about our solicitation, or if you require assistance, please call D.F. King & Co., Inc., toll-free at (800) 859-8509 (in the United States) or (212) 269-5550 (collect, for international calls).

The Board currently consists of seven directors, all of whom are nominated for election at the 2003 Annual Meeting. Each director will be elected to serve until the next annual meeting of stockholders and until his or her successor is duly elected and qualified or until such director's earlier resignation, death or removal.

Shares represented by the accompanying proxy will be voted "for" the election of the seven nominees recommended by the Board unless the proxy is marked in such a manner as to withhold authority so to vote. BOARD OF DIRECTORS MEETINGS AND COMMITTEES

BOARD OF DIRECTORS

The Board of Directors has standing Audit, Compensation and Stock Option Committees. The Board of Directors does not have a nominating committee or a committee performing similar functions, but has in the past performed such functions itself.

During 2002, the Board met nine times. Diane Baker, who resigned as a director on February 13, 2002, attended no meetings during 2002.

AUDIT COMMITTEE

The Audit Committee is comprised of Messrs. Lehman (Chairman), Keet and Sisco, all of whom are independent (as independence is defined in Rule 4200(a)(14) of the Nasdaq Marketplace Rules). The Audit Committee met 10 times during 2002. The Audit Committee meets with the Company's independent accountants to review the adequacy of the Company's internal control systems and financial reporting procedures; reviews the general scope of the Company's annual audit and the fees charged by the independent accountants; reviews and monitors the performance of non-audit services by the Company's independent accountants; reviews the fairness of any proposed transaction between the Company and any officer, director or other affiliate of the Company (other than transactions subject to the review of the Compensation Committee), and after such review, makes recommendations to the full Board; and performs such further functions as may be required by the Nasdaq National Market, on which the Company's common stock is listed.

Ms. Baker, Chairperson of the Audit Committee in 2001, resigned from the Board and the Audit Committee in February 2002. Accordingly, in view of the Company's need for an immediate replacement for Ms. Baker and its inability to locate a new Audit Committee member on short notice, and under such limited and exceptional circumstances, the Board appointed Mr. Schadt as interim Chairman of the Audit Committee for the period from February 2002 until April 2002 based on his knowledge and experience in financial matters. Mr. Schadt is not "independent" as that term is defined in Rule 4200(a)(14) of the Nasdaq Marketplace Rules because he was employed by the Company as Chairman of the Board and interim Chief Executive Officer within the past three years. In April 2002, the Board elected Michael E. Lehman as a Director and as Chairman of the Audit Committee to replace Mr. Schadt.

COMPENSATION COMMITTEE

Messrs. Schadt (Chairman), Sisco and Stevens comprise the Compensation

Edgar Filing: MERCATOR SOFTWARE INC - Form DEF 14A

Committee. During 2002, the Compensation Committee met eight times. The Compensation Committee recommends compensation for officers and key employees of the Company.

STOCK OPTION COMMITTEE

Messrs. Stevens (Chairman) and Sisco comprise the Stock Option Committee. Messrs. Stevens and Sisco are non-employee directors within the meaning of Section 16 of the Securities Exchange Act of 1934, as amended ("Exchange Act"), and Messrs. Stevens and Sisco are "outside directors" within the meaning of Section 162(m) of the Internal Revenue Code of 1986, as amended (the "Code"). Neither of the members of the Stock Option Committee has any interlocking relationships as defined by the Securities and Exchange Commission ("SEC"). During 2002, the Stock Option Committee met four times. The Stock Option Committee is authorized to administer the Company's equity compensation plans (other than the 1997 Directors Stock Option Plan) including granting stock options and awarding restricted stock and stock bonuses pursuant to such plans. The President/Chief Executive Officer has been delegated authority to grant limited stock options to persons who are not subject to Section 16 of the Exchange Act.

AUDIT COMMITTEE REPORT

The Audit Committee is presently comprised of Messrs. Lehman, Keet and Sisco, all of whom have been determined to be independent as defined by the Nasdaq Marketplace Rules. None of the members of the Audit Committee have a relationship with the Company or its subsidiaries, which would interfere with that Audit Committee member's exercise of independent judgment in carrying out the responsibility of a director. In 2001, the Audit Committee adopted a written charter which has been approved by the Board of Directors and was set forth as an exhibit to the Company's proxy statement for the 2001 Annual Meeting of Stockholders. That charter is currently in effect. The Audit Committee has fulfilled its responsibilities and duties as set forth in the written charter.

The Audit Committee has reviewed and discussed the Company's audited financial statements with management, which has primary responsibility for the financial statements. KPMG LLP ("KPMG"), the Company's independent accountants for 2002, is responsible for expressing an opinion on the conformity of the Company's audited financial statements with accounting principles generally accepted in the United States of America.

The Audit Committee has discussed with KPMG the matters that are required to be discussed by Statement on Auditing Standards No. 61 (Communication with Audit Committees), as modified or supplemented. The Audit Committee has received from KPMG the written disclosures and the letter required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), as modified or supplemented, and the Audit Committee discussed and affirmed the independence of KPMG from management and the Company. The Audit Committee has received the reports of the Chief Executive Officer and the Chief Financial Officer relating to their evaluation of the Company's internal controls. The Audit Committee also considered whether KPMG's provision of non-audit services (including those services included under the caption "All Other Fees") is compatible with maintaining KPMG's independence.

Based on the review and discussions referred to above, and additional matters deemed relevant and appropriate by the Audit Committee, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for 2002 and that KPMG be appointed independent accountants for the Company for 2003.

INDEPENDENT ACCOUNTANTS FEES

In addition to retaining KPMG to audit the Company's consolidated financial statements for 2002, the Company retained KPMG to provide various non-audit services in 2002, and expects to continue to do so in the future. The aggregate fees billed for professional services by KPMG in 2002 for these various services were:

Audit Fees: \$613,000 for professional services rendered for the audit of the Company's consolidated financial statements for 2002 and the quarterly reviews of the financial statements included in the Company's Quarterly Reports on Form 10-Q for 2002.

Financial Information Systems Design and Implementation Fees: \$0.

All Other Fees: \$388,000 for tax services including tax return preparation and tax planning, and \$125,000 primarily for the audit of the Company's 401(k) benefit plan and other accounting advice and assistance.

Although the Company expects to continue to retain KPMG for audit and other services, the Company's managers are responsible for establishing and maintaining the Company's system of internal accounting controls.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Board (the "Compensation Committee") oversees Mercator's executive compensation program. The Compensation Committee has three members: James P. Schadt, Chairman, Dennis G. Sisco and Mark C. Stevens. Messrs. Sisco and Stevens are non-employee directors within the meaning of Section 16 of the Exchange Act, and are "outside directors" within the meaning of Section 162(m) of the Code. None of the members of the Compensation Committee has any interlocking relationships as defined by the SEC.

GENERAL COMPENSATION PHILOSOPHY

The primary function of the Compensation Committee is to assist the Board of Directors in fulfilling its responsibilities of establishing the general compensation policy of the Company by (i) reviewing base salary levels and target bonuses for the Chief Executive Officer ("CEO") and other executive officers and key employees of the Company, and (ii) overseeing the Company's incentive and equity plans together with the Company's Stock Option Committee. The Compensation Committee typically reviews base salary levels and target bonuses for the CEO and other executive officers and key employees of the Company at or about the beginning of each year, based on input from, and information compiled by, management. In addition to their base salaries, the Company's executive officers, including the CEO, and key employees, are each eligible to receive a cash bonus pursuant to a management incentive plan and are entitled to participate in the 1997 Equity Incentive Plan.

The Company's compensation policy for executive officers and key employees

Edgar Filing: MERCATOR SOFTWARE INC - Form DEF 14A

is to relate compensation directly to corporate performance and stockholder value. The Compensation Committee establishes the Company's compensation policies applicable to the executive officers and key employees, including the CEO, and evaluates the performance of such persons. The Compensation Committee has adopted the following guidelines for compensation decisions:

- o provide a competitive total compensation package that enables the Company to attract and retain key executive talent;
- o align all pay programs with the Company's annual and long-term business strategies and objectives; and
- o provide variable compensation opportunities that are directly linked to the performance of the Company and that link executive reward to stockholder return.

The Company's compensation policy relates a portion of each individual's total compensation to Company-wide and individual objectives based on corporate performance goals set forth at the beginning of the year.

The base salaries and incentive compensation of the executive officers are determined by the Compensation Committee, and stock option grants to executive officers are determined by the Stock Option Committee, in part by reviewing data on prevailing compensation practices at companies with whom the Company competes for executive talent, and by evaluating such information in connection with the Company's corporate goals. In certain extraordinary circumstances, the Compensation Committee may review and make recommendations with respect to stock options. In order to determine base salary, target bonuses and total target cash compensation, the Compensation Committee, in consultation with management, also reviews general market conditions, compensation history of the candidate, and compares the compensation of the Company's executive officers and key employees with the compensation packages of similarly situated executives and employees at comparable companies.

2002 EXECUTIVE COMPENSATION

BASE SALARY

In order to evaluate Mercator's competitive position in the industry, the Compensation Committee reviewed and analyzed the compensation packages, including base salary levels offered by other software companies that we believe to be in our peer group, including companies such as SeeBeyond Technology Corporation, Tibco Software Inc., Vitria

10

Technology, Inc., and Webmethods, Inc. In reviewing the compensation packages offered by these other companies, the Compensation Committee examined a variety of factors, including their relative size, performance and operational goals. With respect to our corporate executive officers, other than the CEO, the Compensation Committee also has considered other factors, such as each executive's scope of responsibility, performance, prior experience and salary history, as well as the compensation packages of other executives at Mercator. The Compensation Committee initially targeted above the mid-market level of the industry competitive base salary range and made adjustments (or not) based on these other factors to arrive at base salary for the year. No specific fixed weighting or formula was applied to these factors in determining base salary. Rather, the Compensation Committee exercised its judgment in evaluating these factors and in determining the appropriate base salary.

Our executives' base salaries are generally at or above those of executives

Edgar Filing: MERCATOR SOFTWARE INC - Form DEF 14A

at companies in our peer group. Most of our current management was hired by the Board early in 2001 to effect a turn-around of the Company. The executives hired were, in certain instances, paid above the 50th percentile of our peer group in order to compensate them for increased risk and uncertainty in taking on the challenges facing Mercator. Additionally, many executives at companies in our peer group had been at their companies for a relatively long period of time and, accordingly, their total compensation packages had a significant portion of non-cash (i.e., stock or option-based) compensation. In lieu of significant beneficial ownership for our new management, the Compensation Committee determined in certain instances to provide total compensation packages with relatively higher levels of cash compensation (both salary and bonus opportunity) to reward a successful turn-around. Additionally, at the time these executives were hired, the perceived value of equity-based compensation had declined due to prevailing market conditions.

INCENTIVE AWARDS

In 2002, unless covered by an employment agreement, senior level managers of the Company, including executive officers, were eligible to receive an annual performance-based bonus based upon (i) the financial goals of the Company, as determined by the Compensation Committee, and (ii) the employee's achievement of other objectives as determined by the Compensation Committee. As discussed above, the Compensation Committee also reviewed the bonus packages offered by the other members of our peer group, targeting above the mid-market level of the industry competitive bonus range if all operational and strategic targets are achieved, and then examined other factors to determine the aggregate bonus opportunity offered to our executives. The Compensation Committee has the discretion to determine: the individuals who are to receive performance-based bonuses; the amount of the bonus; the weighting between the Company's financial goals and other corporate objectives when determining an individual's performance-based bonus; and whether to revise performance-based bonus amounts and targets during the year if market conditions warrant.

In 2002, each executive was eligible to receive a performance-based bonus of up to 100% of their base salary if the Company achieved pre-determined operational targets (e.g., revenue and EBITDA) and strategic targets (e.g., license revenues from partners and market capitalization). A portion of the bonus was then earned for each target that was achieved. As discussed above, each executive also had individual objectives. The original performance-based bonus pool at 100% achievement of objectives would have paid \$2.3 million to the Company's executives. Based on the Company's performance relative to the revised targets in 2002, the Company instead paid \$1.1 million in bonuses.

LONG-TERM INCENTIVE AWARDS

The Compensation Committee believes that equity-based compensation in the form of stock options links the interests of management and the Company's stockholders by focusing employees and management on increasing stockholder value. Stock options generally have value only if the price of the Company's stock increases above the fair market value on the grant date and the option grantee remains in the Company's employ for the period required for the shares to vest.

CHIEF EXECUTIVE OFFICER COMPENSATION

The Compensation Committee, together with the Board of Directors, will also subjectively evaluate the level of performance of the CEO to determine current and future appropriate base pay levels. For the CEO, the Compensation Committee has in prior years targeted above the mid-market level of the base salary range determined by its aforementioned competitive analysis, and has given significant emphasis to annual bonus and longer-term

incentives for Mr. King's total compensation package. For fiscal year 2002, Mr. King's base salary was \$400,000. Total compensation paid in 2002 was \$410,192 in salary and \$200,000 in bonus, with additional compensation in the form of long-term incentive awards as described above. The additional \$10,192 in salary was due to a payroll change from bi-weekly to semi-monthly resulting in an additional payroll for all employees for the period from December 21, 2002 to December 31, 2002.

Mr. King's arrangements were determined in a manner consistent with the factors described above for all executive officers and with available market data as to competitive compensation terms. In January 2002, Mr. King's base salary was increased from \$375,000 to \$400,000 in recognition of, among other things, a significant increase in the Company's market capitalization during his tenure through that date. His bonus compensation was determined based on his achievement of certain operating targets (revenue and EBITDA) and certain strategic targets (license revenue, revenue influenced by partners and market capitalization). Mr. King has not received a base salary increase in 2003.

Mr. King did not participate in any compensation deliberations of the Board, the Compensation Committee or the Stock Option Committee with respect to any of his compensation. The Committee considered this compensation package appropriate in view of Mr. King's effectiveness in management and cost-cutting measures of the Company in an unusually challenging global economic environment.

INTERNAL REVENUE CODE SECTION 162(M) LIMITATION

In general, under Section 162(m) of the Code, the Company cannot deduct, for federal income tax purposes, compensation in excess of \$1,000,000 paid to certain executive officers. This deduction limitation does not apply, however, to compensation that constitutes "qualified performance-based compensation" within the meaning of Section 162(m) of the Code and the regulations promulgated thereunder. The Company has considered the limitations on deductions imposed by Section 162(m) of the Code and it is the Company's present intention, for so long as it is consistent with its overall compensation objective, to structure executive compensation to minimize application of the deduction limitations of Section 162(m) of the Code.

STOCK OPTION COMMITTEE REPORT

In 2002, stock options were granted in accordance with the Company's 1997 Equity Incentive Plan to certain executive officers and key employees as incentives for them to become employees or to aid in their retention and to align their interests with those of the stockholders. Stock options typically have been granted to executive officers when the executive first joins the Company, in connection with a significant change in responsibilities and, in certain cases, to achieve equity within a peer group. The Stock Option Committee may grant stock options to retain executive officers and key employees in order to strive to increase the value of the Company's common stock. The number of shares subject to each stock option granted is within the discretion of the Stock Option Committee and is based on anticipated future contribution and ability to impact the Company's results, past performance or consistency within the grantee's peer group. In 2002, the Stock Option Committee considered these factors, as well as the number of unvested option shares held by the grantee as of the date of grant. The stock options generally become exercisable over a four-year period and are granted at a price that is equal to the fair market value of the Company's common stock on the date of grant.

In January 2002, the Stock Option Committee granted Mr. King, the Company's Chairman of the Board of Directors, Chief Executive Officer and President, 300,000 options. The Stock Option Committee's determination to grant such stock options was based on Company performance in 2001 (and that such performance was the result of his contributions) and the significant increase in market valuation realized by the Company and to provide a significant incentive for him to enhance long-term stockholder value. Additionally, the Board considered stock ownership of chief executive officers at other companies in Mercator's peer group.

The Company also granted other executives stock options in January 2002 based on Company performance in 2001. In December 2002, in light of the significant industry-wide decrease in the market valuation of technology companies (which, in many cases, resulted in a corresponding decline in value of stock options previously granted) the decision was made to provide additional

Edgar Filing: MERCATOR SOFTWARE INC - Form DEF 14A

options for purposes of motivation and retention, to a broad list of employees, whose present and potential contributions were considered to be important to the success of the Company during the current challenging business period. These grants, made in December 2002, are intended to cover grants through and including December 31, 2004 (effectively covering two years of grants). This was deemed necessary and appropriate in light of the Company's recently-undertaken workforce reduction and the other factors mentioned above. The Board approved the proposed option grants stipulating no further grants would be made to existing employees for 2003 or 2004 unless specifically approved by the Stock Option Committee in connection with a promotion or other extraordinary circumstances.

OPTION GRANTS IN 2002

The following table sets forth information regarding option grants during 2002 pursuant to the Company's 1997 Equity Incentive Plan (the "1997 Plan") to each of the Named Executive Officers. The table sets forth the hypothetical gains or "option spreads" that would exist for the options at the end of their respective ten-year terms. These gains are based on assumed rates of annual compound stock price appreciation of 5% and 10% from the date the option was granted to the end of the option term, as required by applicable SEC rules. They do not represent the Company's estimate or projection of future common stock price or value.

AGGREGATE OPTION EXERCISES IN 2002 AND YEAR-END OPTION VALUES

There were no option exercises by the Named Executive Officers during 2002. The following table consists of the number of shares covered by both exercisable and unexercisable stock options as of December 31, 2002 and indicates values of "in-the-money" options that represent the positive spread between the respective exercise prices of outstanding stock options and \$0.97 per share, which was the closing price of Mercator's common stock as reported on the Nasdaq National Market on December 31, 2002, the last day of trading for 2002. These values may not be realized.
