ALBERTO-CULVER COMPANY AND SUBSIDIARIES
Notes to Consolidated Financial Statements**(1) BASIS OF PRESENTATION**

The consolidated financial statements contained in this report have not been audited by independent public accountants, except for balance sheet information presented at September 30, 2002. However, in the opinion of the company, the consolidated financial statements reflect all adjustments, which include only normal adjustments, necessary to present fairly the data contained therein. The results of operations for the periods covered are not necessarily indicative of results for a full year. Certain amounts for the prior year have been reclassified to conform to the current year's presentation.

(2) STOCKHOLDERS' EQUITY

During fiscal years 1998 and 1999, the Board of Directors authorized the company to purchase up to 9.0 million shares of its Class A common stock. Prior to the fourth quarter of fiscal year 2002, the company had purchased 7.3 million Class A common shares under this program at a total cost of \$162.9 million with the last purchase occurring in October, 1999. In July, 2002, the Board of Directors re-authorized the company to purchase up to 1.7 million shares of Class A common stock remaining under the program. As of June 30, 2003, the company had purchased 331,700 Class A shares under the re-authorization at a total cost of \$15.1 million. A total of 1,368,300 Class A shares remain available for purchase under the program as of June 30, 2003.

During the nine months ended June 30, 2003 and 2002, the company acquired \$2.9 million and \$28.3 million, respectively, of Class A and Class B common shares surrendered by employees in connection with the exercises of stock options and the payment of withholding taxes as provided under the terms of certain incentive plans. Shares acquired under these plans are not subject to the above-mentioned stock repurchase program.

Stock options for 1,227,600 shares were excluded from the computation of diluted earnings per share for the three months and nine months ended June 30, 2003 as the options exercise prices were greater than the average market price and, therefore, were anti-dilutive. No stock options were anti-dilutive for the three months or nine months ended June 30, 2002.

(4) ACCOUNTING FOR STOCK-BASED COMPENSATION

The Financial Accounting Standards Board's Statement of Financial Accounting Standards (SFAS) No. 123, Accounting for Stock-Based Compensation, requires either the adoption of a fair value based method of accounting for stock-based compensation or the continuance of the intrinsic value method with pro-forma disclosures as if the fair value method was adopted. The company has elected to continue measuring compensation expense for its stock-based plans using the intrinsic value method prescribed by Accounting Principles Board Opinion No. 25,

Accounting for Stock Issued to Employees, and, accordingly, no compensation cost related to stock options has been recognized in the consolidated statements of earnings.

Had compensation expense for these stock option plans been determined based upon the fair value of stock options on the dates of grant and recognized over the vesting period consistent with SFAS No. 123, the company's pro-forma net earnings and net earnings per share for the three and nine months ended June 30, 2003 and 2002 would have been as follows (in thousands, except per share amounts):

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF RESULTS OF OPERATIONS AND FINANCIAL CONDITION

RESULTS OF OPERATIONS

Third Quarter and Nine Months Ended June 30, 2003 versus Third Quarter and Nine Months Ended June 30, 2002

The company achieved record third quarter net sales of \$736.1 million in fiscal year 2003, up \$55.0 million or 8.1% over the comparable period of the prior year. For the nine-month period ending June 30, 2003, net sales reached a new high of \$2.14 billion, representing a 9.6% increase compared to last year's nine-month period. Fiscal year 2003 sales were increased by 3.0% and 2.0% due to the effect of foreign exchange rates in the third quarter and first nine months of fiscal year 2003, respectively.

Net earnings were \$42.6 million for the three months ended June 30, 2003 or 16.9% higher than the prior year's third quarter net earnings of \$36.4 million. Basic earnings per share of 73 cents in the third quarter of fiscal year 2003 were 10 cents or 15.9% higher than the same period of fiscal year 2002. Diluted earnings per share for the current quarter increased 16.4% to 71 cents from 61 cents in the same period of the prior year.

Net earnings for the nine months ended June 30, 2003 were \$116.4 million or 18.4% higher than the prior year's first nine-month net earnings of \$98.3 million. Basic earnings per share of \$2.00 for the first nine months of fiscal year 2003 were 28 cents or 16.3% higher than the same period of fiscal year 2002. Diluted earnings per share in the current period increased 16.9% to \$1.94 from \$1.66 in the first nine months of fiscal year 2002.

Effective October 1, 2002, the company's consumer products business was reorganized into two divisions. One division, Alberto-Culver Consumer Products Worldwide, is comprised of the former Alberto-Culver North America business segment and the former Alberto-Culver International business segment excluding the operations of Cederroth International. The second division is Cederroth International, which manufactures, markets and distributes beauty and health care products throughout Scandinavia and in Europe. Beginning in fiscal year 2003, the company has two segments for external financial reporting purposes: Global Consumer Products, which includes the two aforementioned consumer products divisions, and Specialty distribution Sally, which is the same segment as previously reported. Prior year information has been reclassified to conform to the new segment presentation.

Compared to the same periods of the prior year, sales of Global Consumer Products increased 8.3% and 8.8% in the third quarter and first nine months of fiscal year 2003, respectively. The current year third quarter increase was primarily due to the effect of foreign exchange rates, which increased sales by 6.2%, and higher sales of Alberto V05 and TRESemme hair care products. For the first nine months of fiscal year 2003, sales increased primarily due to higher sales of St. Ives Swiss Formula skin care products, Alberto V05 and TRESemme hair care products, Mrs. Dash salt-free seasonings and the effect of foreign exchange rates, which increased sales by 3.7%.

The Specialty distribution Sally (Sally) business segment achieved sales increases of 7.5% for the third quarter and 9.7% for the first nine months of fiscal year 2003 compared to the same periods of the prior year. The current year sales increases were mainly attributable to the expansion of Sally's full-service operations, higher sales for established Sally Beauty Company stores and the addition of new stores during the year. First

Edgar Filing: ALBERTO CULVER CO - Form 10-Q

nine-month sales in fiscal year 2003 also benefited from the inclusion of a full nine months of operations for Armstrong-McCall, which was acquired in December 2001, versus only six months in the prior year.

Cost of products sold as a percentage of net sales was 50.5% for the third quarter and 50.2% for the first nine months of fiscal year 2003 compared to 50.7% for the third quarter and 50.8% for the first nine months of the prior year. The decreases in the cost of products sold percentage in the third quarter and first nine months of fiscal year 2003 were primarily attributable to cost savings programs and increased sales of higher margin products for Alberto-Culver Consumer Products Worldwide and improved vendor pricing and lower store inventory shrinkage for Sally.

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

Compared to the prior year, advertising, marketing, selling and administrative expenses in fiscal year 2003 increased \$18.9 million or 6.9% for the third quarter and \$76.7 million or 9.7% for the first nine months. The increases primarily resulted from the higher selling and administrative costs associated with the growth of the Sally Beauty Company business and higher expenditures for advertising and marketing.

Advertising and marketing expense was \$49.5 million for the third quarter and \$157.9 million for the first nine months of fiscal year 2003 versus \$47.6 million for the third quarter and \$140.9 million for the first nine months of fiscal year 2002. The increases in fiscal year 2003 primarily resulted from higher advertising expenditures for Alberto V05 hair care products for Alberto-Culver Consumer Products Worldwide and increases related to the growth of Sally Beauty Company. The nine-month increase in fiscal year 2003 was also due to higher advertising expenditures for St. Ives Swiss Formula skin care products and TRESemme hair care products. These increases were partially offset by decreased advertising expenditures for FDS in the third quarter and first nine months of fiscal year 2003 versus the prior year.

The provision for income taxes as a percentage of earnings before income taxes was 34.6% for the third quarter and 35.5% for the first nine months of fiscal year 2003 compared to 35.0% for the third quarter and first nine months of fiscal year 2002. The higher tax rate for the first nine months of fiscal year 2003 is mainly due to the mix of foreign taxable earnings. The lower tax rate in the third quarter of fiscal year 2003 principally related to the favorable settlement of certain tax matters.

ALBERTO-CULVER COMPANY AND SUBSIDIARIES

FINANCIAL CONDITION

June 30, 2003 versus September 30, 2002

Working capital at June 30, 2003 was \$657.0 million, an increase of \$133.2 million from \$523.8 million at September 30, 2002. The resulting ratio of current assets to current liabilities was 2.46 to 1.00 at June 30, 2003 compared to 2.14 to 1.00 at September 30, 2002. The increase in working capital and the ratio of current assets to current liabilities was primarily due to working capital generated from operations, partially offset by cash outlays for capital expenditures, cash dividends and purchases of treasury shares.

Cash and cash equivalents increased \$83.7 million during the first nine months of fiscal year 2003 to \$301.1 million primarily due to cash flow provided by operating activities and cash received from the exercise of stock options. These cash inflows were partially offset by cash paid for capital expenditures, cash dividends and stock purchased for treasury.

Inventories increased \$25.9 million during the first nine months of fiscal year 2003 to \$548.2 million primarily due to the growth of the Sally Beauty business, the weakening of the U.S. dollar versus certain foreign currencies and the growth of the Global Consumer Products business.

Accounts payable decreased \$11.5 million during the first nine months of fiscal year 2003 primarily due to the timing of inventory purchases and vendor payments.

Accumulated other comprehensive income - foreign currency translation decreased \$33.0 million during the first nine months of fiscal year 2003 mainly due to the weakening of the U.S. dollar versus certain foreign currencies, primarily the British pound, Swedish krona, Australian dollar and Argentine peso.

NEW ACCOUNTING PRONOUNCEMENTS

In December, 2002, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 148, Accounting for Stock-Based Compensation - Transition and Disclosure - an amendment of SFAS No. 123. SFAS No. 148 amends SFAS No. 123, Accounting for Stock-Based Compensation, to provide alternative methods of transition for a voluntary change to the fair value method of accounting for stock-based employee compensation. In addition, SFAS No. 148 amends the disclosure requirements of SFAS No. 123 regarding the method of accounting for stock-based employee compensation and the effect of the method used on reported results. The company is required to comply with the additional annual disclosure requirements of SFAS No. 148 in its financial statements for the year ended September 30, 2003. The company implemented the interim disclosure requirements of SFAS No. 148 in the second quarter of fiscal year 2003.

NEW ACCOUNTING PRONOUNCEMENTS (continued)

In January, 2003, the FASB's Emerging Issues Task Force (EITF) finalized Issue No. 02-16, Accounting by a Customer (Including a Reseller) for Certain Consideration Received from a Vendor, which addresses the accounting by a customer for consideration given by a vendor. EITF Issue No. 02-16 standardizes the accounting treatment for these types of arrangements by requiring that consideration received from a vendor be reflected as a reduction in the purchase price of the item, except for reimbursement of specific, incremental expenses incurred by the customer to sell a vendor's products, which should be reflected as a reduction in the applicable expense item (Issue 1). EITF Issue No. 02-16 also requires that rebates or refunds from vendors that are earned based upon a specified level of purchases, or continued purchases over a specified period of time, should be accrued if it is probable they will be earned and can be estimated (Issue 2). As required by EITF Issue No. 02-16, the company implemented Issue 1 in the second quarter of fiscal year 2003 and Issue 2 for arrangements entered into or modified after November 21, 2002. The adoption of EITF No. 02-16 did not have a material effect on the company's consolidated financial statements.

In November, 2002, the FASB issued Interpretation No. 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others, (FIN 45). FIN 45 requires guarantors to recognize a liability for the obligation it has undertaken in issuing a guarantee, including the ongoing obligation to stand ready to perform over the term of the guarantee in the event that the specified triggering events or conditions occur. FIN 45 also requires certain interim and annual disclosures regarding guarantees. The company adopted the provisions of FIN 45 in the second quarter of fiscal year 2003. The adoption of FIN 45 did not have a material impact on the company's consolidated financial statements.
