Committees and Compensation of the Board of Directors

The Board of Directors has a standing audit committee and a committee for the administration of the 1994 Stock Option Plan.

The Audit Committee assists the Board in fulfilling its oversight responsibilities by monitoring the integrity of the Company's financial reporting process and systems of internal controls regarding finance, accounting, and legal compliance, monitoring the independence and performance of the Company's independent auditors, and by providing an avenue of communication among the independent auditors, management, and the Board of Directors. The members of the audit committee are Messrs. Edward A. Alkire (Chairman), Ralph E. Crump, and D. Dean Spatz. The Audit Committee met four times during fiscal year 2003.

The Board of Directors has determined that Mr. Alkire is an audit committee financial expert and believes that he qualifies as independent as defined in regulations adopted by the Securities and Exchange Commission and the National Association of Securities Dealers, Inc. (the NASD). Although Mr. Alkire serves as corporate secretary, he receives no compensation from the Company for this service. The Board of Directors also believes that Mr. Spatz qualifies as an independent director under the NASD definition. Because of Mr. Crump's stock ownership, the Company believes that he may not qualify as an independent director. Rule 4350(d)(2)(A) of the National Association of Securities Dealers (the NASD) generally requires an audit committee to be composed of at least three members of the Board of Directors who are independent directors. However, NASD Rule 4350(d)(2)(B) allows an audit committee to have one non-independent director if the Board of Directors determines, in exceptional and limited circumstances, that membership on the audit committee by the director is required in the best interests of the Company and its shareholders. The Board of Directors has determined that, due to Mr. Crump's significant business experience and expertise, Mr. Crump's membership on the Company's Audit Committee is required in the best interests of the Company and its shareholders. The Board of Directors has adopted a written charter for the audit committee, a copy of which is included as Appendix B to this proxy statement.

During the last fiscal year of the Company, the Board of Directors had four meetings. Each director attended 100 percent of the meetings of the Board of Directors held during fiscal year 2003 and the committees on which each Director serves. Members of the Board do not receive cash compensation for their service on the Company's Board of Directors or any committee thereof but are reimbursed for business expenses incurred in attending meetings.

Code of Ethics

The Board of Directors has not yet adopted a Code of Ethics. However, the Board anticipates that it will shortly begin the process of preparing a Code of Ethics that applies to its principal executive officer and principal financial officer in accordance with the rules of the Securities and Exchange Commission.

Audit Fees

During the last fiscal year, the Company engaged McGladrey & Pullen, LLP (McGladrey & Pullen) for the audit and tax services for the current fiscal year. For the 2002 audit and the quarterly reviews through the end of the third quarter, the Company engaged Grant Thornton, LLP (Grant Thornton) for these audit and tax services. During the fiscal year ended July 31, 2003, the Company expended \$141,000 in audit fees for its annual audit and quarterly reviews.

Financial Information Systems Design and Implementation Fees

During the fiscal year ended July 31, 2003 there were no fees for professional services as described in paragraph (c)(4)(ii) of Rule 2-01 of Regulation S-X.

All Other Fees

During the fiscal year ended July 31, the Company expended \$65,418 for tax services including several carryback filings, and \$15,500 for other services.

McGladrey & Pullen and Grant Thornton did not use leased employees in the performance of services for the Company.

Auditor Independence

In the fiscal year ended July 31, 2003 there were no other professional services provided by McGladrey & Pullen or Grant Thornton which would have required the Audit Committee of the Board of Directors to consider their compatibility with maintaining the independence of McGladrey & Pullen or Grant Thornton .

McGladrey & Pullen will be present at the annual meeting of shareholders and will have the opportunity to make a statement if they desire to do so, and will be available to respond to appropriate questions from shareholders.

Changes in Certifying Accountant

The Audit Committee of the Board of Directors notified Grant Thornton that they were dismissed July 16, 2003.

The Audit Committee selected the firm of McGladrey & Pullen, 222 South Harbor Blvd., Suite 800, Anaheim, CA 92805, as the Company's new independent auditors effective July 16, 2003.

During the Company's two most recent fiscal years and the subsequent interim period through July 16, 2003, there were no disagreements between the Company and Grant Thornton on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to Grant Thornton's satisfaction, would have caused Grant Thornton to make reference to the subject matter of the disagreement in connection with its reports; and there were no reportable events as listed in Item 304 (a)(1)(v) of Regulation S-K.

For the year ended July 31, 2001, Grant Thornton issued an opinion which included an emphasis paragraph related to the going concern of the Company. The Company did not dispute this opinion. No such going concern paragraph was included in the opinion for the fiscal year ended July 31, 2002. Except as previously noted, Grant

Thornton's audit reports on the Company's financial statements for the past two years did not contain any adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope or accounting principles. The Company has provided Grant Thornton with a copy of the foregoing disclosures. A letter from Grant Thornton, indicating its concurrence or disagreement with the disclosures, was attached to the Company's current report on Form 8-K/A filed with the Securities and Exchange Commission on July 31, 2003.

During the Company's two most recent fiscal years and the subsequent interim period through July 16, 2003 the registrant had not consulted with McGladrey & Pullen on either: (i) the application of any accounting principles, nor the type of opinion that might be rendered, nor was any written report nor oral advice provided to the Company; (ii) nor was there any matter that the subject of any disagreement or reportable event.

Report of the Audit Committee

The Audit Committee has reviewed and discussed the audited financial statements with management. The Audit Committee has discussed with McGladrey & Pullen and Grant Thornton, the Company's current and former independent auditors, the matters required to be discussed under Statement on Auditing Standards No. 61 Communication with Audit Committees, as amended by Statement on Auditing Standards No. 90 Audit Committee Communications. The Audit Committee has received the written disclosures and the letter from McGladrey & Pullen and Grant Thornton required by Independence Standards Board Standard No. 1 Independence Discussions with Audit Committees, and has discussed with McGladrey & Pullen and Grant Thornton its independence.

Based upon the review and discussions of the Audit Committee with respect to the items listed above, the Audit Committee has recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for filing with the SEC. The Committee has also recommended the appointment of McGladrey & Pullen as the Company's independent auditors for its fiscal year ending July 31, 2004.

Respectfully Submitted,

EXECUTIVE COMPENSATION

Board of Directors Report on Executive Compensation

The Board of Directors is responsible for establishing and administering the overall compensation policies applicable to the Company's senior management. The Board is also responsible for establishing the general policies applicable to the granting, vesting and other terms of stock options granted to employees under the Company's stock option plans, and for determining the size and terms of the option grants made to the Company's executive officers, among others.

The Board also insures that the Company's officer compensation programs are structured and implemented in a manner that recognizes the Company's need to attract and retain the caliber of executives and other key employees required for the Company to compete in a highly competitive and rapidly evolving business sector, while also recognizing and emphasizing the importance and value of achieving targeted performance objectives and enhancing long-term shareholder value.

Under the Company's executive compensation programs, there are two primary components to an executive's compensation: base salary and long-term incentives in the form of stock options.

Base Salaries. The base salary for a particular executive is determined in the first instance by comparison to the existing executive salary structure within the Company, as well as comparison to compensation paid to executives of comparably-sized and similarly-situated manufacturing companies and other similarly-sized public companies. The base salary of Mr. Beets, President and CEO, and of the other executive officers was not adjusted in the fiscal year ended July 31, 2003.

Long-Term Incentives. The Company provides long-term incentives to executives through the annual grant of stock options. The options generally vest over one year and have an exercise price equal to the fair market value of the Company's stock at the time of the grant, with the number of options awarded based on the executive's position. Since fair market value stock options can only produce value to an executive if the price of the Company's stock increases above the exercise price, these option grants provide a direct link between executive compensation and the Company's stock price performance. The Board believes that stock options directly motivate an executive to maximize long-term shareholder value. Mr. Beets was granted, under the Company's 1994 Stock Option Plan, an option to purchase 10,000 shares of Common Stock at an exercise price of \$1.59 per share.

Description of the Company's Stock Option Plans

The Company has options outstanding under two Stock Option Plans, the amended and restated 1984-85 Stock Option Plan and the 1994 Stock Option Plan (the 1994 Plan). The 1984-1985 Plan has expired and no further options may be granted under that plan. The 1994 Plan provides for the grant of statutory stock options and non-qualified stock options to purchase an aggregate of 600,000 shares of common stock. The Plan is administered by two or more members of the Board of Directors. Statutory options may not be granted at an exercise price less than fair market value of the common stock on the date of grant. Unless otherwise specified, the options granted under the 1994 Plan expire up to ten years from the date of grant. Generally, if an optionee ceases to be an employee or director for any reason other than death or disability, the option expires 90 days after the date of termination.

PROPOSAL 2 APPROVAL OF THE SI TECHNOLOGIES, INC. 2003 STOCK OPTION PLAN.

On November 7, 2003, the Board of Directors adopted, subject to shareholder approval, the SI Technologies, Inc. 2003 Stock Option Plan (the 2003 Plan). The purpose of the 2003 Plan is to provide a method by which selected individuals performing services for the Company may be offered an opportunity to invest in common stock of the Company, thereby increasing their personal interest in the growth and success of the Company and its affiliates.

As of July 31, 2003, the Company had approximately 240 employees. All persons who are performing or have been hired to perform services for the Company, including employees, officers and directors, are eligible to be considered for option grants under the 2003 Plan (Eligible Persons).

As of July 31, 2003, there were approximately 600,000 shares of common stock subject to outstanding stock options granted under the SI Technologies, Inc. 1994 Plan, as amended (the 1994 Plan) and approximately 115,000 shares of common stock granted under the Company's 1984-1985 Stock Option Plan, which expired in 1994. There were no additional shares of common stock subject to outstanding stock options granted outside these plans. Incentive Stock Options may not be granted under the 1994 Stock Option Plan after June 30, 2004.

The maximum number of shares of Common Stock for which options may be granted during the term of the 2003 Plan will be 200,000. If the 2003 Plan is approved by the shareholders, the Company will not make any additional grants under the 1994 Plan. If the 2003 Plan is not approved by shareholders, the Company may continue to grant any options it has available for grant under the 1994 Plan.

Following is a summary of the 2003 Plan. This summary does not purport to be complete, and is qualified in its entirety by reference to the full text of the 2003 Plan, which appears as Appendix A to this Proxy Statement.

Summary of the 2003 Plan

A total of 200,000 shares of Common Stock will be reserved under the 2003 plan for Eligible Persons. The 2003 Plan will be administered by the Board of Directors of the Company (the Board). The Board has the authority to appoint a committee consisting of two or more of its members to administer the 2003 Plan.

The Board shall have the authority to determine (a) the Eligible Persons to whom options are to be granted, (b) the number of shares of Common Stock for which the options are exercisable and the purchase price of such shares, (c) whether the options are incentive stock options or nonqualified stock options, and (d) all of the other terms and conditions of the options. The Board shall have full power and authority, subject only to the provisions of the 2003 Plan (i) to administer or supervise the administration of the 2003 Plan, (ii) to interpret the provisions of the 2003 Plan and option agreements issued under the 2003 Plan, (iii) to correct any defect, supply any information and reconcile any inconsistency in such manner and to such extent as it determines to be necessary or advisable to carry out the purpose of the 2003 Plan, and (iv) to take such other actions in connection with the 2003 Plan as it determines to be necessary or advisable. The Board is authorized to adopt, amend and rescind such rules, regulations and procedures not inconsistent with the provisions of the 2003 Plan as it determines to be necessary or advisable for the proper administration of the 2003 Plan, and each option shall be subject to all such rules, regulations and procedures. Exercise by the Board of its authority shall be consistent with the intent that (a) all incentive stock options be qualified under the terms of Section 422 of the Internal Revenue Code, and (b) the 2003 Plan be administered in a manner so that, to the extent possible, the grant of options and all other transactions with respect to the 2003 Plan, and any Common Stock acquired upon exercise of options, shall be exempt from the operation of Section 16(b) of the Exchange Act.

Shares of Common Stock will be made available from the authorized but unissued shares of the Company. If an option terminates for any reason without having been exercised in full, the shares of Common Stock for which the option has not been exercised shall again be available for purposes of the 2003 Plan.

The price at which shares of Common Stock may be purchased upon exercise of an option may be more than, less than or equal to the fair market value of the shares on the date the option is granted. However, the purchase price of each share of Common Stock under an incentive stock option must be (a) at least 110% of the fair market value of such share on the date of grant of the option, if it is granted to a 10% shareholder, and (b) not less than the fair market value of such share on the date of grant of the option, if it is granted to any other Eligible Person.

An optionee generally may transfer a nonqualified option to any Permitted Transferee (as that term is defined in the 2003 Plan), so long as the transfer is without value (the right to transfer a nonqualified stock option may be limited by its option agreement). The Permitted Transferee may transfer the option without value to any other Permitted Transferee of the Optionee. Parents, children, grandchildren, siblings, nieces and nephews and certain other relatives and individuals, including in-laws and relatives by adoption, any person sharing the Optionee's household (other than a tenant or employee), a trust in which these persons have more than fifty percent (50%) of the beneficial interest, and any other non-charitable entity in which these persons (or the Optionee) own more than fifty percent (50%) of the voting interests will qualify as Permitted Transferees.

Incentive stock options granted under the 2003 Plan will not be transferable to Permitted Transferees.

Edgar Filing: SI TECHNOLOGIES INC - Form DEF 14A

Except as expressly permitted by the 2003 Plan, an option will not be transferable by its holder other than by will or by the laws of descent and distribution, will not be involuntarily alienable by legal process or otherwise by operation of law, and will be exercisable during the holder's lifetime only by the holder. If the holder of an

option dies prior to its full exercise, the option may be exercised, to the extent it does not thereby terminate, by the person or persons to whom the rights of the holder of the option pass by will or by applicable laws of descent and distribution.

Subject to the provisions of the 2003 Plan with respect to termination of options upon or following death, disability (as defined in the 2003 Plan) or other termination of service, the Board shall determine the term of each option, which term shall not be more than (a) five years from the date of grant in the case of an incentive stock option granted to a 10% shareholder, and (b) ten years from the date of grant in the case of any other incentive stock option.

If an option holder's service terminates without cause prior to the full exercise of an option, then the option generally shall thereafter be exercisable, to the extent the option holder was entitled to exercise the option on the date of such termination, for a period of three months following such termination (but not later than the end of the term of the option); provided, however, that, if the holder's service terminates by reason of death or disability, the option shall be exercisable for a period of one year following such termination (but not later than the end of the term of the option). At the end of such period, the option shall terminate. If a holder's service is terminated for cause, then all options held by the holder shall immediately terminate. Following termination of a holder's service, if the holder engages in any act that would have constituted cause if the holder had remained in the service of the Company, then the Board shall be entitled to terminate any options held by the holder. The Board may modify these provisions in the case of individual option grants.

An option shall be exercised by written notice to the Company in compliance with the terms and conditions of its option agreement and such procedures for exercise of options as the Board may adopt from time to time. The method or methods of payment of the purchase price of the shares to be purchased upon exercise of the option shall be determined by the Board and set forth in the option agreement for the option. Such method or methods may consist of (i) check, (ii) promissory note, (iii) whole shares of Common Stock already owned by the option holder, (iv) the withholding of shares of Common Stock issuable upon exercise of the option, (v) the delivery, together with a properly executed exercise notice, of irrevocable instructions to a broker to deliver promptly to the Company the amount of sale or loan proceeds required to pay the purchase price, (vi) any combination of the foregoing methods of payment, or (vii) such other consideration and method of payment as may be permitted for the issuance of shares under applicable securities and other laws. The Board may specify a minimum number of shares of Common Stock for which an Option must be exercised.

The Board may from time to time amend the 2003 Plan, whether before or after termination of the 2003 Plan, in such respects as it shall deem advisable; provided, however, that any such amendment (i) shall comply with all applicable laws and stock exchange listing requirements, and (ii) with respect to incentive stock options granted or to be granted under the 2003 Plan, shall be subject to any approval by shareholders of the Company required under the Internal Revenue Code of 1986. No amendment of the 2003 Plan may adversely affect the rights of the option holder of an option in any material way unless the option holder consents thereto.

The 2003 Plan shall terminate on November 7, 2013, provided, however, that the Board may terminate the 2003 Plan at any earlier time.

Federal Income Tax Consequences

The Company intends that certain of the options granted under the 2003 Plan will qualify as incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended (the "Code"). Assuming that the options are so qualified, the tax consequences to an optionee will vary depending on whether certain holding period requirements are met. In addition, an option will cease to be an incentive stock option, and thereafter be taxed as a nonqualified stock option, if the optionee exercises the option more than three months following termination of employment for any reason other than death or disability, or more than one year following termination of employment on account of disability.

If an optionee acquiring stock pursuant to an incentive stock option holds the stock until at least one year after the transfer of the stock to the optionee and at least two years from the date of grant of the option, then, subject to the alternative minimum tax rules discussed below, there will be no tax consequences to the optionee or the Company when the incentive stock option is granted or when it is exercised. When the stock is ultimately sold, gain or loss will be determined, based on the difference between the net proceeds of the sale and the aggregate purchase price paid for the stock, and the optionee will be required to report such gain or loss as long-term capital gain or loss on his or her federal income tax return for the year in which the sale occurs.

If stock acquired upon exercise of an option is sold by the optionee and, at the time of the sale, the holding period requirements described in the preceding paragraph have not been met, the federal income tax consequences to the optionee will be as follows:

(a) The optionee will be required to report, on his or her federal income tax return for the year in which the sale occurs, additional compensation income equal to the difference between (i) the fair market value of the stock at the time of exercise of the option (or if less, the price at which the stock was sold) and (ii) the purchase price at which the stock was acquired (the Company will generally be entitled to a compensation deduction in an equivalent amount).

(b) For purposes of determining gain or loss upon sale of the stock when it is ultimately sold, an amount equal to this compensation income will be added to the purchase price at which the stock was acquired, and the total will be the holder's adjusted cost of the stock. Gain or loss will be determined, based upon the difference between this adjusted cost of the stock and the net proceeds of the sale, and the holder will be required to report such gain or loss as long-term or short-term (depending on how long the holder held the stock) capital gain or loss on his or her federal income tax return for the year in which the sale occurs.

When an optionee exercises an incentive stock option, the difference between the fair market value of the stock on the date of exercise and the purchase price paid results in an adjustment in computing alternative minimum taxable income for purposes of Sections 55 et seq. of the Code, which may trigger alternative minimum tax consequences for optionees. Any alternative minimum tax that is payable may ultimately be credited against future taxes owed.

The Company may grant nonqualified stock options under the 2003 Plan. In general, there will be no tax consequences to the optionee or the Company when such an option is granted. Upon exercise of such an option, the optionee will be required to report, on his or her federal income tax return for the year in which the exercise occurs, additional compensation income equal to the difference between the fair market value of the stock at the time of exercise of the option and the purchase price at which the stock was acquired (the Company will generally be entitled to a compensation deduction in an equivalent amount). The optionee will be subject to tax on this amount even if the option has been transferred to, and is subsequently exercised by, a Permitted Transferee. When the stock is ultimately sold, the transaction will be taxed in the manner described in subparagraph (b) above for incentive stock options.

If a holder realizes a gain on disposition of stock acquired through the exercise of an option and any portion of that gain is, under the rules described above, treated as a capital gain, then that gain may first be offset against any capital losses (or capital loss carryforwards) that the holder may have in the year of disposition. Any remaining net capital gain will be (a) long term capital gain, if the stock was held for more than one year, or (b) short-term capital gain, if the stock was held for one year or less. Certain preferential tax rates apply to long-term capital gains. Short-term capital gains are taxed at ordinary income tax rates.

The maximum tax rate applicable to long-term capital gains is generally 15% (the rate may be 5% for certain low-income taxpayers). The maximum individual rate (including surtaxes) applicable to short-term capital gains taxable as ordinary income is currently 35% (under the Jobs and Growth Tax Relief Reconciliation Act of 2003). In certain circumstances, due to the reduction of itemized deductions and personal exemptions

above certain income levels, the maximum effective tax rate on short-term capital gains earned by some holders may exceed the stated maximum marginal rates.

If a holder realizes a loss on disposition of stock acquired through the exercise of an option, the loss will be treated as a capital loss and may be offset against any capital gains the holder may have in the year of disposition. Any excess capital loss may be used to offset up to \$3,000 of the holder's ordinary income per year (for a single individual or a married couple filing jointly) and may be carried forward indefinitely until the entire loss has been so used.

This summary is not a complete description of the U.S. Federal income tax aspects of the 2003 Plan. Moreover, this summary relates only to Federal income taxes. There may also be Federal estate and gift tax consequences associated with the 2003 Plan, as well as foreign, state and local tax consequences.

The affirmative vote of a majority of the outstanding shares of common stock voted in person or by proxy at our 2003 Annual Meeting of Shareholders is required to approve the 2003 Stock Option Plan.

PROPOSAL 3 RATIFICATION OF THE SALE OF COMMON STOCK AND WARRANTS TO RALPH E. CRUMP AND MARJORIE L. CRUMP.

On April 22, 2003, as part of a \$750,000 private placement to six accredited investors, the Company sold an aggregate of 281,374 shares of the Company's common stock to two accredited investors, Ralph E. Crump and his wife, Marjorie L. Crump, for a total sale price of \$500,000. The

Edgar Filing: SI TECHNOLOGIES INC - Form DEF 14A

common stock was sold at its fair market value, which the Company calculated by taking the average of the closing price of the common stock as reported by NASDAQ for 20 trading days prior to the sale. The sale to Mr. and Mrs. Crump and the other investors in the private placement was made to provide the Company with needed working capital. Mr. Crump is the Chairman of the Board and Treasurer of the Company. The sale of common stock was made in reliance upon the private placement exemption contained in Section 4(2) of the Securities Act of 1933, as amended, and Rule 506 of Regulation D. In connection with this offering the Company also issued a five-year warrant to purchase 56,275 shares of Common Stock to Ralph E. Crump and five-year warrant to purchase 56,275 shares of Common Stock to Marjorie L. Crump. The warrants are immediately exercisable and have an exercise price of \$2.50 per share. The warrants also have a cashless exercise provision, which allows the holder to exercise the warrant by exchanging for the exercise price a number of shares of common stock having an aggregate fair market value on the date of exercise equal to the aggregate exercise price for the warrants the holder wishes to exercise. The sale of common stock and warrants to Ralph E. Crump and Marjorie L. Crump described above is referred to as the Transaction.

Edgar Filing: SI TECHNOLOGIES INC - Form DEF 14A

The table below illustrates the beneficial ownership of Ralph E. Crump and Marjorie L. Crump before and after the Transaction.

	Number of shares of common stock beneficially owned before the Transactions	Number of shares of common stock beneficially owned after the Transaction	Percentage of Beneficial ownership before the Transaction⁽¹⁾⁽²⁾	Percentage of Beneficial ownership after the Transaction⁽¹⁾⁽³⁾
Ralph E. Crump and Marjorie L. Crump	459,624(4)	853,548(5)	12.6%	20.6%

- (1) For purposes of this table, a person is deemed to have beneficial ownership of shares of common stock if such person or group has the right to acquire beneficial ownership of such shares within 60 days. For purposes of computing the percentage of outstanding shares held by each person or group of persons named above on a given date, any security which such person or persons has the right to acquire within 60 days after such date is deemed to be outstanding, but is not deemed to be outstanding for the purpose of computing the percentage ownership of any other person.
- (2) Based upon 3,579,953 shares issued and outstanding as of July 31, 2002.
- (3) Based upon 4,026,996 shares issued and outstanding as of July 31, 2003.
- (4) 203,562 shares of common stock are held of record in the name of Marjorie L. Crump. The remaining shares are held of record in the name of Ralph E. Crump. Also includes currently exercisable options to purchase 37,500 shares of common stock held by Ralph E. Crump. Ralph E. Crump and Marjorie L. Crump share voting and investment power with respect to all shares.
- (5) 344,229 shares of common stock and warrants to purchase 56,275 shares of common stock are held of record in the name of Marjorie L. Crump. The remaining shares are held of record in the name of Ralph E. Crump. Also includes currently exercisable options to purchase 47,500 shares of common stock and warrants to purchase 56,275 shares of common stock held by Ralph E. Crump. Ralph E. Crump and Marjorie L. Crump share voting and investment power with respect to all shares.

After the sale of common stock and warrants in the Transaction Mr. and Mrs. Crump will have beneficial ownership exceeding 20% of the outstanding common stock of the Company. Therefore, this constitutes a potential change of control of the Company, and shareholder approval for the Transaction is required. Until shareholder approval can be obtained, both Ralph E. Crump and Marjorie Crump have signed an agreement with the Company agreeing that they each will not exercise their warrants, purchase any shares of the Company's common stock without prior Company approval, sell, pledge or otherwise transfer any of the shares of common stock or warrants received in the Transaction, or exercise any securities convertible into, exchangeable for or that represent the right to receive shares of the Company's common stock, whether now owned or hereafter acquired. Ralph E. Crump and Marjorie L. Crump have also acknowledged that they will not receive any economic benefits from the shares of common stock or the warrants received in the Transaction until shareholder approval is obtained, and they have acknowledged that they will not be permitted to vote the 281,374 shares of common stock they received in the Transaction at the 2003 annual meeting of shareholders.

The Board of Directors has approved the sale of common stock and warrants to Ralph E. Crump and Marjorie L. Crump and believes it to be in the best interest of the Company and its shareholders, as it provided the Company with additional needed working capital. The Board recommends that the shareholders of the Company approve the Transaction.

In order for the Transaction to be approved, a majority of the votes cast on the proposal in person or by proxy must be cast in favor of the Transaction. The Company has agreed with Mr. and Mrs. Crump that, if the Transaction is not approved, the Company will repurchase 25,000 warrants from Mr. and Mrs. Crump at a price of \$.75 per warrant share to reduce their beneficial ownership percentage to less than 20%. If shareholder approval was not obtained, and this repurchase were to occur, Mr. and Mrs. Crump would be the beneficial owners of approximately 19.9% of the outstanding common stock of the Company.

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR APPROVAL OF THE TRANSACTION.

If the Common Stock (or other security) is not publicly traded, or if the Fair Market Value is not determinable by any of the foregoing means, the Fair Market Value on any day shall be determined in good faith by the Committee on the basis of such considerations as the Committee determines to be appropriate.

- (c) The assignment to the Holder of any duties inconsistent with the Holder's position at the time of the Approved Transaction, other than pursuant to the Holder's promotion;
- (d) A material reduction in the Holder's salary level;
- (e) A material reduction in the overall level of employee benefits or perquisites available to the Holder at the time of the Approved Transaction, or the Holder's right to participate therein, unless such reduction is nondiscriminatory as to the Holder;
- (f) Requiring the Holder to be based anywhere more than fifty (50) miles from the business location to which the Holder normally reported for work at the time of the Approved Transaction, other than for required business travel not significantly greater than the Holder's business travel obligations at the time of the Approved Transaction; or
- (g) Occurrence of any of the foregoing events and conditions before consummation of the Approved Transaction if the Holder reasonably demonstrates that such occurrence was at the request of a third party or otherwise arose in connection with or in anticipation of the Approved Transaction (for purposes of such demonstration, references in the foregoing events and conditions to the time of the Approved Transaction shall be deemed to refer to the time of commencement of discussions regarding the Approved Transaction).

ARTICLE 3

ADMINISTRATION

3.1 Committee. The Plan shall be administered by the Board unless the Board appoints a separate committee of the Board to administer the Plan pursuant to Section 3.2 (the Board, or such committee, if it is administering the Plan, will be referred to as the Committee). The Committee shall select one of its members as its chairman and shall hold its meetings at such times and places as it shall deem advisable. A majority of its members shall constitute a quorum and all determinations shall be made by a majority of that quorum. Any determination reduced to writing and signed by all of the members of the Committee shall be as effective as if it had been made by a majority vote at a meeting duly called and held.

3.2 Appointment of Committee. The Board may appoint a committee consisting of two or more of its members to administer the Plan. Once appointed, the committee shall continue to serve until otherwise directed by the Board. From time to time the Board may increase the size

Edgar Filing: SI TECHNOLOGIES INC - Form DEF 14A

of the committee and appoint additional members, remove members (with or without cause) and appoint new members in their place, fill vacancies however caused, and/or remove all members of the committee and thereafter directly administer the Plan.

3.3 Powers; Regulations. The Committee shall have full power and authority, subject only to the provisions of the Plan (a) to administer or supervise the administration of the Plan; (b) to interpret the provisions of the Plan and the Option Agreements; (c) to correct any defect, supply any information and reconcile any inconsistency in such manner and to such extent as it determines to be necessary or advisable to carry out the purpose of the Plan; and (d) to take such other actions in connection with the Plan as it determines to be necessary or advisable. The Committee is authorized to adopt, amend and rescind such rules, regulations and procedures not inconsistent with the provisions of the Plan as it determines to be necessary or advisable for the

proper administration of the Plan, and each Option shall be subject to all such rules, regulations and procedures (whether the Option was granted before or after promulgation thereof). Without limiting the authority of the Committee to interpret the provisions of the Plan, the Committee shall have the right to determine that a transaction (or series of related transactions) is not a Control Purchase, even though literally included within the definition of that term, if the Committee determines that the transaction (or series of related transactions) does not have the effect of significantly changing or influencing the control of the Company on a permanent basis.

3.4 Limits on Authority. Exercise by the Committee of its authority shall be consistent (a) with the intent that all Incentive Stock Options be qualified under the terms of Section 422 of the Code, and (b) with the intent that the Plan be administered in a manner so that, to the extent possible, the grant of Options and all other transactions with respect to the Plan, to Options and to any Common Stock acquired upon exercise of Options, shall be exempt from the operation of Section 16(b) of the Exchange Act.

3.5 Exercise of Authority. Each action and determination made or taken by the Committee, including but not limited to any interpretation of the Plan and the Option Agreements, shall be final, conclusive and binding for all purposes and upon all persons. No member of the Committee shall be liable for any action or determination made or taken by the member or the Committee in good faith.

ARTICLE 4

SHARES SUBJECT TO THE PLAN

4.1 Number of Shares. Subject to the provisions of this Article 4, the maximum number of shares of Common Stock for which Options may be granted during the term of the Plan shall be two hundred thousand (200,000). Shares of Common Stock will be made available from the authorized but unissued shares of the Company or from shares reacquired by the Company. If an Option terminates for any reason without having been exercised in full, the shares of Common Stock for which the Option has not been exercised shall again be available for purposes of the Plan.

4.2 Adjustments. If the Company subdivides its outstanding shares of Common Stock into a greater number of shares (by stock dividend, stock split, reclassification or otherwise) or combines its outstanding shares of Common Stock into a smaller number of shares (by reverse stock split, reclassification or otherwise), or if the Committee determines that any stock dividend, extraordinary cash dividend, reclassification, recapitalization, reorganization, split-up, spin-off, combination, exchange of shares, rights offering, or other transaction or event that is not an Approved Transaction or Control Purchase affects the Common Stock such that an adjustment is required in order to preserve the benefits or potential benefits intended to be made available under the Plan, then the Committee shall, in such manner as it determines to be equitable and appropriate, adjust any or all of (a) the number of shares of Common Stock (or number and kind of other securities or property) for which, and the time or times when, outstanding Options may thereafter be exercised; (b) the purchase price for the shares (or other securities or property) under outstanding Options; and (c) the number of shares of Common Stock (or number and kind of other securities or property) for which Options may thereafter be granted. In connection with any adjustment made pursuant to this Section 4.2, the Committee may, if deemed equitable and appropriate, provide for a cash payment to be made to the Holder of an Option, in cancellation of the Option, of such amount as the Committee determines represents the value the Option would then have if it were exercisable for all of the shares under the Option.

ARTICLE 5

ELIGIBILITY

The persons eligible to participate in the Plan and to receive Options (Eligible Persons) shall be persons who are performing or have been hired to perform Services for the Company or any of its Affiliates.

ARTICLE 6

STOCK OPTIONS

6.1 Grant of Options. The Committee shall from time to time determine (a) the Eligible Persons to whom Options are to be granted; (b) the number of shares of Common Stock for which the Options are exercisable and the purchase price of such shares; (c) whether the Options are Incentive Stock Options or Nonqualified Stock Options; and (d) all of the other terms and conditions (which need not be identical) of the Options; *provided, however*, that all such determinations shall be subject to the express limitations of the Plan.

6.2 Purchase Price. The price at which shares of Common Stock may be purchased upon exercise of an Option may be more than, less than or equal to the Fair Market Value of the shares on the date the Option is granted; *provided, however*, that the purchase price of each share of Common Stock under an Incentive Stock Option shall be (a) at least 110% of the Fair Market Value of such share on the date of grant of the Option, if it is granted to a 10% Shareholder, and (b) at least 100% of the Fair Market Value of such share on the date of grant of the Option, if it is granted to any other Eligible Person.

6.3 Limitations on Incentive Stock Options

(a) Grants Only to Employees. Incentive Stock Options may only be granted to Eligible Persons who are employees of the Company or an Affiliate that constitutes a parent corporation or a subsidiary corporation within the meaning of Section 424 of the Code.

(b) Limitation on Shares. The aggregate Fair Market Value of the shares of Common Stock for which, during any calendar year, one or more Incentive Stock Options under the Plan (and/or one or more options under any other plan maintained by the Company or any of its Affiliates for the granting of options intended to qualify under Section 422 of the Code) become exercisable for the first time by a Holder shall not exceed \$100,000 (said value to be determined as of the respective dates on which the options are granted to the Holder). If an Option that would otherwise qualify as an Incentive Stock Option becomes exercisable for the first time in any calendar year for shares of Common Stock that would cause such aggregate Fair Market Value to exceed \$100,000, then the portion of the Option in respect of such shares shall be deemed to be a Nonqualified Stock Option.

6.4 Term of Options. Subject to the provisions of the Plan with respect to termination of Options upon or following death, Disability or other termination of Service, the Committee shall determine the term of each Option, which term shall not be more than (a) five (5) years from the date of grant in the case of an Incentive Stock Option granted to a 10% Shareholder, and (b) ten (10) years from the date of grant in the case of any other Incentive Stock Option.

6.5 Option Agreement. Each Option shall be evidenced by an agreement (the Option Agreement) containing the terms and conditions of the Option as determined by the Committee. Each grantee of an Option shall be notified promptly of the grant, an Option Agreement shall be executed and delivered by the Company to the grantee within sixty (60) days after the date the Committee approves the grant, and the Committee may terminate the grant if the Option Agreement is not signed by the grantee and delivered to the Company within sixty (60) days after it is delivered to the grantee. An Option Agreement may contain (but shall not be required to contain) such terms and conditions as the Committee determines to be necessary or appropriate to ensure that the penalty provisions of Section 4999 of the Code will not apply to any stock received by the Holder from the Company. An Option Agreement may be amended from time to time pursuant to Section 7.5(c).

6.6 Exercise of Options

(a) Time Exercisable. An Option shall become and remain exercisable to the extent provided in its Option Agreement and in the Plan. However, if an Option is granted prior to the date its Holder first performs Service for the Company or any of its Affiliates, the Option shall not be exercisable prior to the date the Holder first performs such Service. If an Option is scheduled to become exercisable on one or more dates specified in its

Option Agreement, and its Holder has a leave of absence without pay, such date or dates shall be postponed for a period equal to the duration of the leave unless the Committee determines otherwise.

(b) Manner of Exercise. An Option shall be exercised by written notice to the Company in compliance with the terms and conditions of its Option Agreement and such procedures for exercise of Options as the Committee may adopt from time to time. The method or methods of payment of the purchase price of the shares to be purchased upon exercise of the Option and of any amounts required by Section 7.7 shall be determined by the Committee and set forth in the Option Agreement for the Option. Such method or methods may consist of (i) check, (ii) promissory note, (iii) whole shares of Common Stock already owned by the Holder, (iv) the withholding of shares of Common Stock issuable upon exercise of the Option, (v) the delivery, together with a properly executed exercise notice, of irrevocable instructions to a broker to deliver promptly to the Company the amount of sale or loan proceeds required to pay the purchase price, (vi) any combination of the foregoing methods of payment, or (vii) such other consideration and method of payment as may be permitted for the issuance of shares under applicable securities and other laws. The Committee may specify a minimum number of shares of Common Stock for which an Option must be exercised.

(c) Value of Shares. Shares of Common Stock delivered in payment of all or any part of the amounts payable upon exercise of an Option, and shares of Common Stock withheld for such payment, shall be valued at their Fair Market Value on the exercise date of the Option.

(d) Issuance of Shares. The Company shall issue the shares of Common Stock purchased under an Option as soon as practicable after the Option has been duly exercised; *provided, however*, that no fractional shares shall be issuable under the Plan, and any fractional shares that would otherwise be issuable shall be disregarded. Following exercise of an Incentive Stock Option, the Committee shall cause the information statement required by Section 6039 of the Code to be furnished to the Holder within the time and in the manner prescribed by law.

6.7 Legends. Each certificate representing shares of Common Stock issued upon exercise of an Option shall, unless the Committee otherwise determines, contain on its face the notice SEE TRANSFER RESTRICTIONS ON REVERSE and on its reverse a legend in form substantially as follows, together with any other legends that are required by the provisions of the Plan or that the Committee determines to be necessary or appropriate:

NOTICE: TRANSFER AND OTHER RESTRICTIONS

THE SECURITIES REPRESENTED BY THIS CERTIFICATE HAVE NOT BEEN REGISTERED UNDER THE SECURITIES ACT OF 1933, OR ANY STATE SECURITIES LAWS, AND MAY NOT BE OFFERED, SOLD, TRANSFERRED, ENCUMBERED, OR OTHERWISE DISPOSED OF EXCEPT UPON SATISFACTION OF CERTAIN CONDITIONS. INFORMATION CONCERNING THESE RESTRICTIONS MAY BE OBTAINED FROM THE CORPORATION. ANY OFFER OR DISPOSITION OF THESE SECURITIES WITHOUT SATISFACTION OF SAID CONDITIONS WILL BE WRONGFUL AND WILL NOT ENTITLE THE TRANSFEREE TO REGISTER OWNERSHIP OF THE SECURITIES WITH THE CORPORATION.

The Company may cause the transfer agent for the Common Stock to place a stop transfer order with respect to such shares.

6.8 Transferability. Except to the extent the Committee limits this Section 6.8 at the time a Nonqualified Stock Option is granted, the original Holder of the Option may transfer the Option to any Permitted Transferee, so long as the transfer is without value, and the Permitted Transferee may transfer the Option without value to any other Permitted Transferee of the original Holder. Neither (a) a transfer under a domestic relations

order in settlement of marital property rights, nor (b) a transfer to an entity in which more than fifty percent (50%) of the voting interests are owned by Permitted Transferees (or the original Holder) in exchange for an interest in that entity, will constitute a transfer for value. Except as expressly permitted by this Section 6.8, an Option (including any Incentive Stock Option) will not be transferable by its Holder other than by will or by the laws of descent and distribution, will not be involuntarily alienable by legal process or otherwise by operation of law, and will be exercisable during the Holder's lifetime only by the Holder. If the Holder of an Option dies prior to its full exercise, the Option may be exercised, to the extent it does not thereby terminate, by the person or persons to whom the rights of the Holder pass by will or by applicable laws of descent and distribution.

ARTICLE 7

GENERAL PROVISIONS

The provisions of this Article 7 shall apply to all Options, except to the extent that one or more Option Agreements expressly provide otherwise.

7.1 Termination of Service

(a) General. If a Holder's Service terminates without Cause prior to the full exercise of an Option, then the Option shall thereafter be exercisable, to the extent the Holder was entitled to exercise the Option on the date of such termination, for a period of three (3) months following such termination (but not later than the end of the term of the Option); *provided, however*, that, if the Holder's Service terminates by reason of death or Disability, the Option shall be exercisable for a period of one (1) year following such termination (but not later than the end of the term of the Option). At the end of such period, the Option shall terminate.

(b) Termination for Cause. If a Holder's Service is terminated for Cause, then all Options held by the Holder shall immediately terminate. Following termination of a Holder's Service, if the Holder engages in any act that would have constituted Cause if the Holder had remained in the Service of the Company or any of its Affiliates, then the Committee shall be entitled to terminate any Options held by the Holder.

(c) Miscellaneous. The Committee may determine whether a leave of absence of a Holder constitutes a termination of the Holder's Service; *provided, however*, that neither (i) a leave of absence, duly authorized in writing by the Company or any of its Affiliates for military service or sickness, or for any other purpose approved by the Company or any of its Affiliates, if the period of the leave does not exceed ninety (90) days, nor (ii) a leave of absence in excess of ninety (90) days, duly authorized in writing by the Company or any of its Affiliates, provided the Holder's right to return to Service with the Company or the Affiliate is guaranteed either by statute or by contract, shall be deemed a termination of the Holder's Service. An Option shall not be affected by any change in the Holder's Service so long as the Holder continues to be in the Service of the Company or any of its Affiliates. If a Holder is in the Service of an Affiliate of the Company that ceases to be an Affiliate, such event shall, for purposes of any Option held by the Holder, be deemed to constitute a termination of the Holder's Service for a reason other than death or Disability.

7.2 Certain Events

(a) Control Purchase. Effective upon a Control Purchase, if the Holder of an Option is in the Service of the Company or any of its Affiliates at that time, the Option shall automatically become exercisable for all of the shares under the Option.

(b) *Approved Transaction.* The following provisions shall apply if an Approved Transaction occurs:

(i) The Company shall provide each Holder with notice of the pendency of the Approved Transaction at least fifteen (15) days before the expected date of consummation thereof (the date on which the Approved Transaction is consummated will be referred to as the Transaction Date).

(ii) If the Approved Transaction is not an Equity-Based Approved Transaction, then the following provisions shall apply:

(A) Effective immediately before the Transaction Date, if the Holder of an Option is in the Service of the Company or any of its Affiliates on the Transaction Date, the Option shall automatically become exercisable for all of the shares under the Option.

(B) Following notice of the Approved Transaction, any exercise of an Option may be contingent upon consummation of the Approved Transaction, if so elected by the Holder in the notice of exercise, and shall be contingent upon such consummation with respect to any portion of the Option that will only become exercisable immediately before the Transaction Date.

(C) Upon consummation of the Approved Transaction, all Options shall terminate.

(iii) If the Approved Transaction is an Equity-Based Approved Transaction, then the following provisions shall apply:

(A) Whether or not the Holder of an Option is in the Service of the Company or any of its Affiliates on the Transaction Date, the exercisability of the Option shall not accelerate.

(B) The Company shall, or shall cause another party to the Approved Transaction to, either

(1) make appropriate provision for continuation of the Option, or for replacement of the Option with a new award on terms that are, as nearly as practicable, the financial equivalent of the Option, without taking into account in either event any automatic acceleration of exercisability provided for in Section 7.2(b)(ii)(A) (the Option as so continued or replaced shall be referred to as a Continuing Option); or

(2) deliver to the Holder equity securities of the Company or another party to the Approved Transaction (the Replacement Securities) having a value equal to the value of the Option on the Transaction Date, without taking into account any automatic acceleration of exercisability provided for in Section 7.2(b)(ii)(A).

(C) At the time the Holder is given notice of the pendency of the Approved Transaction under Section 7.2(b)(i) or in a separate notice given before the Transaction Date, the Committee shall inform the Holder of the provision to be made for a Continuing Option or for delivery of Replacement Securities. Effective automatically upon consummation of the Approved Transaction and without any action by the Holder, the Option shall represent the Continuing Option (if provision is made for a Continuing Option) or terminate (if Replacement Securities are to be delivered).

(c) Termination After Certain Approved Transactions. If there are one or more Continuing Options following an Approved Transaction and the Service of the Holder of a Continuing Option is terminated without Cause within a period of eighteen (18) months following the Transaction Date, or if the Holder voluntarily terminates his or her Service for Good Reason during such period, then (i) all Continuing Options held by the Holder shall become exercisable for all of the shares thereunder; (ii) all restrictions under the Plan or any Option Agreement with respect to Option Securities issued pursuant to exercise of any such Continuing Option (other than restrictions on transfer under applicable securities laws)

shall automatically terminate; and (iii) each such Continuing Option shall remain exercisable until a period of eighteen (18) months has elapsed following the Transaction Date or until the date on which the Continuing Option would have terminated if the Service of the Holder had not terminated, whichever occurs first, notwithstanding any contrary provision in the Option Agreement for the Continuing Option (other than one expressly providing that this Section 7.2(c) shall not apply).

7.3 Right to Terminate Service. Nothing contained in the Plan or in any Option Agreement, and no action of the Company or the Committee with respect thereto, shall confer on any Holder any right to continue in the Service of the Company or any of its Affiliates or interfere in any way with the right of the Company or any

of its Affiliates, subject to the terms and conditions of any agreement between the Holder and the Company or any of its Affiliates, to terminate at any time, with or without Cause, the Service of the Holder.

7.4 Nonalienation of Benefits. Except as permitted pursuant to Section 6.8, no right or benefit under the Plan or any Option shall be (a) subject to anticipation, alienation, sale, assignment, hypothecation, pledge, exchange, transfer, encumbrance or charge (and any attempt to anticipate, alienate, sell, assign, hypothecate, pledge, exchange, transfer, encumber or charge the same shall be void); or (b) liable for or subject to the debts, contracts, liabilities or torts of the person entitled to the right or benefit.

7.5 Termination and Amendment

(a) Termination. The Plan shall terminate on the tenth (10th) anniversary of the Effective Date; *provided, however*, that the Board or the Committee may terminate the Plan at any earlier time. No Options may be granted following termination of the Plan, but the provisions of the Plan shall continue in effect until all Options terminate or are exercised in full and all rights of all persons with any interest in the Plan expire.

(b) Amendment of Plan. The Board or the Committee may from time to time amend the Plan, whether before or after termination of the Plan, in such respects as it shall deem advisable; *provided, however*, that any such amendment (i) shall comply with all applicable laws and stock exchange listing requirements, and (ii) with respect to Incentive Stock Options granted or to be granted under the Plan, shall be subject to any approval by shareholders of the Company required under the Code. No amendment of the Plan may adversely affect the rights of the Holder of an Option in any material way unless the Holder consents thereto.

(c) Amendment of Options. The Committee may amend the Option Agreement for an Option in such respects as it shall deem advisable, including but not limited to any amendment that would accelerate the time or times at which the Option may be exercised or extend the scheduled termination date of the Option; *provided, however*, that (i) no amendment may adversely affect the rights of the Holder of the Option in any material way unless the Holder consents thereto, and (ii) the Option Agreement, as amended, shall satisfy all of the requirements of the Plan at the time of the amendment. Nothing in this Section 7.5 shall prevent the Committee from adopting, amending or rescinding rules, regulations and procedures pursuant to Section 3.3.

7.6 Government and Other Regulations. The obligation of the Company with respect to Options and the issuance of Common Stock upon the exercise thereof shall be subject to all applicable laws, rules and regulations and such approvals by any governmental agencies as may be required, including but not limited to the effectiveness of any registration statement required under the Securities Act, and the rules and regulations of any securities exchange or over-the-counter market on which the Common Stock may be listed or quoted. The Company shall have no obligation to register shares of Common Stock issuable upon exercise of Options under the Securities Act or to register, qualify or list such shares under the laws of any state or other jurisdiction or the rules of any securities exchange or over-the-counter market.

7.7 Withholding. By accepting an Option, the Holder shall be deemed to have agreed to pay, or make arrangements satisfactory to the Committee for payment to the Company of, all taxes required to be withheld by the Company in connection with the exercise of the Option or any sale, transfer or other disposition of any shares of Common Stock acquired upon exercise of the Option. If the Holder shall fail to pay, or make arrangements satisfactory to the Committee for the payment of, all such taxes, then the Company or any of its Affiliates shall, to the extent not prohibited by law, have the right to deduct from any payment of any kind otherwise due to the Holder an amount equal to any taxes of any kind required to be withheld by the Company or any of its Affiliates with respect to the Option.

7.8 Severability; Incentive Stock Option Provisions

(a) If any provision of this Plan or any Option Agreement, on its face or as applied to any person or circumstance, is or becomes unenforceable to any extent, the remainder of this Plan or the Option Agreement, as the case may be, and the application of the provision to any other person, circumstance or extent, shall not be affected, and this Plan and the Option Agreement shall continue in force.

(b) With respect to Incentive Stock Options, if the Plan does not contain any provision required to be included herein under Section 422 of the Code, such provision shall be deemed to be incorporated herein with the same force and effect as if such provision had been set out in full herein; *provided, however*, that to the extent any Option that is intended to qualify as an Incentive Stock Option cannot so qualify, the Option, to that extent, shall be deemed to be a Nonqualified Stock Option for all purposes of the Plan.

7.9 Plan Not Exclusive. Neither the adoption of the Plan by the Board nor any submission of the Plan to the shareholders of the Company for approval shall be construed as creating any limitations on the power of the Board to adopt such other incentive arrangements as it may deem desirable, including but not limited to the granting of stock options and the awarding of stock and cash outside of the Plan, and such arrangements may be either generally applicable or applicable only in specific cases.

7.10 Exclusion from Pension and Profit-Sharing Computation. By accepting an Option, the Holder shall be deemed to have agreed that the Option is special incentive compensation that will not be taken into account, in any manner, as salary, compensation or bonus in determining the amount of any payment or other benefit under any pension, retirement or other employee benefit plan, program or policy of the Company or any of its Affiliates.

7.11 No Shareholder Rights. No Holder or other person shall have any voting or other shareholder rights with respect to shares of Common Stock under an Option until the Option has been duly exercised, full payment of the purchase price has been made, all conditions under the Option and the Plan to issuance of the shares have been satisfied, and a certificate for the shares has been issued. No adjustment shall be made for cash or other dividends or distributions to shareholders for which the record date is before the date of such issuance.

7.12 Governing Law. The Plan and all Options shall be governed by, and interpreted in accordance with, the laws of the State of Delaware.

7.13 Company's Rights. The grant of Options shall not affect in any way the right or power of the Company to make reclassifications, reorganizations or other changes of or to its capital or business structure or to merge, consolidate, liquidate, sell or otherwise dispose of all or any part of its business or assets.
