QUESTIONS AND ANSWERS ABOUT THIS PROXY MATERIAL AND VOTING

Why am I receiving these materials?

We sent you this proxy statement and the enclosed proxy card because the Board of Directors of LightPath Technologies, Inc. is soliciting your proxy to vote at the Annual Meeting of Stockholders to be held on Thursday, November 1, 2007 at 10:00 a.m. (local time - EDT) at the Renaissance Orlando Airport Hotel. The address is 5445 Forbes Place, Orlando, FL 32812. You are invited to attend the Annual Meeting and we request that you vote on the proposals described in this proxy statement. However, you do not need to attend the meeting to vote your shares. Instead, you may simply complete, sign and return the enclosed proxy card.

We intend to mail this proxy statement and accompanying proxy card on or about October 1, 2007 to all stockholders of record entitled to vote at the Annual Meeting.

Who can vote at the Annual Meeting?

Only stockholders of record at the close of business on September 17, 2007 will be entitled to vote at the Annual Meeting. On this record date, there were 5,328,481 shares (including all restricted stock awards at such date) of Class A common stock (our only class of common stock) outstanding and entitled to vote.

Stockholder of Record: Shares Registered in Your Name

If on September 17, 2007, your shares were registered directly in your name with our transfer agent, Registrar & Transfer, then you are a stockholder of record. As a stockholder of record, you may vote in person at the meeting or vote by proxy. Whether or not you plan to attend the meeting, we urge you to fill out and return the enclosed proxy card to ensure your vote is counted. Even if you fill out and return your proxy, you may still vote in person if you are able to attend the meeting.

Beneficial Owner: Shares Registered in the Name of a Broker or Bank

If on September 17, 2007 your shares were held in an account at a brokerage firm, bank, dealer, or other similar organization, then you are the beneficial owner of shares held in street name and these proxy materials are being forwarded to you by that organization. The organization holding your account is considered the stockholder of record for purposes of voting at the Annual Meeting. As a beneficial owner, you have the right to direct your broker or other agent on how to vote the shares in your account. You are also invited to attend the Annual Meeting. However, since you are not the stockholder of record, you may not vote your shares in person at the meeting unless you request and obtain a valid proxy from your broker or other agent.

What am I voting on?

The only matters scheduled for a vote are as follows:

1. The election of one director (Class I director) to our Board of Directors; and
2. The approval of an amendment to our Amended and Restated Omnibus Plan.

A vote may also be held on any other business as may properly come before the Annual Meeting or any postponement or adjournment thereof, although there is no other business anticipated to come before the Annual Meeting.

How do I vote?

With regard to the election of directors, you may vote For the nominee listed or you may vote Against the nominee. For all other matters, you may vote For or Against or abstain from voting. The procedures for voting are as follows:

Stockholder of Record: Shares Registered in Your Name

If you are a stockholder of record, you may vote in person at the Annual Meeting or vote by proxy using the enclosed proxy card. Whether or not you plan to attend the meeting, we urge you to vote by proxy to ensure your vote is counted. You may still attend the meeting and vote in person if you have already voted by proxy.

To vote in person, come to the Annual Meeting and we will give you a ballot when you arrive.

To vote using the proxy card, simply complete, sign and date the enclosed proxy card and return it promptly in the envelope provided. If you return your signed proxy card to us before the Annual Meeting, we will vote your shares as you direct.

Beneficial Owner: Shares Registered in the Name of Broker or Bank

If you are a beneficial owner of shares registered in the name of your broker, bank, or other agent, you should have received a proxy card and voting instructions with these proxy materials from that organization rather than from LightPath. Simply complete and mail the proxy card to ensure that your vote is counted. To vote in person at the Annual Meeting, you must obtain a valid proxy from your broker, bank, or other agent. Follow the instructions from your broker or bank included with these proxy materials, or contact your broker or bank to request a proxy form.

How many votes do I have?

On each matter to be voted upon, you have one vote for each share of common stock you own as of September 17, 2007.

What if I return a proxy card but do not make specific choices?

If you return a signed and dated proxy card without marking any voting selections, your shares will be voted For all proposals outlined in this Proxy. If any other matter is properly presented at the meeting, your proxy (one of the individuals named on your proxy card) will vote your shares using his or her best judgment.

Who is paying for this proxy solicitation?

LightPath will pay for the entire cost of soliciting proxies. In addition to these mailed proxy materials, our directors and employees may also solicit proxies in person, by telephone, or by other means of communication. Directors and employees will not be paid any additional compensation for soliciting proxies. We will also reimburse brokerage firms, banks and other agents for the cost of forwarding proxy materials to beneficial owners.

What does it mean if I receive more than one proxy card?

If you receive more than one proxy card, your shares are registered in more than one name or are registered in different accounts. Please complete, sign and return **each** proxy card to ensure that all of your shares are voted.

What is householding ?

The Securities and Exchange Commission has adopted rules that permit companies and intermediaries such as brokers to satisfy the delivery requirements for proxy statements with respect to two or more security holders sharing the same address by delivering a single proxy statement addressed to those security holders. This process, which is commonly referred to as householding, potentially means convenience for security holders and cost savings for companies.

A number of brokers with account holders who are LightPath stockholders will be householding our proxy materials. A single proxy statement will be delivered to multiple stockholders sharing an address unless contrary instructions have been received from the affected stockholders. Once you have received notice from your broker or us that they will be householding communications to your address, householding will continue until you are notified otherwise or until you revoke your consent. If, at any time, you no longer wish to participate in householding and would prefer to receive a separate proxy statement, please notify your broker and also notify us by sending your written request to Investor Relations, LightPath Technologies, Inc., 2603 Challenger Tech Court, Suite 100, Orlando, Florida USA 32826 or by calling Investor Relations at 407-382-4003, ext. 314. Stockholders who currently receive multiple copies of the proxy statement at their address and would like to request householding of their communications should also contact their broker and notify us in writing or by telephone.

Can I revoke or change my vote after submitting my proxy?

Yes. You can revoke your proxy at any time before the final vote at the meeting. You may revoke your proxy in any one of three ways:

You may submit another properly completed proxy card with a later date.

You may send a written notice that you are revoking your proxy to LightPath's Secretary at 2603 Challenger Tech Court, Suite 100, Orlando, Florida USA 32826.

You may attend the Annual Meeting and vote in person. Simply attending the meeting will not, by itself, revoke your proxy.

How are votes counted?

Votes will be counted by the inspector of elections appointed for the meeting, who will separately count For, Against and Withhold Authority votes, abstentions and broker non-votes. A broker non-vote occurs when a nominee/broker holding shares for a beneficial owner does not vote on a particular proposal because the nominee/broker does not have discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner. Abstentions will be counted towards the vote total for each proposal, and will have the same effect as Against votes. Broker non-votes are counted towards a quorum, but are not counted for any purpose in determining whether a matter has been approved.

How many votes are needed to approve the proposals?

With regard to Proposal No. 1 (election of directors), the nominee receiving a plurality of the votes cast at the meeting will be elected as director of the Company. A properly executed proxy marked Withhold Authority with respect to the election of the director will not be voted with respect to the director indicated, although it will be counted for purposes of determining whether there is a quorum.

To be approved, Proposal No. 2 (approval of amendment to Amended and Restated Omnibus Incentive Plan) must receive For votes from holders of a majority of the shares

represented and voted at the meeting. If you Abstain from voting, it will have the same effect as an Against vote. Not voting on these proposals, including broker non-votes, has no effect on the outcome.

What is the quorum requirement?

A quorum of stockholders is necessary to hold a valid meeting. A quorum will be present if at least a majority of the outstanding shares of Class A common stock entitled to vote is represented by votes at the meeting or by proxy. On the record date, there were 5,328,481 outstanding shares (including all restricted stock awards at such date) entitled to vote. Thus 2,664,242 must be represented by votes at the meeting or by proxy to have a quorum.

Your shares will be counted towards the quorum only if you submit a valid proxy vote or vote at the meeting. Abstentions and broker non-votes will be counted towards the quorum requirement. If there is no quorum, a majority of the votes present at the meeting may adjourn the meeting to another date.

How can I find out the results of the voting at the Annual Meeting?

Preliminary voting results will be announced at the Annual Meeting. LightPath will subsequently either include the final voting results in its quarterly report on Form 10-Q or issue a general press release after the meeting indicating whether the stockholders have approved the proposals or not.

When are stockholder proposals for the 2008 Annual Meeting due?

Stockholders interested in presenting a proposal to be considered for inclusion in next year's proxy statement and form of proxy may do so by following the procedures prescribed in Rule 14a-8 under the Securities Exchange Act of 1934, as amended (the Securities Exchange Act), and the Company's By-laws. To be considered for inclusion, stockholder proposals must be submitted in writing to the Corporate Secretary, LightPath Technologies, Inc., 2603 Challenger Tech Court, Suite 100, Orlando, Florida USA 32826 before June 3, 2008, which is 120 calendar days prior to the anniversary of the mailing date of this proxy statement, and must be in compliance with all applicable laws and regulations.

If a stockholder wishes to present a proposal at the 2008 Annual Meeting, but the proposal is not intended to be included in the Company's proxy statement relating to the meeting, the stockholder must give advance notice to the Company prior to the deadline for such meeting determined in accordance with the By-laws (the By-law Deadline). Under the Company's By-laws, in order for a proposal to be timely, it must be received by the Company no later than 60 days, nor earlier than 90 days, prior to the annual meeting date. If a stockholder gives notice of such a proposal after the By-law Deadline, the stockholder will not be permitted to present the proposal to the stockholders for a vote at the meeting.

Furthermore, Rule 14a-4 under the Securities Exchange Act also establishes a different deadline for submission of stockholder proposals that are not intended to be included in the Company's proxy statement with respect to discretionary voting (the Discretionary Vote Deadline). The Discretionary Vote Deadline for the 2008 Annual Meeting is August 17, 2008

(45 calendar days prior to the anniversary of the mailing date of this proxy statement). If a stockholder gives notice of such a proposal after the Discretionary Vote Deadline, the Company's proxy holders will be allowed to use their discretionary voting authority to vote against the stockholder proposal when and if the proposal is raised at the 2008 Annual Meeting. A properly submitted proposal received after the Discretionary Vote Deadline but before the By-law Deadline would be eligible to be presented at the annual meeting, however, the Company believes that its proxy holders would be allowed to use the discretionary authority granted by the proxy card to vote against the proposal at the meeting without including any disclosure of the proposal in the proxy statement relating to such meeting.

How do I get a copy of the exhibits filed with the Company's Form 10-K?

A copy of the Company's Annual Report for 2007, which contains the Company's Form 10-K for the fiscal year ended June 30, 2007, and consolidated financial statements, has been delivered to you with this proxy statement. We will provide to any stockholder as of the Record Date, who so specifically requests in writing, a copy of the exhibits filed with the Company's Form 10-K. Requests for such copies should be directed to Investor Relations at 2603 Challenger Tech Court, Suite 100, Orlando, Florida USA 32826. In addition, copies of all exhibits filed electronically by the Company may be reviewed and printed from the Securities and Exchange Commission (SEC) website at <http://www.sec.gov> under the EDGAR archives section.

Where can I get information regarding how to send communications to the Board of Directors and the Company's policy regarding Board member's attendance at annual meetings?

The Board of Directors provides a process for stockholders to send communications to the Board of Directors and has adopted a policy regarding Board member's attendance at annual meetings. Information regarding these matters is contained on our website at <http://www.lightpath.com> under Investor Relations, FAQs, questions number 9 and 10.

The Compensation Committee can exercise its discretion in modifying any recommended adjustments or awards to executive officers.

The Company's compensation policy is designed to attract and retain qualified key executives critical to the Company's achievement of reaching profitability and positive cash flow, and subsequently, its growth and long-term success. It is the objective of the

Compensation Committee to have a portion of each executive officer's compensation contingent upon the Company's performance as well as upon the individual's personal performance. Accordingly, each executive officer's compensation package is comprised of two elements: (i) base salary, which reflects individual performance and expertise, and (ii) variable current bonus awards payable in cash or stock-based incentive awards and tied to the achievement of certain performance goals that the Compensation Committee establishes from time to time for the Company. Based on the foregoing objectives, the Compensation Committee has structured the Company's annual and long-term incentive-based cash and non-cash executive officer compensation to motivate executive officers to achieve the business goals set by the Company and reward the executive officers for achieving such goals.

Finance Committee. The Finance Committee, which consisted of Robert Bruggeworth, (Chairman), Louis Leeburg and Robert Ripp, met three times during fiscal year 2007. Mr. Bruggeworth has decided not to seek an additional term when his term expires on October 31, 2007. Upon the expiration of Mr. Bruggeworth's term, the Finance Committee will not have a chairman. The Finance Committee reviews and provides guidance to the Board of Directors and management with respect to the Company's significant financial policies. The full Board of Directors performed these functions in fiscal year 2007 especially with regard to matters having to do with the Company's financing transactions concluded in July 2007.

Technical Advisory Committee. In fiscal year 2002, the Board of Directors authorized the creation of a Technical Advisory Committee, which committee periodically reviews the Company's products and technologies. Dr. Steven Brueck serves as chairman of the Technical Advisory Committee, which did not meet in fiscal years 2007, 2006 and 2005. No other Board members serve on the Technical Advisory Committee.

All current committee members, other than Mr. Bruggeworth, are expected to be nominated for re-election to the same committees at a Board of Directors meeting to be held immediately following the Annual Meeting.

Nominations Process and Criteria

The Board of Directors has not considered it necessary to form a committee of the Board of Directors specifically for governance or nomination matters due to the modest scope of the Company. When a governance or nominating matter is brought to the Board of Directors for consideration, the full Board of Directors will meet to review the matter and take the appropriate action by the full Board of Directors or a subset of independent directors thereof. The Board of Directors has determined that each current director meets the independence criteria for members of a nominating committee as set forth in the applicable rules of the Nasdaq Capital Market and the SEC.

Additionally, the Board of Directors believes it is not necessary to adopt criteria for the selection of directors. The Board of Directors believes that the desirable background of a new individual member of the Board of Directors may change over time and that a thoughtful, thorough process for the selection is more important than adopting criteria for directors. The Board of Directors is fully open to utilizing whatever methodology is efficient in identifying new, qualified directors when needed, including using industry contacts of the Company's directors or professional search firms.

Any shareholder wishing to propose that a person be nominated for or appointed to the Board of Directors may submit such a proposal, according to the procedure described in the shareholder proposal section on page 5 of the question and answers, to:

Corporate Secretary

LightPath Technologies, Inc.

2603 Challenger Tech Court, Suite 100

Orlando, Florida 32826

Such correspondence will be timely forwarded to the Chairman of the Audit Committee for review and consideration in accordance with the criteria described above.

Director Independence

In accordance with Nasdaq Capital Market and SEC rules, the Board affirmatively determines the independence of each director and nominee for election as a director in accordance with guidelines it has adopted, which include all elements of independence set forth in the Nasdaq Capital Market listing standards. Based on these standards, the Board has determined that each of the following non-employee directors is independent and has no relationship with the Company, except as a director and stockholder of the Company:

Robert Ripp	Steven Brueck
Robert Bruggeworth	Gary Silverman
Louis Leeburg	Sohail Khan

The Board of Directors approved a Code of Business Conduct and Ethics on May 3, 2004. The Code applies to the Chief Executive Officer, senior financial officers and the Board of Directors. A copy of the Code is posted on the Company's website at www.lightpath.com.

Related Transactions

Since July 1, 2006, the Company has not entered into any transaction, nor is there any currently proposed transaction, in which the Company was or is to be a participant and the amount involved exceeds \$120,000, and in which any executive officer, any director, any nominee for director or any family member of the foregoing had or will have a direct or indirect material interest. Before the Company would consider entering into any transaction in which any executive officer, director, nominee or any family member of the foregoing would have any direct or indirect interest, regardless of the amount involved, the terms of such transaction would have to be presented to the full Board of Directors (other than any interested director) for approval.

Appointment of Independent Auditors

On December 12, 2006, the Board of Directors approved the dismissal of its independent registered public accounting firm KPMG LLP (KPMG). KPMG has audited the Company's financial statements since its appointment in fiscal year 1997 through fiscal year 2006. KPMG was the principal accountant of the registrant's financial statements for the fiscal years ended June 30, 2006 and 2005. KPMG's report on the financial statements for the fiscal years ended June 30, 2006 and 2005 did not contain an adverse opinion or disclaimer of opinion, nor were they modified or qualified as to uncertainty, audit scope or accounting principles.

In connection with the audits for the fiscal years ended June 30, 2006 and 2005 and through December 12, 2006, there were no disagreements with KPMG on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreements, if not resolved to the satisfaction of KPMG would have caused them to make reference in connection with their opinion to the subject matter of the disagreement.

As previously reported and as discussed under Item 9A of the Company's Annual Report on Form 10-K for the year ended June 30, 2006, management identified the following material weaknesses in the Company's internal control over financial reporting: financial reporting issues concerning supervision of the accounting staff and footnote disclosures for stock based compensation, revenue recognition, inventory and accrued liabilities. Significant deficiencies also were reported in internal controls surrounding the Company's policies and procedures related to payroll processing and fixed assets.

During the year ended June 30, 2007, management made some progress in remediating certain aspects of the deficiencies reported, specifically by adopting policies and procedures related to payroll processing and fixed assets of accrued liabilities. However, other aspects of the deficiencies reported in inventory and accrued liabilities are still in the remediation process and have remained as a material weakness. Except for the matters described above, there are no reportable events under Item 304(a)(1)(v) of Regulation S-K promulgated under the Securities Exchange Act of 1934, as amended (Regulation S-K) that occurred during the fiscal years ended June 30, 2006 and 2005 and through December 12, 2006. An authorized officer of the Company has discussed the material weaknesses described above with KPMG, and the Company has authorized KPMG to respond fully to the inquiries of Cross, Fernandez & Riley, LLP (CFR) concerning the subject matter of the material weaknesses described above.

On December 12, 2006, the Board of Directors appointed CFR, an independent member of the BDO Seidman Alliance network of firms, as the new independent registered public accounting firm to audit the Company's financial statements. There were no discussions between the Company and CFR regarding the application of accounting principles to specific completed or contemplated transactions, or the type of audit opinion that might be rendered on the Company's financial statements. Furthermore, no written or oral advice was provided by CFR that was an important factor considered by the Company in reaching a decision as to any accounting, auditing or financial reporting issue. The Company has not consulted with CFR regarding any matter that was either the subject of a disagreement (as defined in paragraph (a)(1)(iv) of Item 304 of Regulation S-K and the related instructions to this item) or a reportable event (as described in paragraph (a)(1)(v) of Item 304 of Regulation S-K).

Representatives of CFR are expected to be present at the Annual Meeting, and will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

The following table presents fees paid or to be paid for professional audit services rendered by KPMG and CFR for the audit of the Company's annual financial statements during the years ended June 30, 2007 and 2006, and fees billed for other services rendered by KPMG:

	Fiscal 2007	Fiscal 2006
KPMG Audit Fees (1)	\$ 21,000	\$ 261,000
CFR Audit Fees (1)	103,000	
KPMG Audit-Related Fees (2)		8,000
Tax Fees		
All Other Fees		
 Total All Fees	 \$ 124,000	 \$ 269,000

- (1) Audit Fees consisted of fees billed for professional services rendered for the audit of the Company's annual financial statements and review of the interim financial statements included in quarterly reports.
- (2) Audit-Related Fees consisted principally of a review of registration statements and the issuance of accountants' consent thereto. The Audit Committee has adopted policies and procedures to oversee the external audit process including engagement letters, estimated fees and solely pre-approving all permitted non-audit work performed by KPMG or CFR. The Audit Committee has pre-approved all fees for work performed.

The Audit Committee has considered whether the services provided by KPMG or CFR as disclosed above in the captions "Audit-Related Fee" and "All Other Fees" and has concluded that such services are compatible with the independence of KPMG or CFR as the Company's principal accountant.

For the fiscal years 2007 and 2006, the Audit Committee pre-approved all services described above in the captions "Audit Fees", "Audit-Related Fees", "Tax Fees" and "All Other Fees".

AUDIT COMMITTEE REPORT

The Audit Committee is responsible for, among other things, reviewing and discussing the Company's audited financial statements with management, discussing with the Company's independent auditors information relating to the auditors' judgments about the quality of the Company's accounting principles, recommending to the Board of Directors that the Company include the audited financial statements in its Annual Report on Form 10-K and overseeing compliance with the Securities and Exchange Commission requirements for disclosure of auditors services and activities. At the recommendation of the Audit Committee, the Board of Directors first approved a charter for the Audit Committee on November 14, 2000, which was subsequently revised and approved by the Board on May 10, 2004.

Review Of Audited Financial Statements

The Audit Committee has reviewed the Company's financial statements for the fiscal year ended June 30, 2007, as audited by Cross, Fernandez and Riley, LLP, the Company's independent auditors, and has discussed these financial statements with management. In addition, the Audit Committee has discussed with Cross, Fernandez and Riley, LLP the matters required to be discussed by Statements of Auditing Standards 61 and 90, as may be modified or supplemented. Furthermore, the Audit Committee has received the written disclosures and the letter from Cross, Fernandez and Riley, LLP required by the Independence Standards Board Standard No. 1, as may be modified or supplemented, and has discussed with Cross, Fernandez and Riley, LLP its independence.

Generally, the members of the Audit Committee are not professionally engaged in the practice of auditing or accounting and are not experts in the fields of accounting or auditing, or in determining auditor independence. However, the Board of Directors has determined that each member of the Audit Committee meets the independence criteria set forth in the applicable rules of NASDAQ and the SEC, and that at least one member of the Audit Committee, Mr. Leeburg, is an audit committee financial expert as defined by SEC rules. Members of the Audit Committee rely, without independent verification, on the information provided to them and on the representations made by management. Accordingly, the Audit Committee's oversight does not currently provide an independent basis to determine that management has maintained procedures designed to assure compliance with accounting standards and applicable laws and regulations.

Recommendation

Based upon the foregoing review and discussion, the Audit Committee recommended to the Board of Directors that the audited financial statements for the fiscal year ended June 30, 2007, be included in the Company's Annual Report on Form 10-K for such fiscal year.

Unless otherwise indicated, each person has sole investment and voting power (or shares such power with his or her spouse) with respect to the shares set forth in the following table. In certain instances, the number of shares listed may include, in addition to shares owned directly, shares held by the spouse or children of the person, or by a trust or estate of which the person is a trustee or an executor or in which the person may have a beneficial interest. The table that follows is based upon information supplied by the executive officer, directors and principal stockholders and a Schedule 13G filed with the SEC.

Restricted Stock, as presented in this proxy statement, is subject to time-based vesting conditions wherein the grantee does not have free and unfettered ownership, without a substantial risk of forfeiture, unless and until the vesting conditions have been met. Therefore, these shares are still subject to such vesting conditions and the certificates have not been issued.

3 - Does not include 7,812 shares of Class A common stock and warrants to purchase 15,000 shares of Class A common stock which are owned by trusts for Mr. Ripp's adult children and for which he disclaims beneficial ownership. Warrants owned by the trusts for his children are fully exercisable at a price of \$48.00 per share. With respect to Mr. Ripp's warrants, 20,156 are exercisable at \$48.00 per share and 100,000 are exercisable at \$3.20 per share.

Information with regard to Restricted Stock Awards held by Officers at September 24, 2007

The Company's restricted stock grants have been made under the terms of its Amended & Restated Omnibus Incentive Plan (the "Plan"). Upon the making of a grant, the receiving employee (or director) has legal title to the stock for the purposes of voting the shares and receiving dividends on the shares, if any. The grants provide for a time-based vesting period during which the employee bears a substantial risk of forfeiture should he not remain employed by or associated with the Company. This risk of forfeiture allows the holder to electively choose to file a timely 83b election with the IRS and pay income and employment taxes on the value of the grant at the time of the making of the grant. Should the employee not make a timely 83b election, he shall be taxed upon the then current value of the shares at the time the shares in the grant vest. Upon vesting of the stock in a grant, the employee no longer risks losing the shares should he subsequently leave the employ of the Company. However, should the individual remain an executive officer or other Section 16 insider after the vesting event, such individual continues to have restrictions imposed with regard to the sale or other disposition of the shares by both the Company and by various insider trading rules imposed upon Section 16 insiders of public companies.

(1) Restricted Stock Held is stock for which the vesting conditions have not yet been met as of September 24, 2007 pursuant to the agreements under which they are granted by the Compensation Committee of the Board of Directors.

(2) Valued at the September 24, 2007 closing price of the Company's Class A common stock on the Nasdaq Stock Market (\$3.75 per share) without discount for lack of marketability.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act requires the Company's executive officers and directors and persons who own more than 10% of the Company's Class A common stock to file reports of ownership and changes in ownership with the SEC and furnish copies of such reports to the Company. The SEC has also designated specific due dates for such reports and the Company must identify in this proxy statement those persons who did not properly file such reports when due. To the best of the Company's knowledge, all required filings in fiscal year 2007 were properly made in a timely fashion. In making the above statements, the Company has relied solely on its review of copies of the reports furnished to the Company and written representations from certain reporting persons.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Overview of Compensation Program

The Compensation Committee of the Company's Board of Directors has responsibility for establishing, implementing and continually monitoring adherence with the Company's compensation philosophy. The Compensation Committee ensures that the total compensation paid to the executive leadership team is fair, reasonable and competitive.

Throughout this proxy statement, the individuals who served as the Company's Chief Executive Officer and Chief Financial Officer during fiscal 2007, as well as the other individuals included in the Summary Compensation Table on page 26, are referred to as the executive officers.

Compensation Philosophy and Objectives

The Company's compensation policy is designed to attract and retain qualified key executive officers critical to the Company's achievement of reaching profitability and positive cash flow, and subsequently, its growth and long-term success. It is the objective of the Compensation Committee to have a portion of each executive officer's compensation contingent upon the Company's performance as well as upon the individual's personal performance. Accordingly, each executive officer's compensation package is comprised of two elements: (i) base salary, which reflects individual performance and expertise and (ii) variable current bonus awards payable in cash or stock awards, which is tied to the achievement of certain performance goals that the Compensation Committee establishes from time to time for the Company.

In certain periods, the compensation of executive officers is also affected by internal conditions of the Company and the external market position of the Company. A more detailed description of the factors that the Board considers in establishing the components of base salary and incentive compensation for executive officer's compensation packages is included below.

Role of Executive Officers in Compensation Decisions

The Compensation Committee makes all compensation decisions for the executive officers and approves recommendations regarding equity awards to all executive officers of the Company. The Chief Executive Officer annually reviews the performance of each of the executive officers. The conclusions reached and recommendations based on these reviews, including with respect to salary adjustments and annual award amounts, are presented to the Compensation Committee. The Compensation Committee can exercise its discretion in modifying any recommended adjustments or awards to executive officers.

Setting Executive Compensation

Based on the foregoing objectives, the Compensation Committee has structured the Company's annual and long-term incentive-based executive officer's compensation to motivate executives to achieve the business goals set by the Company and reward the executive officers for achieving such goals. In making compensation decisions, the Compensation Committee compares each element of total compensation against other manufacturing companies located in Central Florida and its competitors.

The Company competes with many larger companies for top executive-level talent. The Compensation Committee generally sets the compensation for executive officers based on their experience level and market factors. These objectives recognize the Committee's expectation that, over the long term, LightPath will continue to generate stockholder returns in excess of the average of its competition.

A percentage of total compensation is allocated to incentives as a result of the philosophy mentioned above. There is no pre-established policy or target for the allocation between either cash and non-cash or short-term and long-term incentive compensation. Rather, the Compensation Committee reviews information to determine the appropriate level and mix of incentive compensation. Income from such incentive compensation is realized as a result of the performance of the Company or the individual, depending on the type of award, compared to established goals.

2007 Executive Compensation Components

For the fiscal year ended June 30, 2007, the principal components of compensation for executive officers were:

Base salary;

Variable bonus awards;

Perquisites and other personal benefits.

Base Salary

The level of base salary of executive officers is established primarily on the basis of the individual's qualifications and relevant experience, the strategic goals for which he or she has responsibility, the compensation levels at companies which compete with the Company for business and executive talent, and the incentives necessary to attract and retain qualified management. Base salary is set each year to take into account the individual's performance and to maintain a competitive salary structure.

During its review of base salaries for executive officers, the Compensation Committee primarily considers:

Market data;

Internal review of the executive officer's compensation, both individually and relative to other executive officers; and

Individual performance of the executive officer.

Salary levels are typically considered annually as part of the Company's performance review process as well as upon a promotion or other change in job responsibility. Merit based increases to salaries of members of the executive leadership are based on the Committee's assessment of the individual's performance.

Variable Bonus Awards

The management incentive plans give the Compensation Committee the latitude to design cash and stock-based incentive compensation programs to promote high performance and achievement of corporate goals by directors and key employees, encourage the growth of stockholder value and allow key employees to participate in the long-term growth and profitability of the Company. The Company currently has approximately 93 employees (including the executive officers) and non-employee directors who are eligible to receive awards under this programs

The Compensation Committee may grant participants restricted shares of the Company's Common Stock or stock options under the Omnibus Amended and Restated Incentive Plan. In granting these awards, the Compensation Committee may establish any conditions or restrictions it deems appropriate. In addition, the Chief Executive Officer has discretionary authority to grant restricted shares or stock options under the Omnibus Amended and Restated Incentive Plan to certain high-performing employees or newly hired employees up to 5,000 shares per award. Awards of restricted stock or stock options vest between immediate and four years after the date of the grant. All awards of restricted stock or stock options subject to Section 16(b) of the Securities Act of 1933 require the approval of the Compensation Committee.

Options are awarded at the closing price of the Company's common stock on the date of the grant, as determined by NASDAQ. The Compensation Committee has never granted options with an exercise price that is less than the closing price of the Company's common stock on the grant date, nor has it granted options which are priced on a date other than the grant date.

The majority of the options granted by the Compensation Committee vest at a rate of 25% per year over the first four years of the ten-year option term. Vesting and exercise rights cease ninety days after termination of employment, except in the case of death (subject to a one year limitation), disability or retirement. Prior to the exercise of an option, the holder has no rights as a stockholder with respect to the shares subject to such option, including voting rights and the right to receive dividends or dividend equivalents.

All awards of stock options under the aforementioned programs are made at or above the market price at the time of the award. Annual awards of stock options to executive officers are made at the Compensation Committee's regularly scheduled meeting in October. Newly hired or promoted employees, other than executive officers, receive their award of stock options on the day of their hire, promotion or review. Grants of stock options to newly hired executive officers who are eligible to receive them are made on their hire date.

In September 2003, the Company announced its annual incentive bonus plan. The plan provides guidelines for the calculation of annual incentive based compensation, subject to Compensation Committee oversight and modification. At its October meeting each year, the Compensation Committee considers whether an annual bonus plan should be established for the succeeding year and, if so, approves the group of employees eligible to participate in the plan for that year. The plan includes various incentive levels based on the participant's accountability and impact on Company operations, with target award opportunities that are established as a percentage of base salary. These targets range up to 50% of base salary for the Company's employees. The plan is divided into four levels: level 1 is for the Chief Executive Officer, level 2 is for the vice presidents, level 3 is for managers and level 4 is for all other employees. The plan award is based upon achievement of corporate financial objectives relating to revenue, gross margins and cash flow, with each component accounting for 20%, 30% and 50%, respectively, of the total corporate financial objective portion of the plan award.

In October of each year, the Compensation Committee sets minimum, target and maximum levels for each component of the corporate financial objective portion of the plan. Payment of awards under the plan are based upon the achievement of such objectives for the current year. Participants in the plan receive:

no payment for the corporate financial objective portion of the plan award unless the Company achieves the minimum performance level (as computed for the total corporate financial objective portion);

a payment of less than 100% of the target award opportunity for the corporate financial objective portion of the plan award if the Company achieves or exceeds the minimum performance level but does not achieve the target performance level;

a payment of at least 100% but less than 133% of the target award opportunity for the corporate financial objective portion of the plan award if the Company achieves or exceeds the target performance level but does not attain the maximum performance level.

Upon completion of the fiscal year, the Compensation Committee assesses the performance of the Company for each corporate financial objective of the plan comparing the actual fiscal year results to the pre-determined minimum, target and maximum levels for each objective and an overall percentage amount for the corporate financial objectives is calculated. For fiscal 2007, the Compensation Committee did not set any targets. The Compensation Committee plans to evaluate the actual financial results for fiscal 2007 and determine if any awards should be made. The Committee also has the discretion to award restricted stock or stock options to deserving employees whom may have not met the corporate targets but have contributed to the success of the Company.

The payout percentage over the past two years has been zero. Stock options awarded to named executive officers, not including the Chief Executive Officer, against fiscal year 2005 goal achievement aggregated a total of 12,856 shares. The options were granted on August 5, 2005 with an exercise price of \$2.80 per share and a three-year vesting period.

Restricted stock units awarded to executive officers against the 2006 goal achievement aggregated a total of 10,000 shares. The restricted stock units were awarded on August 3, 2006 at a value of \$3.79 per share.

Generally, the Compensation Committee sets the minimum, target and maximum levels such that the relative difficulty of achieving the target level is consistent from year to year.

Perquisites and Other Personal Benefits

The Company provides executive officers with perquisites and other personal benefits that the Company and the Compensation Committee believe are reasonable and consistent with its overall compensation program to better enable the Company to attract and retain superior employees for key positions. The Compensation Committee periodically reviews the levels of perquisites and other personal benefits provided to executive officers.

The executive officers are provided similar benefits as all employees including health and dental insurance, short term disability, long term disability and matching 401k monies.

Attributed costs of the personal benefits described above for the executive officers for the fiscal year ended June 30, 2007, are included in column (i) of the Summary Compensation Table on page 26.

The Company has entered into Change of Control Severance Agreements with certain key employees, including the executive officers. The Change of Control Severance Agreements are designed to promote stability and continuity of senior management. Information regarding applicable payments under such agreements for the executive officers is provided under the heading Payments Made Upon a Change of Control on page 37.

Tax and Accounting Implications

Deductibility of Executive Compensation.

The Compensation Committee has considered the impact of Section 162(m) of the Internal Revenue Code, which disallows a deduction for any publicly held corporation for individual compensation exceeding \$1 million in any taxable year for the Chief Executive Officer and four other most highly compensated executive officers, respectively, unless such compensation meets the requirements for the performance-based exception to Section 162(m). As the cash compensation paid by the Company to each of its executive officers is expected to be substantially below \$1 million, the Compensation Committee believes that Section 162(m) will not affect the tax deductions available to the Company with respect to the compensation of its executive officers. It is the Compensation Committee's policy to qualify, to the extent reasonable and practicable, its executive officers' compensation for deductibility under applicable tax law. However, the Company may from time to time pay compensation to its executive officers that may not be deductible.

Accounting for Stock-Based Compensation

Beginning on July 1, 2005, the Company began accounting for stock-based payments including its Stock Option Program, Long-Term Stock Grant Program, Restricted Stock Program and Stock Award Program in accordance with the requirements of FASB Statement 123(R).

Compensation Committee Interlocks and Insider Participation

In September 2003, Robert Ripp, the Company's Chairman and member of the Company's Compensation Committee, provided an unsecured line of credit to the Company to enable it to borrow up to \$300,000 on or before September 30, 2004. Any outstanding balances and accrued interest were to be fully due and payable on September 30, 2004. The interest rate was 5% per annum on any funded balances outstanding. No funds were borrowed under this line of credit and it was not renewed upon its expiration. In connection with this line of credit, Mr. Ripp was issued a warrant to purchase 100,000 shares of Common Stock, which is exercisable until September 30, 2013. The exercise price to acquire the shares underlying the warrant is \$3.20 per share.

COMPENSATION COMMITTEE REPORT

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

No bonus was paid toward fiscal 2007 or 2006 goal achievement. Mr. Brizel was entitled to participate in all other compensation and benefit plans made available by the Company. PROPOSAL NO. 2

APPROVAL OF AMENDMENT TO AMENDED AND RESTATED

OMNIBUS INCENTIVE PLAN

You are being asked to approve an amendment to the Company's Amended and Restated Omnibus Incentive Plan (the Omnibus Plan) to add 800,000 shares to the Plan. Currently only 82,110 shares are available for such use and this amendment would bring the total available for future grant to 882,110 shares. We are seeking this amendment in order to provide adequate shares to attract and retain qualified individuals. Technically, the amendment provides for an increase in the number of shares of Class A common stock reserved for issuance under the Omnibus Plan as currently in effect from 915,625 of which all but 82,110 have been granted since 1992, to 1,715,625 shares.

Reasons for the Proposal

The Omnibus Plan was approved by the Company's stockholders at the Company's Annual Meeting on October 15, 2002. At that time, the Omnibus Plan combined two previously outstanding incentive plans and provided that the maximum number of shares of Class A common stock which could be issued pursuant to the Omnibus Plan, subject to certain adjustments, was 3,725,000 shares. In March 2003, the Company effected a 1-for-8 reverse stock split which reduced the maximum number of shares issuable under the Omnibus Plan to 465,625.

On an aggregated basis, the Omnibus Plan represents all equity incentive compensation activities of the Company since its incorporation. A summary of that activity, encompassing the approximately 15-year period from the Company's Delaware incorporation in 1992 to September 17, 2007 is as follows:

	Shares	Shares	Overhang percent as of September 24, 2007*
USE OF STOCK IN THE PLAN			
Shares granted and issued since 1992		355,885	
Shares outstanding at September 24, 2007:			
Options - exercise prices over \$20 per share		23,534	
Options - exercise prices under \$8 per share	235,996		
Restricted Stock	218,100	454,096	8.5%
Shares remaining available in Plan at September 24, 2007		82,110	1.5%
Total, September 24, 2007		915,625	
Proposed additional shares		800,000	15.0%
Pro-forma total, November 1, 2007 Sum of Overhang		1,715,625	25.1%

* Overhang is calculated for purposes of this presentation as the number of shares of the type that are issued but subject to continued restriction (Restricted Stock), issuable upon exercise (options with exercise prices under \$8 per share) or potentially issuable in the future under either Restricted Stock or option agreements divided by the 5,328,481 shares of Class A common stock outstanding at September 24, 2007. Note that the Company has no stock options outstanding with exercise prices greater than \$20 per share and less than \$8 per share, accounting for the gap in the exercise price range shown in the table.

The additional 800,000 shares to be reserved for use under the Omnibus Plan under this proposal is currently expected to be adequate for grants and awards for approximately four (4) years based on a projection of likely compensatory use for both directors' compensation (approximately 360,000 shares) and employee and executive officer compensation (approximately 480,000 shares). At such usage rate, the annual actual or prospective shares that might be granted during that period would approximate 3.9% of outstanding shares. It should be noted that not all shares granted actually become issued shares of the Company's Class A common stock.

The Board believes that, to attract and retain officers, directors and employees of the highest caliber, provide increased incentive for such persons to strive to attain the Company's long-term goal of increasing stockholder value, and to continue to promote the well being of the Company, it is in the best interests of the Company and its stockholders to provide officers, directors and employees of the Company, through the granting of equity incentive awards, the opportunity to participate in the appreciation in value, if any, of the Company's Class A common stock. The future success of LightPath will be based on a combination of dedicated and

competent management working alongside skilled and experienced electro-optic engineers and production personnel. The Board believes that the additional 800,000 shares to be reserved for use under the Omnibus Plan will help to ensure the Company's ability to retain and have access to that caliber of personnel.

Description Of The Omnibus Plan And The Proposed Amendment

The following is a summary of the Amended and Restated Omnibus Plan and the proposed amendment. This summary does not purport to be complete, and is qualified in its entirety by reference to the text of proposed amendment, a copy of which was filed with the Definitive proxy statement filed in September 2005.

In General

Under the terms of the Omnibus Plan, employees and officers of the Company and any subsidiary are eligible to receive incentive stock options (Incentive Options) within the meaning of Section 422 of the Internal Revenue Code (Code), stock appreciation rights and/or performance bonuses of cash or stock. In addition, employees and officers of the Company and any subsidiary, and directors of the Company, are eligible to receive options that do not qualify as Incentive Options (Nonqualified Options) and/or restricted stock or unit awards pursuant to the terms of the Omnibus Plan. Generally, no consideration is received by the Company upon the grant of any options or awards; however, the Company will receive consideration upon the exercise of any options. To date, the only forms of awards under the Omnibus Plan have been Incentive Options, Nonqualified Options and restricted stock awards. The Omnibus Plan is administered by the Board or a committee appointed by the Board (the Omnibus Committee which is currently the Compensation Committee). As of September 24, 2007, approximately 87 employees and six directors were eligible to participate in the Omnibus Plan; however, awards may be granted only to such officers, directors and employees of the Company as the Omnibus Committee selects from time to time in its sole discretion.

The Omnibus Plan currently provides that the maximum number of shares of Class A common stock issuable under the plan is 915,625 and as of September 24, 2007, there were only 82,110 shares remaining available for grant to persons participating in the Omnibus Plan. The proposed amendment would increase the number of shares of Class A common stock reserved for issuance under the Omnibus Plan to a total of 1,715,625 shares, thereby providing an aggregate 882,110 shares remaining available for grant to persons participating in the Omnibus Plan.

Incentive Options are generally exercisable for a period of up to ten years from the date of grant and the exercise price may not be less than the fair market value of the Common Stock on the date of the grant. The fair market value of a share of Common Stock is \$3.75 as of September 24, 2007.

Options (whether Incentive Options or Nonqualified Options) granted under the Omnibus Plan generally may be exercised only while the recipient is employed or retained by the Company or within three months after the date of termination of employment. However, if

termination is due to death or permanent disability of the option holder, the option may be exercised within one year of the date of termination. To exercise an award, the option holder's payment may be made by cash or by any other means approved by the Board of Directors or the Omnibus Committee.

Under the terms of the Omnibus Plan, an option holder has none of the rights of a stockholder with respect to the shares issuable upon the exercise of the option or satisfaction of conditions for the award, until such shares are issued. No adjustment may be made for dividends or distributions or other rights for which the record date is prior to the date of exercise, except as provided in the Omnibus Plan. During the lifetime of the recipient, an award is exercisable only by the option holder. No option may be sold, pledged, assigned, hypothecated, transferred or disposed of in any manner other than by will or by the laws of descent and distribution.

Restricted stock may also be awarded under the Omnibus Plan. Under the Omnibus Plan, a restricted stock award or unit is a grant of stock of the Company that is subject to certain restrictions that the Company places on such stock. Typically, the restricted stock is subject to forfeiture by the recipient, which gradually decreases in amount over a certain period of time. Generally any unvested shares at the time of termination or resignation of the recipient are forfeited unless modified by the Board of Directors. Other restrictions may be placed on the stock, including, but not limited to, Section 16 and other transfer restrictions subsequent to vesting and after issuance.

Federal Income Tax Consequences

Nonqualified Stock Options. Generally, no income is recognized when a nonqualified stock option is granted to the optionholder. Generally, upon the exercise of a nonqualified stock option, the excess of the fair market value of the shares on the date of exercise over the option price is ordinary income to the optionholder at the time of the exercise. The tax basis for the shares purchased is their fair market value on the date of exercise. Any gain or loss realized upon a later sale of the shares for an amount in excess of or less than their tax basis will be taxed as capital gain or loss, with the character of the gain or loss (short-term or long-term) depending upon how long the shares were held since exercise.

Incentive Stock Options. Generally, no regular taxable income is recognized upon the exercise of an incentive option. The tax basis of the shares acquired will be the exercise price. In order to receive this favorable treatment, shares acquired pursuant to the exercise of an incentive option may not be disposed of within two years after the date the option was granted, nor within one year after the exercise date (the Holding Periods). If the shares are sold before the end of the Holding Periods, the amount of that gain which equals the lesser of the difference between the fair market value on the exercise date and the option price or the difference between the sale price and the option price is taxed as ordinary income and the balance, if any, as short-term or long-term capital gain, depending upon how long the shares were held. If the Holding Periods are met, all gain or loss realized upon a later sale of the shares for an amount in excess of or less than their tax basis will be taxed as a long-term capital gain or loss.

Restricted Stock. In the case of a restricted stock award, the excess of the fair market value of the underlying shares of the restricted stock award over the amount paid for the restricted stock award will be taxed as ordinary income to the recipient in the first taxable year in which the underlying common shares are no longer subject to vesting or similar types of forfeiture restrictions. Alternatively, with respect to an individual who files a timely election under Section 83(b) of the Internal Revenue Code, such excess will instead be taxed as ordinary income upon the effectiveness of the grant of such restricted stock award notwithstanding any vesting or similar types of forfeiture restrictions. The income realized by the recipient is generally treated as wages and will be subject to withholding taxes even though no cash is paid to the recipient by us. In the case of restricted stock units, the election under Section 83(b) of the Internal Revenue Code is not available and the holder may elect to defer receipt of the stock, and thus taxation thereon, when the vesting occurs. When a holder so elects deferral, the holder must remain at risk that the property (stock) may never be delivered to him due to adverse developments.

The Company Deduction. The Company is entitled to a tax deduction in connection with the exercise of a nonqualified stock option equal to the ordinary income recognized by the optionholder. The Company is also entitled to a tax deduction in connection with the vesting of restricted stock or, earlier in the case of the grantee making an 83(b) election (in both cases, conditioned upon proper reporting and tax withholding and subject to possible deduction limitations).

Holding Periods. Provided the shares sold or exchanged are held for more than twelve (12) months prior to such sale or exchange, the resulting gain or loss will be long-term in character. If the shares are held for less than twelve months prior to their sale or exchange, the resulting gain or loss will be short-term in character. In the case of restricted stock units, the holding period does not begin until the holder elects to receive the stock and be subject to the recognition of income subject to taxation at ordinary income rates.

Other Tax Considerations. This summary is not intended to be a complete explanation of all of the federal income tax consequences of participating in the Omnibus Plan. A participant should consult his or her personal tax advisor to determine the particular tax consequences of the plan, including the application and effect of foreign state and local taxes, and any changes in the tax laws after the date of this proxy statement.
