-

Item 7.01. Regulation FD Disclosure.

On October 9, 2007, Winn-Dixie Stores, Inc.(the Company) is scheduled to make a presentation at an investor conference which includes but is not limited to a review of the Company's business, strategy and a financial review. The presentation is included in exhibit 99.1 attached.

We reaffirm the guidance provided in our press release dated August 28, 2007, as included in exhibit 99.1 on Form 8-K filed on August 28, 2007.

In the presentation, as well as in analyzing and planning for our business, we supplement our use of financial measures that are calculated and presented in accordance with generally accepted accounting principles (GAAP) with the non-GAAP financial measure Adjusted EBITDA. Adjusted EBITDA is net income or loss adjusted to exclude discontinued operations, reorganization items, income taxes, interest income, interest expense, depreciation, amortization, impairment charges, restructuring charges (gains), certain non-cash charges related to the Company's compensation programs, non-recurring gains and other items related to the Company's emergence from bankruptcy.

Adjusted EBITDA is presented because we believe that it is an important metric for evaluating our operating performance. Moreover, Adjusted EBITDA facilitates comparison of our results of operations with companies in our industry which may have different capital structures. EBITDA excludes the effects of financing and investing activities by eliminating the effects of interest, income taxes, depreciation, and amortization. Excluding the non-cash charges related to the Company's compensation programs, impairment charges, non-recurring gains, restructuring charges (gains), discontinued operations, reorganization items and the items related to the Company's emergence from bankruptcy further helps to isolate operating performance and to facilitate such comparisons, inasmuch as the items excluded are not a function of our current operating performance and affect our GAAP results regardless of our performance. In addition, certain of these items may vary significantly from period to period and may have a disproportionate effect in a given period, which may affect the comparability of the results.

Investors are cautioned that the usefulness of Adjusted EBITDA is limited by the fact that it excludes items which have or have had an effect on our overall financial performance, including the effects of our capital structure, the nature of our assets, our equity compensation programs, restructuring efforts that we have taken and our bankruptcy and subsequent emergence. Due to these limitations, we use Adjusted EBITDA only in addition to and in conjunction with results presented in accordance with GAAP. We strongly encourage investors to review our consolidated financial statements and publicly filed reports in their entirety and not to rely on any single financial measure. Further, because non-GAAP financial measures are not standardized, it may not necessarily be possible to compare our use of Adjusted EBITDA with non-GAAP financial measures having the same or similar names used by other companies.

The information in this Form 8-K, including the exhibit, shall not be deemed filed for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, and is not incorporated by reference into any filing of the Company, whether made before or after the date hereof, regardless of any general incorporation language in such filing.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.

99.1 Investor Conference presentation materials, October 9, 2007.

SIGNATURES
