2017: A Year of Transformation

2017 was a year of continued transformation and progress for our Company. We completed previously announced strategic actions that will drive the Company forward and we continued to evolve to meet the constantly changing needs of our consumers, clients and customers. We also launched new, innovative products, and told impactful, meaningful stories that made a difference to the communities that we serve. In every decision we made, we positioned our Company for success, now and in the future.

We successfully completed the spin-off of Cars.com (the Cars.com Spin-off) and sold our controlling interest in CareerBuilder, completing our transformation into a pure-play media company. We remain confident that these actions will maximize long-term value for our shareholders while putting the Company in the best position to succeed for its customers and its employees.

Our Company also achieved strong financial results in 2017. Our overall company revenue was \$1.9 billion, growing seven percent on a non-GAAP comparable basis.* Our adjusted EBITDA* totaled \$631.4 million, with an adjusted EBITDA margin of 33 percent. In addition, our innovation initiatives contributed an even-increasing percentage of our revenue, marking strong success in execution.

We also are very pleased to have ended 2017 on a high note, announcing our acquisition from Midwest Television, Inc. of television broadcast stations, KFMB-TV, the CBS affiliated station, and KFMB-D2 (CW), and radio broadcast stations, KFMB 760 AM talk radio and KFMB-FM, each in San Diego, which we completed in February 2018.

In 2017, we commenced a board refreshment process to ensure that the skills of our directors remain aligned with our evolving business. This resulted in the addition of three new directors:

Melinda C. Witmer, effective as of December 12, 2017;

Stuart J. Epstein, effective as of February 22, 2018; and

Gina L. Bianchini, effective as of February 26, 2018.

On February 22, 2018, we also announced that Howard D. Elias would succeed Marjorie Magner as non-executive chairman of the Board immediately following the Annual Meeting.

* *Reconciliations of the following non-GAAP financial measures to the Company's results as reported under accounting principles generally accepted in the United States may be found in the Company's Form 10-K, filed March 1, 2018: non-GAAP comparable revenue page 25; and adjusted EBITDA page 26.*

Proposal 1 Election of Directors

YOUR BOARD OF DIRECTORS

The Board of Directors is currently composed of twelve directors, including the eleven directors nominated for re-election and Marjorie Magner, our current Chairman, who is retiring from the Board at the 2018 Annual Meeting in order to devote more time to philanthropic activities. The Board of Directors held twelve meetings during 2017. Each director attended at least 94% of the meetings of the Board and its committees on which he or she served that were held during the period for which he or she served as a director or committee member, as applicable, during 2017. All directors then serving on the Board attended the 2017 Annual Meeting in accordance with the Company's policy that all directors attend the Annual Meeting.

Nominees elected to our Board at the 2018 Annual Meeting will serve one-year terms expiring at the Company's 2019 Annual Meeting of Shareholders. The Board, upon the recommendation of its Nominating and Public Responsibility Committee, has nominated the following individuals: Gina L. Bianchini, Howard D. Elias, Stuart J. Epstein, Lidia Fonseca, David T. Lougee, Scott K. McCune, Henry W. McGee, Susan Ness, Bruce P. Nolop, Neal Shapiro and Melinda C. Witmer. The Board believes that each of the nominees will be available and able to serve as a director. If any nominee becomes unable or unwilling to serve, the Board may do one of three things: recommend a substitute nominee, reduce the number of directors to eliminate the vacancy, or fill the vacancy later. The shares represented by all valid proxies may be voted for the election of a substitute if one is nominated.

The Company's By-laws provide that director nominees are elected by the vote of a majority of the votes cast with respect to the director at the meeting, unless the number of nominees exceeds the number of directors to be elected, in which case directors shall be elected by the vote of a plurality of the shares present and entitled to vote at the meeting. At the 2018 Annual Meeting, the majority vote standard will apply. If an incumbent nominee does not receive an affirmative majority of the votes cast, he or she is required to submit a

letter of resignation to the Board's Nominating and Public Responsibility Committee, which would recommend to the Board the action to be taken with respect to the letter of resignation. The Board is required to act on the Committee's recommendation and publicly disclose its decision and its rationale within 90 days after the election results are certified.

The Company's Board of Directors unanimously recommends that you vote FOR the election of each of the nominees to serve as directors of the Company until the Company's 2019 Annual Meeting and until their successors are elected and qualified.

BOARD LEADERSHIP STRUCTURE

Our Board has determined that having an independent director serve as the Chairman of the Board is currently the best leadership structure for the Company. Separating the positions of Chairman and CEO allows the CEO to focus on executing the Company's strategic plan and managing the Company's operations and performance and permits improved communications between the Board, the CEO and other senior leaders of the Company. Our Board regularly reviews the Company's Board leadership structure, how the structure is functioning and whether the structure continues to be in the best interest of our shareholders.

The duties of the Chairman of the Board include:

presiding over all meetings of the Board and all executive sessions of non-management directors;

servicing as liaison on Board-wide issues between the CEO and the non-management directors, although Company policy also provides that all directors shall have direct and complete access to the CEO at any time as they deem necessary or appropriate, and vice versa;

in consultation with the CEO, reviewing and approving Board meeting agendas and materials;

in consultation with the CEO, reviewing and approving meeting schedules to assure there is sufficient time for discussion of all agenda items;

calling meetings of the non-management directors, if desired; and

being available when appropriate for consultation and direct communication if requested by shareholders.

THE BOARD'S ROLE IN RISK OVERSIGHT

Evaluating how senior leadership identifies, assesses, manages and monitors the various risks confronting the Company is one of the most important areas of the Board's oversight. In carrying out this critical responsibility, the Board oversees the Company's risk management function through regular discussions with senior leadership, considering the Company's risks in the context of the Company's strategic plan and operations. In doing so, the Board actively and regularly reviews, guides and oversees the implementation of the Company's long-term strategic plan. In addition, the Company has an enterprise risk management program to enhance the Board's and management's ability to identify, assess, manage and respond to strategic, market, operational and compliance risks facing the Company.

While the Board has primary responsibility for overseeing the Company's risk management function, each committee of the Board also considers risk within its area of responsibility. For example, the Executive Compensation Committee reviews risks relating to compensation matters. The Board is apprised by the committee chairs of significant risks and management's response to those risks via periodic reports. While the Board and its committees oversee the Company's risk management function, management is responsible for implementing day-to-day risk management processes and reporting to the Board and its committees on such matters.

The Audit Committee is primarily responsible for reviewing risks relating to accounting and financial controls. In addition, the Board has designated the Audit Committee with primary responsibility for overseeing the Company's enterprise risk management program. In accordance with this responsibility, the Audit Committee monitors the Company's significant business risks, including financial, operational, privacy, cybersecurity, business continuity, legal and regulatory, and reputational exposures, and reviews the steps management has taken to monitor and control these exposures. With respect to cybersecurity, the Board receives regular reports from Company management, including updates on the internal and external cybersecurity threat landscape, incident response, assessment and training activities, and relevant legislative, regulatory, and technical developments.

With respect to risks relating to compensation matters, the Executive Compensation Committee with the assistance of its independent compensation consultant has reviewed the Company's executive compensation program and has concluded that the program does not

create risks that are reasonably likely to have a material adverse effect on the Company. The Executive Compensation Committee views the design of the Company's annual cash and long-term equity incentives as providing an effective and appropriate mix of incentives to help ensure the Company's performance is focused on long-term profitability and shareholder value creation and does not encourage unnecessary or excessive risk taking at the expense of long-term results.

DIRECTOR INDEPENDENCE

The Board of Directors has determined that, other than David T. Lougee, all of our current directors are, and other than Gracia C. Martore, former President and CEO of the Company, all directors who served during the Company's most recently completed fiscal year were, independent of the Company within the meaning of the rules governing NYSE-listed companies. For a director to be independent under NYSE rules, the Board of Directors must affirmatively determine that the director has no material relationship with the Company, either directly or as a partner, shareholder, or officer of an organization that has a relationship with the Company. To assist it in making these determinations, the Board has determined that the following categories of relationships between a director and the Company are not material:

Employment of a director or a director's immediate family member by a company or organization that made payments to, or received payments from, the Company or any of its subsidiaries for property or services in an amount which, in each of the last three fiscal years, did not exceed the greater of \$1 million or 2% of such other company's consolidated gross revenues;

A director's position as a director with, or the direct or indirect ownership by a director or a director's immediate family member of a 10% or greater equity interest in, a company or organization that made payments to, or received payments from, the Company or any of its subsidiaries for property or services in an amount which, in each of the last three fiscal years, did not exceed the permitted thresholds above; and

A relationship of a director or a director's immediate family member with a charitable organization, as an executive officer, board member, trustee or otherwise, to which the Company or any of its subsidiaries has made, in any of the last three fiscal years, charitable contributions of not more than the greater of \$100,000 or 2% of such charitable organization's consolidated gross revenues.

In making its independence determinations, our Board considered all relationships, direct and indirect, between each director and our Company that were identified in questionnaires completed by each Board member.

Consistent with the NYSE rules, the Company's Principles of Corporate Governance call for the Company's non-management directors to meet in regularly scheduled executive sessions without management as they deem

appropriate. The Company's non-management directors held five executive sessions in 2017, and will meet in executive sessions as appropriate throughout 2018.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION; RELATED TRANSACTIONS

Our Company has not had compensation committee interlocks with any other company, nor has our Company engaged in any material related transactions since January 1, 2017, the first day of our last fiscal year. Although no such related transactions have occurred or are anticipated, the Board will consider any other future transactions involving the Company, on the one hand, and any of its officers or directors, on the other hand, on a case-by-case basis, and any such approved transaction involving a director will be considered in assessing his or her independence.

The Company has adopted a related person transaction policy that outlines the procedures that directors not involved in the transaction will follow in connection with reviewing certain transactions involving the Company and related persons. The policy takes into account the categories of transactions that the Board has determined are not material in making determinations regarding independence and requires directors and executive officers to notify the Company's chief legal officer of any potential related person transactions.

Ten of our eleven nominees are independent.

We have a majority vote standard for uncontested director elections and a director resignation policy.

We have a single class share capital structure with all shareholders entitled to vote for director nominees.

Our directors and senior executives are subject to stock ownership guidelines.

Additional information regarding the Company's corporate governance practices is included in the Company's Principles of Corporate Governance posted on the Corporate Governance page under the Investors' menu of the Company's website at www.tegna.com. See the Compensation Discussion and Analysis section of this Proxy Statement for a discussion of the Company's compensation-related governance practices.

SHAREHOLDER ENGAGEMENT

The Company is committed to acting in the best interests of its shareholders, and views ongoing dialogue with shareholders as a critical component of the Company's corporate governance program. As part of this commitment, the Company actively engages with its shareholders in order to fully understand their viewpoints concerning the Company, to garner feedback on areas for improvement, and to help our shareholders better understand our performance and long-term strategic plan. We believe our regular engagement with shareholders has been productive and provides an open exchange of ideas and perspectives for both the Company and its shareholders.

Company management regularly engages with many of its investors through in person and telephonic meetings throughout the year to solicit input and answer questions on a variety of topics. Company management provides the Board with regular updates regarding its shareholder outreach efforts as well as feedback received from shareholders, which helps to influence our policies and practices.

During 2017 and early in 2018, the Company actively engaged with shareholders, holding an investor day on May 17, 2017 and reaching out to shareholders representing, in the aggregate, more than 50% of our outstanding shares in order to understand their viewpoints concerning a variety of topics, including the following:

The Company's strategic direction and transformation into a pure play media company, including our growth, diversification and capital allocation strategies;

The media M&A environment and the Company's acquisition strategy;

The Company's position and opportunities to capitalize on the changing media landscape;

Corporate governance and compensation matters; and

The Company's proposed changes to its 2018 long term incentive program.

Shareholder Engagement

The Company also has a policy that all of our directors attend our Annual Meeting of Shareholders, which presents yet another opportunity for us to engage directly with our shareholders. All of the standing directors, and those nominated for election at the time, attended the Company's 2017 Annual Meeting of Shareholders.

For those who are unable to attend any of our investor meetings, transcripts of all management presentations are available on our website at www.tegna.com. Any shareholder who has an inquiry or meeting request is invited to contact Jeff Heinz, Vice President/Investor Relations, at 703-873-6917.

ANNUAL BOARD PERFORMANCE EVALUATION

The Company believes in continuously improving its corporate governance practices in order to support the Company's performance. In 2017, the Board retained an independent consultant experienced in corporate governance matters to conduct an in-depth study of the Board's effectiveness and to assist it with the annual performance evaluation process. The consultant interviewed each director to obtain his or her assessment of the effectiveness of the Board and its committees, including identifying opportunities for the Board to enhance its effectiveness. The Board then met with the consultant to discuss the consultant's findings and recommendations for enhancing the Board's overall operation and effectiveness. As a result of this process, the Board implemented a number of the consultant's recommendations, including increasing the amount of time dedicated to Board strategy discussions and holding more committee meetings in between scheduled Board meetings.

INFORMATION ABOUT DIRECTORS

Our Board members have a diverse set of qualifications, skills and experiences and also reflect diversity of age, tenure and gender. The Board regularly evaluates its composition to determine if there are areas for improvement. Our recent director refreshment activities led the Board to add Ms. Witmer in December 2017 and Ms. Bianchini and Mr. Epstein in February 2018, supplementing the existing skills and experience of our Board, increasing the size of the Board to 12 directors and resulting in 5 of our 11 independent directors having less than 3 years of tenure.

Audit Committee

The Audit Committee assists the Board of Directors in its oversight of financial reporting practices and the quality and integrity of the financial reports of the Company. Each member of the Audit Committee meets the independence requirements of the SEC as well as those of the NYSE. In addition, the Board has determined that Bruce P. Nolo is an audit committee financial expert, as that term is defined under the SEC rules. This Committee met seven times in 2017.

Executive Committee

The Executive Committee may exercise the authority of the Board between Board meetings, except as limited by Delaware law. The Executive Committee did not meet in 2017.

Executive Compensation Committee

The Executive Compensation Committee discharges the Board's responsibilities relating to the compensation of the Company's directors and executives and has overall responsibility for the Company's compensation plans, principles and programs. The Committee's duties and responsibilities include reviewing and approving on an annual basis corporate goals and objectives relevant to the compensation of the Company's CEO and other senior executives, including members of the TEGNA Leadership Team and certain other Company officers. The Committee also is responsible for reviewing and discussing with management the Compensation Discussion and Analysis (CD&A) disclosures contained in the Company's Proxy Statement, and for making a recommendation as to whether the CD&A disclosures should be so included and incorporated by reference into the Company's Annual Report on Form 10-K. The Board of Directors has determined that each member of the Committee meets the independence requirements of the SEC as well as those of the NYSE. This Committee met six times in 2017.

The Committee has primary responsibility for administering the Company's equity incentive plans and in that role is responsible for approving equity grants to our senior executives. The Committee historically has delegated to the CEO the authority for approving equity grants to employees other than our senior executives mentioned above within the parameters of a pool of shares approved by the Committee. This provides flexibility for equity grants to be made to employees below the senior leadership level who are less familiar to the Committee.

Under its charter, the Committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, independent legal counsel or other adviser. The Committee is directly responsible for the appointment, compensation and oversight of any such consultant, counsel or adviser, and the Company shall provide appropriate funding for payment of reasonable compensation to any such consultant, counsel or adviser, as determined by the Committee. In selecting a consultant, counsel or adviser, the Committee

evaluates its independence by considering the following six factors and any other factors the Committee deems relevant to the adviser's independence from management:

Provision of other services to the Company by the person that employs the consultant;

Amount of fees paid by the Company to the person that employs the consultant, as a percentage of that person's total revenue;

Policies and procedures of the person that employs the consultant regarding prevention of conflicts of interest;

Any business or personal relationship between the consultant and any member of the Committee;

Ownership by the consultant of the Company's stock; and

Any business or personal relationship between the consultant, or any person that employs the consultant and any executive officer of the Company.

The Committee retains Meridian Compensation Partners, LLC (Meridian) as its consultant to advise it on executive compensation matters. After considering the six factors used by the Committee to evaluate independence, the Committee determined that Meridian is an independent compensation consultant in accordance with applicable SEC and NYSE rules.

Meridian participates in Committee meetings as requested by the chairman of the Committee and communicates directly with the chairman of the Committee outside of meetings. Meridian specifically has provided the following services to the Committee:

Consulted on various compensation plans, policies and practices, including changes to the 2018 long term equity award program;

Participated in Committee executive sessions without management present;

Assisted in analyzing executive compensation practices and trends and other compensation-related matters;

Consulted with management and the Committee regarding market data used as a reference for pay decisions;

Assisted in administering the 2017 equity award program, including spin-off related adjustments, relative TSR calculations and peer groups;

Prior to the Cars.com Spin-off, provided recommendations with respect to the design of Cars.com compensation plans and programs, including consulting with management and the Committee regarding market data used as a reference for making offers to members of the Cars.com leadership team and Board of Directors; and

Reviewed the CD&A and other compensation related disclosures contained in this Proxy Statement.

Nominating and Public Responsibility Committee

The Nominating and Public Responsibility Committee is charged with identifying individuals qualified to become Board members, recommending to the Board candidates for election or re-election to the Board, and considering from time to time the Board committee structure and makeup. The Committee also monitors the Company's human resources practices, including its performance in diversity and equal employment opportunity, monitors the Company's performance in meeting its obligations of fairness in internal and external matters, and takes a leadership role with respect to the Company's corporate governance practices. This Committee met five times in 2017.

The Nominating and Public Responsibility Committee charter sets forth certain criteria for the Committee to consider in evaluating potential director nominees. In addition to evaluating a potential director's independence, the Committee considers whether director candidates have relevant experience in business and industry, government, education and other areas, and monitors the mix of skills and experience of directors in order to assure that the Board has the necessary breadth and depth to perform its oversight function effectively. The charter also encourages the Committee to work to maintain a board that reflects the diversity of the communities we serve. The Committee evaluates potential candidates against these requirements and objectives. For those director candidates who appear upon first consideration to meet the Committee's criteria, the Committee will engage in further research to evaluate their candidacy.

The Nominating and Public Responsibility Committee periodically retains search firms to assist in the identification of potential director nominee candidates based on criteria specified by the Committee and in evaluating and pursuing individual candidates at the direction of the Committee. The Committee will also consider timely written suggestions from shareholders. Shareholders wishing to suggest a candidate for director nomination for the 2019 Annual Meeting should mail their suggestions to TEGNA Inc., 7950 Jones Branch Drive, McLean, Virginia 22107, Attn: Secretary. Suggestions must be received by the Secretary of the Company no earlier than December 27, 2018 and no later than January 16, 2019. The manner in which the Committee evaluates director nominee candidates suggested by shareholders will be consistent with the manner in which the Committee evaluates candidates recommended by other sources.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee assists the Board of Directors in its oversight of financial reporting practices and the quality and integrity of the financial reports of the Company, including compliance with legal and regulatory requirements, the independent registered public accounting firm's qualifications and independence, and the performance of the Company's internal audit function. The Audit Committee appoints and is responsible for setting the compensation of the Company's independent registered public accounting firm. In selecting the Company's independent registered public accounting firm, the Audit Committee considers, among other things, historical and recent performance of the current independent audit firm, known significant legal or regulatory proceedings related to the firm, external data on audit quality and performance, industry experience, firm capabilities and audit approach, and the independence of the audit firm. The Committee reviews the firm's qualifications on an annual basis, assessing, among other things, the quality of its service, the quality of the communication and interaction with the firm, and the firm's independence, objectivity and professional skepticism. In conducting this review, the Committee also considers the advisability and potential impact of selecting a different independent public accounting firm.

The Audit Committee also provides oversight of the Company's internal audit function including the review of proposed audit plans and the coordination of such plans with the Company's independent registered public accounting firm. The Audit Committee oversees the adequacy and effectiveness of the Company's accounting and financial controls and the guidelines and policies that govern the process.

by which the Company undertakes financial, accounting and audit risk assessment and risk management. The Audit Committee also is responsible for reviewing compliance with the Company's Ethics Policy and assuring appropriate disclosure of any waiver of or change in the Ethics Policy for executive officers, and for reviewing the Ethics Policy on a regular basis and proposing or adopting additions or amendments to the Ethics Policy as appropriate. In connection with the Ethics Policy, the Audit Committee has established procedures for the receipt, retention and treatment of complaints received by the Company regarding accounting controls or auditing matters and the confidential, anonymous submission by employees of the Company of any accounting or auditing concerns. The Audit Committee operates under a formal written charter that has been adopted by the Board of Directors.

The Audit Committee members are not professional accountants or auditors, and their role is not intended to duplicate or certify the activities of management and the independent registered public accounting firm, nor can the Committee certify that the independent registered public accounting firm is independent under applicable rules. The Committee serves a Board-level oversight role, in which it provides advice, counsel and direction to management and the independent registered public accounting firm on the basis of the information it receives, discussions with management and the independent registered public accounting firm, and the experience of the Committee's members in business, financial and accounting matters.

During fiscal years 2016 and 2017, the Company's independent registered public accounting firm for each of those years, Ernst & Young LLP (EY), billed the Company the following fees and expenses:

| | 2016 | 2017 |
|--------------------------------------|--------------------|--------------------|
| Audit Fees(1) | \$3,900,000 | \$3,148,180 |
| Audit-Related Fees(2) | \$ 660,000 | \$ 205,000 |
| Audit-Related Fees - Spin-off(2) | <u>\$2,195,000</u> | <u>\$1,222,634</u> |
| Audit-Related Fees - Total(2) | \$2,855,000 | \$1,427,634 |
| Tax Fees(3) | \$ 183,000 | \$ 180,000 |
| All Other Fees(4) | <u>\$ 0</u> | <u>\$ 0</u> |
| Total(5) | \$6,938,000 | \$4,755,814 |

- (1) Audit Fees principally relate to professional services rendered in connection with the annual integrated audit of the Company's consolidated financial statements and internal control over financial reporting, the review of quarterly reports on Form 10-Q. Audit fees for 2016 include fees for audit services for CareerBuilder, LLC of \$606,000.
- (2) Audit-Related Fees for 2017 principally relate to professional services rendered in connection with the audit of the financial statements issued in connection with the Cars.com Spin-off and the audits of employee benefit plans. Audit-Related Fees for 2016 principally relate to professional services rendered in connection with the audit of the financial statements issued in connection with the Cars.com Spin-off, due diligence in connection with the evaluation of strategic alternatives for CareerBuilder, LLC and audits of employee benefit plans. Audit-Related Fees for CareerBuilder, LLC were \$405,000 in 2016. All of these services were pre-approved by the Audit Committee as described below.

- (3) Tax Fees principally relate to tax planning services and advice in the U.S. All of these services were pre-approved by the Audit Committee as described below.
- (4) No services were rendered during either 2016 or 2017 that would cause EY to bill the Company amounts constituting All Other Fees.
- (5) The total fees reflected above for 2016 include amounts for CareerBuilder, LLC, in which the Company held a 52.9% controlling interest until its sale in July 2017. These fees totaled \$1,011,000 and represent 100% of the amounts billed by EY related to services provided to CareerBuilder, LLC, although the Company's actual share, based on agreements with our partners in CareerBuilder, LLC, was \$535,000.

The Audit Committee has adopted a policy for the pre-approval of services provided by the Company's independent registered public accounting firm. Under the policy, particular services or categories of services have been pre-approved, subject to a specific budget. Periodically, but at least annually, the Audit Committee reviews and approves the list of pre-approved services and the maximum threshold cost of performance of each. The Audit Committee is provided with a status update on all EY services periodically throughout the year and discusses such services with management and EY. Pursuant to its pre-approval policy, the Audit Committee has delegated pre-approval authority for services provided by EY to its Chair, Bruce P. Nolop. Mr. Nolop may pre-approve up to \$100,000 in services provided by EY, in the aggregate at any one time, without consultation with the full Audit Committee, provided he reports such approved items to the Audit Committee at its next scheduled meeting. In determining whether a service may be provided pursuant to the pre-approval policy, consideration is given to whether the proposed service would impair the independence of the independent registered public accounting firm.

In connection with its review of the Company's 2017 audited financial statements, the Audit Committee received from EY written disclosures and a letter regarding EY's independence in accordance with applicable requirements of the Public Company Accounting Oversight Board, including a detailed statement of any relationships between EY and the Company that might bear on EY's independence, and has discussed with EY its independence. The Audit Committee considered whether the provision of non-audit services by EY is compatible with maintaining EY's independence. EY stated that it believes it is in full compliance with all of the

independence standards established by the various regulatory bodies. The Audit Committee also discussed with EY various matters required to be discussed by Statements on Auditing Standards No. 16, as amended (AICPA, Professional Standards, Vol. 1, AU Section 380), as adopted by the PCAOB in Rule 3200T, including, but not limited to, the selection of and changes in the Company's significant accounting policies, the basis for management's accounting estimates, EY's conclusions regarding the reasonableness of those estimates, and the disclosures included in the financial statements.

The Audit Committee met with management, the Company's internal auditors and representatives of EY to review and discuss the Company's audited financial statements for the fiscal year ended December 31, 2017. Based on such review and discussion, and based on the Audit Committee's reviews and discussions with EY regarding the various matters mentioned in the preceding paragraph, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Form 10-K for the 2017 fiscal year, and the Board has approved that recommendation.

**Proposal 2 Ratification of Appointment of
Independent Registered Public Accounting Firm**

The Audit Committee of the Board of Directors is responsible for the appointment, compensation, retention and oversight of the Company's independent auditor. The Audit Committee has appointed Ernst & Young LLP (EY) as the Company's independent registered public accounting firm for our fiscal year ending December 31, 2018. EY was first appointed the Company's independent registered public accounting firm in 2005 and we believe that the retention of EY is in the best interests of the Company and its shareholders. Upon the recommendation of the Audit Committee, the Board of Directors is submitting the appointment of EY as the Company's independent registered public accounting firm for shareholder ratification at the 2018 Annual Meeting.

The Board of Directors unanimously recommends that the shareholders of the Company vote FOR the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the current year.

Our By-laws do not require that the shareholders ratify the appointment of EY as our independent registered public accounting firm. We are seeking ratification because we value our shareholders' views on the Company's independent registered accounting firm and believe it is a good corporate governance practice. If the shareholders do not ratify the appointment, the Audit Committee will reconsider whether to retain EY, but in its discretion may choose to retain EY as the Company's independent registered public accounting firm. Even if the appointment is ratified, the Audit Committee in its discretion may change the appointment at any time during the year if it determines that a change would be in the best interests of the Company and its shareholders.

The Audit Committee believes it is important for the independent auditor to maintain its objectivity and independence. In accordance with SEC rules and EY policies, audit partners are subject to rotation requirements to limit the number of consecutive years an individual partner may provide audit services to our Company. For lead and concurring review audit partners, the maximum number of years of service in that capacity is five years. The Audit Committee and its Chairman are involved in the process for selecting the lead audit partner.

A representative of EY is expected to be present at the 2018 Annual Meeting. The EY representative will have an opportunity to make a statement if he or she desires to do so and will be available to respond to appropriate questions from shareholders.

The approval of this Proposal 2 requires the affirmative vote of a majority of the shares of common stock present in person or represented by proxy and entitled to vote at the 2018 Annual Meeting. Your bank, broker or other intermediary may vote without your instructions on this proposal.

Adjusted EBITDA. The Company's Adjusted EBITDA totaled \$631 million (representing net income from continuing operations, income taxes, interest expense, equity income, other non-operating items, special items, depreciation and amortization).

Non-GAAP EPS. The Company's non-GAAP earnings per diluted share from continuing operations were \$1.08 per diluted share.

Strong free cash flow. The Company generated \$309 million in free cash flow (representing Net cash flow from operating activities, as reported on the Company's statement of cash flows, reduced by Purchase of property and equipment).

Reconciliations of the following non-GAAP financial measures to the Company's results as reported under accounting principles generally accepted in the United States may be found in the Company's Form 10-K, filed March 1, 2018: non-GAAP comparable revenue page 25; adjusted EBITDA page 26; non-GAAP earnings per share page 24; and free cash flow page 26.

PAY FOR PERFORMANCE

The Committee supports compensation policies that place a heavy emphasis on pay for performance. Having our NEOs receive a higher proportion of their long-term awards as performance-based performance shares that may be earned based on how the Company's total shareholder return (TSR) compares to the TSR of the Company's Peer Group during a three-year measurement period rather than restricted stock units (which are service-based) strengthens the pay for performance aspect of the Company's long-term incentive program. The percentage of NEO annual equity awards granted in January 1, 2017 (based on award value) that were performance-based were 75% for our CEO and 65% for each of the other NEOs (other than Ms. Beall, who was not an NEO at the time she received her annual equity award).

Executive Summary

**OUR CEO S REALIZED PAY THROUGH 2017 COMPARES VERY FAVORABLY
WITH OUR TOTAL SHAREHOLDER RETURN**

The following chart compares our CEO s Adjusted Summary Compensation Table (SCT) Compensation and Realized Pay between 2015 and 2017 in comparison to our cumulative 3-year total shareholder return relative to our Peer Group. The chart reflects Mr. Lougee s Adjusted SCT compensation and Realized Pay for calendar year 2017 and Ms. Martore s Adjusted SCT compensation and Realized Pay for calendar years 2016 and 2015.

The amount of pay presented for our CEO and the other NEOs in the Summary Compensation Table includes the grant date fair value of long-term incentive awards for accounting purposes. Based on the performance of our share price and how the Company s total shareholder return compares to the total shareholder returns of our Peer Group, the amount of pay actually realized by our NEOs from these awards may differ significantly from their accounting value. As a result, we believe it is useful to compare our CEO s Realized Pay between 2015 and 2017 with his or her Adjusted SCT Compensation for the same period. For this purpose, we define:

Adjusted SCT Compensation as the compensation reported in the Summary Compensation Table for the applicable year, adjusted by excluding Changes in Pension Value and Nonqualified Deferred Compensation Earnings and All Other Compensation. We excluded these items because they either represent amounts that will not become realized pay until termination of employment or later or are not part of our core compensation program; and

Realized Pay as the sum of (i) actual base salary and bonus paid for the applicable year plus (ii) the amount reported in the Option Exercises and Stock Vested table upon the vesting of RSUs and Performance Shares or exercise of stock options.

Our CEO s Realized Pay between 2015 and 2017 consisted of:

| | 2015 | 2016 | 2017 |
|--------------------------------------|-------------------|------------------|------------------|
| | (\$) | (\$) | (\$) |

Executive Summary

GUIDING PRINCIPLES

In making its NEO compensation decisions, the Committee is guided by the following principles:

Pay for performance Compensation should place a heavy emphasis on pay for performance and substantial portions of total compensation should be at risk. Bonuses should reflect individual and Company performance during the past year and can vary significantly in amount from year to year. In contrast, long-term equity awards are forward-looking and designed primarily to reward future service and performance rather than past performance. As such, the value of equity award opportunities will tend to vary less from year to year.

Attract, retain and motivate We are committed to attracting and retaining superior executive talent by offering a compensation structure that motivates key employees to ensure our overall success and long-term strength.

Fairness Compensation should be fair to both executives and shareholders, externally competitive, and designed to align the interests of our executives with those of our shareholders.

Pay competitively We provide compensation opportunities generally in line with those of executives holding similar positions at peer and comparable companies.

Promote stock ownership As a key part of our shareholder alignment efforts, we expect each of our senior executives to acquire and maintain a meaningful level of investment in Company common stock. Levels of senior executive stock ownership are regularly reviewed by the Committee and approved by the full Board. Our senior executives are expected to increase their stock ownership until they reach a minimum guideline equal to a multiple of their annual base salary and to maintain such minimum guideline after it has been reached.

The following table reflects the minimum stock ownership guideline for each NEO. All of the NEOs are on track to meet their minimum ownership guideline.

NAME**MINIMUM**

| | GUIDELINE |
|------------|-----------|
| | MULTIPLE |
| | OF BASE |
| | SALARY |
| MR. LOUGEE | 5X |
| MS. HARKER | 3X |
| MS. BEALL | 2X |
| MR. MAYMAN | 1X |

The minimum guideline is 1X base salary for other key senior executives of the Company. The Company's stock ownership guidelines require that executives hold all after-tax shares they receive from the Company as compensation until they have met the stock ownership guidelines detailed above and if they subsequently fall below such guideline.

COMPENSATION-RELATED GOVERNANCE PRACTICES

The Board's commitment to strong corporate governance practices extends to the compensation plans, principles, programs and policies established by the Committee. The Company's compensation-related governance practices and policies of note include the following:

Performance-based pay. The majority of the compensation we provided to our NEOs is performance-based.

Outcome alignment. Each year we review the Company's compensation and financial performance against internal budgets, financial results from prior years and Peer Group market data to make sure that executive compensation outcomes are aligned with the absolute and relative performance of the Company.

Clawback. We have a recoupment policy which provides that fraud or intentional misconduct by any employee that results in an accounting restatement due to material non-compliance with the securities laws would trigger a recoupment of certain incentive compensation from the responsible employee, as determined by the Committee.

All new change-in-control arrangements are double trigger without excise tax gross-ups. Severance for executives who became eligible to participate in a change in control severance plan after April 15, 2010 is double trigger and those executives are not eligible for an excise tax gross-up.

Double-trigger equity vesting upon a change in control. A change in control of the Company will only accelerate full vesting of equity awards granted to executives after 2015 if the awards are not continued or assumed in connection with the change in control or the recipient has a qualifying termination of employment within two years following the date of the change in control.

No income tax gross-ups. We do not offer income tax gross-ups except in our relocation program.

Good stock option practices. We have never repriced, replaced, backdated or springloaded stock options nor granted stock options with a reload feature, nor does the Company loan funds to employees to enable them to exercise stock options.

90% OF OUR SHAREHOLDERS SUPPORTED OUR EXECUTIVE COMPENSATION PROGRAM AT THE 2017 ANNUAL MEETING

At last year's annual meeting of shareholders, approximately 90% of the votes cast were in favor of the Company's Say on Pay proposal, indicating strong support for the Company's executive compensation program, including the long-term incentive program described in the Company's 2017 Proxy Statement. The Committee will continue to consider the outcome of the Company's Say on Pay votes when making future NEO compensation decisions.

OVERVIEW OF EXECUTIVE COMPENSATION PROGRAM**Key Components of Annual Compensation Decisions**

The Company has designed an executive compensation program that is currently comprised of several components, as more fully discussed in the pages that follow. The key components of the Company's annual compensation decisions are described in the following table.

Base salary adjustments also allow the Committee to reflect an individual's performance or changed responsibilities. Reward performance in attaining individual and Company performance goals. EXECUTIVE COMPENSATION

How the Committee Determines NEO Compensation

HOW THE COMMITTEE DETERMINES NEO COMPENSATION

The Committee determines NEO compensation in its sole discretion based on its business judgment, informed by the experience of the Committee members, input from the Committee's independent compensation consultant, market data, management's and the Committee's assessment of the NEO, achievement of Key Performance Indicators, the Company's performance and progress towards achievement of its strategic plan and the challenges confronting our business.

The Committee does not focus on any one particular objective, formula or financial metric, but rather on what it considers to be value-added quantitative and qualitative goals in furtherance of our compensation guiding principles described in the Executive Summary of this Compensation Discussion and Analysis.

Key Performance Indicators

The Committee assesses the degree and extent of achievement of key performance indicators (KPIs) as a principal tool for making NEO compensation decisions. KPIs, set annually for each of our executive officers, consist of individually designed qualitative and quantitative goals organized in three areas:

Profit and Revenue Goals, which include, as appropriate, revenue, adjusted EBITDA, operating income, free cash flow, digital revenue and other financial goals for the Company and the respective businesses and/or functions over which each NEO has operational or overall responsibility;

People Goals, intended to help the Committee measure the NEO's contributions through, as appropriate, measures of leadership, achievement of diversity initiatives, First Amendment activities, and other significant qualitative objectives such as promoting an ethical Company work environment and diverse workforce and maintaining our reputation as a good corporate citizen of the communities in which we do business; and

Product Goals, which include specific areas in which the NEO is asked to innovate and collaborate to adopt and implement new products and programs in support of the strategic plan.

Each NEO's KPIs include multiple items in each of the three areas. The KPIs are intended to be challenging but realistic, with a high degree of difficulty in achieving all of the goals set for each NEO. Accordingly, the Committee's assessment of NEO performance versus KPIs is holistic, with no particular weighting ascribed to achievement of any particular item in any area.

While the Committee takes into consideration the degree of achievement of each NEO's KPIs and the Company performance goals and financial measures set forth above in making compensation decisions, the Committee exercises

its business judgment, in its sole discretion, to set NEO compensation.

Comparative Market Data

To assist the Committee in making decisions affecting NEO compensation opportunities, Company management provided it with a report regarding, among other things, executive compensation data, which the Committee reviewed and used in its year-end compensation decisions. The report included data from the Willis Towers Watson Media Compensation Survey, the Willis Towers Watson General Industry Executive Compensation Survey, the Croner Digital Content and Technology Survey and data from Equilar, a source of detailed executive compensation information (collectively, Comparative Market Data).

Through use of this data, the Committee compares NEO salaries, bonus opportunities and equity compensation opportunities to those of companies in the media sector and other companies with comparable revenues to confirm that the elements of our compensation program and the range of amounts we pay our executives for each element are appropriate in that context. The Committee does not, however, target elements of compensation to a certain range, percentage or percentile within the Comparative Market Data.

BASE SALARY

We pay our NEOs base salaries to compensate them for service in their executive role. Salaries for NEOs take into account:

the nature and responsibility of the position;

the achievement of KPIs, both historically and in the immediately prior year;

internal pay equity among positions; and

Table of Contents**EXECUTIVE COMPENSATION**

How the Committee Determines NEO Compensation

Comparative Market Data as described above, which supported the conclusion that our NEOs' base salaries were broadly in line with the market.

Based on these factors, the Committee set 2017 NEO base salaries as follows:

| EXECUTIVE | 2017 BASE SALARY |
|------------------|-------------------------|
| Mr. Lougee | \$ 850,000 |
| Ms. Harker | \$ 700,000 |
| Ms. Beall | \$ 525,000 |
| Mr. Mayman | \$ 610,000 |

Upon the completion of the Cars.com Spin-off:

Mr. Lougee became President and CEO and, pursuant to the terms of his offer letter, his annual base salary was increased to \$950,000; and

Ms. Beall was promoted to the position of Executive Vice President and Chief Operating Officer - Media Operations and her annual base salary was increased to \$575,000.

ANNUAL BONUSES***ANNUAL BONUS OPPORTUNITY***

Our NEOs participate in an annual bonus program. Bonuses are short term compensation designed to reflect the individual NEO's contribution to overall Company results and attainment of strategic business objectives during the year. Annual bonuses therefore can vary significantly in amount from year to year.

In early 2017, the Committee, in consultation with its independent compensation consultant, considered amounts for bonus opportunity developed by our President and CEO and Senior VP/Chief Human Resources Officer. These amounts are calculated by multiplying the NEO's base salary by a target percentage which takes into account:

the nature and responsibility of the position;

internal pay equity among positions; and

Comparative Market Data, which indicated the bonus guideline amounts were generally in line with the market. Based on these factors, the Committee approved the following 2017 bonus guideline opportunities for our NEOs:

| EXECUTIVE | BASE SALARY | TARGET PERCENTAGE | BONUS |
|-------------|-------------|-------------------|------------------|
| | | OF BASE SALARY | GUIDELINE AMOUNT |
| Mr. Lougee* | \$ 950,000 | 110% | \$ 1,045,000 |
| Ms. Harker | \$ 700,000 | 100% | \$ 700,000 |
| Ms. Beall* | \$ 575,000 | 100% | \$ 575,000 |
| Mr. Mayman | \$ 610,000 | 70% | \$ 427,000 |

* These base salary amounts reflect the NEO's promotion upon the completion of the Cars.com Spinoff.

ANNUAL BONUS PAYOUT FOR 2017

The extent to which a bonus is earned by an NEO is determined by the Committee, informed by attainment of the Company's annual financial and qualitative performance goals, individual contributions made by the NEO during the year and each NEO's KPIs set at the beginning of the year.

In addition to assessing individual KPI achievement, the Committee also considers the financial performance of the Company across a variety of financial measures which, for 2017, included total revenues, operating income, net income, earnings per share, Adjusted EBITDA, EBITDA margins, subscription revenue and free cash flow as a percentage of revenue. The Committee selected these financial measures for 2017 because it considers them to be broad enough to capture the most significant financial aspects of an organization as large as ours yet also focused enough to represent the financial measures that we believe drive our financial success as a pure-play media company.

Table of Contents**EXECUTIVE COMPENSATION**

How the Committee Determines NEO Compensation

In assessing Company achievement of these financial performance measures, the Committee compares them to management budgets approved by the Board at the beginning of the year and financial results from prior years, and takes into account the Company's financial performance relative to its peer companies, as well as industry and market conditions. Finally, the Committee evaluates the performance of our executives and the roles played by each of them in achieving critically important strategic transactions. For 2017, the performance of our NEOs in completing the Cars.com spin-off, the sale of CareerBuilder and our acquisition of media assets that will expand our viewership in San Diego were considered favorably in this regard.

2017 was a transformational year for the Company with the successful Cars.com Spin-off and the sale of the controlling interest in CareerBuilder, allowing the Company to achieve its strategic goal of becoming a pure-play media company. In reaching its 2017 bonus decisions, the Committee considered the role of the management team in completing those strategic transactions; achievement of the financial results described in the Executive Summary above; and the following contributions made by each NEO versus his or her KPIs during the year:

David T. Lougee, President and Chief Executive Officer*2017 Performance Highlights and Key Accomplishments:*

After the closing of the Cars.com Spin-off in June 2017, Mr. Lougee assumed additional responsibilities in connection with being named President and CEO and guided the Company through its transition to a pure-play media company following the sale of our controlling interest in CareerBuilder. Mr. Lougee's annual bonus for 2017 reflected the Committee's assessment of his performance of those duties and his achievement of the following KPIs:

Profit and Revenue Goals Increased total revenues 7% in 2017 compared to 2016, on a non-GAAP comparable basis

Achieved an Adjusted EBITDA Margin 2017 of 33%.

Managed ongoing operational efficiencies and expense savings.

Grew Premion business to more than \$30 million of revenue in its first full year of operations.

People Goals

Restructured the management team following the Cars.com spin-off, integrating the TEGNA Media and Corporate staffs into a more efficient organization reflective of the Company's strategic needs operating as a single business unit.

Advanced the Board's understanding of our long-term strategy and the most critical aspects of the media business.

Continued a culture of innovation critical to our future strategy, exemplified by Daily Blast LIVE and Premion, and expanded Innovation Summits, bringing some of the most creative thinkers from around the Company together to brainstorm and develop new ideas for the future.

Worked to develop a more diverse employee base reflective of the markets in which our television stations operate and in creating initiatives to promote TEGNA as a great place to work.

Product Goals

Championed a strategy of organic growth by bolstering relationships with local consumers and clients to bring communities together and act locally. Efforts focused on three pillars: content transformation, advertising and marketing services transformation, and initiatives in how we go to market and distribute our content across platforms. Under Mr. Lougee's leadership, the Company:

Began wholesale transformations of local news in its markets, creating digital-first operations and using data to better serve audiences on air, in mobile and through social media;

Launched innovative, multi-platform non-news programs such as Daily Blast LIVE, a 30-minute news and entertainment show that focuses on content that is always live and crowdsourced in real time from viewers through social media engagement;

Grew Premion, the industry's first OTT local advertising network, one of the many tools our sales force uses to provide our clients with a holistic approach to marketing, allowing them to optimize their spend and put their advertising dollars to work in the channels that make the most sense, regardless of the platform; and

Entered into OTT distribution deals with our network partners and streaming services such as YouTube TV and DirecTV Now, which will provide our stations with per-subscriber economics that are equal to, or slightly better than, the per-subscriber economics associated with the Company's traditional MVPD relationships.

Led our efforts to formulate, communicate and pursue a plan to grow our media business through strategic acquisitions and investments, and positioned the Company to capitalize on regulatory reforms implemented by the current presidential administration.

In December 2017, we announced a definitive agreement to acquire television stations KFMB-TV, the CBS affiliated station, and KFMB-D2 (CW), and radio broadcast stations KFMB-AM and KFMB-FM in San Diego. Through this transaction, completed in February 2018, we added a strong station to our portfolio of big four affiliates in top markets. As a result of the acquisition, the Company's U.S. television household reach will increase by more than one million or one percentage point.

Along with Ms. Harker, developed and implemented an investor relations program to inform, educate and engage the analyst community, passive/index investors and capital managers. The program combined one-on-one meetings and non-deal road shows in multiple cities to reach these constituents.

Victoria D. Harker, Executive Vice President and Chief Financial Officer

2017 Performance Highlights and Key Accomplishments:

Ms. Harker delivered a strong performance in 2017, playing a key role in overseeing the planning, preparation for and completion of the Cars.com Spin-off and in executing the sale of our controlling interest in CareerBuilder. Her annual bonus for 2017 reflected the Committee's assessment of her performance, including her achievement of the following KPIs:

Profit and Revenue Goals Helped position the Company to achieve its financial results. Enhanced our capital structure and led a variety of cost control programs and initiatives, resulting in the reduction of our effective tax rate pre-Tax Reform, and significant expense savings that benefited 2017 results.

People Goals Achieved training and development and diversity hiring goals, while streamlining the finance function to reflect our new structure as a single business unit.

Product Goals Achieved KPIs relating to investor outreach and outsourcing initiatives and continued development of a shared services model to centralize the performance of key finance functions for our television stations located throughout the country.

Lynn Beall, Executive Vice President and Chief Operating Officer Media Operations

2017 Performance Highlights and Key Accomplishments:

Ms. Beall became an executive officer upon completion of the Cars.com Spin-off. Following her promotion, she demonstrated leadership in overseeing one of the most geographically diverse broadcast groups in the United States. Ms. Beall's annual bonus for 2017 reflected the Committee's assessment of her performance including her achievement of the following KPIs:

Profit and Revenue Goals Drove the Company's Media revenue, including digital revenue associated with television station digital platforms, and net income for TEGNA's media properties.

People Goals Recruited, developed and retained station general managers; fostered greater gender, racial and ethnic diversity so our employee base more closely reflects the communities in which we operate; and realigned our digital operations by clarifying roles, responsibilities for content and sales across the streamlined Media staff.

Product Goals Managed a team that grew our audience across platforms; accelerated development and launch of new programming initiatives including pilot programs targeting local news processes, a variety of new live, local non-news programming, a daily show with a foundation for a national roll-out, and new digital content partnerships; and supported the growth of Premion across all of our local television markets.

Todd A. Mayman, Executive Vice President/Chief Legal and Administrative Officer

2017 Performance Highlights and Key Accomplishments:

In 2017, Mr. Mayman continued effective management of the law department and various administrative functions. Mr. Mayman played a key role in overseeing the planning, preparation and completion of the Cars.com Spin-off and sale of the Company's controlling interest in CareerBuilder. Mr. Mayman also led significant headquarters-related real estate projects, including repurposing and consolidating our existing space and in connection with our relocation to a new corporate headquarters, anticipated in early 2019. In his role as Chief Administrative Officer, Mr. Mayman assumed oversight responsibility for the Company's information technology and stations operations group, and assisted our Houston TV station in recovering from the effects of Hurricane Harvey, including negotiating temporary and permanent locations for the station. Mr. Mayman's annual bonus for 2017 reflected the Committee's assessment of his performance, including his achievement of the following KPIs:

Profit and Revenue Goals A focus on cost control enabled the legal department to achieve its internal department and Company-wide outside counsel fee budget for the year.

People Goals Achieved goals for diversity in hiring, management and promotion, and succession planning efforts.

Product Goals Played an important role in investor relations efforts; facilitated training and compliance programming; and led special projects relating to the optimization of our owned and leased real estate.

The Committee, exercising its business judgment, in its sole discretion, and informed by the foregoing individual and Company performance factors, awarded 2017 annual bonuses to our NEOs as follows:

| EXECUTIVE | BONUS |
|------------|--------------|
| Mr. Lougee | \$ 1,000,000 |
| Ms. Harker | \$ 675,000 |
| Ms. Beall | \$ 560,000 |
| Mr. Mayman | \$ 410,000 |

LONG-TERM INCENTIVES

We use equity-based awards to recognize the performance of executives who drive the development and execution of our business strategies and goals. The primary purposes of these awards are to align further the executive's interests with those of the Company's shareholders and the Company's longer-term objectives, to drive shareholder return, to foster executive stock ownership and to promote retention. We awarded both total shareholder return (TSR) performance shares (Performance Shares) and restricted stock units (RSUs) to our NEOs on January 1, 2017.

Performance Shares

The Company grants Performance Shares based on the Company's total shareholder return versus a peer group of media companies. Under the Performance Share awards, the Company may issue shares of Company common stock (Performance Shares) to senior executives following the completion of a three-year period beginning on the grant date (the Incentive Period). Generally, if an executive remains in continuous employment with the Company during the Incentive Period, the number of Performance Shares that the executive will receive will be determined based upon how the Company's TSR compares to the TSRs of a peer group of media companies (TSR Peer Group) during the Incentive Period. By tying the payout of the Performance Share awards to the Company's TSR, a purely objective standard, the Committee is aligning executive compensation with shareholders' interests.

For each grant of Performance Shares, the Company's TSR is ranked against the TSR of each company in the TSR Peer Group over the Incentive Period. The Committee, with assistance from its independent compensation consultant, selects certain media and digital companies to be included in the TSR Peer Group based on the Committee's assessment of the similar nature of the peer companies' business operations. In anticipation of the Cars.com Spin-off and the potential sale of CareerBuilder, the Committee selected a 2017-2019 TSR Peer Group consisting solely of media companies.

For additional information regarding the Company's TSR Peer Groups, see *Impact of Certain Transactions on Performance Share Awards Involving 2015-2017 TSR Peer Group Members* on page 30 of this Proxy Statement.

For purposes of the Performance Share awards, a company's TSR generally equals a fraction, the numerator of which is the company's stock price change plus the dividends paid on such stock (which are assumed to be reinvested in the stock) from the first day of the Incentive Period to the applicable measurement date, and the denominator of which is the company's closing stock price on the business day preceding the first day of the Incentive Period.

For each Incentive Period, the Committee will calculate the number of Performance Shares earned by multiplying the target number of Performance Shares (as specified in the executive's award agreement) by a percentage based upon the Company's 3-year TSR performance ranked against the TSR performance of the TSR Peer Group.

The percentages for each Incentive Period are set forth on the following table, with percentiles between the thresholds determined by straight line interpolation:

| 3 YEAR TSR VS. PEER GROUP COMPANIES | RESULTING SHARES EARNED (% OF TARGET) |
|---------------------------------------|---------------------------------------|
| 90 th percentile or above | 200% |
| 70 th percentile | 150% |
| 50 th percentile | 100% |
| 30 th percentile | 50% |
| Less than 30 th percentile | 0% |

Relative TSR performance is measured at the end of each of the last four quarters in the Incentive Period and a hypothetical payout calculated. The average results of these payouts are used to calculate the actual number of Performance Shares that an executive earns, so that the calculation does not solely rely upon the Company's stock price on the first day and the last day of the Incentive Period.

EXECUTIVE COMPENSATION

How the Committee Determines NEO Compensation

With certain exceptions for terminations due to death, disability, retirement (defined as 65 years of age or at least 55 years of age with at least 5 years of service) or a change in control, Performance Shares generally vest on the expiration of the Incentive Period only if the executive continues to be employed by the Company through the last day of the Incentive Period.

After the end of the Incentive Period, each executive who is entitled to Performance Shares based on these calculations and the satisfaction of the applicable service and performance requirements will receive the number of Performance Shares that the executive has earned, less withholding taxes. Dividends are not paid or accrued on Performance Shares.

For Performance Share awards granted on or after January 1, 2016, a change in control of the Company will only accelerate full vesting of equity awards to executives if the awards are not continued or assumed (e.g., the awards are not equitably converted or substituted for awards of the successor company) in connection with the change in control or the recipient has a qualifying termination of employment within two years following the date of the change in control. For Performance Share awards granted before January 1, 2016, upon a change in control of the Company, Performance Share awards will fully vest. In the event of a change in control, an executive will be entitled to receive a number of Performance Shares (to the extent vested) based on the Company's TSR relative to the TSR of each company in its TSR Peer Group for the applicable Incentive Period on the date of the change in control, unless the change in control occurs during the first 6 months of an Incentive Period (12 months for Performance Shares granted for the 2016-2018 Incentive Period or the 2017-2019 Incentive Period), in which case the executive will receive the target number of Performance Shares set forth in the executive award agreement for that Performance Share grant.

The Performance Share awards have additional rules that will affect calculations in the event a TSR Peer Group company is acquired, enters into a definitive agreement to be acquired or becomes involved in bankruptcy proceedings during the Incentive Period.

For Performance Share awards granted for the 2015-2017 Incentive Period, (i) a TSR Peer Group company that enters into a definitive agreement to be acquired during Year 1 or Year 2 of the Incentive Period will be excluded from all calculations, (ii) a TSR Peer Group company that enters into a definitive agreement to be acquired during Year 3 will have its TSR position fixed above or below the Company's TSR using the average closing price of both companies' stock during the 30 consecutive trading days ending on the trading day immediately preceding the announcement of the change in control transaction; and (iii) notwithstanding the foregoing, if at any time during the Incentive Period, a TSR Peer Group company enters into a definitive agreement to be acquired by the Company, the TSR Peer Group company will be excluded from all calculations.

For Performance Shares awards granted for the 2016-2018 Incentive Period or the 2017-2019 Incentive Period, (i) a TSR Peer Group company that enters into or becomes subject to a definitive agreement to be acquired on or

before the last day of the second year of the Incentive Period will be excluded from all calculations; provided that if such agreement is rescinded, revoked or abandoned before the end of Year 2 of the Incentive Period and no new agreement is entered into by the end of Year 2, the TSR Peer Group company will be taken into account unless it is subject to another rule set forth below, (ii) a TSR Peer Group company that is subject to a public announcement of a takeover attempt or enters into a definitive agreement to be acquired during Year 3 will have its TSR position fixed above or below the Company's TSR using the average closing price of both companies' stock during the 30 consecutive trading days ending on the trading day immediately preceding the announcement of the takeover attempt or definitive agreement, and (iii) notwithstanding the foregoing, if at any time during the Incentive Period, a TSR Peer Group company enters into a definitive agreement to be acquired by the Company, the TSR Peer Group company will be excluded from all calculations.

If a TSR Peer Group company is involved in bankruptcy proceedings (and thus no longer traded on a national securities exchange) during the Incentive Period, it will remain in the group at a negative 100% TSR.

The number of Performance Shares granted to an executive will be reduced if the price of the shares when paid exceeds 300% of the price of the shares on the first day of the Incentive Period. The price of the shares on the first day of the Incentive Period is equal to the closing price of a share of Company common stock on the last trading day prior to that date. The price of the Company's shares of common stock on the first day of each Incentive Period is as follows:

| PRICE OF SHARES ON THE FIRST DAY | |
|----------------------------------|----------------------|
| INCENTIVE PERIOD | OF INCENTIVE PERIOD |
| 2015-2017 | \$27.08 ¹ |
| 2016-2018 | \$25.52 |
| 2017-2019 | \$13.49 ² |

2015-2017 TSR Performance

As of December 31, 2017, taking into account the special acquisition rules described above, comparing the combined Company/Cars.com TSR to the TSR of the 2015-2017 TSR Peer Group companies at the end of each of the last four quarters in the 2015-2017 Incentive Period resulted in the combined Company/Cars outperforming, on average, 7 of the 12 remaining 2015-2017 TSR Peer Group companies. Accordingly, the executives were awarded a number of Performance Shares equal to 116% of the target number of Performance Shares granted to them in connection with their 2015-2017 awards, with 85% of the target number of Performance Shares paid on January 3, 2018 based on results through the first three lock-in periods, and an additional 31% of the target number of Performance Shares paid on January 23, 2018 based on results through the fourth lock-in period.

RSUs

An RSU generally represents the right to receive a share of Company stock at a specified date, provided certain service requirements are satisfied. The Company grants RSUs with four-year terms to help retain our executives over an extended period of time. The four-year term is longer than the three-year term often used by companies for RSU grants.

RSUs granted in 2015 and 2016 generally vest in four equal annual installments with vested shares being delivered to the executive upon the earliest to occur of (1) the executive's termination of employment, and (2) four years after the grant date. A prorated portion of

the RSUs also vest and are paid upon retirement, disability or death. These RSUs fully vest and are paid upon a change-in-control of the Company, except that for RSUs granted in 2016 a change in control of the Company will only accelerate full vesting and payment if the RSUs are not continued or assumed (e.g., the awards are not equitably converted or substituted for awards of the successor company) in connection with the change-in-control or the recipient has a qualifying termination of employment within two years following the date of the change-in-control.

RSUs granted in 2017 generally vest and are paid in four annual installments. Executives are also entitled to receive a prorated portion of their RSUs upon retirement, disability or death. A change-in-control of the Company will only accelerate full vesting and payment of these RSUs if the RSUs are not continued or assumed (e.g., the awards are not equitably converted or substituted for awards of the successor company) in connection with the change-in-control or the recipient has a qualifying termination of employment within two years following the date of the change-in-control.

Long-Term Equity Awards under the 2017 Program

For the January 1, 2017 grants, the Committee considered the total long-term equity award target values developed by our President and CEO, Senior VP/Chief Human Resources Officer and Vice President/Total Rewards and HR Services. These target values were calculated by multiplying the NEO's base salary by a target percentage, which takes into account:

the nature and responsibility of the position;

internal pay equity among positions; and

Comparative Market Data (as described in more detail in the section above titled "Comparative Market Data"), which showed that the target values recommended by management were generally consistent with the market. Based on these factors, the Committee approved the following total long-term equity award target values for our NEOs:

| EXECUTIVE | 2016 | LONG TERM- AWARD TARGET | TOTAL LONG- TERM AWARD |
|------------|-------------|----------------------------|---------------------------|
| | BASE SALARY | PERCENTAGE | TARGET VALUE |
| Mr. Lougee | \$ 720,000 | 200% | \$ 1,440,000 |

| | | | |
|------------|------------|------|--------------|
| Ms. Harker | \$ 687,500 | 200% | \$ 1,375,000 |
| Ms. Beall | \$ 525,000 | 90% | \$ 472,500 |
| Mr. Mayman | \$ 600,000 | 140% | \$ 840,000 |

Using these long-term equity award target value recommendations as a guideline, the Committee approved 2017 total long-term award values for each of our NEOs in December 2016 as shown in the table below. The Committee determined that these long-term equity award values were appropriate given the individual performance of each NEO against his or her KPIs, the financial performance of the Company and the divisions and operations for which they are responsible, and the Company's progress towards the goals of its strategic plan.

| EXECUTIVE | TOTAL LONG-TERM AWARD VALUE |
|------------------|------------------------------------|
| Mr. Lougee | \$2,250,000 |
| Ms. Harker | \$1,400,000 |
| Ms. Beall | \$500,000 |
| Mr. Mayman | \$875,000 |

Table of Contents**EXECUTIVE COMPENSATION**

How the Committee Determines NEO Compensation

On January 1, 2017, the first day of the 2017-2019 Incentive Period, the long-term equity award value for each NEO was translated into a target award of Performance Shares based on the grant date fair value per share as calculated using the Monte Carlo valuation method and an award of RSUs based upon the Company's closing stock price on December 30, 2016 (taking into account that dividends would not be paid on the RSUs), as follows:

| EXECUTIVE | PERFORMANCE | |
|------------|-------------|--------|
| | (TARGET #) | RSUs |
| Mr. Lougee | 71,488 | 26,960 |
| Ms. Harker | 38,043 | 24,463 |
| Ms. Beall | 12,542 | 9,985 |
| Mr. Mayman | 23,777 | 15,290 |

As described below, pursuant to the Employee Matters Agreement and the Performance Share and RSU award agreements, these awards were converted into the following awards denominated in shares of Company stock as a consequence of the Cars.com Spin-off:

| EXECUTIVE | PERFORMANCE | |
|------------|-------------|--------|
| | (TARGET #) | RSUs |
| Mr. Lougee | 113,329 | 42,739 |
| Ms. Harker | 60,309 | 38,781 |
| Ms. Beall | 19,883 | 15,829 |
| Mr. Mayman | 37,693 | 24,239 |

In addition to the awards described above, following the completion of the Cars.com Spin-off, in June 2017:

Mr. Lougee, in connection with his promotion to President and CEO of the Company, received an increase in his annual long-term incentive target opportunity to 275% of his annual base salary and received an award of 29,091 RSUs; and

Ms. Beall, in connection with her promotion to Executive Vice President and Chief Operating Officer Media Operations of the Company, received an increase in her annual long-term incentive target opportunity to 150% of her annual base salary and an award of 15,636 RSUs.

Impact of Cars.com Spin-Off on Equity-Based Awards

Pursuant to the Employee Matters Agreement entered into by the Company in connection with the Cars.com Spin-off, as of the date of the Cars.com Spin-off, outstanding Company equity awards were adjusted to reflect the impact of the Cars.com Spin-off, as follows:

Performance Shares Granted in 2017 and RSUs Granted in 2017 or 2016

As of May 31, 2017 (the date of the Cars.com Spin-off), each outstanding Performance Share granted in 2017 and each outstanding RSU award granted in 2017 or 2016 that was held by an employee who remained employed by the Company following the Cars.com Spin-off remained denominated in shares of Company common stock, provided that the number of shares subject to the award was adjusted in a manner intended to preserve the aggregate intrinsic value of the original award by multiplying the number of shares by a conversion ratio based upon the volume weighted average per share price of Company common stock during the five (5) trading days immediately preceding and immediately following the date of the Cars.com Spin-off. TSR Performance goals were adjusted to reflect the Cars.com Spin-off, with performance based on the performance of the Company prior to and after the Cars.com Spin-off. In addition, for purposes of calculating the Company's TSR, the price of a share of Company stock on the first day of the 2017-2019 Incentive Period was adjusted to reflect the Cars.com Spin-off, by dividing the price by the same conversion ratio referenced above.

Performance Shares Granted Prior to 2017 and RSUs Granted Prior to 2016

As of the Cars.com Spin-off date, each outstanding Performance Share granted prior to 2017 and each outstanding RSU granted prior to 2016 was converted into an award of both shares of Company common stock and shares of Cars.com common stock. The number of shares of Company common stock subject to each award was equal to the number of shares subject to the award prior to the Cars.com Spin-off, while the number of shares of Cars.com common stock subject to the award was determined by multiplying the number of shares of Company common stock subject to each award by the Distribution Ratio the number of shares of Cars.com common stock distributed per Company share in the Spin-off. The Distribution Ratio was equal to one-third.

Table of Contents

EXECUTIVE COMPENSATION

How the Committee Determines NEO Compensation

TSR performance goals for pre-2017 Performance Share awards will be measured following the Cars.com Spin-off by aggregating both Company performance and Cars.com performance applying the following rules:

The value of dividends taken into account for purposes of the calculation of total shareholder return shall be equal to the sum of (A) the value of any cash dividends paid on Company shares during the Incentive Period, and (B) the product obtained by multiplying (1) the value of any cash dividends paid on Cars.com shares during the portion of the Incentive Period occurring after the Effective Time by (2) the Distribution Ratio.

The stock price at the end of the performance period used to determine total shareholder return shall be the sum of (A) the closing price of a share of Company common stock on the relevant measurement date, and (B) the product obtained by multiplying (1) the closing price of a share of Cars.com common stock on the relevant measurement date by (2) the Distribution Ratio.

Stock Options

Although the Company does not currently award stock options, as of the Cars.com Spin-off date, each outstanding stock option award held by an employee who remained employed by the Company following the Cars.com Spin-off remained denominated in shares of Company common stock, provided that the number of shares and the exercise prices of each option award were adjusted in a manner intended to preserve the aggregate intrinsic value of the original stock option as measured immediately before and immediately after the date of the Cars.com Spin-off.

BENEFITS AND PERQUISITES

The Company's NEOs are provided a limited number of personal benefits and perquisites (described in footnote 5 to the Summary Compensation Table). The Committee's objectives in providing these benefits are to provide insurance protection for our NEOs and their families, to enable the Company to attract and retain superior management talent in a competitive marketplace, to complement other compensation components, and to help minimize distractions from our executives' attention to important Company initiatives.

The personal benefits and perquisites the Company provides to our NEOs, including medical, life insurance and disability plans, are generally the same as those offered to other similarly situated senior executives. For additional information about these and other post-employment benefits, see the Other Potential Post-Employment Payments section of this Proxy Statement.

2017 COMPENSATION DECISIONS FOR MS. MARTORE AND MR. WILLIAMS

In setting the 2017 base salaries of Ms. Martore and Mr. Williams, similar to the other NEOs, the Committee considered the nature and responsibility of their respective positions, their current and historical achievement of KPIs,

internal pay equity among positions and Comparative Market Data. Based on these factors, the Committee set Ms. Martore's 2017 base salary at \$1,000,000 and Mr. Williams' 2017 base salary at \$615,000.

Ms. Martore and Mr. Williams each participated in the Company's annual bonus program in 2017. In determining 2017 bonuses for each of Ms. Martore and Mr. Williams, in May 2017 the Committee, working with its independent compensation consultant, considered bonus guidelines developed by our Senior VP/Chief Human Resources Officer, taking into account the same factors considered by the Committee in setting NEO base salaries as well as Ms. Martore's impending retirement and the expected elimination of Mr. Williams' position in connection with the Cars.com Spin-off.

After reviewing these factors, the Committee calculated bonus guideline amounts for each of Ms. Martore and Mr. Williams and, exercising its business judgment, in its sole discretion, informed by the Company's financial performance through May 2017, the impending completion of the Cars.com Spin-off and progress made on the review of strategic options for CareerBuilder, and their respective contributions to the Company's successful transformation, the Committee awarded a bonus to Ms. Martore in the amount of \$825,000 and a bonus to Mr. Williams in the amount of \$175,000.

In light of Ms. Martore's impending retirement and the expected elimination of Mr. Williams' position in connection with the Cars.com Spin-off, the Committee did not make long-term equity awards to Ms. Martore or Mr. Williams in 2017. Instead, in February 2017, the Committee awarded Ms. Martore a cash-based incentive award, in connection with which she received a \$2,100,000 payout in June 2017, and in May 2017 the Committee awarded Mr. Williams an additional \$100,000 bonus, which was paid to Mr. Williams in June 2017.

Additional information on compensation awarded to the Company's NEOs in 2017 is set forth in the section of this Proxy Statement entitled "Grants of Plan-Based Awards" and "Additional Information Regarding the Summary Compensation Table and the Grants of Plan-Based Awards Table."

POST-TERMINATION PAY

The Company sponsors post-termination pay plans which assist the Company in recruiting and retaining employees and in providing leadership stability and long-term commitment.

TEGNA Retirement Plan (TRP)

Prior to the Publishing Spin-off, eligible Company employees generally had earned benefits under the Gannett Retirement Plan (GRP). In connection with the Publishing Spin-off, the Company adopted the TEGNA Retirement Plan (TRP), a tax-qualified defined benefit retirement plan which assumed the GRP pension liabilities relating to Company employees. Accordingly, the TRP generally provides retirement income to certain of the Company's U.S.-based employees who were employed before their benefits were frozen on August 1, 2008, at which time participants, including each of the NEOs (other than Ms. Harker, who did not participate in the GRP and does not participate in the TRP), ceased to earn additional benefits for compensation or service earned on or after that date. The TRP provides benefits for employees based upon years of credited service, and the highest consecutive five-year average of an employee's compensation out of the final ten years of credited service, referred to as final average earnings, or FAE. Subject to Internal Revenue Code limits, compensation generally includes a participant's base salary, performance-based bonuses, and pre-tax contributions to the Company's benefit plans other than the TEGNA Deferred Compensation Plan (DCP). Until benefits commence, participants' frozen benefits are periodically adjusted to reflect increases in a specified cost-of-living index (i.e., the consumer price index for all urban consumers published by the U.S. Department of Labor Bureau of Statistics for U.S. all items less food and energy).

Effective January 1, 1998, the Company made a significant change to the GRP for service after that date. Certain employees who were either retirement-eligible or had a significant number of years of service with the Company were grandfathered in the plan provisions applicable to them prior to the change (pre-1998 plan provisions). Other employees were transitioned to the post-1997 plan provisions under the GRP.

The pre-1998 plan provisions provide for a benefit that is expressed as a monthly annuity at normal retirement equal to a gross benefit reduced by a portion of the participant's Social Security benefit. Generally, a participant's annual gross benefit is calculated by multiplying the participant's years of credited service by specified percentages (generally 2% for each of a participant's first 25 years of credited service and 0.7% for years of credited service in excess of 25) and multiplying such amount by the participant's FAE. Benefits under the pre-1998 plan provisions are paid in the form of monthly annuity payments for the life of the participant and, if applicable, the participant's designated beneficiary. The pre-1998 plan provisions provide for early retirement subsidies for participants who terminate employment after attaining age 55 and completing five years of service and elect to commence benefits before age 65. Under these provisions, a participant's gross benefit that would otherwise be paid at age 65 is reduced by 4% for each year the participant retires before age 65. If a participant terminates employment after attaining age 60 with 25 years of service, the participant's gross benefit that would otherwise be paid at age 65 is reduced by 2.5% for each year the participant retires before age 65.

The post-1997 plan provisions provide for a benefit under a pension equity formula, which generally expresses a participant's benefit as a current lump sum value based on the sum of annual percentages credited to each participating employee. The percentages increase with years of service, and, in some circumstances, with age. Upon termination or retirement, the total percentages are applied to a participant's FAE resulting in a lump sum benefit value. The pension equity benefit can be paid as either a lifetime annuity or a lump sum.

As noted above, in connection with the Publishing Spin-off, the TRP assumed the GRP pension liabilities of the NEOs who had accrued a benefit under the GRP. The TRP benefit for each of our participating NEOs is calculated under the post-1997 plan provisions. However, as noted below, the SERP benefit for Ms. Beall is calculated under the pre-1998 plan provisions. Each of the NEOs who participates in the TRP is fully vested in his or her TRP benefit.

In connection with its acquisition of Belo Corp. (Belo), the Company assumed the legacy Belo pension plan (Belo Plan), which was merged into the TRP. Since Mr. Lougee earned a pension benefit while employed by Belo, the total TRP benefit for Mr. Lougee is calculated based on his accruals under both the post-1997 TRP plan provisions and the Belo Plan provisions, in which benefits he is also fully vested. Under the Belo Plan, which was frozen to new benefits as of March 31, 2007, Mr. Lougee will be entitled to monthly annuity payments for his life commencing at age 65 calculated by multiplying his Belo credited service (including any additional service credits provided when the plan was frozen) by his monthly FAE, in each case earned at Belo as of March 31, 2007, and further multiplied by specified percentages (generally 1.1% plus 0.35% for average earnings in excess of covered compensation). If Mr. Lougee were to terminate employment and elect to commence receiving benefits prior to age 65, his benefit that would otherwise be paid at age 65 would be reduced as follows: 3.33% per year for each year of such early retirement prior to age 61 and 6.67% per year for each year of such early retirement between ages 61 and 65.

Table of Contents**EXECUTIVE COMPENSATION**

How the Committee Determines NEO Compensation

TEGNA Supplemental Retirement Plan (SERP)

The SERP is a nonqualified retirement plan that provides eligible employees with retirement benefits that cannot be provided under the TRP due to the Internal Revenue Code, which limits the compensation that can be recognized under qualified retirement plans and imposes limits on the amount of benefits which can be paid. For some participants, including Ms. Beall, the SERP also provides a benefit equal to the difference between the benefits calculated under the pre-1998 formula, without regard to the IRS-imposed limits on pay and benefits, and the amount they will receive from the TRP under the post-1997 formula. The SERP benefits for Mr. Lougee and Mr. Mayman are calculated under the post-1997 formula without regard to the IRS-imposed limits on pay and benefits. For all SERP participants, the benefit calculated under the applicable SERP formula is reduced by benefits payable from the TRP. Ms. Harker does not participate in the SERP.

In conjunction with the Company's decision to freeze benefits under the GRP, the Company also decided to make changes to benefits under the SERP. Generally, until December 31, 2017, SERP participants whose SERP benefits were calculated under the pre-1998 formula continued to accrue benefits under the SERP. However, their benefits for credited service after August 1, 2008 were calculated at a rate that is one-third less than the pre-August 1, 2008 rate. Ms. Beall is the only NEO affected by this change. Ms. Beall is currently eligible for early retirement under the pre-1998 formula that applies to her under the SERP.

Effective December 31, 2017, SERP participants whose SERP benefits were calculated under the pre-1998 formula had their SERP benefits frozen such that they ceased to earn additional benefits for earnings, credited service, cost of living adjustments or any other factor or reason after that date. Ms. Beall is the only NEO affected by this change.

Effective August 1, 2008, SERP participants whose SERP benefits were not calculated under the pre-1998 formula had their SERP benefits frozen such that they ceased to earn additional benefits for compensation or service earned on or after that date. Until benefits commence, such participants' frozen benefits are periodically adjusted to reflect increases in a specified cost-of-living index (i.e., the consumer price index for all urban consumers published by the U.S. Department of Labor Bureau of Statistics for U.S. all items less food and energy). Mr. Lougee and Mr. Mayman are the only NEOs affected by this change.

SERP benefits are generally paid in the form of a lump sum amount when a participant separates from service or, if later, the date the participant attains age 55, except that payment is accelerated in the event that the Company undergoes a change in control. In order to comply with federal tax laws, an NEO's SERP benefit cannot be paid within the first six months after the participant's separation from service with the Company. Mr. Lougee, Ms. Beall and Mr. Mayman each are fully vested in their SERP benefits.

TEGNA 401(k) Savings Plan (401(k) Plan)

Most of the Company's employees based in the United States may participate in the TEGNA 401(k) Savings Plan (401(k) Plan), which permits eligible participants to make pre-tax contributions and provides for matching and other

employer contributions. Effective August 1, 2008, new participants as well as participants whose benefits have been frozen under the TRP and, if applicable, the SERP, commenced receiving higher matching contributions under the 401(k) Plan. At that time, the matching contribution rate generally increased from 50% of the first 6% of compensation that an employee elects to contribute to the plan to 100% of the first 5% of compensation. Mr. Lougee, Ms. Harker and Mr. Mayman receive matching contributions under the higher match formula, and Ms. Beall receives matching contributions under the old formula. Beginning in 2018, Ms. Beall will be eligible to receive matching contributions under the higher matching formula due to her SERP benefit being frozen effective as of December 31, 2017. The Company also makes additional employer contributions to the 401(k) Plan on behalf of certain employees; Mr. Mayman has been eligible for such a contribution equal to 1.5% of his cash compensation. Beginning in 2017, these additional contributions are being made to the TEGNA Deferred Compensation Plan for certain participants who are eligible to receive this additional contribution, including Mr. Mayman. For purposes of the 401(k) Plan and subject to Internal Revenue Code limits, compensation generally includes a participant's base salary, performance-based bonuses, and pre-tax contributions to the Company's benefit plans. Company contributions under the 401(k) Plan vest 25% after one year of service, 50% after two years of service and 100% after three years of service. As of the date of this Proxy Statement, Company contributions are 100% vested for each of the NEOs. Effective January 1, 2018, the matching contribution rate was changed to 100% of the first 4% of compensation that an employee elects to contribute to the plan and such Company contributions are immediately vested when they are made, without regard to years of service.

TEGNA Deferred Compensation Plan (DCP)

Each NEO who participates in the DCP may elect to defer all or a portion of his or her compensation under the DCP, provided that the minimum deferral must be \$5,000 for each form of compensation (base salary and bonus) for the year of deferral. The amounts deferred by each NEO are vested and will be deemed invested in the fund or funds designated by such NEO from among a number of funds offered under the DCP.

Table of Contents**EXECUTIVE COMPENSATION**

How the Committee Determines NEO Compensation

The DCP provides for Company contributions on behalf of certain employees whose benefits under the 401(k) Plan are capped by Internal Revenue Code rules that limit the amount of compensation that can be taken into account when calculating benefits under a qualified plan. Generally, Company contributions to the DCP are calculated by applying the same formula that applies to an employee's matching and additional employer contributions under the 401(k) Plan to the employee's compensation in excess of the Internal Revenue Code compensation limit. Additional employer contributions that would normally be made to the 401(k) Plan may instead be made to the DCP to comply with IRS testing requirements that apply to the 401(k) Plan. Participants are not required to make elective contributions to the DCP to receive an employer contribution under the DCP. Company contributions under the DCP vest 25% after one year of service, 50% after two years of service and 100% after three years of service. Mr. Lougee, Ms. Harker and Mr. Mayman each has been credited with Company contributions to the DCP. Each of Mr. Lougee, Ms. Harker and Mr. Mayman was immediately vested in his or her Company contribution when it was made. Executives who have continued to accrue benefits under the SERP for calendar years after August 1, 2008, including Ms. Beall, have not been eligible to receive Company contributions under the DCP. However, beginning in 2018, Ms. Beall will be eligible to receive Company contributions due to her SERP benefit being frozen effective as of December 31, 2017.

Amounts that a participant elects to defer into the DCP are generally paid at the time and in the form elected by the participant, provided that if the participant terminates employment before attaining age 55 and completing five years of service, benefits are paid in a lump sum amount upon such termination (although for pre-2005 deferrals the Committee may pay such deferrals in five annual installments). The DCP permits participants to receive in-service withdrawals of participant contributions for unforeseeable emergencies and certain other circumstances. Prior to when the deferrals are made, a participant may make a special election as to the time and form of payment for benefits that become payable due to the participant's death or disability if payments have not already commenced, and deferrals will be paid in accordance with such elections under those circumstances. Company contributions to the DCP are generally paid in the form of a lump sum amount when a participant separates from service. The payment of post-2004 Company and participant DCP contributions is accelerated in the event that the Company undergoes a change in control.

TEGNA Transitional Compensation Plan (TCP)

The TCP is a legacy plan that provides severance pay for some of our NEOs and other key executives upon a change in control of the Company. Ms. Harker, Ms. Beall and Mr. Mayman participate in the TCP. Ms. Harker first participated in the TCP after April 15, 2010. Although Mr. Lougee first participated in the TCP before April 15, 2010, following the completion of the Cars.com Spin-off, Mr. Lougee ceased participation in the TCP and became a participant in the CIC Severance Plan.

On December 8, 2015, the Company, consistent with its practice of updating its plans and programs from time to time in light of evolving market trends, froze participation in the TCP and, effective December 15, 2016, additional service credit accruals for existing participants.

The TCP assures the Company that it would have the continued dedication of, and the availability of objective advice and counsel from, key executives notwithstanding the possibility, threat or occurrence of a change in control. As a result, we believe the TCP helps promote the retention and continuity of certain key executives for at least one year after a change in control. The Board believes it is imperative that the Company and the Board be able to rely upon key executives to continue in their positions and be available for advice, if requested, in connection with any proposal relating to a change in control without concern that those individuals might be distracted by the personal uncertainties and risks created by such a proposal. Change in control arrangements also facilitate the Company's ability to attract and retain management as the Company competes for talented employees in a marketplace where such protections are common.

With those goals in mind, the TCP provides that participants would be entitled to compensation following a change in control if (1) within two years from the date of the change in control the participant's employment is terminated by the Company other than for cause, or by the employee for good reason, or (2) in the case of executives participating in the TCP before April 15, 2010 (but not those who first participate in the TCP on or after that date), within a 30-day window period beginning on the first anniversary of the change in control, the executive terminates his or her employment voluntarily.

Following is a summary of several key terms of the TCP:

change in control means the first to occur of: (1) the acquisition of 20% or more of our then-outstanding shares of common stock or the combined voting power of our then-outstanding voting securities; (2) our incumbent directors cease to constitute at least a majority of the Board, except in connection with the election of directors approved by a vote of at least a majority of the directors then comprising the incumbent Board; (3) consummation of our sale in a merger or similar transaction or sale or other disposition of all or substantially all of our assets; or (4) approval by our shareholders of the Company's complete liquidation or dissolution.

Table of Contents**EXECUTIVE COMPENSATION**

How the Committee Determines NEO Compensation

cause means (1) any material misappropriation of Company funds or property; (2) the executive's unreasonable and persistent neglect or refusal to perform his or her duties which is not remedied in a reasonable period of time following notice from the Company; or (3) conviction of a felony involving moral turpitude.

good reason means the occurrence after a change in control of any of the following without the participant's express written consent, unless fully corrected prior to the date of termination: (1) a material diminution of an executive's duties or responsibilities; (2) a reduction in, or failure to pay timely, the executive's compensation and/or other benefits or perquisites; (3) the relocation of the executive's office outside the Washington, D.C. metropolitan area or away from the Company's headquarters; (4) the failure of the Company or any successor to assume and agree to perform the TCP; or (5) any purported termination of the executive's employment other than in accordance with the TCP. Any good faith determination of good reason made by the executive shall be conclusive.

severance period means a number of whole months equal to the participant's months of continuous service with the Company or its affiliates divided by 3.33; provided, however, that in no event shall the participant's severance period be less than 24 months or more than 36 months, regardless of the participant's actual length of service. As of December 31, 2017, the severance periods for Ms. Harker, Ms. Beall and Mr. Mayman are 24, 36 and 36 months, respectively.

A NEO entitled to compensation under the TCP would receive:

Pension. In addition to their vested TRP and SERP benefits, upon their termination of employment, TCP participants are entitled to a lump sum payment equal to the difference between (1) the amount that would have been paid under the SERP had the executive remained in the employ of the Company for the severance period and received the same level of base salary and bonus which the executive received with respect to the fiscal year immediately preceding the date of the change in control or the termination date, whichever is higher, and (2) the amount payable under the SERP as of the later of the date of the change in control or the termination date, whichever is higher. The SERP benefit of Mr. Mayman was subject to the service and pay freeze as of August 1, 2008. Ms. Beall and Mr. Mayman each is 100% vested in her or his SERP benefit. The TCP would provide each of Ms. Beall and Mr. Mayman with cost-of-living increases on her or his SERP benefit through the end of his severance period. Ms. Harker does not participate in the TRP or the SERP.

Payments. Upon a TCP participant's qualifying termination of employment, the participant is entitled to receive a lump sum amount equal to the sum of (i) any unpaid base salary through the date of termination at the higher of

the base salary in effect immediately prior to change in control or on the termination date; and (ii) an amount equal to the highest annual bonus paid in the three preceding years which is prorated to reflect the portion of the fiscal year in which the participant was employed prior to termination. Additionally, TCP participants are paid a lump sum cash severance payment equal to the participant's severance period divided by twelve multiplied by the sum of (1) the executive's highest base salary during the 12-month period prior to the termination date or, if higher, during the 12-month period prior to the change in control (plus certain other compensation items paid to the participant during the 12-month period prior to the date of termination), and (2) the greater of (a) the highest annual bonus earned by the executive in the three fiscal years immediately prior to the year of the change in control or (b) the highest annual bonus earned by the executive with respect to any fiscal year during the period between the change in control and the date of termination.

Excise Tax Gross-Ups. Executives participating in the TCP before April 15, 2010 (but not those who first participated in the TCP on or after that date) would be entitled to receive payment of an amount sufficient to make them whole for any excise tax imposed on the payment under Section 4999 of the Internal Revenue Code. The effects of Section 4999 generally are unpredictable and can have widely divergent and unexpected effects based on an executive's personal compensation history. Therefore, to provide an equal level of benefit across individuals without regard to the effect of the excise tax, the Company has determined that excise tax gross-up payments are appropriate for certain TCP participants. Executives, such as Ms. Harker, who first participated in the TCP on or after April 15, 2010, will not receive a Section 4999 excise tax gross-up payment. Although Mr. Lougee first participated in the TCP before April 15, 2010, following the completion of the Cars.com Spin-off, when he succeeded Ms. Martore as President and CEO of the Company, he gave up his right to receive a Section 4999 excise tax gross-up payment by ceasing his participation in the TCP in order to become a participant in the TEGNA 2015 Change-in-Control Severance Plan. The change of control benefits for executives who are not entitled to receive a Section 4999 excise tax gross-up payment will be reduced to \$1 less than the amount that would trigger such taxes if such a reduction would put them in a better after-tax position.

Medical and Life Insurance. For purposes of determining a TCP participant's eligibility for retiree life insurance and medical benefits, the participant is considered to have attained the age and service credit that the participant would have attained had the participant remained employed until the end of the severance period. Additionally, each TCP participant receives life and medical insurance benefits for the severance period in amounts no less than those that would have been provided had the participant not been terminated.

TEGNA 2015 Change in Control Severance Plan

On December 8, 2015, the Company adopted the TEGNA 2015 Change in Control Severance Plan (CIC Severance Plan). The CIC Severance Plan provides severance pay for certain key executives, including Mr. Lougee, upon a change in control of the Company in order to assure the Company that it will have the continued dedication of, and the availability of objective advice and counsel from, key executives notwithstanding the possibility, threat or occurrence of a change in control. The Board believes it is imperative that the Company and the Board be able to rely upon key executives to continue in their positions and be available for advice, if requested, in connection with any proposal relating to a change in control without concern that those individuals might be distracted by the personal uncertainties and risks created by such a proposal. Change in control arrangements also facilitate the Company's ability to attract and retain management as the Company competes for talented employees in a marketplace where such protections are common.

With those goals in mind, the CIC Severance Plan provides that a participant would be entitled to compensation if the participant is terminated prior to and in connection with a change in control or if within two years from the date of the change in control the participant's employment is terminated by the Company other than for cause, or by the participant for good reason.

Following is a summary of several key terms of the CIC Severance Plan:

change in control means the first to occur of: (1) the acquisition of 20% or more of the Company's outstanding shares of common stock or the combined voting power of the Company's outstanding voting securities; (2) the Company's incumbent directors ceasing to constitute at least a majority of the Board, except in connection with the election of directors approved by a vote of at least a majority of the directors then comprising the incumbent Board; (3) consummation of a sale of the Company in a merger or similar transaction, or sale or other disposition of all or substantially all of the Company's assets; or (4) approval by the Company's shareholders of the Company's complete liquidation or dissolution.

cause means (1) the participant's material misappropriation of Company funds or property; (2) the participant's unreasonable and persistent neglect or refusal to perform his or her duties which is not remedied within 30 days following notice from the Company; or (3) the participant's conviction, including a plea of guilty or of nolo contendere, of a securities law violation or a felony.

good reason means the occurrence after a change in control of any of the following without the participant's express written consent, unless fully corrected prior to the date of termination: (1) a material diminution of the participant's duties, authorities or responsibilities; (2) a reduction in the participant's base salary or target bonus

opportunity; (3) a failure to provide the participant with an annual long-term incentive opportunity whose grant date value is equivalent to or greater in value than participant's regular annual long-term incentive opportunity in effect on the date of the change in control; (4) the relocation of the participant's office from the location at which the participant is principally employed immediately prior to the date of the change in control to a location 35 or more miles farther from the participant's residence immediately prior to the change in control, or the Company's requiring the participant to be based anywhere other than the Company's offices, except for required travel on the Company's business to an extent substantially consistent with the participant's business travel obligations prior to the change in control; (5) the failure by the Company to pay any compensation or benefits due to the participant; (6) the failure of the Company to obtain a satisfactory agreement from any successor to assume and agree to perform the CIC Severance Plan; or (7) any purported termination of the participant's employment that is not effected pursuant to the CIC Severance Plan.

multiplier means 3.0 for the Company's CEO as of the date of the change in control; 2.0 for a participant who on the date of the change in control is a member of the Company's executive leadership team and reports directly to the Company's CEO; and 1.0 for other participants. Mr. Lougee's multiplier is 3.0.

A NEO entitled to compensation under the CIC Severance Plan would receive:

Payments. Upon a participant's qualifying termination of employment, the participant is entitled to receive a lump sum amount equal to the sum of (1) any unpaid base salary or bonus through the date of termination; and (2) a prorated annual bonus for the portion of the fiscal year elapsed prior to the termination date in an amount equal to the average annual bonus the participant earned with respect to three fiscal years immediately prior to the fiscal year in which the termination date occurs prorated for the portion of the fiscal year elapsed prior to the termination date. Additionally, participants are paid a lump sum cash severance payment equal to a multiplier that is designated for the participant times the sum of (1) the participant's annual base salary at the highest rate of salary during the 12-month period immediately prior to the termination date or, if higher, during the 12-month period immediately prior to the change in control (in each case, as determined without regard for any reduction for deferred compensation, 401(k) plan contributions and similar items), and (2) the greater of (A) the average annual bonus the participant earned with respect to the three fiscal years immediately prior to the fiscal year in which the change in control occurs; and (B) the average annual bonus the participant earned with respect to the three fiscal years immediately prior to the fiscal year in which the termination occurs.

COBRA Benefit. A participant will receive an amount equal to the monthly COBRA cost of the participant's medical and dental coverage in effect as of the date of termination multiplied by the lesser of (1) 18; or (2) 24 minus the number of full months between the date of the change in control and the date of termination. Benefits are subject to the participant executing a release and agreeing to certain restrictive covenants.

TEGNA Executive Severance Plan (TESP)

On December 8, 2015, the Company adopted the TEGNA Inc. Executive Severance Plan (TESP). Each of the NEOs participate in the TESP. The plan provides severance payments to each of the NEOs and other executives of the Company approved by the Committee in the event of certain involuntary terminations of employment. Under the TESP, a participant who experiences an involuntary termination of employment without cause would receive a lump-sum cash severance payment equal to the product of (a) a severance multiple; and (b) the sum of the participant's (1) annual base salary and (2) average annual bonus earned for the three fiscal years immediately preceding the termination. The severance multiple is 2.0 for a participant who is the Company's Chief Executive Officer, 1.5 for a participant who is a member of the Company's executive leadership team who reports directly to the Company's Chief Executive Officer, and 1.0 for all other participating executives. In addition, participating executives would receive a lump sum amount equal to the sum of (1) any unpaid base salary or bonus through the date of termination; and (2) a prorated annual bonus for the portion of the fiscal year elapsed prior to the termination. The severance payment is contingent upon the participant's execution of a separation agreement containing a release of claims in favor of the Company and its affiliates and covenants restricting the participant's competition, solicitation of employees, disparagement of the Company and its affiliates, and disclosure of confidential information. The separation agreement also contains a release of claims by the Company and its affiliates in favor of the participant and a covenant restricting the Company's disparagement of the participant. The severance multiples for Mr. Lougee, Ms. Harker, Ms. Beall and Mr. Mayman are 2.0, 1.5, 1.5 and 1.5, respectively.

In May 2017, the Company entered into a letter agreement with Ms. Harker pursuant to which she was entitled participation in the TESP or a plan that provides substantially similar benefits through February 28, 2018. Following that date, Ms. Harker is permitted to terminate her employment with the Company voluntarily and receive the benefits contemplated by the TESP or such other severance plan, subject to her compliance with certain notice requirements and the terms of such plan (including the execution of a release of claims) and provided that circumstances have not arisen entitling the Company to terminate her employment for cause.

Additional information regarding severance benefits for the Company's NEOs is set forth in the section of this Proxy Statement entitled "Other Potential Post-Employment Payments."

Other Compensation Policies

RECOUPMENT POLICY

The Company has adopted a recoupment or clawback policy that applies to cash-based and equity-based incentive compensation awards granted to the Company's employees, including the NEOs. Under the policy, to the extent permitted by applicable law and subject to the approval of the Committee, the Company may seek to recoup any incentive based compensation awarded to any employee subject to the policy, if (1) the Company is required to prepare an accounting restatement due to the material noncompliance with any financial reporting requirement under the securities laws, (2) the fraud or intentional misconduct of an employee subject to the policy contributed to the noncompliance that resulted in the obligation to restate, and (3) a lower award of incentive-based compensation would have been made to the covered employee had it been based upon the restated financial results. The policy is in addition to any other remedies the Company may have, including those available under Section 304 of the Sarbanes-Oxley Act of 2002, as amended.

HEDGING, SHORT-SELLING AND PLEDGING POLICY

The Company has adopted a policy that prohibits the Company's employees and directors from purchasing financial instruments that are designed to hedge or offset any fluctuations in the market value of the Company's equity securities they hold, purchasing the Company's shares on margin and selling any securities of the Company short. The policy also prohibits the Company's directors and executive officers from borrowing against any account in which the Company's equity securities are held or pledging the Company's equity securities as collateral for a loan. These prohibitions apply whether or not such equity securities were acquired through the Company's equity compensation programs.

How the Committee Determines NEO Compensation

Tax Considerations

Effective January 1, 2018, Section 162(m) of the Internal Revenue Code generally disallows a tax deduction to public corporations for compensation over \$1,000,000 paid to an individual who was the company's CEO, CFO or one of the company's next three other most highly compensated executive officers in any year after 2016 (covered employee). Prior to January 1, 2018, Section 162(m) provided for an exception to the deduction limit for qualifying performance-based compensation if specified requirements were met, and the deduction limit did not apply to the CFO or an individual who was not the company's CEO or one of the company's three most highly compensated employees as of the last day of the fiscal year. The Tax Cuts and Jobs Act of 2017 amended Section 162(m) by eliminating the performance-based exception and expanding the individuals who are treated as covered employees.

Prior to 2018, the Committee structured Performance Shares and annual bonuses to executive officers in a manner that was intended to satisfy the performance-based compensation exception. Because of ambiguities and uncertainties as to the application and interpretation of Section 162(m) and the regulations issued thereunder, no assurance can be given, notwithstanding the Committee's efforts, that compensation intended by the Company to satisfy the requirements for deductibility under Section 162(m) does in fact do so. For 2017, \$584,565 of the compensation paid to Mr. Lougee and \$42,557 of the compensation paid to Mr. Mayman was not deductible under Section 162(m).

After 2017, subject to limited transition relief for certain written binding contracts in effect on November 2, 2017, the Company will generally not be able to obtain a tax deduction for compensation paid to a covered employee in excess of \$1,000,000. As was true for years prior to 2018, the Committee reserves the right to award non-deductible compensation as it deems appropriate.

2018 Compensation Outlook: The Company's Long-term Incentive Program

Following the Cars.com Spin-off, the Committee, with the assistance of its independent compensation consultant, Meridian and Company management, engaged in a seven-month review of the Company's long-term incentive program (the LTI Program). The purpose of the review, which included an assessment of the design, structure and competitiveness of the LTI Program, was to (1) determine whether the LTI Program was competitive with the programs of the Company's peer group, (2) confirm that the LTI Program continued to create appropriate incentives to motivate long term financial and operational performance, and (3) address the continuing consolidation in the media industry which had created challenges in creating a meaningful TSR peer group for the Company. Company management, on behalf of the Committee, also solicited input from the Company's shareholders regarding the changes to the LTI Program it was considering.

Following this review, during which the Company received positive shareholder feedback regarding its proposed changes to the LTI Program, the Committee decided to continue the use of RSUs in the LTI Program, but determined that it was in the best interests of the Company's shareholders and employees to modify the Company's Performance Share awards as follows:

Change the performance metric for awarding Performance Shares from a metric based on the relative total shareholder return of the Company versus a TSR Peer Group to a performance metric based on the Company's Adjusted EBITDA (with a 2/3 weighting) and Free Cash Flow as a Percentage of Revenue (with a 1/3 weighting) for a specified performance period compared to pre-established target goals; and

Replace the 3-year performance and vesting period of the Performance Share awards with a 2-year performance period and a 3-year vesting period.

The Committee determined that using the Company's total shareholder return as a performance metric had become increasingly difficult because of the significant amount of M&A activity that had taken place in the Company's peer group, reducing the number of potential peer group members. For additional information regarding such M&A activity, see [Impact of Certain Transactions on Performance Share Awards Involving 2015-2017 TSR Peer Group Members](#).

The Committee chose a 2-year performance period for the Performance Shares in order to address the significant cyclical revenue increase the Company experiences in even-numbered years as a result of (1) political spending during mid-term and presidential election years as a result of the Company's strong political footprint, and (2) the summer and winter Olympic games, resulting from the Company being the largest group owner of stations affiliated with NBC, which broadcasts the Olympic Games.

For each year of the two-year performance period, the target performance goals will be based on the Company's budgeted goals for such year, with the target performance goals for the first-year of the two-year performance period set prior to the grant date and the target performance goals for the second year of the two-year performance period set during the first 60 days of the second year.

EXECUTIVE COMPENSATION COMMITTEE REPORT

The Executive Compensation Committee met with management to review and discuss the Compensation Discussion and Analysis disclosures included in this Proxy Statement. Based on such review and discussion, on February 22, 2018 the Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and incorporated by reference in the Company's Form 10-K for its 2017 fiscal year, and the Board has approved that recommendation.

- (1) See the Compensation Discussion and Analysis section for a discussion of how the 2017 bonus amounts were determined. The amount reported in this column for Ms. Beall includes \$2,019 received in connection with a companywide incentive program. The amount reported in this column for Mr. Williams in 2017 includes a \$100,000 bonus granted to Mr. Williams in lieu of a 2017 long-term equity award.
- (2) The amounts reported in this column for Mr. Lougee and Ms. Beall in 2017 include grants related to their respective promotions. The amounts reported in this column for Ms. Harker and Mr. Mayman in 2015 include grants related to their respective promotions. Amounts in this column represent the aggregate grant date fair value of Performance Share and RSU awards computed in accordance with Accounting Standards Codification 718, Compensation Stock Compensation (ASC 718) based on the assumptions set forth in note 9 to the Company's 2017 audited financial statements. The amounts reported in this column are not paid to or realized by the NEO. There can be no assurance that the ASC 718 amounts shown in this column will ever be realized by an executive officer. The value of grants of Performance Shares included above have been calculated assuming the target level of performance is met, which we consider to be the most probable outcome. If grants of Performance Shares were calculated assuming the maximum level of performance was met, the amounts shown in this column for Mr. Lougee would be: 2017: \$4,359,996; 2016: \$2,392,485; and 2015: \$2,310,301; for Ms. Harker: 2017: \$2,309,971; 2016: \$2,268,755; and 2015: \$2,461,758; for Ms. Beall: 2017: \$1,015,004; for Mr. Mayman: 2017: \$1,443,750; 2016: \$1,400,035; and 2015: \$1,660,160; for Ms. Martore: 2017: \$0; 2016: \$8,750,019; and 2015: \$8,751,221; and for Mr. Williams: 2017: \$0; 2016: \$2,062,482; and 2015: \$1,939,036.
- (3) The amount reported in this column for Ms. Harker represents the portion of the cash incentive award granted to Ms. Harker on May 4, 2017 in connection with the Cars.com Spin-off that vested on December 31, 2017 due to her remaining in continuous, active employment with the Company through that date. The amount reported in this column for Ms. Martore represents the portion of the cash incentive award granted to Ms. Martore on February 27, 2017 that she received in June 2017 for her services in 2017.
- (4) Amounts in this column represent the aggregate increase, if any, of the accumulated benefit liability relating to the NEO (other than Ms. Martore and Mr. Williams for 2017) under the TRP and the SERP in the applicable fiscal year. Amounts are calculated by comparing values as of the pension plan measurement date used for the Company's financial statements for the applicable fiscal years. This includes the value of any additional service accrued, the impact of any compensation increases received, the impact of any plan amendments made during the period, and growth attributable to interest, if applicable. The Company uses the same assumptions it uses for financial reporting under generally accepted accounting principles with the exception of retirement age, pre-retirement mortality and probability of terminating employment prior to retirement. The assumed retirement age for the above values is the earliest age at which an executive could retire without any benefit reduction due to age. The above values are calculated assuming each NEO survives to the assumed retirement age. The amounts reported in this column shown for Mr. Lougee include the accumulated benefit liability related to his legacy Belo

Corp. pension benefit. The change in pension value for Mr. Lougee in 2015 has been listed as \$0 because his accumulated benefit liability decreased by \$18,452 during that year as a result of a 40-basis point increase in the discount rate used to calculate the pension value of his legacy Belo Corp. pension benefit (from 4.2% in 2015 to 4.6% in 2016). The amounts reported in this column

Table of Contents**EXECUTIVE COMPENSATION**

Summary Compensation Table

shown for Ms. Harker reflect the fact that she does not participate in the TRP or the SERP. The amounts reported in this column for Ms. Martore and Mr. Williams in 2017 reflect the present value of their respective accumulated SERP benefits as of December 31, 2017 (which SERP benefits were paid in 2018) plus the respective TRP lump sum distributions made to each of them in 2017 less the present value of their respective accumulated accrued TRP and SERP benefits as of December 31, 2016.

- (5) Amounts for 2017 reported in this column include (i) life insurance premiums paid by the Company (or cash in lieu of premium payment) for Mr. Lougee in the amount of \$41,298, Ms. Beall in the amount of \$13,758, and Mr. Mayman in the amount of \$27,892 (for an explanation of the Company's life insurance programs, see footnote 4 to the Potential Payments to NEOs Upon Termination table beginning on page 54 of this Proxy Statement); (ii) matching contributions of \$8,100 to the 401(k) accounts of Ms. Beall, Ms. Martore and Mr. Williams, matching contributions of \$13,500 to each of the respective 401(k) accounts of Mr. Lougee, Ms. Harker and Mr. Mayman and an additional employer contribution of \$4,050 to the 401(k) account of Mr. Mayman; (iii) Company contributions into the DCP accounts of Mr. Lougee, Ms. Harker and Mr. Mayman in the amounts of \$70,667, \$54,000 and \$50,375, respectively (for an explanation of these payments, see the discussion of the TEGNA Deferred Compensation Plan beginning on page 35 of this Proxy Statement); (iv) premiums paid by the Company for supplemental medical coverage for each NEO other than Ms. Harker; (v) other than for Ms. Harker, a Company-provided automobile (beginning in 2012, the Company no longer provides this benefit to new senior executives), (vi) legal and financial services; (vii) TEGNA Foundation grants to eligible charities recommended by each NEO of up to \$15,000 annually (beginning in 2013, the Company no longer provides this benefit to new senior executives, including Ms. Beall); (viii) premiums paid by the Company for travel accident insurance; (ix) the payout of accrued vacation to Ms. Martore in the amount of \$38,462; and (x) a gift provided to Ms. Martore in connection with her retirement. The NEOs also occasionally receive tickets to sporting events for personal use if the tickets are not needed for business use, for which the Company does not incur incremental costs.

(2) These amounts represent the threshold, target and maximum cash incentive awards granted to Ms. Harker and Ms. Martore under the Company's 2001 Omnibus Incentive Compensation Plan (amended and restated as of May 4, 2010), as amended. Each award is based on the executive's service to the Company following the grant date of award with the threshold amount equal to \$0 (if the executive separates from the Company immediately following the grant date) and the maximum amount equal to the amount the executive would receive if he or she remains in continuous service with the Company through the applicable vesting date(s). Seventy percent (70%) of

Ms. Harker's incentive award vested on December 31, 2017 and was paid shortly thereafter, with the remaining 30% of the award scheduled to vest on June 1, 2018. As noted on the Summary Compensation Table, Ms. Martore received a prorated payment of this award in the amount of \$2,100,000 on June 9, 2017.

- (3) These share numbers represent the threshold, target and maximum Performance Share awards under the Performance Share awards for the 2017-2019 Incentive Period. The threshold award is 50% of the target Performance Share award, and the maximum award is 200% of the target Performance Share award. Awards made prior to June 1, 2017 were adjusted in connection with the Cars.com Spin-off as discussed in the Compensation Discussion and Analysis.
 - (4) The RSU grants reported in this column generally vest in four equal annual installments and, unless delivered to the NEO earlier following a change in control of the Company, the corresponding vested shares of the Company's common stock will be delivered to the NEO in four equal annual installments beginning on January 2, 2018.
 - (5) The full grant date fair value of the awards was computed in accordance with ASC 718, based on the assumptions set forth in note 9 to the Company's 2017 audited financial statements. There can be no assurance that the ASC 718 amounts shown in the table will ever be realized by an executive officer. Amounts shown for grants of Performance Shares have been calculated assuming the target level of performance is met.
- * Grants made in connection with promotions following the Cars.com Spin-off.

before and immediately after the Cars.com Spin-off. In addition, in connection with the Publishing Spin-off, each outstanding Company stock option award was converted into an award of options to purchase shares of Company common stock and options to purchase Gannett common stock. As a result, the number of shares of Company common stock underlying these unexercised options and the exercise price of such unexercised options were adjusted in a manner intended to preserve the aggregate intrinsic value of the original Company stock option award as measured immediately before and immediately after the Publishing Spin-off, taking into account the value of the award of options to purchase shares of Gannett common stock.

- (2) These RSUs will vest on December 31, 2018. The value of these RSUs is based on the product of the number of RSUs multiplied by \$14.08, the closing price of a share of Company stock on December 29, 2017. There can be no assurance that the amounts shown in the table will ever be realized by an executive officer.
- (3) These RSUs will vest in two equal annual installments ending on December 31, 2019. The value of these RSUs is based on the product of the number of RSUs multiplied by \$14.08, the closing price of a share of Company stock on December 29, 2017. There can be no assurance that the amounts shown in the table will ever be realized by an executive officer.
- (4) These RSUs will vest in three equal annual installments ending on December 31, 2020. The value of these RSUs is based on the product of the number of RSUs multiplied by \$14.08, the closing price of a share of Company stock on December 29, 2017. There can be no assurance that the amounts shown in the table will ever be realized by an executive officer.
- (5) These share numbers represent the target Performance Share awards under the Performance Share awards for the 2016-2018 Incentive Period. If the performance conditions are met, these Performance Shares are eligible to vest on December 31, 2018. The value of these Performance Shares is estimated assuming the target number of Performance Shares is earned and by multiplying the target number of Performance Shares by \$14.08, the closing price of a share of Company stock on December 29, 2017. There can be no assurance that the amounts shown in the table will ever be realized by an executive officer.
- (6) These share numbers represent the target Performance Share awards under the Performance Share awards for the 2017-2019 Incentive Period. If the performance conditions are met, these Performance Shares are eligible to vest on December 31, 2019. The value of these Performance Shares is estimated assuming the target number of Performance Shares is earned and by multiplying the target number of Performance Shares by \$14.08, the closing price of a share of Company stock on December 29, 2017. There can be no assurance that the amounts shown in the table will ever be realized by an executive officer.
- (7) As a consequence of the Cars.com Spin-off, certain equity awards made prior to 2017 were converted into awards denominated both in shares of Company common stock and in shares of Cars.com common stock. In addition to the Company awards identified in the above table, at the end of our 2017 fiscal year our NEOs held equity awards denominated in shares of Cars.com common stock as discussed below.

Mr. Lougee: RSUs vesting on December 31, 2018 covering 1,670 Cars.com shares; and Performance Shares for the 2016-2018 Incentive Period representing 10,237 Cars.com shares, assuming the target level of performance for that Incentive Period is met.

Neither Ms. Martore nor Mr. Williams took ownership of the vested Cars.com shares until January 2018 because the payment of the award was delayed pursuant to the requirements of Section 409A which requires a six-month delay for certain payments made to specified employees of publicly-traded companies following termination of employment.
- (4) In addition to the amounts shown in the above table, each of the NEOs also received Cars.com shares on January 3, 2018 and January 23, 2018 in respect of the payout of Performance Shares for the 2015-2017 Incentive Period, as follows: Mr. Lougee: 7,703 Cars.com shares acquired on January 3, 2018 and 2,810 Cars.com shares acquired on January 23, 2018, realizing an aggregate of \$307,747 in value; Ms. Harker: 7,207 Cars.com shares acquired on January 3, 2018 and 2,629 Cars.com shares acquired on January 23, 2018, realizing an aggregate of \$287,929 in value; Ms. Beall: 2,159 Cars.com shares acquired on January 3, 2018 and 787 Cars.com shares acquired on January 23, 2018, realizing an aggregate of \$86,238 in value; Mr. Mayman: 4,317 Cars.com shares acquired on January 3, 2018 and 1,575 Cars.com shares acquired on January 23, 2018, realizing an aggregate of \$172,477 in value; Ms. Martore: 31,744 Cars.com shares acquired on January 3, 2018 and 11,577 Cars.com shares acquired on January 23, 2018, realizing an aggregate of \$1,268,132 in value; and Mr. Williams: 5,208 Cars.com shares acquired on January 3, 2018 and 1,900 Cars.com shares acquired on January 23, 2018, realizing an aggregate of \$208,073 in value, in each case based upon the closing price of a share of Cars.com stock on December 29, 2017 of \$28.84 and a closing price of a share of Cars.com stock on January 19, 2018 of \$30.46.
- (5) These share amounts include (a) 25% of the Company's RSU awards granted on January 1, 2017 which vested on December 31, 2017 (which RSUs were paid to the NEOs by the Company on January 3, 2018; (b) 25% of the Company's RSU awards granted on January 1, 2016 which vested on December 31, 2017 (which RSUs will not be paid by the Company until the earliest to occur of (i) December 31, 2019, (ii) the executive's termination of employment, and (iii) certain changes in control of the Company); (c) 25% of the Company RSU awards granted on January 1, 2015 which vested on December 31, 2017 (which RSUs will not be paid by the Company until the earliest to occur of (i) December 31, 2018, (ii) the executive's termination of employment, and (iii) a change in control of the Company); (d) Company RSU awards granted on January 1, 2014 that vested in their entirety on December 31, 2017; and (e) Company Performance Shares that vested based on the results of the 2015-2017 Incentive Period, which ended December 31, 2017.

- (6) For each of the NEOs other than Ms. Martore and Mr. Williams, these amounts equal the product of the aggregate number of vested Company RSU shares multiplied by \$14.08, the closing price of a share of Company stock on December 29, 2017, the last trading date before the vesting date, plus the product of the number of Performance Shares earned for the first three lock-in quarters of the 2015-2017 Incentive Period, which were paid on January 3, 2018, multiplied by \$14.08, the closing price of a share of Company stock on December 29, 2017, the date the Performance Shares earned for the first three lock-in quarters were priced in order to deliver the Performance Shares (net of shares withheld to pay taxes) to participants on January 3, 2018 for the first three lock-in quarters of 2015-2017 Incentive Period, plus the product of the number of Performance Shares earned for fourth and final lock-in quarter of the 2015-2017 Incentive Period, which were paid on January 23, 2018, multiplied by \$15.14, the closing price of a share of Company stock on January 19, 2018, the date the Performance Shares earned for the fourth and final lock-in quarter were priced in order to deliver the Performance Shares (net of shares withheld to pay taxes) to participants on January 23, 2018 for the fourth lock-in quarter of the 2015-2017 Incentive Period. For Ms. Martore and Mr. Williams, these amounts are calculated as for the other NEOs, except the value of their vested Company RSUs equals the product of the aggregate number of vested Company RSU shares multiplied by \$14.68, the closing price of a share of Company stock on June 2, 2017, the vesting date.
- (7) Ms. Martore's RSUs vested in their entirety on June 2, 2017, the date of her retirement from the Company. However, Ms. Martore did not take ownership of the vested shares until January 2018 because the payment of the award was delayed pursuant to the requirements of Section 409A of the Internal Revenue Code. Section 409A requires a six-month delay for certain payments made to specified employees of publicly-traded companies following termination of employment.
- (8) Mr. Williams' RSUs vested on a pro rata basis (based on the number of full months worked during the term of the applicable grant) on June 2, 2017, the date of his qualified termination from the Company. However, Mr. Williams did not take ownership of the vested shares until January 2018 because the payment of the award was delayed pursuant to the requirements of Section 409A of the Internal Revenue Code. Section 409A requires a six-month delay for certain payments made to specified employees of publicly-traded companies following termination of employment.

PENSION BENEFITS

The table below shows the actuarial present value as of December 31, 2017 of accumulated benefits payable to each of the NEOs, including the number of years of service credited to each, under each of the TEGNA Retirement Plan, or TRP, and the TEGNA Supplemental Retirement Plan, or SERP, in each case, except for Ms. Martore and Mr. Williams, determined using assumptions consistent with those used in the Company's financial statements, except with respect to pre-retirement mortality, probability of turnover prior to retirement and retirement age. The table below reflects an immediate retirement for all NEOs who participate with respect to the TRP and the SERP. The present value of accumulated benefits payable to Ms. Martore and Mr. Williams is the respective SERP lump sum benefit paid in January 2018. The amounts reported in the table reflect payment at the earliest point in time at which benefits are available without any reduction for age. Information regarding the TRP and SERP can be found in the Compensation Discussion and Analysis section under the heading Post-Termination Pay. Ms. Harker does not participate in the TRP or the SERP.

(2) Ms. Beall, Ms. Martore and Mr. Williams each has fewer years of credited service under the TRP than under the SERP. As discussed in the description of the TRP beginning on page 34 of this Proxy Statement, participants in

the TRP ceased accruing credit for additional years of service after the GRP was frozen on August 1, 2008. Ms. Beall, Ms. Martore and Mr. Williams each continued to accrue benefits under the SERP at a reduced rate (as described in the discussion of the SERP found in the Compensation Discussion and Analysis section of this Proxy Statement) based on actual years of service. The Company does not generally provide additional pension service credit to any executive for years not actually worked.

NON-QUALIFIED DEFERRED COMPENSATION

The TEGNA Deferred Compensation Plan, or DCP, is a non-qualified plan that allows Company executives to defer all or a portion of their compensation. Participant contributions that are not treated as if invested in the Company's stock are generally distributed in cash, and amounts that are treated as if invested in the Company's stock are generally distributed in shares of stock or cash, at the Company's election. Effective August 1, 2008, the DCP also provides for Company contributions for certain participants. Additional information regarding the DCP can be found in the Compensation Discussion and Analysis section under the heading Post-Termination Pay.

(1) The Company credits contributions to the DCP on behalf of Mr. Lougee, Ms. Harker and Mr. Mayman in an amount equal to 5%, 5% and 6.5%, respectively, of their respective cash compensation that exceeds the Internal Revenue Code limits on the amount of compensation that can be taken into account when calculating benefits under a qualified plan. These Company contributions are initially treated as invested in Company stock (although participants can reallocate the contributions to other designated investment options) and are distributed in cash. The amounts shown in this column reflect the Company contributions made in February 2018 for services provided by Mr. Lougee, Ms. Harker and Mr. Mayman in 2017, all of which contributions were included in the amounts reported in the All Other Compensation column of the Summary Compensation Table found on page 42 of this Proxy Statement.

Other Potential Post-employment Payments

OTHER POTENTIAL POST-EMPLOYMENT PAYMENTS

The Company's employee benefit programs provide the NEOs with post-termination benefits in a variety of circumstances. The amount of compensation payable may vary depending on the nature of the termination, whether as a result of retirement/voluntary termination, involuntary not-for-cause termination, termination following a change in control or termination in the event of the disability or death of the executive. The following table describes payments the NEOs generally may receive under the Company's employee benefits programs following termination in connection with certain events. Benefits provided to an NEO pursuant to a particular agreement or other arrangement between the Company and the NEO are not described in the table below. Any such benefits are described in the footnotes to the Potential Payments to NEOs Upon Termination table beginning on page 55 of this Proxy Statement.

In addition, following the disclosure relating to the post-employment payments that our currently employed NEOs may receive, we describe the post-employment payments applicable to Ms. Martore, who retired from the Company effective June 2, 2017, and to Mr. Williams, whose employment with the Company ended June 2, 2017.

Other Potential Post-employment Payments

The table below discloses the varying amounts payable to each NEO in each of the noted situations. It assumes, in each case, that the executive's termination was effective as of December 31, 2017. In presenting this disclosure, we describe amounts earned through December 31, 2017, taking into account, where applicable, bonuses paid in 2018 but earned as a result of 2017 performance and, in those cases where the actual amounts to be paid out can only be determined at the time of such executive's separation from the Company, our estimates of the amounts which would have been paid out to the executives upon their termination had it occurred on December 31, 2017. Some payments would be automatically delayed or modified if required under Section 409A of the Internal Revenue Code. In addition, receipt of severance benefits under the TESP generally would be conditioned on the executive signing a separation agreement that includes a release of claims in favor of the Company and its respective affiliates, and agreement to adhere to customary post-employment restrictive covenants. The amounts shown in the Change in Control column represent the estimated incremental payments and benefits that would be payable to each NEO upon a change in control of the Company, assuming that the triggering event and a qualifying termination occurred at year-end 2017, in excess of the compensation and benefit entitlements that are payable to an NEO upon Retirement/Voluntary Termination.

Other Potential Post-employment Payments

(1) In addition to the amounts shown in this row:

(a) in the case of Retirement/Voluntary Termination, Death, Disability or Involuntary Termination, each NEO would receive amounts in respect of RSUs settled in shares of Cars.com common stock, as follows: Mr. Lougee: \$144,488; Ms. Harker: \$204,504; Ms. Beall: \$50,124; and Mr. Mayman: \$169,550; and

(b) in the case of a change in control of the Company or Cars.com, each NEO would receive the following incremental amounts (in excess of what the NEO would receive in the case of his or her Retirement/Voluntary Termination) in respect of RSUs settled in shares of Cars.com common stock, as follows: Mr. Lougee: \$48,163; Ms. Harker: \$68,178; Ms. Beall: \$16,727; and Mr. Mayman: \$56,526, in each case calculated based on a per share stock value of \$28.84, the closing price of a share of Cars.com stock on December 29, 2017.

(2) The amounts shown in this row represent the aggregate value of Performance Shares for the 2016-2018 and 2017-2019 Incentive Periods, which (a) in the case of Retirement/Voluntary Termination, Death, Disability or Involuntary Termination without Cause, are prorated for Mr. Lougee, Ms. Beall and Mr. Mayman based upon the number of full months the NEO has worked during the applicable Incentive Period, assuming payout at 100% of the target amount and a per share stock value of \$14.08, the closing price of a share of Company stock on December 29, 2017; (b) in the case of Death or Disability, are prorated for Ms. Harker based upon the number of full months she has worked during the applicable Incentive Period, assuming payout at 100% of the target amount and a per share stock value of \$14.08; and (c) in the case of a change in control of the Company, assuming payout to each NEO based upon the Company's actual performance versus its respective TSR Peer Groups at the end of 2017, resulting in 0% of the target amounts for the grants made in connection with the Company's 2016-2018 Incentive Period and 74% of the target amounts for the grants made in connection with the Company's 2017-2019 Incentive Period, in each case without proration, and a per share stock value of \$14.08, the closing price of a share of Company stock on December 29, 2017. Notwithstanding the assumptions set forth above, in the case of Retirement/Voluntary Termination, Death, Disability or Involuntary Termination without Cause, Performance Shares will be paid out on the normal payout cycle (following the end of the applicable Incentive Period) based on the Company's relative TSR performance measured at the end of each of the last four quarters in the applicable Incentive Period.

(3) In addition to the amounts reported in this column, our NEOs (other than Ms. Harker who, as of December 31, 2017, has not satisfied the age requirement) receive the following post-retirement benefits and perquisites if they terminate employment after attaining at least 55 years of age and completing at least five years of service: (i) legal and financial counseling services on the same basis as available to an active executive at the time his or her

employment terminates, until April 15 of the year of retirement or the year following retirement; (ii) the ability to purchase the Company-owned car provided to the executive at the time of termination at fair market value; (iii) supplemental medical insurance coverage for the executive and his or her family; and (iv) generally continue to be permitted to recommend TEGNA Foundation grants to eligible charities up to \$15,000 annually for a period of three years after retirement. If the executive is asked to represent the Company at a function or event, the executive is provided travel accident insurance. During the first year, we estimate the expected incremental cost to the Company for these post-retirement benefits would be approximately \$50,000 for each NEO who is eligible to receive them. Thereafter, we estimate the expected annual incremental cost to the Company would be approximately \$25,000 for each NEO who is eligible to receive them. The Company reserves the right, in its sole discretion, to amend or terminate the post-retirement perquisites from time to time.

(4) In connection with the Company's life insurance programs:

NEOs may participate in the Company's Key Executive Life Insurance Program (KELIP). Mr. Lougee and Ms. Beall participate in the KELIP and Ms. Harker and Mr. Mayman have chosen not to participate. Under the KELIP, the face amount of the policy is determined once, at the beginning of the executive's participation in the program, and is equal to the sum of (i) two times the sum of the participant's base salary and last bonus (in each case, at the time of underwriting) increased four percent annually for the lesser of ten years or until the executive reaches age 65, and (ii) \$200,000. The participant's future pay increases have no impact on the face amount of the policy and the coverage level is stepped down to \$500,000 upon the earlier of the participant reaching age 65 or the participant's retirement. The Company will pay premiums (or make cash payments in lieu of premiums) on individual life insurance policies to be owned by the participants, which premiums are expected to range between approximately \$13,000-\$44,000 per participant in 2018. Subject to the terms of his or her participation agreement, the participant's right to receive future annual premium payments may become vested if the participant's employment terminates after attaining both five years of service with the Company and age 55, although annual premium payments after termination of employment cease at age 65. As of December 31, 2017, Mr. Lougee and Ms. Beall have the right to receive these benefits. In lieu of receiving a death benefit under either the Company's group life insurance program or an individual insurance policy maintained by the Company, Mr. Mayman receives annual cash payments.

Death benefits are payable under individual variable universal life insurance policies maintained by the Company and owned by Mr. Lougee and Ms. Beall, respectively. The obligation to pay death benefits to the beneficiary(ies) designated by Mr. Lougee and Ms. Beall pursuant to these insurance policies is that of the insurance company; the Company only pays the insurance premiums on behalf of the NEOs. In 2017, the Company paid insurance premiums on behalf of Mr. Lougee and Ms. Beall. The life insurance proceeds that would have been payable (by the insurance company) to the beneficiary(ies) designated by Mr. Lougee and Ms. Beall, respectively, if a triggering event had occurred as of December 31, 2017 are: Mr. Lougee: \$3,062,792 and Ms. Beall: \$1,775,000.

Ms. Harker continues to participate in the Company's group life insurance program applicable to all employees (which provides for a benefit of one times base salary and last annual bonus, capped at \$1,250,000).

In addition to the reported amount, the Company would continue to provide supplemental medical insurance coverage for their eligible dependents in the event of the deaths of Mr. Lougee, Ms. Beall or Mr. Mayman, for the duration of the life of the eligible dependents. We estimate annual incremental costs to the Company

for this benefit of approximately \$10,000 for each Mr. Lougee, Ms. Beall and Mr. Mayman. Ms. Harker is not eligible to receive this benefit.

(5) The amounts shown for Ms. Harker reflect the fact that she does not participate in the TRP or the SERP.

Table of Contents**EXECUTIVE COMPENSATION**

Other Potential Post-employment Payments

(6) In connection with the Company's disability benefits programs:

Each NEO is entitled to a Company-paid monthly disability benefit. The amounts set forth above represent the present value of the disability benefit applying the following assumptions: (i) the NEO incurred a qualifying disability on December 31, 2017, and the NEO remains eligible to receive disability benefits for the maximum period provided under the plan; (ii) the disability benefits are reduced by certain offsets provided for under the plan (e.g., a portion of the NEO's SERP benefits, if any); and (iii) IRS-prescribed mortality and interest rate assumptions are used to calculate the present value of such benefits.

In the event that Mr. Lougee, Ms. Harker, Ms. Beall or Mr. Mayman become disabled they would be entitled to receive disability benefits under the Company's disability plans, including: during the first six months of disability, disability benefits are paid at 100% of the executive's pre-disability compensation for all or part of the six month period, depending on the length of the executive's service, and if not paid at 100% for the entire six month period, disability benefits are paid at 60% of the executive's pre-disability compensation for the balance of the six month period. After six months, disability benefits are paid at 60% or 50% of the executive's pre-disability compensation, depending on whether the executive elects to pay for additional coverage. Disability benefits are subject to certain conditions, limitations and offsets, and generally continue for the duration of the disability, but not beyond age 65. For those who become disabled near or after age 65, benefits may continue for a specified time beyond age 65 under the terms of the plan.

(7) The amounts set forth in this column represent the estimated incremental payments and benefits that would be payable to each NEO upon a change in control of the Company, assuming that the triggering event and a qualifying termination occurred at year-end 2017. These amounts would be in excess of the compensation and benefit entitlements described in this Proxy Statement that are payable to an NEO upon Retirement/Voluntary Termination absent a change in control.

(8) This amount represents the excise tax gross-up amount an NEO would receive in connection with a change in control of the Company. The amount shown for Mr. Mayman reflects the fact that the compensation he would have received if a change in control of the Company took place on December 31, 2017 would not trigger an excise tax under Internal Revenue Code Section 4999; accordingly, he would not be entitled to any excise tax gross-up payment. In calculating these amounts, the following assumptions were used to estimate excise tax gross-up amounts for each of Ms. Beall and Mr. Mayman: the portion of the Performance Share payment treated as a change in control payment is equal to the amount by which the Performance Share payment set forth in the table above exceeds the amount of the Performance Share payment set forth in the Retirement/Voluntary Termination

table; in turn, such excess amount (which is performance-based pay) is treated as reasonable compensation for services rendered prior to the change in control. Following the completion of the Cars.com Spin-off, Mr. Lougee ceased participation in the TCP and became a participant in the CIC Severance Plan. Ms. Harker is not entitled to receive an excise tax gross-up under the TCP. In the event that Mr. Lougee or Ms. Harker was subject to the excise tax under Code Section 4999, their change in control benefits would be reduced to \$1 less than the amount that would trigger such taxes if such a reduction would put them in a better after-tax position. The full amount of Mr. Lougee's and Ms. Harker's severance is reflected in the table without giving effect to any such potential reduction.

(9) In addition to the amounts reported in this column, each NEO would receive life and medical insurance benefits for the severance period in amounts no less than those that would have been provided had the executive not been terminated. We estimate incremental costs to the Company for these benefits as follows: Mr. Lougee \$55,911, Ms. Harker \$21,964, Ms. Beall \$121,668, and Mr. Mayman \$164,070. Each NEO also would receive post-termination perquisites with the same respective values described in footnote 3 of this table.

(10) In addition to the benefits afforded under the TCP and the CIC Severance Plan, our NEOs also would receive other benefits under the SERP and the DCP upon a change in control that qualifies as a change in control under Code Section 409A, including:

SERP. All SERP benefits become immediately vested and benefits accrued up to the date of the change in control are paid out in the form of a lump sum distribution shortly after the change in control.

DCP. All post-2004 DCP benefits accrued up to the date of the change in control are paid in the form of a lump sum distribution shortly after the change in control.

(11) These amounts represent payments NEOs may be entitled to receive under the TEGNA Inc. Executive Severance Plan (TESP), which provides severance payments to the NEOs and other executives of the Company approved by the Committee in the event of certain involuntary terminations of employment.

Post-Retirement Payments to Ms. Martore

Ms. Martore and the Company were parties to a February 2007 employment contract when Ms. Martore retired from the Company effective June 2, 2017. Ms. Martore's employment contract provided for the following post-employment benefits:

Additionally, at the time of termination, Ms. Martore was given the opportunity to purchase at fair market value the Company-owned car provided to her.

CEO Pay Ratio

CEO PAY RATIO

We are providing the following information to comply with Item 402(u) of Regulation S-K:

The 2017 total compensation of our CEO was \$4,840,049. This amount represents the total compensation received by Mr. Lougee for the period from June 1, 2017 through December 31, 2017 annualized to reflect a full year of compensation as CEO.

For 2017, the median annual total compensation of all employees of the Company, other than our CEO and employees on long-term disability leave, was \$55,636, which includes base salary, overtime and 401(k) matching contributions.

To determine the median employee, we first identified five possible median employees as of December 31, 2017 using our entire workforce of approximately 5,300 full, part-time and temporary employees and base salary, bonus, commissions and sales incentives for the prior 12-month period.

We then calculated 2017 total compensation for the CEO and the five possible median employees based on the proxy rules for determining the annual total compensation of NEOs and selected the median employee based on such calculations.

The resulting ratio of our CEO's compensation to the compensation of the median employee was 87 to 1. This pay ratio is a reasonable estimate calculated in a manner consistent with Item 402(u) of Regulation S-K.

Proposal 3 Approval, on an Advisory Basis, of the Compensation of Our Named Executive Officers

Consistent with our practice since 2011, we are asking shareholders to approve, on an advisory basis, the compensation of the Company's named executive officers (NEOs) as described in the Compensation Discussion and Analysis and the related executive compensation tables, notes and narrative included on pages 16-59 of this Proxy Statement.

As described above in the Compensation Discussion and Analysis section of this Proxy Statement, the Executive Compensation Committee oversees the Company's executive compensation programs and supports compensation policies that place a heavy emphasis on pay for performance. The Executive Compensation Committee also recognizes the importance of competitive compensation programs that are essential to recruiting and retaining the key executive talent needed to drive shareholder value.

We believe our executive compensation plans, principles and programs, as currently structured and as implemented for 2017, strongly align the interests of our NEOs with those of our shareholders and permit the Company to attract, retain and motivate talented executives. We urge you to read the Compensation Discussion and Analysis beginning on page 16 of this Proxy Statement, which describes in more detail the principles that guide the Committee's compensation decisions and the components of our executive compensation plans and programs, as well as the Summary Compensation and other related executive compensation tables and narrative, beginning on page 42 of this Proxy Statement, which provide detailed information on the compensation of our NEOs.

The Board of Directors unanimously recommends that the shareholders of the Company vote FOR adoption of the following resolution:

RESOLVED, that the shareholders of TEGNA Inc. approve the compensation of the Company's named executive officers as disclosed in this Proxy Statement, including the Compensation Discussion and Analysis, the compensation tables and the related discussion.

The approval of this Proposal 3 on an advisory basis requires the affirmative vote of a majority of the votes that could be cast by the shareholders present in person or represented by proxy and entitled to vote at the Annual Meeting. While the advisory vote we are asking you to cast is non-binding, the Company's Executive Compensation Committee and the Board value the views of our shareholders and will take the outcome into account when considering future compensation decisions affecting our NEOs.

Director Compensation

The compensation year for non-employee directors begins at each Annual Meeting of shareholders and ends at the following Annual Meeting of shareholders. The Company paid its directors the following compensation for the 2017-2018 director compensation year:

an annual retainer of \$100,000;

an additional annual retainer fee of \$20,000 to committee chairs (other than the chair of the Executive Committee) and an additional annual retainer fee of \$120,000 to the independent Chairman of the Board;

an annual equity grant in the form of restricted stock units with a grant date value equal to \$125,000, which grant may be deferred under the DCP;

travel accident insurance of \$1,000,000; and

a match from the TEGNA Foundation of charitable gifts made by directors up to a maximum of \$10,000 each year.

All cash retainers are payable in cash quarterly and may be deferred under the DCP.

The annual equity grant is made to directors on the first day of the compensation year for directors. These awards of restricted stock units vest at a rate of 1/4th of the shares per quarter after the grant date, receive dividends or, if deferred, dividend equivalent rights and, once fully vested, will be paid to the director on the first anniversary of the grant date (unless the director has elected to defer his or her restricted stock units under the DCP), subject to the Company's stock ownership guidelines for directors described below.

Restricted stock units will fully vest if a non-employee director retires from the Board due to the age of service limitations set forth in the Company's By-laws or if the director leaves the Board because of death or disability. Restricted stock units also automatically vest upon a change in control of the Company. When a non-employee director leaves the Board for any other reason, the director's unvested restricted stock units are forfeited.

Directors may elect to defer their cash retainer and/or annual equity grant under the Company's Deferred Compensation Plan (DCP), which for cash fee deferrals provides for the same investment choices, including mutual funds and a TEGNA stock fund, made available to other DCP participants. Annual equity grants deferred at the election of the director must be invested in the TEGNA stock fund of the DCP.

The Committee amended the Company's Principles of Corporate Governance, effective as of December 9, 2014, to eliminate a prior requirement that new directors purchase at least 1,000 shares of Company stock upon joining the Board of Directors. Instead, the Company's stock ownership guidelines encourage directors to own, directly, beneficially, or through the DCP, a number of shares having an aggregate value of at least three times the value of the

director's cash retainer. Directors are expected to hold all shares received from the Company as compensation until they meet their stock ownership guideline. All of our non-employee directors have either met or are on track to meet their stock ownership guideline.

The following table shows the compensation paid to our independent directors for the fiscal year ended December 31, 2017. Ms. Dulski and Ms. Greenthal left the Board of Directors during 2017, therefore their compensation is for a partial year. Ms. Bianchini joined the Board of Directors effective as of February 26, 2018 and Mr. Epstein joined the Board of Directors effective as of February 22, 2018, therefore we have not included them in the following tables. Neither Mr. Lougee or Ms. Martore received separate compensation for their service as a director and therefore are not included in the following tables.

62 2018 PROXY STATEMENT

Table of Contents**Equity Compensation Plan Information**

The table below sets forth the following information as of the end of the Company's 2017 fiscal year for (i) compensation plans previously approved by the Company's shareholders and (ii) compensation plans not previously approved by the Company's shareholders: (1) the number of securities to be issued upon the exercise of outstanding SOs, warrants and rights; (2) the weighted-average exercise price of such outstanding SOs, warrants and rights; and (3) other than securities to be issued upon the exercise of such outstanding SOs, warrants and rights, the number of securities remaining available for future issuance under the plans.

| PLAN CATEGORY | NUMBER OF SECURITIES | | | NUMBER OF SECURITIES |
|---|--|-----------|--|--|
| | TO BE ISSUED UPON EXERCISE OF | | WEIGHTED-AVERAGE EXERCISE PRICE OF | REMAINING AVAILABLE FOR FUTURE ISSUANCE |
| | OUTSTANDING OPTIONS, WARRANTS AND RIGHTS | | OUTSTANDING OPTIONS, WARRANTS AND RIGHTS | UNDER EQUITY COMPENSATION PLANS (EXCLUDING SECURITIES REFLECTED IN COLUMN (c)) |
| | (a) | (b) | (c) | |
| Equity compensation plans approved by shareholders(1) | 4,783,641 | \$8.25(2) | 33,971,611 | |
| Equity compensation plans not approved by shareholders(3) | 256,718 | | 4,573,655 | |
| Total | 5,040,359 | | 38,545,266 | |

(1) The equity compensation plan approved by the Company's shareholders is the TEGNA Inc. 2001 Omnibus Incentive Compensation Plan (amended and restated as of May 4, 2010), as amended (the "2010 Plan"). The number in column (a) includes 1,250,765 shares subject to outstanding SOs, 1,929,710 shares subject to outstanding unvested restricted stock grants, unvested restricted stock unit grants, vested restricted stock grants that have not been paid and vested restricted stock units grants that have not yet been paid, and 1,603,166 shares subject to outstanding unvested Performance Share awards. The number of shares subject to outstanding unvested Performance Share awards assumes the maximum number of Performance Shares are issued upon vesting. The actual number of Performance Shares issued could be zero to 200% of the target number of Performance Shares underlying unvested awards. Assuming the target number of Performance Shares are issued, the number of shares

subject to unvested Performance Share awards would be 801,583 and 34,773,194 shares would remain available for future issuance under the 2010 Plan.

- (2) Represents the weighted-average exercise price of the outstanding SOs granted under the 2010 Plan.
- (3) The TEGNA Deferred Compensation Plan, or DCP, is a non-qualified plan that provides benefits to directors and key executives of the Company. The DCP has not been approved by the Company's shareholders. The amounts elected to be deferred by each participant are credited to such participant's account in the DCP, and the Company credits these accounts with earnings as if the amounts deferred were invested in the Company's stock or other selected investment funds as directed by the participant. Amounts that are not treated as if invested in the Company's stock are distributed in cash, and amounts that are treated as if invested in the Company's stock are generally distributed in shares of stock or cash, at the Company's election. However, deferrals by directors of restricted stock or restricted stock unit grants are required to be distributed in stock under the terms of the DCP. The number in column (a) represents the number of shares credited to participants' accounts in the DCP. The DCP does not currently include any shares to be issued upon the exercise of outstanding SOs, warrants and rights as a result of deferrals of grants made under the 2010 Plan. The table above does not include any shares that may in the future be credited to participants' accounts in the DCP as a result of salary deferrals or transfers of other funds held in the plan. Participants in the DCP are general unsecured creditors of the Company with respect to their benefits under the plan.

General Information

Why am I receiving these proxy materials?

These proxy materials are being furnished to you in connection with the solicitation of proxies by our Board of Directors for the 2018 Annual Meeting of Shareholders to be held on April 26, 2018 at 10:00 a.m. ET at the Company's headquarters located at 7950 Jones Branch Drive, McLean, Virginia. This Proxy Statement furnishes you with the information you need in order to vote, whether or not you attend the Annual Meeting.

On what proposals am I being asked to vote and how does the Board recommend that I vote?

You are being asked to vote on the Proposals below, and the Board recommends that you vote as follows:

Proposal 1 FOR the election of the eleven director nominees nominated by the Board of Directors, each to hold office until the Company's 2019 Annual Meeting of Shareholders;

Proposal 2 FOR the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for fiscal year 2018; and

Proposal 3 FOR the approval, on an advisory basis, of the compensation of the Company's named executive officers as disclosed in the Compensation Discussion and Analysis section and accompanying compensation tables and related discussion contained in this Proxy Statement.

In addition, if you grant a proxy, your shares will be voted in the discretion of the proxy holder on any Proposal for which you do not register a vote and any other business that properly comes before the Annual Meeting or any adjournment or postponement thereof.

Will there be any other items of business addressed at the Annual Meeting?

As of the date of this Proxy Statement, we are not aware of any other matter to be presented at the Annual Meeting. If any other matters properly come before the Annual Meeting, it is intended that the holders of the proxies will act in accordance with their best judgment.

What must I do if I want to attend the Annual Meeting in person?

Admission to the Annual Meeting is by ticket only. We will provide each shareholder with one admission ticket upon request. Either you or your proxy may use your ticket. If you are a shareholder of record and plan to attend the Annual Meeting, please call the Company's shareholder services department at (703) 873-6677 to request a ticket. If you hold shares through an intermediary, such as a bank or broker, and you plan to attend the Annual Meeting, please send a written request for a ticket, along with proof of share ownership, such as a bank or brokerage firm account statement or a letter from the intermediary holding your shares, confirming ownership to: Secretary, TEGNA Inc., 7950 Jones Branch Drive, McLean, Virginia 22107. Requests for admission tickets will be processed in the order in which they are received and must be received no later than April 19, 2018. To obtain directions to attend the Annual Meeting, please call the Company's shareholder services department at (703) 873-6677.

Who may vote at the Annual Meeting?

If you owned Company stock at the close of business on February 26, 2018, which is the record date for the Annual Meeting (the Record Date), then you may attend and vote at the meeting. Please bring proof of your common stock ownership, such as a current brokerage statement, and photo identification. If you hold shares through a bank, broker, or other intermediary, you must obtain a valid legal proxy, executed in your favor, from the holder of record if you wish to vote those shares at the meeting.

At the close of business on the Record Date, we had approximately 215,619,438 shares of common stock outstanding and entitled to vote. Each share is entitled to one vote on each proposal.

What constitutes a quorum for the Annual Meeting?

The presence, in person or by proxy, of the holders of a majority of the shares of common stock outstanding on the Record Date will constitute a quorum to conduct business. Shares held by an intermediary, such as a banker or a broker, that are voted by the intermediary on any or all matters will be treated as shares present for purposes of determining the presence of a quorum. Abstentions and broker non-votes (defined below) will be counted for the purpose of determining the existence of a quorum.

Why did I receive a one-page notice in the mail regarding the Internet availability of proxy materials instead of a full set of proxy materials?

Pursuant to Securities and Exchange Commission (SEC) rules, we are permitted to provide access to our proxy materials over the Internet. Accordingly, we are sending a Notice of Internet Availability of Proxy Materials (the Notice) to our shareholders. All

shareholders will have the ability to access the proxy materials on a website referred to in the Notice or request to receive a printed set of the proxy materials. Instructions on how to access the proxy materials over the Internet or to request a printed copy may be found in the Notice. In addition, shareholders may request to receive proxy materials in printed form by mail or electronically by email on an ongoing basis.

Choosing to receive your proxy materials electronically will save us the cost of printing and mailing documents to you and will reduce the impact of our annual shareholders' meetings on the environment. If you choose to receive future proxy materials electronically, you will receive an email next year with instructions containing a link to those materials and a link to the proxy voting site. Your election to receive proxy materials electronically will remain in effect until you terminate it.

How can I get electronic access to the proxy materials?

This Proxy Statement and the Company's 2017 Annual Report may be viewed online on the investor relations page of the Company's website at www.tegna.com under the Investors' menu. You can also elect to receive an email that will provide an electronic link to future Annual Reports and Proxy Statements rather than receiving paper copies of these documents. Choosing to receive your proxy materials electronically will save us the cost of printing and mailing documents to you. You can choose to receive future proxy materials electronically by visiting the investor relations page of the Company's website at www.tegna.com under the Investors' menu. What is the difference between holding shares as a shareholder of record and as a beneficial owner of shares held in street name?

Shareholder of Record. If your shares are registered directly in your name with our transfer agent, EQ Shareowner Services, you are considered the shareholder of record with respect to those shares, and the Notice was sent directly to you by the Company.

Beneficial Owner of Shares Held in Street Name. If your shares are held in an account at a brokerage firm, bank, broker-dealer, or other similar organization, then you are the beneficial owner of shares held in street name, and the Notice was forwarded to you by your bank, broker or other intermediary. The organization holding your account is considered the shareholder of record for purposes of voting at the Annual Meeting. As a beneficial owner, you have the right to direct that organization on how to vote the shares held in your account.

If I am a shareholder of record of Company shares, how do I vote?

If you are a shareholder of record, you may vote in person at the Annual Meeting. We will give you a ballot when you arrive.

If you do not wish to vote in person or if you will not be attending the Annual Meeting, you may vote by proxy. You can vote by proxy via the Internet or by telephone by following the instructions provided in the Notice of Internet Availability of Proxy Materials or, if you request printed copies of the proxy materials by mail, you can also vote by mail, by telephone or via the Internet.

If I am a beneficial owner of shares held in street name, how do I vote?

If you are a beneficial owner of shares held in street name and you wish to vote in person at the Annual Meeting, you must obtain a valid legal proxy from the organization that holds your shares.

If you do not wish to vote in person or you will not be attending the Annual Meeting, you may vote by proxy. Follow the instructions provided to you by your bank, broker or other intermediary.

What happens if I do not give specific voting instructions?

Shareholders of Record. If you are a shareholder of record and you:

Indicate when voting via the Internet or by telephone that you wish to vote as recommended by our Board of Directors; or

Sign and return a proxy card without giving specific voting instructions, then the proxy holders will vote your shares in the manner recommended by our Board on all matters presented in this Proxy Statement and as the proxy holders may determine in their discretion with respect to any other matters properly presented for a vote at the Annual Meeting.

Table of Contents**GENERAL INFORMATION**

Beneficial Owners of Shares Held in Street Name. If you are a beneficial owner of shares held in street name and do not provide the organization that holds your shares with specific voting instructions, under New York Stock Exchange (NYSE) rules, the organization that holds your shares may generally vote on routine matters (including Proposal 2 to ratify our appointment of Ernst & Young LLP as our independent registered public accounting firm for fiscal year 2018) but cannot vote on non-routine matters (including the uncontested director election described in Proposal 1 and the non-binding advisory vote described in Proposal 3). If the organization that holds your shares does not receive instructions from you on how to vote your shares on a non-routine matter, the organization that holds your shares will inform our Inspector of Election that it does not have the authority to vote on this matter with respect to your shares and your shares will not be voted. This is generally referred to as a broker non-vote. When our Inspector of Election tabulates the votes for any particular matter, broker non-votes will be counted for purposes of determining whether a quorum is present, but will not otherwise be counted. We encourage you to provide voting instructions to the organization that holds your shares.

Can I change or revoke my vote?

Yes. If you deliver a proxy by mail, by telephone or via the Internet, you have the right to revoke your proxy in writing (by mailing another proxy bearing a later date), by phone (by another call at a later time), via the Internet (by voting online at a later time), by attending the Annual Meeting and voting in person, or by notifying the Company before the Annual Meeting that you want to revoke your proxy. Submitting your vote by mail, telephone or via the Internet will not affect your right to vote in person if you decide to attend the Annual Meeting.

What are the votes required to adopt the proposals?

Each share of our common stock outstanding on the Record Date is entitled to one vote on each of the director nominees and one vote on each other matter. To be elected, directors must receive a majority of the votes cast with respect to that director (the number of shares voted for a director nominee must exceed the number of votes cast against that nominee). Ratification of the selection of our independent registered public accounting firm and the non-binding advisory vote to adopt the resolution to approve the Company's executive compensation program described in this Proxy Statement each require the affirmative vote of the majority of the shares of common stock present or represented by proxy and entitled to vote at the meeting. Abstentions, if any, will have no effect on the election of any director or the frequency of future Say on Pay votes, but will have the same effect as votes against each of the other two proposals.

How do I vote my shares in the Company's Dividend Reinvestment and 401(k) Plans?

If you participate in the Company's Dividend Reinvestment Plan, the TEGNA 401(k) Savings Plan or in the Gannett Co., Inc. 401(k) Savings Plan, your shares of stock in those plans can be voted in the same manner as shares held of record. If you do not give instructions, your shares held in the Dividend Reinvestment Plan will not be voted. All shares in the TEGNA 401(k) Savings Plan for which no instructions are received will be voted in the same proportion as instructions provided to the trustee by other TEGNA 401(k) Savings Plan participants. All shares in the Gannett 401(k) Plan for which no instructions are received will be voted in the same proportion as instructions provided to the trustee by other Gannett 401(k) Plan participants.

How do I submit a shareholder proposal or nominate a director for election at the 2019 Annual Meeting?

To be eligible for inclusion in the proxy materials for the Company's 2019 Annual Meeting, a shareholder proposal must be submitted in writing to TEGNA Inc., 7950 Jones Branch Drive, McLean, Virginia 22107, Attn: Secretary and must be received by November 12, 2018. A shareholder who wishes to present a proposal or nomination at the Company's 2018 Annual Meeting, but who does not request that the Company solicit proxies for the proposal or nomination, must submit the proposal or nomination to the Company at the same address no earlier than December 27, 2018 and no later than January 16, 2019. The Company's By-laws require that any proposal or nomination must contain specific information in order to be validly submitted for consideration.

Can shareholders and other interested parties communicate directly with our Board?

Yes. The Company invites shareholders and other interested parties to communicate directly and confidentially with the full Board of Directors, the Chairman of the Board or the non-management directors as a group by writing to the Board of Directors, the Chairman or the Non-Management Directors, TEGNA Inc., 7950 Jones Branch Drive, McLean, Virginia 22107, Attn: Secretary. The Secretary will forward such communications to the intended recipient and will retain copies for the Company's records.
