IntelGenx Technologies Corp.

Notes to Consolidated Interim Financial Statements

June 30, 2008

Expressed in U.S. Funds

(Unaudited)

1.

Basis of Presentation

The accompanying unaudited financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and Rule 8-03 of Regulation S-X and are prepared using the same accounting policies as outlined in note 4 of IntelGenx Technologies Corp. financial statements for the years ended December 31, 2007 and 2006. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2008 are not necessarily indicative of the results that may be expected for the year ended December 31, 2008. The unaudited financial statements should be read in conjunction with the financial statements and notes thereto included in the IntelGenx Technologies Corp. audited financial statements for the years ended December 31, 2007 and 2006.

2.

Going Concern

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. The Company has reported an accumulated deficit of \$3,533,567 (2007 - \$1,918,658). To date, these losses have been financed principally through capital stock, long-term debt and debt from related parties. Additional capital and/or borrowings will be necessary in order for the Company to continue in existence and attain profitable operations.

Management has continued to develop a strategic plan to build a management team, maintain reporting compliance and establish contracts with pharmaceutical companies. Management anticipates generating revenue through development contracts during the year. In order to achieve profitability, revenue streams will have to increase significantly and there is no assurance that revenues can increase to such a level. The Company has raised additional cash through the issuance of common shares in the six months period ended June 30, 2008. Should the Company be unable to continue as a going concern, it may be unable to realize the carrying value of its assets and to meet its liabilities as they become due.

3.

Adoption of New Accounting Standards

Fair Value Measurements

SFAS 157 is effective for financial assets and liabilities in fiscal years beginning after November 15, 2007, and for non-financial assets and liabilities in fiscal years beginning after November 15, 2008. The Company adopted SFAS 157 for financial assets and liabilities in the first quarter of fiscal 2008 with no material impact to the consolidated financial statements. The Company is currently evaluating the potential impact of the application of SFAS 157 on the non-financial assets and liabilities found on its consolidated financial statements.

IntelGenx Technologies Corp.

Notes to Consolidated Interim Financial Statements

June 30, 2008

Expressed in U.S. Funds

(Unaudited)

3.

Adoption of New Accounting Standards (Cont d)

SFAS No. 157 applies to all assets and liabilities that are being measured and reported on a fair value basis. SFAS No. 157 requires new disclosure that establishes a framework for measuring fair value in GAAP, and expands disclosure about fair value measurements. This statement enables the reader of the financial statements to assess the inputs used to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values. The statement requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

Level 1: Quoted market prices in active markets for identical assets or liabilities.

Level 2: Observable market based inputs or unobservable inputs that are corroborated by market data.

Level 3: Unobservable inputs that are not corroborated by market data.

In determining the appropriate levels, the Company performs a detailed analysis of the assets and liabilities that are subject to SFAS No. 157. At each reporting period, all assets and liabilities for which the fair value measurement is based on significant unobservable inputs are classified as Level 3.

Fair Value of Financial Instruments

The table below presents the carrying value and fair value of Company's financial instruments. The disclosure excludes leases.

The fair value represents management's best estimates based on a range of methodologies and assumptions. The carrying value of receivables and payables arising in the ordinary course of business, the investment tax credits receivable and the convertible notes approximate fair value because of the relatively short period of time between their origination and expected realization. The loan payable, shareholder is presumed to have a fair value measured by the cash proceeds exchanged at issuance in accordance with APB-21.

	June 30, 2008		December 31, 2007	
	Carrying Value	Estimated Fair Value	Carrying Value	Estimated Fair Value
Financial assets				
Cash and cash equivalents	\$ 1,043,180	\$ 1,043,180	\$ 330,967	\$ 330,967
Restricted cash	984,394	984,394	-	-
Investment tax credits receivable	274,646	274,646	243,006	243,006
Financial liabilities				
Loan payable, shareholder	98,481	98,481	101,193	101,193
Convertible notes	503,380	503,380	417,634	417,634

- 7 -

IntelGenx Technologies Corp.

Notes to Consolidated Interim Financial Statements

June 30, 2008

Expressed in U.S. Funds

(Unaudited)

3.

Adoption of New Accounting Standards (Cont d)

The convertible notes use significant unobservable inputs and thus are shown as Level 3 hierarchy items. The fair value of the convertible notes is calculated by discounting the stream of future payments of interest and principal at the prevailing market rate for a similar liability that does not have an associated equity component. Results of discounted cash flow calculations may be adjusted, as appropriate, to reflect other market conditions or the perceived changes in credit risk of the borrower.

The following summarizes the changes in the fair value of the convertible notes for the six month period ending June 30, 2008:

Opening Balance - December 31, 2007	\$	417,634
Interest accretion and amortization of debenture cost		254,520
Interest paid during the period		
Impact of conversions of \$165,000 notes		(114,384)
Ending Balance - June 30, 2008	\$	503,380

4.

Significant Accounting Policies**Recently Issued Accounting Pronouncements**

In March 2008, the Financial Accounting Standards Board issued SFAS Statement No. 161, "Disclosures about Derivative Instruments and Hedging Activities" ("SFAS 161"). This standard is intended to improve financial reporting about derivative instruments and hedging activities by requiring enhanced disclosures to enable investors to better understand their effects on an entity's financial position, financial performance, and cash flows. It is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008, with early application encouraged. The Company is currently evaluating the impact, if any, that this statement will have on its disclosures related to derivative instruments and hedging activities.

IntelGenx Technologies Corp.

Notes to Consolidated Interim Financial Statements

June 30, 2008

Expressed in U.S. Funds

(Unaudited)

4.

Significant Accounting Policies (Cont d)

The FASB issued SFAS 162, "The Hierarchy of Generally Accepted Accounting Principles". The new standard is intended to improve financial reporting by identifying a consistent framework, or hierarchy, for selecting accounting principles to be used in preparing financial statements that are presented in conformity with U.S. generally accepted accounting principles (GAAP) for nongovernmental entities. Statement 162 is effective 60 days following the Securities and Exchanges Commission's approval of the Public Company Accounting Oversight Board Auditing amendments to AU Section 411, The Meaning of Present Fairly in Conformity with Generally Accepted Accounting Principles. The adoption of SFAS 162 will not have a material effect on the Company's financial position or results of operations.

The FASB issued FSP APB-14-1, Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement). FSP APB 14-1 clarifies that convertible debt instruments that may be settled in cash upon conversion (including partial cash settlement) are not addressed by paragraph 12 of APB Opinion No. 14, Accounting for Convertible Debt and Debt Issued with Stock Purchase Warrants. Additionally, this FSP specifies that issuers of such instruments should separately account for the liability and equity components in a manner that will reflect the entity's nonconvertible debt borrowing rate when interest cost is recognized in subsequent periods. This FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. Early adoption is not permitted. The Company is currently evaluating the impact of this Statement on its financial statements.

The FASB issued FSP FAS 142-3, Determination of the Useful Life of Intangible Assets. This FSP amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset under FASB Statement No. 142, Goodwill and Other Intangible Assets. This FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. The adoption of FSP FAS 142-3 is not expected to have a material effect on the Company's financial position or results of operations.

The FASB issued FSP SOP 90-7-a, An Amendment of AICPA Statement of Position 90-7 Financial Reporting by Entities in Reorganization under the Bankruptcy Code. This FSP states that an entity emerging from bankruptcy that uses fresh-start reporting would only follow the accounting standards in effect at the date of emergence as opposed to within the 12 months following the adoption of fresh-start reporting. This FSP is effective for financial statements issued subsequent to April 24, 2008. The adoption of FSP SOP 90-7-a is not expected to have a material effect on the Company's financial position or results of operations.

IntelGenx Technologies Corp.

Notes to Consolidated Interim Financial Statements

June 30, 2008

Expressed in U.S. Funds

(Unaudited)

4.

Significant Accounting Policies (Cont d)

The FASB issued FSP EITF 03-6-1, Determining Whether Instruments Granted in Share-Based Payment Transactions Are Participating Securities. This FSP states that unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and shall be included in the computation of earnings per share pursuant to the two-class method. The FSP is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those years. The Company is currently evaluating the impact of this Statement on its financial statements.

EITF 07-5, Determining Whether an Instrument (or Embedded Feature) Is Indexed to an Entity's Own Stock was ratified by the FASB. This EITF addresses the determination of whether an instrument (or an embedded feature) is indexed to an entity's own stock. This EITF is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. The Company is currently evaluating the impact of this Statement on its financial statements.

EITF 08-3, Accounting by Lessees for Nonrefundable Maintenance Deposits was ratified by the FASB. This EITF prescribes the accounting for all nonrefundable maintenance deposits. This EITF is effective for financial statements issued for fiscal years beginning after December 15, 2008, and interim periods within those fiscal years. The adoption of EITF 08-3 is not expected to have a material effect on the Company's financial position or results of operations.

EIT 08-4, Transition Guidance for Conforming Changes to Issue No. 98-5, 'Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios' was ratified by the FASB. This EITF integrates the requirements of EITF 00-21 into EITF 98-5. This EITF is effective for financial statements issued for fiscal years ending after December 15, 2008. The Company is currently evaluating the impact of this statement on its financial statements.

5.

Collaborative Agreements

On April 7, 2008, the Company ratified with Cary Pharmaceutical an Agreement to jointly develop and commercialize an oral antidepressant using IntelGenx's proprietary oral delivery technology. Under the terms of the agreement, IntelGenx will provide funding and development support for the product and will be entitled to profit sharing. The Company accounts for this transaction as a collaborative agreement as defined as EITF 07-1 "Accounting for Collaborative agreements". Per the Agreement, \$2,000,000 of the Company's cash and cash equivalents will be restricted for the funding of this venture. This cash was taken from the proceeds of the private placement of March 27, 2008. As of June 30, 2008, the Company has disbursed approximately \$1,015,606 on the project resulting in a restricted cash balance of \$984,394. Of this \$1,015,606, \$230,671 was paid to Cary Pharmaceutical for repayments of expenses they incurred with respect to the collaborative agreement. All expenses incurred with respect to the collaborative agreement were expensed in the statement of operations and were classified as research and development expenses and professional fees.

Expressed in U.S. Funds

(Unaudited)

6.

Convertible Notes

On May 22, 2007 the Company entered into convertible note agreements with certain institutional and accredited investors for amounts totaling \$1,500,000. The convertible notes bear interest at the rate of 8% per annum and are repayable on September 22, 2009. Interest is payable quarterly and payments commenced on July 1, 2007. The notes are convertible into common shares of the Company, at the option of the holders, at a rate of \$0.70 per share. The Company also issued to the holders 2,142,857 stock purchase warrants exercisable at \$1.02 per share before May 22, 2012.

On May 22, 2007, the Company paid approximately \$229,323 in cash consideration and issued warrants with a fair value of \$82,993 in consideration for transaction costs. These transaction costs were allocated between the convertible debt and the warrants based on their relative fair value.

The Company may, at its option, elect to pay the interest by the issuance of common shares. The number of shares is to be determined by dividing the amount of the interest payment by the number which is 85% of the average market price of the Company's common shares for the 20 trading days immediately prior to the interest payment date assuming the average market price is equal or greater than \$0.70 as adjusted for reverse and forward share splits, recapitalizations and the like that occur after the date of the Securities Purchase Agreements.

In accordance with EITF Issue 98-5 "Accounting for Convertible Securities with Beneficial Conversion Features or Contingently Adjustable Conversion Ratios", the Company recognized the value of the embedded beneficial conversion feature of \$490,093 as additional paid-in capital and an equivalent discount which will be expensed over the term of the convertible notes. In addition, in accordance with EITF Issue 00-27 "Application of Issue No.98-5 to Certain Convertible Instruments", the Company has allocated the proceeds of issuance between the convertible notes and the detachable warrants based on their relative fair value. Accordingly, the Company recognized the fair value of the detachable warrants of \$490,093 as additional paid-in capital and an equivalent discount against the convertible notes. The difference between the face amount of the convertible notes and their carrying value is amortized over the life of the convertible notes. The Black-Scholes Model was used to calculate the fair value of the warrants.

The underlying assumptions included in the Black-Scholes Model were as follows:

Expected volatility	64%
Contractual life	5 years
Risk-free interest rate	4.39%
Dividend yield	Nil

Convertible Notes (Cont d)

Substantially all of the assets of the Company have been pledged as security of the convertible notes. For the six months ended June 30, 2008, \$54,610 (2007- \$13,076) of interest has been paid, and \$254,520 (2007- \$17,548) of interest has been accreted. In the second quarter of 2008, \$165,000 of convertible notes were exchanged for 235,714 shares of common stock.

7.

Commitments

On May 29, 2008, the Company signed a new agreement with Auctus Capital for investor relation services. As part of this agreement, the Company must pay \$6,000 a month to Auctus Capital for a period of one year.

8.

Capital Stock

	June 30, 2008	December 31, 2007
Authorized -		
100,000,000 common shares of \$0.00001 par value		
20,000,000 preferred shares of \$0.00001 par value		
Issued -		
20,740,002 (2007 - 16,157,146) common shares	\$ 208	\$ 162

On March 27, 2008, as part of a private placement, the Company issued 4,001,000 units for gross proceeds of \$2,800,700. Each unit consists of one common share of the Company and one common share purchase warrant. Each warrant entitles the holder to purchase one common share at an exercise price of \$1.02 per common share and expires 24 months after the date of issuance. Proceeds were allocated between the common shares and the warrants based on their relative fair value. The common shares were recorded at a value of \$2,127,960. (See note 9 for the portion allocated to the warrants.)

The Company paid an agent a cash commission in the amount of \$196,000, which is equal to 7% of the gross proceeds of the offering and issued an agent option entitling the agent to acquire 320,080 units (consisting of one common share and one common share purchase warrant) at \$0.70 per unit, which expire 24 months after the date of issuance. Each common share purchase warrant included in the unit entitles the holder to purchase one common share at an exercise price of \$1.02 per common share and expires 24 months after the date of issuance of the unit.

8.

Capital Stock (Cont d)

In addition, the Company paid approximately \$256,000 in cash consideration for other transaction costs. All the above transaction costs have been reflected as a reduction of the common shares and the warrants based on their relative fair values.

Pursuant to the terms of the private placement, the Company was obliged to use its best efforts to (i) have the common shares listed on the TSX Venture Exchange, and (ii) prepare and file with, and have declared effective, by the U.S. Securities and Exchange Commission, a resale registration statement in respect of the common shares and the warrants issued to subscribers as well as those issuable upon exercise of the agents warrants, all prior to 4 months after March 27, 2008. All of these provisions were satisfied within the required time limits during the second quarter.

On April 22, 2008, 100,000 warrants were exercised for 100,000 common shares having a par value of \$1 in aggregate for cash consideration of \$41,000, resulting in an increase in additional paid-in capital of \$40,999.

On April 22, 2008, the Company entered into agreements to amend the anti-dilution terms of the convertible notes. As consideration for entering into this amendment, the Company agreed to issue to the holders of the convertible notes an aggregate of 159,456 fully paid common shares having a par value of \$2 in aggregate, resulting in an increase in additional paid-in capital of \$111,617.

During the first six months of 2008, 81,500 stock options were exercised for 81,500 common shares having a par value of \$1 in aggregate, for cash consideration of \$33,415, resulting in an increase in additional paid-in capital of \$33,414.

During the first six months of 2008, 235,714 common shares were issued as a result of the conversion of \$165,000 of convertible notes.

9.

Additional Paid-In Capital

Stock Options

On March 27, 2008, IntelGenx Technologies Corp. issued 320,080 agent's options exercisable into one common share and one stock purchase warrant per agent's option. The exercise price of the option and the stock purchase warrant are \$0.70 and \$1.02 respectively and they expire on March 27, 2010. As at June 30, 2008, no agent's options were exercised. The agent's options were issued as part of the transaction costs in connection with the private placement described in note 6. The agent's options were accounted for at their fair value, as determined by the Black-Scholes valuation model, of \$95,000, using the assumptions below:

9.

Additional Paid-In Capital (Cont d)

Stock Options (Cont d)

Expected volatility	77%
Expected life	2 years
Risk-free interest rate	1.75%
Dividend yield	Nil

A modification was made to the 2006 Stock Option Plan. The life of the options was reduced from 10 years to 5 years to comply with the regulations of the TSX-V. Accordingly, because the grant-date fair value of the modified options was less than the fair value of the original options measured immediately before the modification, no incremental share-based compensation expense resulted from the modification.

On May 22, 2008, the Company granted 51,176 stock options to two non-employee directors to purchase common shares. The stock options are exercisable at \$0.85 per share and have a term of 5 years with immediate vesting provisions. The stock options were accounted for at their fair value, as determined by the Black-Scholes valuation model, of \$21,329, using the following assumptions:

Expected volatility	76%
Expected life	2.5 years
Risk-free interest rate	2.70%
Dividend yield	Nil

On May 29, 2008, 400,000 stock options were granted to Auctus Capital as compensation for investor relation services. The option grant is subject to shareholder approval to increase the number of shares authorized under the stock option plan. The exercise price is \$1. The options vest based upon a combination of the achievement of certain performance conditions and the passage of time. As of June 30, 2008, performance conditions have been met for the first 200,000 options tranche. The first tranche of the 200,000 stock options was accounted for at its fair value, as determined by the Black-Scholes valuation model, of \$86,112, using the following assumptions:

Expected volatility	75%
Expected life	2.69 years
Risk-free interest rate	2.81%
Dividend yield	Nil

9.

Additional Paid-In Capital (Cont d)

Stock Options (Cont d)

As a result of the May 29, 2008 grant, the Company recorded a compensation expense of \$7,176 in the six-month period ended June 30, 2008 for the first tranche of 200,000 options. As at June 30, 2008, the performance conditions for the second tranche of 200,000 stock options has not yet been achieved as such no compensation expense has been recognized.

During the first six months of 2008, the Company recognized \$33,015 in stock-based compensation for options granted to employees in 2006 and 2007 (2007- \$16,560).

Warrants

On March 19, 2008, the Company restated the exercise price of the warrants initially issued with respect to the convertible notes transaction on May 22, 2007 from \$1.02 to \$0.80. This modification was treated as an exchange of the original warrant for a new warrant in accordance to FAS 123 (R) "Share-based payments". This resulted in an increase in fair value of the warrants of \$92,571. This increase was recorded as an additional compensation expense and a corresponding increase in additional paid-up capital.

On March 27, 2008, IntelGenx Technologies Corp. issued 4,001,000 stock purchase warrants exercisable into common shares at \$1.02 per share which expire on March 27, 2010. The stock purchase warrants were issued in connection with the private placement described in note 6. The stock purchase warrants were valued at \$672,740 based on their relative fair value, as determined by the Black-Scholes valuation model using the assumptions below:

Expected volatility	77%
Expected life	2 years
Risk-free interest rate	1.75%
Dividend yield	Nil

As at March 31, 2008, 5,186 shares of common stock were issued as a result of the cashless exercise of 10,638 warrants with an exercise price of \$0.41 and a fair value of \$0.80. These warrants were initially granted for services rendered pursuant to the share exchange transaction of April 28, 2006.

10. Income Taxes

Deferred Income Taxes

The balance of deferred income taxes as at June 30, 2008 represents the tax effect of the convertible debt arising from the difference between the convertible debt's basis for accounting purposes and that for income tax purposes and it has been charged to additional paid-in capital. As the convertible debt is repaid, the deferred tax liability will be charged to expenses.

11. Related Party Transactions

During the six month period ending June 30, 2008, the Company incurred expenses of approximately \$10,056 (2007 - \$8,800) for laboratory equipment leased from a shareholder, who is also an officer of the Company, and \$3,060 (2007 - \$2,700) for interest on the loan payable shareholder.

Included in professional fees are \$Nil (2007 - \$17,400) paid to a director of the Company.

Included in interest and financing fees are \$Nil (2007 - \$19,000) for share-based compensation to an officer and director of the Company.

Included in management salaries are \$13,070 (2007 - \$Nil) for options granted to the CFO under the 2006 Stock Option Plan and \$20,891 for options granted to directors in May of 2008.

Also included in management salaries are \$43,217 cash compensation in form of a retainer for two directors.

Included in accounts payable and accrued liabilities is approximately \$7,590 (2007 - \$7,300) payable to shareholders, who are also officers of the Company and a cash retainer of \$43,217(2007- \$Nil) payable to two directors.

The above related party transactions have been measured at the exchange amount which is the amount of the consideration established and agreed to by the related parties.

12. Basic and Diluted Loss Per Common Share

Basic and diluted loss per common share is calculated based on the weighted average number of shares outstanding during the period. The warrants, share-based compensation and convertible notes have been excluded from the calculation of diluted loss per share since they are anti-dilutive.

Edgar Filing: IntelGenx Technologies Corp. - Form 10-Q

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following information should be read in conjunction with the unaudited consolidated financial statements for the six month periods ended June 30th, 2008 and 2007 and notes thereto. Unless otherwise indicated or the context otherwise requires, the "Company", "we", "us", and "our" refer to IntelGenx Technologies Corp. and its subsidiaries including IntelGenx Corp. ("IntelGenx")

Overview

Company Background

We are a drug delivery company established in 2003 and headquartered in Montreal, Quebec, Canada, which focuses on the development of novel oral immediate-release and controlled-release products for the generic pharmaceutical market. Our business strategy is to develop pharmaceutical products based on our proprietary drug delivery technologies and then license commercial rights for such products to pharmaceutical partners once the viability of a product has been demonstrated. We expect a partner company will, in some cases, fund development of the licensed products, complete the regulatory approval process with the U.S. Food and Drug Administration (FDA) or other regulatory agencies relating to the licensed products, and assume responsibility for marketing and distributing such products.

In addition, the Company anticipates that it may undertake full development of certain products without seeking a partner until the product reaches the marketing and distribution stage. The Company will assess the potential for successful development of a product and associated costs, and then determine at which stage it is most prudent to seek a partner, balancing such costs against the potential for additional returns earned by partnering later in the development process.

The Company has also undertaken a strategy under which it will work with pharmaceutical companies in order to develop new dosage forms in addition to already existing ones for pharmaceutical products for which patent protection is about to expire. Under §(505)(b)(2) of the Food, Drug, and Cosmetics Act, the FDA will grant a market exclusivity of up to three years for such a new dosage form. The Company anticipates significant returns from successfully obtaining market exclusivity in this manner.

The Company is currently continuing to develop the existing products in its pipeline and may also perform research and development on other potential products as the opportunities present themselves.

The Company does not currently plan to acquire a manufacturing facility. The Company currently purchases and/or leases, on an as-needed basis, the equipment necessary for performing research and development activities related to its products.

The Company will hire new personnel, primarily in the area of research and development, on an as-needed basis as the Company enters into partnership agreements and increases its research and development activities.

Currency rate fluctuations

The Company's operating currency is Canadian dollars while its reporting currency is U.S. dollars and, as such, the Company's results of operations and balance sheet position have been affected by currency rate fluctuations. The following management discussion and analysis takes this into consideration whenever significant.

Edgar Filing: IntelGenx Technologies Corp. - Form 10-Q

Results of Operations six months ended June 30, 2008 compared to the six month period ended June 30th, 2007.

	2008	2007	Increase/ (Decrease)	Percentage Change

- 18 -

Revenue

Total revenues for the six months ended June 30th, 2008 were \$456,101, compared with \$423,378 for the same period in 2007, and represent an increase of \$32,723, or 8%. The increase in total revenue for the six month period is attributable to revenues received pursuant to our research and development agreements with our pharmaceutical partners and to interest income of \$19,575 earned on the cash proceeds from the sale of our securities in May 2007 and in March 2008.

Our research and development revenues for the six months ended June 30th, 2008 consisted of \$436,526 received for development milestones achieved in connection with product development projects initiated in 2008 and prior.

Research and Development Expenses

Research and development expenses for the six months ended June 30th, 2008 were \$965,843, which represents an increase of \$709,202 compared to the amount of \$256,641 recorded for the same period in 2007. The increase is attributable to the increased drug development activities, approximately \$470,000 of which is related to the collaboration agreement with Cary Pharmaceuticals. Included in these costs are R&D Salaries of \$201,578 in 2008, approximately \$7,658 of which are non-cash compensation. Since research and development expenses are directly related to the amount of R&D work performed, management expects a further increase of R&D expenses during the current year due to a further increase of development projects. For the six months ended June 30th, 2008, we have recorded estimated Research and Development Tax Credits and refunds of \$89,419 (\$49,887 in 2007).

Management Salaries and General and Administrative Expenses

Management salaries increased to \$286,198 for the six month period ended June 30th, 2008 (\$66,991 in 2007) while general and administrative expenses increased to \$104,683 (\$62,869 in 2007). Included in management salaries are \$43,217 in non-recurring cash compensation to non employee directors of the Company, \$21,329 in non cash compensation in the form of options granted to non-employee directors, and \$25,462 in non cash compensation in the form of options granted to management employees in 2007. The remaining cash increase in management salaries is attributable to the addition of the full time Chief Financial Officer and Vice-President Business Development. The increase in G&A expenses is attributed to the increase in corporate operations.

Professional Fees

Professional fees increased to \$423,628 for the six month period ended June 30th, 2008 from \$217,803 for the same period in 2007, \$7,156 of which is share based compensation for an Investor Relations contract (\$64,521 in 2007). Included within the costs for 2008 are consulting fees of \$123,083 related to the development of the CPI 300 antidepressant, and expenses of \$108,714 related to the Company's listing on the TSX Venture Exchange.

Share-Based Compensation Expense, Warrants and Stock Based Payments

Share-based compensation expenses, warrants and share based payments totaled \$265,710 for the six month period ended June 30th, 2008 as compared to \$103,598 for the six months ended June 30th, 2007.

We expensed \$111,619 related to the amendment of the anti-dilution terms of the convertible notes whereby, as consideration for entering into this amendment, the Company agreed to issue to the holders of the convertible notes an aggregate of 159,456 fully paid common shares. At the same time the exercise price of the outstanding warrants to the debenture holders was adjusted from \$1.02 to \$0.80 resulting in an increase in the fair value of the warrant and an additional compensation charge of \$92,571. We also expensed \$33,015 during the first six months of 2008 for options granted to Company employees in 2006 and 2007 under the 2006 Stock Option Plan, \$21,329 for options granted in 2008 to non-employee directors and \$7,176 for options granted to Auctus Capital as per the Investor Relation Agreement. There remains approximately \$33,326 in stock based compensation to be expensed in fiscal 2008 and 2009 related to the issuance of options during 2006 and 2007. We anticipate issuance of additional options and warrants in the future, which will continue to result in stock-based compensation expense.

Financing Cost

We incurred interest and financing fee expense of \$516,626 during the six month period ended June 30th, 2008 compared to \$59,676 for the same period in 2007. The costs in 2008 relate primarily to a non-cash accretion expense of \$254,520, cash interest payments of \$52,922 on the convertible debentures issued in May 2007, plus a one-time non-cash compensation of \$111,619 related to the amendment of the anti-dilution terms of the convertible notes required in connection with the Company's TSX listing whereby, as consideration for entering into this amendment, the Company agreed to issue to the holders of the convertible notes an aggregate of 159,456 fully paid common shares. At the same time the exercise price of the outstanding warrants to the debenture holders was adjusted from \$1.02 to \$0.80 resulting in an increase in the fair value of the warrants and an additional compensation charge of \$92,571. Based on the outstanding principal amount of the convertible debentures issued in May 2007, and assuming no additional conversions of these debentures into common stock, we expect to incur additional interest expense of \$49,300 in the remainder of 2008 and \$726,861 of accreted interest.

Net Loss

The net loss for the six month period ended June 30th, 2008 was \$1,614,909, as compared to a net loss of \$207,575 for the same period in 2007.

Included within the net loss for the first six months of 2008 are non-cash related expenses totaling approximately \$559,327, of which \$254,520 is accretion expense in connection with the May 2007 convertible debenture financing. Non-cash related expenses also include \$111,619 to convertible note holders as compensation for acceptance of the amendment of the anti-dilution terms of the convertible notes required in connection with the Company's TSX listing, \$61,520 for share based compensation and \$27,121 for depreciation. In addition to the non-cash related items previously mentioned, the increase in the net loss for the six month period ended June 30th, 2008 is primarily due to increases in research and development expenses largely related to the collaboration agreement with Cary Pharmaceuticals, management salaries and professional fees.

Edgar Filing: IntelGenx Technologies Corp. - Form 10-Q

Key items from the Balance Sheet June 30, 2008 compared to December 31st, 2007.

	2008	2007	Increase/ (Decrease)	Percentage Change
Current Assets	\$ 2,613,290	\$ 1,035,920	\$ 1,577,370	152%
Property and Equipment	209,858	235,244	(25,386)	11%
Current Liabilities	623,288	261,485	361,803	138%
Loan Payable, Shareholder	98,481	101,193	(2,712)	3%
Convertible notes	503,380	417,634	85,746	21%
Deferred Income Tax Liability	190,112	278,988	(88,876)	32%
Capital Stock	208	162	46	28%
Additional Paid-in-Capital	4,926,016	2,071,818	2,854,198	138%
Current Assets				

Current assets totaled \$2,613,290 as at June 30th, 2008 compared to \$1,035,920 as at December 31st, 2007. The increase of \$1,577,370 is primarily attributable to an increase in cash resulting from the completion of our private placement on March 27th 2008.

Prepaid Expenses

As at June 30th, 2008 prepaid expenses totaled \$47,098 compared to \$23,443 at December 31, 2007. The increase of \$23,655 is primarily attributable to insurance and prepaid commission in respect of business development.

Liquidity and Capital Resources

Cash and cash equivalents and restricted cash of \$2,027,782 as at June 30th, 2008 increased by \$1,696,815 compared to the balance of \$330,967 as at December 31st, 2007. The increase relates to the private placement completed on March 27th, 2008. Included within the balance of \$2,027,782 as at June 30th, 2008 is a restricted cash amount of \$984,394 being the balance of the \$2,000,000 cash that was set aside under the terms of the Collaborative Agreement ratified on April 7th, 2008 with Cary Pharmaceuticals to jointly develop and commercialize an oral antidepressant using IntelGenx's proprietary oral delivery technology.

As at June 30th, 2008 accounts receivable totaled \$263,764 and investment tax credits receivable totaled \$274,646 compared to \$427,476 and \$243,006 respectively as at December 31st, 2007. Accounts receivables decreased due to the collection of fund from clients for outstanding invoices.

As at June 30th, 2008 accounts payable and accrued liabilities amounted to \$623,287 (\$261,485 as at December 31st, 2007), of which approximately \$173,717 relates to professional fees, \$119,968 relates to research and development activities and \$43,217 relates to retainers for two non-employee directors of the Company. Included within other accruals is approximately \$7,590 due to a shareholder.

With the funds received as a result of the financing on March 27th, 2008, we are confident that we have sufficient cash available to satisfy our requirements for the current year. Nonetheless, the Company is considering raising additional capital in the fall of 2008 in order to accelerate certain of its development projects. As at June 30th, 2008 total assets amounted to \$2,823,148 and shareholders' equity amounted to \$1,407,888 (\$1,271,164 and \$211,864 respectively as at December 31st, 2008).

Property and Equipment

As at June 30th, 2008 the net book value of property and equipment amounted to \$209,858 compared to \$235,244 at December 31st, 2007. In the six months ended June 30th, 2008 additions to assets totaled \$7,718 and comprised \$1,334 for office equipment, \$3,363 for computer equipment, \$2,104 for laboratory equipment, and \$917 for office fixtures and fittings. Total depreciation in the six months ended June 30th, 2008 amounted to \$27,127 and a foreign exchange loss of \$5,977 was recorded.

Loan Payable, Shareholder

As at June 30th, 2008 the loan payable, shareholder amounted to \$98,481 compared to \$101,193 at December 31, 2007. The difference of \$2,712 reflects the currency exchange rate fluctuation.

Convertible Notes Financing

On May 22, 2007 the Company entered into convertible note agreements with certain institutional and accredited investors for amounts totaling \$1,500,000. The convertible notes bear interest at the rate of 8% per annum and are repayable on September 22, 2009. Interest is payable quarterly and payments commenced on July 1, 2007. The notes are convertible into common shares of the Company, at the option of the holders, at a rate of \$0.70 per share. The Company also issued to the holders 2,142,857 stock purchase warrants exercisable at \$1.02 per share before May 22, 2012. The exercise price was subsequently amended to \$0.80 per share in the second quarter of 2008.

On May 22, 2007, the Company paid approximately \$229,323 in cash consideration and issued warrants with a fair value of \$82,993 in consideration for transaction costs. These transaction costs were allocated between the convertible debt and the warrants based on their relative fair value.

The Company may, at its option, elect to pay the interest by the issuance of common shares. The number of shares is to be determined by dividing the amount of the interest payment by the number which is 85% of the average market price of the Company's common shares for the 20 trading days immediately prior to the interest payment date assuming the average market price is equal or greater than \$0.70 as adjusted for reverse and forward share splits, recapitalizations and the like that occur after the date of the Securities Purchase Agreements.

In the second quarter of 2008 the Company issued 159,456 shares of common stock at \$0.70 per share for a total of \$111,619 as compensation to convertible note holders for acceptance of the amendment of the anti-dilution terms of the convertible notes required in connection with the Company's TSX listing. At the same time the exercise price of the warrants was amended from \$1.02 to \$0.80 per share.

As at June 30th, 2008 we had convertible notes of \$503,380 outstanding compared with \$417,634 at December 31st, 2007. In 2008, this represents \$1,230,241 in convertible note financing less unamortized discount and deferred charges of \$726,861. During the first six months of 2008 a total of 235,714 debentures were converted into common shares resulting in an increase of \$165,000 in additional paid in capital.

Capital Stock

On March 27th, 2008, as part of a private placement, the Company issued 4,001,000 units for gross proceeds of \$2,800,700. Each unit consists of one common share of the Company and one common share purchase warrant. Each warrant entitles the holder to purchase one common share at an exercise price of \$1.02 per common share and expires 24 months after the date of issuance.

The Company paid an agent a cash commission in the amount of \$196,000, which is equal to 7% of the gross proceeds of the offering and issued an agent option entitling the agent to acquire 320,080 units at \$0.70 per unit, which expires

24 months after the date of issuance. Each warrant entitles the holder to purchase one common share at an exercise price of \$1.02 per common share and expires 24 months after the date of issuance of the unit.

The cash consideration paid to the agent and the fair value of the agent option is reflected as a reduction to the additional paid-in capital.

Pursuant to the terms of the private placement, the Company was obliged to use its best efforts to (i) have the common shares listed on the TSX Venture Exchange, and (ii) prepare and file with, and have declared effective, by the U.S. Securities and Exchange Commission, a resale registration statement in respect of the common shares and the warrants issued to subscribers as well as those issuable upon exercise of the agents warrants, all prior to 4 months after March 27, 2008. The Company was able to satisfy all of these provisions within the required time limits during the second quarter of 2008.

As at June 30th, 2008 capital stock amounted to \$208 compared to \$162 at December 31st, 2007. The increase reflects the issue of 4,582,856 shares at par value of \$0.00001, the majority of which relates to the private placement completed on March 27th, 2008. Capital stock is disclosed at its par value with the excess of proceeds shown in Additional Paid-in-Capital.

Additional Paid-in-Capital

Additional paid-in capital totaled \$4,926,016 as at June 30th, 2008 compared to \$2,071,818 at December 31st, 2007. The change is made up of increases of \$2,127,920, \$672,740, and \$95,000 for the private placement in relation to common stock issued, warrants, and agent compensation respectively as well as a decrease of \$546,581 for transaction costs. Additional paid in capital also increased by \$265,710 for stock based compensation of which \$111,617 relates to compensation to convertible note holders for acceptance of the amendment of the anti-dilution terms of the convertible notes required in connection with the Company's TSX listing and \$92,571 relates to the adjustment of the exercise price of the warrants held by the convertible note holders from \$1.02 to \$0.80; \$61,520 relates to the amortization of stock options granted to employees, grants to directors and the investor relation company. Additional paid in capital increased further by \$164,998 for converted debentures, by \$33,414 for options exercised, and by \$40,999 for warrants exercised.

Key items from the Statement of Cash Flows six months ended June 30th, 2008 compared to the six month period ended June 30th, 2007.

	2008	2007	Increase/ (Decrease)	Percentage Change
Operating Activities	\$ (676,912)	\$ (27,149)	\$ (649,763)	2,393%
Financing Activities	2,423,534	1,162,806	1,260,728	108%
Investing Activities	(992,118)	(14,371)	977,747	6,804%
Cash and cash equivalent - end of period	1,043,388	1,350,629	(307,241)	(22.7%)
Statement of cash flows				

Net cash used by operating activities in the six months to June 30th, 2008 was \$676,912 compared to a use of \$27,149 for the same period in 2007. In the first six months of 2008, net cash used by operating activities consisted of an operating loss of \$1,614,909 and an increase in non-cash operating elements of working capital of \$481,247. Non-cash items included in operating activities totaled \$456,750 and included the following items: depreciation, share based compensation expense, interest and expense accretion on the convertible notes issued in May 2007, the issuance of compensation shares to the debenture holders, the adjustment of the warrant exercise price from \$1.02 to \$0.80 to the debenture holders and deferred income tax provision. Our operating activities will continue to consume our available funds until we can generate increased sales revenues.

The net cash provided by financing activities was \$2,423,534 for the six months ended June 30th, 2008 compared to \$1,162,806 provided in the same period in 2007. Of the net cash provided by financing activities in 2008, \$2,800,700 came from a private placement financing completed on March 27, 2008 less \$451,581 used to pay related transaction costs and \$74,415 was generated from the issue of capital stock in the second quarter.

The net cash used in investing activities was \$992,118 for the six months ended June 30th, 2008 compared to a use of funds of \$14,371 for the same period in 2007. \$984,394 of this amount represents the cash restricted for the CPI 300 project under the collaborative agreement with Cary Pharmaceuticals. The cash of \$7,724 was used to purchase capital assets in 2008.

The balance of cash as at the end of June 2008 was \$1,043,388 compared to \$1,350,629 at June 30th, 2007. This amount does not include the restricted cash for the CPI 300 project restricted cash of \$984,394. The decrease in cash is primarily due to an increase in R&D expenses and professional fees for the CPI 300 project and the transfer of \$984,394 to restricted cash. Those funds are restricted to be used for the CPI 300 project under the collaborative agreement with Cary Pharmaceuticals.

In accordance with the collaborative agreement between the Company and Cary Pharmaceutical dated April 7th, 2008 the Company agreed to restrict \$2,000,000 of its cash reserves in development support activities for an oral antidepressant using the Company's proprietary oral delivery technology. As at June 30, 2008 and in line with project expectations, the Company had disbursed approximately \$1,015,606 of the \$2,000,000.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Forward-Looking and Cautionary Statements

This report contains certain forward-looking statements that involve risks and uncertainties relating to, among other things, our future financial performance or future events. Forward-looking statements give management's current expectations, plans, objectives, assumptions or forecasts of future events. All statements other than statements of current or historical fact contained in this Form 10Q, including statements regarding our future financial position, business strategy, budgets, projected costs and plans and objectives of management for future operations, are forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "anticipate," "estimate," "plans," "potential," "projects," "ongoing," "expects," "management believes," "we believe," "we intend," and similar expressions. These statements involve known and unknown risks, estimates, assumptions and uncertainties that could cause actual results to differ materially from the results set forth in this Annual Report. You should not place undue reliance on these forward-looking statements. You should be aware that our actual results could differ materially from those contained in the forward-looking statements due to a number of factors such as: continued development of our technology; lack of product revenues successful completion of clinical trials and obtaining regulatory approval to market ability to protect our intellectual property dependence on collaborative partners ability to generate positive cash flow ability to raise additional capital if and when necessary dependence on key personnel; competitive factors; the operation of our business; and general economic conditions.

These factors should be considered carefully and readers are cautioned not to place undue reliance on such forward looking statements. These forward-looking statements speak only as of the date on which they are made, and except to the extent required by federal securities laws, we undertake no obligation to update any forward-looking statements to reflect events or circumstances after the date on which the statement is made or to reflect the occurrence of unanticipated events. In addition, we cannot assess the impact of each factor on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Item 3. Controls and Procedures.

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of management, including our chief executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934. Based upon that evaluation, our chief executive officer and principal financial officer concluded that our disclosure controls and procedures are effective to cause the material information required to be disclosed by us in the reports that we file or submit under the Exchange Act to be recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. There have been no significant changes in our internal controls or in other factors which could significantly affect internal controls subsequent to the date we carried out our evaluation.

PART II

Item 1. Legal Proceedings

There are no material pending legal proceedings to which we are a party or to which any of our property is subject and to the best of our knowledge, no such actions against us are contemplated or threatened.
