Edgar Filing: IntelGenx Technologies Corp. - Form 8-K

Item 1.01 Entry into a Material Definitive Agreement.

IntelGenx Corp. announced today that it has entered into a Letter of Intent (LOI) with Cannasat Therapeutics Inc.. Under the terms of the LOI, IntelGenx would acquire a fifty percent ownership stake from Cannasat and an exclusive worldwide license to develop and commercialize Relivar, a novel formulation of dronabinol, utilizing IntelGenx s proprietary mucoadhesive AdVersa technology, for the treatment of various diseases including neuropathic pain.

The LOI details the terms under which the two parties will negotiate an exclusive worldwide license that should result in IntelGenx assuming sole product development and corresponding funding as well as commercialization rights for Relivar. The LOI also lays out the terms for shared milestones and royalties generated by sublicensing of Relivar to a potential pharmaceutical marketing partner in the future. Upon completing a definitive license agreement, IntelGenx would forgive approximately CAD\$231,000 of debt owed by Cannasat. A definitive license agreement would be subject to board approval for both companies.
