**SABESP announces its second
quarter 2005 results**

So Paulo, August 15, 2005 - SABESP Cia. de Saneamento Básico do Estado de So Paulo (NYSE: SBS; Bovespa: SBSP3), the largest water and sewage utility company in the Americas and the third largest in the world, according to its number of customers, announces today its results for the second quarter 2005 (2Q05). The Company's operating and financial information, except when indicated otherwise, is shown in *Brazilian Reais*, in accordance with the Brazilian corporate law. All comparisons in this release, unless otherwise stated, refer to the second quarter of 2004.

SBSP3: R\$153,00/thousand

Closing price:08/15/2005

Highlights

- Recovery of billed volumes for water and sewage services, recording a 5.7% growth in comparison to 2Q04.
- Net revenue in the quarter posted an 18.5% growth.
- Refinancing of the US\$275 million Eurobonds through the 8th debenture issuance.
- 10% drop in the Company's foreign exchange variation risk.

1. SABESP posted a 18.5% net revenue growth and a 27.1% EBITDA growth*(R\$ million)*

(**) Earnings before interest, taxes, depreciation and amortization

SABESP recorded net revenue of R\$1.2 billion and EBITDA of R\$560.2 million in 2Q05. The final result in the period, a R\$335.7 million net income, is mainly due to the 23.3% increase in gross operating revenue and to the positive effect of the 11.8% real appreciation versus the US dollar in the period.

2. Net operating revenue 18.5% growth

Net operating revenue increased by R\$192.4 million or 18.5%. The upside is a result of the 6.8% tariff readjustment as of August 29, 2004 and of the 5.7% increase in billed volumes for water and sewage services, the migration of customers for a higher tariff consumption level, and the end of the program for the rational use of water. However, this increase was minimized by the R\$59.2 million raise due to changes occurred in the COFINS/PASEP legislation.

The following tables show the water and sewage billed to the retail and to the wholesale markets by customer category and region, in the second quarter of 2004 and 2005:

3. Costs, administrative and selling expenses

Costs, administrative and selling expenses went up by R\$73.3 million or 9.8% .

Below we present the main variations:

	<i>(R\$ million)</i>			
	2Q04	2Q05	Variation	Chg. %
Salaries and payroll	269.9	278.0	8.1	3.0
General expenses	20.8	28.2	7.4	35.6
Treatment supplies	22.6	26.1	3.5	15.5
Third-party services	98.6	116.9	18.3	18.6
Electric power	90.7	109.1	18.4	20.3
General expenses	23.5	45.4	21.9	93.2
Depreciation and amortization	149.3	149.5	0.2	0.1
Credit write-offs	66.8	60.4	(6.4)	(9.6)
Tax expenses	5.2	7.1	1.9	36.5
Costs, administrative and selling expenses	747.4	820.7	73.3	9.8

3.1. Salaries and payroll

Salaries and payroll posted a R\$8.1 million or 3.0% increase. This variation was mainly due to the 7.94% increase in wages, benefits and charges from the collective labor agreement as from May 2005, which impacted approximately R\$19.3 million, partially offset by the 1.3% drop in the number of employees. Another factor that contributed to this lower variation is related to the allowance payment corresponding to 20% of the outcome of the Maximizing Results Program during the same period of 2004, in the amount of R\$9.4 million.

3.2. General supplies

This line recorded a R\$7.4 million or 35.6% increase, mainly directed towards operational systems maintenance in the amount of R\$2.7 million, maintenance of residential connection in the amount of R\$1.6 million and gas and lubricant for the Company's vehicles in the amount of R\$1.0 million.

3.3. Treatment supplies

Recorded a R\$3.5 million or 15.5% increase, as a result of the following material s variation: aluminum sulfate, totaling R\$1.5 million and chlorine, totaling R\$1.1 million. Aluminum sulfate was used in a larger scale, replacing other products with higher prices. In chlorine case, the increase was due to the water quality, which created the need to use a larger quantity of this product, in order to comply with the established parameters.

3.4. Third party services

Went up by R\$18.3 million or 18.6%, mainly motivated by technical professional services, regarding the 8th debenture issuance, maintenance and improvement of the call center for the metropolitan region, studies regarding the development of a strategy for the universalization of sanitation services (Tietê Project Second Phase), tariff study, Corporate Social Responsibility program, strategic planning, management support mechanisms, studies and research regarding sludge disposal in sewage treatment plants and water treatment plants, and residential connection maintenance (Global Sourcing Program).

3.5. Electric power

Electric power presented an increase of R\$18.4 million or 20.3%, resulting from the average increase of 18.0% in electric power tariffs. Regarding electric power consumption, there was a 0.2% drop in the second quarter of 2005 (509,536 MWh) in comparison to the same period of 2004 (510,399 MWh), due to the Energetic Efficiency Program.

3.6. General expenses

Presented a R\$21.9 million or 93.2% raise, mainly due to provisions for civil contingencies, in the amount of R\$13.4 million, due to revision and changes in the outlook for lawsuits already in course and provision for losses in the amount of R\$4.5 million.

3.7. Credit write-offs

Credit write-offs recorded a R\$6.4 million or 9.6% drop, mainly due to credit recovery through the reception and agreements with past due customers.

3.8. Tax expenses

Recorded a R\$1.9 million or 36.5% increase, mainly due to the Provisory Contribution on Financial Transactions CPMF from the anticipation of US dollar purchase.

4. Financial expenses and passive monetary and exchange variations

4.1. Financial expenses

Financial expenses posted a R\$3.7 million increase, due to:

- Interest on domestic loans and financing, up by R\$18.7 million due to the debentures;
- Provision for financial contingencies, with a R\$8.6 million increase, regarding interest and estimate updates for the already existing lawsuits;
- Interest over external loans and financing, down by R\$22.7 million, as a result of the real appreciation versus the US dollar in 2Q05, affecting the interest provisioned over their respective balance;
- Income tax over external remittance, a R\$4.7 million drop, due to the payment of interest during 2Q04;
- Other financing expenses, corresponding to a R\$3.6 million drop.

4.2. Passive monetary and exchange variation

Passive monetary and exchange variation was R\$448.8 million, mainly due to the 11.8% real appreciation versus US dollar in 2Q05 in comparison to a 6.8% real depreciation in 2Q04.

5. Operating indicators

The table below shows the continued improvement on the company's services.

Operational indicators	2Q04	2Q05	Chg. %

6. Loan settlements and financing

On July 28, the Eurobonds in the amount of US\$275 million, as well as the interest over the last installment, corresponding to R\$699 million, was fully settled. The resources to amortize such debt were funded by the 8th debentures issuance, in the amount of R\$700 million, substantially decreasing the Company's foreign exchange variation risk, regarding its debt in the capital markets.
