MORGAN'S FOODS, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The interim consolidated financial statements of Morgan's Foods, Inc. (the "Company") have been prepared without audit. In the opinion of Company management, all adjustments have been included. Unless otherwise disclosed, all adjustments consist only of normal recurring adjustments necessary for a fair statement of results of operations for the interim periods. These unaudited financial statements have been prepared using the same accounting principles that were used in preparation of the Company's annual report on Form 10-K for the year ended March 3, 2013. Certain prior period amounts have been reclassified to conform to current period presentations. The results of operations for the twenty-four weeks ended August 18, 2013 are not necessarily indicative of the results to be expected for the full year. Although the Company believes that the disclosures are adequate to make the information presented not misleading, it is suggested that these condensed consolidated financial statements be read in conjunction with the audited consolidated financial statements and the notes thereto included in the Company's Form 10-K for the fiscal year ended March 3, 2013.

The Company's debt is reported at historical cost and is almost entirely comprised of variable rate borrowings. The market for variable rate debt for restaurant financing is currently extremely limited. The Company's debt is not publicly traded and there are few lenders or financing transactions for similar debt in the marketplace at this time. Management has concluded that it is not practicable to estimate the fair value of the Company's debt as of August 18, 2013.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. The Company has incurred losses in fiscal years 2013 and 2012 and has negative working capital and an accumulated deficit at August 18, 2013. The Company has managed its liquidity in fiscal 2013 and will manage in fiscal 2014 through the refinancing of debt, the sale and leaseback of restaurant properties and the sale of additional equity. Should the Company have difficulty meeting its forecasts, this could have an adverse effect on its liquidity position. The Company has taken actions to improve its cash flows, including closely monitoring its expenses and store closings for underperforming stores and expects to be able to achieve its forecast for fiscal 2014. However, there can be no assurances that our cash flow will be sufficient to allow us to continue as a going concern if we are unable to meet our projections.

NOTE 2 – RECENT ACCOUNTING PRONOUNCEMENTS

ASU 2013-01 Balance Sheet Topic 210, January 2013

Clarifies the scope of disclosures related to offsetting assets and liabilities. This release reduces the application of these disclosures to eliminate unintended consequences resulting from the application of a previously issued standard. The standard is effective for fiscal years beginning on or after January 1, 2013. Management has determined that the application of this standard did not have a material effect on the financial statements of the Company.

ASU 2013-10 Derivatives and Hedging Topic 815, July 2013

Provides for the inclusion of the Fed Funds Effective Swap Rate (or Overnight Index Swap Rate) as a Benchmark Interest Rate for Hedge Accounting Purposes, effective for swaps entered into after July 17, 2013. This release allows the use of the overnight index swap rate as an additional benchmark for hedge accounting treatment. Management has determined that the application of this standard will not have a material effect on the financial statements of the Company.

ASU 2013-11 Income Taxes Topic 740, July 2013

Provides for the presentation of an unrecognized tax benefit when a net operating loss carryforward, a similar tax loss, or a tax credit carryforward exists, effective for fiscal years beginning after 12-15-13. An unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward if available and a company has the intent and ability to use for such purpose. Management has determined that the application of this standard did not have a material effect on the financial statements of the Company.

NOTE 3 – NET INCOME PER COMMON SHARE

Basic net income per common share is computed by dividing net income by the weighted average number of common shares outstanding during the period. Diluted net income per common share is based on the combined weighted average number of shares outstanding, which includes the assumed exercise, or conversion of options. In computing diluted net income per common share, the Company has utilized the treasury stock method. The following table reconciles the difference between basic and diluted earnings per common share:

	Quarter ended August 18, 2013			Quarter ended August 12, 2012		
	Net income (Numerator)	Shares (Denominator)	Per Share Amount	Net income (Numerator)	Shares (Denominator)	Per Share Amount
Basic EPS						
Income (loss) available to common shareholders	\$(577,000)	4,039,457	\$ (0.14)	\$206,000	2,934,995	\$ 0.07
Effect of Dilutive Securities						
Weighted Average Stock Options	-	-		-	5,199	
Diluted EPS						
Income (loss) available to common shareholders	\$(577,000)	4,039,457	\$ (0.14)	\$206,000	2,940,194	\$ 0.07
	Twenty-four weeks ended August 18, 2013			Twenty-four weeks ended August 12, 2012		
	Net income (Numerator)	Shares (Denominator)	Per Share Amount	Net income (Numerator)	Shares (Denominator)	Per Share Amount
Basic EPS						
Income (loss) available to common shareholders	\$(170,000)	3,790,988	\$ (0.04)	\$246,000	2,934,995	\$ 0.08
Effect of Dilutive Securities						
Weighted Average Stock Options	-	-		-	2,600	
Diluted EPS						
Income (loss) available to common shareholders	\$(170,000)	3,790,988	\$ (0.04)	\$246,000	2,937,595	\$ 0.08

Weighted average stock options of 60,089 shares for the quarter ended August 18, 2013 and 65,719 shares for the twenty-four weeks ended August 18, 2013 have been excluded from the calculations of diluted earnings per share because there was a net loss in those periods.

NOTE 4 – DEBT

At August 18, 2013 the Company's term loan credit agreement requires the maintenance of a consolidated debt service coverage ratio of ("DSCR") 1.80 to 1 or greater regarding all of the Company's debt. Debt service coverage ratios are calculated by dividing the cash flow before taxes and debt service ("EBITDA") for the previous 12 months by the debt service payable for the same period. The Company's term loan also requires a consolidated debt to EBITDA ("Leverage") ratio of 2.50 or less, minimum EBITDA of \$3.0 million, maximum of \$4.0 million in annual capital expenditures and minimum unencumbered cash of \$1.5 million. The ratios are computed quarterly. At the end of the second quarter of fiscal 2014, the Company had a DSCR of 3.33 and a Leverage ratio of 1.5, being in compliance with all of the required ratios.

NOTE 5 - STOCK OPTIONS AND LTIP UNITS

On April 2, 1999, the Board of Directors of the Company approved a Stock Option Plan for Executives and Managers. Under the plan 145,500 shares were reserved for the grant of options. The Stock Option Plan for Executives and Managers provides for grants to eligible participants of nonqualified stock options only. The exercise price for any option awarded under the Plan is required to be not less than 100% of the fair market value of the shares on the date that the option is granted. Options are granted by the Stock Option Committee of the Company. Options for 145,150 shares were granted to executives and managers of the Company on April 2, 1999 at an exercise price of \$4.125, all of which have either expired or been exercised. Options for 350 common shares were granted on November 6, 2008 at the closing price on that day of \$1.50 per share all of which are currently outstanding. The options vested in six months and expire ten years after date of issue.

At the Company's annual meeting on June 25, 1999 the shareholders approved the Key Employees Stock Option Plan. This plan allows the granting of options covering 291,000 common shares and has essentially the same provisions as the Stock Option Plan for Executives and Managers which was discussed above. Options for 129,850 shares were granted to executives and managers of the Company on January 7, 2000 at an exercise price of \$3.00. Options for 11,500 shares were granted to executives on April 27, 2001 at an exercise price of \$.85, all of which have either expired or been exercised. Options for 149,650 common shares were granted on November 6, 2008 at the closing price on that day of \$1.50 per share of which 122,317 are currently outstanding. The options vested in six months and expire ten years after date of issue.

As of August 18, 2013, a total of 122,667 options were outstanding, fully vested and exercisable at a weighted average exercise price of \$1.50 per share. Options for 1,000 shares were exercised during the second quarter of fiscal 2014. No options are available for grant and no options were granted during the current year period. The Company recorded no compensation expense during the current year period related to stock options.

The following table summarizes information about stock options outstanding at August 18, 2013:

Exercise Outstanding Average Number

Prices	8/18/13	Life	Exercisable
1.50	122,667	5.2	122,667

On April 9, 2013, the Board of Directors approved a Long-Term Incentive Plan, (“LTIP”) reserving 150,000 common shares of the Company for issuance under the LTIP. On April 9, 2013, 30,569 restricted common shares were granted under the LTIP to outside directors of the Company, leaving 119,431 shares available for future grant under the LTIP. The shares issued under the LTIP vest in six months and compensation expense related to such shares totaled \$54,000 for the second quarter of fiscal 2014. Unrecognized compensation expense for the grants was \$35,000 as of the end of the second quarter of fiscal 2014. Additional information regarding the LTIP may be found in a report on Form 8-K filed with the SEC on April 15, 2013.

NOTE 6 – CAPITAL EXPENDITURES

The Company is required by its franchise agreements to periodically bring its restaurants up to the required image of the franchisor. This typically involves a new dining room décor and seating package and exterior changes and related items but can, in some cases, require the relocation of the restaurant. If the Company deems a particular image enhancement expenditure to be inadvisable, it has the option to cease operations at that restaurant. Over time, the estimated cost and time deadline for each restaurant may change due to a variety of circumstances and the Company revises its requirements accordingly. Also, significant numbers of restaurants may have image enhancement deadlines that coincide, in which case, the Company will adjust the actual timing of the image enhancements in order to facilitate an orderly construction schedule. During the image enhancement process, each restaurant is normally closed for up to two weeks, which has a negative impact on the Company’s revenues and operating efficiencies. At the time a restaurant is closed for a required image enhancement, the Company may deem it advisable to make other capital expenditures in addition to those required for the image enhancement.

The franchise agreements with KFC and Taco Bell Corporation require the Company to upgrade and remodel its restaurants to comply with the franchisors’ current standards within agreed upon timeframes and the franchisor may terminate the franchise agreement for failure to meet those requirements. In the case of a restaurant containing two

concepts, even though only one is required to be remodeled, additional costs will be incurred because the dual concept restaurant is generally larger and contains more equipment and signage than the single concept restaurant. If a property is of usable size and configuration, the Company can perform an image enhancement to bring the building to the current image of the franchisor. If the property has a deficiency which would render it unsuitable, the Company would need to relocate the restaurant to another location within the trade area to meet the franchisor's requirements. The capital requirements for the KFC branded restaurants are included in the schedule based on the requirements of the KFC Remodel Agreement and the Taco Bell restaurants and are shown at the time management believes they will be done so that all of them can comfortably be completed before the due date for the group.

Number of Units	Period	Type	Capital Cost (1)
1		Fiscal 2014 Relo (2)	100,000
4		Fiscal 2015 Remodels	950,000
7		Fiscal 2016 Remodels	1,745,000
4		Fiscal 2017 Remodels	1,000,000
1		Fiscal 2017 Refresh (3)	100,000
2		Fiscal 2017 Taco Bell	800,000
		Total 2017	1,900,000
3		Fiscal 2018 Remodels	740,000
1		Fiscal 2018 Refresh (3)	100,000
2		Fiscal 2018 Taco Bell	800,000
		Total 2018	1,640,000
1		Fiscal 2019 Remodels	200,000
3		Fiscal 2019 Remodels	300,000
2		Fiscal 2019 Taco Bell	800,000
		Total 2019	1,300,000
7		Fiscal 2020 Refresh (3)	675,000
1		Fiscal 2020 Taco Bell	400,000
		Total 2020	1,075,000
7		Fiscal 2021 Refresh (3)	625,000
7		Fiscal 2022 Refresh (3)	675,000
8		Fiscal 2023 Refresh (3)	675,000
1		Fiscal 2025 Refresh (3)	75,000
62		Total	\$ 10,760,000

(1) These amounts are based on estimates of current construction costs and actual costs may vary.

(2) Relocations of fee owned properties are shown net of expected recovery of capital from the sale of the former location.

Relocation of leased properties assumes the capital cost of only equipment because it is not known until each lease is finalized whether the lease will be a capital or operating lease.

(3) Reflects the estimated cost of dining room update and exterior paint and refurbishment on restaurants previously remodeled to the current image. Costs may also include the addition of equipment such as coolers necessary to meet Franchisor standards.

In addition to the various facilities actions listed on the table above, the Company is obligated to spend an additional amount of approximately \$1,300,000 by the end of calendar year 2014 to install the KFC operations platform consisting of a new point of sale system and related reporting and management systems, new food holding cabinets that improve the quality of product held for sale and a new drive-thru speed of service system in all of its KFC and KFC/Taco Bell "2n1" restaurants. The company has spent approximately \$1,325,000 to date on the operations platform and POS devices for its KFC and Taco Bell restaurants.

Capital expenditures to meet the image requirements of the franchisors and additional capital expenditures on those same restaurants being image enhanced are a large portion of the Company's annual capital expenditures. However, the Company also has made and may make capital expenditures on restaurant properties not included on the foregoing schedule for upgrades or replacement of capital items appropriate for the continued successful operation of its

restaurants. The Company may not be able to finance capital expenditures in the volume and time horizon required by the image enhancement deadlines solely from existing cash balances and existing cash flow and the Company may have to utilize financing for a portion of the capital expenditures. The Company may use both debt and sale/leaseback financing but has no commitments for either at this time.

There can be no assurance that the Company will be able to accomplish the image enhancements and relocations required in the franchise agreements on terms acceptable to the Company. If the Company is unable to meet the requirements of a franchise agreement, the franchisor may choose to extend the time allowed for compliance or may terminate the franchise agreement for the affected location.

NOTE 7 – ASSET ACTIVITIES

The Company owns the land and building of three closed KFC restaurants, all of which are listed for sale and are shown on the Company's consolidated balance sheet as Assets Held for Sale as of August 18, 2013. The Company experienced a loss on restaurant assets of \$472,000 for the second quarter of fiscal 2014 consisting of \$200,000 for the write down of value of two restaurants included in assets held for sale, \$149,000 in write downs of restaurants scheduled to be closed, \$29,000 related to recording the reserve for disposal of two permanently closed restaurant locations, \$31,000 of closed unit expense and \$63,000 of other asset disposals.

The loss on restaurant assets of \$531,000 for the twenty-four weeks ended August 18, 2013 consisted of \$66,000 related to closed unit expense, \$36,000 change in reserve for the disposal of two permanently closed leased restaurant locations, \$149,000 in write downs of restaurants scheduled to be closed, \$81,000 related to the disposal of certain restaurant assets and a \$200,000 reduction in the value of assets held for sale of two closed locations.

NOTE 8 – CONTINGENCIES

The Company is a party to various legal proceedings and claims arising in the ordinary course of its business. The Company believes that the outcome of these matters will not have a material adverse effect on its consolidated financial position, results of operations or liquidity.

NOTE 9 - EQUITY TRANSACTION

On April 12, 2013, the Company issued, in a transaction exempt from registration under the Securities Act of 1933, 1,052,250 common shares to Bandera Master Fund LP at a price of \$2.00 per share, resulting in net proceeds of \$1,718,500 after considering transaction costs of \$386,000. The transaction was negotiated and approved by a Special Committee of the Board of Directors. The terms of the Company's credit agreement required that the net proceeds of the equity transaction be paid as a principal payment in addition to regularly scheduled payments on the credit facility. The transaction is included in the financial statements of the Company and more fully described in a report on Form 8-K filed with the SEC on April 15, 2013.

NOTE 10 – SUBSEQUENT EVENTS

On August 22, 2013, after the balance sheet date, the Company entered into a new loan agreement, comprising two loan facilities with The Huntington National Bank, a national banking association (“Huntington”). The Loan Agreement contains two new loan facilities that, in addition to funding the remodel reserve, pay off the Company’s outstanding loan balance of \$6,104,351, which carried an interest rate of 9.0%, with its current lender, Fortress Credit Corp. (“Fortress”), and a prepayment penalty of 1.0% of the balance. The Loan Agreement contains two facilities consisting of a term loan and a time loan in the total amount of \$8,930,000. The refinance transaction is expected to result in the write-off of deferred financing costs of approximately \$275,000.

The Term Note consists of a \$7,930,000 three year term loan with an interest rate which has been fixed at the rate of 5.44% through the use of a derivative interest rate swap also entered into with Huntington. Principal and interest on the Term Note are payable in substantially equal monthly payments based on an eight year amortization with a balloon payment of the then remaining principal balance due and payable at the end of the three year term.

The Time Note consists of \$1,000,000 having an 18 month term, no scheduled principal payments and a floating interest rate at 30 day LIBOR plus 4.25%. Principal payments on the Time Note are expected to be made with the proceeds of the sale by the Company of excess real estate of closed restaurants. The balance, if any, at the end of the 18 month term will become due and payable.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Description of Business. Morgan's Foods, Inc. (the "Company"), which was formed in 1925, operates through wholly-owned subsidiaries KFC restaurants under franchises from KFC Corporation, Taco Bell restaurants under franchises from Taco Bell Corporation, and Pizza Hut Express restaurants under licenses from Pizza Hut Corporation. As of September 25, 2013, the Company operates 56 KFC restaurants, four Taco Bell restaurants, nine KFC/Taco Bell "2n1's" under franchises from KFC Corporation and franchises from Taco Bell Corporation and three Taco Bell/Pizza Hut Express "2n1's" under franchises from Taco Bell Corporation and licenses from Pizza Hut Corporation. The Company's fiscal year is a 52 - 53 week year ending on the Sunday nearest the last day of February.

Summary of Expenses and Operating Income as a Percentage of Revenues

	Twelve Weeks		Twenty-four Weeks Ended	
	August 18, 2013	August 12, 2012	August 18, 2013	August 12, 2012
Cost of sales:				
Food, paper and beverage	32.8%	32.5%	32.8%	32.5%
Labor and benefits	28.6%	27.9%	28.5%	28.1%
Restaurant operating expenses	26.1%	25.6%	24.9%	25.1%
Depreciation and amortization	3.5%	3.0%	3.4%	3.0%
General and administrative expenses	6.1%	5.8%	5.8%	5.8%
Operating income	0.6%	4.8%	3.3%	4.4%

Revenues The revenue decrease of \$890,000 in the quarter ended August 18, 2013 as compared to the prior year quarter was primarily the result of a 3.1%, or \$624,000, comparable sales decrease, \$360,000 from the permanent closing of a Taco Bell restaurant and a KFC restaurant, partially offset by additional sales of \$94,000 for restaurant that were temporarily closed for remodeling in the prior year quarter. The comparable sales decrease was primarily the result of poor sales performance in the KFC concept resulting in a comparable sale decrease of 4.6% for KFC sales only.

The revenue decrease for the twenty-four weeks ended August 18, 2013 as compared to the prior year period was the result of a 1.4%, or \$549,000 increase in comparable restaurant revenue, reflecting comparable increases in the first quarter, partially offset by the KFC sales declines in the second quarter, additional sales of \$204,000 from the

temporary closing of six restaurants for remodeling during the prior year period, offset by \$832,000 from the permanent closing of three restaurant locations and \$195,000 from the temporary closing of two restaurants for rebuilding or repairs during the current year period.

Cost of Sales - Food, Paper and Beverage Food, paper and beverage costs increased slightly as a percentage of revenue to 32.8% for the quarter ended August 18, 2013 compared to 32.5% for the quarter ended August 12, 2012. The increase in the current year quarter was primarily the result of high levels of food waste caused by the low sales volume of certain products. Food, paper and beverage costs for the twenty-four weeks ended August 18, 2013 also increased slightly to 32.8% compared to 32.5% in the comparable prior year period primarily due to the reasons discussed above.

Cost of Sales - Labor and Benefits Labor and benefits increased as a percentage of revenue for the quarter ended August 18, 2013 to 28.6% compared to 27.6% for the comparable year earlier quarter. The increase was primarily the result of decreased efficiencies due to the lower sales volumes of the KFC products. Labor and benefits increased to 28.5% of revenues for the twenty-four weeks ended August 18, 2013 compared to 28.1% in the comparable prior year period. The increase in labor and benefit expenses was primarily the result of the reasons discussed above.

Restaurant Operating Expenses Restaurant operating expenses increased to 26.1% of revenue in the second quarter of fiscal 2014 compared to 25.6% in the second quarter of fiscal 2013 primarily due to increased repairs and maintenance and general insurance, partially offset by decreased utilities and advertising expense. For the twenty-four weeks ended August 18, 2013, restaurant operating expenses decreased to 24.9% of revenue from 25.1% of revenue in the prior year period primarily due to the reduced utilities and advertising expense.

Depreciation and Amortization Depreciation and amortization of \$683,000 for the quarter ended August 18, 2013 increased from \$621,000 in the prior year quarter. This increase was a result of an increased balance of tangible assets. Depreciation and amortization of \$1,364,000 for the twenty-four weeks ended August 18, 2013 increased from \$1,225,000 in the prior year period due to an increased balance of tangible assets.

General and Administrative Expenses General and administrative expenses increased to \$1,207,000 in the second quarter of fiscal 2014 compared to \$1,190,000 in the first quarter of fiscal 2014. This increase was the result of director fees related to restricted share grants to outside directors, partially offset by the reduction in executive staff and external accountings services. General and administrative expense decreased slightly to \$2,375,000 in the twenty-four weeks ended August 18, 2013 compared to \$2,384,000 in the twenty-four weeks ended August 12, 2012 due to the reduction in executive staff, and external accounting services, partially offset by the increase related to restricted share grants to outside directors.

Loss on Restaurant Assets The Company experienced a loss on restaurant assets of \$472,000 for the second quarter of fiscal 2014 compared to a loss of \$88,000 in the comparable prior year quarter. The current fiscal year loss consisted of \$200,000 for the write down of value of two restaurants included in assets held for sale, \$149,000 in write downs of restaurants scheduled to be closed, \$29,000 related to recording the reserve for disposal of two permanently closed restaurant locations, \$31,000 of closed unit expenses and \$63,000 of other asset disposals. The prior year includes \$53,000 related to recording the reserve for disposal of two permanently closed restaurant locations, \$15,000 of closed unit expense, \$10,000 of expense related to the sale of one closed restaurant location, and \$10,000 of other asset disposal.

The Company experienced a loss on restaurant assets of \$531,000 for the twenty-four weeks ended August 18, 2013 compared to a loss of \$458,000 for the twenty-four weeks ended August 12, 2012. The current fiscal year loss consisted of \$66,000 related to closed unit expenses, \$36,000 change in reserve for disposal of two permanently closed leased restaurant locations, \$149,000 in write downs of restaurants scheduled to be closed, \$81,000 related to the disposal of certain restaurant assets and a \$200,000 reduction in the value of assets held for sale of two closed locations. The 2013 loss consisted of \$40,000 related to closed unit expense, \$148,000 change in reserve for disposal of two permanently closed leased restaurant locations, \$163,000 related to the disposal of certain restaurant locations and a \$136,000 reduction in the value of assets held for sale of two locations.

Operating Income Operating income decreased to \$111,000, or 0.6% of revenue, for the quarter ended August 18, 2013 from \$989,000, or 4.8% of revenue, in the prior year quarter. The decrease of \$878,000 was the result of the items discussed above. Operating income for the twenty-four weeks ended August 18, 2013 decreased to \$1,342,000, or 3.3% of revenue, compared to \$1,812,000, or 4.4% of revenue, in the prior year period. The decrease of \$470,000 was the result of the items discussed above.

Interest Expense Interest expense on bank debt and notes payable decreased to \$154,000 in the second quarter of fiscal 2014 from \$217,000 in fiscal 2013 due to lower debt balances. Interest expense from capitalized lease debt decreased to \$464,000 in the second quarter of fiscal 2014 from \$506,000 in fiscal 2013 due to lower capital lease balances.

Interest expense on bank debt and notes payable decreased to \$334,000 in the twenty-four weeks ended August 18, 2013 from \$447,000 in twenty-four weeks ended August 12, 2012 due to lower debt balances. Interest expense from capitalized lease debt decreased to \$941,000 in the twenty-four weeks ended August 18, 2013 from \$1,008,000 in the twenty-four weeks ended August 12, 2012 due to lower capital lease balances.

Other Income and Expense Other income and expense was income of \$16,000 for the second quarter and an expense of \$66,000 for the first twenty-four weeks of fiscal 2014 compared to income of \$12,000 for the second quarter and income of \$31,000 for the first twenty-four weeks of fiscal 2013. The twenty-four weeks of fiscal 2014 expense was primarily the result of fees related to the early termination of a Taco Bell franchise agreement.

Provision for Income Taxes The provision for income taxes for the quarter ended August 18, 2013 was \$86,000 on a pre-tax loss of \$491,000 compared to \$72,000 on pre-tax income of \$278,000 for the comparable prior year period. The provision consists of a current tax provision of \$16,000 and a deferred tax provision of \$70,000 compared to a current tax provision of \$16,000 and a deferred tax provision of \$56,000 for the comparable prior year period.

The provision for income taxes for the twenty-four weeks ended August 18, 2013 was \$171,000 on pre-tax income of \$1,000 compared to \$143,000 on pre-tax income of \$388,000 for the comparable prior year period. The components of the tax provision for the twenty-four weeks ended August 18, 2013 were a current tax provision of \$32,000 and deferred tax provision of \$139,000 compared to a current tax provision of \$31,000 and deferred tax provision of \$112,000 for the comparable prior year period. The deferred tax provision for the quarter, twenty-four weeks and comparable prior year periods are a result of deferred tax liabilities associated with franchise rights and goodwill that cannot be used in determining net deferred tax assets. The Company continues to fully reserve its net deferred tax assets to zero.

Additionally, the Company has determined that the use of its annual effective tax rate would not be appropriate to record its income taxes because a small change in its estimate of income would result in a large change in its effective tax rate. Accordingly, the Company recorded its income taxes based on its results for the quarter and the twenty-four weeks ended August 18, 2013 and for the comparable prior year periods.

Liquidity and Capital Resources Cash provided by operating activities was \$2,811,000 for the twenty-four weeks ended August 18, 2013 compared to \$2,040,000 for the twenty-four weeks ended August 12, 2012. Primary factors causing the change were:

- a net loss of \$170,000 in the current year period compared to a net income of \$245,000 in the prior year period;
- decrease of \$171,000 in accounts payable and accrued liabilities compared to an increase of \$409,000 in the same categories in the prior year quarter;
- \$139,000 more in depreciation and amortization in the current fiscal year compared to the prior fiscal year;
- increase of \$107,000 in loss on restaurant assets in the current year; and
- reduction of \$363,000 in prepaid expenses in the current year compared to an increase of \$38,000 in the prior year.

The increase of accounts payable and accrued liabilities was caused by image enhancement activity and operations platform installation during the second quarter of fiscal 2014. The change in prepaid expenses was due primarily to the relationship of the balance sheet date to the first of the month, affecting prepaid rent and other similar items. The loss on restaurant assets reflects the decrease in carrying value of certain assets held for sale and impairment of the value of a restaurant to be closed and sold. Cash used in investing activities for the current fiscal year of \$1,899,000 is the product of remodel capital expenditures and the installation of required systems in both the KFC and Taco Bell restaurants. In the prior year, \$1,571,000 of cash used by investing activities consisted primarily of \$2,108,000 of cash used in the image enhancement of facilities, and installation of the KFC operations platform, offset by the proceeds from the sale of one restaurant location. The Company made principal payments of \$366,000 and payments in advance of scheduled maturities of \$1,664,000 during the current fiscal year and received cash from equity transactions of \$1,823,000, compared to scheduled principal payments of \$24,000 in the comparable prior year

quarter. Management believes that its operating cash flows and available cash for the coming year will be sufficient to meet its liquidity and capital resource needs.

On April 12, 2013, the Company issued, in a transaction exempt from registration under the Securities Act of 1933, 1,052,250 common shares to Bandera Master Fund LP at a price of \$2.00 per share, resulting in net proceeds of \$1,718,500 after considering transaction costs of \$386,000. The transaction was negotiated and approved by the Special Committee of the Board of Directors. The terms of the Company's credit agreement required that the net proceeds of the equity transaction be paid as a principal payment in addition to regularly scheduled payments on the credit facility. The transaction is included in the financial statements of the Company and more fully described in a report on Form 8-K filed with the SEC on April 15, 2013.

At August 18, 2013 the Company's term loan credit agreement requires the maintenance of a consolidated debt service coverage ratio of ("DSCR") 1.80 to 1 or greater regarding all of the Company's debt. Debt service coverage ratios are calculated by dividing the cash flow before taxes and debt service ("EBITDA") for the previous 12 months by the debt service payable for the same period. The Company's term loan also requires a consolidated debt to EBITDA ("Leverage") ratio of 2.50 or less, minimum EBITDA of \$3.0 million, maximum of \$4.0 million in annual capital expenditures and minimum unencumbered cash of \$1.5 million. The ratios are computed quarterly. At the end of the second quarter of fiscal 2014, the Company had a DSCR of 3.33 and a Leverage ratio of 1.5, being in compliance with all of the required ratios.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. The Company has incurred losses in fiscal years 2013 and 2012 and has negative working capital and an accumulated deficit at August 18, 2013. The Company has managed its liquidity in fiscal 2013 and will manage its liquidity in fiscal 2014 through the refinancing of debt, the sale and leaseback of restaurant properties and the sale of additional equity. Should the Company have difficulty meeting its forecasts, this could have an adverse effect on its liquidity position. Management has taken actions to improve its cash flows, including closely monitoring its expenses and store closings for underperforming stores and expects to be able to achieve its forecast for fiscal 2014. However, there can be no assurances that our cash flow will be sufficient to allow us to continue as a going concern if we are unable to meet our projections.

Recent Accounting Pronouncements

ASU 2013-01 Balance Sheet Topic 210, January 2013

Clarifies the scope of disclosures related to offsetting assets and liabilities. This release reduces the application of these disclosures to eliminate unintended consequences resulting from the application of a previously issued standard. The standard is effective for fiscal years beginning on or after January 1, 2013. Management has determined that the application of this standard did not have a material effect on the financial statements of the Company.

ASU 2013-10 Derivatives and Hedging Topic 815, July 2013

Inclusion of the Fed Funds Effective Swap Rate (or Overnight Index Swap Rate) as a Benchmark Interest Rate for Hedge Accounting Purposes, effective for swaps entered into after July 17, 2013. This release allows the use of the overnight index swap rate as an additional benchmark for hedge accounting treatment. Management has determined that the application of this standard will not have a material effect on the financial statements of the Company.

ASU 2013-11 Income Taxes Topic 740, July 2013

Presentation of an Unrecognized Tax Benefit When a Net Operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carryforward Exists, effective for fiscal years beginning after 12-15-13. An unrecognized tax benefit, or a portion of an unrecognized tax benefit, should be presented in the financial statements as a reduction to a deferred tax asset for a net operating loss carryforward, a similar tax loss, or a tax credit carryforward, except as follows. Management has determined that the application of this standard did not have a material effect on the financial statements of the Company.

Seasonality The operations of the Company are affected by seasonal fluctuations. Historically, the Company's revenues and income have been highest during the summer months with the fourth fiscal quarter representing the slowest period. This seasonality is primarily attributable to weather conditions in the Company's marketplace, which consists of portions of Ohio, Pennsylvania, Missouri, Illinois, West Virginia and New York.

Safe Harbor Statements This quarterly report on Form 10-Q contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The statements include those identified by such words as "may," "will," "expect" "anticipate," "believe," "plan" and other similar terminology. Forward looking statements involve risks and uncertainties that could cause actual events or results to differ materially from those expressed or implied in this report. The forward-looking statements reflect the Company's current expectations and are based upon data available at the time of the statements. Actual results involve risks and uncertainties, including both those specific to the Company and general economic and industry factors. Factors specific to the Company include, but are not limited to, its debt covenant compliance, actions that

lenders may take with respect to any debt covenant violations, its ability to obtain waivers of any debt covenant violations and its ability to pay all of its current and long-term obligations and those factors described in Part I Item 1A (“Risk Factors”) of the Company’s Annual Report on Form 10-K filed with the SEC on June 3, 2013. Economic and industry risks and uncertainties include, but are not limited, to, franchisor promotions, business and economic conditions, legislation and governmental regulation, competition, success of operating initiatives and advertising and promotional efforts, volatility of commodity costs and increases in minimum wage and other operating costs, availability and cost of land and construction, consumer preferences, spending patterns and demographic trends. In addition, the forward-looking statements contained herein represent our estimates only as of the date of this filing and should not be relied upon as representing our estimates as of any subsequent date. While we may elect to update these forward-looking statements at some point in the future, we specifically disclaim any obligation to do so, whether to reflect actual results, changes in assumptions, changes in other factors affecting such forward-looking statements or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Essentially all of the Company’s debt comprising approximately \$6.2 million of principal balance has a variable rate which is adjusted monthly. A one percent increase in the variable rate base (90 day LIBOR) of the loans at the beginning of the year would not increase the Company’s annual interest costs as there is more than a 4% difference between the minimum interest rate and the calculated variable rate. The Company may choose to offset all, or a portion of its future risk through the use of interest rate swaps or caps. The Company does not enter into derivative financial investments for trading or speculation purposes. Also, the Company is subject to volatility in food costs as a result of market risk and we manage that risk through the use of a franchisee purchasing cooperative which uses longer term purchasing contracts. Our ability to recover increased costs through higher pricing is, at times, limited by the competitive environment in which we operate. The Company believes that its market risk exposure is not material to the Company’s financial position, liquidity or results of operations.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

The Principal Executive Officer (“PEO”) and Principal Financial Officer (“PFO”) carried out an evaluation of the Company’s disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (“the Exchange Act”)) as of the end of the period covered by this report. Based on that evaluation, the Company’s PEO and PFO concluded that our disclosure controls and procedures were effective as of August 18, 2013.

Changes in Internal Control Over Financial Reporting

There were no changes in the Company’s internal control over financial reporting (as defined in Rule 13a-15(f) and 15d-15(f) of the Exchange Act) during the quarter ended August 18, 2013 that materially affected, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

The Company is a party to various legal proceedings and claims arising in the ordinary course of its business. The Company believes that the outcome of these matters will not have a material adverse affect on its consolidated financial position, results of operations or liquidity.

Item 1A. Risk Factors

The Company’s Annual Report on Form 10-K for the fiscal year ended March 3, 2013 discusses the risk factors facing the Company. There has been no material change in the risk factors facing our business since March 3, 2013.

Item 2. Unregistered Sale of Equity Securities and Use of Proceeds
