Prudential plc investor conference and business performance update

Prudential plc ("Prudential") is holding a conference for investors and analysts in Singapore on 14-15 November 2018.

The presentations will focus on Prudential's Asia businesses, which are central to the Group's long-term growth ambitions, both today and post-demergers of M&G Prudential, our savings and investment business in the UK and Europe. There will also be a Group update on strategy, the M&G Prudential demerger process and new business

performance, alongside presentations from Jackson, our US business, and M&G Prudential.

Mike Wells, Group Chief Executive, said: "Since our last Asia-based investor conference in 2014, our Asia business has more than doubled new business profit<sup>1</sup>, demonstrating our ability to capture high-quality growth at pace.

"As we look ahead post-demerger, the profitable growth prospects of our Asia businesses remain substantial, given the increasing protection and savings needs of our customers and the extent of the footprint we have established.

"I look forward to showcasing the breadth of our capabilities and the reach of all of our businesses, which underpin my confidence in the ability of Prudential and M&G Prudential to capture the structural opportunities ahead and to continue to deliver for the benefit of all our stakeholders."

#### Business performance update<sup>2</sup>

Over the first nine months of 2018, the Group's life insurance new business profit<sup>3</sup> increased by 17 per cent (12 per cent on an actual exchange rate basis), reflecting the strength and diversity of the Group's positioning and our continued focus on high-quality new business sales, together with the benefit of pricing actions and more favourable economics in the period.

In Asia, our performance continues to be driven by our strategic focus on recurring premium, health and protection business. In the first nine months, new business profit increased by 15 per cent (9 per cent on an actual exchange rate basis) to £1,762 million, with a 19 per cent increase in health and protection new business profit. This performance remains broad-based, with double-digit growth in seven markets<sup>4</sup>, and across both our agency and bancassurance channels. While APE sales in the first nine months were unchanged compared to the same period in 2017, the year-on-year growth rate was 9 per cent in the discrete third quarter and included record third quarter sales in seven markets.

In asset management, Eastspring total funds under management increased to £149.2 billion<sup>5</sup> (31 December 2017: £138.9 billion<sup>6</sup>), reflecting continued internal net flows from our life businesses and the additional funds from the acquisition of TMB Asset Management in Thailand. External net outflows were £2.0 billion<sup>7</sup> in the year to date, resulting from institutional bond fund redemptions and the impact of market volatility on retail gross flows. On 23 October 2018, Eastspring announced it had successfully registered Eastspring Investment Management (Shanghai) Company Limited, Eastspring's wholly foreign owned enterprise, as a private fund manager with the Asset Management Association of China, providing a foundation for long-term development of the business in China.

In the US, Jackson's new business profit increased 22 per cent (16 per cent on an actual exchange rate basis) to £716 million in the first nine months, primarily reflecting the benefit of higher interest rates and tax reform. Variable annuity APE sales, excluding Elite Access, were up 1 per cent compared with the same period last year. Separate account assets are up 5 per cent year-to-date to \$185.3 billion (31 December 2017: \$176.6 billion), driven by positive net flows and favourable market movements.

M&G Prudential has seen continued demand for PruFund-backed products, leading to an 18 per cent increase in new business profit to £277 million, with APE sales up 6 per cent. PruFund net inflows of £6.6 billion in the first nine months contributed to PruFund funds under management of £42.9 billion, 19 per cent higher than at the start of the year. In asset management, external net outflows of £5.6 billion in the first nine months (2017: net inflows £9.9 billion) included outflows of £6.1 billion from the redemption of a single large, but low-margin, institutional mandate. External funds under management were £157.4 billion at 30 September 2018 (31 December 2017: £163.9 billion), with M&G Prudential total funds under management of £334.4 billion<sup>8</sup> (31 December 2017: £350.7 billion<sup>8</sup>).

The estimated Group shareholder Solvency II surplus<sup>9,10</sup> at 30 September 2018, after payment of the first interim dividend, was £14.1 billion, equivalent to a shareholder cover ratio<sup>9,10</sup> of 205 per cent (31 December 2017: £13.3 billion, equivalent to a shareholder cover ratio<sup>9</sup> of 202 per cent).

We continue to make good progress on the actions needed for the demerger of M&G Prudential from the Group. On 1 October 2018, we announced the appointment of Mike Evans as Chair of M&G Prudential. In addition, in October 2018, as part of the process required before demerger to rebalance debt across M&G Prudential and Prudential, the Group issued substitutable subordinated debt, in three tranches totalling a sterling equivalent of £1.6 billion.

#### Outlook

Our strategy remains focused on the clear structural opportunities in each of our key markets. The planned demerger of M&G Prudential is on track, and demonstrates our commitment to creating shareholder value. The Group's leading market positions, combined with significant product and distribution capabilities, mean our businesses are well placed for long-term growth and the continued delivery of value for both customers and shareholders.

- 1 Comparison is made between the 2018 half year and 2014 half year results, excluding the sold Korea business, on a constant exchange rate basis.
- 2 Comparisons are to the first nine months of the prior year unless otherwise stated and year-on-year percentage changes are stated on a constant exchange rate basis unless otherwise stated.
- 3 New business profit on business sold in the period, calculated in accordance with EEV principles as defined in our Annual Report.
- 4 Excludes Laos where amounts are immaterial.
- 5 Includes those from Asia Money Market Funds and assets managed for internal life operations.
- 6 As reported (on an actual exchange rate basis).
- 7 Excludes Asia Money Market Fund investment flows.
- 8 Total assets managed by M&G Prudential include internal insurance funds of £177 billion (31 December 2017: £187 billion), including PruFund-backed products.
- 9 The Group shareholder capital position excludes the contribution to Own Funds and the Solvency Capital Requirement from ring-fenced with-profits funds and staff pension schemes in surplus. The estimated Solvency position includes management's calculation of UK transitional measures reflecting operating and market conditions at each valuation date.
- 10 Excludes the beneficial impact of the £1.6 billion sterling equivalent subordinated debt raised in October 2018.

### Forward-Looking Statements

This document may contain 'forward-looking statements' with respect to certain of Prudential's plans and its goals and expectations relating to its future financial condition, performance, results, strategy and objectives. Statements that are not historical facts, including statements about Prudential's beliefs and expectations and including, without limitation, statements containing the words 'may', 'will', 'should', 'continue', 'aims', 'estimates', 'projects', 'believes', 'intends', 'expects', 'plans', 'seeks' and 'anticipates', and words of similar meaning, are forward-looking statements. These statements are based on plans, estimates and projections as at the time they are made, and therefore undue reliance should not be placed on them. By their nature, all forward-looking statements involve risk and uncertainty. A number of important factors could cause Prudential's actual future financial condition or performance or other indicated results to differ materially from those indicated in any forward-looking statement. Such factors include, but are not limited to, the timing, costs and successful implementation of the demerger of the M&G Prudential business; the future trading value of the shares of Prudential plc and the trading value and liquidity of the shares of the to-be-listed M&G Prudential business following such demerger; future market conditions, including fluctuations in interest rates and exchange rates the potential for a sustained low-interest rate environment, and the performance of financial markets generally; the policies and actions of regulatory authorities, including, for example, new government initiatives; the political, legal and economic effects of the UK's decision to leave the European Union; the impact of continuing designation as a Global Systemically Important Insurer or 'G-SII'; the impact of competition, economic uncertainty, inflation and deflation; the effect on Prudential's business and results from, in particular, mortality and morbidity trends, lapse rates and policy renewal rates; the timing, impact and other uncertainties of future acquisitions or combinations within relevant industries; the impact of internal projects and other strategic actions failing to meet their objectives; disruption to the availability, confidentiality or integrity of Prudential's IT systems (or those of its suppliers); the impact of changes in capital, solvency standards, accounting standards or relevant regulatory frameworks, and tax and other legislation and regulations in the jurisdictions in which Prudential and its affiliates operate; and the impact of legal and regulatory actions, investigations and disputes. These and other important factors

may, for example, result in changes to assumptions used for determining results of operations or re-estimations of reserves for future policy benefits. Further discussion of these and other important factors that could cause Prudential's actual future financial condition or performance or other indicated results to differ, possibly materially, from those anticipated in Prudential's forward-looking statements can be found under the 'Risk Factors' heading in its most recent Annual Report and the 'Risk Factors' heading of Prudential's most recent annual report on Form 20-F filed with the U.S. Securities and Exchange Commission, as well as under the 'Risk Factors' heading of any subsequent Prudential Half Year Financial Report. Prudential's most recent Annual Report, Form 20-F and any subsequent Half Year Financial Report are available on its website at [www.prudential.co.uk](http://www.prudential.co.uk).

Any forward-looking statements contained in this document speak only as of the date on which they are made. Prudential expressly disclaims any obligation to update any of the forward-looking statements contained in this document or any other forward-looking statements it may make, whether as a result of future events, new information or otherwise except as required pursuant to the UK Prospectus Rules, the UK Listing Rules, the UK Disclosure and Transparency Rules, the Hong Kong Listing Rules, the SGX-ST listing rules or other applicable laws and regulations.
