

FRANKLIN FINANCIAL SERVICES CORP /PA/

Form 10-Q

November 05, 2018

UNITED STATES SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2018

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 0-12126

FRANKLIN FINANCIAL SERVICES CORPORATION

(Exact name of registrant as specified in its charter)

PENNSYLVANIA

(State or other jurisdiction of incorporation or organization)

25-1440803

(I.R.S. Employer Identification No.)

20 South Main Street, Chambersburg, PA 17201-0819

(Address of principal executive offices) (Zip Code)

(717) 264-6116

(Registrant's telephone number, including area code)

Not Applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Edgar Filing: FRANKLIN FINANCIAL SERVICES CORP /PA/ - Form 10-Q

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the Registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Act) Yes No

There were 4,399,135 outstanding shares of the Registrant’s common stock as of October 31, 2018.

FRANKLIN FINANCIAL SERVICES CORPORATION and SUBSIDIARIES

UNAUDITED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - Basis of Presentation

The consolidated financial statements include the accounts of Franklin Financial Services Corporation (the Corporation), and its wholly-owned subsidiaries, Farmers and Merchants Trust Company of Chambersburg (the Bank) and Franklin Future Fund Inc. Farmers and Merchants Trust Company of Chambersburg is a commercial bank that has one wholly-owned subsidiary, Franklin Financial Properties Corp. Franklin Financial Properties Corp. holds real estate assets that are leased by the Bank. Franklin Future Fund Inc. is a non-bank investment company. The activities of non-bank entities are not significant to the consolidated totals. All significant intercompany transactions and account balances have been eliminated.

In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the consolidated financial position, results of operations, and cash flows as of September 30, 2018, and for all other periods presented have been made.

Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been condensed or omitted. It is suggested that these consolidated financial statements be read in conjunction with the audited consolidated financial statements and notes thereto included in the Corporation's 2017 Annual Report on Form 10-K. The consolidated results of operations for the nine month period ended September 30, 2018 are not necessarily indicative of the operating results for the full year. Management has evaluated subsequent events for potential recognition and/or disclosure through the date these consolidated financial statements were issued.

The consolidated balance sheet at December 31, 2017 has been derived from the audited consolidated financial statements at that date, but does not include all of the information and footnotes required by GAAP for complete consolidated financial statements.

For purposes of reporting cash flows, cash and cash equivalents include cash and due from banks, interest-bearing deposits in other banks and federal funds sold. Generally, federal funds are purchased and sold for one-day periods.

Earnings per share are computed based on the weighted average number of shares outstanding during each period end. A reconciliation of the weighted average shares outstanding used to calculate basic earnings per share and diluted earnings per share follows:

| (Dollars and shares in thousands, except per share data) | For the Three Months Ended September 30, | | For the Nine Months Ended September 30, | |
|--|--|-------|---|-------|
| | 2018 | 2017 | 2018 | 2017 |
| Weighted average shares outstanding (basic) | 4,391 | 4,343 | 4,375 | 4,332 |
| Impact of common stock equivalents | 21 | 21 | 24 | 21 |
| Weighted average shares outstanding (diluted) | 4,412 | 4,364 | 4,399 | 4,353 |

| | | | | |
|---|----------|----------|----------|----------|
| Anti-dilutive options excluded from calculation | — | — | — | — |
| Net income | \$ 4,000 | \$ 3,076 | \$ 2,321 | \$ 9,439 |
| Basic earnings per share | \$ 0.91 | \$ 0.71 | \$ 0.53 | \$ 2.18 |
| Diluted earnings per share | \$ 0.91 | \$ 0.70 | \$ 0.53 | \$ 2.17 |

Note 2. Recent Accounting Pronouncements

| Standard | Description | Effective Date | Effect on the financial statements or other significant matters |
|---|--|-----------------|---|
| ASU 2018-02, Income Statement (Topic 220), Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income | Under ASU 2018-02, entities are allowed, but not required, to reclassify from Accumulated Other Comprehensive Income (AOCI) to retained earnings stranded tax effects resulting from the new federal corporate income tax rate of the Tax Cuts and Jobs Act (the Act). The reclassification could include other stranded tax effects that related to the Act but do not directly related to the change in the federal rate. Tax effects that are stranded in AOCI for other reasons may not be reclassified. Entities also will have an option to adopt the standard retrospectively or in the period of adoption. | January 1, 2018 | The Corporation adopted the provisions of the ASU in the fourth quarter of 2017. The Company reclassified the disproportionate tax effect resulting from the Act by increasing retained earnings by \$992 thousand and reducing AOCI by \$992 thousand. |
| ASU 2016-15, Statements of Cash Flow (Topic 320): Classification of Certain Cash Receipts and Cash Payments | The standard clarifies how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The amendments are intended to reduce diversity in practice. The standard contains additional guidance clarifying when an entity should separate cash receipts and cash payments and classifies them into more than one class of cash flows (including when reasonable judgement is required to estimate and allocate cash flows) versus when an entity should classify the aggregate amount into one class of cash flows on the basis of predominance. | January 1, 2018 | The Corporation adopted the provisions of the ASU on January 1, 2018 and it had no material effect on the consolidated financial statements. |
| ASU 2017-07, Employee Benefits Plan (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost | This standard requires an employer to report the service cost component in the same line item or items as other compensation costs arising from services rendered by the pertinent employees during the period. The other components of net benefit cost are required to be presented in the income statement separately from the service cost component and outside a subtotal of income from operations. The amendments in this update also allow only the service cost component to be eligible for capitalization when applicable. | January 1, 2018 | The Corporation adopted the provisions of the ASU on January 1, 2018 and it had no material effect on the consolidated financial statements. The service cost is reported in Salaries and Benefits expense and the nonservice cost is included in Other Expense on the Consolidated Statement of Income, which totaled \$107 thousand and was reclassified for the first nine months of 2017. |

| | | | |
|--|---|-----------------|---|
| ASU 2014-09, Revenue from Contracts with Customers (Topic 606) | The amendments in this Update (ASU 2014-09) establish a comprehensive revenue recognition standard. The revenue standard's core principle is built on the contract between a vendor and a customer for the provision of goods and services. It attempts to depict the exchange of rights and obligations between the parties in the pattern of revenue recognition based on the consideration to which the vendor is entitled. To accomplish this objective, the standard requires five basic steps: (i) identify the contract with the customer, (ii) identify the performance obligations in the contract, (iii) determine the transaction price, (iv) allocate the transaction price to the performance obligations in the contract, and (v) recognize revenue when (or as) the entity satisfies a performance obligation. Three basic transition methods are available – full retrospective, retrospective with certain practical expedients, and a cumulative effect approach. | January 1, 2018 | The Corporation adopted this ASU on January 1, 2018, on a modified retrospective approach, and it did not have a material effect on the Corporation's consolidated financial statements. See Note 11. Revenue Recognition for more information. |
|--|---|-----------------|---|

| | | | |
|--|---|------------------------|---|
| <p>ASU 2016-01, Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities</p> | <p>The standard amends the guidance on the classification and measurement of financial instruments. Some of the amendments include the following: 1) requires equity investments to be measured at fair value with changes in fair value recognized in net income; 2) simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment; 3) requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes; and 4) requires an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value; among others.</p> | <p>January 1, 2018</p> | <p>The Corporation adopted the provisions of the ASU on January 1, 2018 and it had no material effect on the consolidated financial statements. The Corporation reclassified the fair value of equity securities by increasing retained earnings by \$201 thousand and decreasing AOCI by \$201 thousand. In addition, according to the standard, the Corporation measured the fair value of the loan portfolio beginning March 31, 2018 using an exit price notion. See Note 9. Fair Value Measurements and Fair Values of Financial Instruments for more information.</p> |
| <p>ASU 2016-02, Leases (Topic 842)</p> | <p>From the lessee's perspective, the new standard established a right-of-use (ROU) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement for lessees. From the lessor's perspective, the new standard requires a lessor to classify leases as either sales-type, finance or operating. A lease will be treated as a sale if it transfers all of the risks and rewards, as well as control of the underlying asset, to the lessee. If risks and rewards are conveyed without the transfer of control, the lease is treated as financing. If the lessor doesn't convey risks and rewards or control, an operating lease results.</p> | <p>January 1, 2019</p> | <p>The Corporation currently has real estate and equipment leases that it classifies as operating leases that are not recognized on the balance sheet. Under the new standard, these leases will move onto the balance sheet in the form of a lease liability (the present value of a lessee's obligation to make lease payments) and a right-of-use asset (an asset that represents the lessee's right to use a specified asset for the lease term). The offsetting transactions will gross-up the Consolidated Balance Sheet. The Corporation has identified all of its leases (approximately 63, primarily equipment and property leases), but has not determined the effect on the Consolidated Balance Sheet. The Corporation has acquired a lease accounting model to implement the standard to be used in a test mode during 2018. The Corporation expects to adopt the standard using the modified retrospective approach and elect the transition options of ASU 2018-11. The Corporation currently expects that the new standard will not have a material effect on its consolidated results of operations.</p> |

| | | |
|---|---|--|
| ASU 2018-11, Leases - Targeted Improvements (Topic 842) | This guidance provides entities with relief from the costs of implementing certain aspects of the new leasing standard, ASU No. 2016-02. Specifically, under the amendments in ASU 2018-11: (1) entities may elect not to recast the comparative periods presented when transitioning to the new leasing standard, and (2) lessors may elect not to separate lease and non-lease components when certain conditions are met. The amendments have the same effective date as ASU 2016-02 (January 1, 2019 for the Corporation). | |
| ASU 2018-15, Accounting for Implementation Costs in a Cloud Computing Arrangement (Topic 350) | This ASU required an entity in a cloud computing arrangement (i.e., hosting arrangement) that is a service contract to follow the internal-use software guidance in ASC 350-40 to determine which implementation costs to capitalize as assets or expense as incurred. Capitalized implementation costs should be presented in the same line item on the balance sheet as amounts prepaid for the hosted service, if any (generally as an "other asset"). The capitalized costs will be amortized over the term of the hosting arrangement, with the amortization expense being presented in the same income statement line item as the fees paid for the hosted service. | January 1, 2019 The Corporation is reviewing its internal accounting procedures for this implementation. The Corporation does not expect the standard will have a material effect on its consolidated results of operations. |

Edgar Filing: FRANKLIN FINANCIAL SERVICES CORP /PA/ - Form 10-Q

| | | | |
|---|---|-----------------|---|
| ASU 2018-13, Disclosure Framework (Topic 820) | This guidance eliminates, adds and modifies certain disclosure requirements for fair value measurements. Among the changes, entities will no longer be required to disclose the amount of and reason for transfers between Level 1 and Level 2 of the fair value hierarchy, but will be required to disclose the range and weighted average used to develop significant unobservable inputs for Level 3 fair value measurements. | January 1, 2019 | The Corporation is reviewing its financial reporting procedures for this implementation. The Corporation does not expect the standard will have a material effect on its consolidated results of operations. |
| ASU 2017-04, Goodwill (Topic 350) | This guidance, among other things, removes step 2 of the goodwill impairment test thus eliminating the need to determine the fair value of individual assets and liabilities of the reporting unit. Upon adoption of this standard, goodwill impairment will be the amount by which a reporting unit's carrying value exceeds its fair value, not to exceed the carrying amount of goodwill. This may result in more or less impairment being recognized than under the current guidance. Early adoption is permitted for any impairment tests performed after January 1, 2017, applied prospectively. | January 1, 2020 | The Corporation expects to early adopt the ASU in the fourth quarter of 2018 with the completion of the 2018 impairment analysis. We do not expect this guidance to have a material effect on the Corporation's consolidated financial statements based upon the prior goodwill impairment analysis. |
| ASU 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments | This standard requires credit losses on most financial assets measured at amortized cost and certain other instruments to be measured using an expected credit loss model (referred to as the current expected credit loss (CECL) model). Under this model, entities will estimate credit losses over the entire contractual term of the instrument (considering estimated prepayments, but not expected extensions or modifications unless reasonable expectation of a troubled debt restructuring exists) from the date of initial recognition of that instrument. The ASU replaces the current accounting model for purchased credit impaired loans and debt securities. The allowance for credit losses for purchased financial assets with a more-than insignificant amount of credit deterioration since origination ("PCD assets"), should be determined in a similar manner to other financial assets measured on an amortized cost basis. However, upon initial recognition, the allowance for credit losses is added to the purchase price ("gross up approach") to determine the initial amortized cost basis. The subsequent accounting for PCD financial assets is the same expected loss model described above. | January 1, 2020 | We have formed an implementation team led by the Corporation's Risk Management function. The team is reviewing the requirements of the ASU and evaluating methods and models for implementation. The new standard will result in earlier recognition of additions to the allowance for loan losses and possibly a larger allowance for loan loss balance with a corresponding increase in the provision for loan losses in results of operations; however, the Corporation is continuing to evaluate the impact of the pending adoption of the new standard on its consolidated financial statements. A third-party vendor has been selected to assist with the CECL calculations and the implementation process has started. The Corporation expects to be able to run the CECL model in test mode starting near the end of the first quarter of 2019. |

Note 3. Accumulated Other Comprehensive Loss

The components of accumulated other comprehensive losses included in shareholders' equity are as follows:

| | September 30, 2018 | December 31, 2017 |
|--|-----------------------|----------------------|
| (Dollars in thousands) | | |
| Net unrealized (losses) gains on debt securities | \$ (2,077) | \$ 154 |
| Tax effect | 436 | (33) |
| Net of tax amount | (1,641) | 121 |
| Accumulated pension adjustment | (7,784) | (7,784) |
| Tax effect | 1,635 | 1,635 |
| Net of tax amount | (6,149) | (6,149) |
| Total accumulated other comprehensive loss | \$ (7,790) | \$ (6,028) |

Note 4. Investments

Available for Sale (AFS) Securities

The amortized cost and estimated fair value of AFS securities as of September 30, 2018 and December 31, 2017 are as follows:

| (Dollars in thousands) | Amortized cost | Gross unrealized gains | Gross unrealized losses | Fair value |
|--|-------------------|------------------------------|-------------------------------|---------------|
| September 30, 2018 | | | | |
| U.S. Government and Agency securities | \$ 9,405 | \$ 15 | \$ (144) | \$ 9,276 |
| Municipal securities | 63,221 | 176 | (994) | 62,403 |
| Trust preferred securities | 4,069 | — | (122) | 3,947 |
| Agency mortgage-backed securities | 46,394 | 39 | (1,063) | 45,370 |
| Private-label mortgage-backed securities | 474 | 43 | — | 517 |
| Asset-backed securities | 3,917 | — | (27) | 3,890 |
| | \$ 127,480 | \$ 273 | \$ (2,350) | \$ 125,403 |

| (Dollars in thousands) | Amortized cost | Gross unrealized gains | Gross unrealized losses | Fair value |
|--|-------------------|------------------------------|-------------------------------|---------------|
| December 31, 2017 | | | | |
| Equity securities | \$ 164 | \$ 201 | \$ — | \$ 365 |
| U.S. Government and Agency securities | 11,451 | 64 | (43) | 11,472 |
| Municipal securities | 57,374 | 650 | (252) | 57,772 |
| Trust preferred securities | 6,000 | — | (183) | 5,817 |
| Agency mortgage-backed securities | 51,307 | 197 | (567) | 50,937 |
| Private-label mortgage-backed securities | 858 | 88 | — | 946 |
| Asset-backed securities | 28 | — | (1) | 27 |
| | \$ 127,182 | \$ 1,200 | \$ (1,046) | \$ 127,336 |

At September 30, 2018 and December 31, 2017, the fair value of AFS securities pledged to secure public funds and trust deposits totaled \$86.9 million and \$84.1 million, respectively.

The amortized cost and estimated fair value of debt securities at September 30, 2018, by contractual maturity are shown below. Actual maturities may differ from contractual maturities because of prepayment or call options embedded in the securities.

| (Dollars in thousands) | Amortized cost | Fair value |
|--|-------------------|---------------|
| Due in one year or less | \$ 14,466 | \$ 14,508 |
| Due after one year through five years | 33,277 | 33,081 |
| Due after five years through ten years | 31,927 | 31,026 |
| Due after ten years | 942 | 901 |
| | 80,612 | 79,516 |
| Mortgage-backed securities | 46,868 | 45,887 |
| | \$ 127,480 | \$ 125,403 |

The composition of the net realized gains on AFS securities for the three and nine months ended are as follows:

| (Dollars in thousands) | For the Three Months Ended | | For the Nine Months Ended | |
|------------------------|-------------------------------|-----------------------|------------------------------|-----------------------|
| | September 30, 2018 | September 30, 2017 | September 30, 2018 | September 30, 2017 |
| Gross gains realized | \$ 5 | \$ 1 | \$ 67 | \$ 3 |
| Gross losses realized | — | — | (11) | — |
| Net gains realized | \$ 5 | \$ 1 | \$ 56 | \$ 3 |

Impairment:

The AFS investment portfolio contained 192 securities with \$100 million of temporarily impaired fair value and \$2.4 million in unrealized losses at September 30, 2018. The total unrealized loss position has increased \$1.3 million since year-end 2017.

For securities with an unrealized loss, Management applies a systematic methodology in order to perform an assessment of the potential for other-than-temporary impairment. In the case of debt securities, investments considered for other-than-temporary impairment: (1) had a specified maturity or repricing date; (2) were generally expected to be redeemed at par, and (3) were expected to achieve a recovery in market value within a reasonable period of time. In addition, the Bank considers whether it intends to sell these securities or whether it will be forced to sell these securities before the earlier of amortized cost recovery or maturity. The impairment identified on debt securities and subject to assessment at September 30, 2018, was deemed to be temporary and required no further adjustments to the financial statements, unless otherwise noted.

The following table reflects temporary impairment in the AFS portfolio, aggregated by investment category, length of time that individual securities have been in a continuous unrealized loss position and the number of securities in each category as of September 30, 2018 and December 31, 2017:

| (Dollars in thousands) | September 30, 2018 | | | 12 months or more | | | Total | | |
|---------------------------------------|--------------------|-------------------|-------|-------------------|-------------------|-------|------------|-------------------|-------|
| | Fair Value | Unrealized Losses | Count | Fair Value | Unrealized Losses | Count | Fair Value | Unrealized Losses | Count |
| U.S. Government and Agency securities | \$ 4,011 | \$ (54) | 5 | \$ 4,381 | \$ (90) | 12 | \$ 8,392 | \$ (144) | 17 |
| Municipal securities | 28,938 | (520) | 47 | 13,014 | (474) | 23 | 41,952 | (994) | 70 |
| Trust preferred securities | 2,102 | (62) | 3 | 1,845 | (60) | 2 | 3,947 | (122) | 5 |
| Agency mortgage-backed securities | 18,326 | (311) | 40 | 22,996 | (752) | 53 | 41,322 | (1,063) | 93 |
| Asset-backed securities | 3,886 | (26) | 6 | 4 | (1) | 1 | 3,890 | (27) | 7 |
| Total temporarily impaired securities | \$ 57,263 | \$ (973) | 101 | \$ 42,240 | \$ (1,377) | 91 | \$ 99,503 | \$ (2,350) | 192 |

December 31, 2017

Edgar Filing: FRANKLIN FINANCIAL SERVICES CORP /PA/ - Form 10-Q

| (Dollars in thousands) | Less than 12 months | | | 12 months or more | | | Total | | |
|---------------------------------------|---------------------|-------------------|-------|-------------------|-------------------|-------|------------|-------------------|-------|
| | Fair Value | Unrealized Losses | Count | Fair Value | Unrealized Losses | Count | Fair Value | Unrealized Losses | Count |
| U.S. Government and Agency securities | \$ 2,315 | \$ (11) | 5 | \$ 3,528 | \$ (32) | 10 | \$ 5,843 | \$ (43) | 15 |
| Municipal securities | 13,767 | (89) | 22 | 7,507 | (163) | 14 | 21,274 | (252) | 36 |

The following table represents the cumulative credit losses on AFS securities recognized in earnings for:

| (Dollars in thousands) | Nine Months Ended | |
|--|-----------------------|--------|
| | September 30, 2018 | 2017 |
| Balance of cumulative credit-related OTTI at January 1 | \$ 595 | \$ 595 |
| Additions for credit-related OTTI not previously recognized | — | — |
| Additional increases for credit-related OTTI previously recognized when there is no intent to sell and no requirement to sell before recovery of amortized cost basis | — | — |
| Decreases for previously recognized credit-related OTTI because there was an intent to sell | (323) | — |
| Reduction for increases in cash flows expected to be collected | — | — |
| Balance of credit-related OTTI at September 30 | \$ 272 | \$ 595 |

Equity Securities at fair value

The Corporation owns one equity investment. At September 30, 2018, this investment was reported at fair value (\$383 thousand) with changes in value reported through income. At December 31, 2017, this investment was reported at fair value with changes in value recorded through other comprehensive income and was included in the Available for Sale Securities table of this note.

Restricted Stock at Cost

The Bank held \$452 thousand of restricted stock at September 30, 2018. Except for \$30 thousand, this investment represents stock in FHLB Pittsburgh. The Bank is required to hold this stock to be a member of FHLB and it is carried at cost of \$100 per share. The level of FHLB stock held is determined by FHLB and is comprised of a minimum membership amount plus a variable activity amount. FHLB stock is evaluated for impairment primarily based on an assessment of the ultimate recoverability of its cost. As a government sponsored entity, FHLB has the ability to raise funding through the U.S. Treasury that can be used to support its operations. There is not a public market for FHLB stock and the benefits of FHLB membership (e.g., liquidity and low cost funding) add value to the stock beyond purely financial measures. Management intends to remain a member of the FHLB and believes that it will be able to fully recover the cost basis of this investment.

Note 5. Loans

The Bank reports its loan portfolio based on the primary collateral of the loan. It further classifies these loans by the primary purpose, either consumer or commercial. The Bank's residential real estate loans include long-term loans to individuals and businesses secured by mortgages on the borrower's real property and include home equity loans. Construction loans are made to finance the purchase of land and the construction of residential and commercial buildings thereon, and are secured by mortgages on real estate. Commercial real estate loans include construction, owner and non-owner occupied properties and farm real estate. Commercial loans are made to businesses of various

sizes for a variety of purposes including property, plant and equipment, working capital and loans to government municipalities. Commercial lending is concentrated in the Bank's primary market, but also includes purchased loan participations. Consumer loans are comprised of installment loans and unsecured personal lines of credit.

A summary of loans outstanding, by class, at the end of the reporting periods is as follows:

| (Dollars in thousands) | September 30, 2018 | December 31, 2017 |
|--|-----------------------|----------------------|
| Residential Real Estate 1-4 Family | | |
| Consumer first liens | \$ 90,029 | \$ 97,159 |
| Commercial first lien | 60,142 | 61,275 |
| Total first liens | 150,171 | 158,434 |
| Consumer junior liens and lines of credit | 43,044 | 45,043 |
| Commercial junior liens and lines of credit | 5,040 | 5,328 |
| Total junior liens and lines of credit | 48,084 | 50,371 |
| Total residential real estate 1-4 family | 198,255 | 208,805 |
| Residential real estate - construction | | |
| Consumer | 2,779 | 1,813 |
| Commercial | 9,510 | 8,088 |
| Total residential real estate construction | 12,289 | 9,901 |
| Commercial real estate | 475,838 | 428,428 |
| Commercial | 279,835 | 291,519 |
| Total commercial | 755,673 | 719,947 |
| Consumer | 4,766 | 5,047 |
| | 970,983 | 943,700 |
| Less: Allowance for loan losses | (12,526) | (11,792) |
| Net Loans | \$ 958,457 | \$ 931,908 |
| Included in the loan balances are the following: | | |
| Net unamortized deferred loan costs | \$ 73 | \$ 98 |
| Loans pledged as collateral for borrowings and commitments from: | | |
| FHLB | \$ 762,292 | \$ 737,313 |
| Federal Reserve Bank | 34,685 | 35,740 |
| | \$ 796,977 | \$ 773,053 |

Note 6. Loan Quality and Allowance for Loan Losses

The following table presents, by class, the activity in the Allowance for Loan Losses (ALL) for the periods shown:

| (Dollars in thousands) | Residential Real Estate 1-4 Family | | | Commercial | | | Unallocated | Total |
|------------------------------|---------------------------------------|--------------------------------------|--------------|-------------|------------|----------|-------------|-----------|
| | First Liens | Junior & Lines of Credit | Construction | Real Estate | Commercial | Consumer | | |
| ALL at June 30, 2018 | \$ 1,022 | \$ 318 | \$ 282 | \$ 7,028 | \$ 2,233 | \$ 107 | \$ 1,492 | \$ 12,482 |

The following table reports the internal credit rating for the loan portfolio. Consumer purpose loans are assigned a rating of either pass or substandard based on the performance status of the loans. Substandard consumer loans are comprised of loans 90 days or more past due and still accruing, and nonaccrual loans. Commercial purpose loans may be assigned any rating in accordance with the Bank's internal risk rating system.

| (Dollars in thousands) | Pass | Special | Substandard | Doubtful | Total |
|------------------------|-------|----------------|-------------|----------|-------|
| | (1-5) | Mention (6) | (7) | (8) | |

The following table presents information on the Bank's Troubled Debt Restructuring (TDR) loans:

| (Dollars in thousands) | Troubled Debt Restructurings | | | | Troubled Debt Restructurings Within the Last 12 Months That Have Defaulted On Modified Terms | |
|--|------------------------------|---------------------|-------------|----------------|--|---------------------|
| | Number of Contracts | Recorded Investment | Performing* | Nonperforming* | Number of Contracts | Recorded Investment |
| September 30, 2018 | | | | | | |
| Residential real estate - construction | 1 | \$ 460 | \$ — | \$ 460 | — | \$ — |
| Residential real estate | 4 | 683 | 683 | — | — | — |
| Commercial real estate | 11 | 10,574 | 8,909 | 1,665 | — | — |
| Total | 16 | \$ 11,717 | \$ 9,592 | \$ 2,125 | — | \$ — |
| December 31, 2017 | | | | | | |
| Residential real estate - construction | 1 | \$ 466 | \$ 466 | \$ — | — | \$ — |
| Residential real estate | 5 | 737 | 701 | 36 | — | — |
| Commercial real estate | 11 | 10,983 | 10,388 | 595 | — | — |
| Total | 17 | \$ 12,186 | \$ 11,555 | \$ 631 | — | \$ — |

*The performing status is determined by the loan's compliance with the modified terms.

There were no new TDR loans during 2018 and 2017.

Note 7. Other Real Estate Owned

Changes in other real estate owned during the nine months ended September 30, 2018 and 2017 were as follows:

| (Dollars in thousands) | September 30, | |
|------------------------------------|---------------|----------|
| | 2018 | 2017 |
| Balance at beginning of the period | \$ 2,598 | \$ 4,915 |
| Additions | 105 | 52 |
| Proceeds from dispositions | (32) | (2,255) |
| Loss on sales, net | — | (23) |

| | | |
|----------------------------------|----------|----------|
| Valuation adjustment | (6) | (60) |
| Balance at the end of the period | \$ 2,665 | \$ 2,629 |

Note 8. Pension

The components of pension expense for the periods presented are as follows:

| (Dollars in thousands) | Three Months | | Nine Months | |
|----------------------------------|---------------|--------|---------------|--------|
| | Ended | | Ended | |
| | September 30, | | September 30, | |
| | 2018 | 2017 | 2018 | 2017 |
| Components of net periodic cost: | | | | |
| Service cost | \$ 90 | \$ 80 | \$ 270 | \$ 237 |
| Interest cost | 138 | 167 | 414 | 500 |
| Expected return on plan assets | (279) | (268) | (837) | (804) |
| Recognized net actuarial loss | 176 | 137 | 528 | 411 |
| Net period cost | \$ 125 | \$ 116 | \$ 375 | \$ 344 |

The Bank expects its pension expense to increase to approximately \$500 thousand in 2018 compared to \$459 thousand in 2017, due primarily to increases in interest costs and recognized net actuarial losses. A pension contribution of \$1.0 million was made in first quarter of 2018. The service cost component of pension expense is in the salaries and employee benefits line on the income statement. All other cost components are in the other expense line on the income statement.

Note 9. Fair Value Measurements and Fair Values of Financial Instruments

Management uses its best judgment in estimating the fair value of the Corporation's financial instruments; however, there are inherent weaknesses in any estimation technique. Therefore, for substantially all financial instruments, the fair value estimates herein are not necessarily indicative of the amounts the Corporation could have realized in a sales transaction on the dates indicated. The estimated fair value amounts have been measured as of their respective period-ends and have not been re-evaluated or updated for purposes of these financial statements subsequent to those respective dates. As such, the estimated fair values of these financial instruments subsequent to the respective reporting dates may be different than the amounts reported at each year-end.

FASB ASC Topic 820, "Financial Instruments", requires disclosure of the fair value of financial assets and liabilities, including those financial assets and liabilities that are not measured and reported at fair value on a recurring and nonrecurring basis. The Corporation does not report any nonfinancial assets at fair value. FASB ASC Topic 820 establishes a fair value hierarchy that prioritizes the inputs to valuation methods used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC Topic 820 are as follows:

Level 1: Valuation is based on unadjusted, quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market. There may be substantial differences in the assumptions used for securities within the same level. For example, prices for U.S. Agency securities have fewer assumptions and are closer to level 1 valuations than the private label mortgage backed securities that require more assumptions and are closer to level 3 valuations.

Level 3: Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions reflect the Corporation's assumptions regarding what market participants would assume when pricing a financial instrument.

An asset's or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement.

On January 1, 2018, the Corporation adopted ASU 2016-01, which requires the use of the exit price notion to measure the fair value of financial instruments.

The following information regarding the fair value of the Corporation's financial instruments should not be interpreted as an estimate of the fair value of the entire Corporation since a fair value calculation is only provided for a limited portion of the Corporation's assets and liabilities. Due to a wide range of valuation techniques and the degree of subjectivity used in making the estimates, comparisons between the Corporation's disclosures and those of other companies may not be meaningful.

The fair value of the Corporation's financial instruments are as follows:

| (Dollars in thousands) | September 30, 2018 | | Level 1 | Level 2 | Level 3 |
|--|--------------------|--------------|-----------|--------------|---------|
| | Carrying Amount | Fair Value | | | |
| Financial assets, carried at cost: | | | | | |
| Cash and cash equivalents | \$ 44,777 | \$ 44,777 | \$ 44,777 | \$ — | \$ — |
| Restricted stock | 452 | 452 | — | 452 | — |
| Loans held for sale | 1,072 | 1,072 | — | 1,072 | — |

| Off balance sheet financial instruments | — | — | — | — | — |
| December 31, 2017 | | | | | |
| (Dollars in thousands) | Carrying Amount | Fair Value | Level 1 | Level 2 | Level 3 |
| | | | | | |
| Financial assets: | | | | | |
| Cash and cash equivalents | \$ 58,603 | \$ 58,603 | \$ 58,603 | \$ — | \$ — |
| Investment securities available for sale | 127,336 | 127,336 | 365 | 126,971 | — |
| Restricted stock | 456 | 456 | — | 45 | — |
| Loans held for sale | 442 | 442 | — | 442 | — |
| Net loans | 931,908 | 929,891 | — | — | 929,891 |
| Accrued interest receivable | 3,847 | 3,847 | — | 3,847 | — |
| Financial liabilities: | | | | | |
| Deposits | \$ 1,047,181 | \$ 1,046,476 | \$ — | \$ 1,046,476 | \$ — |
| Accrued interest payable | 149 | 149 | — | 149 | — |

Recurring Fair Value Measurements

For financial assets and liabilities measured at fair value on a recurring basis, the fair value measurements by level within the fair value hierarchy used at September 30, 2018 and December 31, 2017 are as follows:

| (Dollars in Thousands) | Fair Value at September 30, 2018 | | | |
|--|----------------------------------|------------|---------|------------|
| | Level 1 | Level 2 | Level 3 | Total |
| Asset Description | | | | |
| Equity securities, at fair value | \$ 383 | \$ — | \$ — | \$ 383 |
| Available for sale: | | | | |
| U.S. Government and Agency securities | — | 9,276 | — | 9,276 |
| Municipal securities | — | 62,403 | — | 62,403 |
| Trust Preferred Securities | — | 3,947 | — | 3,947 |
| Agency mortgage-backed securities | — | 45,370 | — | 45,370 |
| Private-label mortgage-backed securities | — | 517 | — | 517 |
| Asset-backed securities | — | 3,890 | — | 3,890 |
| Total assets | \$ 383 | \$ 125,403 | \$ — | \$ 125,786 |

| (Dollars in Thousands) | Fair Value at December 31, 2017 | | | |
|--|---------------------------------|------------|---------|------------|
| | Level 1 | Level 2 | Level 3 | Total |
| Asset Description | | | | |
| Equity securities | \$ 365 | \$ — | \$ — | \$ 365 |
| U.S. Government and Agency securities | — | 11,472 | — | 11,472 |
| Municipal securities | — | 57,772 | — | 57,772 |
| Trust Preferred Securities | — | 5,817 | — | 5,817 |
| Agency mortgage-backed securities | — | 50,937 | — | 50,937 |
| Private-label mortgage-backed securities | — | 946 | — | 946 |
| Asset-backed securities | — | 27 | — | 27 |
| Total assets | \$ 365 | \$ 126,971 | \$ — | \$ 127,336 |

Investment securities: Level 1 securities represent equity securities that are valued using quoted market prices from nationally recognized markets. Level 2 securities represent debt securities that are valued using a mathematical model based upon the specific characteristics of a security in relationship to quoted prices for similar securities.

Nonrecurring Fair Value Measurements

For financial assets measured at fair value on a nonrecurring basis, the fair value measurements by level within the fair value hierarchy used at September 30, 2018 and December 31, 2017 are as follows:

(Dollars in Thousands)

| Asset Description | Fair Value at September 30, 2018 | | | |
|--------------------|-------------------------------------|------|----------|----------|
| | Level Level | | | Total |
| | 1 | 2 | Level 3 | |
| Impaired Loans (1) | \$ — | \$ — | \$ 2,925 | \$ 2,925 |
| Total assets | \$ — | \$ — | \$ 2,925 | \$ 2,925 |

| Asset Description | Fair Value at December 31, 2017 | | | |
|-----------------------------|------------------------------------|------|-------|-------|
| | Level Level Level | | | Total |
| | 1 | 2 | 3 | |
| Other real estate owned (1) | \$ — | \$ — | \$ 90 | \$ 90 |
| Total assets | \$ — | \$ — | \$ 90 | \$ 90 |

(1) Includes assets directly charged-down to fair value during the year-to-date period.

The Corporation used the following methods and significant assumptions to estimate the fair values for financial assets measured at fair value on a nonrecurring basis.

Other real estate: The fair value of other real estate, upon initial recognition, is estimated using Level 2 inputs within the fair value hierarchy based on observable market data and Level 3 inputs based on customized discounting criteria. In connection with the measurement and initial recognition of the foregoing assets, the Corporation recognizes charge-offs through the allowance for loan losses. Subsequent charge-offs are recognized as an expense.

The Corporation did not record any liabilities at fair value for which measurement of the fair value was made on a nonrecurring basis at September 30, 2018. For financial assets and liabilities measured at fair value on a recurring basis, there were no transfers of financial assets or liabilities between Level 1 and Level 2 during the period ending September 30, 2018.

The following table presents additional quantitative information about Level 3 assets measured at fair value on a nonrecurring basis:

| (Dollars in Thousands) | Quantitative Information about Level 3 Fair Value Measurements | | | |
|--|--|---------------------|---|-----------------------------|
| | Fair Value | Valuation Technique | Unobservable Input | Range (Weighted Average) |
| September 30, 2018 Impaired loans (1) | \$ 2,925 | Appraisal | Unobservable Input Appraisal Adjustments (2) Cost to sell | 0%-50% (45%) |
| December 31, 2017 Other real estate owned (1) | \$ 90 | Appraisal | Unobservable Input Cost to sell | Weighted Average 8% |

(1) Includes assets directly charged-down to fair value during the year-to-date period.

(2) Qualitative adjustments are discounts specific to each asset and are made as needed.

Note 10. Capital Ratios

Capital adequacy is currently defined by regulatory agencies through the use of several minimum required ratios. In July 2013, Federal banking regulators approved the final rules from the Basel Committee on Banking Supervision for the regulation of capital requirements for bank holding companies and U.S banks, generally referred to as “Basel III.” The Basel III standards were effective for the Corporation and the Bank, effective January 1, 2015 (subject to a phase-in period for certain provisions). Basel III imposes significantly higher capital requirements and more restrictive leverage and liquidity ratios than those previously in place. The capital ratios to be considered “well capitalized” under Basel III are: (1) Common Equity Tier 1 (CET1) of 6.5%, (2) Tier 1 Leverage of 5%, (3) Tier 1 Risk-Based Capital of 8%, and (4) Total Risk-Based Capital of 10%. The CET1 ratio is a new capital ratio under Basel III and the Tier 1 risk-based capital ratio of 8% has been increased from 6%. The rules also include changes in the risk weights of certain assets to better reflect credit and other risk exposures. In addition, a capital conservation buffer will be phased-in beginning January 1, 2016 at 0.625%, 1.25% for 2017, 1.875% for 2018 and 2.50% for 2019 and thereafter. The capital conservation buffer will be applicable to all of the capital ratios except for the Tier 1 Leverage ratio. The capital conservation buffer is equal to the lowest value of the three applicable capital ratios less the regulatory minimum for each respective capital measurement. The Bank’s capital conservation buffer at September 30, 2018 was 6.89% (total risk-based capital 14.89% less 8.00%) compared to the 2018 regulatory buffer of 1.875%. Compliance with the capital conservation buffer is required in order to avoid limitations to certain capital distributions. As of September 30, 2018, the Bank was “well capitalized” under the Basel III requirements and believes it would be “well capitalized” on a fully phased-in basis had such a requirement been in effect.

The following table summarizes regulatory capital information as of September 30, 2018 and December 31, 2017 for the Corporation and the Bank:

| (Dollars in thousands) | September 30, 2018 | December 31, 2017 | Regulatory Ratios | |
|--|-----------------------|----------------------|--------------------------------------|--------------------------------|
| | | | Adequately Capitalized Minimum | Well Capitalized Minimum |
| Common Equity Tier 1 Risk-based Capital Ratio (1) | | | | |
| Franklin Financial Services Corporation | 13.64% | 14.06% | 4.500% | N/A |
| Farmers & Merchants Trust Company | 13.42% | 13.93% | 4.500% | 6.50% |
| Tier 1 Risk-based Capital Ratio (2) | | | | |
| Franklin Financial Services Corporation | 13.64% | 14.06% | 6.000% | N/A |
| Farmers & Merchants Trust Company | 13.42% | 13.93% | 6.000% | 8.00% |
| Total Risk-based Capital Ratio (3) | | | | |
| Franklin Financial Services Corporation | 14.89% | 15.31% | 8.000% | N/A |
| Farmers & Merchants Trust Company | 14.68% | 15.19% | 8.000% | 10.00% |
| Tier 1 Leverage Ratio (4) | | | | |
| Franklin Financial Services Corporation | 9.59% | 9.73% | 4.000% | N/A |
| Farmers & Merchants Trust Company | 9.48% | 9.64% | 4.000% | 5.00% |

(3) Total risk-based capital / total risk-weighted assets, (4) Tier 1 capital / average quarterly assets

Note 11. Revenue Recognition

The Corporation adopted ASC 606 on January 1, 2018 using the modified retrospective approach applied to all contracts initiated on or after the effective date, and for contracts which have remaining obligations as of the effective date. Results for the reporting period beginning January 1, 2018 are presented under ASC 606 while the prior period results continue to be reported under legacy GAAP. Adoption of the standard did not have a material effect on any of the reported periods. The Corporation did not record a cumulative effect adjustment to the beginning retained earnings balance as of January 1, 2018 from the adoption of ASC 606 as it was determined the transition adjustment was immaterial to Corporation's consolidated financial statements.

All of the Corporation's revenue from contracts with customers within the scope of ASC 606 is recognized in non-interest income as presented in our consolidated statements of income. Revenue generating activities that fall within the scope of ASC 606 are described as follows:

Investment and Trust Service Fees - these represent fees from wealth management (assets under management), fees from the management and settlement of estates and commissions from the sale of investment and insurance products.

- Asset management fees are generally assessed based on a tiered fee schedule, based on the value of assets under management, and are recognized monthly when the service obligation is completed. Fees recognized were \$3.8 million for the first nine months of 2018 and \$1.3 million for the third quarter of 2018.

- Fees for estate management services are based on the estimated fair value of the estate. These fees are generally recognized monthly over an 18 month period that Management has determined to represent the average time to fulfill the performance obligations of the contract. Management has the discretion to adjust this time period as needed based upon the nature and complexity of an individual estate. Fees recognized were \$228 thousand for the first nine months of 2018 and \$86 thousand for the third quarter of 2018.
- Commissions from the sale of investment and insurance products are recognized upon the completion of the transaction. Fees recognized were \$218 thousand for the first nine months of 2018 and \$75 thousand for the third quarter of 2018.

Loan Service Charges – these represent fees on loans for services or charges that occur after the loan has been booked, for example, late payment fees. These also include fees for mortgages settled for a third party mortgage company. All of these fees are transactional in nature and are recognized upon completion of the transaction which represents the performance obligation.

Deposit Service Charges and Fees – these represent fees from deposit customers for transaction based, account maintenance, and overdraft services. Transaction based fees include, but are not limited to stop payment fees and overdraft fees. These fees are recognized at the time of the transaction when the performance obligation has been fulfilled. Account maintenance fees and account analysis fee are earned over the course of a month, representing the period of the performance obligation, and are recognized monthly.

Debit Card Income – this represents interchange fees from cardholder transactions conducted through the card payment network. Cardholders use the debit card to conduct point-of-sale transactions that produce interchange fees. The fees are transaction based and the fee is recognized with the processing of the transaction. These fees are reported net of cardholder rewards.

Other Service Charges and Fees – these are comprised primarily of merchant card fees, credit card fees, ATM surcharges and interchange fees and wire transfer fees. Merchant card fees represent fees the Bank earns from a third party for enrolling a customer in the processor’s program. Credit card fees represent a fee earned by the Bank for a successful referral to a card-issuing company. ATM surcharges and interchange fees are the result of Bank customers conducting ATM transactions that generate fee income and are processed through multiple card networks. All of these fees are transaction based and are recognized at the time of the transaction.

Gains/Losses on the Sale of Other Real Estate – these are recognized when control of the property transfers to the buyer.

Increases in the cash surrender value of life insurance and security transactions are not within the scope of ASC 606.

Contract Balances

A contract asset balance occurs when an entity performs a service for a customer before the customer pays consideration (resulting in a contract receivable) or before payment is due (resulting in a contract asset). A contract liability balance is an entity’s obligation to transfer a service to a customer for which the entity has already received payment (or payment is due) from the customer. The Company’s noninterest revenue streams are largely based on transactional activity, or standard month-end revenue accruals such as asset management fees based on month-end market values. Consideration is often received immediately or shortly after the Company satisfies its performance obligation and revenue is recognized. The Company does not typically enter into longer-term revenue contracts with customers, and therefore, does not experience significant contract balances.

Contract Acquisition Costs

The Corporation expenses all contract acquisition costs as costs are incurred.

1Note 12. Commitments and Contingencies

In the normal course of business, the Bank is a party to financial instruments that are not reflected in the accompanying financial statements and are commonly referred to as off-balance-sheet instruments. These financial instruments are entered into primarily to meet the financing needs of the Bank’s customers and include commitments to extend credit and standby letters of credit. Those instruments involve, to varying degrees, elements of credit and interest rate risk not recognized in the consolidated balance sheet.

The Corporation’s exposure to credit loss in the event of nonperformance by other parties to the financial instruments for commitments to extend credit and standby letters of credit is represented by the contract or notional amount of those instruments. The Bank uses the same credit policies in making commitments and conditional obligations as they

do for on-balance-sheet instruments.

The Bank had the following outstanding commitments for the periods presented:

| (Dollars in thousands) | September 30, 2018 | December 31, 2017 |
|--|-----------------------|----------------------|
| Financial instruments whose contract amounts represent credit risk | | |
| Commercial commitments to extend credit | \$ 226,069 | \$ 249,526 |
| Consumer commitments to extend credit (secured) | 46,166 | 44,866 |
| Consumer commitments to extend credit (unsecured) | 5,663 | 5,668 |
| | \$ 277,898 | \$ 300,060 |
| Standby letters of credit | \$ 25,692 | \$ 28,630 |

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses with the exception of home equity lines and personal lines of credit and may require payment of a fee. Since many of the

commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. The Bank evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by the Bank, is based on Management's credit evaluation of the counterparty. Collateral for most commercial commitments varies but may include accounts receivable, inventory, property, plant, and equipment, and income-producing commercial properties. Collateral for secured consumer commitments consists of liens on residential real estate.

Standby letters of credit are instruments issued by the Bank, which guarantee the beneficiary payment by the Bank in the event of default by the Bank's customer in the nonperformance of an obligation or service. Most standby letters of credit are extended for one-year periods. Generally, the credit risk involved in issuing letters of credit is essentially the same as that involved in extending loan facilities to customers. The Bank holds collateral supporting those commitments for which collateral is deemed necessary primarily in the form of certificates of deposit and liens on real estate. Management believes that the proceeds obtained through a liquidation of such collateral would be sufficient to cover the maximum potential amount of future payments required under the corresponding guarantees. As of June 30, 2018, the Bank established a \$2.4 million allowance against letters of credit issued in connection with a commercial borrower that declared bankruptcy in the second quarter as a result of apparent fraudulent activities within the business. Except for the liability recorded for standby letters of credit, liabilities for credit loss associated with off-balance sheet commitments were not material at September 30, 2018 and December 31, 2017.

Most of the Bank's business activity is with customers located within its primary market and does not involve any significant concentrations of credit to any one entity or industry.

Legal Proceedings

The nature of the Corporation's business generates a certain amount of litigation.

We establish accruals for legal proceedings when information related to the loss contingencies represented by those matters indicates both that a loss is probably and the amount of the loss can be reasonably estimated. When we are able to do so, we also determine estimates of possible losses, whether in excess of any accrued liability or where there is no accrued liability.

These assessments are based on our analysis of currently available information and are subject to significant judgment and a variety of assumptions and uncertainties. As new information is obtained, we may change our assessments and, as a result, take or adjust the amounts of our accruals and change our estimates of possible losses or ranges of possible losses. Due to the inherent subjectivity of the assessments and the unpredictability of outcomes of legal proceedings, any amounts that may be accrued or included in estimates of possible losses or ranges of possible losses may not represent the actual loss to the Corporation from any legal proceeding. Our exposure and ultimate losses may be higher, possibly significantly higher, than amounts we may accrue or amounts we may estimate.

In management's opinion, we do not anticipate, at the present time, that the ultimate aggregate liability, if any, arising out of all litigation to which the Corporation is a party will have a material adverse effect on our financial position. We cannot now determine, however, whether or not any claim asserted against us, other than the Kalan case described below, will have a material adverse effect on our results of operations in any future reporting period, which will depend on, among other things, the amount of loss resulting from the claim and the amount of income otherwise reported for the reporting period. Thus, at June 30, 2018, we are unable to provide an evaluation of the likelihood of an unfavorable outcome or an estimate of the amount or range of potential loss with respect to such other matters and, accordingly, have not yet established any specific accrual for such other matters, except in connection with the Kalan case described below.

No material proceedings are pending or are known to be threatened or contemplated against us by governmental authorities.

On July 31, 2018, the court entered an order granting final approval of the settlement agreements in the Kalan et al. v. Farmers and Merchants Trust Company of Chambersburg et al. (Case No. 2:15-CV-01435-WB) case filed against F&M Trust in the United States District Court for the Eastern District of Pennsylvania in March, 2015. Among other things, the order also dismissed the case against F&M Trust with prejudice; certified the settlement class; and, permanently enjoined the named plaintiffs and the members of the settlement class from asserting any further claims arising out of or related to the claims alleged or that could have been alleged in the case against F&M Trust. The settlement agreements provide for the Bank to make a settlement payment of \$10 million in full and final settlement of all such claims. The settlement agreements further provide for general releases by all parties. F&M Trust made the settlement payment in May, 2018, in accordance with the court's earlier order preliminarily approving the settlement agreements. The settlement payment was funded out of available assets. The Corporation previously accrued the \$10 million settlement payment in the Kalan case as an expense for the year ended December 31, 2017.

Management's Discussion and Analysis of Results of Operations and Financial Condition

For the Three and Nine Months Ended September 30, 2018 and 2017

Forward Looking Statements

Certain statements appearing herein which are not historical in nature are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such forward-looking statements refer to a future period or periods, reflecting management's current views as to likely future developments, and use words such as "may," "will," "expect," "believe," "estimate," "anticipate," or similar terms. Because forward-looking statements involve certain risks, uncertainties and other factors over which the Corporation has no direct control, actual results could differ materially from those contemplated in such statements. These factors include (but are not limited to) the following: general economic conditions, changes in interest rates, changes in the Corporation's cost of funds, changes in government monetary policy, changes in government regulation and taxation of financial institutions, changes in the rate of inflation, changes in technology, the intensification of competition within the Corporation's market area, and other similar factors. We caution readers not to place undue reliance on these forward-looking statements. They only reflect management's analysis as of this date. The Corporation does not revise or update these forward-looking statements to reflect events or changed circumstances.

Critical Accounting Policies

Management has identified critical accounting policies for the Corporation. These policies are particularly sensitive, requiring significant judgements, estimates and assumptions to be made by Management. There were no changes to the critical accounting policies disclosed in the 2017 Annual Report on Form 10-K in regards to application or related judgments and estimates used. Please refer to Item 7 of the Corporation's 2017 Annual Report on Form 10-K for a more detailed disclosure of the critical accounting policies.

Results of Operations

Results for the nine months ended September 30, 2018 were affected by impairment charges on a loan participation (the Participation) that was initially reported in our current report on Form 8-K filed May 31, 2018. The Participation represented the Bank's portion of loans and off-balance sheet items to a single, large commercial lending relationship with the lead bank. The impairment is believed to be the result of fraudulent activities believed to be perpetrated by one or more of the executives and personnel employed by the borrower.

During the second quarter, \$8.7 million of the Participation was charged-off resulting in an increase in the provision for loan loss expense to replenish the allowance for loan losses. In addition, a \$2.4 million noninterest expense was recorded to establish a reserve for existing off-balance sheet commitments related to the Participation. The impairment charges had a significant effect on various performance measurements for the year-to-date period. For

additional information on the Participation, please refer to the Loan Quality discussion.

Year-to-Date Summary

Reported net income of \$4.0 million for the third quarter and \$2.3 million year-to-date

- Net interest income increased \$921 thousand quarter over quarter and \$2.4 million year-to-date due to the growth in interest income from the loan portfolio that outpaced higher interest expense.
- The provision for loan losses was unchanged quarter over quarter and increased \$9.2 million year-to-date due to the previously mentioned charge-off.
- Noninterest income increased \$149 thousand quarter over quarter and \$437 thousand year-to-date primarily from asset management fees in the Bank's Investment and Trust Services department and debit card income.
- Noninterest expense increased \$266 thousand quarter over quarter and \$4.0 million year-to-date primarily from increases in salaries and benefits and the off-balance sheet reserve expense for the Participation.

Total assets were \$1.195 billion at September 30, 2018, an increase of \$15.0 million from the 2017 year-end balance of \$1.180 billion

- The loan portfolio increased approximately \$27 million net of the Participation charge-off.
 - Deposits increased \$24.7 million (2.4%) year-to-date, primarily in municipal non-maturity deposits.
- Shareholders' equity decreased \$1.1 million, mainly the result of the Corporation's year-to-date cash dividend of \$3.4 million exceeding year-to-date income of \$2.3 million.

(1) See the section titled “GAAP versus Non-GAAP Presentation” that follows.

27

GAAP versus non-GAAP Presentations – The Corporation supplements its traditional GAAP measurements with certain non-GAAP measurements to evaluate its performance and to eliminate the effect of intangible assets. By eliminating intangible assets (Goodwill), the Corporation believes it presents a measurement that is comparable to companies that have no intangible assets or to companies that have eliminated intangible assets in similar calculations. However, not all companies may use the same calculation method for each measurement. The non-GAAP measurements are not intended to be used as a substitute for the related GAAP measurements. The following table shows the calculation of the non-GAAP measurements.

| (Dollars in thousands, except per share) | Nine Months Ended September 30, 2018 | Twelve Months Ended December 31, 2017 | Nine Months Ended September 30, 2017 |
|---|---|---|---|

Net Interest Income

The largest source of the Corporation's earnings is net interest income, which is defined as the difference between income on interest-earning assets and the expense of interest-bearing liabilities supporting those assets. Principal

categories of interest-earning assets are loans and securities, while deposits, short-term borrowings and long-term debt are the principal categories of interest-bearing liabilities. Demand deposits enhance net interest income because they are noninterest-bearing deposits. For the purpose of this discussion, balance sheet items refer to the average balance for the year and net interest income is adjusted to a fully taxable-equivalent basis. This tax-equivalent adjustment facilitates performance comparisons between taxable and tax-free assets by increasing the tax-free income by an amount equivalent to the Federal income taxes that would have been paid if this income were taxable at the Corporation's 21% Federal statutory rate.

Edgar Filing: FRANKLIN FINANCIAL SERVICES CORP /PA/ - Form 10-Q

Comparison of the three months ended September 30, 2018 to the three months ended September 30, 2017:

Tax equivalent net interest income increased \$623 thousand to \$10.7 million in the third quarter of 2018 compared to \$10.1 million in the same period in 2017. Balance sheet volume contributed \$525 thousand to this increase and \$98 thousand was the result of changes in rates. Due to the lower corporate tax rate, the benefit of tax-exempt income was less in 2018 as compared to 2017.

The following table presents average balances, tax-equivalent (T/E) interest income, and yields earned or rates paid on the assets or liabilities. All nontaxable interest income has been adjusted to a tax-equivalent basis using a tax rate of 21% for 2018 and 34% for 2017.

Provision for Loan Losses

Provision for loan loss expense for the third quarter was \$250 thousand, the same as in 2017. For more information refer to the Loan Quality and Allowance for Loan Losses discussion in the Financial Condition section.

Noninterest Income

For the third quarter of 2018, noninterest income increased \$149 thousand from the same period in 2017. Investment and trust service fees increased due to growth in assets under management and a higher number of estates under management compared to the same period in 2017. Debit card income was higher due to an increase in transaction volume. The change in the fair value of equity investments recorded through income was a loss of \$20 thousand. In 2017 the change in fair value of equity investments was recorded through other comprehensive income.

The following table presents a comparison of noninterest income for the three months ended September 30, 2018 and 2017

| (Dollars in thousands) | For the Three Months Ended | | Change | |
|--|-------------------------------|-----------------------|--------|---------|
| | September 30, 2018 | September 30, 2017 | Amount | % |
| Noninterest Income | | | | |

| Other | 34 | 33 | 1 | 3.0 |
| Total noninterest income | \$ 3,120 | \$ 2,971 | \$ 149 | 5.0 |

Noninterest Expense

Noninterest expense for the third quarter of 2018 increased \$266 thousand compared to the same period in 2017. The increase in salaries and benefits was primarily due to an increase in salary expense (\$338 thousand) from merit increases and increased staffing levels, partially offset by a decrease in health insurance expense (\$145 thousand) compared to the same period in 2017. Legal and professional decreased due to the resolution of the Kalan lawsuit more thoroughly described in Part II, Item 1. Legal Proceedings. FDIC insurance increased due to an increase in the Bank's base assessment rate. ATM/debit card processing expense increased due to purchasing EMV card inventory and increased fees from Mastercard.

The following table presents a comparison of noninterest expense for the three months ended September 30, 2018 and 2017

| (Dollars in thousands) | For the Three Months Ended | | Change | |

| Total noninterest expense | \$ 8,571 | \$ 8,305 | \$ 266 | 3.2 |

Provision for Income Taxes

For the third quarter, the Corporation recorded a Federal income tax expense of \$654 thousand compared to a \$774 thousand tax expense for the same quarter in 2017. The effective tax rate for the third quarter of 2018 was 14.1% compared to 20.1% for the same period in 2017. The federal statutory tax rate is 21% for 2018 and was 34% in 2017.

Comparison of the nine months ended September 30, 2018 to the nine months ended September 30, 2017:

Tax equivalent net interest income increased \$1.6 million to \$31.3 million in the first nine months of 2018 compared to \$29.7 million in the same period in 2017. Balance sheet volume contributed \$1.5 million to this increase and \$44 thousand was the result of changes in rates. Due to the lower corporate tax rate, the benefit of tax-exempt income was less in 2018 as compared to 2017.

The following table presents average balances, tax-equivalent (T/E) interest income, and yields earned or rates paid on the assets or liabilities. All nontaxable interest income has been adjusted to a tax-equivalent basis using a tax rate of 21% for 2018 and 34% for 2017.

Provision for Loan Losses

Provision for loan loss expense for the first nine months of 2018 was \$9.6 million, compared to \$420 thousand in 2017. The increase in the provision expense was due to a large loan charge-off related to the Participation. For more information refer to the Loan Quality and Allowance for Loan Losses discussion in the Financial Condition section.

Noninterest Income

For the first nine months of 2018, noninterest income increased \$437 thousand from the same period in 2017. Investment and trust service fees increased due to growth in assets under management and a higher number of estates under management. Debit card income increased due to higher transaction volume. Gains on the sale of debit securities were \$56 thousand compared to \$3 thousand in the same period in 2017. The change in the fair value of equity investments recorded through income was \$18 thousand. In 2017, the change in fair value of equity investments was recorded through other comprehensive income. Other income in 2017 included \$50 thousand of nonrecurring income.

The following table presents a comparison of noninterest income for the nine months ended September 30, 2018 and 2017:

| (Dollars in thousands) | For the Nine Months Ended | | Change | |
|--|------------------------------|----------|--------|---------|
| | September 30, 2018 | 2017 | Amount | % |
| Noninterest Income | | | | |

| Total noninterest income | \$ 9,489 | \$ 9,052 | \$ 437 | 4.8 |

Noninterest Expense

Noninterest expense for the first nine months of 2018 increased \$4.0 million compared to the same period in 2017. The largest component of noninterest expense is salaries and benefits. Increases in salaries and benefits were primarily due to an increase in salary expense (\$904 thousand) from merit increases and increased staffing levels. These increases were partially offset by a decrease in health insurance expense (\$155 thousand). Advertising increased due to digital marketing initiatives and projects. Data processing fees increased due to the implementation

of new software. FDIC insurance increased due to an increase in the Bank's base assessment rate. The off-balance sheet reserve of \$2.4 million is discussed in the Loan Quality section of Management's Discussion and Analysis. Other expense increased due to search fees for new and open positions.

The following table presents a comparison of noninterest expense for the nine months ended September 30, 2018 and 2017:

| (Dollars in thousands) | For the Nine Months Ended | | | |
|--|---------------------------|--------------------|---------------|----------|

| Other | \$ 28,408 | \$ 24,423 | \$ 3,985 | 16.3 |
| Total noninterest expense | | | | |

Provision for Income Taxes

For the first nine months of 2018, the Corporation recorded a Federal income tax benefit of \$671 thousand compared to a \$2.5 million tax expense for the same period in 2017. The tax benefit was primarily the result of a pre-tax loss due to the significant increase in the provision for loan loss expense. The effective tax rate for the first nine months of 2017 was 21.1%. The federal statutory tax rate is 21% for 2018 and was 34% in 2017.

Financial Condition

Cash and Cash Equivalents:

Cash and cash equivalents totaled \$44.8 million at September 30, 2018, a decrease of \$13.8 million from the prior year-end balance of \$58.6 million. The decrease was mainly due to the pay-out of the \$10 million Kalan settlement (see Part II, Item 1. Legal Proceedings), a \$1 million contribution to the Bank's pension plan and interest-bearing deposits being reinvested in the loan portfolio. Interest-bearing deposits are held primarily at the Federal Reserve (\$22.4 million) and in short-term bank owned certificates of deposit (\$5.7 million).

Investment Securities:

AFS Securities

The AFS securities portfolio has increased \$298 thousand on a cost basis, since year-end 2017. The composition of the portfolio has remained consistent with municipal securities and U.S. Agency mortgage-backed securities comprising the greatest portion of the portfolio at approximately 50% and 36% of the portfolio fair value, respectively. The average life of the portfolio was 3.78 years.

The AFS securities portfolio had a net unrealized loss of \$2.1 million at September 30, 2018 compared to a net unrealized loss of \$47 thousand (excluding equity securities) at the prior year-end. The increase in the unrealized loss is due primarily to the change in interest rates. The portfolio averaged \$130.6 million with a yield of 2.71% for the first nine months of 2018. This compares to an average of \$137.3 million and a yield of 2.80% for the same period in 2017.

The municipal bond portfolio is well diversified geographically (issuers from within 28 states) and is comprised primarily of general obligation bonds (70%). Many municipal bonds have credit enhancements in the form of private bond insurance or other credit support. The largest geographic municipal bond exposure is in the states of Texas (14.1%), Washington (10.4%), and Ohio (8.2%). The average rating of the municipal portfolio from Moody's is AA. No municipal bonds are rated below investment grade.

The holdings of trust preferred investments have declined \$1.9 million in book value since prior year-end due to the payoff of two bonds. The holdings of private-label mortgage-backed securities (PLMBS) have declined \$384 thousand in book value since year-end due to the sale of one bond.

The amortized cost and estimated fair value of AFS securities available for sale as of September 30, 2018 and December 31, 2017 is as follows:

| (Dollars in thousands) | Amortized | Gross | Gross | Fair |
|--|------------|------------|------------|------------|
| | cost | unrealized | unrealized | value |
| September 30, 2018 | | gains | losses | |
| U.S. Government and Agency securities | \$ 9,405 | \$ 15 | \$ (144) | \$ 9,276 |

| Agency mortgage-backed securities | 51,307 | 197 | (567) | 50,937 |
| Private-label mortgage-backed securities | 858 | 88 | — | 946 |
| Asset-backed securities | 28 | — | (1) | 27 |
| | \$ 127,182 | \$ 1,200 | \$ (1,046) | \$ 127,336 |

The AFS securities portfolio contained 192 securities with \$100 million of temporarily impaired fair value and \$2.4 million in unrealized losses at September 30, 2018. The total unrealized loss position has increased \$1.3 million unrealized loss at year-end 2017.

For securities with an unrealized loss, Management applies a systematic methodology in order to perform an assessment of the potential for other-than-temporary impairment. In the case of debt securities, investments considered for other-than-temporary impairment: (1) had a specified maturity or repricing date; (2) were generally expected to be redeemed at par, and (3) were expected to achieve a recovery in market value within a reasonable period of time. In addition, the Bank considers whether it intends to sell these securities or whether it will be forced to sell these securities before the earlier of amortized cost recovery or maturity. The impairment identified on debt securities and subject to assessment at September 30, 2018, was deemed to be temporary and required no further adjustments to the financial statements, unless otherwise noted.

The following table reflects temporary impairment in the AFS securities portfolio, aggregated by investment category, length of time that individual securities have been in a continuous unrealized loss position and the number of

securities in each category as of September 30, 2018 and December 31, 2017:

| (Dollars in thousands) | September 30, 2018 | | | 12 months or more | | | Total | | |

| Asset-backed securities | — | — | — | 4 | (1) | 1 | 4 | (1) | 1 |
| Total temporarily impaired securities | \$ 33,585 | \$ (241) | 58 | \$ 36,203 | \$ (805) | 69 | \$ 69,788 | \$ (1,046) | 127 |

The unrealized loss in the municipal bond portfolio increased to \$994 thousand from \$252 thousand at December 31, 2017 as interest rates rose during the year. There are seventy securities in this portfolio with an unrealized loss and the loss in this portfolio is deemed to be non-credit related and no other-than-temporary impairment charges have been recorded.

The trust preferred portfolio contains five securities with a fair value of \$3.9 million and an unrealized loss of \$122 thousand. The trust-preferred securities held by the Bank are single entity issues, not pooled trust preferred securities. Therefore, the impairment review of these securities is based only on the issuer and the security cannot be impaired by the performance of other issuers as if it was a pooled trust-preferred bond. All of the Bank's trust preferred securities are single issue, variable rate notes with long maturities (2027 – 2028). None of these bonds have suspended or missed a dividend payment. At September 30, 2018, the Bank believes it will be able to collect all interest and principal due on these bonds and no other-than-temporary-impairment charges were recorded.

Equity securities at Fair Value

The Corporation owns one equity investment. At September 30, 2018, this investment was reported at fair value (\$383 thousand) with changes in value reported through income. At December 31, 2017, this investment was reported at fair value with changes in value recorded through other comprehensive income.

Restricted Stock at Cost

The Bank held \$452 thousand of restricted stock at September 30, 2018. Except for \$30 thousand, this investment represents stock in FHLB Pittsburgh. The Bank is required to hold this stock to be a member of FHLB and it is carried at cost of \$100 per share. The level of FHLB stock held is determined by FHLB and is comprised of a minimum membership amount plus a variable activity amount. FHLB stock is evaluated for impairment primarily based on an assessment of the ultimate recoverability of its cost. As a government sponsored entity, FHLB has the ability to raise funding through the U.S. Treasury that can be used to support its operations. There is not a public market for FHLB stock and the benefits of FHLB membership (e.g., liquidity and low cost funding) add value to the stock beyond

purely financial measures. Management intends to remain a member of the FHLB and believes that it will be able to fully recover the cost basis of this investment.

Loans:

Residential real estate: This category is comprised of consumer purpose loans secured by residential real estate and to a lesser extent, commercial purpose loans secured by residential real estate. The consumer purpose category represents traditional residential mortgage loans and home equity products (primarily junior liens and lines of credit). Commercial purpose loans in this category represent loans made for various business needs, but are secured with residential real estate. In addition to the real estate collateral, it is possible that additional security is provided by personal guarantees or UCC filings. These loans are underwritten as commercial loans and are not originated to be sold.

Total residential real estate loans decreased \$10.6 million over 2017, as the Bank retained a lower percentage of its originations. For the first nine months of 2018, the Bank originated and sold \$16.1 million in mortgages for a fee through a third party brokerage agreement. The Bank does not originate or hold any loans that would be considered sub-prime or Alt-A, and does not generally originate mortgages outside of its primary market area.

Residential real estate construction: The largest component of this category represents loans to residential real estate developers (\$9.5 million), while loans for individuals to construct personal residences totaled \$2.8 million at September 30, 2018. The Bank's exposure to residential construction loans is concentrated primarily in south central Pennsylvania. Real estate construction loans, including residential real estate and land development loans, occasionally provide an

interest reserve in order to assist the developer during the development stage when minimal cash flow is generated. All real estate construction loans are underwritten in the same manner, regardless of the use of an interest reserve.

At September 30, 2018, the Bank had \$32.2 million in real estate construction loans funded with an interest reserve and capitalized \$830 thousand of interest in 2018 from these reserves on active projects. These loans were comprised of \$2.5 million in residential construction and \$29.7 million in commercial construction. Real estate construction loans are monitored on a regular basis by either an independent third party inspector or the assigned loan officer depending on loan amount or complexity of the project. This monitoring process includes at a minimum, the submission of invoices and AIA documents (depending on the complexity of the project) detailing costs incurred by the borrower, on-site inspections, and a signature by the assigned loan officer for disbursement of funds.

Commercial real estate (CRE): This category includes commercial, industrial, farm and agricultural loans, where real estate serves as the primary collateral for the loans. Total commercial real estate loans increased to \$475.8 million from \$428.4 million at the end of 2017, an increase of \$47.4 million. The increase was primarily in hotels and motels (\$17.7 million) partially offset by pay-off of \$3.5 million of a loan participation. The largest sectors (by collateral) in the commercial real estate category are: hotels and motels (\$71.0 million), office buildings (\$59.8 million), land development (\$47.2 million), manufacturing facilities (\$42.0 million) and auto dealerships (\$34.2 million).

Commercial (C&I): This category includes commercial, industrial, farm, agricultural, and municipal loans. C&I loans decreased \$11.7 million to \$279.8 million at September 30, 2018, compared to \$291.5 million at the end of 2017, primarily due to an \$8.7 million loan charge-off discussed in more detail in the Loan Quality section below. At September 30, 2018, the Bank had approximately \$174 million in tax-free loans in the C&I portfolio. The largest sectors (by industry) in the commercial C&I category are: public administration (\$85.7 million), utilities (\$35.2 million), educational services (\$27.1 million) and health care (\$15.4 million). The Bank expects that commercial lending will continue to be the primary area of loan growth in the future via in-market lending.

The Bank may supplement its own commercial loan production by purchasing loan participations. These participations are primarily located in south-central Pennsylvania. At September 30, 2018, the outstanding commercial participations accounted for 10.9%, or \$105.7 million, of total gross loans compared to 12.2% and \$115.3 million at December 31, 2017. The Bank's total exposure (including unfunded commitments) to purchased participations is 14.6%, compared to 16.9% at December 31, 2017. The commercial loan participations are comprised of \$35.8 million of C&I loans and \$69.9 million of CRE loans, reported in the respective loan class.

Consumer loans: This category remained unchanged over year-end and is mainly comprised of unsecured personal lines of credit.

The following table presents a summary of loans outstanding, by class as of:

| (Dollars in thousands) | September 30, 2018 | December 31, 2017 | Change Amount | % |
|---|-----------------------|----------------------|------------------|-------|
| Residential Real Estate 1-4 Family | | | | |
| Consumer first liens | \$ 90,029 | \$ 97,159 | \$ (7,130) | (7.3) |
| Commercial first lien | 60,142 | 61,275 | (1,133) | (1.8) |
| Total first liens | 150,171 | 158,434 | (8,263) | (5.2) |
| Consumer junior liens and lines of credit | 43,044 | 45,043 | (1,999) | (4.4) |
| Commercial junior liens and lines of credit | 5,040 | 5,328 | (288) | (5.4) |

Edgar Filing: FRANKLIN FINANCIAL SERVICES CORP /PA/ - Form 10-Q

| | | | | |
|--|------------|------------|-----------|-------|
| Total junior liens and lines of credit | 48,084 | 50,371 | (2,287) | (4.5) |
| Total residential real estate 1-4 family | 198,255 | 208,805 | (10,550) | (5.1) |

| Consumer | 4,766 | 5,047 | (281) | (5.6) |
| | 970,983 | 943,700 | 27,283 | 2.9 |
| Less: Allowance for loan losses | (12,526) | (11,792) | (734) | 6.2 |
| Net Loans | \$ 958,457 | \$ 931,908 | \$ 26,549 | 2.8 |

Loan Quality:

Management utilizes a risk rating scale ranging from 1-Prime to 9-Loss to evaluate loan quality. This risk rating scale is used primarily for commercial purpose loans. Consumer purpose loans are identified as either a pass or substandard rating based on the performance status of the loans. Substandard consumer loans are loans that are 90 days or more past due and still accruing. Loans rated 1 – 4 are considered pass credits. Loans that are rated 5 are pass credits, but have been identified as credits that are likely to warrant additional attention and monitoring. Loans rated 6-Special Mention or worse begin to receive enhanced monitoring and reporting by the Bank. Loans rated 7-Substandard or 8-Doubtful exhibit the greatest financial weakness and present the greatest possible risk of loss to the Bank. Nonaccrual loans are rated no better than 7-Substandard. The following factors represent some of the factors used in determining the risk rating of a borrower: cash flow, debt coverage, liquidity, management, and collateral. Risk ratings, for pass credits, are generally reviewed annually for term debt and at renewal for revolving or renewing debt. The Bank monitors loan quality by reviewing four primary measurements: (1) loans rated 6-Special Mention or worse (collectively “watch list”), (2) delinquent loans, (3) net-charge-offs, and (4) other real estate owned (OREO).

Significant Impairment. During the second quarter the Bank recorded a material impairment charge on a \$14.4 million commercial loan participation (the Participation). The impairment charge was initially reported on the Corporation’s current report on Form 8-K filed on May 31, 2018. The Participation represented the Bank’s portion of loans and off-balance sheet commitments (letters-of-credit) to a single, large commercial lending relationship with the lead bank. During the second quarter, the Bank was notified by the lead lender, another Pennsylvania bank, that the loan relationship had become impaired due to fraudulent activities believed to be perpetrated by one of more of the executives and personnel employed by the borrower. The Bank is one of four Pennsylvania banks affected by the loan impairment. The impairment resulted in the Bank charging-off loans totaling \$8.7 million. This total included a complete charge-off on a \$1.3 million loan and a partial charge-off of \$7.4 million on another loan. At September 30, 2018, the remaining balance on three loans in the Participation was \$2.9 million. The credit is now in bankruptcy and is being administered by a bankruptcy court appointed trustee and by the court. In September 2018, the Bankruptcy Court notified the Bank it would receive proceeds of \$1.3 million in October 2018 to be applied to two term loans with a balance of \$1.5 million. The Bank charged-off the short-fall (\$208 thousand) in September and removed the specific reserve of \$225 thousand that was established as of June 30, 2018. After receiving the October proceeds, the outstanding balance on the Participation is \$1.6 million. The Bank expects to receive additional proceeds from the Bankruptcy Court to apply against the outstanding balance, but as of this time it is uncertain of when this may occur and in what amount.

The Bank also has \$2.4 million in off-balance sheet exposure through three letters-of-credit it issued for the benefit of the borrower. A \$2.4 million reserve (reported in other liabilities and other expense) was established for these commitments. As of September 30, 2018, proof of claim for one letter-of-credit has been submitted to the Bankruptcy Court for payment.

The impairment charges had a significant effect on various loan quality measures including: impaired loans, nonaccrual loans, provision for loan loss expense, and net-charge offs.

Watch list loans exhibit financial weaknesses that increase the potential risk of default or loss to the Bank. However, inclusion on the watch list, does not by itself, mean a loss is certain. The watch list totaled \$14.9 million at quarter end, compared to \$16.0 million at June 30, 2018 and \$12.8 million at December 31, 2017. The watch list includes both performing and nonperforming loans. It is comprised entirely of loans rate 6-Special Mention and 7-Substandard. The increase in the watch list from year-end 2017 is the result of an increase in substandard commercial loans from the Participation (rated 7-Substandard). The Bank has no loans rated 8-Doubtful or 9-Loss. Included in the substandard total are \$5.6 million of nonaccrual loans. The Participation accounted for the increase in nonaccrual loans. The previously mentioned payment from the Bankruptcy Court will be applied against loans that are in nonaccrual at the end of the quarter. The credit composition of the portfolio, by primary collateral is shown in Note 6 of the accompanying financial statements.

Delinquent loans are a result of borrowers' cash flow and/or alternative sources of cash being insufficient to repay loans. The Bank's likelihood of collateral liquidation to repay the loans becomes more probable the further behind a borrower falls, particularly when loans reach 90 days or more past due. Management monitors the performance status of loans by the use of an aging report. The aging report can provide an early indicator of loans that may become severely delinquent and possibly result in a loss to the Bank. See Note 6 in the accompanying financial statements for a table that presents the aging of payments in the loan portfolio.

Nonaccruing loans generally represent Management's determination that the borrower will be unable to repay the loan in accordance with its contractual terms and that collateral liquidation may or may not fully repay both interest and principal. It is the Bank's policy to evaluate the probable collectability of principal and interest due under terms of loan contracts for all loans 90-days or more, nonaccrual loans, or impaired loans. Further, it is the Bank's policy to discontinue accruing interest on loans that are not adequately secured and in the process of collection. Upon determination of nonaccrual status, the Bank subtracts any current year accrued and unpaid interest from its income, and any prior year

accrued and unpaid interest from the allowance for loan losses. Management continually monitors the status of nonperforming loans, the value of any collateral and potential of risk of loss. Nonaccrual loans are rated no better than 7-Substandard.

The Bank's Loan Management Committee reviews these loans and risk ratings on a quarterly basis in order to proactively identify and manage problem loans. In addition, a committee meets monthly to discuss possible workout strategies for OREO and all credits rated 7-Substandard or worse. Management also tracks other commercial loan risk measurements including high loan to value loans, concentrations, participations and policy exceptions and reports these to the Credit Risk Oversight Committee of the Board of Directors. The Bank also uses a third-party consultant to assist with internal loan review with a goal of reviewing 60% of commercial loans each year. The FDIC defines certain supervisory loan-to-value lending limits. The Bank's internal loan-to-value limits are all equal to, or have a lower loan-to-value limit, than the supervisory limits. However, in certain instances, the Bank may make a loan that exceeds the supervisory loan-to-value limit. At September 30, 2018 the Bank had loans of \$18.7 million (1.9% of gross loans) that exceeded the supervisory limit, compared to 3.2% at year-end 2017.

Loan quality has declined since year-end 2017, as the balance of nonperforming loans has increased, primarily the result of moving the Participation loans to nonaccrual. Potential problem loans, defined as watch list loans less loans on nonaccrual or past due more than 90 days at September 30, 2018 totaled \$9.2 million compared to \$10.3 million at June 30, 2018 and \$10.1 million at year-end 2017. See Note 7 in the accompanying financial statements for additional information about OREO.

The following table presents a summary of nonperforming assets as of:

| (Dollars in thousands) | September 30, 2018 | December 31, 2017 |
|---|-----------------------|----------------------|
| Nonaccrual loans | | |
| Residential Real Estate 1-4 Family | | |
| First liens | \$ 71 | \$ 168 |
| Junior liens and lines of credit | 23 | — |
| Total | 94 | 168 |
| Residential real estate - construction | 460 | 466 |
| Commercial real estate | 1,806 | 1,854 |
| Commercial | 3,263 | 187 |
| Total nonaccrual loans | 5,623 | 2,675 |
| Loans past due 90 days or more and still accruing | | |
| Junior liens and lines of credit | 43 | — |
| Total loans past due 90 days or more and still accruing | 43 | — |
| Total nonperforming loans | 5,666 | 2,675 |
| Other real estate owned | 2,665 | 2,598 |
| Total nonperforming assets | \$ 8,331 | \$ 5,273 |
| Nonperforming loans to total gross loans | 0.58% | 0.28% |
| Nonperforming assets to total assets | 0.70% | 0.45% |
| Allowance for loan losses to nonperforming loans | 221.07% | 440.82% |

The following table identifies the most significant loans in nonaccrual status. These two nonaccrual loans account for 84% of the total nonaccrual balance.

(Dollars in thousands)

| | Balance | ALL Reserve | Nonaccrual Date | TDR Status | Collateral | Location | Collateral Value |
|----------|----------|-------------|-----------------|------------|--|----------|------------------|
| Credit 1 | \$ 1,592 | \$ — | Mar-12 | Y | 1st and 2nd liens on commercial real estate, residential real estate and business assets | PA | \$ 3,105 |
| Credit 2 | 2,925 | — | May-18 | N | 1st lien commercial real estate and business assets | PA | \$ 3,175 |
| | \$ 4,517 | \$ — | | | | | |

Credit 1 is a TDR that is delinquent under the modified terms. Credit 2 is the Participation and does not reflect the pay-down off \$1.3 million received in October 2018, but does include the partial charge-off previously discussed.

In addition to monitoring nonaccrual loans, the Bank also closely monitors impaired loans and troubled debt restructurings (TDR). A loan is considered to be impaired when, based on current information and events, it is probable that the Bank will be unable to collect all interest and principal payments due according to the originally contracted terms of the loan agreement. Nonaccrual loans (excluding consumer purpose loans) and TDR loans are considered impaired.

A loan is considered a troubled debt restructuring if the creditor (the Bank), for economic or legal reasons related to the debtor's financial difficulties, grants a concession to the debtor that it would not otherwise consider. These concessions may include lowering the rate, extending the maturity, re-amortization of the payment, or a combination of multiple concessions. The Bank reviews all loans rated 6-Special Mention or worse when it is providing a loan restructure, modification or new credit facility to determine if the action is a TDR. If a TDR loan is placed on nonaccrual status, it remains on nonaccrual status for at least six months to ensure performance.

In accordance with financial accounting standards, TDR loans are always considered impaired until they are paid off or in certain circumstances, refinanced. However, an impaired TDR loan can be a performing loan. Impaired loans totaled \$15.3 million at quarter-end compared to \$12.6 million at year-end 2017. The increase is in the commercial loan portfolio was a result of the Participation.

The following table shows the composition of impaired loans as of:

| (Dollars in thousands) | September 30, 2018 | | | | Total Impaired |
|------------------------------------|--------------------|------|--------------|--------------------|----------------|
| | Nonaccrual Non-TDR | TDR | Accruing TDR | Accruing Other (1) | |
| Residential Real Estate 1-4 Family | | | | | |
| First liens | \$ 71 | \$ — | \$ 683 | \$ — | \$ 754 |
| Junior liens and lines of credit | 23 | — | — | 43 | 66 |

| | | | | | |
|--|----------|----------|----------|-------|-----------|
| Total | 94 | — | 683 | 43 | 820 |
| Residential real estate - construction | — | 460 | — | — | 460 |
| Commercial real estate | 141 | 1,665 | 8,909 | — | 10,715 |
| Commercial | 3,263 | — | — | — | 3,263 |
| Total | \$ 3,498 | \$ 2,125 | \$ 9,592 | \$ 43 | \$ 15,258 |

(1) impaired consumer purpose loans not on nonaccrual

Allowance for Loan Losses:

Management monitors loan performance on a monthly basis and performs a quarterly evaluation of the adequacy of the allowance for loan losses (ALL). The ALL is determined by segmenting the loan portfolio based on the loan's collateral. When calculating the ALL, consideration is given to a variety of factors in establishing this estimate including, but not limited to, current economic conditions, diversification of the loan portfolio, delinquency statistics, results of internal loan reviews, historical charge-offs, the adequacy of the underlying collateral (if collateral dependent) and other relevant factors. The Bank begins enhanced monitoring of all loans rated 6-Special Mention or worse, and obtains a new appraisal or asset valuation for any loan rated 7-Substandard or worse. Management, at its discretion, may determine that additional adjustments to the appraisal or valuation are required. Valuation adjustments will be made as necessary based on factors, including, but not limited to: the economy, deferred maintenance, industry, type of property/equipment, age of the appraisal, etc. and the knowledge Management has about a particular situation. In addition, the cost to sell or liquidate the collateral is also estimated and deducted from the valuation in order to determine the net realizable value to the Bank. When determining the allowance for loan losses, certain factors involved in the evaluation are inherently subjective and require material estimates that may be susceptible to significant change, including the amounts and timing of future cash flows expected to be received on impaired loans. Management monitors the adequacy of the allowance for loan losses on

an ongoing basis and reports its adequacy quarterly to the Credit Risk Oversight Committee of the Board of Directors. Management believes that the allowance for loan losses at September 30, 2018 is adequate.

The analysis for determining the ALL is consistent with guidance set forth in generally accepted accounting principles (GAAP) and the Interagency Policy Statement on the Allowance for Loan and Lease Losses. The analysis has three components: specific allocations, general allocations, and an unallocated component. The specific component addresses specific reserves established for impaired loans. A loan is considered to be impaired when, based on current information and events, it is probable that the Bank will be unable to collect all interest and principal payments due according to the originally contracted terms of the loan agreement. Collateral values discounted for market conditions and selling costs are used to establish specific allocations for impaired loans. It is possible that as a result of the credit analysis, a specific reserve is not required for an impaired loan. For impaired commercial loans with balances less than \$250 thousand and all consumer purpose loans, a specific reserve analysis is not performed and these loans are added to the general allocation pool. These loans totaled \$710 thousand at September 30, 2018 and Management does not believe that excluding these loans from the specific reserve analysis presents any additional risk. The Bank currently has a \$181 thousand specific reserve established against one commercial loan. Note 6 in the accompanying financial statements provides additional information about the ALL established for impaired loans.

The general allocation component addresses the reserves established for pools of homogenous loans. The general component includes a quantitative and qualitative analysis. When calculating the general allocation, the Bank segregates its loan portfolio into the following sectors based primarily on the type of supporting collateral: residential real estate, commercial, industrial or agricultural real estate; commercial and industrial (C&I non-real estate), and consumer. Each sector may be further segregated by type of collateral, lien position, or owner/nonowner occupancy. The quantitative analysis uses the Bank's twenty quarter rolling historical loan loss experience adjusted for factors derived from current economic and market conditions that have been determined to have an effect on the probability and magnitude of a loss. For the third quarter of 2018, the historical loss experience was adjusted pursuant to the above process to in effect exclude the charge-off on the Participation. This loss resulted from fraudulent activity believed to have been perpetrated by one or more employees of the borrower. As such, the Bank believes this incident is an isolated occurrence and not indicative of a broader increase in exposure to fraud-related losses in its loan portfolio. The qualitative analysis utilizes a risk matrix that incorporates qualitative and environmental factors such as: loan volume, management, loan review process, credit concentrations, competition, and legal and regulatory issues. These factors are each risk rated from minimal to high risk and in total can add up to a maximum qualitative factor of 37.5 basis points.

The unallocated component is maintained to cover uncertainties that could affect Management's estimate of probable loss. The unallocated component of the ALL reflects the margin of imprecision inherent in the underlying assumptions used in the methodologies for estimating specific and general losses in the portfolio.

The following table shows the composition of the allowance for loan losses:

| (Dollars in thousands) | September 30, 2018 | | December 31, 2017 | |
|------------------------|--------------------|------------|-------------------|------------|
| | Balance | % of Loans | Balance | % of Loans |
| Allowance Component | | | | |
| General - Quantitative | \$ 8,327 | 0.86 | \$ 7,808 | 0.83 |
| General - Qualitative | 2,628 | 0.27 | 2,547 | 0.27 |
| Specific | 181 | 0.02 | — | — |
| Unallocated | 1,390 | 0.14 | 1,437 | 0.15 |
| | \$ 12,526 | 1.29 | \$ 11,792 | 1.25 |

Real estate appraisals and collateral valuations are an important part of the Bank's process for determining potential loss on collateral dependent loans and thereby have a direct effect on the determination of loan reserves, charge-offs and the calculation of the allowance for loan losses. As long as the loan remains a performing loan, no further updates to appraisals are required. If a loan or relationship migrates to risk rating of 7-Substandard or worse, an evaluation for impairment status is made based on the current information available at the time of downgrade and a new appraisal or collateral valuation is obtained.

In determining the allowance for loan losses, Management, at its discretion, may determine that additional adjustments to the fair value obtained from an appraisal or collateral valuation are required. Adjustments will be made as necessary based on factors, including, but not limited to the economy, deferred maintenance, industry, type of property or equipment etc., and the knowledge Management has about a particular situation. In addition, the cost to sell or liquidate the collateral is also estimated and deducted from the valuation in order to determine the net realizable value to the Bank. If an appraisal is not available, Management may make its best estimate of the real value of the collateral or use last known market value and apply appropriate discounts. If an adjustment is made to the collateral valuation, this will be documented with appropriate support and reported to the Loan Management Committee.

Edgar Filing: FRANKLIN FINANCIAL SERVICES CORP /PA/ - Form 10-Q

The following table shows the loans that were evaluated for the allowance for loan losses under a specific reserve (individually) and those that were evaluated under a general reserve (collectively), and the amount of the allowance established in each loan class as of September 30, 2018 and December 31, 2017:

| (Dollars in thousands) | Residential Real Estate 1-4 Family | | | | | | | Unallocated | Total |
|--------------------------------------|------------------------------------|--------------------------------|--------------|-------------|------------|------------|----------|-------------|------------|

| ALL established for loans evaluated: | | | | | | | | | |
| Individually | \$ — | \$ — | \$ — | \$ — | \$ — | \$ — | \$ — | \$ — | \$ — |
| Collectively | 1,060 | 330 | 224 | 6,526 | 2,110 | 105 | 1,437 | — | 11,792 |
| ALL at December 31, 2017 | \$ 1,060 | \$ 330 | \$ 224 | \$ 6,526 | \$ 2,110 | \$ 105 | \$ 1,437 | \$ — | \$ 11,792 |

Charged-off loans usually result from: (1) a borrower being legally relieved of loan repayment responsibility through bankruptcy, (2) insufficient collateral sale proceeds to repay a loan; or (3) the borrower and/or guarantor does not own other assets that, if sold, would generate sufficient sale proceeds to repay a loan. Charged-off loans decrease the Bank's allowance for loan losses (ALL), while the recovery of previously charge-off loans and the provision for loan loss

expense increase the ALL.

Year-to-date, the Bank recorded a net loan charge-offs of \$8.8 million compared to net recoveries of \$48 thousand for the same period in 2017. The Bank recorded \$9.6 million in the provision for loan loss expense for the first nine months of 2018 compared to \$420 thousand for the same period of 2017. The Participation was primarily responsible for the increase in net loan charge-offs and the increase in the provision for loan loss expense. See Note 6 in the accompanying financial statements for additional information about the allowance for loan losses.

The following table presents an analysis of the allowance for loan losses for the periods ended:

| (Dollars in thousands) | Residential Real Estate 1-4 Family | | Commercial | | | | | |
|------------------------------|---------------------------------------|--------------------------------------|--------------|-------------|------------|----------|-------------|-----------|
| | First Liens | Junior & Lines of Credit | Construction | Real Estate | Commercial | Consumer | Unallocated | Total |
| ALL at June 30, 2018 | \$ 1,022 | \$ 318 | \$ 282 | \$ 7,028 | \$ 2,233 | \$ 107 | \$ 1,492 | \$ 12,482 |
| Charge-offs | — | — | — | — | (208) | (23) | — | (231) |
| Recoveries | — | — | — | 1 | 19 | 5 | — | 25 |

The allocation of the allowance for loan losses is based on estimates and is not intended to imply limitations on the usage of the allowance. The entire allowance is available to absorb any losses without regard to the category in which the loan is classified. The following table shows the ALL and charge-off ratios for the periods ended:

| | Nine Months Ended September 30, 2018 | Year ended December 31, 2017 | Nine Months Ended September 30, 2017 |
|--|---|------------------------------------|---|
| Net charge-offs (recoveries)/average loans* | 1.23% | -0.01% | -0.01% |
| Net loan charge-offs (recoveries) as a percentage of the provision for loan losses | 92.34% | -7.01% | -11.43% |
| Allowance for loan losses as a % of loans | 1.29% | 1.25% | 1.27% |
| Net charge-offs (recoveries) | \$ 8,845 | \$ (47) | \$ (48) |
| * Annualized | | | |

Other Real Estate Owned:

The Bank holds \$2.7 million of other real estate owned (OREO), comprised of two properties. The most significant OREO holding is one property carried at \$2.6 million (98% of total OREO) that is secured by 196 acres of land intended for residential real estate development. This property was part of a participated loan with the workout being handled by the lead bank. During the second quarter the Bank purchased the remaining portion of this property that it did not own for \$105 thousand. The Bank believes it can more aggressively market the property as the sole owner as compared to the effort put forth by the minority owner/lead bank. The Bank has a contract on the property subject to the buyers due diligence period that expires in May 2019. During the due diligence period the buyer is responsible for covering the Bank's carrying costs of the property. During 2018, the Bank recorded write downs of \$6 thousand and incurred expense of \$46 thousand to hold and maintain OREO. Note 7 of the accompanying financial statements provides additional information on activity in OREO.

Other Assets:

The \$41.7 million increase in other assets is primarily due to the Bank's current tax position changing to a receivable due to the reversal of the deferred tax asset from the payout of the \$10.0 million legal settlement.

Deposits:

Total deposits increased \$24.7 million during the first nine months of 2018 to \$1.072 billion. Non-interest bearing deposits remained unchanged, while total interest-bearing checking and savings increased \$32.8 million and time deposits decreased \$7.7 million. Interest bearing checking increased by \$14.1 million, primarily in commercial and municipal deposits while the Bank's Money Management product increased \$16.2 million, primarily in retail and commercial accounts. Time deposits decreased since year-end from maturities of short-term municipal deposits.

As of September 30, 2018, the Bank had \$155.0 million placed in the ICS program (\$115.3 million in interest-bearing checking and \$39.7 million in money management) and \$3.3 million in reciprocal time deposits in the CDARS program included in time deposits. These programs allow the Bank to offer full FDIC coverage to large depositors, but with the convenience to the customer of only having to deal with one bank. The Bank solicits these deposits from within its market and it believes they present no greater risk than any other local deposit. The Bank had no wholesale brokered CDs at September 30, 2018.

| (Dollars in thousands) | September 30, 2018 | December 31, 2017 | Change Amount | % |
|--|-----------------------|----------------------|------------------|--------|
| Noninterest-bearing checking | \$ 196,478 | \$ 196,853 | \$ (375) | (0.2) |
| Interest-bearing checking | 295,049 | 280,944 | 14,105 | 5.0 |
| Money management | 431,200 | 415,045 | 16,155 | 3.9 |
| Savings | 81,394 | 78,868 | 2,526 | 3.2 |
| Total interest-bearing checking and savings | 807,643 | 774,857 | 32,786 | 4.2 |
| Time deposits | 67,736 | 75,471 | (7,735) | (10.2) |
| Total deposits | \$ 1,071,857 | \$ 1,047,181 | \$ 24,676 | 2.4 |
| Overdrawn deposit accounts reclassified as loans | \$ 105 | \$ 154 | | |

Borrowings:

The Corporation had no short-term borrowings at September 30, 2018 and December 31, 2017.

Other Liabilities:

The \$8.7 million decrease in other liabilities is primarily due to the payout of the \$10.0 million legal settlement.

Shareholders' Equity:

Total shareholders' equity decreased \$1.1 million to \$114.0 million at September 30, 2018, from \$115.1 million at the end of 2017. The Corporation's net earnings of \$2.3 million were offset by the cash dividend of \$3.4 million. The Corporation's Dividend Reinvestment Plan (DRIP) added \$529 thousand in new capital from optional cash contributions and \$556 thousand from the reinvestment of quarterly dividends. The Corporation's dividend payout ratio was 146.9% for the first nine months of 2018 compared to 31.7% in 2017. The payout ratio for 2018 was negatively affected by the net loss recorded in the second quarter.

As part of its quarterly dividend decision, the Corporation considers current and future income projections, dividend yield, payout ratio, and current and future capital ratios. For the third quarter of 2018, the Corporation paid a \$0.27 per share dividend, compared to \$0.24 paid in the third quarter of 2017. On October 11, 2018 the Board of Directors declared a \$0.27 per share regular quarterly dividend for the fourth quarter of 2018, which will be paid on November 28, 2018.

In addition, the Corporation considers how dividend decisions may affect the DRIP. On October 12, 2017, the Board of Directors authorized the repurchase of up to 100,000 shares of the Corporation's \$1.00 par value common stock at market prices in open market or privately negotiated transactions beginning October 16, 2017 and continuing through September 30, 2018. During the first nine months of 2018, 2,605 shares were repurchased, compared to no shares repurchased in the first nine months of 2017. The 2017 Repurchase Plan expired on September 30, 2018 and a new plan has not been authorized.

In July 2013, Federal banking regulators approved the final rules from the Basel Committee on Banking Supervision for the regulation of capital requirements for bank holding companies and U.S banks, generally referred to as "Basel III." The Basel III standards were effective for the Corporation and the Bank, effective January 1, 2015 (subject to a phase-in period for certain provisions). Basel III imposes significantly higher capital requirements and more restrictive leverage and liquidity ratios than those previously in place. The capital ratios to be considered "well capitalized" under Basel III are: (1) Common Equity Tier 1 (CET1) of 6.5%, (2) Tier 1 Leverage of 5%, (3) Tier 1 Risk-Based Capital of 8%, and (4) Total Risk-Based Capital of 10%. The CET1 ratio is a new capital ratio under Basel III and the Tier 1 risk-based capital ratio of 8% has been increased from 6%. The rules also include changes in the risk weights of certain assets to better reflect credit and other risk exposures. In addition, a capital conservation buffer will be phased-in beginning January 1, 2016 at 0.625%, 1.25% for 2017, 1.875% for 2018 and 2.50% for 2019 and thereafter. The capital conservation buffer will be applicable to all of the capital ratios except for the Tier 1 Leverage ratio. The capital conservation buffer is equal to the lowest value of the three applicable capital ratios less the regulatory minimum for each respective capital measurement. The Bank's capital conservation buffer at September 30, 2018 was 6.89% (total risk-based capital 14.89% less 8.00%) compared to the 2018 regulatory buffer of 1.875%. Compliance with the capital conservation buffer is required in order to avoid limitations to certain capital distributions. As of September 30, 2018, the Bank was "well capitalized" under the Basel III requirements and believes it would be "well capitalized" on a fully-phased in basis had such a requirement been in effect.

The following table summarizes regulatory capital information as of September 30, 2018 and December 31, 2017 for the Corporation and the Bank. The ratios have decreased since December 31, 2017 due to the net loss caused by the impairment charges for the Participation, more fully discussed in the Loan Quality section of Management's Discussion and Analysis.

| (Dollars in thousands) | September 30, 2018 | December 31, 2017 | Regulatory Ratios | |
|--|-----------------------|----------------------|--------------------------------------|--------------------------------|
| | | | Adequately Capitalized Minimum | Well Capitalized Minimum |
| Common Equity Tier 1 Risk-based Capital Ratio (1) | | | | |
| Franklin Financial Services Corporation | 13.64% | 14.06% | 4.500% | N/A |
| Farmers & Merchants Trust Company | 13.42% | 13.93% | 4.500% | 6.50% |
| Tier 1 Risk-based Capital Ratio (2) | | | | |
| Franklin Financial Services Corporation | 13.64% | 14.06% | 6.000% | N/A |
| Farmers & Merchants Trust Company | 13.42% | 13.93% | 6.000% | 8.00% |
| Total Risk-based Capital Ratio (3) | | | | |
| Franklin Financial Services Corporation | 14.89% | 15.31% | 8.000% | N/A |
| Farmers & Merchants Trust Company | 14.68% | 15.19% | 8.000% | 10.00% |
| Tier 1 Leverage Ratio (4) | | | | |
| Franklin Financial Services Corporation | 9.59% | 9.73% | 4.000% | N/A |
| Farmers & Merchants Trust Company | 9.48% | 9.64% | 4.000% | 5.00% |

(1) Common equity Tier 1 capital / total risk-weighted assets (2) Tier 1 capital / total risk-weighted assets

(3) Total risk-based capital / total risk-weighted assets, (4) Tier 1 capital / average quarterly assets

Economy

The Corporation's primary market area includes Franklin, Fulton, Cumberland and Huntingdon Counties, Pennsylvania. This area is diverse in demographic and economic makeup. County populations range from a low of approximately 15,000 in Fulton County to over 249,000 in Cumberland County. Unemployment in the Bank's market area has remained virtually unchanged over the past year and ranges from a low of 3.5% in Cumberland County to 4.9% in Huntingdon County. The market area has a diverse economic base and local industries include warehousing, truck & rail shipping centers, light and heavy manufacturers, health-care, higher education institutions, farming and agriculture, and a varied service sector. The Corporation's primary market area is located in South Central PA and provides easy access to the major metropolitan markets on the east coast via trucking and rail transportation. Because of this, warehousing and distribution companies continue to find the area attractive. The local economy is not overly dependent on any one industry or business and Management believes that the Bank's primary market area continues to be well suited for growth.

The following provides selected economic data for the Bank's primary market:

Economic Data

| | September 30, 2018 | December 31, 2017 |
|---|-----------------------|----------------------|
| Unemployment Rate (seasonally adjusted) | | |
| Market area range (1) | 3.5% - 4.9% | 3.4 - 4.5% |
| Pennsylvania | 4.2% | 4.6% |
| United States | 3.9% | 4.1% |
| Housing Price Index - year over year change | | |
| PA, nonmetropolitan statistical area | 4.4% | 2.3% |
| United States | 6.6% | 6.3% |
| Building Permits - year over year change -12 months | | |
| Harrisburg-Carlisle, PA MSA & Chambersburg-Waynesboro, PA MSA | | |
| Residential, estimated | 10.0% | 5.2% |
| Multifamily, estimated | 97.1% | -27.8% |

(1) Franklin, Cumberland, Fulton and Huntingdon Counties

Unlike many companies, the assets and liabilities of the Corporation are financial in nature. As such, interest rates and changes in interest rates may have a more significant effect on the Corporation's financial results than on other types of industries. Because of this, the Corporation watches the actions of the Federal Reserve Open Market Committee (FOMC) as it makes decisions about interest rate changes. In September 2018, the FOMC increased the federal funds rate target range by .25%, its seventh such increase since December 31, 2016. Despite these actions, the yield curve has flattened during the year. Looking through the remainder of 2018, the FOMC continues to state that the timing and magnitude of rate increases will be data dependent. Market forecasts predict another FOMC rate change in December 2018 and possibly three more increases in 2019. However, the actions of the FOMC with regard to the direction and magnitude of rate changes is never certain.

Liquidity

The Corporation must meet the financial needs of the customers that it serves, while providing a satisfactory return on the shareholders' investment. In order to accomplish this, the Corporation must maintain sufficient liquidity in order to respond quickly to the changing level of funds required for both loan and deposit activity. The goal of liquidity management is to meet the ongoing cash flow requirements of depositors who want to withdraw funds and of borrowers who request loan disbursements. The Bank regularly reviews its liquidity position by measuring its projected net cash flows (in and out) at a 30 and 90-day interval. The Bank stresses the measurements by assuming a level of deposit out-flows that have not historically been realized. In addition to this forecast, other funding sources are reviewed as a method to provide emergency funding if necessary. The objective of this measurement is to identify the amount of cash that could be raised quickly without the need to liquidate assets. The Bank also stresses its liquidity position utilizing different longer-term scenarios. The varying degrees of stress create pressure on deposit flows in its local market, reduce access to wholesale funding and limit access of funds available through brokered deposit channels. In addition to stressing cash flow, specific liquidity risk indicators are monitored to help identify risk

areas. This analysis helps identify and quantify the potential cash surplus/deficit over a variety of time horizons to ensure the Bank has adequate funding resources. Assumptions used for liquidity stress testing are subjective. Should an evolving liquidity situation or business cycle present new data, potential assumption changes will be considered. The Bank believes it can meet all anticipated liquidity demands.

Historically, the Corporation has satisfied its liquidity needs from earnings, repayment of loans and amortizing investment securities, maturing investment securities, loan` sales, deposit growth and its ability to access existing lines of credit. All investment securities are classified as available for sale; therefore, securities that are not pledged as collateral for borrowings are an additional source of readily available liquidity, either by selling the security or, more preferably, to provide collateral for additional borrowing. At September 30, 2018, the Bank had \$86.9 million (fair value) in its investment portfolio pledged as collateral for deposits. The Bank also has access to other wholesale funding via the brokered CD market.

The FHLB system has always been a major funding source for community banks. The Bank's maximum borrowing capacity with the FHLB at September 30, 2018 was \$337.7 million with \$337.7 million available to borrow. There are no indicators that lead the Bank to believe the FHLB would discontinue its lending function or restrict the Bank's ability to

borrow. If either of these events would occur, it would have a negative effect on the Bank and it is unlikely that the Bank could replace the level of FHLB funding in a short time.

The Bank has established credit at the Federal Reserve Discount Window and as of quarter-end had the ability to borrow approximately \$19 million.

Off Balance Sheet Commitments

The Corporation's financial statements do not reflect various commitments that are made in the normal course of business, which may involve some liquidity risk. These commitments consist mainly of unfunded loans and letters of credit made under the same standards as on-balance sheet instruments. Because these instruments have fixed maturity dates, and because many of them will expire without being drawn upon, they do not generally present any significant liquidity risk to the Corporation. Unused commitments and standby letters of credit totaled \$303.6 million and \$300.1 million, respectively, at September 30, 2018 and December 31, 2017. As of June 30, 2018, the Bank established a \$2.4 million allowance against letters of credit issued as part of the Participation discussed in the Loan Quality section.

The Corporation has entered into various contractual obligations to make future payments. These obligations include time deposits, long-term debt, operating leases, deferred compensation and pension payments. These amounts have not changed materially from those reported in the Corporation's 2017 Annual Report on Form 10-K.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

There were no material changes in the Corporation's exposure to market risk during the nine months ended September 30, 2018. For more information on market risk refer to the Corporation's 2017 Annual Report on Form 10-K.

Item 4. Controls and Procedures

Evaluation of Controls and Procedures

The Corporation carried out an evaluation, under the supervision and with the participation of the Corporation's management, including the Corporation's Chief Executive Officer and Chief Financial Officer, of the effectiveness of its disclosure controls and procedures, as defined in Exchange Act Rules 13a-15(e) and 15d-15(e). Based upon the evaluation, the Corporation's Chief Executive Officer and Chief Financial Officer concluded that as of September 30, 2018, the Corporation's disclosure controls and procedures are effective. Disclosure controls and procedures are controls and procedures that are designed to ensure that information required to be disclosed in the Corporation's reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. There were no changes in the Corporation's internal control over financial reporting during the quarterly period ended September 30, 2018, that have materially affected, or are reasonably likely to materially affect, the internal control over financial reporting.

The management of the Corporation is responsible for establishing and maintaining adequate internal control over financial reporting. The Corporation's internal control system is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Part II – OTHER INFORMATION

Item 1. Legal Proceedings

The nature of the Corporation's business generates a certain amount of litigation. In management's opinion, there are no proceedings pending to which the Corporation is a party or to which its property is subject which, if determined adversely to the Corporation, would be material. No material proceedings are pending or are known to be threatened or contemplated against us by any governmental authorities.

As described in our current report on Form 8-K filed on August 3, 2018, the court entered an order on July 31, 2018 granting final approval of the settlement agreements in the Kalan et al. v. Farmers and Merchants Trust Company of Chambersburg, et al. (Case No. 2:15-CV-01435-WB) case filed against F&M Trust in the United States District Court for the Eastern District of Pennsylvania in March, 2015 and described in our current reports on Form 8-K filed July 29, 2016, July 28, 2017, November 3, 2017, January 2, 2018, April 13, 2018, May 7, 2018 and August 3, 2018. Among other things, the order also dismissed the case against F&M Trust with prejudice; certified the settlement class; and, permanently

enjoined the named plaintiffs and the members of the settlement class from asserting any further claims arising out of or related to the claims alleged or that could have been alleged in the case against F&M Trust. The settlement agreements provide for the Bank to make a settlement payment of \$10 million in full and final settlement of all such claims. The settlement agreements further provide for general releases by all parties. F&M Trust made the settlement payment in May, 2018, in accordance with the court's earlier order preliminarily approving the settlement agreements. The Corporation previously accrued the \$10 million settlement payment as an expense for the year ended December 31, 2017.

Item 1A. Risk Factors

Except as set forth below, there were no material changes in the Corporation's risk factors during the nine months ended September 30, 2018. For more information, refer to the Corporation's 2017 Annual Report on Form 10-K.

Our business and financial results could be impacted materially by adverse results in legal proceedings.

The nature of the Corporation's business generates a certain amount of litigation involving matters arising in the ordinary course of business (and, in some cases, from the activities of companies we have acquired). These legal proceedings, whether founded or unfounded, could result in reputation damage and have an adverse effect on our financial condition and results of operation if they are not resolved in a manner favorable to the Corporation. Although we establish accruals for legal proceedings when information related to the loss contingencies represented by these matters indicates that both a loss is probable and that the amount of the loss can be reasonably estimated, we do not have accruals for all legal proceedings where we face a risk of loss. In addition, due to the inherent subjectivity of the assessments and unpredictability of outcomes of legal proceedings, any amounts that may be accrued or included in estimates of possible losses or ranges of possible losses may not represent the actual loss to the Corporation. We discuss these matters further in Part II, Item 1 Legal Proceedings and in Note 12 Contingencies in the Notes to Consolidated Financial Statements in Part I, Item 1 of this Report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

(Dollars in thousands, except per share)

| Period | Number of Shares Purchased | Weighted Average Price Paid per Share | Dollar Amount of Shares Purchased as Part of Publically Announced Program | Shares Yet To Be Purchased Under Program |
|------------|----------------------------|---------------------------------------|---|--|
| March 2018 | 2,605 | \$ 33.80 | \$ 88 | 97,395 |
| | 2,605 | \$ 33.80 | | |

These shares were acquired through stock swap transactions by the exercise of incentive stock options. No shares were repurchased in the second or third quarters of 2018. The 2017 Repurchase Plan expired on September 30, 2018 and a new plan has not been authorized.
