**Item 2.06 Material Impairments.**

On January 28, 2009, Newport Corporation (the Registrant) concluded that it will be required to record a non-cash impairment charge to reduce the carrying value of goodwill and certain other intangible assets associated with the Registrant's Lasers Division, due primarily to the adverse impact of the current macroeconomic business environment on the Lasers Division's financial outlook, and to the significant reduction in market capitalization of the Registrant and other companies in the laser industry. The Registrant expects to record a non-cash charge of approximately \$120 million, representing the Registrant's total goodwill balance and certain other intangible assets associated with its Lasers Division. The Registrant also expects that, as a result of recording these non-cash impairment charges, it will be required to re-establish the portion of the valuation allowance against its U.S. deferred tax assets that was previously released in the Registrant's fourth quarter of 2007 and to recognize other deferred tax liabilities associated with indefinite-lived intangible assets, resulting in non-cash charges to income tax expense totaling approximately \$25 million. The Registrant expects to record these charges in its fourth quarter and fiscal year ended January 3, 2009. A breakdown of these expected charges is as follows:

*(In millions)*

Goodwill impairment charge	\$ 105
Impairment charge on certain other intangible assets	15
Income tax expense to re-establish valuation allowance and recognize other deferred tax liabilities	25
 Total anticipated charges	 \$ 145
