President's Letter

[PHOTO OMITTED]

Dear Shareholder,

This semi-annual report covers the period of November 1, 2004, to April 30, 2005, a period where the convertible market declined and high-yield markets were generally flat. Although the CALAMOS CONVERTIBLE OPPORTUNITIES AND INCOME FUND (NYSE: CHI) dropped slightly in price during the period, it produced a steady, significant monthly dividend for shareholders, and continues to trade at a premium to its underlying portfolio's NAV (net asset value). As a refresher to some of our shareholders, a closed-end fund is traded on an exchange, where buyers and sellers determine the price of the fund. The fund thus may trade at a premium (higher than NAV) or at a discount (lower than NAV).

Designed to provide total return through a combination of capital appreciation and current income, the Fund makes use of convertible and high-yield securities in a flexible, opportunistic manner to achieve this goal. It is important to note that while convertible and high-yield bonds provide income to the portfolio, they also provide the opportunity for capital appreciation, as they are more equity sensitive than traditional fixed income bonds. By dynamically combining these securities, we aim for long term total return, combining significant current income with equity market participation.

For the semi-annual period, questions over the strength of the economy dampened high yield bonds, while convertibles dropped due to declines in the volatility of equities and excessive selling by hedge funds. We think the market was driven by short-term concerns during this semi-annual period, while our portfolios remained positioned to take advantage of longer-term trends. We viewed the convertible market as substantially undervalued in the first portion of 2005, and invested in additional opportunities which we believe offered potentially significant upside yet met our investment team's risk-management criteria.

A recent development worth noting is the Board of Trustees' ratification of a level-rate distribution policy for the Fund, announced in June of 2005. We recognize how important stability of income can be, particularly to closed-end fund investors, and sought to formalize the Fund's aim to providing such stability. At a monthly rate of \$0.15 per share, the Fund's distribution represents an annualized rate of 12% based on the Fund's

CALAMOS CONVERTIBLE OPPORTUNITIES AND INCOME FUND

The views expressed in this report reflect those of Calamos Advisors LLC through June 20, 2005. The manager's views are subject to change at any time based on market and other conditions. This report is submitted for general information for the shareholders of the fund.

Convertible Opportunities and Income Fund President's Letter SEMIANNUAL REPORT 1

President's Letter

initial offering price of \$15.00, and equates to \$1.80 per share on an annual basis. We believe that the adoption of a level rate distribution policy has the potential to serve the long-term interests of you as a CHI shareholder, as consistent, dependable distributions can be an important component of your total return goals. If any distribution exceeds the Fund's net investment company

taxable income, the excess will generally be a tax-free return of capital.

Together, the Fund's portfolio management team's risk-managed approach, communications efforts, and dividend policy are all designed to enhance the value of your investment. We believe that the Fund's flexible mandate and its focus on long-term total return provides the potential to create long term wealth for shareholders, while our risk management and dividend commitment provide downside protection and current, dependable income. As a portfolio manager—and shareholder—I remain committed to striving to help you meet your long-term investment goals. Thank you for your confidence in CALAMOS INVESTMENTS and CHI.

Sincerely,

/s/ John P. Calamos

JOHN P. CALAMOS, SR.

Chairman, Chief Executive Officer and Co-Chief Investment Officer

Schedule of Investments

APRIL 30, 2005 (UNAUDITED)

NOTES TO SCHEDULE OF INVESTMENTS

NOTE: VALUES FOR SECURITIES DENOMINATED IN FOREIGN CURRENCIES ARE SHOWN IN U.S. DOLLARS.

- * 144A securities are those that are exempt from registration under Rule 144A of the Securities Act of 1933, as amended. These securities are generally issued to qualified institutional buyers ("QIBs"), such as the Fund. Any resale of these securities must generally be effected through a sale that is exempt from registration (e.g. a sale to another QIB), or the security must be registered for public sale. At April 30, 2005, the market value of 144A securities that could not be exchanged to the registered form was \$85,243,393 or 11.5% of net assets applicable to common shareholders of the Fund.
- ^ Security, or portion of security, is on loan.
- # Non-Income producing security.
- + Security was purchased at a price that takes into account the value, if any, of accrued but unpaid interest.
- ++ Variable rate security. The interest rate shown is the rate in effect at April 30, 2005.

Notes to Financial Statements (unaudited)

NOTE 1 - ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

ORGANIZATION. CALAMOS Convertible Opportunities and Income Fund (the "Fund") was organized as a Delaware statutory trust on April 17, 2002 and is registered under the Investment Company Act of 1940 as a diversified, closed-end management investment company. The Fund commenced operations on June 28, 2002.

The Fund's investment objective is to provide total return, through a combination of capital appreciation and current income. Under normal circumstances the Fund will invest at least 80% of its managed assets in a diversified portfolio of convertible and non-convertible income securities. "Managed Assets" means the total assets of the Fund (including any assets attributable to any leverage that may be outstanding) minus total liabilities (other than debt representing financial leverage).

PORTFOLIO VALUATION. In computing the net asset value of the Fund, portfolio securities, except exchange traded option securities, that are traded on a securities exchange in the United States are valued at the last reported sale price as of the time of valuation, or lacking any current reported sale at the time of valuation, at the mean between the most recent bid and asked quotations. Each security traded in the over-the-counter market and quoted on the NASDAQ National Market System, is valued at the Nasdaq Official Closing Price ("NOCP"), as determined by Nasdaq, or lacking an NOCP, the last current reported sale price as of the time of valuation by Nasdaq, or lacking any current reported sale on Nasdaq at the time of valuation, at the mean between the most recent bid and asked quotations. Each option security traded on a securities exchange in the United States is valued at the last current reported sale price as of the time of valuation if the last current reported sale price falls within the consolidated bid/ask quote for the option security. If the last current reported sale price as of the time of valuation does not fall within the consolidated bid/ask quote for such option security, such security is valued at the mid-point of the consolidated bid/ask quote for the option security. Each over-the-counter option that is not traded through the Options Clearing Corporation is valued by the counterparty, or if the counterparty's price is not readily available then by using the Black-Scholes method. Each other security traded over-the-counter is valued at the mean between the most recent bid and asked quotations. Short-term securities with maturities of 60 days or less are valued at amortized cost, which approximates market value.

When market quotations are not readily available or when the valuation methods mentioned above are not reflective of the fair value of the security, the security is priced at a fair value following procedures and/or guidelines approved by the Board of Trustees, which may include utilizing a systematic fair

valuation model provided by an independent pricing system. The Fund may also use fair value pricing, if the value of a security it holds is, pursuant to Board of Trustees' guidelines, materially affected by events occurring before the Fund's pricing time but after the close of the primary market or exchange on which the security is traded. These procedures may utilize valuations furnished by pricing services approved by the Board of Trustees, which may be based on market transactions for comparable securities and various relationships between securities that are generally recognized by institutional traders, a computerized matrix system, or appraisals derived from information concerning the securities or similar securities received from recognized dealers in those securities. When fair value pricing is employed, the value of the portfolio security used to calculate the Fund's net asset value may differ from quoted or official closing prices.

Securities that are principally traded in a foreign market are valued at the last current sale price at the time of valuation or lacking any current or reported sale at the time of valuation, at the mean between the most recent bid and asked quotations as of the close of the appropriate exchange or other designated time. Trading in securities on European and Far Eastern securities exchanges and over-the-counter markets is normally completed at various times before the close of business on each day on which the New York Stock Exchange ("NYSE") is open. Trading of these securities may not take place on every NYSE business day. In addition, trading may take place in various foreign markets on Saturdays or on other days when the NYSE is not open and on which the Fund's net asset value is not calculated. As stated above, if the market prices are not readily available or are not reflective of the fair value of the security, the security will be priced at a fair value following procedures approved by the Board of Trustees. In light of the judgment involved in fair value decisions, there can be no assurance that a fair value assigned to a particular security is accurate.

Convertible Opportunities and Income Fund
14 SEMIANNUAL REPORT Notes to Financial Statements

Notes to Financial Statements (unaudited)

INVESTMENT TRANSACTIONS AND INVESTMENT INCOME. Short-term investment transactions are recorded on a trade date basis. Long-term investment transactions are recorded on a trade date plus one basis, except for fiscal quarter ends, which are recorded on trade date. Net realized gains and losses from investment transactions are reported on an identified cost basis. Interest income is recognized using the accrual method and includes accretion of original issue and market discount and amortization of premium.

Dividend income is recognized on the ex-dividend date, except that certain dividends from foreign securities are recorded as soon as the information becomes available.

FOREIGN CURRENCY TRANSLATION. Except for securities of foreign issuers valued by a pricing service, values of investments and other assets and liabilities denominated in foreign currencies are translated into U.S. dollars using a rate selected by the advisor from rates quoted by any major bank or dealer in the particular currency market, as reported by a recognized quotation dissemination service.

The Fund does not isolate that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from changes in market prices of securities held. Such fluctuations are included with the net realized and unrealized gain or loss from investments.

Reported net realized foreign currency gains or losses arise from disposition of foreign currency, foreign currency gains or losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest and foreign withholding taxes recorded on the Fund's books on the transaction date and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes (due to the changes in the exchange rate) in the value of foreign currency and other assets and liabilities denominated in foreign currencies held at period end.

OPTION TRANSACTIONS. For hedging and investment purposes, the Fund may purchase or write (sell) put and call options. One of the risks associated with purchasing an option among others, is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of premium and change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased by premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, an amount equal to the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current value of the option written. Premiums received from writing options that expire unexercised are treated by the Fund on the expiration date as realized gains from investments. The difference between the premium and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or, if the premium is less than the amount paid for the closing purchase transaction, as a realized loss. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a written put option is exercised, the premium reduces the cost basis of the securities purchased by the Fund. The Fund as writer of an option bears the market risk of an unfavorable change in the price of the security underlying the written option.

USE OF ESTIMATES. The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

INCOME TAXES. No provision has been made for income taxes because the Fund's policy is to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code and distribute to shareholders substantially all of its taxable income and gains.

Dividends and distributions paid to shareholders are recorded on the ex-dividend date. The amount of dividends and distributions from net investment income and net realized capital gains is determined in accordance with Federal income tax regulations, which

Convertible Opportunities and Income Fund Notes to Financial Statements SEMIANNUAL REPORT 15

Notes to Financial Statements (unaudited)

may differ from U.S. generally accepted accounting principles. To the extent these "book/tax" differences are permanent in nature such amounts are

reclassified within the capital accounts based on their Federal tax-basis treatment. These differences are primarily due to differing treatments for foreign currency transactions, contingent payment debt instruments and methods of amortizing and accreting on fixed income securities. Financial records are not adjusted for temporary differences.

NOTE 2 - INVESTMENT ADVISOR AND TRANSACTIONS WITH AFFILIATES OR CERTAIN OTHER PARTIES

Pursuant to an investment advisory agreement with Calamos Advisors LLC ("Calamos Advisors"), the Fund pays an annual fee, payable monthly, equal to 0.80% based on the average weekly managed assets. Calamos Advisors has contractually agreed to waive a portion of its management fee at the annual rate of 0.25% of the average weekly managed assets of the Fund for the first five full years of the Fund's operation (through June 30, 2007) and to waive a declining amount for an additional three years (0.18% of the average weekly managed assets in 2008, 0.11% in 2009, and 0.04% in 2010).

Effective November 1, 2004 Calamos Advisors receives a fee payable monthly at the annual rate of 0.0175% on the first \$1 billion of combined assets; 0.0150% on the next \$1 billion of combined assets; and 0.0110% on combined assets above \$2 billion for financial accounting services (for purposes of this calculation combined assets means the net assets of Calamos Investment Trust and Calamos Advisors Trust, and the managed assets of Calamos Convertible and High Income Fund, Calamos Convertible Opportunities and Income Fund and Calamos Strategic Total Return Fund). Financial accounting services include, but are not limited to, the following: managing expenses and expense payment processing; monitoring the calculation of expense accrual amounts; calculating, tracking, and reporting tax adjustments on all assets and monitoring trustee deferred compensation plan accruals and valuations. The Fund will pay its pro rata share of the financial accounting services fee payable to Calamos Advisors based on average assets of the Fund.

Certain officers and trustees of the Fund are also officers and directors of Calamos Financial Services LLC ("CFS") and Calamos Advisors. All officers and affiliated trustees serve without direct compensation from the Fund.

The Fund has adopted a deferred compensation plan (the "Plan"). Under the Plan, a trustee who is not an "interested person" of Calamos Advisors and has elected to participate in the Plan (a "participating trustee") may defer receipt of all or a portion of his compensation from the Fund. The deferred compensation payable to the participating trustee is credited to the trustee's deferral account as of the business day such compensation would have been paid to the participating trustee. The value of a participating trustee's deferred compensation account at any time is equal to what would be the value if the amounts credited to the account had instead been invested in shares of one or more of the Funds of the Calamos Investment Trust as designated by the trustee. Thus, the value of the account increases with contributions to the account or with increases in the value of the measuring shares, and the value of the account decreases with withdrawals from the account or with declines in the value of the measuring shares. If a participating trustee retires, the trustee may elect to receive payments under the plan in a lump sum or in equal installments over a period of five years. If a participating trustee dies, any amount payable under the Plan will be paid to the trustee's beneficiaries. Deferred compensation investments of \$32,361 are included in "Other assets" on the Statement of Assets and Liabilities at April 30, 2005. The Fund's obligation to make payments under the Plan is a general obligation of the Fund and is included in "Payable for deferred compensation to Trustees" on the Statement of Assets and Liabilities at April 30, 2005.

NOTE 3 - INVESTMENTS

Purchases and sales of investments other than short-term obligations For the six months ended April 30, 2005 were as follows:

Purchases \$ 247,655,081 Proceeds from sales 258,054,753

Convertible Opportunities and Income Fund
16 SEMIANNUAL REPORT Notes to Financial Statements

Notes to Financial Statements (unaudited)

The following information is presented on an income tax basis as of April 30, 2005. Differences between amounts for financial statements and Federal income tax purposes are primarily due to timing differences.

The cost basis of investments for federal income tax purposes at April 30, 2005 was as follows:

Net unrealized appreciation (depreciation)	\$	32,245,187
Gross unrealized appreciation Gross unrealized depreciation		67,228,076 (34,982,889)
Cost basis of investments	\$ 1	,221,676,371

NOTE 4 - INCOME TAXES

Distributions during the fiscal year ended October 31, 2004 were characterized for income tax purposes as follows:

DISTRIBUTIONS PAID FROM:

Net investment income	\$ 99,594,856
Capital gains	5,444,071
As of October 31, 2004, the components of net assets on a tax basis were as follows:	
Undistributed ordinary income	\$ 8,298,735
Undistributed capital gains	49,394,028
Total undistributed earnings	 57,692,763
Accumulated capital and other losses	
Net unrealized gains/(losses)	 107,844,425
Total accumulated earnings/(losses)	165,537,188
Other	(80,731)
Paid-in capital	642,822,029
	\$ 808,278,486

NOTE 5 - COMMON STOCK

There are unlimited common shares of beneficial interest authorized and 45,687,414 shares outstanding at April 30, 2005. Calamos Advisors LLC owned 8,358 of the outstanding shares. Transactions in common shares were as follows:

	For the Six Months Ended April 30, 2005 (unaudited)	For the Year Ended October 31, 2004
Beginning shares Shares sold Shares issued through reinvestment of distributions	44,833,669 853,745	43,904,538 929,131
Ending shares	45,687,414	44,833,669

NOTE 6 - FORWARD FOREIGN CURRENCY CONTRACTS

The Fund may engage in portfolio hedging with respect to changes in currency exchange rates by entering into foreign currency contracts to purchase or sell currencies. A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. Risks associated with such contracts include, among other things, movement in the value of the foreign currency relative to the U.S. dollar and the ability of the counterparty to perform. The net unrealized gain, if

Convertible Opportunities and Income Fund Notes to Financial Statements SEMIANNUAL REPORT 17

Notes to Financial Statements (unaudited)

any, represents the credit risk to the Fund on a forward foreign currency contract. The contracts are valued daily at forward exchange rates and an unrealized gain or loss is recorded. The Fund realizes a gain or loss upon settlement of the contracts. There were no open forward foreign currency contracts at April 30, 2005.

NOTE 7 - SYNTHETIC CONVERTIBLE SECURITIES

The Fund may establish a "synthetic" convertible instrument by combining separate securities that possess the economic characteristics similar to a convertible security, i.e., fixed-income securities ("fixed-income component") and the right to acquire equity securities ("convertible component"). The fixed-income component is achieved by investing in non-convertible, fixed income securities such as bonds, preferred stocks and money market instruments. The convertible component is achieved by investing in warrants or options to buy common stock at a certain exercise price, or options on a stock index. In establishing a synthetic instrument, the Fund may pool a basket of fixed-income securities and a basket of warrants or options that produce the economic characteristics similar to a convertible security. Within each basket of fixed-income securities and warrants or options, different companies may issue the fixed-income and convertible components, which may be purchased separately and at different times.

The Fund may purchase synthetic securities created by other parties, typically investment banks, including convertible structured notes. Convertible structured notes are fixed-income debentures linked to equity. Convertible structured notes have the attributes of a convertible security; however, the investment bank that issued the convertible note assumes the credit risk associated with the investment, rather than the issuer of the underlying common stock into which the note is convertible. Purchasing synthetic convertible securities may offer more

flexibility than purchasing a convertible security. Different companies may issue the fixed-income and convertible components, which may be purchased separately and at different times.

NOTE 8 - PREFERRED SHARES

There are unlimited shares of Auction Market Preferred Shares ("Preferred Shares") authorized. The Preferred Shares have rights as determined by the Board of Trustees. The 15,360 shares of Preferred Shares outstanding consist of seven series, 2,040 shares of M, 2,040 shares of TU, 2,040 shares of W7, 2,400 shares of W28, 2,400 shares of TH7, 2,040 shares of TH28, and 2,400 shares of F. The Preferred Shares have a liquidation value of \$25,000 per share plus any accumulated but unpaid dividends whether or not declared.

Dividends on the Preferred Shares are cumulative at a rate typically reset every seven and twenty-eight days based on the results of an auction. Dividend rates ranged from 1.90% to 3.45% for the six months ended April 30, 2005. Under the Investment Company Act of 1940, the Fund may not declare dividends or make other distributions on shares of common stock or purchase any such shares if, at the time of the declaration, distribution or purchase, asset coverage with respect to the outstanding Preferred Shares would be less than 200%.

The Preferred Shares are redeemable at the option of the Fund, in whole or in part, on any dividend payment date at \$25,000 per share plus any accumulated but unpaid dividends. The Preferred Shares are also subject to mandatory redemption at \$25,000 per share plus any accumulated but unpaid dividends, whether or not declared, if certain requirements relating to the composition of the assets and liabilities of the Fund as set forth in the Statement of Preferences are not satisfied.

The holders of Preferred Shares have voting rights equal to the holders of common stock (one vote per share) and will vote together with holders of shares of common stock as a single class except on matters affecting only the holders of Preferred Shares or the holders of common shares.

Convertible Opportunities and Income Fund 18 SEMIANNUAL REPORT Notes to Financial Statements

Notes to Financial Statements (unaudited)

NOTE 9 - INTEREST RATE TRANSACTIONS

The Fund may enter into interest rate swap or cap transactions to attempt to protect itself from increasing dividend or interest expense on its leverage resulting from increasing short-term interest rates. A decline in interest rates may result in a decline in the value of the swap or cap, which may result in a decline in the net asset value of the Fund. In addition, if the counterparty to an interest rate swap or cap defaults, the Fund would not be able to use the anticipated receipts under the swap or cap to offset the dividend or interest payments on the Fund's leverage. At the time an interest rate swap or cap reaches its scheduled termination, there is a risk that the Fund would not be able to obtain a replacement transaction or that the terms of the replacement would not be as favorable as on the expiring transaction. In addition, if the Fund is required to terminate any swap or cap early due to the Fund failing to maintain a required 200% asset coverage of the liquidation value of the outstanding Preferred Shares or the Fund loses its credit rating on its Preferred Shares, then the Fund could be required to make a termination payment, in addition to redeeming all or some of the Preferred Shares. Details of the swap agreements outstanding as of April 30, 2005 were as follows:

TERMINATION DATE	NOTIONAL AMOUNT (000)	FIXED RATE (FUND PAYS)	FLOATING RATE (FUND RECEIVES)	APPRECIATIO (DEPRECIATIO
July 3, 2006	5 \$65 , 000	1.91%	1 month LIBOR	\$ 1,374,64
November 28, 2006	\$60,000	2.82%	1 month LIBOR	922,92
July 3, 2007	7 \$65,000	2.33%	1 month LIBOR	2,283,37
November 28, 2007	\$60,000	3.26%	1 month LIBOR	1,140,51
July 3, 2008	\$70,000	2.69%	1 month LIBOR	2,988,04
November 28, 2008	\$60,000	3.60%	1 month LIBOR	1,099,50

\$ 9,808,99 =======

NOTE 10 - SECURITIES LENDING

During the six months ended April 30, 2005, the Fund lent certain of its securities to broker-dealers and banks. Any such loan must be continuously secured by collateral in cash or cash equivalents maintained on a current basis in an amount at least equal to the market value of the securities loaned by the Fund. The Fund continues to receive the equivalent of the interest or dividends paid by the issuer on the securities loaned and also receives an additional return that may be in the form of a fixed fee or a percentage of the collateral. The Fund may pay reasonable fees to persons unaffiliated with the Fund for services in arranging these loans. The Fund has the right to call the loan and obtain the securities loaned at any time on notice of not more than five business days. The Fund does not have the right to vote the securities during the existence of the loan but could call the loan in an attempt to permit voting of the securities in certain circumstances. Upon return of the securities loaned, the cash or cash equivalent collateral will be returned to the borrower. In the event of bankruptcy or other default of the borrower, the Fund could experience both delays in liquidating the loan collateral or recovering the loaned securities and losses, including (a) possible decline in the value of the collateral or in the value of the securities loaned during the period while the Fund seeks to enforce its rights thereto, (b) possible subnormal levels of income and lack of access to income during this period, and (c) the expenses of enforcing its rights. In an effort to reduce these risks, Calamos Advisors LLC and the security lending agent will monitor the creditworthiness of the firms to which the Fund lends securities. At April 30, 2005, the Fund had securities valued at \$146,344,981 that were on loan to broker-dealers and banks and \$152,104,340 in cash or cash equivalent collateral.

^{*} Commencement of operations.

⁽a) Net of sales load of \$.675 on initial shares issued and beginning net

asset value of \$14,325.

- (b) Interest rate swap payments reclassified from net investment income (loss) to net realized and unrealized gain (loss) on investments, foreign currency and interest rate swaps.
- (c) Based on average shares method.
- (d) Amount equated to less than \$0.05 per common share.
- (e) Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of the period reported. Dividends and distributions are assumed, for purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total return is not annualized for periods less than one year. Brokerage commissions are not reflected.
- (f) Annualized for periods less than one year.
- (g) Calculated by subtracting the Fund's total liabilities (not including Preferred Shares) from the Fund's total assets and dividing this by the number of preferred shares outstanding.

Convertible Opportunities and Income Fund 20 SEMIANNUAL REPORT Financial Highlights

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees and Shareholders of CALAMOS Convertible Opportunities and Income Fund:

We have reviewed the accompanying statement of assets and liabilities, including the schedule of investments, of CALAMOS Convertible Opportunities and Income Fund (the "Fund") as of April 30, 2005, and the related statements of operations and changes in net assets and the financial highlights for the semi-annual period then ended. These interim financial statements and financial highlights are the responsibility of the Fund's management.

We conducted our review in accordance with standards of the Public Company Accounting Oversight Board (United States). A review of interim financial information consists principally of applying analytical procedures and making inquiries of persons responsible for financial and accounting matters. It is substantially less in scope than an audit conducted in accordance with the standards of the Public Company Accounting Oversight Board (United States), the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to such interim financial statements and financial highlights for them to be in conformity with accounting principles generally accepted in the United States of America.

We have previously audited, in accordance with standards of the Public Company Accounting Oversight Board (United States), the statement of changes in net assets for the year ended October 31, 2004 and the financial highlights for each of the two years in the period ended October 31, 2004; and in our report dated December 21, 2004, we expressed an unqualified opinion on such statement of changes in net assets and financial highlights.
