

Item 7.01 Regulation FD Disclosure

Hub Group, Inc. (the “Company”) has traditionally provided annual earnings guidance at the time of its quarterly earnings release. The Company believes, consistent with past practice, that it is too early to update its annual earnings guidance. In addition, in light of the current economic situation, it is particularly difficult to provide accurate guidance. However, to aid the investor in evaluating the possible financial performance of the Company in this uncertain economic environment, the Company is providing an estimate of what earnings could be based on certain assumed intermodal volume and pricing levels. Assuming intermodal volume is down between 5% and 10% and intermodal pricing excluding fuel is down between 1% and 5% for the remainder of the year, the Company estimates that diluted earnings per share for the year will be in the range of \$0.78 - \$1.23. The Company is not predicting that intermodal volume and pricing will necessarily decline within these ranges nor should this range be interpreted as earnings guidance. Rather, the foregoing illustrates the impact of certain key variables on the Company’s earnings.

CERTAIN FORWARD-LOOKING STATEMENTS: Statements in this filing that are not historical, including statements about Hub Group's or management's intentions, beliefs, expectations, representations, projections, plans or predictions of the future, are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995.
